Table of Contents**DESCRIPTION OF THE GLOBAL NOTES**

The Floating Rate Global Notes, the % Global Notes and the % Global Notes which we refer to collectively as the Global Notes, will be issued under an indenture, dated as of June 1, 2000, between HP and The Bank of New York Mellon Trust Company, N.A., as successor in interest to J.P. Morgan Trust Company, National Association, as Trustee, which indenture is more fully described in the accompanying prospectus. We refer to the % Global Notes and the % Global Notes collectively as the Fixed Rate Global Notes. The following summary of certain provisions of the Global Notes and of the indenture does not purport to be complete and is qualified in its entirety by reference to the indenture. A copy of the indenture has been incorporated by reference into the registration statement of which this prospectus supplement and the accompanying prospectus are a part. Capitalized terms used but not defined in this prospectus supplement or in the accompanying prospectus have the meanings given to them in the indenture. The term Securities, as used in this section, refers to all securities issuable from time to time under the indenture.

General

All Securities, including the Floating Rate Global Notes and the Fixed Rate Global Notes, to be issued under the indenture will be our senior unsecured obligations and will rank on the same basis with all of our other senior unsecured indebtedness from time to time outstanding. The Floating Rate Global Notes and each series of Fixed Rate Global Notes are each a separate series of senior debt securities referred to in the attached prospectus. The indenture does not limit the aggregate principal amount of Securities that may be issued under the indenture. Without the consent of the holders, we may increase the aggregate principal amount of any series of Global Notes in the future on the same terms and conditions (except, in some cases, for the initial interest payment date) and with the same CUSIP numbers as the Global Notes being offered hereby. Securities may be issued under the indenture from time to time as a single series or in two or more separate series up to the aggregate principal amount authorized by us from time to time for the Global Notes. The additional securities shall in all cases be fungible with the Global Notes for United States federal tax purposes.

The Floating Rate Global Notes are being offered initially in the aggregate principal amount of \$, the % Global Notes are being offered initially in the aggregate principal amount of \$ and the % Global Notes are being offered initially in the aggregate principal amount of \$. The Floating Rate Global Notes will mature on , 2011. The % Global Notes will mature on , 2011. The % Global Notes will mature on , 2012. The Floating Rate Global Notes will bear interest at a floating rate equal to three-month USD LIBOR plus % per annum, as described under Interest Floating Rate Global Notes. The % Global Notes will bear interest at the rate of % per year, as described under Interest % Global Notes. The % Global Notes will bear interest at the rate of % per year, as described under Interest % Global Notes. If the maturity date of any series of the Global Notes falls on a day that is not a business day, payment of principal, premium, if any, and interest for such Global Notes then due will be paid on the next business day. No interest on that payment will accrue from and after the maturity date. Payments of principal, premium, if any, and interest on the Global Notes will be made by us through the Trustee to the depositary. See Description of the Debt Securities Global Securities in the accompanying prospectus. The Global Notes will be issued in the form of one or more fully registered global securities in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. The covenant provisions of the indenture described under the caption Description of the Debt Securities Senior Debt Securities Covenants in the Senior Indenture in the accompanying prospectus will apply to the Global Notes.

Table of Contents

We may redeem some or all of the Fixed Rate Global Notes at any time, as described below under **Optional Redemption of Fixed Rate Global Notes**.

Interest

Floating Rate Global Notes

The Floating Rate Global Notes will bear interest for each interest period at a rate determined by the calculation agent. The calculation agent is The Bank of New York Mellon Trust Company, N.A. until such time as we appoint a successor calculation agent. The interest rate on the Floating Rate Global Notes for a particular interest period will be a per annum rate equal to three-month USD LIBOR as determined on the interest determination date plus % . The interest determination date for an interest period will be the second London business day preceding the first day of such interest period. Promptly upon determination, the calculation agent will inform the Trustee and us of the interest rate for the next interest period. Absent manifest error, the determination of the interest rate by the calculation agent shall be binding and conclusive on the holders of the Floating Rate Global Notes, the Trustee and us. A London business day is a day on which dealings in deposits in U.S. dollars are transacted in the London interbank market.

Interest on the Floating Rate Global Notes will be paid to but excluding the relevant interest payment date. We will make interest payments on the Floating Rate Global Notes quarterly in arrears on , , and of each year, beginning on , 2009, to the person in whose name those notes are registered at the close of business on the business day immediately preceding the interest payment date. Interest on the Floating Rate Global Notes will accrue from and including May , 2009, to but excluding the first interest payment date and then from and including the immediately preceding interest payment date to which interest has been paid or duly provided for to but excluding the next interest payment date or maturity date, as the case may be. We refer to each of these periods as an interest period. The amount of accrued interest that we will pay for any interest period can be calculated by multiplying the face amount of the Floating Rate Global Notes then outstanding by an accrued interest factor. This accrued interest factor is computed by adding the interest factor calculated for each day from May , 2009, or from the last date we paid interest to you, to the date for which accrued interest is being calculated. The interest factor for each day is computed by dividing the interest rate applicable to that day by 360. If an interest payment date for the Floating Rate Global Notes falls on a day that is not a business day, the interest payment date shall be postponed to the next succeeding business day unless such next succeeding business day would be in the following month, in which case, the interest payment date shall be the immediately preceding business day.

On any interest determination date, LIBOR will be equal to the offered rate for deposits in U.S. dollars having an index maturity of three months, in amounts of at least \$1,000,000, as such rate appears on Reuters Page LIBOR01 at approximately 11:00 a.m., London time, on such interest determination date. If on an interest determination date, such rate does not appear on the Reuters Page LIBOR01 as of 11:00 a.m., London time, or if the Reuters Page LIBOR01 is not available on such date, the calculation agent will obtain such rate from Bloomberg L.P. s page BBAM.

If no offered rate appears on Reuters Page LIBOR01 or Bloomberg L.P. page BBAM on an interest determination date at approximately 11:00 a.m., London time, then the calculation agent (after consultation with us) will select four major banks in the London interbank market and shall request

Table of Contents

each of their principal London offices to provide a quotation of the rate at which three-month deposits in U.S. dollars in amounts of at least \$1,000,000 are offered by it to prime banks in the London interbank market, on that date and at that time, that is representative of single transactions at that time. If at least two quotations are provided, LIBOR will be the arithmetic average of the quotations provided. Otherwise, the calculation agent will select three major banks in New York City and shall request each of them to provide a quotation of the rate offered by them at approximately 11:00 a.m., New York City time, on the interest determination date for loans in U.S. dollars to leading European banks having an index maturity of three months for the applicable interest period in an amount of at least \$1,000,000 that is representative of single transactions at that time. If three quotations are provided, LIBOR will be the arithmetic average of the quotations provided. Otherwise, the rate of LIBOR for the next interest period will be set equal to the rate of LIBOR for the then current interest period.

Upon request from any holder of Floating Rate Global Notes, the calculation agent will provide the interest rate in effect for the Floating Rate Global Notes for the current interest period and, if it has been determined, the interest rate to be in effect for the next interest period.

All percentages resulting from any calculation of the interest rate on the Floating Rate Global Notes will be rounded to the nearest one hundred-thousandth of a percentage point with five one millionths of a percentage point rounded upwards (e.g., 9.876545% (or .09876545) would be rounded to 9.87655% (or .0987655)), and all dollar amounts used in or resulting from such calculation on the Floating Rate Global Notes will be rounded to the nearest cent (with one-half cent being rounded upward). Each calculation of the interest rate on the notes by the calculation agent will (in absence of manifest error) be final and binding on the holders and us.

The interest rate on the Floating Rate Global Notes will in no event be higher than the maximum rate permitted by New York law as the same may be modified by United States law of general application.

% Global Notes

The % Global Notes will bear interest at the rate of % per year. We will make interest payments on the % Global Notes semi-annually in arrears on and of each year, beginning on , 2009, to the holders of record of the % Global Notes at the close of business on the fifteenth day (whether or not a business day) immediately preceding the related interest payment date. Interest on the % Global Notes will accrue from and including May , 2009, to but excluding the first interest payment date and then from and including the immediately preceding interest payment date to which interest has been paid or duly provided for to but excluding the next interest payment date or maturity date, as the case may be. Interest on the % Global Notes will be paid on the basis of a 360-day year comprised of twelve 30-day months. If an interest payment date on the % Global Notes falls on a date that is not a business day, the interest payment date shall be postponed to the next succeeding business day.

