**Table of Contents**

**FIRST DATA CORPORATION**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**(Unaudited)**

**Note 1: Basis of Presentation**

The accompanying Consolidated Financial Statements of First Data Corporation ( FDC or the Company ) should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2008. Significant accounting policies disclosed therein have not changed.

The accompanying Consolidated Financial Statements are unaudited; however, in the opinion of management, they include all normal recurring adjustments necessary for a fair presentation of the consolidated financial position of the Company at June 30, 2009, the consolidated results of its operations and comprehensive income (loss) for the three and six months ended June 30, 2009 and 2008, the consolidated cash flows for the six months ended June 30, 2009 and 2008 and the consolidated changes in equity for the six months ended June 30, 2009. Results of operations reported for interim periods are not necessarily indicative of results for the entire year due in part to the seasonality of certain business units.

*Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the Consolidated Financial Statements and accompanying notes. Actual results could differ from these estimates.

*Presentation*

Effective January 1, 2009, the Company re-aligned the business and began making strategic and operating decisions with regards to assessing performance and allocating resources based on a new segment structure. Results for 2008 have been adjusted to reflect the new structure. Refer to Note 6 for a description of the segments. Other amounts in 2008 have been adjusted to conform to current year presentation, the largest of which was the reclassification of certain expenses from Cost of services to Selling, general, and administrative.

The Company adopted Statement of Financial Accounting Standards ( SFAS ) No. 160, Noncontrolling Interests in Consolidated Financial Statements ( SFAS No. 160 ), effective January 1, 2009, which requires that earnings attributed to noncontrolling interests be reported as part of consolidated earnings and not as a separate component of income or expense. Although the adoption of FAS 160 did not impact the Company's total provision for income taxes, the Company's effective tax rate calculation has changed as net income attributable to noncontrolling interests is no longer included as a deduction in the determination of pretax loss. The Company's Consolidated Statement of Operations for 2008 has been revised to conform to the presentation requirements of SFAS No. 160. In addition, the presentation of transactions related to noncontrolling interests in the Company's Consolidated Statements of Cash Flows in 2008 has been revised to reclassify such items from Cash Flows from Operating Activities and Cash Flows from Investing Activities to Cash Flows from Financing Activities.

The Company sold its ownership interests in Active Business Services, Ltd ( Active ), reported within the International segment, in July 2008 and Peace Software ( Peace ), reported within the Financial Services segment, in October 2008. Revenue and operating profit associated with Active and Peace are excluded from segment results. The International and Financial Services segment revenue and operating profit were adjusted for 2008 to exclude the results of Active and Peace.

Depreciation and amortization presented as a separate line item on the Company's Consolidated Statements of Operations does not include amortization of initial payments for new contracts which is recorded as a contra-revenue within Transaction and processing service fees of \$5.4 million and \$10.4 million for the three and six months ended June 30, 2009, respectively, and \$1.9 million and \$3.4 million for the three and six months ended June 30, 2008, respectively. Also not included is amortization related to equity method investments which is netted within the Equity earnings in affiliates line of \$18.0 million and \$35.6 million for the three and six months ended June 30, 2009, respectively, and \$52.8 million and \$100.6 million for the three and six months ended June 30, 2008, respectively.

*Subsequent Event*

## Edgar Filing: FIRST DATA CORP - Form 10-Q

On August 10, 2009, the Company launched a registered exchange offer to exchange any and all of its outstanding unregistered unsecured 9<sup>7</sup>/<sub>8</sub>% Senior Cash-Pay Notes due 2015, its outstanding unregistered unsecured 10<sup>11</sup>/<sub>20</sub>% Senior PIK Notes due 2015 and its outstanding unregistered unsecured 11<sup>1</sup>/<sub>4</sub>% Senior Subordinated Notes due 2016 for publicly tradable notes having substantially identical terms and guarantees, except that the exchange notes will be freely tradable. The exchange offer expires on September 4, 2009, unless extended.

The Company evaluated subsequent events through August 13, 2009, the date the financial statements were issued.

**Table of Contents****FIRST DATA CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)***Revenue Recognition*

The Company recognizes revenues from its processing services as such services are performed. Revenue is recorded net of certain costs such as credit and offline debit interchange fees and assessments charged by credit card associations which totaled \$3,013.5 million and \$2,164.1 million for the three months ended June 30, 2009 and 2008, respectively and \$5,745.8 million and \$4,089.2 million for the comparable six-month periods. Debit network fees related to acquired PIN-based debit transactions are recognized in the Reimbursable debit network fees, postage and other revenue and expense lines of the Consolidated Statements of Operations. The debit network fees related to acquired PIN-debit transactions charged by debit networks totaled \$470.8 million and \$327.2 million for the three months ended June 30, 2009 and 2008, respectively and \$883.4 million and \$613.1 million for the comparable six-month periods. Comparability of the dollar amounts disclosed in this paragraph is impacted by the termination of the Chase Paymentech Solutions alliance on November 1, 2008 and the deconsolidation of the Wells Fargo Merchant Services alliance on December 31, 2008. Information regarding these transactions is included in Note 5 to the Consolidated Financial Statements in Item 8 of the Company's Annual Report on Form 10-K for the year ended December 31, 2008.

**Note 2: Supplemental Financial Information***Supplemental Statement of Operations Information*

The following table details the components of Other income (expense) on the Consolidated Statements of Operations:

<b>(in millions)</b>	<b>Three months ended June 30,</b>	
	<b>2009</b>	<b>2008</b>
Investment losses	\$ (0.3)	\$
Derivative financial instruments (losses) and gains	(13.6)	9.4
Divestitures, net	(0.4)	
Non-operating foreign currency gains and (losses)	5.2	(3.0)
Other	5.5	
Other income (expense)	\$ (3.6)	\$ 6.4
<b>(in millions)</b>	<b>Six months ended June 30,</b>	
	<b>2009</b>	<b>2008</b>
Investment (losses) and gains	\$ (0.7)	\$ 22.1
Derivative financial instruments losses	(6.9)	(3.4)
Divestitures, net	(0.9)	
Non-operating foreign currency gains and (losses)	22.7	(55.5)
Other	5.5	
Other income (expense)	\$ 19.7	\$ (36.8)

*Supplemental Cash Flow Information*

On June 26, 2009, the Company entered into a joint venture with Bank of America, N.A. ( BofA ) as discussed in Note 4 below. The Company's and BofA's direct contributions to the alliance consisted of non-cash assets and liabilities.

## Edgar Filing: FIRST DATA CORP - Form 10-Q

During the six months ended June 30, 2009 and 2008, the principal amount of the Company's senior unsecured PIK notes increased by \$165.2 million and \$123.7 million, respectively, resulting from the payment of accrued interest expense.

During the six months ended June 30, 2009 and 2008, the Company entered into capital leases totaling approximately \$85 million and \$47 million, respectively.

Refer to Note 9 for information concerning the Company's stock-based compensation plans.

### **Note 3: Restructuring**

#### *Restructuring charges and reversal of restructuring accruals*

The Company recorded restructuring charges comprised of severance totaling \$10.2 million and \$40.2 million for the three and six months ended June 30, 2009, respectively. The Company also recorded charges related to facility closures totaling \$0.4 million during first quarter 2009. The restructurings resulted in the termination of employees company wide totaling \$0.3 million and \$9.8 million in Retail and Alliance Services, \$2.4 million and \$8.5 million in Financial Services, \$4.9 million and \$15.7 million in International and \$2.6 million and \$6.2 million in All Other and Corporate for the three and six months ended June 30, 2009,

**Table of Contents****FIRST DATA CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)**

respectively. The restructurings in the first quarter 2009 resulted from the elimination of a select number of management and other positions as part of the Company's cost saving initiatives. The second quarter 2009 restructurings resulted from similar actions as in the first quarter in the International segment while domestic restructurings resulted from site consolidations and the elimination of certain information technology positions. Cost savings initiatives are expected to continue into future periods resulting in additional restructuring charges. Partially offsetting the charges were reversals of 2009 and 2008 restructuring accruals of \$1.8 million and \$7.1 million during the three and six months ended June 30, 2009, respectively, related to the Company's change in strategy related to global labor sourcing initiatives as well as refining previously recorded estimates.

