NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS (Unaudited)

June 30, 2011

Note 1: Basis of Presentation, Organization and Other Matters

The accompanying unaudited interim consolidated condensed financial statements as of June 30, 2011 and for the three and six-month periods ended June 30, 2011 and 2010, together with the accompanying consolidated condensed balance sheet as of December 31, 2010, which has been derived from audited financial statements, have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures normally included in annual financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted pursuant to those rules and regulations, although management believes that the disclosures made are adequate to make the information not misleading. In the opinion of management, the unaudited interim consolidated condensed financial statements include all adjustments, which were normal and recurring in nature, considered necessary for a fair presentation of financial position, results of operations, and cash flows for the interim periods.

Results of operations for the three and six months ended June 30, 2011 are not necessarily indicative of the results to be expected for the full year ending December 31, 2011. These unaudited interim consolidated condensed financial statements should be read in conjunction with the consolidated financial statements, accounting policies, and financial notes thereto included in Advant-e Corporation's 2010 Form 10-K filed with the Securities and Exchange Commission.

Nature of Operations

Advant-e Corporation through its wholly-owned subsidiaries, Edict Systems, Inc. and Merkur Group, Inc. (collectively, the Company), develops, markets, resells, and hosts software and provides services that allow its customers to send and receive business documents electronically in standard and proprietary formats. Edict Systems specializes in providing hosted Electronic Data Interchange solutions that utilize the Internet as the primary communications method. Customers use Edict Systems solutions to connect with business partners, integrate data with internal systems, expand and manage electronic trading communities, and validate data via a hosted business rule service. Merkur Group develops and resells software, provides professional services, and provides technical maintenance and support that enables customers to automate delivery and receipt of business documents. Merkur Group provides proprietary software that integrates and connects large Supply Chain Management (SCM), Customer Relationship Management (CRM), and Enterprise Resource Planning (ERP) systems with third party software that provides multiple delivery and document capture options. Customers consist of businesses across a number of industries primarily throughout the United States, and to a much lesser extent some foreign locations, principally Canada, Mexico, and Puerto Rico.

Principles of Consolidation

The consolidated condensed financial statements include the accounts of Advant-e Corporation and its wholly-owned subsidiaries, Edict Systems, Inc., and Merkur Group, Inc. Inter-company accounts and transactions are eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with U. S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates used in preparing these financial statements include those considered in the assessment of recoverability of capitalized software development costs, the assessment of potential impairment of goodwill, the assessment of the collectability of accounts receivable and the recording of prepaid software maintenance costs and deferred revenue. A reasonable possibility exists that estimates used will change within the next year.

Note 2: Software Development costs

Software development costs at June 30, 2011 and the changes during the six months then ended are summarized as follows:

Edgar Filing: ADVANT E CORP - Form 10-Q

	Cost	Accumulated Amortization	Net
Balance, January 1, 2011	\$ 1,821,567	1,512,735	308,832
Additions	40,636		40,636
Amortization expense		29,122	(29,122)
Balance, June 30, 2011	\$ 1,862,203	1,541,857	320,346

Software development costs are for internal use software and for website development and related enhancements. The balance consists primarily of development costs related to the latest version of the Company's Web EDI. No such costs were capitalized in the quarter ended June 30, 2011 as the majority of the enhancements related to this upgrade have been completed.

Note 3: Line of Credit

At June 30, 2011, the Company has a \$1,500,000 bank line of credit. Borrowings under the line of credit accrue interest at the bank's prime commercial rate, are collateralized by substantially all of the assets of the Company's subsidiaries, and are payable in full when the line of credit expires on April 25, 2012. Interest is payable monthly. The line of credit is guaranteed by the Company's Chief Executive Officer. No borrowings were outstanding as of June 30, 2011 and 2010 and during the six month periods then ended.

Note 4: Income taxes

Income tax expense consists of the following:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
Current expense	\$ 245,445	214,501	464,942	375,139

Total income tax expense	\$ 203,566	207,777	402,677	345,034

Note 5: Operating Segment Information

The Company has two reportable segments: Internet-based electronic commerce document processing (Edict Systems, Inc.) and software-based electronic commerce document processing (Merkur Group, Inc.). The Company evaluates the performance of each reportable segment on income before income taxes excluding the effects of acquisition-related amortization of other intangible assets and related income taxes. The accounting policies of the segments are the same as those for the Company. The Company's reportable segments are managed as separate business units.

