PROSPECTUS SUPPLEMENT

(To Prospectus dated March 15, 2012)

\$100,000,000

Kraton Polymers LLC

Kraton Polymers Capital Corporation

6.75% Senior Notes due 2019

Payment of principal and interest unconditionally guaranteed by

Kraton Performance Polymers, Inc.

This is an offering by Kraton Polymers LLC (Kraton LLC) and Kraton Polymers Capital Corporation (Kraton Capital) and, together with Kraton Polymers LLC, the issuers of \$100,000,000 of their 6.75% Senior Notes due 2019 (the additional notes). The additional notes constitute a further issuance of, and are fungible with, the \$250,000,000 aggregate principal amount of 6.75% Senior Notes due 2019 that we issued on February 11, 2011 (the existing notes) and form a single series of debt securities with the existing notes. The existing notes were issued in a private transaction in reliance on Rule 144A and Regulation S under the Securities Act of 1933, as amended (the Securities Act) and were subsequently exchanged in full for identical notes on June 13, 2011 in a registered exchange offer under the Securities Act. The existing notes are not, and the additional notes offered hereby will not be, subject to transfer restrictions, rights to additional interest or registration rights. Upon completion of this offering, the aggregate principal amount of outstanding 6.75% Senior Notes due 2019 will be \$350,000,000. Unless the context requires otherwise, references to the notes include the existing notes, the additional notes offered hereby and any further additional notes that may be issued under the indenture.

The additional notes will mature on March 1, 2019. The issuers will pay interest on the additional notes semi-annually in cash in arrears on March 1 and September 1 of each year, beginning on September 1, 2012, to the holders of record at the close of business on the preceding February 15 and August 15, respectively. Payment of all principal and interest will be guaranteed by Kraton Performance Polymers, Inc., the parent company of the issuers, and each of the issuers wholly-owned domestic subsidiaries that guarantees Kraton Polymers LLC's senior secured credit facility.

The issuers may redeem the notes on or after March 1, 2015 at the redemption prices specified under Description of Notes Optional Redemption. In addition, the issuers may redeem up to 35% of the notes before March 1, 2014 with the net cash proceeds from certain equity offerings.

The additional notes and the guarantees will be unsecured obligations and will be pari passu in right of payment with all of the issuers and the guarantors existing and future senior unsubordinated debt, but will be effectively subordinated to all of the issuers and guarantors secured debt and all existing and future liabilities of non-guarantor subsidiaries, and will be senior in right of payment to all of the issuers and the guarantors existing and future subordinated indebtedness. The additional notes will be issued only in registered form in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.

We expect to receive net proceeds of approximately \$98,750,000 from this offering (after giving effect to underwriting discounts and commissions and estimated expenses of the offering). See Use of Proceeds.

Investing in the additional notes involves risks that are described in the Risk Factors section beginning on page S-8 of this prospectus supplement.

This is not intended to be a complete description of the matters covered in this prospectus supplement and the accompanying prospectus and is subject to, and qualified in its entirety by reference to, the more detailed information and financial statements (including the notes thereto) included or incorporated by reference in this prospectus supplement and the accompanying prospectus. Unless otherwise indicated, all references to Kraton, Kraton Performance Polymers, our company, we, ours or us refer to Kraton Performance Polymers, Inc., the issuers' parent company and a guarantor of the notes, together with its consolidated subsidiaries; Kraton LLC refers to Kraton Polymers LLC, the issuer of the notes, and its consolidated subsidiaries; all references to Kraton Capital refer to Kraton Polymers Capital Corporation, a wholly owned subsidiary of Kraton Polymers LLC and the co-issuer of the notes; all references to Issuers refer to Kraton Polymers LLC and Kraton Polymers Capital Corporation; the SBC industry refers to the elastomeric styrenic block copolymers industry and does not include the high styrene or rigid SBC business; all references to the accompanying prospectus are to the prospectus dated March 15, 2012.

Our Company

We are a leading global producer of styrenic block copolymers (SBCs) and other engineered polymers. We market our products under the Kraton® brand. SBCs are highly-engineered synthetic elastomers, which we invented and commercialized almost 50 years ago, that enhance the performance of numerous end use products by imparting greater flexibility, resilience, strength, durability and processability. Our SBC polymers are typically formulated or compounded with other products to achieve improved, customer specific performance characteristics in a variety of applications. We focus on the end use markets we believe offer the highest growth potential and greatest opportunity to differentiate our products from competing products. Within these end use markets, we provide our customers with a broad portfolio of highly-engineered polymers that we believe are value-enhancing and, in many cases, critical to the performance of their products. We seek to maximize the value of our product portfolio by emphasizing complex or specialized polymers and innovations that yield higher margins than more commoditized products. We sometimes refer to these complex or specialized polymers or innovations as being more differentiated. Our products are typically developed using our proprietary, and in many cases patent-protected, technology and require significant engineering, testing and certification. In 2011, we were awarded 79 patents for new products or applications and at December 31, 2011, we had 1,136 granted patents and 286 pending patent applications. We believe our almost 50-year track record of innovation, long-standing customer relationships and global infrastructure position us well to successfully execute our strategies.

Our SBC products are found in many everyday applications, including disposable diapers, the rubberized grips of toothbrushes, razor blades and power tools and asphalt formulations used to pave roads. We also produce Cariflex isoprene rubber (IR) and isoprene rubber latex (IRL). Our Cariflex™ products are highly-engineered, non-SBC synthetic substitutes for natural rubber latex. Our IRL products, which have not been found to contain the proteins present in natural rubber latex and are, therefore, not known to cause allergies, are used in applications such as surgical gloves and condoms. We believe the versatility of IRL provides opportunities for new, high-margin applications. In addition to IRL, we have a portfolio of innovations at various stages of development and commercialization, including polyvinyl chloride (PVC), alternatives for wire, cable and medical applications, and polymers for use in slush molding for automotive applications, and our Nexar™ family of membrane polymers for applications such as water filtration and breathable fabrics.

Our total capacity as of December 31, 2011 was approximately 420 kilotons. We generated approximately \$1,437.5 million of sales revenue and 303.0 kilotons of sales volume for the year ended December 31, 2011. In 2011, we generated 14.3% of our sales revenue from innovation-driven revenue, which we define as revenue from products or applications introduced in the preceding five years. Our customers are

Table of Contents

diversified by industry and geography with more than 800 customers in over 60 countries. We manufacture our polymers at five manufacturing facilities globally, including our flagship facility in Belpre, Ohio, as well as facilities in Germany, France, Brazil, and Japan. The facility in Japan is operated by an unconsolidated manufacturing joint venture.

We have had relationships with many of our customers for 15 years or more and work closely with our customers to design products that meet application-specific performance and quality requirements. We have a diverse customer base, with no single customer accounting for more than 10.0% of our sales revenue in 2011 and our top 10 customers together representing approximately 29.2% of our sales revenues in 2011. Because of the technical expertise and investment required to develop many of our product formulations and the lead times required to replace them, our customers would likely incur additional costs by changing to an alternative vendor.