The following table summarizes the Company's utilization of restructuring accruals, excluding merger related restructuring charges, for the period from January 1, 2009 through June 30, 2009 (in millions):

	<b>Employee Severance</b>	<b>Facility Closure</b>
Remaining accrual at January 1, 2009	\$ 11.1	
Expense provision	40.2	\$ 0.4
Cash payments and other	(15.7)	(0.1)
Changes in estimates	(7.1)	
Remaining accrual at June 30, 2009	\$ 28.5	\$ 0.3

**Note 4: Business Combinations and Acquisitions and Divestitures**

On June 26, 2009, BofA and the Company, together with Rockmount Investments, LLC (Rockmount), an investment vehicle controlled by a third-party investor, formed a new company, Banc of America Merchant Services, LLC (BAMS). BAMS will provide clients with a comprehensive suite of acquiring and processing payment products for credit and debit cards as well as merchant loyalty, prepaid, check and e-commerce solutions.

The Company owns a 48.45% direct voting interest in BAMS and BofA owns a 46.55% direct voting interest. The remaining stake in BAMS is a 5% non-voting interest held by Rockmount. The Company owns a 40% non-controlling interest in Rockmount. The Company's 48.45% direct voting interest in BAMS, together with its control of the management committee, which governs BAMS, provides the Company with a controlling financial interest in BAMS under the applicable accounting standards and rules and thus BAMS is consolidated by the Company and reported in its Retail and Alliance Services segment. BofA's 46.55% interest in BAMS is presented as a noncontrolling interest component of total equity.

BofA's and the Company's contributions to the newly formed company were principally comprised of merchant acquiring contract rights and relationships and sales forces. The Company's contribution was most significantly comprised of assets received upon the November 1, 2008 termination of the Chase Paymentech Solutions alliance, though certain other assets were included as well. Rockmount's contribution was in the form of cash totaling \$321.7 million of which \$128.7 million represents the cash contributed to Rockmount by the Company for its 40% investment noted above.

Rockmount may, at the sole option of the third-party owning a controlling interest in Rockmount, require that BAMS redeem Rockmount's interest in BAMS. This option is available during a specified period of time after each of the fourth quarter of 2009 and the first and second quarters of 2010, and upon certain conditions, additional periods thereafter. Rockmount's interest would be redeemed by BAMS for an amount of cash based on Rockmount's capital account balance in BAMS immediately prior to the redemption subject to an additional adjustment to be paid or received by the Company and BofA based on the level of BAMS revenues for the trailing 12 month periods ending at the end of the fiscal

## Edgar Filing: FIRST DATA CORP - Form 10-Q

quarter immediately prior to the exercise or extension of the option. Since Rockmount has the ability to put its interests to BAMS (a consolidated subsidiary of the Company), the Company has classified the 3% non-voting interest attributable to the third-party investor as Redeemable noncontrolling interest in the Consolidated Balance Sheet rather than as Equity. The 2% non-voting interest attributable to the Company is included with the Company's direct voting interest in balances attributable to the Company in the Consolidated Financial Statements.

The formation of BAMS was accounted for by the Company as a sale of a noncontrolling interest in a subsidiary and a purchase business combination. For the quarter ended June 30, 2009, the Company has not recorded a gain or loss on the transaction due to the preliminary nature of the valuations and allocation of the Company's assets to BAMS. Additionally, the assets comprising the most significant portion of the Company's contribution were recently adjusted to fair value in the fourth quarter 2008 in connection with the November 1, 2008 termination of the Chase Paymentech Solutions alliance. Upon finalization of such valuations and allocations, the Company may record a gain or loss through adjustments to additional paid-in capital and noncontrolling interest. The Company does not currently anticipate such adjustments to be material.

**Table of Contents****FIRST DATA CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)**

The assets contributed to BAMS by the Company continue to be recorded at the Company's carrying basis, which for the majority of assets was established effective November 1, 2008 as described immediately above net of applicable amortization expense subsequently recognized, and the assets contributed by BofA were recorded at their estimated fair value. The fair value of the BofA contribution to BAMS was determined by estimating the BAMS enterprise value and attributing the appropriate portion of that value to such contribution. To estimate the enterprise value, the Company weighted the results of a discounted cash flow analysis, an analysis of guideline public companies, and an analysis of guideline merged and acquired companies. Each analysis was dependent on a number of significant management assumptions regarding the expected future financial results of BAMS as well as the identification of appropriate guideline companies or transactions. Additionally, the discounted cash flow analysis was dependent on an estimate of an appropriate discount rate. The Company relied in part upon a third party valuation firm in determining the enterprise value of BAMS. The value attributed to the net tangible and identifiable intangible assets contributed by BofA was based on their estimated fair values. The preliminary purchase price allocation resulted in identifiable intangible assets of \$1,200 million, which will be amortized over a range preliminarily estimated to be 10 to 20 years, and goodwill of \$2,244 million. The Company analyzed the values assigned to similar intangible assets in previous purchase price allocations as well as the values estimated for similar assets during previous impairment tests. For each intangible asset, the Company selected an appropriate multiple of revenue and applied it to the expected future revenue attributable to the asset to estimate its fair value. The Company will perform a valuation of these identifiable intangible assets which will result in an adjustment to the above allocation as well as the amortization periods.

During the first quarter of 2009, the Company acquired one entity, reported within the International segment, and a domestic merchant portfolio.

The aggregate cash paid during the six months ended June 30, 2009 for these acquisitions was approximately \$9.1 million, net of cash acquired. The aggregate preliminary purchase price allocation for these acquisitions resulted in \$810.0 million in identifiable intangible assets which are being amortized over five to 10 years, trade names of \$400.0 million being amortized over 20 years and goodwill of \$2,244.2 million.

The pro forma impact of all 2009 acquisitions on net income was not material.

**Note 5: Borrowings****Senior secured revolving credit facility**

The Company has a \$2.0 billion senior secured revolving credit facility with a term through the third quarter of 2013. Up to \$500 million of the Company's \$2.0 billion senior secured revolving credit facility is available for letters of credit, of which \$39.5 million and \$39.7 million of letters of credit were issued under the facility as of June 30, 2009 and December 31, 2008, respectively. The amounts outstanding against this facility were \$95.0 million and \$18.0 million as of June 30, 2009 and December 31, 2008, respectively.

Since an affiliate of Lehman Brothers Holdings Inc. filed for bankruptcy in September 2008, it has not funded amounts related to its \$230.6 million commitment under the Company's senior secured revolving credit facility and there is no assurance they will participate in any future funding requests or that the Company could obtain replacement loan commitments from other banks. The Company is monitoring the financial stability of other financial institutions that have made commitments under the revolving credit facility, none of which represent more than approximately 15% of the remaining capacity. As of June 30, 2009, \$1.6 billion remained available under this facility after considering the amount outstanding above, the letters of credit issued under the facility, and the commitment that is no longer being funded noted above.

**Other short-term borrowings**

The Company had approximately \$519 million and \$656 million available under short-term lines of credit and other arrangements with foreign banks and joint venture partners to fund settlement activity, as of June 30, 2009 and December 31, 2008, respectively. Certain of these arrangements are uncommitted (approximately \$124 million and \$273 million, respectively) but, as of the periods presented, the Company had some borrowings outstanding against them. These arrangements are primarily associated with First Data Deutschland, Cashcard Australia, Ltd., the joint venture with Allied Irish Banks p.l.c., First Data Polska and the Merchant Solutions joint venture and are in various functional currencies, the most significant of which are the euro, Australian dollar and Polish zloty. The amounts outstanding against these arrangements

Edgar Filing: FIRST DATA CORP - Form 10-Q

were \$102.4 million and \$257.3 million as of June 30, 2009 and December 31, 2008, respectively.

---

**Table of Contents**

**FIRST DATA CORPORATION**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**(Unaudited)**

**Senior secured term loan facility**

The terms of the Company's senior secured term loan facility require the Company to pay equal quarterly installments in aggregate annual amounts equal to 1% of the original principal amount. During the three and six months ended June 30, 2009 and 2008, the Company paid \$32.2 million and \$64.4 million and \$32.0 million and \$63.9 million, respectively, of principal payments on the senior secured term loan facility in accordance with this provision (\$29.7 million and \$59.5 million, respectively, related to the U.S. dollar denominated loan and \$2.5 million and \$4.9 million, respectively, related to the euro denominated loan for the three and six months ended June 30, 2009 and \$29.5 million and \$58.9 million, respectively, related to the U.S. dollar denominated loan and \$2.5 million and \$5.0 million, respectively, related to the euro denominated loan for the three and six months ended June 30, 2008).