% Global Notes

The % Global Notes will bear interest at the rate of % per year. We will make interest payments on the % Global Notes semi-annually in arrears on and of each year, beginning on , 2009, to the holders of record of the % Global Notes at the

Table of Contents

close of business on the fifteenth day (whether or not a business day) immediately preceding the related interest payment date. Interest on the % Global Notes will accrue from and including May , 2009, to but excluding the first interest payment date and then from and including the immediately preceding interest payment date to which interest has been paid or duly provided for to but excluding the next interest payment date or maturity date, as the case may be. Interest on the % Global Notes will be paid on the basis of a 360-day year comprised of twelve 30-day months. If an interest payment date on the % Global Notes falls on a date that is not a business day, the interest payment date shall be postponed to the next succeeding business day.

Optional Redemption of Fixed Rate Global Notes

We will have the right to redeem each of the % Global Notes and the % Global Notes, in whole or in part, at any time on at least 30 days but no more than 60 days prior written notice. The redemption price will be equal to the greater of (1) 100% of the principal amount of the applicable series of Fixed Rate Global Notes to be redeemed, and (2) the sum, as determined by us based on the Reference Treasury Dealer Quotations, of the present value of the principal amount of the applicable Fixed Rate Global Notes to be redeemed and the remaining scheduled payments of interest thereon from the redemption date to the maturity date (the Remaining Life) discounted from the scheduled payment dates to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate (as defined below) plus basis points in the case of the % Global Notes and basis points in the case of the % Global Notes. Accrued and unpaid interest on the principal amount being redeemed will be paid to, but excluding, the redemption date.

If money sufficient to pay the redemption price of and accrued interest on the series of Fixed Rate Global Notes (or portions thereof) to be redeemed on the redemption date is deposited with the Trustee or paying agent on or before the redemption date and certain other conditions are satisfied, then on and after the redemption date, interest will cease to accrue on such Fixed Rate Global Notes (or such portion thereof) called for redemption and such Fixed Rate Global Notes will cease to be outstanding. If any redemption date is not a business day, we will pay the redemption price on the next business day without any interest or other payment due to the delay.

If fewer than all of the Fixed Rate Global Notes of a series are to be redeemed, the Trustee will select the Fixed Rate Global Notes of such series for redemption on a pro rata basis, by lot or by such other method as the Trustee deems appropriate and fair. No Fixed Rate Global Notes of \$1,000 or less will be redeemed in part.

Comparable Treasury Issue means the United States Treasury security selected by a Reference Dealer appointed by HP as having a maturity comparable to the Remaining Life that would be utilized, at the time of selection, and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity with the Remaining Life.

Comparable Treasury Price means, with respect to any redemption date, the average of three Reference Treasury Dealer Quotations for such redemption date.

Reference Treasury Dealer means each of Banc of America Securities LLC, Credit Suisse Securities (USA) LLC and Morgan Stanley & Co. Incorporated and their respective successors; provided, however, that if any of the foregoing shall cease to be a primary U.S. Government securities

Table of Contents

dealer in New York City (a Primary Treasury Dealer), HP shall substitute therefor another Primary Treasury Dealer.

Reference Treasury Dealer Quotations means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by us, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to us by each Reference Treasury Dealer at 5:00 p.m., New York City time, on the third business day preceding the redemption date; provided that if three such quotations cannot reasonably be obtained by us, but if two such quotations are obtained, then the average of the two quotations shall be used, and if only one such quotation can reasonably be obtained by us, then one quotation shall be used.

Treasury Rate means, with respect to any redemption date, the rate per annum equal to the semiannual equivalent yield to maturity of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for the redemption date.

Book-Entry Notes

The Depository, Clearstream and Euroclear. The Global Notes will be issued in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. Upon issuance, each series of Global Notes will be represented by one or more fully registered global securities. Each global security will be deposited with The Depository Trust Company, as depository, and registered in the name of Cede & Co. Unless and until it is exchanged in whole or in part for notes in definitive form, no global security may be transferred except as a whole by the depository to a nominee of such depository. Investors may elect to hold interests in the global securities through:

the depository in the United States; or

in Europe, (i) Clearstream Banking, société anonyme, referred to in this prospectus supplement as Clearstream, or (ii) Euroclear Bank S.A./N.V., as operator of the Euroclear System, referred to in this prospectus supplement as Euroclear, if they are participants in such systems, or indirectly through organizations which are participants in such systems. Clearstream and Euroclear will hold interests on behalf of their participants through customers' securities accounts in Clearstream's and Euroclear's names on the books of their respective depositories, which in turn will hold such interests in customers' securities accounts in the depositories' names on the books of the depository. Citibank, N.A. will act as depository for Clearstream and JP Morgan Chase Bank will act as depository for Euroclear, and in such capacities are referred to in this prospectus supplement as the U.S. depositories.

Clearstream has advised us that it is a limited liability company organized under Luxembourg law. Clearstream holds securities for its participating organizations, referred to in this prospectus supplement as Clearstream participants, and facilitates the clearance and settlement of securities transactions between Clearstream participants through electronic book-entry changes in accounts of Clearstream participants, thereby eliminating the need for physical movement of certificates. Clearstream provides to Clearstream participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream interfaces with domestic markets in several countries. Clearstream is registered

Table of Contents

as a bank in Luxembourg, and as such is subject to regulation by the Commission de Surveillance du Secteur Financier. Clearstream participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations and may include the underwriters. Indirect access to Clearstream is available to other institutions that clear through or maintain a custodial relationship with a Clearstream participant.

Distributions with respect to the Global Notes held beneficially through Clearstream will be credited to cash accounts of Clearstream participants in accordance with its rules and procedures, to the extent received by the U.S. depository for Clearstream.

Euroclear advises that it was created in 1968 to hold securities for its participants and to clear and settle transactions between Euroclear participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear provides various other services, including securities lending and borrowing and interfaces with domestic markets in several countries.

Euroclear is operated by Euroclear Bank S.A./N.V., referred to in this prospectus supplement in such role as the Euroclear operator, under contract with Euroclear Clearance Systems S.C., a Belgian cooperative corporation, referred to in this prospectus supplement as the cooperative. All operations are conducted by Euroclear Bank S.A./N.V., and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with Euroclear Bank, not the cooperative. The cooperative establishes policy for Euroclear on behalf of Euroclear participants. Euroclear participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the underwriters (Euroclear participants). Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear participant, either directly or indirectly.

Securities clearance accounts and cash accounts with Euroclear Bank are governed by the Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of the Euroclear System, and applicable Belgian laws (collectively, the Euroclear Terms and Conditions). The Euroclear Terms and Conditions govern transfers of securities and cash within Euroclear, withdrawals of securities and cash from Euroclear and receipts of payment with respect to securities in Euroclear. All securities in Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. Euroclear Bank acts under the Euroclear Terms and Conditions only on behalf of Euroclear participants and has no record of or relationship with persons holding through Euroclear participants.

Distributions with respect to beneficial interests in the Global Notes held through Euroclear will be credited to the cash accounts of Euroclear participants in accordance with the Euroclear Terms and Conditions, to the extent received by the Euroclear Bank and by Euroclear.

Global Clearance and Settlement Procedures. Initial settlement for the Global Notes will be made in immediately available funds. Secondary market trading between the depository participants will occur in the ordinary way in accordance with the depository s rules and will be settled in immediately available funds using the depository s Same-Day Funds Settlement System. Secondary market trading between Clearstream participants or Euroclear participants will occur in the ordinary

Table of Contents

way in accordance with the applicable rules and operating procedures of Clearstream and Euroclear and will be settled using the procedures applicable to conventional eurobonds in immediately available funds.

Cross-market transfers between persons holding directly or indirectly through the depositary, on the one hand, and directly or indirectly through Clearstream participants or Euroclear participants, on the other hand, will be effected in the depositary in accordance with the depositary's rules on behalf of the relevant European international clearing system by its U.S. depositary. However, these cross-market transactions will require delivery of instructions to the relevant European international clearing system by the counterparty in such system in accordance with its rules and procedures and within its established deadlines (European time). If the transaction meets its settlement requirements, the relevant European international clearing system will deliver instructions to its U.S. depositary to take action to effect final settlement on its behalf by delivering or receiving Global Notes in the depositary and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to the depositary. Clearstream participants and Euroclear participants may not deliver instructions directly to the depositary.

Because of time-zone differences, credits of Global Notes received in Clearstream or Euroclear as a result of a transaction with a depositary participant will be made during subsequent securities settlement processing and will be credited the business day following the depositary settlement date. Such credits or any transactions in such Global Notes settled during such processing will be reported to the relevant Euroclear or Clearstream participants on such business day. Cash received in Clearstream or Euroclear as a result of sales of Global Notes by or through a Clearstream participant or a Euroclear participant to a depositary participant will be received with value on the depositary settlement date but will be available in the relevant Clearstream or Euroclear cash account only as of the business day following settlement in the depositary.

Although the depositary, Clearstream and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of Global Notes among participants of the depositary, Clearstream and Euroclear, they are under no obligation to perform or continue to perform such procedures and such procedures may be discontinued at any time.