The following segment information is for the three months ended June 30, 2011 and 2010:

	Three Months Ended June 30, 2011			
	Internet-based	Software	Reconciling Items (a)	Total Consolidated

Income tax expense (benefit)	311,109	48,328	(14,403)	345,034
Net Income	598,321	93,748	(27,953)	664,116

(a) Reconciling items generally consist of the elimination of intersegment revenues of \$12,519 for the sale of software in 2011, at cost, and goodwill, other intangible assets and related amortization in connection with the Merkur Group, Inc. acquisition.

Revenue from customers located in areas outside the United States, principally in Canada, Mexico, and Puerto Rico, totaled less than 3% of consolidated revenue in the three and six months ended June 30, 2011 and 2010.

Note 6: Dividend

On May 12, 2011 the Company's Board of Directors declared a dividend of \$0.02 per share payable in two equal installments of \$0.01 per share each. The first installment totaling \$667,226 was paid on June 21, 2011. The Company reported as a current liability the second installment to be paid no later than December 31, 2011 totaling \$667,226.

Note 7: Recently Issued Accounting Pronouncements

In October 2009, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2009-13, Multiple-Deliverable Revenue Arrangements, which amends Accounting Standards Codification (ASC) Topic 605, Revenue Recognition. ASU 2009-13 amends the ASC to eliminate the residual method of allocation for multiple-deliverable revenue arrangements, and requires that arrangement consideration be allocated at the inception of an arrangement to all deliverables using the relative selling price method. The ASU also establishes a selling price hierarchy for determining the selling price of a deliverable, which includes: (1) vendor-specific objective evidence if available, (2) third-party evidence if vendor-specific objective evidence is not available, and (3) estimated selling price if neither vendor-specific nor third-party evidence is available. Additionally, ASU 2009-13 expands the disclosure requirements related to a vendor's multiple-deliverable revenue arrangements. The changes to the ASC as a result of this update are effective prospectively for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010. The adoption of this guidance had no material impact on the Company's consolidated condensed financial statements.

In October 2009, the FASB issued ASU No. 2009-14, Certain Revenue Arrangements That Include Software Elements, which amends ASC Topic 985, Software. ASU 2009-14 amends the ASC to change the accounting model for revenue arrangements that include both tangible products and software elements, such that tangible products containing both software and non-software components that function together to deliver the tangible product's essential functionality are no longer within the scope of software revenue guidance. The changes to the ASC as a result of this update are effective prospectively for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010. The adoption of this guidance had no material impact on the Company's consolidated condensed financial statements.

In December 2010, the FASB issued ASU No. 2010-28, Intangibles-Goodwill and Other: When to Perform Step 2 of the Goodwill Impairment Test for Reporting Units with Zero or Negative Carrying Amounts. ASU 2010-28 amends ASC Topic 305 requiring an entity that has recognized goodwill and has one or more reporting units whose carrying amount for the purposes of performing Step 1 of the impairment test is zero or negative to perform Step 2 of the goodwill impairment test. The changes to the ASC as a result of this update are effective for interim periods and fiscal years beginning after December 15, 2010. The adoption of this guidance had no material impact on the Company's consolidated condensed financial statements.

In May 2011, the FASB issued ASU No. 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS. ASU 2011-04 amends ASC Topic 820 to include increased transparency of valuation inputs and investment categorization and provide consistency in application of fair value under U.S. GAAP and IFRS. The changes to the ASC as a result of this update are effective for fiscal years and interim periods beginning after December 15, 2011. The Company believes the adoption of this guidance will not have a material impact on the Company's consolidated condensed financial statements.

In June 2011, the FASB issued ASU No. 2011-05, Presentation of Comprehensive Income. ASU 2011-05 amends ASC Topic 220 to allow an entity to present components of net income and other comprehensive income in one continuous statement, referred to as the statement of comprehensive income or in two separate, but consecutive statements. This ASU eliminates the current option to report other comprehensive income and its components in the statement of changes in equity, but it does not change the components that are currently recognized in net income or comprehensive income under current guidance. The changes to the ASC as a result of this update are effective for fiscal years and interim periods beginning after December 15, 2011. The Company believes the adoption of this guidance will not have a material impact on the

Company's consolidated condensed financial statements.

