PROXY STATEMENT

FOR THE

2010 ANNUAL MEETING OF STOCKHOLDERS

This proxy statement and proxy card are furnished in connection with the solicitation of proxies to be voted at our annual meeting of stockholders, which will be held at the Hyatt Regency Austin, 208 Barton Springs Road, Austin, Texas 78704, on May 21, 2010, at 8:30 a.m. On April 9, 2010, we began mailing to stockholders of record either a Notice of Internet Availability of Proxy Materials (Notice) or this proxy statement and proxy card.

Why am I receiving this proxy statement and proxy card?

You have received these proxy materials because our board of directors is soliciting your proxy to vote your shares at the annual meeting. This proxy statement describes issues on which we would like you to vote at our annual meeting of stockholders. It also gives you information on these issues so that you can make an informed decision.

Our board of directors has made this proxy statement and proxy card available to you on the Internet because you own shares of SolarWinds, Inc. common stock, in addition to delivering printed versions of this proxy statement and proxy card to certain stockholders by mail.

When you vote by using the Internet, by telephone or (if you received your proxy card by mail) by signing and returning the proxy card, you appoint Michael S. Bennett and Kevin B. Thompson as your representatives at the annual meeting. They will vote your shares at the annual meeting as you have instructed them or, if an issue that is not on the proxy card comes up for vote, in accordance with their best judgment. This way, your shares will be voted whether or not you attend the annual meeting. Even if you plan to attend the annual meeting, we encourage you to vote in advance by using the Internet, by telephone or (if you received your proxy card by mail) by signing and returning your proxy card.

Why did I receive a Notice of Internet Availability of Proxy Materials in the mail instead of a printed set of proxy materials?

Pursuant to rules adopted by the Securities and Exchange Commission, we are permitted to furnish our proxy materials over the Internet to our stockholders by delivering a Notice in the mail. As a result, you will not receive a printed copy of the proxy materials in the mail. Instead, the Notice instructs you on how to access and review the proxy statement and annual report over the Internet at www.proxyvote.com. The Notice also instructs you on how you may submit your proxy over the Internet. If you would like to receive a printed copy of our proxy materials, you should follow the instructions for requesting these materials contained on the Notice.

Who is entitled to vote?

Holders of our common stock at the close of business on March 25, 2010 are entitled to vote. March 25, 2010 is referred to as the record date.

In accordance with Delaware law, a list of stockholders entitled to vote at the meeting will be available at the place of the annual meeting on May 21, 2010 and will be accessible in electronic form for ten days prior to the meeting at our principal place of business, 3711 South MoPac Expressway, Building Two, Austin, Texas 78746, between the hours of 9:00 a.m. and 5:00 p.m local time.

Table of Contents

To how many votes is each share of common stock entitled?

Holders of common stock are entitled to one vote per share. On the record date, there were 67,813,000 shares of our common stock outstanding and entitled to vote.

How do I vote?

Stockholders of record may vote by using the Internet, by telephone or (if you received a proxy card by mail) by mail as described below. Stockholders also may attend the meeting and vote in person. If you hold shares through a bank or broker, please refer to your proxy card, Notice or other information forwarded by your bank or broker to see which voting options are available to you.

You may vote by using the Internet. The address of the website for Internet voting is www.proxyvote.com. Internet voting is available 24 hours a day and will be accessible until 11:59 p.m. Eastern Time on May 20, 2010. Easy-to-follow instructions allow you to vote your shares and confirm that your instructions have been properly recorded.

You may vote by telephone. The toll-free telephone number is noted on your proxy card. Telephone voting is available 24 hours a day and will be accessible until 11:59 p.m. Eastern Time on May 20, 2010. Easy-to-follow voice prompts allow you to vote your shares and confirm that your instructions have been properly recorded.

You may vote by mail. If you received a proxy card by mail and choose to vote by mail, simply mark your proxy card, date and sign it, and return it in the postage-paid envelope.

The method you use to vote will not limit your right to vote at the annual meeting if you decide to attend in person. Written ballots will be passed out to anyone who wants to vote at the annual meeting. If you hold your shares in street name, you must obtain a proxy, executed in your favor, from the holder of record to be able to vote in person at the annual meeting.

What if I change my mind after I return my proxy?

You may revoke your proxy and change your vote at any time before the polls close at the annual meeting. You may do this by:

submitting a subsequent proxy by using the Internet, by telephone or by mail with a later date;

sending written notice of revocation to our Corporate Secretary at 3711 South MoPac Expressway, Building Two, Austin, Texas 78746; or

voting in person at the annual meeting.

Attendance at the meeting will not by itself revoke a proxy.

How many votes do you need to hold the annual meeting?

The presence, in person or by proxy, of the holders of a majority of the votes entitled to be cast at the annual meeting will constitute a quorum. If a quorum is present, we can hold the annual meeting and conduct business.

On what items am I voting?

You are being asked to vote on two items:

the election of three Class I directors nominated by the board of directors and named in the proxy statement to serve a term of three years until our 2013 annual meeting of stockholders (Proposal One); and

Table of Contents

the ratification of the selection of PricewaterhouseCoopers LLP as our independent registered public accountants for the year ending December 31, 2010 (Proposal Two).

No cumulative voting rights are authorized, and dissenters' rights are not applicable to these matters.

How may I vote for the nominees for director, and how many votes must the nominees receive to be elected?

With respect to the election of nominees for director, you may:

vote FOR the election of the three nominees for director;

WITHHOLD AUTHORITY to vote for one or more of the nominees and vote FOR the remaining nominees; or

WITHHOLD AUTHORITY to vote for the three nominees.

The three nominees receiving the highest number of affirmative votes will be elected as directors. This number is called a plurality. If you hold shares of common stock through a bank or broker, your bank or broker will vote your shares for you if you provide instructions on how to vote the shares. In the absence of instructions, however, beginning this year, banks and brokers no longer have the authority to vote your shares for the election of directors. Accordingly, it is important that you provide voting instructions to your bank or broker, so that your shares may be voted in the election of directors.

What happens if a nominee is unable to stand for election?

If a nominee is unable to stand for election, the board may either:

reduce the number of directors that serve on the board, or

designate a substitute nominee.

If the board designates a substitute nominee, shares represented by proxies voted for the nominee who is unable to stand for election will be voted for the substitute nominee.

How may I vote for the ratification of the appointment of our independent registered public accountants, and how many votes must the proposal receive to pass?

With respect to the proposal to ratify the appointment of our independent registered public accountants, you may:

vote FOR the proposal;

vote AGAINST the proposal; or

ABSTAIN from voting on the proposal.

The ratification of the appointment of our independent registered public accountants must receive the affirmative vote of a majority of the votes that could be cast at the annual meeting by the holders who are present in person or by proxy to pass. If you abstain from voting on the proposal or your broker is unable to vote your shares, it will have the same effect as a vote against the proposal.

How does the board of directors recommend that I vote?

The board recommends a vote

FOR all three director nominees; and

FOR the ratification of the appointment of our independent registered public accountants.

Table of Contents

What happens if I sign and return my proxy card but do not provide voting instructions?

If you return a signed card but do not provide voting instructions, your shares will be voted FOR all three director nominees, and FOR the ratification of the appointment of our independent registered public accountants.

Will my shares be voted if I do not vote by using the Internet, by telephone or by signing and returning my proxy card?

If your shares are held in street name through a bank or broker, your bank or broker may vote your shares under certain limited circumstances if you do not provide voting instructions before the annual meeting, in accordance with New York Stock Exchange (NYSE) rules that govern the banks and brokers. These circumstances include voting your shares on routine matters, such as the ratification of the appointment of our independent registered public accountants described in this proxy statement. With respect to this proposal, therefore, if you do not vote your shares, your bank or broker may vote your shares on your behalf or leave your shares unvoted.

Beginning this year, the election of directors is not considered a routine matter under NYSE rules relating to voting by banks and brokers. When a proposal is not a routine matter and the brokerage firm has not received voting instructions from the beneficial owner of the shares with respect to that proposal, the brokerage firm cannot vote the shares on that proposal. This is called a broker non-vote. Broker non-votes that are represented at the annual meeting will be counted for purposes of establishing a quorum, but not for determining the number of shares voted for or against the non-routine matter.

We encourage you to provide instructions to your bank or brokerage firm by voting your proxy. This action ensures your shares will be voted at the meeting in accordance with your wishes.

What do I need to show to attend the annual meeting in person?

You will need proof of your share ownership (such as a recent brokerage statement or letter from your broker showing that you owned shares of SolarWinds, Inc. common stock as of March 25, 2010) and a form of photo identification. If you do not have proof of ownership and valid photo identification, you may not be admitted to the annual meeting. All bags, briefcases and packages will be held at registration and will not be allowed in the meeting.