**Senior unsecured PIK notes**

The terms of the Company's senior unsecured PIK (Payment In-Kind) notes require that interest on the notes up to and including September 30, 2011 be paid entirely by increasing the principal amount of the notes or by issuing senior unsecured PIK notes. During the six months ended June 30, 2009, the Company increased the principal amount of these notes by \$165.2 million in accordance with this provision. The principal amount was not increased during the three months ended June 30, 2009. During the three and six months ended June 30, 2008, the Company increased the principal amount of these notes by \$56.1 million and \$123.7 million, respectively.

**Note 6: Segment Information**

For a detailed discussion of the Company's principles regarding its operating segments refer to Note 17 to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2008.

As discussed in Note 1, the Company began operating under a new segment structure effective January 1, 2009. Segment results for the three and six months ended June 30, 2008 have been revised to reflect the new structure. The most significant changes were check verification, settlement and guarantee services moving from the Financial Services segment into the Retail and Alliance Services segment as well as the Prepaid Services segment moving into the Retail and Alliance Services segment. A summary of the new segments follows:

The Retail and Alliance Services segment is comprised of businesses that provide services which facilitate the merchants' ability to accept credit, debit, stored-value and loyalty cards and checks. The segment's merchant processing and acquiring services include authorization, transaction capture, settlement, chargeback handling and internet-based transaction processing. Retail and Alliance Services also provides point-of-sale (POS) solutions and other equipment necessary to capture merchant transactions. A majority of these services pertain to transactions in which consumer payments to merchants are made through a card association (such as Visa or MasterCard), a debit network, or another payment network (such as Discover). In addition, Retail and Alliance Services provides check verification, settlement and guarantee services and a wide range of open and closed loop stored-value products and processing services. The segment's largest components of revenue consist of discount fees charged to merchants, processing fees charged to unconsolidated alliances, equity earnings from unconsolidated alliances, selling and leasing of POS devices, fees for check verification, settlement and guarantee services and debit network fees.

The Financial Services segment provides issuer card and network solutions and payment management solutions for recurring bill payments. Financial Services also offers services to improve customer communications, billing, online banking and consumer bill payment. Issuer card and network solutions includes credit, retail and debit card processing, debit network services (including the STAR Network) and output services for financial institutions and other organizations offering credit cards, debit cards and retail private label cards to consumers and businesses to manage customer accounts. The segment's largest components of revenue consist

## Edgar Filing: FIRST DATA CORP - Form 10-Q

of fees for account management, transaction authorization and posting, and network switching as well as reimbursable postage.

The International segment is comprised of businesses that provide the following services outside of the U.S.: credit, retail, debit and prepaid card processing; merchant acquiring and processing; ATM and POS processing, driving, acquiring and switching services; and card processing software. The largest components of the segment's revenue are fees for facilitating the merchants' ability to accept credit, retail and debit cards by authorizing, capturing, and settling merchants' credit, retail, debit, stored-value and loyalty card transactions as well as for transaction authorization and posting, network switching and account management.

The Integrated Payment Systems (IPS) segment is principally comprised of operations which deal in the issuance of official checks which are sold by agents that are financial institutions and the issuance of money orders which are sold by agents that are financial institutions and retail businesses. Official checks serve as an alternative to a bank's own items such as cashiers or bank checks. Money orders serve as a disbursement option for a consumer or business. Revenue is

**Table of Contents****FIRST DATA CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)**

principally earned on invested funds which are pending settlement. The official check and money order businesses are conducted by a subsidiary of the Company, Integrated Payment Systems Inc., which is licensed to offer payment instrument and money transmitter services that fall under state and federal regulations. This segment is in the process of winding down its official check and money order businesses. IPS also offers payment processing services, and such other services will continue after the wind down of the official check and money order businesses.

Although the segments have changed, a detailed discussion regarding the businesses that comprise the Company's segments, the strategies of the Company and the businesses within the segments, business trends affecting the Company and certain risks inherent in the Company's business is included in Item 7: Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's Annual Report on Form 10-K for the year ended December 31, 2008.

The following table presents the Company's operating segment results for the three and six months ended June 30, 2009 and 2008:

<b>Three months ended June 30, 2009</b>	<b>Retail and Alliance Services</b>	<b>Financial Services</b>	<b>International</b>	<b>Integrated Payment Systems</b>	<b>All Other and Corporate</b>	<b>Totals</b>

Consolidated	\$ 389.0	\$ 393.5	\$ 741.1	\$ 761.9

**Note 7: Commitments and Contingencies**

The Company is involved in various legal proceedings. Accruals have been made with respect to these matters, where appropriate, which are reflected in the Company's consolidated financial statements. The Company may enter into discussions regarding settlement of these matters, and may enter into settlement agreements, if it believes settlement is in the best interest of the Company. The matters discussed below, if decided adversely to or settled by the Company, individually or in the aggregate, may result in liability material to the Company's financial condition and/or results of operations.

**Legal**

On July 2, 2004, Pamela Brennan, Terry Crayton, and Darla Martinez filed a class action complaint on behalf of themselves and all others similarly situated against the Company, its subsidiary Concord EFS, Inc., and various financial institutions ( Brennan ). Plaintiffs claim that the defendants violated antitrust laws by conspiring to artificially inflate foreign ATM fees that were ultimately charged to ATM cardholders. Plaintiffs seek a declaratory judgment, injunctive relief, compensatory damages, attorneys' fees, costs and such other relief as the nature of the case may require or as may seem just and proper to the court. Five similar suits were filed and served in July, August and October 2004 and the Court consolidated all of these ATM interchange cases pending against the defendants in Brennan.

On August 3, 2007, Concord EFS, Inc. filed a motion for summary judgment seeking to dismiss plaintiffs' *per se* claims, arguing that there are procompetitive justifications for the ATM interchange. On March 24, 2008, the Court entered an order granting the defendants' motions for partial summary judgment, finding that the claims raised in this case would need to be addressed under a Rule of Reason analysis. On February 2, 2009, the Plaintiffs filed a Second Amended Complaint. On April 6, 2009, the defendants filed a Motion to Dismiss the Second Amended Complaint.

The Company believes the complaints are without merit and intends to vigorously defend them.

**Other**

In the normal course of business, the Company is subject to claims and litigation, including indemnification obligations to purchasers of former subsidiaries. Management of the Company believes that such matters will not have a material adverse effect on the Company's results of operations, liquidity or financial condition.

**Note 8: Employee Benefit Plans**

## Edgar Filing: FIRST DATA CORP - Form 10-Q

The following table provides the components of net periodic benefit expense for the Company's defined benefit pension plans:

(in millions)	Three months ended June 30,		Six months ended June 30,	
	2009	2008	2009	2008
Service costs	\$ 1.9	\$ 2.7	\$ 3.8	\$ 5.5
Interest costs	9.1	10.7	17.7	21.5
Expected return on plan assets	(8.5)	(11.1)	(16.5)	(22.3)
Amortization	0.9		1.7	
<b>Net periodic benefit expense</b>	<b>\$ 3.4</b>	<b>\$ 2.3</b>	<b>\$ 6.7</b>	<b>\$ 4.7</b>

**Table of Contents****FIRST DATA CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)**

The Company estimates pension plan contributions for 2009 to be approximately \$34 million. During the six months ended June 30, 2009, approximately \$16 million was contributed to the United Kingdom plan. No contributions were made to the U.S. plan during the six months ended June 30, 2009.

**Note 9: Stock Compensation Plans**

Total stock-based compensation expense recognized in the Consolidated Statements of Operations resulting from stock options, non-vested restricted stock awards and non-vested restricted stock units was \$4.6 and \$9.1 million and \$6.2 and \$10.6 million pretax for the three and six months ended June 30, 2009 and 2008, respectively. Stock-based compensation expense is recognized in the Selling, general and administrative line item of the Consolidated Statements of Operations. Stock-based awards granted during the three and six months ended June 30, 2009 were immaterial.