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward Looking Statements

This Form 10-Q contains forward-looking statements, including statements regarding the expectations of future operations. For this purpose, any statements contained in this Form 10-Q that are not statements of historical fact may be deemed to be forward-looking statements. Without limiting the foregoing, words such as may, will, expect, believe, anticipate, estimate, continue or comparable terminology are intended to identify forward-looking statements. These statements by their nature involve substantial risks and uncertainties, and actual results may differ materially depending on a variety of factors, many of which are not within the Company's control. These factors include, but are not limited to, economic conditions generally and in the industries in which the Company may participate, competition within the chosen industry, including competition from much larger competitors, technological advances, and the failure to successfully develop business relationships. In light of these risks and uncertainties, you are cautioned not to place undue reliance on these forward-looking statements. This item should be read in conjunction with Item 1. Financial Statements and other items contained elsewhere in this report.

Products and services

Advant-e Corporation through its wholly-owned subsidiaries, Edict Systems, Inc. and Merkur Group, Inc. (collectively, the Company), develops, markets, resells, and hosts software and provides services that allow its customers to send and receive business documents electronically in standard and proprietary formats. Edict Systems specializes in providing hosted Electronic Data Interchange solutions that utilize the Internet as the primary communications method. Customers use Edict Systems solutions to connect with business partners, integrate data with internal systems, expand and manage electronic trading communities, and validate data via a hosted business rule service. Merkur Group develops and resells software, provides professional services, and provides technical maintenance and support that enables customers to automate delivery and receipt of business documents. Merkur Group provides proprietary software that integrates and connects large Supply Chain Management (SCM), Customer Relationship Management (CRM), and Enterprise Resource Planning (ERP) systems with third party software that provides multiple delivery and document capture options. Customers consist of businesses across a number of industries primarily throughout the United States, and to a much lesser extent some foreign locations, principally Canada, Mexico, and Puerto Rico.

Critical Accounting Policies and Estimates

Revenue recognition

Revenues from Internet-based products and services are comprised of four components: account activation and trading partner set-up fees, monthly subscription fees, usage-based transactional fees and customer payments for the Company's development of applications designed to meet specific customer specifications.

Revenues earned from account activation and trading partner set-up fees are recognized after the Company performs consultative work required in order to establish an electronic trading partnership between the customer and their desired trading partners. Trading partnerships, once established, require no ongoing effort on the part of the Company and customers are able to utilize the electronic trading partnerships either directly with their customers or via a service provider other than the Company.

Revenue from monthly subscription fees is recognized over the period to which the subscription applies.

Revenue from usage based transaction fees is recognized in the period in which the transactions are processed.

Revenue from customer payments for the Company's development of applications designed to meet specific customer specifications is recognized over the contract period, generally twelve months.

Revenue from the sale of software and related products is recognized upon delivery of the software to the customer when title and risk of loss are transferred, and is accounted for under the provisions of ASC Topic 985-605, Software Industry Revenue Recognition. Revenue from the sale of software and related products is recorded at gross, and the related software purchases are included in cost of revenue. Customers have a 30-day period in which they can choose to accept or return the software. Historically, customer returns have not been significant. Revenue from maintenance contracts is recognized over the life of the maintenance and support contract period, generally twelve months. Revenue from professional services is recognized upon performance of those services.

Software Development Costs

Edgar Filing: ADVANT E CORP - Form 10-Q

The Company accounts for the costs of computer software that it develops for internal use and costs associated with operation of its web sites in accordance with the Accounting Standards Codification (ASC) Topic 350, Intangibles-Goodwill and Other by capitalizing those costs. Such capitalized costs represent solely the salaries and benefits of employees working on the graphics and

content development stages, or adding functionality or features. In accordance with ASC Topic 350, overhead, general and administrative and training costs are not capitalized. The Company accounts for the costs of computer software that it sells, leases and markets as a separate product in accordance with ASC Topic 985, Software. Capitalized costs are amortized by the straight-line method over the remaining estimated economic lives of the software application, generally three years, and are reported at the lower of unamortized cost or net realizable value.

The ongoing assessment of recoverability of capitalized software development costs requires considerable judgment by management with respect to certain external factors, including, but not limited to, anticipated future revenues, estimated economic life and changes in software and hardware technologies. Impairment of asset value is considered whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

Goodwill and Other Intangible Assets

Management assesses goodwill related to the July 2, 2007 acquisition of Merkur Group, Inc. for impairment on an annual basis at year-end, and between annual tests if an event occurs or circumstances change that may more likely than not reduce the fair value of the reporting unit below its carrying value. Significant management judgment is required in assessing the impairment of goodwill, including the assignment of assets and liabilities and determination of fair value. Management uses the discounted cash flow method, which requires significant judgments and assumptions for estimates of future cash flows, growth rate, and useful life of the cash flows, and determination of the cost of capital. Changes in these estimates and assumptions could materially affect the determination of fair value and goodwill impairment, if any.