Can I receive future proxy materials and annual reports electronically?

Yes. This proxy statement and the 2009 Annual Report to Stockholders are available on our investor relations website located at <http://ir.solarwinds.com>. Instead of receiving paper copies in the mail, stockholders can elect to receive an email that provides a link to our future annual reports and proxy materials on the Internet. Opting to receive your proxy materials electronically will save us the cost of producing and mailing documents to your home or business, and will reduce the environmental impact of our annual meetings, and will give you an automatic link to the proxy voting site.

Can I submit a proposal for inclusion in the proxy statement for the 2011 annual meeting?

Stockholders of the Company may submit proper proposals for inclusion in our proxy statement and for consideration at our 2011 annual meeting of stockholders by submitting their proposals in writing to our Corporate Secretary in a timely manner. In order to be considered for inclusion in our proxy materials for the 2011 annual meeting of stockholders, stockholder proposals must:

- (a) be received by our Corporate Secretary no later than the close of business on and December 10, 2010; and
- (b) otherwise comply with the requirements of Delaware law, Rule 14a-8 of the Securities Exchange Act of 1934, as amended (the Exchange Act) and our amended and restated bylaws.

Table of Contents

Unless we receive notice in the foregoing manner, the proxy holders shall have discretionary authority to vote for or against any such proposal presented at our 2011 annual meeting of stockholders. A copy of our bylaw provisions governing the notice requirements set forth above may be obtained by writing to our Corporate Secretary. Such requests and all notices of proposals and director nominations by stockholders should be sent to SolarWinds, Inc., 3711 South MoPac Expressway, Building Two, Austin, Texas 78746, Attention: Corporate Secretary.

The affirmative vote of a plurality of the votes cast at the annual meeting is required for the election of our Class I directors. The three nominees receiving the most FOR votes among votes properly cast in person or by proxy will be elected to the board as Class I directors. You may vote FOR or WITHHOLD on each of the three nominees for election as director. Only votes FOR will affect the outcome. CORPORATE GOVERNANCE

Board Leadership

The board does not have a policy on whether or not the roles of Chairman of the Board and Chief Executive Officer should be separate and, if they are to be separate, whether the Chairman of the Board should be selected from the non-employee directors or be an employee. The board believes that it should be free to make a choice from time to time in any manner that is in the best interests of the Company and its stockholders. Currently, we separate the role of Chairman and Chief Executive Officer with Mr. Bennett serving as Executive Chairman and Mr. Thompson serving as Chief Executive Officer. Although no longer our Chief Executive Officer, Mr. Bennett's experience with our Company, including serving as President, Chief Executive Officer, and Executive Chairman of the Board, results in Mr. Bennett possessing detailed and in-depth knowledge of the issues, opportunities and challenges facing the Company and is thus in the best position to serve as our current Executive Chairman. Steven M. Cakebread serves as the Lead Director of the board and acts as chairperson for regular executive sessions of the independent directors of the board. Following an executive session of independent directors, the Lead Director acts as a liaison between the independent directors and the Executive Chairman regarding any specific feedback or issues. The Lead Director also provides the Executive Chairman with input regarding schedule and agenda items for board and committee meetings and coordinates with the Executive Chairman regarding information to be provided to the independent directors in performing their duties. In addition, each of the committees of the board is chaired by an independent director.

Risk Oversight

Our business is subject to various types of risk, including competitive, technological, legal, personnel, financial and many others. Our board is charged with, among other things, overseeing our risk management processes implemented by management and ensuring that necessary steps are taken to foster a culture of risk-adjusted decision-making throughout our organization. Each of our directors other than Messrs. Bennett and Thompson is independent and the board believes that this independence provides effective oversight of management. The board regularly reviews information and reports from members of senior management on areas of material risk, including operational, financial, legal and regulatory, and strategic and reputational risks. The Compensation Committee is responsible for overseeing the management of risks relating to our executive compensation plans and arrangements. The Audit Committee oversees management of operational, financial, legal, and regulatory risks. The Nominating and Corporate Governance Committee manages risks associated with the independence of the board of directors and potential conflicts of interest. While each committee is responsible for evaluating certain risks and overseeing the management of such risks, the entire board of directors is regularly informed through committee reports about such risks.

Board Committees

Our board has three standing committees: an Audit Committee, a Compensation Committee and a Nominating and Governance Committee. Pursuant to our Corporate Governance Guidelines, each committee consists entirely of directors who meet the requirement for independence under applicable NYSE and SEC rules as further described below under the caption *Director Independence*. Our board has adopted a charter for each committee that is available without charge, upon request in writing to SolarWinds, Inc., 3711 South MoPac Expressway, Building Two, Austin, Texas 78746, Attn: General Counsel or on the investor relations portion of our website at www.solarwinds.com. We believe that each of our committee charters and the functioning of each committee comply with the applicable requirements of the NYSE and SEC rules and regulations.

Table of Contents

The table below lists the current membership of each committee and the number of committee meetings held in 2009.

Jeffrey L. Horing		Member	
J. Benjamin Nye		Chairman	
Ellen F. Siminoff	Member		Member
Roger J. Sippl		Member	
Number of Meetings held in 2009	6	4	1

The primary responsibilities of each committee are described below.

Audit Committee

The Audit Committee oversees our corporate accounting and financial reporting processes. The Audit Committee also:

evaluates our independent auditors' qualifications, independence and performance;

determines the engagement of our independent auditors;

approves the retention of our independent auditors to perform any proposed permissible non-audit services;

monitors the performance of the Company's internal audit function and independent auditors;

monitors the rotation of partners of our independent auditors on our engagement team;

monitors the Company's compliance with legal and regulatory requirements;

reviews our financial statements and reviews our critical accounting policies and estimates; and

reviews and discusses with management and our independent auditors the results of the annual audit and the quarterly reviews of our financial statements.

Each member of the Audit Committee is a financial expert as contemplated by the rules of the SEC implementing Section 407 of the Sarbanes Oxley Act of 2002 and fulfills the accounting or related financial management expertise requirements set forth in the NYSE Corporate Governance Rules.

Compensation Committee

The Compensation Committee has the general responsibility of overseeing our compensation and benefit programs, including the following:

overseeing our compensation philosophy;

reviewing and recommending policies relating to compensation and benefits of our executive officers, employees and outside directors;

reviewing and approving corporate goals and objectives relevant to compensation of our Chief Executive Officer and other executive officers;

evaluating the performance of our executive officers in light of established goals and objectives;

setting compensation of our executive officers based on its evaluations;

preparing the compensation discussion and analysis and report of the Compensation Committee that the SEC requires in our annual proxy statements;

Table of Contents

making recommendations to our board regarding our equity compensation plans and administering the same; and

reviewing and evaluating, at least annually, its own performance and that of its members, including compliance with the committee charter.

Our board has determined that each member of our Compensation Committee is a non-employee director, as defined by Rule 16b-3 promulgated under the Exchange Act, and an outside director, as defined pursuant to Section 162(m) of the Internal Revenue Code of 1986, as amended.

Nominating and Governance Committee

The Nominating and Governance Committee identifies individuals qualified to become board members and assists our board in reviewing and recommending nominees for election as directors. The Nominating and Governance Committee also:

oversees and evaluates the qualifications and performance of the members of our board and management;

reviews and assesses the composition of our board; and

administers our Corporate Governance Principles and Code of Business Conduct and Ethics.

Director Independence

Our Corporate Governance Guidelines, which may be found at the investor relations portion of our website at www.solarwinds.com, state that our board shall have a majority of directors who meet the criteria for independence established by applicable law, including the Sarbanes-Oxley Act of 2002, the rules and regulations of the SEC and those of the NYSE. The Nominating and Governance Committee annually reviews the independence of each board nominee, conducts a periodic review of the independence of the other members of the board and its Committees and reports its findings to the full board. Based on the report and recommendation of the Nominating and Governance Committee, the board has determined that each of the nominees standing for election to the board at the annual meeting, other than Mr. Thompson, satisfies the independence criteria (not including the enhanced criteria with respect to members of the Audit Committee) set forth in the applicable NYSE listing standards and SEC rules. Each board committee member qualifies as a non-employee director within the meaning of Rule 16b-3 under the Exchange Act.

For a director to be considered independent, the board must determine that the director does not have any direct or indirect material relationships (including vendor, supplier, consulting, legal, banking, accounting, charitable and family relationships) with us, other than as a director and a stockholder. NYSE listing standards set forth certain circumstances in which a director may not be deemed independent, including certain relationships that exist at the time of the determination or during the prior three years. Under these NYSE listing standards, Messrs. Bennett and Thompson could not be independent because each is an employee.