**Note 10: Fair Value Measurements****Fair value of financial instruments**

Carrying amounts for certain of FDC's financial instruments (cash and cash equivalents and short-term borrowings) approximate fair value due to their short maturities. Accordingly, these instruments are not presented in the following table. The following table provides the estimated fair values of the remaining financial instruments (in millions):

<b>June 30, 2009</b>	<b>Carrying Value</b>	<b>Fair Value</b>
<b>Financial instruments:</b>		
<b>Settlement assets:</b>		
Short-term investment securities	\$ 355.6	\$ 355.6
Long-term investment securities	\$ 479.4	\$ 479.4
<b>Other current assets:</b>		
Short-term investment securities	\$ 7.0	\$ 7.0
<b>Other long-term assets:</b>		
Long-term investment securities	\$ 26.3	\$ 26.3
Derivative financial instruments	\$ 2.8	\$ 2.8
<b>Other current liabilities:</b>		
Derivative financial instruments	\$ 6.2	\$ 6.2
<b>Long-term borrowings:</b>		
Long-term borrowings	\$ 22,185.7	\$ 15,508.2
<b>Other long-term liabilities:</b>		
Derivative financial instruments	\$ 473.5	\$ 473.5

The estimated fair values of investment securities and derivative financial instruments are described below. Refer to Notes 11 and 12 for additional information regarding the Company's investment securities and derivative financial instruments, respectively.

The estimated fair market value of long-term borrowings were primarily based on market trading prices. For additional information regarding the Company's borrowings, refer to Note 5 of these Consolidated Financial Statements as well as Note 10 of the Company's Consolidated Financial Statements in Item 8 of the Company's Annual Report on Form 10-K for the year ended December 31, 2008.

**Concentration of credit risk**

## Edgar Filing: FIRST DATA CORP - Form 10-Q

The Company's investment securities are diversified across multiple issuers with no single issuer representing more than 6% of the total carrying value of financial instruments. The Company maintains the financial instruments other than investment securities with various financial institutions. The Company limits its concentration of financial instruments with any one institution to 10% of the aggregate value of the portfolio and limits its derivative financial instruments credit risk by maintaining contracts with counterparties rating A or higher. The Company periodically reviews the credit standings of these institutions.

***Settlement assets – Student loan auction rate securities***

As of June 30, 2009, the Company held student loan auction rate securities ( SLARS ) which are long-term debt instruments, issued by student loan trusts, with variable interest rates that historically reset through a periodic Dutch auction process but do not include a put-back option. Due to the collapse of the auction market in 2008, the Company will not be able to readily access liquidity for the SLARS until the auction market successfully resumes, a secondary market is established for long-term investors, or issuers redeem the securities. A failed auction does not represent a default by the issuer of the underlying security. As of June 30, 2009, the majority of the SLARS held by the Company were highly rated ( A3 or higher) and all were collateralized by securitized student loans substantially guaranteed by the U.S. government through the Federal Family Education Loan Program ( FFELP ). The NextStudent Master Trust ( NextStudent ) securities, with a total fair value of \$73.6 million, were also collateralized by securitized student loans substantially guaranteed by the U.S. government but were rated B3 by Moody's, and BBB by Fitch. The investment ratings were considered in determining the fair value of and the estimated credit loss for the NextStudent securities. As a result of the failed auctions, the trusts are required and continue to pay maximum interest rates as defined in the security offering documents

## Edgar Filing: FIRST DATA CORP - Form 10-Q

which are typically based on either LIBOR or Treasury rates plus a spread.

Due to the lack of observable market activity for the SLARS held by the Company as of June 30, 2009, the Company, with the assistance of a third party valuation firm upon which the Company in part relied, made certain assumptions, primarily relating to estimating both the weighted average life for the securities held by the Company and the impact of the current lack of liquidity on the fair value. At June 30, 2009, the securities were valued based on a probability weighted discounted cash flow analysis. The Company considered each security's key terms including date of issuance, date of maturity, auction intervals, scheduled auction dates, maximum auction rate, as well as underlying collateral, ratings, and guarantees or insurance. Substantially all SLARS held by the Company have collateral backed by FFELP. The probabilities of auction failure, a successful auction at par or repurchase at par for each future period were then forecasted. The Company assumed that the issuers will continue to pay maximum interest rates on the securities until the event of a successful auction or repurchase, at which point the Company would sell the SLARS at par through the auction. To determine the fair value of each security, the weighted average cash flows for each period were discounted back to present value at the determined discount rate for each security. As of June 30, 2009, cumulative probabilities of principal to be returned for AAA were estimated at approximately 45% over a two year period and 80% over a five year period. The probabilities were lower for lower rated securities. The discount rates used in the valuation were a combination of the liquidity risk premium assigned to the security (which ranged from 4% to 5%) plus the treasury strip yield (zero coupon treasury bond) for the individual period for which a cash flow was being discounted. The liquidity risk premium on the SLARS has decreased by 100 basis points from December 31, 2008 due to falling spreads on asset backed securities as well as indications of improved market liquidity. A 100 basis point change in liquidity risk premium would impact the value of the SLARS by approximately \$20 million.

Settlement assets - Other available-for-sale securities

As of June 30, 2009, the Company held certain investments in primarily short-term debt securities, including discounted commercial paper, money market funds, certificates of deposit (both domestic and Yankee), and fixed rate corporate bonds. Many of these securities are considered cash equivalents. Prices for these securities are not quoted on active exchanges but are priced through an independent third party pricing service based on quotations from market-makers in the specific instruments or, where appropriate, other market inputs including interest rates, benchmark yields, reported trades, issuer spreads, two sided markets, benchmark securities, bids, offers, and reference data. In certain instances, amortized cost is considered an appropriate approximation of market value. The Company's experience with these types of investments and expectations of the current investments held is that they will be satisfied at the current carrying amount. These securities were classified as Level 2.

As of June 30, 2009, the Company held preferred shares issued by the Federal Home Loan Mortgage Corporation ( Freddie Mac ) that are valued using quoted stock prices from the New York Stock Exchange and classified as Level 1.

Other current and long-term assets - Available-for-sale securities

The Company held certain other investments that were classified as available-for-sale and were classified as Level 2.

Derivative financial instruments

The Company uses derivative instruments to mitigate certain risks. The Company's derivatives are not exchange listed and therefore the fair value is estimated using Bloomberg analytics models that are based on readily observable market inputs. These models reflect the contractual terms of the derivatives, such as notional value and expiration date, as well as market-based observables including interest and foreign currency exchange rates, yield curves and the credit quality of the counterparties. The models also incorporate the Company's creditworthiness in order to appropriately reflect non-performance risk. Inputs to the derivative pricing models are generally observable and do not contain a high level of subjectivity and, accordingly, the Company's derivatives were classified within Level 2 of the fair value hierarchy. While the Company believes its estimates result in a reasonable reflection of the fair value of these instruments, the estimated values may not be representative of actual values that could have been realized as of June 30, 2009 or that will be realized in the near future. Refer to Note 12 for additional information

## Edgar Filing: FIRST DATA CORP - Form 10-Q

regarding the Company's derivative financial instruments.

### **Assets and liabilities measured at fair value on a non-recurring basis**

During six months ended June 30, 2009, there were no material fair value measurements of assets and liabilities measured on a non-recurring basis.

<b>Total other</b>	<b>64.5</b>				<b>64.5</b>
<b>Totals</b>	<b>\$ 912.1</b>		<b>\$ (17.7)</b>		<b>\$ 894.4</b>

(1) Represents amortized cost for debt securities.

(2) OTTI refers to other-than-temporary-impairments.

(3) Represents the fair value adjustment for debt securities excluding that attributable to credit losses.

(4) Represents cost for cost-based investments.