Defeasance

The provisions of the indenture relating to defeasance and covenant defeasance described under the caption "Description of Debt Securities Satisfaction and Discharge; Defeasance" in the accompanying prospectus will apply to the Global Notes.

MATERIAL UNITED STATES FEDERAL TAX CONSIDERATIONS

The following summary describes the material United States federal income and estate tax considerations of ownership and disposition of the Global Notes. This summary provides general information only and is directed solely to original beneficial owners who purchase Global Notes in the initial offering at the issue price, that is, the first price at which a substantial amount of the Global Notes is sold to the public (excluding sales to bond houses, brokers or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers). This summary is based on the Internal Revenue Code of 1986, as amended to the date hereof (the Code), existing administrative pronouncements and judicial decisions, existing Treasury Regulations currently in effect, and interpretations of the foregoing, changes to any of which subsequent to the date of this prospectus supplement may affect the tax consequences described herein, possibly with retroactive effect. There can be no assurances that the Internal Revenue Service (the IRS) will not challenge one or more of the tax consequences described herein, and we have not obtained, nor do we intend to obtain, a ruling from the IRS with respect to the United States federal income or estate tax consequences of owning or disposing of the Global Notes. This summary deals only with Global Notes held as capital assets within the meaning of Section 1221 of the Code. This summary does not discuss all of the tax consequences that may be relevant to beneficial owners in light of their particular circumstances, such as persons subject to the alternative minimum tax provisions of the Code or a United States person whose functional currency is not the U.S. dollar or to beneficial owners subject to special rules, such as certain financial institutions, insurance companies, real estate investment trusts, regulated investment companies, dealers in securities or currencies, traders in securities that elect to use the mark-to-market method of accounting, persons holding the Global Notes in connection with a hedging, straddle, conversion or other integrated transaction, persons deemed to sell notes under the constructive sale provisions of the Code, or persons who have ceased to be either United States citizens or taxed as resident aliens. Finally, the summary does not describe the effect of the United States federal estate and gift tax laws on United States persons or the effects of any applicable foreign, state or local laws.

If a partnership holds the Global Notes, the tax treatment of a partner will generally depend upon the status of the partner and upon the activities of the partnership. Partners of partnerships holding the Global Notes should consult their own tax advisors.

Persons considering the purchase of the Global Notes should consult their own tax advisors with regard to the application of the United States federal income and estate tax laws to their particular situations, as well as any tax consequence arising under the laws of any state, local or foreign taxing jurisdiction.

Tax Consequences to United States Persons

For purposes of the following discussion, a United States person means a beneficial owner of a Global Note that is for United States federal income tax purposes:

an individual who is a citizen or resident of the United States; or

a corporation (other than an S corporation) or other entity taxable as a corporation for United States federal income tax purposes created or organized in or under the laws of the United States, any state or the District of Columbia; or

an estate, the income of which is subject to United States federal income taxation regardless of its source; or

Table of Contents

a trust (other than a grantor trust) if (1) a United States court is able to exercise primary jurisdiction over the administration of the trust and one or more United States persons have the authority to control all substantial decisions of the trust or (2) it has a valid election in effect under applicable Treasury Regulations to be treated as a United States person.

S corporations and grantor trusts are subject to special tax rules and should contact their own tax advisors.

Payments of Interest. Interest on a Global Note generally will be taxable to a United States person as ordinary interest income at the time it is accrued or is received in accordance with the United States person's method of accounting for tax purposes.

Sale, Exchange, Redemption, Retirement or Other Disposition of the Global Notes. Upon the sale, exchange, redemption, retirement or other disposition of a Global Note, a United States person will generally recognize taxable gain or loss equal to the difference between the amount realized on the sale, exchange, redemption, retirement or other disposition and the United States person's adjusted tax basis in the Global Note. For these purposes, the amount realized does not include any amount attributable to accrued interest on the Global Note. Amounts attributable to accrued interest are treated as interest as described under *Payments of Interest* above. A United States person's adjusted tax basis in a Global Note generally will equal the cost of the Global Note to the United States person. Gain or loss realized on the sale, exchange, redemption, retirement or other disposition of a Global Note will be capital gain or loss and will be long-term capital gain or loss if the United States person held the Global Note for more than one year. Long-term capital gains of non-corporate taxpayers are currently taxed at lower rates than those applicable to ordinary income. The deductibility of capital losses is subject to limitations. Therefore, United States persons should consult their own tax advisors regarding the treatment of capital gains and losses in their particular circumstances.

Backup Withholding and Information Reporting. Backup withholding and information reporting requirements may apply to certain payments of principal, premium and interest on a Global Note and to payments of proceeds of the sale, exchange, redemption, retirement or other disposition of a Global Note to certain non-corporate United States persons. The backup withholding tax rate is currently 28%, which will increase to a rate of 31% in 2011. HP, its agent, a broker, or any paying agent, as the case may be, will be required to withhold from any payment a tax at the then applicable rate if:

the United States person fails to furnish or certify its correct taxpayer identification number to the payor in the manner required;

fails to certify, under penalty of perjury, that such United States person is not subject to backup withholding; or

otherwise fails to comply with the applicable requirements of the backup withholding rules.

Partnerships created or organized in or under the laws of the United States and certain United States grantor trusts will be subject to backup withholding under the same rules as other United States persons. Any amounts withheld under the backup withholding rules from a payment to a United States person may be credited against such United States person's United States federal income tax and may entitle such United States person to a refund, *provided* that the required information is furnished to the IRS.

Table of Contents

Tax Consequences to Non-United States Persons

As used herein, the term non-United States person means a beneficial owner of a Global Note that is, for United States federal income tax purposes:

a nonresident alien individual; or

a foreign corporation; or

an estate or trust (other than a grantor trust or simple trust) that is not a United States person.

Foreign partnerships, grantor trusts and simple trusts are subject to special tax rules and should contact their own tax advisors.

Income, Estate and Withholding Tax for Non-United States Persons. The discussion under this heading is subject to the discussion of backup withholding below.

Payments of principal and interest on a Global Note that is beneficially owned by a non-United States person will not be subject to United States federal withholding tax, *provided* that, in the case of interest:

each of the following conditions is met:

- (1) the beneficial owner does not actually or constructively own 10% or more of the total combined voting power of all classes of HP stock entitled to vote,
- (2) the beneficial owner is not a controlled foreign corporation that is related, directly or indirectly, to us through stock ownership,
- (3) the beneficial owner is not a bank making a loan in the ordinary course of its business, and
- (4) the beneficial owner of the Global Note provides an IRS Form W-8BEN or other acceptable documentation that provides its name and address and certifies that it is not a United States person;

or

the beneficial owner is entitled to the benefits of an income tax treaty under which the interest is exempt from United States federal withholding tax, and the beneficial owner provides an IRS Form W-8BEN or other acceptable documentation claiming the exemption;

or

Edgar Filing: CARRIAGE SERVICES INC - Form 4

the beneficial owner conducts a trade or business (and, if an income tax treaty applies, maintains a permanent establishment or fixed base) in the United States to which the interest is effectively connected and the beneficial owner provides an IRS Form W-8ECI or other acceptable documentation;

provided that, in each such case, the relevant IRS Form or documentation is delivered pursuant to applicable procedures, is properly transmitted to the person otherwise required to withhold United States federal income tax, and is updated and resubmitted when required; and, *provided further*, that none of the persons receiving the relevant IRS Form or documentation has actual knowledge or reason to know that the beneficial owner is not entitled to an exemption from withholding tax. If the transmission involves a foreign intermediary (for example, a financial institution) or foreign flow-through entity (for example, a foreign partnership or foreign simple or grantor trust), the intermediary

S-23

Table of Contents

or flow-through entity must properly complete and submit Form W-8IMY and comply with applicable reporting and other requirements.

A non-United States person will not be subject to United States federal income or withholding tax on any gain realized on the sale, exchange, redemption, retirement or other disposition of a Global Note unless the gain is effectively connected with the beneficial owner's trade or business (and, if an income tax treaty applies, is attributable to a permanent establishment or fixed base maintained by the beneficial owner) in the United States or, in the case of an individual, the beneficial owner is present in the United States for 183 days or more in the taxable year in which the sale, exchange, redemption, retirement or other disposition occurs and certain other conditions are met.

A Global Note owned by an individual who at the time of death is not, for United States estate tax purposes, a citizen or resident of the United States generally will not be subject to United States federal estate tax if the individual does not actually or constructively own 10% or more of the total combined voting power of all classes of HP stock entitled to vote and, at the time of such individual's death, the income on the Global Note would not have been effectively connected with a United States trade or business of the individual (or, if an income tax treaty applies, with a permanent establishment or fixed base maintained by the individual).

