is
predominantly
based
on

has
been
presented
on
a
worldwide
basis
which
includes
all
countries.

In
this
report,
management
estimates
of
market
share
information
are
generally
based
on
retail
unit
data
in
North
America,

on
registrations of equipment in most of Europe, Brazil, and various Rest of World markets and on retail and shipment unit data
collected
by
a
central
information
bureau
appointed
by
equipment
manufacturers
associations
including

the
Association
of
Equipment
Manufacturers
in
North
America,
the
Committee
for
European
Construction
Equipment
in
Europe,
the
ANFAVEA

in Brazil, the Japan Construction Equipment Manufacturers Association and the Korea Construction Equipment Manufacturers Association, as well as on other shipment data collected by an independent service bureau.

Not all agricultural or construction equipment is registered, and registration data may thus underestimate, perhaps substantially, actual retail industry unit sales demand, particularly for local manufacturers in China, Southeast Asia, Eastern Europe, Russia, Turkey, Brazil and any country where local shipments are not reported .

In addition, there may also be a period of time between the shipment, delivery, sale and/or registration of a unit, which must be estimated, in making any adjustments to the shipment, delivery, sale, or registration data to determine our estimates of retail unit data in any period.

Non-GAAP Measures

CNH
utilizes
various
figures
that
are

Non-GAAP
Financial
Measures

as
this
term
is
defined
under

Regulation G as promulgated by the SEC. In accordance with Regulation G, CNH has detailed either the computation of these financial measures from multiple U.S. GAAP figures or reconciled these non-GAAP financial measures to the most relevant U.S. GAAP equivalent in the accompanying tables in this presentation. Some of these measures do not have standardized meanings and investors should consider that the methodology applied in calculating such measures may differ among companies and analysts. CNH's management believes these non-GAAP measures provide useful supplementary information to investors in order that they may evaluate CNH's financial performance using the same measures used by our management. These non-GAAP financial measures should not be considered as a substitute for, nor superior to, measures of financial performance prepared in accordance with U.S. GAAP.

Non-GAAP measures include:

CNH
defines
net
income
before
restructuring
and
exceptional
item
as
net
income
attributable
to
CNH,

less restructuring charges and exceptional items, after tax. Exceptional items include charges or income that may mask underlying operating results. We believe that net income before restructuring and exceptional items is a useful figure for measuring the performance of our operations.