Investment securities are a principal component of the Company's settlement assets and represent the investment of funds received by FDC from the sale of payment instruments (official checks and financial institution money orders) by authorized agents. The Company's investment securities included in current settlement assets include certain certificates of deposit and corporate bonds. The Company's long-term settlement assets are comprised of SLARS. The Company received proceeds from the sale of long-term investment securities of \$4.0 million and \$17.4 million for the three and six months ended June 30, 2009. Sales of these investments resulted in no gains or losses for the three months ended June 30, 2009, and resulted in gross realized pretax gains of \$0.1 million for the six months ended June 30, 2009 in the Investment income, net line item of the Consolidated Statement of Operations.

## Edgar Filing: FIRST DATA CORP - Form 10-Q

Additionally, the Company maintains other investments which include equity securities and shares of a money market fund. These investments are carried at fair value and are included in the Other current assets and Other long-term assets line items of the Consolidated Balance Sheets. The Company also has investments in non-marketable equity securities and other investments for strategic purposes (collectively referred to as cost-based investments ) which are included in Other long-term assets in the Company s Consolidated Balance Sheets and are carried at cost. The Company s cost-based investments are evaluated for impairment upon an indicator of impairment such as events or changes in circumstances that may have a significant adverse effect on the fair value of the investment. At June 30, 2009, no indicators of impairment were present for the Company s cost-based investments and it was not practicable to estimate the fair value of the investments; accordingly, the investments were not evaluated for impairment. Proceeds from the sale of these investment securities totaled \$0.2 million for the six months ended June 30, 2009 while there were no proceeds received for the three months ended June 30, 2009. Realized pretax gains and losses associated with these investments are recognized in the Other income (expense) line item of the Consolidated Statements of Operations described in Note 2.

As of June 30, 2009, all of the above noted investments, except cost based investments, were classified as available-for-sale. Unrealized gains and losses on these investments were included as a separate component of OCI, net of any related tax effects. Net unrealized holding gains, net of tax, of \$18.6 million and \$7.5 million were recorded to OCI for the three and six months ended June 30, 2009, respectively. The Company uses specific identification to determine the cost of a security sold and the amount of gains and losses reclassified out of OCI. Realized pretax gains from the sale of investment securities, principally SLARS, reclassified out of OCI into Investment income, net was \$0.1 million for the six months ended June 30, 2009. There were no gains or losses recognized on the sale of investment securities for the three months ended June 30, 2009.

Table of Contents

## FIRST DATA CORPORATION

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

The following table presents the gross unrealized losses and fair value of the Company's investments with unrealized losses, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position at June 30, 2009 (in millions):

	Less than 12 months		More than 12 months <sup>(1)</sup>		Total Fair Value	Total Unrealized Losses
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses		
<b>June 30, 2009</b>						
Student loan auction rate securities	\$ 100.7	\$ (17.2)	\$ 378.5	\$ (34.6)	\$ 479.2	\$ (51.8)
<b>December 31, 2008</b>						
Student loan auction rate securities	\$ 492.2	\$ (13.3)			\$ 492.2	\$ (13.3)
Corporate bonds	\$ 337.7	\$ (4.4)			\$ 337.7	\$ (4.4)

<sup>(1)</sup> The total unrealized losses classified as more than 12 months at June 30, 2009 was significantly higher than the total unrealized losses classified as less than 12 months at December 31, 2008 due to the cumulative effect adjustment discussed below. As of June 30, 2009, the Company's unrealized losses related to the following:

**Student loan auction rate securities** The unrealized losses resulted from securities that have decreased in fair value to below their amortized cost primarily due to current lack of liquidity resulting from failure of the auction mechanisms. During 2008, an other-than-temporary-impairment loss of \$48.0 million was recognized relating to the SLARS under the then applicable accounting guidance in addition to the unrealized loss reflected in the table directly above. The fair value of the securities declined further during the first quarter of 2009 driven primarily by the valuation of NextStudent securities and, accordingly, the Company recognized additional unrealized loss in OCI during the three months ended March 31, 2009. Effective April 1, 2009, in connection with the adoption of new accounting rules for recognition and presentation of other-than-temporary impairments, the Company performed an assessment of the previously impaired SLARS to determine whether the securities were other-than-temporarily-impaired under the new guidance. The Company does not currently intend to sell the SLARS and does not consider it more likely than not that it will be required to sell the SLARS before the recovery of their amortized cost basis. This determination was based on the projected timing of when certain related settlement liabilities would need to be funded and the Company's ability to use its revolving credit facility in the event the settlement liabilities needed to be funded before the SLARS were liquid.

The Company believes that the SLARS currently held, with the exception of securities issued by NextStudent, will recover all of their principal value by their maturity date due to the following:

the securities are comprised primarily of senior tranches;

the securities are backed by collateral that is 97%-98% guaranteed by FFELP with subordinated tranches covering the non-guaranteed portion;

## Edgar Filing: FIRST DATA CORP - Form 10-Q

the securities have loan to collateral value ratios of 100% or greater for all senior securities and 99% for subordinated securities;

the securities have above investment grade credit ratings with the majority of securities rated at A3 or higher with the exception of NextStudent securities which are rated BBB and B3 .

The Company believes that the NextStudent SLARS may not recover all of their principal value by their maturity date and that it may incur a credit loss on these securities at least equal to the non-guaranteed portion of the underlying collateral. Based on the Company's qualitative assessment of these and other relevant factors, management has concluded that a credit loss should be recognized for the securities issued by NextStudent and no credit loss should be recognized for all other SLARS. In accordance with the transition guidance prescribed by the new accounting rules, as of April 1, 2009, the Company recognized a cumulative effect adjustment by increasing the opening balance of retained earnings by \$27.1 million, net of tax, and recording a corresponding unrealized loss in OCI, on the Consolidated Statement of Equity. The cumulative effect adjustment was equal to the amount of other-than-temporary-impairment, net of the related tax effects, previously recorded in the Statement of Operations for these securities less the three percent credit loss for NextStudent (effectively reversing the effect of \$43.3 million recognized as impairment expense in 2008 and not associated with SLARS sold during the first three months of 2009). The amortized cost basis of the securities was increased by the pretax amount of the cumulative effect adjustment. During the three months ended June 30, 2009, the Company reduced the unrealized loss, net of tax, recognized in OCI by \$18.6 million due to an increase in fair value of the SLARS during the period. As of the adoption date of the new accounting rules discussed above, total cumulative credit losses of \$2.7 million had been recognized in the Statement of Operations on the NextStudent SLARS. During the three months ended June 30, 2009, there were no changes in this credit loss and there were no additional credit losses for any of the SLARS held during that same period.

The following table presents maturity information for the Company's investments in debt securities at June 30, 2009 (in millions):

	<b>Fair Value</b>
Due within one year	\$ 342.2
Due after one year through five years	
Due after five years through 10 years	57.2
Due after 10 years	422.1
<b>Total debt securities</b>	<b>\$ 821.5</b>

**Note 12: Derivative Financial Instruments****Risk Management Objectives and Strategies**

The Company is exposed to various financial and market risks, including those related to changes in interest rates and foreign currency exchange rates, that exist as part of its ongoing business operations. The Company utilizes certain derivative financial instruments to enhance its ability to manage these risks.

As of June 30, 2009, the Company uses derivative instruments to mitigate (i) cash flow risks with respect to changes in interest rates (forecasted interest payments on variable rate debt) and foreign exchange rates (forecasted transactions denominated in foreign currency), (ii) to protect the initial net investment in certain foreign subsidiaries and/or affiliates with respect to changes in foreign currency exchange rates and (iii) to protect the Company from foreign currency exposure related to an outsourcing contract with a foreign vendor.

Derivative instruments are entered into for periods consistent with related underlying exposures and do not constitute positions independent of those exposures. The Company applies strict policies to manage each of these risks, including prohibition against derivatives trading, derivatives market-making or any other speculative activities. Although certain derivatives do not qualify for hedge accounting, they are entered into for economic hedge purposes and are not considered speculative.

The Company's policy is to minimize its cash flow and net investment exposures related to adverse changes in interest rates and foreign currency exchange rates. The Company's objective is to engage in risk management strategies that provide adequate downside protection.

**Accounting for Derivative Instruments and Hedging Activities**

The Company recognizes all derivatives in the Other long-term assets, Other current liabilities and Other long-term liabilities captions in the Consolidated Balance Sheets at their fair values. The Company designated certain of its interest rate swaps as cash flow hedges of forecasted interest rate payments related to its variable rate debt and certain of its cross currency swaps as a foreign currency hedge of its net investment in a foreign subsidiary. Other interest rate swaps, cross currency swaps and forward contracts on various foreign currencies did not qualify or have not been designated as accounting hedges and do not receive hedge accounting treatment.