If a non-United States person owning a Global Note is engaged in a trade or business in the United States, and if interest on the Global Note (or gain realized on its sale, exchange, redemption, retirement or other disposition) is effectively connected with the conduct of such trade or business (and, if an income tax treaty applies, is attributable to a permanent establishment or fixed base maintained by the beneficial owner in the United States), such owner, although exempt from the withholding tax discussed in the preceding paragraphs, will be subject generally to regular United States income tax on such effectively connected income in the same manner as if it were a United States person. In addition, if such owner is a foreign corporation, it may be subject to a 30% branch profits tax (unless reduced or eliminated by an applicable treaty) on its effectively connected earnings and profits for the taxable year, subject to certain adjustments. For purposes of the branch profits tax, interest on, and any gain recognized on the sale, exchange, redemption, retirement or other disposition of, a Global Note will be included in the effectively connected earnings and profits of such owner if such interest or gain, as the case may be, is effectively connected with the conduct by such owner of a trade or business (and, if an income tax treaty applies, is attributable to a permanent establishment or fixed base maintained by such owner) in the United States.

The foregoing does not deal with all aspects of federal income tax withholding that may be relevant to a non-United States person that owns a Global Note. Investors are advised to consult their own tax advisors for specific advice concerning the ownership and disposition of the Global Notes.

Backup Withholding and Information Reporting for Non-United States Persons. Under current Treasury Regulations, backup withholding (currently at a rate of 28%, which will increase to a rate of 31% in 2011) will not apply to payments made by us or a paying agent to an owner in respect of a Global Note if the certifications described above are received, provided in each case that we or the paying agent, as the case may be, do not have actual knowledge or reason to know that the payee is a United States person.

Under current Treasury Regulations, payments of the proceeds from the sale, exchange, redemption, retirement or other disposition of a Global Note effected at a foreign office of a broker (including a custodian, nominee or other agent acting on behalf of the beneficial owner of a Global

Table of Contents

Note) generally will not be subject to information reporting or backup withholding. However, if such broker is a United States person, a controlled foreign corporation for United States federal income tax purposes, a foreign partnership in which United States partners hold more than 50 percent of the income or capital interest, a United States branch of a foreign bank or foreign insurance company treated as a United States person for certain United States tax purposes or a foreign person with certain connections to the United States, then information reporting will be required unless, in general, the broker has in its records documentary evidence that the beneficial owner is not a United States person and certain other conditions are met or the beneficial owner otherwise establishes an exemption. Backup withholding may apply to any payment that such broker is required to report if such broker has actual knowledge or reason to know that the payee is a United States person. Payments to or through the United States office of a broker are subject to information reporting and backup withholding unless the beneficial owner certifies, under penalties of perjury on an appropriate withholding certificate, that it is a non-United States person and that it satisfies certain other conditions or otherwise establishes an exemption from information reporting and backup withholding.

Non-United States persons owning Global Notes should consult their own tax advisors regarding the application of information reporting and backup withholding in their particular situations, the availability of an exemption therefrom, and the procedure for obtaining such an exemption. Backup withholding is not an additional tax but is allowed as a refund or credit against the owner's United States federal income tax, provided the necessary information is furnished to the IRS. Interest on a Global Note that is beneficially owned by a non-United States person will be reported annually on IRS Form 1042-S, which must be filed with the IRS and furnished to such beneficial owner.

The United States federal income tax discussion set forth above is included for general information only and may not be applicable depending upon an owner's particular situation. Investors should consult their own tax advisors with respect to the tax consequences to them of the ownership and disposition of the Global Notes, including the tax consequences under state, local, foreign and other tax laws and the possible effects of changes in federal or other tax laws.

European Union Savings Directive

Under EC Council Directive 2003/48/EC on the taxation of savings income, each member state is required to provide to the tax authorities of another member state details of payments of interest or other similar income paid by a person within its jurisdiction to, or collected by such a person for, an individual resident in that other member state; provided, however, that for a transitional period, Austria, Belgium and Luxembourg are instead required to apply a withholding system in relation to such payments, deducting tax at rates rising over time to 35%. The transitional period is to terminate at the end of the first full fiscal year following agreement by certain non-EU countries to the exchange of information relating to such payments.

A number of non-EU countries and certain dependent or associated territories of certain member states, have agreed to adopt similar measures (either provision of information or transitional withholding) in relation to payments made by a person within its jurisdiction to, or collected by such a person for, an individual resident in a member state. In addition, the member states have entered into reciprocal provision of information or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a person in a member state to, or collected by such a person for, an individual resident in one of those territories.

Investors who may be affected by any of these arrangements are advised to consult with their own professional advisors.

Table of Contents**UNDERWRITING**

Under the terms and conditions contained in an underwriting agreement dated May 1, 2009, we have agreed to sell to the underwriters named below, for which Banc of America Securities LLC, Credit Suisse Securities (USA) LLC, Deutsche Bank Securities Inc., Morgan Stanley & Co. Incorporated and RBS Securities Inc. are acting as representatives, and each underwriter has agreed severally to purchase, the following principal amounts of the Floating Rate Global Notes, the 5% Global Notes and the 7% Global Notes set forth opposite its name below.

| Underwriter | Principal Amount of Floating Rate Global Notes | Principal Amount of % Global Notes | Principal Amount of % Global Notes |
|-------------------------------------|---|---|---|
| Banc of America Securities LLC | \$ | \$ | \$ |
| Credit Suisse Securities (USA) LLC. | | | |
| Deutsche Bank Securities Inc. | | | |
| Morgan Stanley & Co. Incorporated | | | |
| RBS Securities Inc. | | | |
| Total | \$ | \$ | \$ |

The underwriting agreement provides that the underwriters are obligated to purchase all of the Global Notes if any are purchased. In addition, the underwriting agreement provides that, if an underwriter defaults on its purchase obligations, and such underwriter's purchase commitment was less than 10% of the aggregate amount of the Global Notes, the purchase commitments of non-defaulting underwriters with respect to the Global Notes shall be increased proportionately to take up and pay for the Global Notes which the defaulting underwriter failed to purchase. If the defaulting underwriter's purchase commitment was more than 10% of the aggregate principal amount of the Global Notes, the purchase commitments of the non-defaulting underwriters with respect to the Global Notes may be increased or the offering of the Global Notes may be terminated.

The underwriters propose to offer the Global Notes initially at the public offering prices on the cover page of this prospectus supplement and to selected broker-dealers at that price, in the case of the Floating Rate Global Notes, less a concession of 1% of the principal amount per Global Note, in the case of the 5% Global Notes, less a concession of 1% of the principal amount per Global Note, and in the case of the 7% Global Notes, less a concession of 1% of the principal amount per Global Note. The underwriters and selected broker-dealers may allow a discount on sales to other broker-dealers, in the case of the Floating Rate Global Notes, of 1% of such principal amount, in the case of the 5% Global Notes, of 1% of such principal amount, and in the case of the 7% Global Notes, of 1% of such principal amount. After the initial public offering of the Global Notes, the public offering prices and concessions and discounts to broker-dealers and other selling terms with respect thereto may be changed.

We estimate that our out-of-pocket expenses for this offering will be approximately \$ 0.5 million.

We have agreed to indemnify the underwriters against certain liabilities under the Securities Act of 1933, as amended, or to contribute to payments that the underwriters may be required to make in that respect.

Table of Contents

The underwriters may engage in over-allotment, stabilizing transactions, syndicate covering transactions and penalty bids, in accordance with Regulation M under the Securities Exchange Act of 1934, as amended, as described below:

Over-allotment involves syndicate sales in excess of the offering size, which creates a syndicate short position.

Stabilizing transactions permit bids to purchase the underlying security as long as the stabilizing bids do not exceed a specified maximum.

Syndicate covering transactions involve purchases of Global Notes in the open market after the distribution of such Global Notes has been completed in order to cover syndicate short positions.

Penalty bids permit the representatives to reclaim a selling concession from a syndicate member when the Global Notes originally sold by such syndicate member are purchased in a stabilizing transaction or a syndicate covering transaction to cover syndicate short positions.

Such stabilizing transactions, syndicate covering transactions and penalty bids may cause the price of the Global Notes to be higher than it would otherwise be in the absence of such transactions.

Certain of the underwriters and their respective affiliates have performed from time to time, are currently performing and may perform in the future various financial advisory, commercial banking and investment banking services for us, for which they received or will receive customary fees.

USE OF PROCEEDS

Unless otherwise specified in a prospectus supplement, the net proceeds from the sale of the securities to which this prospectus relates will be used for general corporate purposes. General corporate purposes may include repayment of debt, repurchases of outstanding shares of common stock, acquisitions, investments, additions to working capital, capital expenditures and advances to or investments in our subsidiaries. Net proceeds may be temporarily invested prior to use.