Over the past several years, we have implemented a range of strategic initiatives designed to enhance our profitability and end use market position. These include fixed asset investments to expand our capacity in specialized products, to enhance productivity at our existing facilities and to reduce our fixed costs through headcount reductions, production line closures at our Pernis, the Netherlands, facility (Pernis) and system upgrades. During this period, we have substantially exited the footwear applications business, which typically yielded lower margins than our other core end use markets, and implemented pricing strategies designed to enhance our overall margins and return on invested capital. We believe these initiatives provide us with a platform to benefit from volume growth that may occur in our end use markets.

Corporate and Other Information

Our business is conducted through Kraton Polymers LLC, a Delaware limited liability company and the issuer of the notes offered hereby, and its consolidated subsidiaries. Prior to its initial public offering, our parent company was Polymer Holdings LLC, a Delaware limited liability company. On December 16, 2009, Polymer Holdings LLC, or Polymer Holdings, was converted from a Delaware limited liability company to a Delaware corporation and renamed Kraton Performance Polymers, Inc., which remains our parent company. Trading in common stock of Kraton Performance Polymers on the New York Stock Exchange commenced on December 17, 2009 under the symbol KRA.

Kraton Polymers Capital Corporation, or Kraton Capital, exists solely for the purpose of serving as a co-issuer of the notes. Kraton Capital does not have any substantial operations or assets and will not have any revenues. As a result, prospective purchasers of the notes should not expect Kraton Capital to participate in servicing the interest and principal obligations of the notes.

Our principal executive offices are located at 15710 John F. Kennedy Boulevard, Suite 300, Houston, Texas 77032, and our telephone number is (281) 504-4700. Recent Developments

Establishment of a Joint Venture Framework with Formosa Petrochemical Corporation. In July 2011, we announced the execution of a framework agreement with Formosa Petrochemical Corporation (FPCC), a leading global petrochemicals and plastics manufacturer, which sets forth the major terms and conditions that would, upon completion of the necessary definitive agreements, govern the formation of a 50/50 joint venture between the two companies to construct and operate a 30 kiloton HSBC plant to be located on FPCC s industrial site in Mailiao, Taiwan. Pursuant to the terms of the framework agreement, the plant would incorporate our proprietary polymerization technology, and produce our more differentiated HSBC polymer grades. The plant would be operated by the joint venture, and we would undertake the global marketing of all

Table of Contents

products manufactured at the facility. Currently, we are conducting an engineering estimate for the project, which we expect will be completed in March 2012 and will provide data to estimate narrower ranges of total project cost and timing. At this time, we anticipate the total project cost estimate will reflect at least \$200.0 million. We currently estimate our share of the funding for the joint venture would be approximately \$70.0 million in 2012. This estimate is dependent on a number of factors, including final project cost, timing, and the extent to which the project can be funded through third party debt financing, which will impact the equity contributions to be made by us and FPCC. We currently anticipate funding our 2012 contributions with available liquidity and/or through alternative incremental funding sources, including, with the proceeds of this offering.

Certain required approvals from the Taiwanese environmental authorities remain pending, although we previously obtained approval from the Fair Trade Commission in Taiwan in October 2011. While we are currently targeting to have the plant operational in the first half of 2014, we cannot be certain that we will be able to acquire all necessary permitting or other approvals for the construction of the facility in a timely fashion, if at all, or that the facility will be successfully constructed and operated within our expected timeframe or budget or yield expected results.

In addition, although we are currently in the process of negotiating definitive documentation, the framework agreement expires on March 31, 2012 and we may not be able to negotiate and enter into definitive agreements regarding this joint venture on a timely basis or at all. In the event that we are not able to consummate this joint venture for any of the foregoing reasons, we expect to pursue other possibilities to build a production facility in Asia, which may be structured as a joint venture or without a joint venture partner.

Amendment to the Credit Agreement. Concurrently with the offering, we expect to enter into an amendment (the *Amendment*) to our 2011 Credit Agreement, among Kraton LLC, as borrower, Kraton Performance Polymers, as guarantor, certain subsidiaries of Kraton Performance Polymers (excluding Kraton LLC), as additional guarantors, Bank of America, N.A. as Administrative Agent and Collateral Agent, and the other lenders party thereto (the *Credit Agreement*) to, among other things, facilitate the Company's ability to pursue a new manufacturing facility by providing for an additional \$50.0 million in investment capacity for certain investments and a \$75.0 million increase to the capital expenditures basket under certain circumstances. Additionally, the Amendment provides for certain modifications to the consolidated net leverage ratio we are required to maintain and provides that certain guarantees by the borrower or any of its domestic subsidiaries not to exceed \$100.0 million shall not constitute indebtedness for purposes of compliance with certain financial covenants.

Outlook. Prices for our primary raw materials continue to be volatile in the first quarter of 2012 as evidenced by the North America contract price for butadiene increasing from \$0.98 per pound in December 2011 to \$1.46 per pound in March 2012. These raw material price increases reflect multiple planned cracker capacity outages in particular in Asia in the first quarter 2012 combined with the increase in crude oil prices. As a consequence, we currently anticipate that our cost of goods sold on a FIFO basis will be slightly lower than cost of goods sold would have otherwise been on an estimated current replacement cost basis.

RISK FACTORS

Before investing in the notes, you should consider carefully the information under Risk Factors in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011, which is incorporated by reference in this prospectus supplement, and the following risks, as well as the other information included and/or incorporated by reference in this prospectus supplement and the accompanying prospectus. Each of the risks described in our Annual Report on Form 10-K and below could result in a decrease in the value of the notes and your investment therein. Although we discuss certain factors below, please be aware that other risks may prove to be important in the future. New risks may emerge at any time, and we cannot predict those risks or estimate the extent to which they may affect the value of the notes and your investment therein.

Risk Factors Relating to the Notes

Our substantial indebtedness and lease obligations could adversely affect our financial flexibility and our competitive position.

We have a significant amount of indebtedness. Following the consummation of this offering, we will have \$492.5 million of indebtedness outstanding in addition to availability under the revolving portion of our senior secured credit facility. Our substantial amount of indebtedness could have important consequences for you. For example, it could:

make it more difficult for us to satisfy our obligations with respect to the notes;

increase our vulnerability to adverse economic and industry conditions;

require us to dedicate a substantial portion of our cash flow from operations to make payments on our indebtedness and leases, thereby reducing the availability of our cash flow to fund working capital, capital expenditures and other general corporate purposes;

limit our flexibility in planning for, or reacting to, changes in the business and industry in which we operate;

restrict us from exploiting business opportunities;

make it more difficult to satisfy our financial obligations, including payments on the notes;

place us at a disadvantage compared to our competitors that have less debt and lease obligations; and

limit our ability to borrow additional funds for working capital, capital expenditures, acquisitions, debt service requirements, execution of our business strategy and other general corporate purposes or to refinance our existing debt.