With respect to our other non-employee directors, the board considered all relevant facts and circumstances in making its determinations of independence, including the following:

None of our non-employee directors receives any direct compensation from us other than under the director compensation plan;

No immediate family member (within the meaning of the NYSE listing standards) of any non-employee director is an employee or otherwise receives direct compensation from us;

No non-employee director is an employee of our independent accountants and no non-employee director (or any of their respective immediate family members) is a current partner of our independent accountants, or was within the last three years, a partner or

employee of our independent accountants and personally worked on our audit;

Table of Contents

No non-employee director is a member, partner, or principal of any law firm, accounting firm or investment banking firm that receives any consulting, advisory or other fees from us;

None of our executive officers is on the compensation committee of the board of directors of a company that employs any of our non-employee directors (or any of their respective immediate family members) as an executive officer;

No non-employee director (or any of their respective immediate family members) is indebted to us and we are not indebted to any non-employee director (or any of their respective immediate family members); and

No non-employee director serves as an executive officer of a charitable or other tax-exempt organization that received contributions from us.

We have a commercial relationship with salesforce in which Mr. Cakebread served as an officer during the 2009 fiscal year. In this case, (i) the software and services were provided by salesforce on the same terms and conditions as similar products and services provided by or to similarly situated customers and suppliers; (ii) Mr. Cakebread did not initiate or negotiate the relevant transaction, which was in the ordinary course of business of both companies, and (iii) the amount of such purchase was approximately \$241,000, which was approximately 0.02% of the consolidated revenue of salesforce in 2009. This level is significantly below the relevant per se bar to independence set forth in the NYSE listing standards, which uses a threshold of the greater of \$1.0 million or 2% of total revenue.

Communications to the Board of Directors

Stockholders may communicate with the members of the board by sending a letter to our Corporate Secretary at 3711 South MoPac Expressway, Building Two, Austin, Texas 78746 or a fax to (512) 682-9301. Our Corporate Secretary reviews all incoming stockholder communications (except for: mass mailings; product complaints or inquiries; job inquiries; business solicitations; and patently offensive or otherwise inappropriate material) and, if appropriate, routes such communications to the appropriate member of the board, or if none is specified, to the Chairman of the Board.

Director Nomination Procedures

The Nominating and Governance Committee has the responsibility for reviewing and recommending to the board candidates for director positions. The Nominating and Governance Committee may take into consideration the number of shares held by the recommending stockholder and the length of time that such shares have been held.

The Nominating and Corporate Governance Committee, in evaluating board candidates, considers factors such as professional background and skills, personal character, values and discipline, ethical standards, diversity and other outside commitments, all in the context of an assessment of the needs of the board at the time. The Committee's objective is to maintain a board of individuals of the highest personal character, integrity and ethical standards, and that reflects a range of professional backgrounds and skills relevant to our business. The Nominating and Corporate Governance Committee considers diversity in identifying nominees for director, including personal characteristics such as race and gender, as well as diversity in the experience and skills that contribute to the board's performance of its responsibilities in the oversight of a complex global business.

To have a candidate considered by the Nominating and Governance Committee, a stockholder must submit its recommendation in writing and must include the following information:

the name of the stockholder and evidence of the person's ownership of our stock, including the number of shares owned and the length of time of ownership;

the name of the candidate, the candidate's resume or a listing of his or her qualifications to be a director; and

Table of Contents

the written consent of the proposed candidate to be named as a nominee and to serve as a director if elected.

The Nominating and Governance Committee believes that the minimum qualifications for serving as a director are that a nominee demonstrate: accomplishment in his or her field; an ability to make a meaningful contribution to the board's oversight of our business and affairs; and a record and reputation for integrity and ethical conduct in both his or her professional and personal activities. In addition, the Nominating and Governance Committee examines: a candidate's specific experiences and skills; industry background and knowledge; time availability in light of other commitments; potential conflicts of interest; interpersonal skills and compatibility with the board; ability to complement the competency and skills of the other board members; and independence from management and the Company. The Nominating and Governance Committee also seeks to have the board represent a diversity of backgrounds and experience.

The Nominating and Governance Committee annually reviews with the board the requisite skills and characteristics of board members, as well as the composition of the board as a whole. This assessment includes a consideration of independence, diversity, age, skills, experience and industry backgrounds in the context of the needs of the board and the Company, as well as the ability of current and prospective directors to devote sufficient time to performing their duties in an effective manner. Directors are expected to exemplify the highest standards of personal and professional integrity; and to constructively challenge management through their active participation and questioning. In particular, the Nominating and Governance Committee seeks directors with established strong professional reputations and expertise in areas relevant to the strategy and operations of the Company's businesses.

Board Meetings and Attendance

The board held nine (9) meetings in 2009. Each member of the board attended 75% or more of the aggregate of (i) the total number of board meetings held during the period of such member's service and (ii) the total number of meetings of committees on which such member served, during the period of such member's service.

Director Attendance at Annual Meetings of Stockholders

Directors are encouraged, but not required, to attend our annual stockholder meetings. This annual meeting will be our first as a public company.

Director Compensation

The Compensation Committee reviews and makes recommendations to the board regarding the form and amount of compensation for non-employee directors. Directors who are employees of the Company receive no compensation for service on the board. The Company's director compensation program is designed to enable continued attraction and retention of highly qualified directors by ensuring that director compensation is in line with peer companies competing for director talent, and is designed to address the time, effort, expertise and accountability required of active board membership. In general, the Compensation Committee and the board believe that annual compensation for non-employee directors should consist of both a cash component, designed to compensate members for their service on the board and its Committees, and an equity component, designed to align the interests of directors and stockholders and, by vesting over time, to create an incentive for continued service on the board.

2010 Director Compensation Plan

In October 2009, our Compensation Committee engaged Compensia, a third-party compensation consultant, to, among other things, review our director compensation plan. Compensia conducted a review of our compensation plan, summarized recent trends in director compensation and recommended certain revisions. These proposed revisions included increased compensation amounts and the payment of compensation to all non-employee directors, including those affiliated with our major stockholders. Based on this advice, our Compensation Committee recommended, and our board approved, a revised director compensation plan for all non-employee directors effective in February 2010, as follows:

Annual retainer	\$50,000
Lead director retainer	\$15,000

Certain Relationships and Related Transactions

Applicable Policies and Procedures

Consistent with SEC rules, a related or interested party transaction includes a transaction between the Company and a director, director nominee or executive officer of the Company or a beneficial owner of more than 5% of the Company's common stock or any of their respective immediate family members. The Company's Code of Business Ethics and Conduct requires that each employee report to management on an ongoing basis any relationship or transaction that may create or appear to create a conflict between the personal interests of those individuals (or their immediate family members) and the interests of the Company. A conflict, or appearance of a conflict, might arise, for example, by accepting gifts from a current or potential customer, supplier or competitor, owning a financial interest in, or serving in a business capacity with, an outside enterprise that competes with or does or wishes to do business with, the Company, or using confidential Company information or other corporate assets for personal profit. Members of the board are also advised to disclose any potential conflict of interest to the full board.

If a conflict of interest or related party transaction is of a type or a nature that falls within the scope of oversight of a particular board committee, it is referred to that committee for review. The board or the responsible committee thereof must review any potential conflict and determine whether any action is required, including whether to authorize, ratify or direct the unwinding of the relationship or transaction under consideration, as well as ensure that appropriate controls are in place to protect the Company and its stockholders. In making that determination, the board or responsible committee considers all relevant facts and circumstances, such as the benefits of the transaction to the Company; the terms of the transaction and whether they are arms-length and in the ordinary course of the Company's business; the direct or indirect nature of the related person's interest in the transaction; the size and expected term of the transaction; and other facts and circumstances that bear on the materiality of the related person transaction under applicable law and listing standards.

In order to ensure that all material relationships and related person transactions have been identified, reviewed and disclosed in accordance with applicable policies, procedures and regulations, each director and executive officer also completes and signs a questionnaire at the end of each fiscal year that requests confirmation that there are no material relationships or related person transactions between such individuals and the Company other than those previously disclosed to the Company.

Related Person Transaction

The following is a description of transactions since January 1, 2009, in which we have been a participant, in which the amount involved exceeded or will exceed \$120,000 and in which any of our directors, executive officers, beneficial holders of more than 5% of our capital stock, or entities affiliated with them, had or will have a direct or indirect material interest.

Registration Rights Agreement

We entered into a registration rights agreement dated as of December 13, 2005, as amended, with certain stockholders. Subject to the terms of this agreement, holders of approximately 33.3 million shares having demand registration rights can demand that we file a registration statement covering sales of the shares. In addition, holders of approximately 34.6 million shares having piggyback registration rights (which includes the

shares with demand registration rights) can request that their shares be covered by a registration statement that we otherwise file. The registration rights agreement was filed as an exhibit to our Annual Report on Form 10-K for the year ended December 31, 2009 as filed with the SEC.