DESCRIPTION OF THE DEBT SECURITIES

This section describes the general terms and provisions of any debt securities that we may offer in the future. A prospectus supplement relating to a particular series of debt securities will describe the material terms of that particular series and to the extent to which the general terms and provisions contained herein apply to that particular series.

GENERAL

The debt securities will either be our senior debt securities or our subordinated debt securities. We expect to issue the debt securities under one or more separate indentures between us and The Bank of New York Mellon Trust Company, National Association as successor in interest to J.P. Morgan Trust Company, National Association (formerly known as Chase Manhattan Bank and Trust Company, National Association), as trustee. Senior debt securities will be issued under a senior indenture and subordinated debt securities will be issued under a subordinated indenture. Together, the senior indenture and subordinated indenture are called indentures. For additional information, you should look at the form of senior indenture that is filed as an exhibit to the post-effective amendment to our registration statement on Form S-3 (file number 333-134327) filed with the SEC on June 7, 2006 and the form of subordinated indenture that is filed as an exhibit to our registration statement on Form S-3 (file number 333-30786) filed with the SEC on March 17, 2000. Each of the indentures is incorporated by reference into this prospectus. In this description of the debt securities, the words *we*, *us* or *our* refer only to Hewlett-Packard Company and not to any of our subsidiaries.

Debt securities may be issued in separate series without limitation as to aggregate principal amount. We may specify a maximum aggregate principal amount for the debt securities of any series. We are not limited as to the amount of debt securities we may issue under the indentures. Unless otherwise provided in a prospectus supplement, a series of debt securities may be reopened for issuance of additional debt securities of such series.

TERMS OF A PARTICULAR SERIES

Each prospectus supplement relating to a particular series of debt securities will include specific information relating to the offering. This information will include some or all of the following terms of the debt securities of the series:

whether the debt securities are senior or subordinated;

the offering price;

the title;

any limit on the aggregate principal amount;

the person who shall be entitled to receive interest, if other than the record holder on the record date;

the date the principal will be payable;

Edgar Filing: CARRIAGE SERVICES INC - Form 4

the interest rate, if any, the date interest will accrue, the interest payment dates and the regular record dates;

the interest rate, if any, payable on overdue installments of principal, premium or interest;

Table of Contents

the place where payments shall be made;

any mandatory or optional redemption provisions;

if applicable, the method for determining how principal, premium, if any, or interest will be calculated by reference to an index or formula;

if other than U.S. currency, the currency or currency units in which principal, premium, if any, or interest will be payable and whether we or the holder may elect payment to be made in a different currency;

the portion of the principal amount that will be payable upon acceleration of stated maturity, if other than the entire principal amount;

if the principal amount payable at stated maturity will not be determinable as of any date prior to stated maturity, that the amount payable will be deemed to be the principal amount;

any defeasance provisions if different from those described below under Satisfaction and Discharge Defeasance;

any conversion or exchange provisions;

whether the debt securities will be issuable in the form of a global security;

any subordination provisions if different from those described below under Subordinated Debt Securities;

any paying agents, authenticating agents or security registrars;

any guarantees on the debt securities;

any security for any of the debt securities;

any deletions of, or changes or additions to, the events of default or covenants; and

any other specific terms of such debt securities.

Unless otherwise specified in the prospectus supplement:

the debt securities will be registered debt securities; and

registered debt securities denominated in U.S. dollars will be issued in denominations of \$1,000 or multiples of \$1,000. Debt securities may be sold at a substantial discount below their stated principal amount, bearing no interest or interest at a rate that at time of issuance is below market rates.

EXCHANGE AND TRANSFER

Debt securities may be transferred or exchanged at the office of the security registrar or at the office of any transfer agent designated by us. We will not impose a service charge for any transfer or exchange, but we may require holders to pay any tax or other governmental charges associated with any transfer or exchange.

In the event of any potential redemption of debt securities of any series in part, we will not be required to:

issue, register the transfer of, or exchange any debt security of that series during a period beginning at the opening of business 15 days before the day of mailing of a notice of redemption and ending at the close of business on the day of the mailing; or

Table of Contents

register the transfer of or exchange any debt security of that series selected for redemption, in whole or in part, except the unredeemed portion being redeemed in part.

We have initially appointed the trustee as the security registrar. Any transfer agent, in addition to the security registrar, initially designated by us will be named in the prospectus supplement. We may designate additional transfer agents, change transfer agents or change the office of the transfer agent, change any security registrar or act as security registrar. However, we will be required to maintain a transfer agent in each place of payment for the debt securities of each series.

GLOBAL SECURITIES

The debt securities of any series may be represented, in whole or in part by one or more global securities. Each global security will:

be registered in the name of a depository that we will identify in a prospectus supplement;

be deposited with the depository or nominee or custodian; and

bear any required legends.

No global security may be exchanged in whole or in part for debt securities registered in the name of any person other than the depository or any nominee, referred to as certificated debt securities, unless:

the depository has notified us that it is unwilling or unable to continue as depository or has ceased to be qualified to act as depository;

an event of default is continuing; or

any other circumstances described in a prospectus supplement have occurred permitting the issuance of certificated debt securities. As long as the depository, or its nominee, is the registered owner of a global security, the depository or nominee will be considered the sole owner and holder of the debt securities represented by the global security for all purposes under the indenture. Except in the above limited circumstances, owners of beneficial interests in a global security will not be:

entitled to have the debt securities registered in their names;

entitled to physical delivery of certificated debt securities; and

considered to be holders of those debt securities under the indenture.

Payments on a global security will be made to the depository or its nominee as the holder of the global security. Some jurisdictions have laws that require that certain purchasers of securities take physical delivery of such securities in definitive form. These laws may impair the ability to transfer beneficial interests in a global security.

Institutions that have accounts with the depository or its nominee are referred to as participants. Ownership of beneficial interests in a global security will be limited to participants and to persons that may hold beneficial interests through participants. The depository will credit, on its book-entry registration and transfer system, the respective principal amounts of debt securities represented by the global security to the accounts of its participants.

Edgar Filing: CARRIAGE SERVICES INC - Form 4

Ownership of beneficial interests in a global security will be shown on and effected through records maintained by the depository, with respect to participants' interests, or any participant, with respect to interests of persons held by participants on their behalf.

Table of Contents

Payments, transfers and exchanges relating to beneficial interests in a global security will be subject to policies and procedures of the depository. The depository policies and procedures may change from time to time. Neither the trustee nor we will have any responsibility or liability for the depository's or any participant's records with respect to beneficial interests in a global security.

PAYMENT AND PAYING AGENTS

Unless otherwise indicated in the prospectus supplement:

Payment of interest on a debt security on any interest payment date will be made to the person in whose name the debt security is registered at the close of business on the regular record date; and

Payment on debt securities of a particular series will be payable at the office of a paying agent or paying agents designated by us. At our option, however, we may pay interest by mailing a check to the record holder.

The corporate trust office of the trustee will initially be designated as our sole paying agent. We may also name any other paying agents in the prospectus supplement. We may designate additional paying agents, change paying agents or change the office of any paying agent. However, we will be required to maintain a paying agent in each place of payment for the debt securities of a particular series.

All monies paid by us to a paying agent for payment on any debt security which remain unclaimed for a period ending the earlier of 10 business days prior to the date the money would be turned over to the state, or at the end of two years after the payment was due, will be repaid to us. Thereafter, the holder may look only to us for such payment.

CONSOLIDATION, MERGER AND SALE OF ASSETS

We may not consolidate with or merge into any other person, in a transaction in which we are not the surviving corporation, or convey, transfer or lease our properties and assets substantially as an entirety to, any person, unless:

the successor, if any, is a U.S. corporation, limited liability company, partnership, trust or other entity;

the successor assumes our obligations on the debt securities and under the indentures;

immediately after giving effect to the transaction, no default or event of default shall have occurred and be continuing; and

certain other conditions are met.

EVENTS OF DEFAULT

Each indenture defines an event of default with respect to any series of debt securities as one or more of the following events:

- (1) failure to pay principal of or any premium on any debt security of that series when due;
- (2) failure to pay any interest on any debt security of that series for 30 days when due;
- (3) failure to make any sinking fund payment for 30 days when due;

Edgar Filing: CARRIAGE SERVICES INC - Form 4

- (4) failure to perform any other covenant in the indenture if that failure continues for 90 days after we are given the notice required in the indenture;
- (5) our bankruptcy, insolvency or reorganization; and
- (6) any other event of default specified in the prospectus supplement.

Table of Contents

An event of default of one series of debt securities is not necessarily an event of default for any other series of debt securities.