Our indebtedness may restrict our current and future operations, which could adversely affect our ability to respond to changes in our business and manage our operations.

Agreements governing our indebtedness and the indenture governing the notes contain, and any future indebtedness may contain, a number of restrictive covenants that impose significant operating and financial restrictions on us and our restricted subsidiaries, including restrictions on our or our restricted subsidiaries' ability to, among other things:

place liens on our or our restricted subsidiaries' assets;

S-8

Table of Contents

make investments other than permitted investments;

incur additional indebtedness;

merge, consolidate or dissolve;

sell assets;

engage in transactions with affiliates;

change the nature of our business;

change our or our subsidiaries' fiscal year or organizational documents; and

make restricted payments (including certain equity issuances).

A failure by us or our subsidiaries to comply with the covenants or to maintain the required financial ratios contained in the agreements governing our indebtedness could result in an event of default under such indebtedness, which could adversely affect our ability to respond to changes in our business and manage our operations. Upon the occurrence of an event of default under any of the agreements governing our indebtedness, the lenders could elect to declare all amounts outstanding to be due and payable and exercise other remedies as set forth in the agreements. If any of our indebtedness were to be accelerated, there can be no assurance that our assets would be sufficient to repay this indebtedness in full, which could have a material adverse effect on our ability to continue to operate as a going concern.

To service our indebtedness, we will require a significant amount of cash.

Our ability to generate cash depends on many factors beyond our control, and any failure to meet our debt service obligations could harm our business, financial condition and results of operations. Our ability to make payments on and to refinance our indebtedness, including the notes, and to fund working capital needs and planned capital expenditures will depend on our ability to generate cash in the future. This, to a certain extent, is subject to general economic, financial, competitive, business, legislative, regulatory and other factors that are beyond our control, including, among other things, the costs of raw materials used in the production of our products.

If our business does not generate sufficient cash flow from operations or if future borrowings are not available to us in an amount sufficient to enable us to pay our indebtedness, including the notes, or to fund our other liquidity needs, we may need to refinance all or a portion of our indebtedness, including the notes, on or before the maturity thereof, sell assets, reduce or delay capital investments or seek to raise additional capital, any of which could have a material adverse effect on our operations. In addition, we may not be able to effect any of these actions, if necessary, on commercially reasonable terms or at all. Our ability to restructure or refinance our indebtedness, including the notes, will depend on the condition of the capital markets and our financial condition at such time. Any refinancing of our debt could be at higher interest rates and may require us to comply with more onerous covenants, which could further restrict our business operations. The terms of existing or future debt instruments, including the indenture governing the notes, may limit or prevent us from taking any of these actions. In addition, any failure to make scheduled payments of interest and principal on our outstanding indebtedness would likely result in a reduction of our credit rating, which could harm our ability to incur additional indebtedness on commercially reasonable terms or at all. Our inability to generate sufficient cash flow to satisfy our debt service obligations, or to refinance or restructure our obligations on commercially reasonable terms or at all, would have an adverse effect, which could be material, on our business, financial condition and results of operations, as well as on our ability to satisfy our obligations in respect of the notes.

Table of Contents

In addition, if we are unable to meet our debt service obligations under the notes, the holders of the notes would have the right following a cure period to cause the entire principal amount of the notes to become immediately due and payable. If the amounts outstanding under these instruments are accelerated, we cannot assure you that our assets will be sufficient to repay in full the money owed to our debt holders, including holders of the notes.

We, including our subsidiaries, have the ability to incur substantially more indebtedness, including senior secured indebtedness.

Subject to the restrictions in our senior secured credit facility and the indenture governing the notes, we, including our subsidiaries, may incur significant additional indebtedness. As of December 31, 2011, as adjusted to give effect to the offering of the additional notes:

we would have had \$142.5 million of senior secured debt under our senior secured credit facility;

we would have had \$350 million of senior unsecured indebtedness under the notes;

subject to compliance with customary conditions, we would have had available to us \$200 million under the revolving portion of our senior secured credit facility, which, if borrowed, would be senior secured indebtedness; and

subject to our compliance with certain covenants and other conditions, including a maximum consolidated net coverage ratio, we would have had the option to raise up to \$125 million of incremental term loans or increased revolving credit commitments without satisfying any additional financial tests under the indentures governing the notes, which, if borrowed, would be senior secured indebtedness.

Although the terms of our senior secured credit facility and the indenture governing the notes contain restrictions on the incurrence of additional indebtedness, these restrictions are subject to a number of important exceptions, and indebtedness incurred in compliance with these restrictions could be substantial. If we and our restricted subsidiaries incur significant additional indebtedness, the related risks that we face could increase.

The additional notes will be unsecured and will be effectively subordinated to our and the guarantors' senior secured indebtedness and indebtedness of non-guarantor subsidiaries.

Our obligations under the additional notes and the guarantors' obligations under the guarantees of the additional notes will not be secured by any of our or our subsidiaries' assets. Following the consummation of this offering, we will have \$142.5 million of senior secured indebtedness outstanding in addition to availability under the revolving portion of our senior secured credit facility. If we and the guarantors were to become insolvent or otherwise fail to make payments on the notes, holders of our and our guarantors' secured obligations would be paid first and would receive payments from the assets securing such obligations before the holders of the notes would receive any payments. You may therefore not be fully repaid in the event we become insolvent or otherwise fail to make payments on the notes.

The additional notes will not be guaranteed by all of our subsidiaries. For example, our immaterial subsidiaries are not required to guarantee the notes. Accordingly, claims of holders of the notes will be structurally subordinate to the claims of creditors of these non-guarantor subsidiaries, including trade creditors. All obligations of our non-guarantor subsidiaries will have to be satisfied before any of the assets of such subsidiaries would be available for distribution, upon a liquidation or otherwise, to us or a guarantor of the notes.

Table of Contents

Our failure to comply with the agreements relating to our outstanding indebtedness, including as a result of events beyond our control, could result in an event of default that could materially and adversely affect our results of operations and our financial condition.

If there were an event of default under any of the agreements relating to our outstanding indebtedness, the holders of the defaulted debt could cause all amounts outstanding with respect to that debt to be due and payable immediately. Upon acceleration of certain of our other indebtedness, holders of the notes could declare all amounts outstanding under the notes immediately due and payable. We cannot assure you that our assets or cash flow would be sufficient to fully repay borrowings under our outstanding debt instruments if accelerated upon an event of default. Further, if we are unable to repay, refinance or restructure our secured debt, the holders of such debt could proceed against the collateral securing that indebtedness. In addition, any event of default or declaration of acceleration under one debt instrument could also result in an event of default under one or more of our other debt instruments. In addition, counterparties to some of our long term customer contracts may have the right to amend or terminate those contracts if we have an event of default or a declaration of acceleration under certain of our indebtedness, which could adversely affect our business, financial condition or results of operations.

Under certain circumstances a court could cancel the additional notes or the related guarantees under fraudulent conveyance laws.