Stockholders Agreement

Prior to our initial public offering (IPO) in May 2009, the election of our directors was governed by a stockholders agreement that we entered into in December 2005. Pursuant to this agreement, the parties agreed to vote any shares of our common stock and any of our other voting securities held by them in favor of the election to our board of:

two directors designated by Bain Capital Ventures, which directors at the time of our IPO were J. Benjamin Nye and Ellen F. Siminoff;

two directors designated by Insight Venture Partners, which directors at the time of our IPO were Jeffrey L. Horing and Steven M. Cakebread;

two directors designated by Donald C. Yonce, David A. Yonce and certain affiliated entities, which directors at the time of our IPO were Donald C. Yonce and John D. Thornton;

our Chief Executive Officer, which at the time of our IPO was Michael S. Bennett; and

one director designated by a majority of the directors listed above in this sentence, which director at the time of our IPO was Bob L. Martin.

These rights to designate directors and obligations to vote shares in favor of such directors automatically terminated upon completion of our IPO, but many of the members previously elected to our board pursuant to the agreement have continued to serve as directors and will do so until their successors are duly elected or their earlier death, resignation or removal. In February 2010, Messrs. Martin and Thornton resigned from our board and Mr. Bonham was appointed to fill the vacancy created by the resignation of Mr. Martin. In March 2010, Mr. Sippl was appointed to fill the vacancy created by the resignation of Mr. Thornton.

Earnout Payments to Entities Affiliated with Donald C. Yonce and David Yonce

Pursuant to a Redemption Agreement that we entered into with our original stockholders in December 2005, we made one-time earnout payments in the amount of \$18.0 million to an entity affiliated with Donald C. Yonce, our founder and a director, and \$2.0 million to an entity affiliated with David A. Yonce, the brother of Donald C. Yonce. In accordance with the agreement, these payments were made in November 2009, three business days following the expiration date of the lock-up agreements entered into in connection with our IPO by the holders of a majority of our outstanding common stock on an as-converted basis.

Employment Agreements

We have entered into agreements containing compensation, termination and change of control provisions, among others, with each of our current executive officers as described under the caption Executive Compensation below.

Indemnification of Officers and Directors

Our amended and restated certificate of incorporation and bylaws provide that we indemnify each of our directors and officers to the fullest extent permitted by the Delaware General Corporation Law. Further, we have entered into indemnification agreements with each of our directors and officers. For further information, see Executive Compensation Limitation of Liability and Indemnification of Directors and Officers.

In 2009, we paid legal fees and settlement expenses incurred by Donald C. Yonce, our founder and a member of our board of directors, pursuant to an agreement we made with Mr. Yonce relating to a pending legal proceeding with a former employee, as further described in our Annual Report on Form 10-K for the year ended December 31, 2009 under the caption *Business Legal Proceedings*. This action was resolved pursuant to a confidential settlement agreement dated December 11, 2009. We paid \$6.5 million in legal fees and settlement expenses, net of insurance reimbursements, in connection with the settlement of this lawsuit in 2009.

Policies and Procedures for Related Party Transactions

Our Audit Committee must review and approve in advance any related party transaction. All of our directors, officers and employees are required to report to the Audit Committee any related party transaction prior to entering into the transaction. The Audit Committee shall review any proposed related party transaction for approval and confirm that they are on terms no less favorable to us than those that we could obtain from unaffiliated third parties.

All of the transactions set forth above were approved in advance by our Audit Committee or our board. We believe that we have executed all of the transactions set forth above on terms no less favorable to us than we could have obtained from unaffiliated third parties.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires our directors, executive officers, and persons who own more than 10% of our common stock (*Reporting Persons*) to file reports of ownership and changes in ownership of our common stock with the SEC. Based solely on our review of such reports received or written representations from certain Reporting Persons during 2009, we believe that all Reporting Persons complied with all applicable reporting requirements in 2009, except that: (i) each Reporting Person (comprised of those directors listed under *Proposal One: Election of Directors* and the executive officers listed under *Executive Officers* of this Proxy Statement, who served in such capacity at the time of our IPO), other than Jeff Horing, failed to file his or her Form 3 on a timely basis; and (ii) each of Ms. Siminoff and Messrs. Cakebread and Martin failed to file timely one Form 4, each regarding two director equity-based compensation awards.

Code of Business Ethics and Conduct

Our board adopted a code of business ethics and conduct for all employees, including our executive officers, and directors. The code of business ethics and conduct is available without charge upon request in writing to SolarWinds, Inc., 3711 South MoPac Expressway, Building Two, Austin, Texas 78746, Attn: General Counsel or on the investor relations portion of our website at www.solarwinds.com. The Company will disclose on its website at www.solarwinds.com, to the extent and in the manner permitted by Item 5.05 of Form 8-K, the nature of any amendment to this code of business ethics and conduct (other than technical, administrative, or other non-substantive amendments), our approval of any material departure from a provision of this code of business ethics and conduct, and our failure to take action within a reasonable period of time regarding any material departure from a provision of this code of business ethics and conduct that has been made known to any of our executive officers.

Table of Contents**PROPOSAL TWO: RATIFICATION OF SELECTION OF INDEPENDENT AUDITORS**

The Audit Committee of our board has selected PricewaterhouseCoopers LLP to serve as our independent registered public accounting firm for the 2010 fiscal year and will present such selection to the stockholders for ratification at the annual meeting. A representative of PricewaterhouseCoopers LLP is expected to be present at the annual meeting to respond to questions from stockholders and will be given the opportunity to make a statement if so desired.

Stockholder ratification of the Audit Committee's selection of PricewaterhouseCoopers LLP is not necessary because the Audit Committee has responsibility for selection of our independent auditor. However, the Audit Committee will take your vote on the proposal into consideration when selecting our independent registered public accounting firm in the future. If the selection of PricewaterhouseCoopers LLP is not ratified by you, the Audit Committee may reconsider the selection. Even if the selection is ratified, the Audit Committee in its discretion may direct the selection of a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of the Company and its stockholders.

Required Vote and Recommendation of the Board for Proposal Two

You may vote FOR, AGAINST or ABSTAIN on this proposal. To be approved by our stockholders, this proposal must receive a FOR vote by majority of the votes cast on this proposal at the annual meeting. Abstentions are deemed to be votes cast and have the same effect as a vote against this proposal. However, broker non-votes are not deemed to be votes cast and, therefore, will have no effect on the outcome of the vote.

Our Board recommends that you vote FOR the proposal to ratify the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for fiscal year 2010.

Audit and Non-Audit Fees

PricewaterhouseCoopers LLP served as our independent registered public accounting firm for the years ended December 31, 2009 and 2008. In addition to performing the audit of our consolidated financial statements, PricewaterhouseCoopers LLP also provides various other services to us. Fees paid to PricewaterhouseCoopers LLP for services provided during these years are presented below.

Tax Fees. Tax fees include services for tax compliance and research, tax advice, tax planning and technical tax advice.

All Other Fees. All other fees include the fees for access to an accounting research software service provided by PricewaterhouseCoopers LLP.

Pre-Approval of Audit and Non-Audit Services

The Audit Committee is authorized by its charter to pre-approve all audit and permitted non-audit services to be performed by our independent registered public accounting firm. The Audit Committee reviews and approves the independent registered public accounting firm's retention to perform audit services, including the associated fees. The Audit Committee also evaluates other known potential engagements of the independent registered public accounting firm, including the scope of the proposed work and the proposed fees, and approves or rejects each service, taking into account whether the services are permissible under applicable law and the possible impact of each non-audit service on the independent registered public accounting firm's independence from management. At subsequent meetings, the Audit Committee will receive updates on the services actually provided by the independent registered public accounting firm, and management may present additional services for approval. The Audit Committee has delegated to the Chairman of the Audit Committee the authority to evaluate and approve engagements on behalf of the Audit Committee in the event that a need arises for pre-approval between Audit Committee meetings. If the Chairman so approves any such engagements, he will report that approval to the full Audit Committee at its next meeting.

Our Audit Committee has reviewed the fees described above, and believes that such fees are compatible with maintaining the independence of PricewaterhouseCoopers LLP.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The following discussion and analysis of compensation arrangements of our named executive officers (NEOs) for 2009 should be read together with the compensation tables and related disclosures set forth below. This discussion contains forward-looking statements that are based on our current plans, considerations, expectations and determinations regarding future compensation programs. The actual amount and form of compensation and the compensation programs that we adopt may differ materially from currently planned programs as summarized in this discussion.