Recently Issued Accounting Pronouncements

For a description of recently issued accounting pronouncements, including the expected dates of adoption and estimated effects, if any, on the Company's consolidated condensed financial statements, see Note 7: Recently Issued Accounting Pronouncements in the Notes to Consolidated Condensed Financial Statements of this Form 10-Q.

Results of Operations: Second Quarter of 2011 Compared to Second Quarter of 2010

Total	\$ 2,025,443	100	1,893,311	100	132,132	7

Revenue from GroceryEC and AutomotiveEC increased 5% and 9%, respectively, due to an increase in the volume of transactions processed.

Revenue from EnterpriseEC, the Company's value added network, increased by 5% due to an increased volume of transactions processed for large grocery companies. Significant pricing pressures and the availability of alternate connectivity options continue to adversely affect revenue growth for EnterpriseEC.

Other products and services increased by \$40,260, or 204%, primarily due to increased web-based testing and certification fees resulting from the Company's trading community ramping services.

The Company is continuing to focus its energy on increasing activity in currently supported industries and on developing additional business in other industries, primarily healthcare, consumer packaged goods and manufacturing.

Merkur Group Revenue

Revenue in the second quarter of 2011 and 2010 from the sale of software based products and services sold by Merkur Group is summarized below:

	Q2 2011		Q2 2010		Increase (Decrease)	
	Amount	% of Total	Amount	% of Total	Amount	%
Software	\$ 11,998	4	104,804	23	(92,806)	(89)
Hardware	26,727	8	40,376	9	(13,649)	(34)

Total	\$ 334,181	100	450,505	100	(116,324)	(26)

Revenue from the sale of software, hardware, and professional services, totaling \$82,025 in Q2 2011, declined from \$223,535 in Q2 2010, or by 63%, as customers continue to postpone software decisions due to the sluggish economy and the uncertainty of the general business and political climate. Recurring revenue from maintenance contracts, however, increased by 10%, to \$242,048.

Net income

Net income for the second quarter of 2011 compared to the second quarter of 2010 is summarized below.

	Q2 2011	Q2 2010	Increase (Decrease)	
			Amount	%
Edict Systems	\$ 367,183	324,922	42,261	13
Merkur Group	39,253	88,894	(49,641)	(56)

Total Net income	\$ 392,460	399,840	(7,380)	(2)

The increase for Edict Systems was due to revenue growth partially offset by increased technical personnel related costs.

The decrease for Merkur Group was due to decreased revenue from the sale of software, hardware and professional services.

Gross margin and cost of revenue

Edgar Filing: ADVANT E CORP - Form 10-Q

The Company's gross margin, as a percent of revenue, decreased from 61% in the second quarter of 2010 to 59% in the second quarter of 2011. Gross margins for both Edict Systems and Merkur Group declined. The gross margin for Edict declined due to additional technical personnel related costs. The gross margin for Merkur declined due to the decrease in revenue from the sale of relatively high-margin professional services and due to fixed technical personnel related costs that were not absorbed as revenue declined.

Marketing, general and administrative expenses

Marketing, general and administrative expenses decreased by \$28,245, or 3%, in the second quarter of 2011 compared to the second quarter of 2010, due primarily to reduced personnel related expenses and certain sales and marketing expenses.

Results of Operations: Six Months Ended June 30, 2011 compared to Six Months Ended June 30, 2010

Revenue

Revenue for the Company in the first six months of 2011 increased 3% compared to the first six months of 2010. Revenue for Edict Systems increased by 5% and revenue for Merkur Group decreased by 7%.

	Six months ended June 30, 2011		Six months ended June 30, 2010		Increase (Decrease)

Total	\$ 3,969,883	100	3,794,692	100	175,191	5

Revenue from GroceryEC and AutomotiveEC increased 4% and 7%, respectively, due to an increase in the volume of transactions processed.

Revenue from EnterpriseEC, the Company's value added network, increased by 6% in the first six months of 2011 compared to the first six months of 2010 due to increased volume of EDI transactions processed for large grocery companies. Significant pricing pressures and the availability of alternate connectivity options continue to adversely affect revenue growth for EnterpriseEC.

Merkur Group Revenue

Revenue in the first six months of 2011 and 2010 from the sale of software based products and services sold by Merkur Group is summarized below:

	Six months ended June 30, 2011		Six months ended June 30, 2010		Increase (Decrease)

Total	\$ 690,161	100	742,945	100	(52,784)	(7)

Revenue from the sale of software and related hardware and professional services, totaling \$207,859 in the first six months of 2011, declined from \$294,477 in the first six months of 2010, or by 29%, as customers continue to postpone software decisions due to the sluggish economy and the uncertainty of the general business and political climate. Recurring revenue from maintenance contracts, however, increased by 7% to \$464,109 in the first six months of 2011.