Federal and state fraudulent transfer and conveyance statutes may apply to the issuance of the additional notes and the incurrence of the guarantees. Under federal bankruptcy law and comparable provisions of state fraudulent transfer or conveyance laws, which may vary from state to state, the additional notes or guarantees could be voided as a fraudulent transfer or conveyance if (1) we or any of the guarantors, as applicable, issued the additional notes or incurred the guarantees with the intent of hindering, delaying or defrauding creditors or (2) we or any of the guarantors, as applicable, received less than reasonably equivalent value or fair consideration in return for either issuing the additional notes or incurring the guarantees and, in the case of (2) only, one of the following is also true at the time thereof:

we or any of the guarantors, as applicable, were insolvent or rendered insolvent by reason of the issuance of the additional notes or the incurrence of the guarantees;

the issuance of the additional notes or the incurrence of the guarantees left us or any of the guarantors, as applicable, with an unreasonably small amount of capital to carry on the business;

we or any of the guarantors intended to, or believed that we or such guarantor would, incur debts beyond our or such guarantor's ability to pay as they mature; or

we or any of the guarantors was a defendant in an action for money damages, or had a judgment for money damages docketed against us or such guarantor if, in either case, after final judgment, the judgment is unsatisfied.

If a court were to find that the issuance of the additional notes or the incurrence of the guarantee was a fraudulent transfer or conveyance, the court could void the payment obligations under the additional notes or such guarantee or further subordinate the additional notes or such guarantee to presently existing and future indebtedness of ours or of the related guarantor, or require the holders of the additional notes to repay any amounts received with respect to such guarantee. In the event of a finding that a fraudulent transfer or conveyance occurred, you may not receive any repayment on the additional notes. Further, the voidance of the additional notes could result in an event of default with respect to our and our subsidiaries' other debt that could result in acceleration of such debt.

As a general matter, value is given for a transfer or an obligation if, in exchange for the transfer or obligation, property is transferred or an antecedent debt is secured or satisfied. A debtor will generally not be

Table of Contents

considered to have received value in connection with a debt offering if the debtor uses the proceeds of that offering to make a dividend payment or otherwise retire or redeem equity securities issued by the debtor. We cannot be certain as to the standards a court would use to determine whether or not we or the guarantors were solvent at the relevant time or, regardless of the standard that a court uses, that the issuance of the guarantees would not be further subordinated to our or any of our guarantors' other debt.

You may not be able to sell the additional notes readily or at all or at or above the price that you paid.

We do not intend to apply for the additional notes to be listed on any securities exchange or to arrange for quotation on any automated dealer quotation system. The underwriters have advised us that they intend to continue to make a market in the notes, but they are not obligated to do so and may discontinue any market making in the notes at any time, in their sole discretion. You may not be able to sell your additional notes at a particular time or at favorable prices. As a result, we cannot assure you as to the liquidity of any trading market for the notes. Accordingly, you may be required to bear the financial risk of your investment in the additional notes indefinitely. Future trading prices of the notes may be volatile and will depend on many factors, including:

our operating performance and financial condition;

the interest of securities dealers in making a market for them;

prevailing interest rates; and

the market for similar securities.

In addition, the market for non-investment grade debt historically has been subject to disruptions that have caused substantial volatility in the prices of securities similar to the notes. The market for the notes may be subject to similar disruptions that could adversely affect their value.

We may not have the ability to raise the funds necessary to finance the change of control offer required by the indenture governing the notes.

Upon the occurrence of a change of control, as defined in the indenture governing the notes, we must offer to buy back the notes at a price equal to 101% of the principal amount, together with any accrued and unpaid interest, if any, to the date of the repurchase. Our failure to purchase, or give notice of purchase of, the notes would be a default under the indenture governing the notes. See Description of Notes Repurchase at the Option of Holders Change of Control.

If a change of control occurs, it is possible that we may not have sufficient assets at the time of the change of control to make the required repurchase of notes or to satisfy all obligations under our credit facility and the indenture governing the notes. In order to satisfy our obligations, we could seek to refinance any or all of our outstanding indebtedness or seek to obtain a waiver from the lenders under our credit facility or the holders of the notes. We cannot assure you that we would be able to obtain a waiver or refinance our indebtedness on terms acceptable to us, if at all.

We may not be able to generate sufficient cash to service all of our indebtedness, including the notes, and may be forced to take other actions to satisfy our obligations under our indebtedness, which may not be successful.

Our ability to make scheduled payments on or to refinance our debt obligations depends on our financial condition and operating performance, which is subject to prevailing economic and competitive conditions and to certain financial, business and other factors beyond our control. We may not be able to maintain a level of cash flows from operating activities sufficient to permit us to pay the principal, premium, if any, and interest on our indebtedness, including the notes.

Table of Contents

If our cash flows and capital resources are insufficient to fund our debt service obligations, we may be forced to reduce or delay investments and capital expenditures, or to sell assets, seek additional capital or restructure or refinance our indebtedness, including the notes. Our ability to restructure or refinance our debt will depend on the condition of the capital markets and our financial condition at such time. Any refinancing of our debt could be at higher interest rates and may require us to comply with more onerous covenants, which could further restrict our business operations. The terms of existing or future debt instruments and the indenture governing the notes may restrict us from adopting some of these alternatives. In addition, any failure to make payments of interest and principal on our outstanding indebtedness on a timely basis would likely result in a reduction of our credit rating, which could harm our ability to incur additional indebtedness. In the absence of such operating results and resources, we could face substantial liquidity problems and might be required to dispose of material assets or operations to meet our debt service and other obligations. The indenture governing the notes restricts our ability to dispose of assets and use the proceeds from the disposition. We may not be able to consummate those dispositions or to obtain the proceeds that we could realize from them and these proceeds may not be adequate to meet any debt service obligations then due. These alternative measures may not be successful and may not permit us to meet our debt service obligations.

The lenders under our credit facility have the discretion to release any guarantors under these facilities in a variety of circumstances, which will cause those guarantors to be released from their guarantees of the notes.

While any obligations under our credit facility remain outstanding, any guarantee of the notes may be released without action by, or consent of, any holder of the notes or the trustee under the indenture governing the notes, at the discretion of lenders under our senior secured credit facility, if the related guarantor is no longer a guarantor of obligations under our senior secured credit facility or any other indebtedness. See Description of Notes. The lenders under our credit facility have the discretion to release the guarantees under our credit facility in a variety of circumstances. Any of our subsidiaries that is released as a guarantor of our credit facility will automatically be released, as a guarantor of the notes. You will not have a claim as a creditor against any subsidiary that is no longer a guarantor of the notes, and the indebtedness and other liabilities, including trade payables, whether secured or unsecured, of those subsidiaries will effectively be senior to claims of noteholders.