With respect to derivative instruments that are afforded hedge accounting, the effective portion of changes in the fair value of a derivative that is designated and qualifies as a cash flow hedge is recorded in OCI and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. The effective portion of changes in the fair value of a net investment hedge is recorded as part of the cumulative translation adjustment in OCI. Any ineffectiveness is recorded immediately in the Consolidated Statements of Operations.

## Edgar Filing: FIRST DATA CORP - Form 10-Q

The Company formally documents all relationships between hedging instruments and the underlying hedged items, as well as its risk management objective and strategy for undertaking various hedge transactions. This process includes linking all derivatives that are designated as cash flow hedges to forecasted transactions and net investment hedges to the underlying investment in a foreign subsidiary or affiliate. The Company formally assesses, both at inception of the hedge and on an ongoing basis, whether the hedge is highly effective in offsetting changes in cash flows or foreign currency exposure of the underlying hedged items. The Company also performs an assessment of the probability of the forecasted transactions on a periodic basis. If it is determined that a derivative ceases to be highly effective during the term of the hedge or if the forecasted transaction is no longer probable, the Company will discontinue hedge accounting prospectively for such derivative.

---

**Table of Contents**

**FIRST DATA CORPORATION**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**(Unaudited)**

**Credit Risk**

The Company is monitoring the financial stability of its derivative counterparties. Certain of these counterparties have received support from the federal government in light of current financial conditions. Although these counterparties remain highly-rated (in the A category or higher), their ability to satisfy their commitments may be dependent on receiving continued support from the federal government. The credit risk inherent in these agreements represents the possibility that a loss may occur from the nonperformance of a counterparty to the agreements. The Company performs a review at inception of the hedge, as circumstances warrant, and at least on a quarterly basis of the credit risk of these counterparties. The Company also monitors the concentration of its contracts with individual counterparties. The Company's exposures are in liquid currencies (primarily in U.S. dollars, euros and Australian dollars), so there is minimal risk that appropriate derivatives to maintain the hedging program would not be available in the future.

**DERIVATIVES NOT QUALIFYING FOR HEDGE ACCOUNTING**

At June 30, 2009, the Company had certain derivative instruments that functioned as economic hedges but did not qualify or were not designated to qualify for hedge accounting. Such instruments included foreign currency forward contracts to hedge forecasted foreign currency sales and purchases, a cross-currency swap to hedge foreign currency exposure from an intercompany loan, cross-currency swaps to hedge an investment in a foreign subsidiary from fluctuations in foreign currency exchange rates, a foreign exchange rate collar to hedge foreign currency exposure related to an outsourcing contract with a foreign vendor, and interest rate swaps to hedge the interest payments on variable rate debt from fluctuations in interest rates.

During the first quarter of 2009, one of the cash flow hedges of interest payments on the Company's variable rate debt previously designated to qualify for hedge accounting ceased to be highly effective. As such, the Company did not apply hedge accounting to the discontinued hedge during the first quarter of 2009 and discontinued prospective hedge accounting for the affected derivatives. During the second quarter of 2009, the Company made an election with respect to the duration of the variable LIBOR interest rate payments it was hedging which was inconsistent with the original hedge strategy documented in the accounting designation. Accordingly, the Company had to de-designate the affected interest rate swaps, with \$2 billion notional amount, from receiving hedge accounting. The Company was able to re-designate prospectively an interest rate swap with a notional amount of \$500 million to continue to receive hedge accounting treatment; however, the other interest rate swaps with \$1.5 billion notional amount no longer met the criteria to qualify for hedge accounting primarily due to the significant off-market value of the swaps and will not be receiving hedge accounting treatment prospectively. While the derivatives no longer qualify for hedge accounting, they continue to be effective economically in eliminating the variability in interest rate payments on the corresponding portion of the Company's variable rate debt.

As of June 30, 2009, the notional amounts of the foreign currency forward contracts were 4.3 million Canadian dollars (\$3.7 million). The notional amount of the foreign exchange rate collar was approximately 91.9 million Philippine pesos (\$1.9 million). The notional amount of the cross-currency swaps was 91.1 million euro (approximately \$127.4 million). The notional amount of the interest rate swaps that no longer qualify for hedge accounting was \$3.0 billion.

The periodic change in the mark-to-market of the derivative instruments not designated as accounting hedges is recorded immediately in the Consolidated Statements of Operations. For information on the location and amounts of derivative fair values in the Consolidated Balance Sheets and derivative gains and losses in the Consolidated Statements of Operations, see the tabular information presented below.

**DERIVATIVES THAT QUALIFY FOR HEDGE ACCOUNTING**

**Hedge of a Net Investment in a Foreign Operation**

As of June 30, 2009, the Company had a cross currency swap that was designated as a hedge of net investments in foreign operations. Since the existing derivative instrument was not at zero fair value at the time of designation, the hedging relationship creates some ineffectiveness which is recognized immediately in the Consolidated Statements of Operations. The effective portion of the change in fair value of the cross currency

## Edgar Filing: FIRST DATA CORP - Form 10-Q

swap is recognized in the Consolidated Statement of Equity. As of June 30, 2009, the aggregate notional amount of the cross currency swap was 115.0 million Australian dollars (approximately \$92.3 million).

For information on the location and amounts of derivative fair values in the Consolidated Balance Sheets and derivative gains and losses in the Consolidated Balance Sheets or in the Consolidated Statements of Operations, see the tabular information presented below.

**Table of Contents**

**FIRST DATA CORPORATION**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**(Unaudited)**

**Cash Flow Hedges**

As of June 30, 2009, the Company had interest rate swaps which were designated as cash flow hedges of the variability in the interest payments on \$4.5 billion of the approximate \$12.7 billion variable rate senior secured term loan. As discussed above, the Company had additional interest rate swaps with notional amounts totaling \$3 billion that ceased to qualify for hedge accounting during the first and second quarters of 2009. The Company also had basis rate swaps that modify the variable rates on \$6.0 billion of the \$7.5 billion interest rate swaps and that lower the fixed interest rates on those interest rate swaps. The basis swaps pay interest at rates equal to three-month-LIBOR and receive interest at rates equal to one-month-LIBOR plus a fixed spread. One basis swap with a notional amount of \$2.0 billion expired on June 24, 2009 and all other basis swaps with a combined notional amount of \$4.0 billion expire on September 24, 2010. The Company pays interest on its senior secured term loan facility based on the one-month-LIBOR interest rate index to match the terms of the basis swaps. Ineffectiveness associated with these hedges is recognized immediately in the Consolidated Statements of Operations.

At June 30, 2009, the maximum length of time over which the Company is hedging its exposure is approximately 3.3 years. The effective portion of changes in fair value of the cash flow hedges is recorded temporarily in the Consolidated Statement of Equity as a component of OCI and then recognized in the Consolidated Statements of Operations in the same period or periods during which the payment of variable interest associated with the floating rate debt is recorded in earnings. Any ineffective portions of changes in fair value are recognized in the Consolidated Statements of Operations during the period of change. The Company follows the hypothetical derivative method to measure hedge ineffectiveness. A \$2.0 million loss and a \$3.8 million loss associated with ineffectiveness were recognized in earnings during the three and six months ended June 30, 2009, respectively, related to the cash flow hedges mostly due to the hedges being off-market at the time of designation. The amount of losses in OCI related to the hedged transactions as of June 30, 2009 that is expected to be reclassified into the Consolidated Statements of Operations within the next 12 months is approximately \$158 million.

For information on the location and amounts of derivative fair values in the Consolidated Balance Sheets and derivative gains and losses in the Consolidated Balance Sheets or in the Consolidated Statements of Operations, see the tabular information presented below.