Table of Contents

Overview of Compensation Program

Our compensation and benefits programs seek to attract and retain talented, qualified senior executives to manage and lead our Company and to motivate them to pursue our corporate objectives. Our current and proposed compensation programs reflect a mix of cash and equity elements to focus senior executives on not only short-term results, but also long-term success. Our compensation programs are designed to:

reflect our compensation philosophy to pay competitively for achieving target levels of performance, with a significant upside opportunity to earn additional compensation for achieving superior results;

align the interests of management and stockholders;

encourage effective use of resources to achieve corporate objectives;

pay for performance by rewarding and differentiating among executives based on the achievement of the Company and functional objectives/targets established by the Compensation Committee; and

manage risk through oversight and compensation design features and practices that balance short-term and long-term incentives.

The current compensation program consists of base salary, short-term incentives and a long-term equity component, historically in the form of stock options and restricted stock units (RSUs). We have discussed each element of the compensation program in more detail in the subsection titled Components of Our Compensation Program.

Compensation Philosophy

In January 2008, our management and board, based on the recommendation of the Compensation Committee, adopted the following compensation philosophy to guide compensation decision-making and program design.

The total compensation package is targeted at the 75th percentile of competitive market levels with the opportunity to earn additional compensation for superior performance;

The elements of the total compensation package are designed to reward the executive management team for achieving our Company objectives, with significant upside opportunity for exceeding the performance objectives;

The compensation package balances achievement of short-term performance objectives with long-term strategic goals;

The compensation package is designed to align the interests of our management with those of our stockholders by paying a significant portion of each executive officer's total compensation in the form of stock options and/or restricted stock; and

Our total compensation program is designed to provide compensation opportunities that are competitive with those companies with which we compete for executive talent.

The Compensation Committee recently reviewed and maintained this philosophy in February 2010 and expects to review the philosophy annually.

The Compensation Committee

The Compensation Committee has the overall responsibility of overseeing the compensation and benefit programs for our executive officers. Members of the committee are appointed by the board. Currently, the Compensation Committee consists of four members of the board, Messrs. Cakebread, Horing, Nye and Sippl. See the section entitled Proposal One Election of Directors Board Committees Compensation Committee for

Table of Contents

more information regarding the Compensation Committee. The Compensation Committee is responsible for ensuring that our compensation policies and practices support the successful recruitment, development and retention of the executive officer talent required for us to achieve our business objectives.

Participation of Management in Compensation Decisions

We believe that the best way to align executive and stockholder interests is through a compensation program designed with input from our Executive Chairman and Chief Executive Officer in an ongoing dialogue with the Compensation Committee and, as appropriate, external advisors regarding internal, external, cultural and business challenges and opportunities facing our Company and our executive officers. Prior to 2010, Michael S. Bennett, our Chief Executive Officer at the time, provided recommendations to the Compensation Committee with respect to individual performance and related compensation decisions for our executive officers for the Compensation Committee's review and approval. In February 2010, Mr. Bennett became our Executive Chairman and Kevin B. Thompson became our President and Chief Executive Officer. We expect Messrs. Bennett and Thompson to provide these recommendations in the future. To date, Messrs. Bennett, Thompson and Sims have attended certain meetings of the Compensation Committee, but have not been present during the portion of any meeting when their own compensation was discussed.

In 2009, the Compensation Committee sought the input of Mr. Bennett, our Chief Executive Officer at the time, when evaluating his performance and establishing recommendations for his compensation. Since our IPO, the Compensation Committee makes all decisions with regard to Mr. Bennett's performance and compensation based, in part, on his guidance. However, Mr. Bennett was not permitted to be present during deliberations or voting by the Compensation Committee regarding his compensation goals and objectives, performance evaluation or compensation level approval. We expect to continue this practice in the future.

Compensation Consultants

The Compensation Committee has the authority to retain a compensation consultant to assist it in evaluating the compensation of our Chief Executive Officer and our other executive officers and to approve the consultant's fees and engagement terms. The Compensation Committee also has the authority to retain other advisors to assist it in fulfilling its responsibilities.

In October 2008, our management engaged Ernst & Young LLP (E&Y) to conduct a review of our executive compensation program and to make recommendations for 2009 compensation for our executive officers. We believe E&Y is independent because we are unaware of any relationship that could affect its independence and because the Compensation Committee was able to communicate directly with E&Y and assess the results of E&Y's review.

E&Y conducted a review of total compensation for our top ten executive officers comparing them in compensation to similar positions at publicly-traded companies of similar size in the technology industry. The top ten executive officers were identified by Messrs. Bennett and Thompson based on their respective levels of responsibility. Messrs. Bennett, Thompson and Sims reviewed this report in November 2008 and Mr. Bennett presented this report along with other information to the Compensation Committee. In 2009, the Compensation Committee determined the compensation of each member of the senior leadership group based, in part, on the recommendations of Mr. Bennett.

In October 2009, the Compensation Committee engaged Compensia to conduct a review of our executive compensation program and to make recommendations for 2010 compensation for our executive officers. We believe Compensia is independent because we are unaware of any other relationship that could affect its independence (including that Compensia does not provide other, non-compensatory services for the Company) and because the Compensation Committee communicated directly with Compensia and assessed the results of Compensia's review.

Table of Contents

Compensia conducted a review of total compensation for our executive officers by comparing them in compensation to similar positions at publicly-traded companies of similar size in the technology industry. Mr. Bennett reviewed this report with the Compensation Committee and provided his recommendations along with other information to the Compensation Committee. The Compensation Committee considered the Compensia report and Mr. Bennett's recommendations in setting the 2010 compensation for our executive officers.

Competitive Market

Our executive compensation program is designed so that total short-term and long-term compensation are competitive with comparable positions at comparable companies. In recommending 2009 compensation, Messrs. Bennett, Thompson and Sims selected a group of comparable companies based on a number of factors, including size, industry focus, growth rate, complexity of operations and tenure as a publicly-traded company. These companies (2009 Peer Group) included the following:

Akamai Technologies	NetSuite
Ariba	Omniure
Aruba Networks	Opsware
Concur Technologies	Red Hat
Data Domain	Riverbed Technology
DemandTec	salesforce.com
Kenexa	SuccessFactors
NetScout Systems	VMware

In addition to the 2009 Peer Group analyses, management reviewed information from a proprietary database created by Culpepper and Associates, Inc., a compensation advisory firm focused on technology companies. The Culpepper database consisted of compensation data from numerous companies presented in consolidated form such that individual peer companies were not identified. Management also reviewed benchmarks developed by E&Y based on published surveys of nationally recognized human resources consulting firms available to E&Y. These surveys consisted of compensation data from companies operating in all industries and of all revenue sizes, including compensation data not disclosed in public documents of the 2009 Peer Group. E&Y selected data of companies in the technology industry with revenue comparable to our anticipated revenue and matched the duties and responsibilities of each of our officers to those in the survey data to develop appropriate benchmarks.

In setting 2010 compensation, our Compensation Committee reviewed the 2009 Peer Group and selected more appropriate companies after the impact of changed economic events and the changed industry focus, size, scope, growth rate or complexity of operations of the members. They used the following group of comparable companies (the 2010 Peer Group) in determining 2010 compensation:

Advent Software	NetSuite
ArcSight	Pegasystems
Bankrate	Quest Software
Blackboard	Red Hat
Blue Coat Systems	Sourcefire
CommVault Systems	SPSS
Concur Technologies	SuccessFactors
Constant Contact	Taleo
NetScout Systems	

Components of Our Compensation Program

In setting total compensation, the Compensation Committee seeks to achieve the optimal balance between:

fixed and variable (or at risk) payments;

Table of Contents

short- and long-term pay elements; and

cash and equity-based elements.

Our compensation program consists of base salary, cash bonuses based on achievement of short-term objectives, long-term incentives, and benefits. Each of the components is designed to motivate our executive officers to achieve the overall corporate goals and objectives and to drive the success of our Company. The overall corporate objectives include:

increasing market penetration in key areas;

encouraging new product development;

increasing bookings/revenue;

controlling operating expenses; and

generating high adjusted EBITDA (Earnings before Interest, Taxes, Depreciation, and Amortization) margins relative to peers.

The Compensation Committee recommended, and our board adopted, these objectives based on their determination that they represent the key indicators of success for our business. We review these objectives at least annually.

We believe that our compensation programs are designed to support these objectives because the total compensation program places a significant amount of each executive officer's total potential compensation at risk based on corporate performance. Base salary and benefits represent less than half of each executive officer's potential total compensation at target performance levels for each of 2009 and 2010. Each component is described in more detail below.

We evaluate these components on an aggregate basis and, as a result, each component affects decisions regarding the other components. We consider every component of compensation, both potential and realized, when determining the amount of each component of compensation. We do not currently have any policies regarding the adjustment or recovery of awards or payments in the event the relevant performance measures upon which the awards or payments are based are restated or otherwise adjusted in a manner that would decrease the size of an award or payment.