DESCRIPTION OF NOTES

General

Certain terms used in this description are defined under the subheading **Certain Definitions**. In this description, (1) the term **Issuer** refers only to Kraton Polymers LLC, which is the issuer of the Notes and a Restricted Subsidiary; (2) the term **Kraton Capital** refers only to Kraton Polymers Capital Corporation, a Wholly-Owned Subsidiary of the Company with nominal assets and no operations and which is a co-issuer of the Notes and a Restricted Subsidiary; (3) the term **Issuers** refers to the Issuer and Kraton Capital; and (4) the term **Company** refers to Kraton Performance Polymers, Inc., the direct parent of the Issuer.

On February 11, 2011, the Issuers entered into an indenture (the **Indenture**) among the Issuers, the Guarantors and Wells Fargo Bank, National Association, as trustee (the **Trustee**), pursuant to which we issued on the same date \$250,000,000 aggregate principal amount of our 6.75% Senior Notes due 2019 (the **Existing Notes**). The \$100,000,000 aggregate principal amount of 6.75% Senior Notes due 2019 (the **Additional Notes**) to be issued in this offering constitutes a further issuance of the Existing Notes and forms a single series of debt securities for all purposes under the Indenture, including, without limitation, waivers, amendments, redemptions and offers to purchase, with the Existing Notes. The Additional Notes will have terms identical to the Existing Notes, other than issue date and offering price, and will have the same CUSIP number as, and will be fungible with and vote together with, the Existing Notes immediately upon settlement.

The Existing Notes were issued in a private transaction in reliance on Rule 144A under the Securities Act and were subsequently exchanged in full for identical notes on June 13, 2011 in a registered exchange offer under the Securities Act. The Indenture has been qualified as an indenture under the Trust Indenture Act. The Existing Notes are not, and the Additional Notes offered hereby will not be, subject to transfer restrictions, rights to additional interest or registration rights. Upon completion of this offering, the aggregate principal amount of outstanding 6.75% Senior Notes due 2019 will be \$350,000,000. Accordingly, the \$100,000,000 aggregate principal amount of Notes offered hereby will carry only 28.57% of the total voting power of the \$350,000,000 aggregate principal amount of notes to be outstanding after this offering. Unless the context requires otherwise, references to the **Notes** in this section of the prospectus supplement include the Existing Notes, the Additional Notes offered hereby and any further additional notes that may be issued under the Indenture. The terms of the Additional Notes will include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act.

The following description is only a summary of the material provisions of the Indenture, does not purport to be complete and is qualified in its entirety by reference to the provisions of the Indenture, including the definitions therein of certain terms used below. As described in the prospectus, this description summarizes certain of the terms and provisions of the Notes, supplementing the description set forth in the accompanying prospectus under the caption **Description of Notes**. We urge you to read the Indenture because it, and not this description, will define your rights as Holders of the Notes. You may request copies of the Indenture at our address set forth under **Where You Can Find More Information**.

Brief Description of Notes

The Notes:

will be general, unsecured, senior obligations of the Issuers;

will be *pari passu* in right of payment with all existing and future unsubordinated Indebtedness (including the Senior Credit Facilities) of the Issuers;

will be effectively subordinated to all Secured Indebtedness of the Issuers (including the Senior Credit Facilities), to the extent of the value of the collateral securing such Secured Indebtedness;

Table of Contents

will be effectively subordinated to all existing and future Indebtedness, claims of holders of Preferred Stock and other liabilities of Subsidiaries of the Company (other than Kraton Capital) that do not guarantee the Notes;

will be senior in right of payment to all existing and future Subordinated Indebtedness of the Issuers; and

will be unconditionally guaranteed on a senior unsecured basis initially by Parent and the Subsidiary Guarantors and will also be guaranteed in the future by each Subsidiary of the Company, if any, that guarantees Indebtedness under the Senior Credit Facilities.

Guarantees

The Guarantors, as primary obligors and not merely as sureties, will initially jointly and severally, irrevocably and unconditionally, guarantee, on an unsecured senior basis, the full and punctual payment when due, whether at maturity, by acceleration or otherwise, of all obligations of the Issuer under the Indenture and the Notes, whether for payment of principal of, premium, if any, or interest on the Notes, expenses, indemnification or otherwise, on the terms set forth in the Indenture by executing the Indenture.

The Guarantors will initially guarantee the Notes and, in the future, each direct and indirect Restricted Subsidiary of the Company that guarantees Indebtedness of the Issuer under the Senior Credit Facilities will, subject to certain exceptions, guarantee the Notes. Each of the Guarantees of the Notes will be a general, unsecured senior obligation of each Guarantor, will be *pari passu* in right of payment with all existing and future unsubordinated Indebtedness of such Guarantor (including such Guarantor's guarantee of the Senior Credit Facilities), will be effectively subordinated to all Secured Indebtedness of such Guarantor (including such Guarantor's guarantee of the Senior Credit Facilities), to the extent of the value of the collateral securing such Secured Indebtedness, and will be senior in right of payment to all existing and future Subordinated Indebtedness of such Guarantor. Each of the Guarantees of the Notes will be effectively subordinated to all existing and future Indebtedness, claims of holders of Preferred Stock and other liabilities of Subsidiaries of each Guarantor that do not guarantee the Notes.

Not all of the Company's Subsidiaries will guarantee the Notes. In the event of a bankruptcy, liquidation, reorganization or similar proceeding of any of these non-guarantor Subsidiaries, the non-guarantor Subsidiaries will pay the holders of their debt and their trade creditors before they will be able to distribute any of their assets to the Issuers or a Guarantor. As a result, all of the existing and future liabilities of our non-guarantor Subsidiaries, including any claims of trade creditors, will be effectively senior to the Notes. The Indenture does not limit the amount of liabilities that are not considered Indebtedness which may be incurred by the Company or its Restricted Subsidiaries, including the non-Guarantors. As of December 31, 2011, the non-guarantor Subsidiaries of the Issuer accounted for approximately \$779.3 million, or 54.2% of the Issuer's consolidated operating revenue and \$483.2 million, or 41.9% of the Issuer's consolidated total assets. See Risk Factors Risk Factors Relating to the Notes. The additional notes will be unsecured and will be effectively subordinated to our and the guarantors' senior secured indebtedness and indebtedness of our non-guarantor subsidiaries.

The obligations of each Guarantor under its Guarantee will be limited as necessary to prevent the Guarantee from constituting a fraudulent conveyance under applicable law. This provision may not, however, be effective to protect a Guarantee from being voided under fraudulent transfer law, or may reduce the applicable Guarantor's obligation to an amount that effectively makes its Guarantee worthless. If a Guarantee was rendered voidable, it could be subordinated by a court to all other indebtedness (including guarantees and other contingent liabilities) of the Guarantor, and, depending on the amount of such indebtedness, a Guarantor's liability on its Guarantee could be reduced to zero. See Risk Factors Risk Factors Relating to the Notes. Under certain circumstances a court could cancel the additional notes or the related guarantees under fraudulent conveyance laws.

Table of Contents

Any Guarantor that makes a payment under its Guarantee will be entitled upon payment in full of all guaranteed obligations under the Indenture to a contribution from each other Guarantor in an amount equal to such other Guarantor's pro rata portion of such payment based on the respective net assets of all the Guarantors at the time of such payment determined in accordance with GAAP.