If an event of default, other than an event of default described in clause (5) above, shall occur and be continuing, either the trustee or the holders of at least 25% in aggregate principal amount of the outstanding securities of that series may declare the principal amount of the debt securities of that series to be due and payable immediately. If an event of default described in clause (5) above shall occur, the principal amount of all the debt securities of that series will automatically become immediately due and payable. Any payment by us on the subordinated debt securities following any acceleration will be subject to the subordination provisions described below under Subordinated Debt Securities.

After acceleration, the holders of a majority in aggregate principal amount of the outstanding securities of that series, under certain circumstances, may rescind and annul such acceleration if all events of default, other than the non-payment of accelerated principal, or other specified amount, have been cured or waived.

Other than the duty to act with the required care during an event of default, the trustee will not be obligated to exercise any of its rights or powers at the request of the holders unless the holders shall have offered to the trustee reasonable indemnity. Generally, the holders of a majority in aggregate principal amount of the outstanding debt securities of any series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee.

A holder will not have any right to institute any proceeding under the indentures, or for the appointment of a receiver or a trustee, or for any other remedy under the indentures, unless:

- (1) the holder has previously given to the trustee written notice of a continuing event of default with respect to the debt securities of that series;
- (2) the holders of at least 25% in aggregate principal amount of the outstanding debt securities of that series have made a written request and have offered reasonable indemnity to the trustee to institute the proceeding; and
- (3) the trustee has failed to institute the proceeding and has not received direction inconsistent with the original request from the holders of a majority in aggregate principal amount of the outstanding debt securities of that series within 60 days after the original request.

Holders may, however, sue to enforce the payment of principal, premium or interest on any series of debt securities on or after the due date without following the procedures listed in (1) through (3) above.

We will furnish the trustee an annual statement by our officers as to whether or not we are in default in the performance of the indenture and, if so, specifying all known defaults.

MODIFICATION AND WAIVER

We and the trustee may make modifications and amendments to the indentures with the consent of the holders of a majority in aggregate principal amount of the outstanding securities of each series affected by the modification or amendment. We may also make modifications and amendments to the indentures for the benefit of the holders, without their consent, for certain purposes including, but not limited to:

providing for our successor to assume the covenants under the indenture;

adding covenants or events of default;

making certain changes to facilitate the issuance of the securities;

securing the securities;

Table of Contents

providing for a successor trustee;

curing any ambiguities or inconsistencies;

permitting or facilitating the defeasance and discharge of the securities; and

other changes specified in the indenture.

However, neither we nor the trustee may make any modification or amendment without the consent of the holder of each outstanding security of that series affected by the modification or amendment if such modification or amendment would:

change the stated maturity of any debt security;

reduce the principal, premium, if any, or interest on any debt security;

reduce the principal of an original issue discount security or any other debt security payable on acceleration of maturity;

change the place of payment or the currency in which any debt security is payable;

impair the right to sue for any payment after the stated maturity or redemption date;

if subordinated debt securities, modify the subordination provisions in a materially adverse manner to the holders of subordinated debt securities;

adversely affect the right to convert any debt security; or

change the provisions in the indenture that relate to modifying or amending the indenture.

SATISFACTION AND DISCHARGE; DEFEASANCE

We may be discharged from our obligations on the debt securities of any series if we deposit enough money with the trustee to pay all the principal, interest and any premium due to the stated maturity date or redemption date of the debt securities.

Each indenture contains a provision that permits us to elect either or both of the following:

to be discharged from all of our obligations, subject to limited exceptions, with respect to any series of debt securities then outstanding; and

Edgar Filing: CARRIAGE SERVICES INC - Form 4

to be released from our obligations under the following covenants and from the consequences of an event of default resulting from a breach of these and a number of other covenants:

- (1) the limitations on sale and lease-back transactions under the senior indenture;
- (2) the limitations on liens under the senior indenture;
- (3) covenants as to payment of taxes and maintenance of properties; and
- (4) the subordination provisions under the subordinated indenture.

To make either of the above elections, we must deposit in trust with the trustee enough money to pay in full the principal, interest and premium on the debt securities. This amount may be made in cash and/or U.S. government obligations. As a condition to either of the above elections, we must deliver to the trustee an opinion of counsel that the holders of the debt securities will not recognize income, gain or loss for United States federal income tax purposes as a result of the action.

If any of the above events occur, the holders of the debt securities of the series will not be entitled to the benefits of the indenture, except for registration of transfer and exchange of debt securities, replacement of lost, stolen or mutilated debt securities and, if applicable, conversion and exchange of debt securities.

Table of Contents

NOTICES

Notices to holders will be given by mail to the addresses of the holders in the security register.

GOVERNING LAW

The indentures and the debt securities will be governed by, and construed under, the laws of the State of New York, without regard to conflicts of laws principles.

REGARDING THE TRUSTEE

The indentures limit the right of the trustee, if it becomes our creditor, to obtain payment of claims or secure its claims.

The trustee is permitted to engage in certain other transactions. If the trustee acquires any conflicting interest, however, and there is a default under the debt securities of any series for which they are trustee, the trustee must eliminate the conflict or resign. The Bank of New York Mellon Trust Company, National Association is also our depositary and affiliates of The Bank of New York Mellon Trust Company, National Association have performed and continue to perform other services for us in the normal course of business.

SENIOR DEBT SECURITIES

The senior debt securities will be unsecured, unless we elect otherwise, and will rank equally with all of our other unsecured and non-subordinated senior debt.

COVENANTS IN THE SENIOR INDENTURE

LIMITATIONS ON LIENS. Neither we nor any restricted subsidiary will issue, incur, create, assume or guarantee any secured debt without securing the senior debt securities equally and ratably with or prior to that secured debt unless the total amount of all secured debt with which the senior debt securities are not at least equally and ratably secured would not exceed the greater of \$500 million or 10% of our consolidated net tangible assets.

LIMITATIONS ON SALE AND LEASE-BACK TRANSACTIONS. Subject to the last paragraph of this section, neither we nor any restricted subsidiary will enter into any lease with a term longer than three years covering any of our principal property or any restricted subsidiary that is sold to any other person in connection with that lease unless either:

(1) we or any restricted subsidiary would be entitled to incur indebtedness secured by a mortgage on the principal property involved in such transaction at least equal in amount to the attributable debt with respect to the lease, without equally and ratably securing the senior debt securities, pursuant to Limitations on Liens described above; or

(2) an amount equal to the greater of the following amounts is applied within 180 days of such sale to the retirement of our or any restricted subsidiary's long-term debt or the purchase or development of comparable property:

the net proceeds from the sale; or

the attributable debt with respect to the sale and lease-back transaction.

However, either we or our restricted subsidiaries would be able to enter into a sale and lease-back transaction without being required to apply the net proceeds as required by (2) above if the sum of the following amounts would not exceed the greater of \$500 million or 10% of our consolidated net tangible assets:

the total amount of the sale and lease-back transactions; and

the total amount of secured debt.

Table of Contents

DEFINITIONS RELATING TO THE SENIOR DEBT SECURITIES

- (1) total current liabilities, excluding:

notes and loans payable;

current maturities of long-term debt;

current maturities of capital leases; and

- (2) certain intangible assets, to the extent included in total assets.

mortgage means a mortgage, security interest, pledge, lien, charge or other encumbrance.

nonrecourse obligation means indebtedness substantially related to:

the acquisition of assets not previously owned by us or any restricted subsidiary; or

principal property means the land, improvements, buildings and fixtures owned by us or a restricted subsidiary located in the United States that constitutes our principal corporate office, any manufacturing plant or any manufacturing facility and has a book value in excess of 0.75% of our consolidated net tangible assets as of the determination date. Principal property does not include any property that our board of directors has determined not to be of material importance to the business conducted by our subsidiaries and us, taken as a whole.

restricted subsidiary means any subsidiary that owns any principal property, but does not include:

any subsidiary primarily engaged in financing receivables or in the finance business; or

any of our less than 80%-owned subsidiaries if the common stock of the subsidiary is traded on any national securities exchange or quoted on the Nasdaq National Market or on the over-the-counter markets.

secured debt means any of our debt or any debt of a restricted subsidiary for borrowed money secured by either a mortgage on any principal property or stock or indebtedness of a restricted subsidiary. Secured debt does not include:

mortgages incurred in connection with an asset acquisition or a project financed with a non-recourse obligation;

mortgages for materialmen's, mechanics', workmen's, repairmen's, landlord's mortgages for rent or other similar mortgages arising in the ordinary course of business in respect of obligations which are not overdue or which are being contested by us or any restricted subsidiary in good faith and by appropriate proceedings;

mortgages consisting of zoning restrictions, licenses, easements and restrictions on the use of real property and minor irregularities that do not materially impair the use of the real property; or

mortgages constituting any extension, renewal or replacement of any mortgage listed above to the extent the mortgage is not increased.