## ACCUMULATED DERIVATIVE GAINS AND LOSSES

The following table summarizes activity in other comprehensive loss for the six months ended June 30, 2009 related to derivative instruments classified as cash flow hedges and net investment hedges held by the Company (in millions, after tax):

	Six months ended June 30, 2009
Accumulated loss included in other comprehensive loss at beginning of the period	\$ (339.6)
Less: Reclassifications into earnings from other comprehensive loss	32.9
	(306.7)
Net gains in fair value of derivatives <sup>(a)</sup>	34.2
Accumulated loss included in other comprehensive loss at end of the period	\$ (272.5)

<sup>(a)</sup> Gains and losses are included in unrealized gains on hedging activities and in foreign currency translation adjustment on the Consolidated Statement of Equity.

**Note 13: Supplemental Guarantor Condensed Consolidating Financial Statements**

FDC's publicly tradable 9.875% senior notes are unconditionally guaranteed by substantially all existing and future, direct and indirect, wholly owned, domestic subsidiaries of FDC other than Integrated Payment Systems Inc. (Guarantors). None of the other subsidiaries of FDC, either direct or indirect, guarantee the senior publicly tradable notes (Non-Guarantors). The Guarantors also unconditionally guarantee the senior secured revolving credit facility and senior secured term loan facility, senior unsecured cash-pay notes, senior unsecured PIK notes due 2015 and senior subordinated unsecured notes. The publicly tradable 9.875% senior note guarantees are unsecured and rank senior in right of payment to all existing and future subordinated indebtedness of FDC's guarantor subsidiaries. The publicly tradable 9.875% senior note guarantees rank equally in right of payment with all existing and future senior indebtedness of the guarantor subsidiaries.

The following tables present the results of operations, financial position and cash flows of FDC (FDC Parent Company), the Guarantor subsidiaries, the Non-Guarantor subsidiaries and consolidation adjustments for the three and six months ended June 30, 2009 and 2008, and as of June 30, 2009 and December 31, 2008 to arrive at the information for FDC on a consolidated basis.

**Table of Contents**

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**  
**Overview**

First Data Corporation ( "FDC" or "the Company" ), with global headquarters and principal executive offices in Atlanta, Georgia, and a principal administrative office in Greenwood Village, Colorado, operates electronic commerce businesses providing services that include merchant transaction processing and acquiring services; credit, retail and debit card issuing and processing services; prepaid card services; official check issuance; and check verification, settlement and guarantee.

**Segment Realignment**

Effective January 1, 2009, the Company's Chief Executive Officer began making strategic and operating decisions with regards to assessing performance and allocating resources based on a new segment structure. FDC now operates in four business segments: Retail and Alliance Services, Financial Services, International and Integrated Payment Systems ( "IPS" ). The most significant changes were check verification, settlement and guarantee services moving from the Financial Services segment into the Retail and Alliance Services segment as well as the Prepaid Services segment moving into the Retail and Alliance Services segment. A summary of the new segments follows:

The Retail and Alliance Services segment is comprised of businesses that provide services which facilitate the merchants' ability to accept credit, debit, stored-value and loyalty cards and checks. The segment's merchant processing and acquiring services include authorization, transaction capture, settlement, chargeback handling and internet-based transaction processing. Retail and Alliance Services also provides point-of-sale ( "POS" ) solutions and other equipment necessary to capture merchant transactions. A majority of these services pertain to transactions in which consumer payments to merchants are made through a card association (such as Visa or MasterCard), a debit network, or another payment network (such as Discover). In addition, Retail and Alliance Services provides check verification, settlement and guarantee services and a wide range of open and closed loop stored-value products and processing services. The segment's largest components of revenue consist of discount fees charged to merchants, processing fees charged to unconsolidated alliances, equity earnings from unconsolidated alliances, selling and leasing of POS devices, fees for check verification, settlement and guarantee services and debit network fees.

The Financial Services segment provides issuer card and network solutions and payment management solutions for recurring bill payments. Financial Services also offers services to improve customer communications, billing, online banking and consumer bill payment. Issuer card and network solutions includes credit, retail and debit card processing, debit network services (including the STAR Network), and output services for financial institutions and other organizations offering credit cards, debit cards and retail private label cards to consumers and businesses to manage customer accounts. The segment's largest components of revenue consist of fees for account management, transaction authorization and posting, and network switching as well as reimbursable postage.

The International segment is comprised of businesses that provide the following services outside of the U.S.: credit, retail, debit and prepaid card processing; merchant acquiring and processing; ATM and POS processing, driving, acquiring and switching services; and card processing software. The largest components of the segment's revenue are fees for facilitating the merchants' ability to accept credit, retail and debit cards by authorizing, capturing, and settling merchants' credit, retail, debit, stored-value and loyalty card transactions as well as for transaction authorization and posting, network switching and account management.

The IPS segment is principally comprised of operations that deal in the issuance of official checks which are sold by agents that are financial institutions and the issuance of money orders which are sold by agents that are financial institutions and retail businesses. Official checks serve as an alternative to a bank's own items such as cashiers or bank checks. Money orders serve as a disbursement option for a consumer or business. Revenue is principally earned on invested funds which are pending settlement. The official check and money order businesses are conducted by a subsidiary of the Company, Integrated Payment Systems Inc., which is licensed to offer payment instrument and money transmitter services that fall under state and federal regulations. This segment is in the process of winding down its official check and money order businesses. IPS also offers payment processing services, and such other services will continue after the wind down of the official check and money order businesses.

Although the segments have changed, a detailed discussion regarding the businesses that comprise the Company's segments, the strategies of the Company and the businesses within the segments, business trends affecting the Company and certain risks inherent in the Company's business is included in Item 7: Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's Annual Report on

Financial Services segment revenue	\$ 1,076.4	\$ 1,115.1	(3)%
International segment revenue	\$ 773.1	\$ 906.4	(15)%

Banc of America Merchant Services, LLC*Transaction*

On June 26, 2009, Bank of America N.A. ( BofA ) and the Company, together with Rockmount Investments, LLC ( Rockmount ), an investment vehicle controlled by a third-party investor, formed a new company, Banc of America Merchant Services, LLC ( BAMS ). BAMS will provide clients with a comprehensive suite of acquiring and processing payment products for credit and debit cards as well as merchant loyalty, prepaid, check and e-commerce solutions.

The Company owns a 48.45% direct voting interest in BAMS and BofA owns a 46.55% direct voting interest. The remaining stake in BAMS is a 5% non-voting interest held by Rockmount. The Company owns a 40% non-controlling interest in Rockmount. The Company's 48.45% direct voting interest in BAMS, together with its control of the management committee, which governs BAMS, provides the Company with a controlling financial interest in BAMS under the applicable accounting standards and rules and thus BAMS is consolidated by the Company and reported in its Retail and Alliance Services segment. BofA's 46.55% interest in BAMS is presented as a noncontrolling interest component of total equity.

BofA's and the Company's contributions to the newly formed company were principally comprised of merchant acquiring contract rights and relationships and sales forces. The Company's contribution was most significantly comprised of assets received upon the November 1, 2008 termination of the Chase Paymentech Solutions alliance, though certain other assets were included as well. Rockmount's contribution was in the form of cash totaling \$321.7 million of which \$128.7 million represents the cash contributed to Rockmount by the Company for its 40% investment noted above.

Rockmount may, at the sole option of the third-party owning a controlling interest in Rockmount, require that BAMS redeem Rockmount's interest in BAMS. This option is available during a specified period of time after each of the fourth quarter of 2009 and the first and second quarters of 2010, and upon certain conditions, additional periods thereafter. Rockmount's interest would be redeemed by BAMS for an amount of cash based on Rockmount's capital account balance in BAMS immediately prior to the redemption subject to an additional adjustment to be paid or received by the Company and BofA based on the level of BAMS revenues for the trailing 12 month periods ending at the end of the fiscal

## Edgar Filing: FIRST DATA CORP - Form 10-Q

quarter immediately prior to the exercise or extension of the option. Since Rockmount has the ability to put its interests to BAMS (a consolidated subsidiary of the Company), the Company has classified the 3% non-voting interest attributable to the third-party investor as Redeemable noncontrolling interest in the Consolidated Balance Sheet rather than as Equity. The 2% non-voting interest attributable to the Company is included with the Company's direct voting interest in balances attributable to the Company in the Consolidated Financial Statements.