Each Subsidiary Guarantor may consolidate with or merge into or sell all or substantially all its assets to the Company, the Issuer or another Guarantor without limitation or any other Person upon the terms and conditions set forth in the Indenture. See Certain Covenants Merger, Consolidation or Sale of All or Substantially All Assets.

Each Guarantee by a Guarantor will provide by its terms that it will be automatically and unconditionally released and discharged upon:

(1) (a) any sale, exchange or transfer (by merger, amalgamation, consolidation or otherwise) of (i) the Capital Stock of such Guarantor, after which the applicable Guarantor is no longer a Restricted Subsidiary or (ii) all or substantially all the assets of such Guarantor, in each case if such sale, exchange or transfer is made in compliance with the applicable provisions of the Indenture;

(b) the release or discharge of the guarantee by such Guarantor of Indebtedness under the Senior Credit Facilities, or such other guarantee that resulted in the creation of such Guarantee, except a discharge or release by or as a result of payment under such guarantee (it being understood that a release subject to a contingent reinstatement is still a release, and that if any such Guarantee is so reinstated, such Guarantee shall also be reinstated to the extent that such Guarantor would then be required to provide a Guarantee pursuant to the covenant described under Certain Covenants Limitation on Guarantees of Indebtedness by Restricted Subsidiaries);

(c) the designation of any Restricted Subsidiary that is a Guarantor as an Unrestricted Subsidiary in compliance with the applicable provisions of the Indenture; or

(d) the exercise by the Issuers of their legal defeasance option or covenant defeasance option as described under Legal Defeasance and Covenant Defeasance or the discharge of the Issuers' obligations under the Indenture in accordance with the terms of the Indenture; and

(2) such Guarantor delivering to the Trustee an Officer's Certificate and an Opinion of Counsel, each stating that all conditions precedent provided for in the Indenture relating to such transaction have been complied with.

Ranking

The payment of the principal of, premium, if any, and interest on the Notes and the payment of any Guarantee will be *pari passu* in right of payment to all existing and future unsubordinated Indebtedness of the Issuers or the relevant Guarantor, as the case may be, including the obligations of the Issuers and such Guarantor under the Senior Credit Facilities.

The Notes and the Guarantees will be effectively subordinated in right of payment to all of the Issuers' and the Guarantors' existing and future Secured Indebtedness to the extent of the value of the collateral securing such Secured Indebtedness. As of December 31, 2011, the Issuers and the Guarantors had \$142.5 million of Secured Indebtedness outstanding, consisting of borrowings and the related guarantees under the Senior Credit Facilities. As of December 31, 2011, as adjusted to give effect to this offering of the Notes, the Issuers would also have had (1) an additional \$200 million of borrowing capacity under the revolving credit facility under the Senior Credit Facilities, which, if borrowed, would be Secured Indebtedness and (2) the option, subject to lender

Table of Contents

commitments, to raise \$125 million of incremental term loans or increased revolving credit commitments under the Senior Credit Facilities, subject to compliance with the financial covenants contained in the Senior Credit Facilities, which, if borrowed, would be Secured Indebtedness.

Although the Indenture contains limitations on the amount of additional Indebtedness that the Issuer and the Issuer's Restricted Subsidiaries (including the Guarantors) may incur, under certain circumstances the amount of such Indebtedness could be substantial and under certain circumstances such Indebtedness may be secured. See **Certain Covenants** **Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock**.

Paying Agent and Registrar for the Notes

The Issuers will maintain one or more paying agents for the Notes. The initial paying agent for the Notes will be the Trustee.

The Issuers will also maintain one or more registrars and a transfer agent. The initial registrar and transfer agent with respect to the Notes will be the Trustee. The registrar will maintain a register reflecting ownership of the Notes outstanding from time to time. The registered Holder of a Note will be treated as the owner of the Note for all purposes. The transfer agent will make payments on and facilitate transfer of Notes on behalf of the Issuer.

The Issuers may change the paying agent, the registrar or the transfer agent without prior notice to the Holders. The Issuer or any of its Subsidiaries may act as a paying agent, registrar or transfer agent.

Transfer and Exchange

A Holder may transfer or exchange the Notes in accordance with the Indenture. The registrar and the Trustee may require a Holder to furnish appropriate endorsements and transfer documents in connection with a transfer of Notes. Holders will be required to pay all taxes due on transfer. The Issuers will not be required to transfer or exchange any Note selected for redemption or tendered (and not withdrawn) for repurchase in connection with a Change of Control Offer or an Asset Sale Offer (both defined below). Also, the Issuers will not be required to transfer or exchange any Note for a period of 15 days before a selection of Notes to be redeemed.

Principal, Maturity and Interest

The Issuers issued an aggregate principal amount of \$250.0 million of Notes in the original issuance on February 11, 2011 and will issue an aggregate principal amount of \$100.0 million of Notes in this offering. The Notes will mature on March 1, 2019. Subject to compliance with the covenant described below under **Certain Covenants** **Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock**, the Issuers may issue further additional Notes from time to time after this offering under the Indenture (*further additional notes*). The Existing Notes, the Additional Notes offered by the Issuers, and any further additional notes subsequently issued under the Indenture will be treated as a single class for all purposes under the Indenture, including waivers, amendments, redemptions and offers to purchase, except for certain waivers and amendments. Unless the context requires otherwise, references to **Notes** for all purposes of the Indenture and this **Description of Notes** include any Notes that are actually issued. The Notes will be issued in denominations of \$2,000 and any integral multiples of \$1,000 in excess of \$2,000.

Interest on the Notes will accrue at the rate of 6.75% per annum. Interest on the Notes will be payable semi-annually in arrears on each March 1, and September 1, commencing September 1, 2012 to the Holders of Notes of record on the immediately preceding February 15 and August 15. Interest on the Notes will accrue from the most recent date to which interest has been paid or, if no interest has been paid from and including the last occurring interest payment date on the existing notes. Interest on the Notes will be computed on the basis of a 360-day year comprised of twelve 30-day months.

Table of Contents**Payment of Principal, Premium and Interest**

Payments of principal of, premium, if any, and interest on the Notes will be payable at the office or agency of the Issuers maintained for such purpose or, at the option of the Issuers, payment of interest may be made by check mailed to the Holders of the Notes at their respective addresses set forth in the register of Holders; *provided* that (1) all payments of principal, premium, if any, and interest with respect to the Notes represented by one or more global notes registered in the name of or held by DTC or its nominee will be made by wire transfer of immediately available funds to the accounts specified by the Holder or Holders thereof and (2) all payments of principal, premium, if any, and interest with respect to certificated Notes will be made by wire transfer to a U.S. dollar account maintained by the payee with a bank in the United States if such Holder elects payment by wire transfer by giving written notice to the Trustee or the paying agent to such effect designating such account no later than 30 days immediately preceding the relevant due date for payment (or such other date as the Trustee may accept in its discretion). Until otherwise designated by the Issuers, the Issuers' office or agency will be the office of the Trustee maintained for such purpose.