SUBORDINATED DEBT SECURITIES

The subordinated debt securities are subordinated in right of payment to the prior payment in full of all senior debt, including any senior debt securities. In the event of our dissolution, winding up, liquidation or reorganization, the holders of senior debt shall be entitled to receive payment in full before holders of subordinated debt securities shall be entitled to receive any payment or distribution on any subordinated debt securities.

In the event of insolvency, upon any distribution of our assets:

holders of subordinated debt securities are required to pay over their share of such distribution to the trustee in bankruptcy, receiver or other person distributing our assets to pay all senior debt remaining to the extent necessary to pay all holders of senior debt in full; and

our unsecured creditors who are not holders of subordinated debt securities or holders of senior debt may recover less, ratably, than holders of senior debt and may recover more, ratably, than the holders of subordinated debt securities.

DEFINITIONS RELATING TO SUBORDINATED DEBT SECURITIES

senior debt means the principal, premium, if any, and unpaid interest on:

our indebtedness for borrowed money;

our obligations evidenced by bonds, debentures, notes or similar instruments;

our obligations under any interest rate swaps, caps, collars, options, and similar arrangements;

our obligations under any foreign exchange contract, currency swap contract, futures contract, currency option contract, or other foreign currency hedge arrangements;

Table of Contents

our obligations under any credit swaps, caps, floors, collars and similar arrangements;

indebtedness incurred, assumed or guaranteed by us in connection with the acquisition by us or any of our subsidiaries of any business, properties or assets, except purchase-money indebtedness classified as accounts payable under generally accepted accounting principles;

our obligations as lessee under leases required to be capitalized on the balance sheet in conformity with generally accepted accounting principles;

all obligations under any lease or related document, including a purchase agreement, in connection with the lease of real property which provides that we are contractually obligated to purchase or cause a third party to purchase the leased property and thereby guarantee a minimum residual value of the leased property to the lessor and our obligations under such lease or related document to purchase or to cause a third party to purchase such leased property;

our reimbursement obligations in respect of letters of credit relating to indebtedness or our other obligations that qualify as indebtedness or obligations of the kind referred to above; and

our obligations under direct or indirect guaranties in respect of, and obligations to purchase or otherwise acquire, or otherwise to assure a creditor against loss in respect of, indebtedness or obligations of others of the kinds referred to above.

However, senior debt shall not include any indebtedness or obligation that provides that such indebtedness or obligation is not superior in right of payment to the subordinated debt securities or provides that such indebtedness is subordinate to our other indebtedness and obligations.

The subordinated debt securities are effectively subordinated to all existing and future liabilities of our subsidiaries. Any right we have to participate in any distribution of the assets of any of our subsidiaries upon their liquidation, reorganization or insolvency, and the consequent right of holders of senior debt securities to participate in those assets, will be subject to the claims of the creditors of such subsidiary. In addition, any claim we may have as a creditor would still be subordinate to any security interest in the assets of such subsidiary and any indebtedness of such subsidiary senior to that held by us.

ANTI-TAKEOVER EFFECTS OF DELAWARE LAW

We are subject to the provisions of Section 203 of the Delaware General Corporation Law, which, subject to certain exceptions, prohibits a Delaware corporation from engaging in any business combination with any interested stockholder for a period of three years following the time that such stockholder became an interested stockholder, unless:

- (1) prior to such time, the board of directors of the corporation approved either the business combination or the transaction that resulted in the stockholder becoming an interested stockholder;
- (2) upon consummation of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding for purposes of determining the number of shares outstanding those shares owned:

by persons who are directors and also officers; and

by employee stock plans in which employee participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer; or

- (3) at or subsequent to such time the business combination is approved by the board of directors and authorized at an annual or special meeting of the stockholders, and not by written consent, by the affirmative vote of at least 66²/₃% of the outstanding voting stock that is not owned by the interested stockholder.

Section 203 defines business combination to include:

- (1) any merger or consolidation involving the corporation and the interested stockholder;
- (2) any sale, transfer, pledge or other disposition of 10% or more of the assets of the corporation involving the interested stockholder;
- (3) subject to certain exceptions, any transaction that results in the issuance or transfer by the corporation of any stock of the corporation to the interested stockholder;
- (4) any transaction involving the corporation that has the effect of increasing the proportionate share of the stock of any class or series of the corporation beneficially owned by the interested stockholder; or

(5) the receipt by the interested stockholder of the benefit of any loans, advances, guarantees, pledges or other financial benefits provided by or through the corporation.

In general, Section 203 defines an interested stockholder as any person who or which beneficially owns 15% or more of the outstanding voting stock of the corporation or any person affiliated with or controlling or controlled by the corporation that was the owner of 15% or more of the outstanding voting stock of the corporation at any time within the three-year period immediately prior to the date of determination if such person is an interested stockholder.

The existence of this provision would be expected to have an anti-takeover effect with respect to transactions not approved in advance by our board of directors, including discouraging attempts that might result in a premium over the market price for the shares of common stock held by stockholders.

DESCRIPTION OF PREFERRED STOCK

GENERAL

Our certificate of incorporation authorizes us to issue up to 300,000,000 shares of preferred stock, par value \$0.01 per share, in one or more series. As of the date of this prospectus, we did not have any outstanding shares of preferred stock or options to purchase preferred stock. Our board of directors, however, has the authority without stockholder consent, subject to certain limitations imposed by law or our bylaws, to issue one or more series of preferred stock at any time. The certificate of designation relating to each series will fix the rights, preferences and restrictions of the preferred stock of each series. A prospectus supplement relating to each such series will specify the terms of the preferred stock as determined by our board of directors, including the following:

the number of shares in any series;

the designation for any series by number, letter or title that shall distinguish the series from any other series of preferred stock;

the dividend rate and whether dividends on that series of preferred stock will be cumulative, noncumulative or partially cumulative;

the voting rights of that series of preferred stock, if any;

any conversion provisions applicable to that series of preferred stock;

any redemption or sinking fund provisions applicable to that series of preferred stock including whether there is any restriction on the repurchase or redemption of the preferred stock while there is any arrearage in the payment of dividends or sinking fund installments;

the liquidation preference per share of that series of preferred stock, if any; and

the terms of any other preferences or rights, if any, applicable to that series of preferred stock.

We will describe the specific terms of a particular series of preferred stock in the prospectus supplement relating to that series. The description of preferred stock above and the description of the terms of a particular series of preferred stock in the related prospectus supplement will not be complete. You should refer to the certificate of designation for complete information. The prospectus supplement will also contain a description of certain U.S. federal income tax consequences relating to the preferred stock.

Although it has no present intention to do so, our board of directors, without stockholder approval, may issue preferred stock with voting and conversion rights, which could adversely affect the voting power of the holders of common stock. If we issue preferred stock, it may have the effect of delaying, deferring or preventing a change of control.

DESCRIPTION OF THE DEPOSITARY SHARES

At our option, we may elect to offer fractional shares of preferred stock, rather than full shares of preferred stock. If we do, we will issue to the public receipts for depositary shares and each of these depositary shares will represent a fraction, to be set forth in the prospectus supplement, of a share of a particular series of preferred stock. Each owner of a depositary share will be entitled, in proportion to the applicable fractional interest in shares of preferred stock underlying that depositary share, to all rights and preferences of the preferred stock underlying that depositary share. Those rights include dividend, voting, redemption and liquidation rights.

Edgar Filing: CARRIAGE SERVICES INC - Form 4

The shares of preferred stock underlying the depositary shares will be deposited with a bank or trust company selected by us to act as depositary, under a deposit agreement between us, the depositary and the holders of the depositary receipts. The depositary will be the transfer agent, registrar and dividend disbursing agent for the depositary shares.

Table of Contents

Depository receipts issued pursuant to the depository agreement will evidence the depository shares. Holders of depository receipts agree to be bound by the deposit agreement, which requires holders to take certain actions such as filing proof of residence and paying certain charges.

The summary of terms of the depository shares contained in this prospectus is not complete. You should refer to the forms of the deposit agreement, our certificate of incorporation and the certificate of amendment for the applicable series of preferred stock that are, or will be, filed with the SEC.

DIVIDENDS

The depository will distribute all cash dividends or other cash distributions received in respect of the series of preferred stock underlying the depository shares to the record holders of depository receipts in proportion to the number of depository shares owned by those holders on the relevant record date, which will be the same date as the record date for the preferred stock.

In the event of a distribution other than in cash, the depository will distribute property received by it to the record holders of depository receipts that are entitled to receive the distribution, unless the depository determines that it is not feasible to make the distribution. If this occurs, the depository, with our approval, may adopt another method for the distribution, including selling the property and distributing the net proceeds to the holders.