Base Salary. We pay an annual base salary to our executive officers in order to provide them with a fixed rate of cash compensation during the year. The Compensation Committee generally targets base salaries for executives to be at the 75th percentile of the median for the comparable position at comparable companies. We adjust the target base salary for executive officers based upon a number of factors, including overall performance against our financial and strategic plan; overall functional unit expense controls; assessment of professional effectiveness, consisting of competencies such as leadership, commitment, creativity and team accomplishment; the underlying scope of their responsibilities; their individual performance; their experience; internal equity; competitive market compensation; and retention concerns. Achievement of these factors will be measured as a whole.

The Compensation Committee recommended and our board approved increasing base salaries of certain executive officers for 2009 and 2010 to reflect performance-based factors and competitive conditions. The Compensation Committee reviews competitive market data, business conditions and internal factors annually to determine appropriate base salary adjustments.

On March 1, 2010, our board appointed Michael S. Bennett as Executive Chairman and Kevin B. Thompson as President and Chief Executive Officer. Our Compensation Committee increased the base salary of Mr. Thompson to be comparable to similarly-situated Chief Executive Officers at comparable companies. These

Table of Contents

adjustments and all other adjustments to the base salary of other executive officers became effective on March 1, 2010. The table below shows base salaries for our NEOs for 2009 and 2010.

Officer	Title (as of March 1, 2010)	2009 Base Salary	2010 Base Salary	% Increase
Michael S. Bennett	Executive Chairman	\$ 400,000	\$ 400,000	0.0%
Kevin B. Thompson	President and Chief Executive Officer	300,000	350,000	16.7
Douglas G. Hibberd	SVP, Engineering	250,000	265,000	6.0
Rita J. Selvaggi	SVP, Marketing	250,000	265,000	6.0
Kenny L. Van Zant	SVP and Chief Product Strategist	250,000	250,000	0.0

Cash Bonuses. We pay cash bonuses to our NEOs based on the achievement of our Company objectives in order to incent management to achieve these objectives. These objectives have historically been determined by Mr. Bennett based on input from Mr. Thompson and reviewed and approved by our board. Our 2009 and 2010 objectives were determined by Mr. Bennett in conjunction with the Compensation Committee and based on input from Mr. Thompson, with final review and approval by the Compensation Committee. These objectives may change from year to year as we continue to evolve and establish different priorities, but will remain subject to the review and approval of the Compensation Committee.

In 2009, the objective under our Executive Bonus Plan was for us to achieve quarterly revenue targets. Messrs. Bennett and Thompson recommended targets and our board made the final determination. With the exception of our Vice President, Worldwide Sales, who participates in a commission plan, all executive officers participate in the Executive Bonus Plan. Under the Executive Bonus Plan, participants were required to achieve a minimum of 85% of the quarterly revenue target to be eligible for a quarterly bonus. For each additional percentage point of the quarterly revenue target achieved between 85% and 100%, the executive earned approximately 6.67% of the quarterly target bonus. In addition, the executive officer group was eligible for an excess bonus to the extent that quarterly revenue targets were exceeded. When a quarterly revenue target was exceeded, 5% of the excess revenue was placed into a bonus pool to be distributed among the executive officer group. Under the Executive Bonus Plan, deductions were made from the bonus pool to the extent that actual operating expenses exceeded budgeted operating expenses. The bonus pool was reduced by 5% of the excess of actual operating expenses, excluding expenses associated with the quarterly revenue in excess of the target, over budgeted operating expenses. The operating expense deduction was limited to 50% of the total quarterly bonus pool resulting from excess revenue. This excess bonus pool has no maximum amount.

Our target and actual revenue amounts for 2009 were as follows (in millions):

2009 Period	Target Revenue	Actual Revenue
First Quarter	\$ 26.0	\$ 24.1
Second Quarter	25.8	27.0
Third Quarter	31.5	32.4
Fourth Quarter	34.2	33.0
Full Year	\$ 117.5	\$ 116.4

Our Compensation Committee established our initial quarterly revenue and expense goals in the first quarter based on our annual plan for 2009. Prior to the beginning of each subsequent quarter, the Compensation Committee used its discretion to establish revised quarterly revenue and expense goals based on current information regarding our business and macroeconomic conditions. When we established our 2009 target levels, we believed that they were challenging but achievable for the executive group with excellent execution of our plan.

In the first quarter of 2009, we achieved approximately 93% of our quarterly revenue goal and made bonus payments to our NEOs equal to 50% of their target bonus amounts. We exceeded our revenue goals for the second and third quarters, resulting in quarterly bonus payouts at the target bonus levels and funding of the

excess bonus pool. In the fourth quarter of 2009, we achieved approximately 96% of our quarterly revenue target, but the Compensation Committee used its discretion and increased bonus payments to our NEOs from 76% of the target bonus amounts to 85% of the target bonus amounts. As we did not meet the full year revenue target, the excess bonus pool was not paid. In addition, we did not meet the sales consistency goals for any quarter in 2009.

We have adopted a 2010 Executive Bonus Plan based on the same structure of the one used in 2009. We have set revenue and expense goals for 2010 based on our annual operating plan that we believe are challenging, but achievable for the executive group with excellent execution of our plan.

In 2009, annual target bonus levels for our NEOs ranged from \$75,000 to \$300,000. Actual target bonus amounts for 2009 are shown below under Executive Compensation Grants of Plan-Based Awards in 2009. On July 30, 2009, our Compensation Committee approved an amendment to our Executive Bonus Plan to increase the target bonus amount of Mr. Thompson from \$250,000 to \$300,000 and the target bonus amounts of each of Messrs. Hibberd, Van Zant and Ms. Selvaggi from \$75,000 to \$125,000 with respect to the third and fourth quarter of 2009 bonuses. We made these increases to bring each officer's target bonus amount in line with the 75th percentile of market comparable target bonuses. Actual bonuses earned in 2009 are shown below under Executive Compensation Summary Compensation Table.

As a result of the Compensia study, the Compensation Committee approved an increase to the target bonus awards for the executive officer group for 2010. These increases to the target bonus awards were effective March 1, 2010 and reflect competitive market levels for the 2010 Peer Group. Bonuses will be determined based on the achievement of revenue targets. The table below shows the annual target bonuses approved for our NEOs for 2010.

Officer	Target Bonus	Annual Target as % of 2009 Base Salary
Michael S. Bennett	\$ 300,000	75%
Kevin B. Thompson	300,000	86
Douglas G. Hibberd	140,000	53
Rita J. Selvaggi	140,000	53
Kenny L. Van Zant	125,000	50

In addition to the 2010 Executive Bonus Plan, executive officers are eligible to receive an additional 15% of the quarterly target bonus amount for achieving sales consistency goals throughout the quarter. Each of the monthly sales consistency goals must be met to receive the additional bonus amount for the quarter. Our Chief Executive Officer and Chief Operating Officer recommended these goals to the Compensation Committee, which, in turn, approved these goals. We believe it is necessary to maintain consistent sales performance during each month of each quarter in order to improve the likelihood that we will achieve our quarterly targets. If our NEOs earn their maximum quarterly bonus, including the maximum additional amounts upon achievement of our sales consistency goals, their aggregate compensation will be in the 75th percentile of the 2010 Peer Group.

Long-Term Incentives. We utilize long-term equity-based incentives to align the interests of our executive officers with those of our stockholders and to promote a longer-term performance perspective and progress toward achieving our long-term strategy. In addition, equity-based awards provide an important retention tool for us because they historically have been subject to vesting based on continued service. We have historically granted stock option awards and recently began to grant RSUs.

Stock Options: Options only have value to recipients if the stock price increases over the exercise price, which is set equal to the fair market value of the Company's common stock on the grant date. Options granted to our NEOs generally vest 25% on the first anniversary of the vesting commencement date, with the remainder vesting ratably over the next 36 months.

Restricted Stock Units: RSUs are linked with stockholder value since the value of RSU grants rise or fall with the stock price. RSUs are also intended to encourage retention as they generally vest over a period of four years.

Table of Contents

Until February 2010, we granted stock options to each of our executive officers upon hire under our Amended and Restated Stock Incentive Plan (2005 Plan), which was terminated in May 2009 for purposes of granting any future equity awards. The size and terms of the initial option grant made to each NEO upon joining our Company are primarily to attract experienced executives with established records of success, and are based on competitive conditions applicable to the NEO's specific position, as well as his or her experience and compensation requirements relative to our executive officers then employed.

In 2009 and 2010, we made an annual grant of equity-based incentives in the first quarter of the year. These equity grants are designed to reward past performance and, to a greater extent, to foster retention of our NEOs. Our Compensation Committee determined the appropriate amounts based on a number of factors, including the outstanding equity awards of each executive officer and equity awards received by executive officers at similar organization levels in comparable companies. In addition, the Compensation Committee evaluated each NEO's overall performance by evaluating Company performance factors such as achievement of our financial and strategic plan and other business objectives, as well as the NEO's organization level, ability to impact our results that drive stockholder value and potential to take on roles of increasing responsibility. All of the stock options we have granted to date have an exercise price equal to or greater than fair market value of our common stock on the date of grant.