Net Income

Net income for the first six months of 2011 compared to the first six months of 2010 is summarized below:

	Six months ended June 30, 2011	Six months ended June 30, 2010	Increase (Decrease)	
			Amount	%
Edict Systems	\$ 712,146	598,321	113,825	19
Merkur Group	93,354	93,748	(394)

Total Net Income	\$ 777,547	664,116	113,431	17

The increase for Edict Systems was primarily due to revenue growth which was partially offset by increased technical personnel related expenses as Edict began to implement its new Web EDI version.

Net income for Merkur Group remained relatively unchanged due to reduced personnel related expenses that approximately offset decreased revenue.

Revenue from customers in foreign locations

Although the Company has no facilities or operations in foreign locations, the Company derived in the six months ended June 30, 2011 and 2010 less than 3% of its revenue from customers located in areas outside the United States, principally in Canada, Mexico, and Puerto Rico.

Gross margin and cost of revenue

The Company's gross margin, as a percent of revenue, remained constant at 59% in the first six months of both 2011 and 2010. The gross margin for Edict Systems was 63% for both periods as increased revenue was sufficient to offset increased technical personnel related expenses. The gross margin for Merkur Group declined from 44% to 41% due to reduced revenue from the sale of relatively high margin professional services and due to fixed technical personnel related expenses that were not absorbed as revenue declined.

Marketing, general and administrative expenses

Marketing, general and administrative expenses decreased by \$87,891, or 5%, in the first six months of 2011 compared to the first six months of 2010, due primarily to reductions of personnel related expenses and certain sales and marketing expenses.

Liquidity and Capital Resources

In the first six months of 2011, the Company generated net cash flows from operating activities of \$1,107,573. The Company paid dividends of \$667,226 and invested \$55,223 in property and equipment for infrastructure improvements and software development costs for the new version of Web EDI.

Management believes that the Company will have sufficient financial resources to meet business requirements during the remainder of 2011, including payment of the dividend installment of \$667,226 due to be paid before December 31, 2011 and reported as a current liability on the June 30, 2011 consolidated condensed balance sheet.

Changes in Consolidated Condensed Balance Sheet from December 31, 2010 to June 30, 2011

Some balance sheet changes that occurred from December 31, 2010 to June 30, 2011 that are not described elsewhere in this Management's Discussion and Analysis of Financial Condition and Results of Operations are described below:

Prepaid expenses and deposits increased \$80,004 primarily due to the timing of the deposit of the net amount of the July 1, 2011 payroll.

Accrued salaries and other expenses increased \$210,372 due to the timing of payroll periods and accruals for unpaid but earned employee bonuses and vacation pay.

Deferred revenue increased by \$99,252 due to sales of software maintenance contracts and sales of applications designed to meet specific customer specifications for services to be performed in future periods.

Total shareholders' equity decreased \$556,905 as a result of the declaration of a \$.02 per share dividend on May 12, 2011 totaling \$1,334,452 and net income for the six months of \$777,547.

ITEM 4. Controls and Procedures

Attached as exhibits to the Form 10-Q are certifications of the Company's Chief Executive Officer (CEO) and Chief Financial Officer (CFO), which are required in accordance with Rule 13a-14 of the Securities Exchange Act of 1934, as amended (the Exchange Act). These Controls and Procedures section includes information concerning the controls and controls evaluation referred to in the certifications, and it should be read in conjunction with the certifications for a more complete understanding of the topics presented.

The CEO and the CFO have conducted an evaluation of the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this Form 10-Q. Disclosure controls and procedures are designed to reasonably assure that information required to be disclosed in our reports filed under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures are also designed to reasonably assure that such information is accumulated and communicated to our management, including the CEO and CFO, as appropriate to allow timely decisions regarding required disclosures.

Based upon the controls evaluation, our CEO and CFO have concluded that the Company's disclosure controls and procedures were effective to ensure that information required to be disclosed in reports that the Company files or submits under the Securities Exchange Act of 1934, as amended, is accumulated and communicated to the Company's management, including the Company's CEO and CFO, to allow timely decisions regarding required disclosure; and that the Company's disclosure controls and procedures were effective during the period covered by the Company's report on Form 10-Q for the quarterly period ended June 30, 2011.

During the period covered by this report, there were no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