Mandatory Redemption; Offers to Purchase; Open Market Purchases

The Issuers will not be required to make any mandatory redemption or sinking fund payments with respect to the Notes. However, under certain circumstances, the Issuers may be required to offer to purchase Notes as described under Repurchase at the Option of Holders. The Issuers may at any time and from time to time purchase Notes in the open market or otherwise.

Optional Redemption

Except as set forth below, the Issuers will not be entitled to redeem the Notes at their option prior to March 1, 2015.

At any time prior to March 1, 2015, the Issuers may redeem all or a part of the Notes, upon notice as described under Selection and Notice, at a redemption price equal to 100.0% of the principal amount of the Notes redeemed plus the Applicable Premium as of, plus accrued and unpaid interest, if any, to the date of redemption (the *Redemption Date*), subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date.

On and after March 1, 2015, the Issuers may redeem the Notes, in whole or in part, upon notice as described under Selection and Notice, at the redemption prices (expressed as percentages of principal amount of the Notes to be redeemed) set forth below, plus accrued and unpaid interest, if any, to the Redemption Date, subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date, if redeemed during the twelve-month period beginning on March 1, of each of the years indicated below:

Year	Pay Senior Notes Percentage
2015	103.375%
2016	101.688%
2017 and thereafter	100.000%

In addition, before March 1, 2014, the Issuers may, at their option, on one or more occasions, redeem up to 35.0% of the aggregate principal amount of Notes issued under the Indenture at a redemption price equal to 106.75% of the aggregate principal amount thereof, plus accrued and unpaid interest, if any, to the Redemption Date, subject to the right of Holders of Notes of record on the relevant record date to receive interest due on the relevant interest payment date, with the net cash proceeds received by it from one or more Equity Offerings; *provided* that (a) at least 65.0% of the sum of the aggregate principal amount of Notes originally issued under the

Table of Contents

Indenture on the Issue Date, the Additional Notes, and any further additional notes issued under the Indenture after the Issue Date remains outstanding immediately after the occurrence of each such redemption; and (b) each such redemption occurs within 120 days of the date of closing of each such Equity Offering.

Notice of any redemption upon any Equity Offering may be given prior to the completion thereof, and any such redemption or notice may, at the Issuers' discretion, be subject to one or more conditions precedent, including, but not limited to, completion of the related Equity Offering.

Selection and Notice

If the Issuers are redeeming less than all of the Notes issued under the Indenture at any time, the Trustee will select the Notes to be redeemed (1) if the Notes are listed on an exchange, in compliance with the requirements of such exchange or (2) on a pro rata basis (or in case of global notes, on as nearly a pro rata basis as is practicable, subject to the procedures of DTC), or, if the pro rata basis is not practicable for any reason, by lot or by such other method as the Trustee shall deem fair and appropriate. No Notes of \$2,000 or less can be redeemed in part.

Notices of redemption shall be delivered electronically or mailed by first-class mail, postage prepaid, at least 30 but not more than 60 days before the redemption date to each Holder of the Notes at such Holder's registered address or otherwise in accordance with the procedures of DTC, except that redemption notices may be delivered more than 60 days prior to a redemption date if the notice is issued in connection with a defeasance of the Notes or a satisfaction and discharge of the Indenture. If any Note is to be redeemed in part only, any notice of redemption that relates to such Note shall state the portion of the principal amount thereof that has been or is to be redeemed.

With respect to the Notes represented by certificated notes, the Issuers will issue a new Note in a principal amount equal to the unredeemed portion of the original Note in the name of the Holder upon cancellation of the original Note. Notes called for redemption become due on the date fixed for redemption. On and after the Redemption Date, interest ceases to accrue on Notes or portions of them called for redemption.

Repurchase at the Option of Holders

Change of Control

The Indenture provides that if a Change of Control occurs, unless the Issuers have previously or concurrently delivered a redemption notice with respect to all the outstanding Notes as described under *Optional Redemption*, the Issuers will make an offer to purchase all of the Notes pursuant to the offer described below (the *Change of Control Offer*) at a price in cash (the *Change of Control Payment*) equal to 101.0% of the aggregate principal amount thereof plus accrued and unpaid interest, if any, to the date of purchase, subject to the right of Holders of the Notes of record on the relevant record date to receive interest due on the relevant interest payment date. Within 30 days following any Change of Control, the Issuers will deliver notice of such Change of Control Offer electronically or by first-class mail, with a copy to the Trustee, to each Holder of Notes to the address of such Holder appearing in the security register or otherwise in accordance with the procedures of DTC with the following information:

- (1) that a Change of Control Offer is being made pursuant to the covenant entitled *Change of Control*, and that all Notes properly tendered pursuant to such Change of Control Offer will be accepted for payment by the Issuers;
- (2) the purchase price and the purchase date, which will be no earlier than 30 days nor later than 60 days from the date such notice is delivered (the *Change of Control Payment Date*);
- (3) that any Note not properly tendered will remain outstanding and continue to accrue interest;

Table of Contents

(4) that unless the Issuers default in the payment of the Change of Control Payment, all Notes accepted for payment pursuant to the Change of Control Offer will cease to accrue interest on the Change of Control Payment Date;

(5) that Holders electing to have any Notes purchased pursuant to a Change of Control Offer will be required to surrender such Notes, with the form entitled "Option of Holder to Elect Purchase" on the reverse of such Notes completed, to the paying agent specified in the notice at the address specified in the notice prior to the close of business on the third Business Day preceding the Change of Control Payment Date;

(6) that Holders will be entitled to withdraw their tendered Notes and their election to require the Issuers to purchase such Notes, *provided* that the paying agent receives, not later than the close of business on the expiration date of the Change of Control Offer, a telegram, facsimile transmission or letter setting forth the name of the Holder of the Notes, the principal amount of Notes tendered for purchase, and a statement that such Holder is withdrawing its tendered Notes and its election to have such Notes purchased;

(7) that Holders whose Notes are being purchased only in part will be issued new Notes and such new Notes will be equal in principal amount to the unpurchased portion of the Notes surrendered. The unpurchased portion of the Notes must be equal to at least \$2,000 or any integral multiple of \$1,000 in excess of \$2,000;

(8) if such notice is delivered prior to the occurrence of a Change of Control, that the Change of Control Offer is conditional on the occurrence of such Change of Control; and

(9) the other instructions, as determined by the Issuers, consistent with the covenant described hereunder, that a Holder must follow.

The Issuer will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws or regulations are applicable in connection with the repurchase of Notes pursuant to a Change of Control Offer. To the extent that the provisions of any securities laws or regulations conflict with the provisions of the Indenture, the Issuers will comply with the applicable securities laws and regulations and shall not be deemed to have breached its obligations described in the Indenture by virtue thereof.