LIQUIDATION PREFERENCE

In the event of our voluntary or involuntary liquidation, dissolution or winding up, the holders of each depository share will be entitled to receive the fraction of the liquidation preference accorded each share of the applicable series of preferred stock, as set forth in the applicable prospectus supplement.

REDEMPTION

If a series of preferred stock underlying the depository shares is subject to redemption, the depository shares will be redeemed from the proceeds received by the depository resulting from the redemption, in whole or in part, of preferred stock held by the depository. Whenever we redeem any preferred stock held by the depository, the depository will redeem, as of the same redemption date, the number of depository shares representing the preferred stock so redeemed. The depository will mail the notice of redemption to the record holders of the depository receipts promptly upon receiving the notice from us and not fewer than 35 nor more than 60 days, unless otherwise provided in the applicable prospectus supplement, prior to the date fixed for redemption of the preferred stock and the depository shares.

VOTING

Upon receipt of notice of any meeting at which the holders of preferred stock are entitled to vote, the depository will mail the information contained in the notice of meeting to the record holders of the depository receipts underlying the preferred stock. Each record holder of those depository receipts on the record date will be entitled to instruct the depository as to the exercise of the voting rights pertaining to the amount of preferred stock underlying that holder's depository shares. The record date for the depository will be the same date as the record date for the preferred stock. The depository will try, as far as practicable, to vote the preferred stock underlying the depository shares in accordance with such instructions, and we will agree to take all action which may be deemed necessary by the depository in order to enable the depository to do so. The depository will not vote the preferred stock to the extent that it does not receive specific instructions from the holders of depository receipts.

WITHDRAWAL OF PREFERRED STOCK

Owners of depositary shares are entitled, upon surrender of depositary receipts at the principal office of the depositary and payment of any unpaid amount due to the depositary, to receive the number of whole shares of preferred stock underlying the depositary shares. Partial shares of preferred stock will not be issued. Holders of preferred stock will not be entitled to deposit the shares under the deposit agreement or to receive depositary receipts evidencing depositary shares for the preferred stock.

AMENDMENT AND TERMINATION OF DEPOSIT AGREEMENT

The form of depositary receipt evidencing the depositary shares and any provision of the deposit agreement may be amended at any time and from time to time by agreement between us and the depositary. However, any amendment which materially and adversely alters the rights of the holders of depositary shares, other than fee changes, will not be effective unless the amendment has been approved by at least a majority of the depositary shares then outstanding. The deposit agreement may be terminated by the depositary or us only if:

all outstanding depositary shares have been redeemed; or

there has been a final distribution in respect of the preferred stock in connection with our dissolution and such distribution has been made to all the holders of depositary shares.

CHARGES OF DEPOSITARY

We will pay all transfer and other taxes and governmental charges arising solely from the existence of the depositary arrangements. We will also pay charges of the depositary in connection with the initial deposit of the preferred stock and the initial issuance of the depositary shares, any redemption of the preferred stock and all withdrawals of preferred stock by owners of depositary shares. Holders of depositary receipts will pay transfer, income and other taxes and governmental charges and other specified charges as provided in the deposit agreement to be for their accounts. The depositary may refuse to transfer depositary shares, withhold dividends and distributions and sell the depositary shares evidenced by the depositary receipt if the charges are not paid.

MISCELLANEOUS

The depositary will forward to the holders of depositary receipts all reports and communications we deliver to the depositary that we are required to furnish to the holders of the preferred stock. In addition, the depositary will make available for inspection by holders of depositary receipts at the principal office of the depositary, and at such other places as it may from time to time deem advisable, any reports and communications we deliver to the depositary as the holder of preferred stock.

Neither the depositary nor we will be liable if either of us is prevented or delayed by law or any circumstance beyond our control in performing our respective obligations under the deposit agreement. Our obligations and those of the depositary will be limited to performance in good faith of our respective duties under the deposit agreement. Neither the depositary nor we will be obligated to prosecute or defend any legal proceeding in respect of any depositary shares or preferred stock unless satisfactory indemnity is furnished. We and the depositary may rely on written advice of counsel or accountants, on information provided by holders of depositary receipts or other persons believed in good faith to be competent to give such information and on documents believed to be genuine and to have been signed or presented by the proper party or parties.

RESIGNATION AND REMOVAL OF DEPOSITARY

The depositary may resign at any time by delivering a notice to us of its election to do so. We may remove the depositary at any time. Any such resignation or removal will take effect upon the appointment of a successor depositary and its acceptance of such appointment. The successor depositary must be appointed within 60 days after delivery of the notice for resignation or removal and must be a bank or trust company having its principal office in the United States of America and having a combined capital and surplus of at least \$150,000,000.

FEDERAL INCOME TAX CONSEQUENCES

Owners of the depositary shares will be treated for United States federal income tax purposes as if they were owners of the preferred stock underlying the depositary shares. As a result, owners will be entitled to take into account for United States federal income tax purposes, income and deductions to which they would be entitled if they were holders of such preferred stock. No gain or loss will be recognized for United States federal income tax purposes upon the withdrawal of preferred stock in exchange for depositary shares. The tax basis of each share of preferred stock to an exchanging owner of depositary shares will be, upon such exchange, the same as the aggregate tax basis of the depositary shares exchanged. The holding period for preferred stock in the hands of an exchanging owner of depositary shares will include the period during which such person owned such depositary shares.

DESCRIPTION OF THE WARRANTS

GENERAL

We may issue warrants for the purchase of debt securities, preferred stock or common stock. Warrants may be issued independently or together with debt securities, preferred stock or common stock and may be attached to or separate from any offered securities. Each series of warrants will be issued under a separate warrant agreement to be entered into between us and a bank or trust company, as warrant agent. The warrant agent will act solely as our agent in connection with the warrants and will not have any obligation or relationship of agency or trust for or with any holders or beneficial owners of warrants.

This summary of certain provisions of the warrants is not complete. For the complete terms of the warrant agreement, you should refer to the provisions of the warrant agreement that will be filed with the SEC in connection with the offering of warrants.

the offering price for the warrants, if any;

the aggregate number of the warrants;

the designation and terms of the common stock or preferred stock that may be purchased upon exercise of the warrants;

PLAN OF DISTRIBUTION

We may sell the securities separately or together:

through one or more underwriters or dealers in a public offering and sale by them,

directly to investors, or

through agents.

We may sell the securities from time to time:

in one or more transactions at a fixed price or prices which may be changed from time to time,

at market prices prevailing at the times of sale,

Table of Contents

at prices related to such prevailing market prices, or

at negotiated prices.

We will describe the method of distribution of the securities in the prospectus supplement.

We may determine the price or other terms of the securities offered under this prospectus by use of an electronic auction. We will describe how any auction will determine the price or any other terms, how potential investors may participate in the auction and the nature of the underwriters obligations in the related supplement to this prospectus.

Underwriters, dealers or agents may receive compensation in the form of discounts, concessions or commissions from us or our purchasers, as their agents in connection with the sale of securities. These underwriters, dealers or agents may be considered to be underwriters under the Securities Act of 1933, as amended (the Securities Act). As a result, discounts, commissions or profits on resale received by the underwriters, dealers or agents may be treated as underwriting discounts and commissions. The prospectus supplement will identify any such underwriter, dealer or agent and describe any compensation received by them from us. Any initial public offering price and any discounts or concessions allowed or reallocated or paid to dealers may be changed from time to time.

Underwriters, dealers and agents may be entitled to indemnification by us against certain civil liabilities, including liabilities under the Securities Act, or to contribution with respect to payments made by the underwriters, dealers or agents, under agreements between us and the underwriters, dealers and agents.

We may grant underwriters who participate in the distribution of securities an option to purchase additional securities to cover over-allotments, if any, in connection with the distribution.

Unless otherwise indicated in the applicable prospectus supplement, all securities offered by this prospectus, other than our common stock, will be new issues of securities with no established trading market. Underwriters involved in the public offering and sale of securities may make a market in the securities but are not required to do so and may discontinue market-making activity at any time. No assurance can be given as to the liquidity of the trading market for any securities.

Underwriters or agents and their associates may be customers of, engage in transactions with or perform services for us in the ordinary course of business.

Any underwriter may engage in over-allotment, stabilizing transactions, short covering transactions and penalty bids in accordance with Regulation M under the Securities Exchange Act of 1934, as amended (the Exchange Act). Over-allotment involves sales in excess of the offering size, which creates a short position. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Short covering transactions involve purchases of the securities in the open market after the distribution is completed to cover short positions. Penalty bids permit the underwriters to reclaim a selling concession from a dealer when the securities originally sold by the dealer are purchased in a covering transaction to cover short positions. Those activities may cause the price of the securities to be higher than it would otherwise be. If commenced, the underwriters may discontinue any of those activities at any time.