In April 2009, we granted stock options under the 2005 Plan to each of our named executive officers as part of our annual grant of equity awards. These grants are shown below under Executive Compensation Grants of Plan-Based Awards in 2009. These grants were made

On February 2010, we granted stock options and RSUs as part of our annual grant of equity awards to certain of our executive officers under the 2008 Equity Incentive Plan (the 2008 Plan). The 2008 Plan allows for the grant of stock options, restricted stock and other stock-based awards such as RSUs. We granted equity awards to certain of our NEOs with a target value as set forth in the table below.

Officer	Value of Stock Options (1)	Value of RSUs (2)	Total Value of Equity Awards
Kevin B. Thompson	\$ 700,000	\$ 700,000	\$ 1,400,000
Douglas G. Hibberd	350,000	350,000	700,000
Rita J. Selvaggi	350,000	350,000	700,000

(1) Value determined as of the date of grant using the Black-Scholes option-pricing model.

(2) Value determined based on the closing price per share of common stock on the date of grant.

In determining the above target values, our Compensation Committee considered the outstanding equity awards of each executive officer, competitive market analysis of Compensation's compensation review of the 2010 Peer Group and the strategic value of each executive officer. The target grant levels are designed to achieve total compensation levels for our executive officers that approximate the 75th percentile of the 2010 Peer Group. Based on the above values, we granted (i) options to purchase 64,800, 32,400 and 32,400 shares of common stock and (ii) 37,100, 18,500 and 18,500 RSUs to Mr. Thompson, Mr. Hibberd and Ms. Selvaggi, respectively. The options were granted at an exercise price of \$18.87 per share and vest according to our standard vesting schedule for employee stock options: 25% on the first anniversary of the grant date, with the remainder vesting ratably over the next 36 months, subject to continued service through each applicable date. The RSUs vest according to our standard vesting schedule for employee RSUs: 25% on each of the first four anniversaries of the grant date, subject to continued service through each applicable date.

We chose to grant RSUs in addition to stock options in 2010 to improve the retention value of our equity awards. We chose an equal mix of the target value of stock options and RSUs to balance the benefits of the RSUs and stock options.

We plan to continue making annual equity awards to our executive officers in the first quarter of each year to foster retention and reward performance. The awards are expected to continue to consist of 50% stock options

Table of Contents

and 50% RSUs as measured by value. We plan to grant awards by taking into consideration our overall performance, market conditions and our options granted and available for issuance and the rate at which we have granted and expect to grant options relative to comparable companies in the 2010 Peer Group.

Benefits. Our executive officers are eligible to participate in standard employee benefit plans, including medical, dental, vision, life, accidental death and disability, long-term disability, short-term disability, and any other employee benefit or insurance plan made available to employees. We maintain a 401(k) plan, which is intended to be a tax-qualified defined contribution plan under Section 401(k) of the Code. In general, all of our U.S. employees are eligible to participate in this plan. The 401(k) plan includes a salary deferral arrangement pursuant to which participants may elect to reduce their current compensation by up to 90% or the statutory limit, \$16,500 in 2009, whichever is less, and have the amount of the reduction contributed to the 401(k) plan. Beginning in 2008, we began to match a certain percentage of contributions made by all employees, including our NEOs.

We maintain similar benefit programs for employees outside of the United States.

We believe these benefits are consistent with or better than those offered by companies with which we compete for employees.

Stock Ownership Guidelines

We do not currently have stock ownership guidelines.

Accounting and Tax Considerations

Section 162(m) of the Code sets a limit of \$1.0 million on the amount of compensation paid to our Chief Executive Officer and to each of our three most highly compensated executive officers that may be deducted by us for federal income tax purposes in any fiscal year.

Performance-based compensation that has been approved by our stockholders is not subject to the \$1.0 million deduction limit. Although the Compensation Committee cannot predict how the deductibility limit may impact our compensation program in future years, the Compensation Committee intends to maintain an approach to executive compensation that strongly links pay to performance. In addition, although the Compensation Committee has not adopted a formal policy regarding tax deductibility of compensation paid to our named executive officers, the Compensation Committee intends to consider tax deductibility under Rule 162(m) as a factor in compensation decisions.

Compensation Policies and Practices and Our Risk Management

We believe that our compensation policies and practices for all employees, including executive officers, do not create risks that are reasonably likely to have a material adverse effect on us. Specifically, the Compensation Committee believes that the balanced utilization of the various elements of the Company's executive compensation program:

Supports the achievement of competitive revenue, earnings and cash performance in variable economic and industry conditions without undue risk; and

Mitigates the potential to reward risk-taking that may produce short-term results that appear in isolation to be favorable, but that may undermine the successful execution of the Company's long-term business strategy and harm stockholder value.

Compensation Committee Interlocks and Insider Participation

Messrs. Cakebread, Horing and Nye served as members of the Compensation Committee in 2009. None of the members of the Compensation Committee has at any time been one of our officers or employees. None of our executive officers serves, or in the past year has served, as a member of the board of directors or compensation committee of any entity that has one or more executive officers who serve on our board of directors or Compensation Committee.

Trading Plans

We have authorized our executive officers to enter into trading plans established according to Section 10b5-1 of the Exchange Act with an independent broker-dealer (broker) designated by us. These plans include specific instructions for the broker to exercise vested options and sell Company stock on behalf of the officer at certain dates if our stock price is above a specified level. Upon an executive officer entering into a trading plan, we restrict the number of shares eligible to be sold by each executive officer to a set percentage of the officer's aggregate equity holdings in the Company. The officer no longer has control over the decision to exercise and sell the securities in the plan, unless he or she amends or terminates the trading plan during a trading window. The purpose of such plans is to enable executive officers to recognize the value of their compensation and diversify their holdings of our stock during periods in which the officer would be unable to sell our common stock because material information about us had not been publicly released. As of the record date, all of our executive officers had entered into a trading plan.

Potential Payments upon Termination or Change of Control

We have entered into employment agreements, described immediately above, that require specific payments and benefits to be provided to our executive officers in the event of termination of employment. To attract talented, qualified senior executive officers, we believe we must pay severance upon termination without cause and upon resignation for good reason. The description and tables that follow describe the payments and benefits that we would owe to each of our executive officers in the event of termination of employment.

Arrangements with Messrs. Bennett, Hibberd, Thompson and Van Zant and Ms. Selvaggi

Pursuant to the employment agreements with Messrs. Bennett, Hibberd, Thompson and Van Zant and Ms. Selvaggi, if the executive's employment is terminated due to death or a disability (as defined in the agreements) the executive is entitled to accelerated vesting with respect to any stock options held by the executive that would have originally vested over a period of 12 months following the termination date, such that these options will now vest effective as of the date of termination.

The employment agreements with each of these individuals provide that, if we terminate the executive's employment for cause (as defined in the agreements) or if the executive terminates his or her employment other than for good reason (as defined in the agreements), we must pay the executive any base salary earned but not paid through the date of the executive's termination, any earned but unpaid bonus, and any pay for vacation time accrued but not used.

In addition, these agreements state that, if we terminate the executive's employment other than for cause or the executive terminates his or her employment for good reason, we must provide (i) a lump sum cash severance amount equal to 50% of the executive's then annual base salary, (ii) any earned but unpaid bonus payment, (iii) reimbursement of health and dental care premiums for the executive and the executive's dependents incurred to continue health and dental insurance coverage for 12 months after termination, to the extent the executive is eligible for and elects such continued coverage under COBRA, and (iv) any accrued and unused vacation pay payable within 21 days of termination. Our obligations to provide these severance payments following termination of employment are conditioned upon the executive's signing a release of claims within 21 days of notice of termination and not later revoking the release of claims, which we agreed would include a mutual release of any claims we may have against the executive.

Furthermore, pursuant to these agreements, if we terminate the executive's employment without cause or the executive resigns for good reason during the 12-month period after the effective date of a change of control (as defined in the agreements), we agreed that any then-outstanding equity awards held by the executive would fully vest. In addition, under those circumstances, we would be obligated to pay any accrued but unpaid salary, vacation or bonus payment, and to provide (i) a lump sum cash severance amount equal to 50% of the executive's then annual base salary, and (ii) reimbursement of health and dental care premiums for the executive and the executive's dependents incurred to continue health and dental insurance coverage for 12 months after

termination, to the extent the executive is eligible for and elects such continued coverage under COBRA. In addition to this compensation, we would be obligated to pay an additional cash severance payment in the amount of: \$350,000 to Mr. Bennett; \$185,000 to Mr. Hibberd; \$185,000 to Ms. Selvaggi; \$225,000 to Mr. Thompson and \$225,000 to Mr. Van Zant.

