- .. Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

**Item 8.01. Other Events.**

On June 16, 2010, Curis, Inc. (the Company) issued a press release announcing topline results from a Phase II clinical trial conducted by Roche and Genentech, the Company's collaborator and a wholly owned member of the Roche Group, of GDC-0449, a first-in-class Hedgehog pathway inhibitor. GDC-0449 was tested in combination with Avastin® (bevacizumab) and FOLFOX or FOLFIRI chemotherapy in first-line metastatic colorectal cancer patients. Roche has informed the Company that the trial did not meet its primary endpoint of extending the time from randomization to disease progression or death in study patients who received GDC-0449 in addition to the current standard of care of bevacizumab and chemotherapy when compared to those patients that received only the current standard of care treatment.

The full text of the press release issued in connection with this announcement is attached as Exhibit 99.1 to this Current Report on Form 8-K and incorporated herein by reference.

**Item 9.01. Financial Statements and Exhibits.**

(d) Exhibits

See Exhibit Index attached hereto.

**SIGNATURE**

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