**Table of Contents****FIRST DATA CORPORATION****MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION****AND RESULTS OF OPERATIONS (Continued)**

The formation of BAMS was accounted for by the Company as a sale of a noncontrolling interest in a subsidiary and a purchase business combination. For the quarter ended June 30, 2009, the Company has not recorded a gain or loss on the transaction due to the preliminary nature of the valuations and allocation of the Company's assets to BAMS. Additionally, the assets comprising the most significant portion of the Company's contribution were recently adjusted to fair value in the fourth quarter 2008 in connection with the November 1, 2008 termination of the Chase Paymentech Solutions alliance. Upon finalization of such valuations and allocations, the Company may record a gain or loss through adjustments to additional paid in capital and noncontrolling interest. The Company does not currently anticipate such adjustments to be material.

*Purchase price allocation*

The assets contributed to BAMS by the Company continue to be recorded at the Company's carrying basis, which for the majority of assets was established effective November 1, 2008 as described immediately above net of applicable amortization expense subsequently recognized, and the assets contributed by BofA were recorded at their estimated fair value. The fair value of the BofA contribution to BAMS was determined by estimating the BAMS enterprise value and attributing the appropriate portion of that value to such contribution. The Company relied in part upon a third party valuation firm in determining the enterprise value of BAMS. The value attributed to the net tangible and identifiable intangible assets contributed by BofA was based on their estimated fair values. The preliminary purchase price allocation resulted in identifiable intangible assets of \$1,200 million, which will be amortized over a range preliminarily estimated to be 10 to 20 years, and goodwill of \$2,244 million. See footnote Note 4 to the Consolidated Financial Statements included in Item 1 of this Form 10-Q for a description of the methodologies used to determine the fair value of the enterprise and intangible assets.

Chase Paymentech Solutions and Wells Fargo Merchant Services

On November 1, 2008, the Company and JPMorgan Chase terminated their merchant alliance joint venture, Chase Paymentech Solutions<sup>TM</sup> (CPS), which was the Company's largest merchant alliance. The Company received its proportionate 49% share of the assets of the joint venture. The new domestic owned and managed business is being operated as part of FDC's Retail and Alliance Services segment. FDC continues to provide transaction processing and related services for certain merchants of the joint venture that were allocated to JPMorgan Chase but are resident on FDC's processing platforms. FDC historically accounted for its minority interest in the joint venture under the equity method of accounting. Since November 1, 2008, the portion of CPS business received by the Company in the separation is reflected on a consolidated basis throughout the financial statements. In the three and six months ended June 30, 2008, CPS comprised the vast majority of the Equity earnings in affiliates and the processing and other fees noted in footnote (a) on the face of the Consolidated Statements of Operations. As noted under Banc of America Merchant Services, LLC above, the majority of the assets received by the Company from the termination of CPS were contributed to BAMS effective June 26, 2009.

On December 31, 2008, the Company and Wells Fargo & Company (WFB) extended their merchant alliance joint venture, Wells Fargo Merchant Services, LLC (WFMS) for five years beyond its previously contracted termination date through December 31, 2014. In connection with the agreement to extend WFMS, FDC sold 12.5% of the membership interests to WFB. This resulted in FDC and WFB owning 40% and 60% of WFMS, respectively, as of December 31, 2008. As a result of the transaction, FDC deconsolidated the WFMS balance sheet and is reflecting its remaining ownership interest as an equity method investment. In 2009, the Company's share of WFMS's earnings is reflected in the Equity earnings in affiliates line in the Consolidated Statements of Operations and therefore consolidated revenues and expenses decreased in 2009 compared to 2008. In the three and six months ended June 30, 2009, WFMS comprised the majority of the Equity earnings in affiliates and the processing and other fees noted in footnote (a) on the face of the Consolidated Statements of Operations.

In comparing 2009 to 2008, the net impact of the termination of CPS and the deconsolidation of WFMS were offsetting in nature but resulted in net increases in consolidated revenues and expenses and net decreases in Equity earnings in affiliates due to the relative greater significance of CPS related balances. Net income (loss) attributable to the Company was negatively impacted in 2009 compared to 2008 as the result of the WFMS membership interest sale referred to above but was otherwise largely unaffected by the structural changes. The combined impact of these transactions is referred to throughout this MD&A as the net impact of the CPS and WFMS alliance transactions.

Other

## Edgar Filing: FIRST DATA CORP - Form 10-Q

On August 10, 2009, the Company launched a registered exchange offer to exchange any and all of its outstanding unregistered unsecured 9<sup>7</sup>/<sub>8</sub>% Senior Cash-Pay Notes due 2015, its outstanding unregistered unsecured 10<sup>11</sup>/<sub>20</sub>% Senior PIK Notes due 2015 and its outstanding unregistered unsecured 11<sup>1</sup>/<sub>4</sub>% Senior Subordinated Notes due 2016 for publicly tradable notes having substantially identical terms and guarantees, except that the exchange notes will be freely tradable. The exchange offer expires on September 4, 2009, unless extended.

The Company signed an agreement to extend its merchant acquiring joint venture with The PNC Financial Services Group ( PNC ) for an additional eight years which now includes National City Corporation merchant referrals. In addition, the Company renewed and expanded its agreement for transaction processing services with PNC which will include additional PIN-debit and ATM processing PNC gained through its acquisition of National City Corporation.

**Table of Contents****FIRST DATA CORPORATION****MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION****AND RESULTS OF OPERATIONS (Continued)****Economic Conditions**

General economic conditions in the U.S. and other areas of the world weakened in the second half of 2008 with a dramatic acceleration in the fourth quarter which generally continued through the first half of 2009. Many of FDC's businesses rely in part on the number and size of consumer transactions which have been challenged by a weakened U.S. and world economy and difficult credit markets. Broad slowdowns in consumer spending had a material impact on the first and second quarter 2009 revenues and profits. The Company experienced increased credit losses during the first half of 2009 compared to the same period in 2008 resulting from a higher level of merchant failures and bankruptcy filings generally attributable to challenges in the current economic environment. In addition, the Company's revenues and operating profit during the first half of 2009 as compared to the same period in 2008 were adversely impacted by decreases in the average ticket size of acquired credit card transactions, consumer spending shifting to large discount merchants from local and regional merchants and shifts to personal identification number ( PIN ) debit card transactions from credit card transactions. Also as a result of the current economic conditions in the U.S., credit card issuers have been reducing credit limits and closing accounts and are more selective with regard to whom they issue credit cards. This reduction in the number of accounts and account activity adversely impacted Financial Services segment results during the three and six months ended June 30, 2009 as discussed below. A continuation of the economic slowdown could adversely impact future revenues and profits of the Company.

The Company's source of liquidity is principally cash generated from operating activities, supplemented as necessary on a short-term basis by borrowings against its revolving credit facility. The economic downturn is expected to have at least a near-term impact on the capital resources provided by operating activities. The Company utilized a small portion of the revolving credit facility during the six months ended June 30, 2009 on a very short-term basis due to timing of expenditures and funding requirements.

In addition to the current economic conditions, there is also volatility in the credit and capital markets which could adversely impact the Company's results of operations due to the potential for additional investment losses and investment impairments. Investment impairments and losses recorded during the six months ended June 30, 2009 were not material.

**Adoption of SFAS 160**

The Company adopted Statement of Financial Accounting Standards ( SFAS ) No. 160, Noncontrolling Interests in Consolidated Financial Statements ( SFAS No. 160 ), effective January 1, 2009 which requires that earnings attributed to noncontrolling interests be reported as part of consolidated earnings and not as a separate component of income or expense. The Company's Consolidated Statement of Operations for 2008 has been revised to conform to the presentation requirements of SFAS No. 160. In addition, presentation of transactions related to noncontrolling interests in the Company's Consolidated Statement of Cash Flows in 2008 has been revised to reclassify such items from Cash Flows from Operating Activities and Cash Flows from Investing Activities to Cash Flows from Financing Activities.

**Results of Operations**

Consolidated results should be read in conjunction with segment results, which provide more detailed discussions concerning certain components of the Consolidated Statements of Operations. All significant intercompany accounts and transactions have been eliminated. Amounts in 2008 have been adjusted to conform to the current year presentation, the largest of which was the reclassification of certain expenses from Cost of services to Selling, general and administrative.