Arrangements with Mr. Berry

Our employment agreement with Mr. Berry states that if he is terminated for cause (as defined in the agreement) or upon his voluntary resignation, he will be entitled to receive any base salary earned but not paid through the date of his termination, any earned but unpaid bonus, and any pay for vacation time accrued but not used.

In addition, the employment agreement states that, if Mr. Berry is terminated other than for cause (as defined in the agreement) or in the event of a constructive termination (as defined in the agreement), he will be entitled to receive (i) a lump sum cash severance amount equal to his then annual base salary, (ii) any earned but unpaid bonus payment, (iii) reimbursement of health and dental care premiums for Mr. Berry and his dependents incurred to continue health and dental insurance coverage for 12 months after termination, to the extent he is eligible for and elects such continued coverage under COBRA, and (iv) any accrued and unused vacation pay payable within 21 days of termination. These severance payments following termination of employment are conditioned upon Mr. Berry's signing a release of claims within 74 days of his termination date and not later revoking the release of claims.

Furthermore, pursuant to the employment agreement, if Mr. Berry is terminated other than for cause or in the event of a constructive termination during the 12-month period after the effective date of a change of control, any of his then-outstanding equity awards held would fully vest and Mr. Berry would be entitled to receive: (i) any accrued but unpaid salary, vacation or bonus payment; (ii) a lump sum cash severance amount equal to his then annual base salary; and (iii) reimbursement of health and dental care premiums for Mr. Berry and his dependents incurred to continue health and dental insurance coverage for 12 months after termination, to the extent he is eligible for and elects such continued coverage under COBRA.

Arrangements with Messrs. Kalsu, Sims, Strelzick and Strop

The employment agreements with Messrs. Kalsu, Sims, Strelzick and Strop state that, if we terminate the executive due to a disability that prevents the executive from returning to work or from performing substantially all of the executive's duties and responsibilities for 12 consecutive weeks, we are not obligated to provide severance pay or other separation benefits.

In addition, pursuant to these employment agreements, if the executive's employment is terminated due to death, we must pay to the executive's beneficiaries any accrued base salary, any bonus compensation earned, any vested deferred compensation or stock options, any benefits under any of our plans in which the executive participates to the full extent of the executive's rights under that plan, any accrued vacation pay and any appropriate business expenses incurred in connection with the executive's duties.

Pursuant to these agreements, if we terminate the executive for cause or if the executive resigns, the executive will receive any base salary earned, but not paid, through the date of the executive's termination, any earned but unpaid incentive compensation, and any pay for vacation time accrued but not used.

Furthermore, these employment agreements state that, if we terminate the executive's employment other than for cause, the executive is entitled to: (i) any earned but unpaid incentive compensation payments, (ii) reimbursement of health and dental care premiums for the executive and the executive's dependents incurred to continue health and dental insurance coverage for three months after termination (or six months in the case of Mr. Strop), to the extent the executive is eligible for and elects that continued coverage under COBRA, and

(iii) any accrued and unused vacation pay payable within 21 days of termination. In addition to this compensation, Mr. Kalsu is entitled to a lump sum cash severance amount equal to four months of his then annual base salary and Messrs. Sims, Strop and Strelzick are each entitled to a lump sum cash severance amount equal to three months of their respective annual base salary. Our obligations to provide these severance payments to Messrs. Kalsu, Sims, Strelzick and Strop following termination of employment are conditioned upon the executive's signing a release of claims within 21 days of notice of termination and not later revoking that release of claims. In addition, our obligation to provide severance payments and benefits to Messrs. Sims and Strop are conditioned further on the executive's having been employed for a minimum of six months prior to termination.

These agreements also provide that, if the executive is terminated or constructively terminated without cause during the 12-month period after the effective date of a change of control, we are obligated to pay the executive (i) any accrued but unpaid salary, vacation or bonus payment, and (ii) reimbursement of health and dental care premiums for the executive and the executive's dependents incurred to continue health and dental insurance coverage for three months after termination, to the extent the executive is eligible for and elects that continued coverage under COBRA. In addition to this compensation, Mr. Kalsu is entitled to a lump sum cash severance amount equal to four months of his then annual base salary and Messrs. Sims, Strelzick and Strop are each entitled to a lump sum cash severance amount equal to three months of his then annual base salary. We are further obligated to pay Messrs. Sims and Strop an additional cash severance amount equal to three months of their respective then annual base salaries.

Pursuant to the employment agreements with Messrs. Kalsu, Sims, Strelzick and Strop, if the executive is terminated or constructively terminated within 12 months following the closing date of a transaction that results in a change of control, an amount equal to 50% of the executive's original stock option grant to purchase shares of our common stock will fully vest as of the termination date in addition to any options already vested. In each case, the executive will have 90 days from termination to exercise any vested stock options.

Arrangements with Mr. Owens

The employment agreement with Mr. Owens states that, if his employment is terminated due to death, we must pay to his beneficiaries any accrued base salary, any bonus compensation earned, any vested deferred compensation or stock options, any benefits under any of our plans in which he participates to the full extent of his rights under that plan, any accrued vacation pay and any appropriate business expenses incurred in connection with his duties. The employment agreement with Mr. Owens does not provide for separation or severance payments upon termination due to disability.

If he is terminated within 12 months of a change of control, we must pay him an amount equal to any accrued but unpaid base salary and a lump sum cash severance amount equal to 3 months of his base salary as of the date of the termination. Additionally, the employment agreement with Mr. Owens provides that, if he is terminated or constructively dismissed within 12 months of a change of control, 50% of his original stock option grant will vest immediately as of the date of termination. He will have 90 days to exercise these vested options.

The stock option agreement with Mr. Owens provides that, if his employment is terminated due to death or disability (as defined in his agreement), he is entitled to accelerated vesting with respect to any stock options that would have originally vested over a period of 12 months following the termination date, such that these options will now vest effective as of the date of termination. If Mr. Owens is terminated or constructively terminated without cause during the 12-month period after the effective date of a change of control, the stock option agreement provides that an amount equal to 25% of his original stock option grant will fully vest as of the termination date. He will have 90 days from termination to exercise any vested stock options.

Arrangements with Current and Former Executive Officers

In addition, in the employment agreements with all executive officers, we agreed to pay or reimburse the executive for reasonable business expenses incurred or paid during performance of his or her duties and responsibilities. These amounts did not exceed \$100,000 for any individual executive officer.

Our employment agreements with all executives include a non-competition provision effective during the executive's employment and, in the case of Messrs. Kalsu and Strelzick, for six months thereafter. All of the agreements provide that, during the executive's employment and for 12 months thereafter in the case of the executive's resignation or six months thereafter in the case of our termination of the executive for any reason, the executive may not solicit any of our employees or customers or seek to persuade any customer or prospect to conduct business elsewhere if that business could reasonably be expected to be conducted with us. Pursuant to the employment agreements with Messrs. Berry, Kalsu, Sims, Strelzick and Strop, the executive may not solicit any of our employees or customers as stated above, but the period lasts throughout employment and for 12 months thereafter in the case of the executive's resignation or six months thereafter if we terminate the executive without cause.

Limitation of Liability and Indemnification of Directors and Officers

Our amended and restated certificate of incorporation contains provisions that limit the liability of our directors for monetary damages to the fullest extent permitted by Delaware law. Consequently, no director will be personally liable to us or our stockholders for monetary damages for any breach of fiduciary duties as a director, except liability for:

any breach of the director's duty of loyalty to us or our stockholders;

any act or omission not in good faith or that involves intentional misconduct or a knowing violation of law;

unlawful payments of dividends or unlawful stock repurchases or redemptions as provided in Section 174 of the Delaware General Corporation Law; or

any transaction from which the director derived an improper personal benefit.

Our amended and restated certificate of incorporation and amended and restated bylaws provide that we are required to indemnify our directors and officers, in each case to the fullest extent permitted by Delaware law. Our amended and restated bylaws also provide that we are obligated to advance expenses incurred by a director or officer in advance of the final disposition of any action or proceeding, and permit us to secure insurance on behalf of any officer, director, employee or other agent for any liability arising out of his or her actions in that capacity regardless of whether we would otherwise be permitted to indemnify him or her under the provisions of Delaware law.

We have also entered into agreements to indemnify our current directors and executive officers and expect to continue to enter into agreements to indemnify any future directors and executive officers and such other employees as may be determined by our board. With specified exceptions, these agreements provide for indemnification for related expenses including, among other things, attorneys' fees, judgments, fines and settlement amounts incurred by any of these individuals in any action or proceeding. We believe that these bylaw provisions and indemnification agreements are necessary to attract and retain qualified persons as directors and officers. We also maintain directors' and officers' liability insurance.