On the Change of Control Payment Date, the Issuers will, to the extent permitted by law:

(1) accept for payment all Notes issued by it or portions thereof properly tendered pursuant to the Change of Control Offer;

(2) deposit with the paying agent an amount equal to the aggregate Change of Control Payment in respect of all Notes or portions thereof so tendered; and

(3) deliver, or cause to be delivered, to the Trustee for cancellation the Notes so accepted together with an Officer's Certificate to the Trustee stating that such Notes or portions thereof have been tendered to and purchased by the Issuers.

The Senior Credit Facilities will, and future credit agreements or other agreements relating to Indebtedness to which the Issuers becomes a party may, provide that certain change of control events with respect to the Issuers would constitute a default thereunder (including a Change of Control under the Indenture). If we experience a change of control that triggers a default under the Senior Credit Facilities, we could seek a waiver of such default or seek to refinance the Senior Credit Facilities. In the event we do not obtain such a waiver or refinance the Senior Credit Facilities, such default could result in amounts outstanding under the Senior Credit Facilities being declared due and payable.

Table of Contents

Our ability to pay cash to the Holders of Notes following the occurrence of a Change of Control may be limited by our then-existing financial resources. Therefore, sufficient funds may not be available when necessary to make any required repurchases.

The Change of Control purchase feature of the Notes may in certain circumstances make more difficult or discourage a sale or takeover of us and, thus, the removal of incumbent management. The Change of Control purchase feature is a result of negotiations between the Underwriters and us. After the Issue Date, we have no present intention to engage in a transaction involving a Change of Control, although it is possible that we could decide to do so in the future. Subject to the limitations discussed below, we could, in the future, enter into certain transactions, including acquisitions, refinancings or other recapitalizations, that would not constitute a Change of Control under the Indenture, but that could increase the amount of Indebtedness outstanding at such time or otherwise affect our capital structure or credit ratings. Restrictions on our ability to incur additional Indebtedness are contained in the covenants described under **Certain Covenants Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock** and **Certain Covenants Liens**. Such restrictions in the Indenture can be waived only with the consent of the Holders of a majority in principal amount of the Notes then outstanding. Except for the limitations contained in such covenants, however, the Indenture does not contain any covenants or provisions that may afford Holders of the Notes protection in the event of a highly leveraged transaction.

The Issuers will not be required to make a Change of Control Offer following a Change of Control if a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by the Issuers and purchases all Notes validly tendered and not withdrawn under such Change of Control Offer.

Notwithstanding anything to the contrary herein, a Change of Control Offer may be made in advance of a Change of Control, conditional upon such Change of Control, if a definitive agreement is in place for the Change of Control at the time of making of the Change of Control Offer.

The definition of **Change of Control** includes a disposition of all or substantially all of the assets of the Issuer and its Subsidiaries, taken as a whole, to any Person. Although there is a limited body of case law interpreting the phrase **substantially all**, there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve a disposition of **all or substantially all** of the assets of the Issuer and its Subsidiaries, taken as a whole. As a result, it may be unclear as to whether a Change of Control has occurred and whether a Holder of Notes may require the Issuers to make an offer to repurchase the Notes as described above.

The provisions under the Indenture relative to the Issuers' obligation to make an offer to repurchase the Notes as a result of a Change of Control may be waived or modified with the written consent of the Holders of a majority in principal amount of the Notes then outstanding.

Asset Sales

The Indenture provides that the Company will not, and will not permit any of its Restricted Subsidiaries to, consummate an Asset Sale, unless:

(1) the Company or such Restricted Subsidiary, as the case may be, receives consideration at the time of such Asset Sale at least equal to the fair market value of the assets sold or otherwise disposed of; and

Table of Contents

(2) except in the case of a Permitted Asset Swap, at least 75.0% of the consideration therefor received by the Company or such Restricted Subsidiary, as the case may be, is in the form of Cash Equivalents; *provided* that the amount of:

(a) any liabilities (as shown on the Company's or such Restricted Subsidiary's most recent balance sheet or in the footnotes thereto) of the Company or such Restricted Subsidiary, other than liabilities that are by their terms subordinated to the Notes, that are assumed by the transferee of any such assets and for which the Company and all of its Restricted Subsidiaries have been validly released by all creditors in writing;

(b) any securities, notes or other obligations or assets received by the Company or such Restricted Subsidiary from such transferee that are converted by the Company or such Restricted Subsidiary into Cash Equivalents (to the extent of the Cash Equivalents received) within 180 days following the closing of such Asset Sale; and

(c) any Designated Non-cash Consideration received by the Company or such Restricted Subsidiary in such Asset Sale having an aggregate fair market value, taken together with all other Designated Non-cash Consideration received pursuant to this clause (c) that is at that time outstanding, not to exceed the greater of (x) \$30.0 million and (y) 2.50% of Total Assets at the time of the receipt of such Designated Non-cash Consideration, with the fair market value of each item of Designated Non-cash Consideration being measured at the time received and without giving effect to subsequent changes in value,

shall be deemed to be Cash Equivalents for purposes of this provision and for no other purpose.

Within 450 days after the receipt of any Net Proceeds of any Asset Sale, the Company or such Restricted Subsidiary, at its option, may apply the Net Proceeds from such Asset Sale,

(1) to permanently reduce:

(a) Obligations under the Senior Credit Facilities, and to correspondingly reduce commitments with respect thereto;

(b) Obligations under Senior Indebtedness, other than Senior Indebtedness owed to the Company or a Restricted Subsidiary, that is secured by a Lien, which Lien is permitted by the Indenture, and to correspondingly reduce commitments with respect thereto;

(c) Obligations under other Senior Indebtedness (and to correspondingly reduce commitments with respect thereto), other than Senior Indebtedness owed to the Company or a Restricted Subsidiary; *provided* that the Company shall equally and ratably reduce Obligations under the Notes as provided under Optional Redemption or through open-market purchases (to the extent such purchases are at or above 100.0% of the principal amount thereof) or by making an offer (in accordance with the procedures set forth below for an Asset Sale Offer) to all Holders to purchase their Notes at 100.0% of the principal amount thereof, plus the amount of accrued but unpaid interest, if any, on the amount of Notes to be repurchased; or

(d) Indebtedness of a Restricted Subsidiary that is not a Guarantor (and to correspondingly reduce commitments with respect thereto), other than Indebtedness owed to the Company or another Restricted Subsidiary;

(2) to make (a) an Investment in any one or more businesses, *provided* that such Investment in any business is in the form of the acquisition of Capital Stock and results in the Company or any of its

Restricted Subsidiaries, as the case may be, owning an amount of the Capital Stock of such business such that it constitutes a Restricted Subsidiary, (b) capital expenditures or (c) acquisitions of other assets, in the case of each of (a), (b) and (c), used or useful in a Similar Business; or

(3) to make an Investment in (a) any one or more businesses, *provided* that such Investment in any business is in the form of the acquisition of Capital Stock and results in the Company or any of its Restricted Subsidiaries, as the case may be, owning an amount of the Capital Stock of such business such that it constitutes a Restricted Subsidiary, (b) properties or (c) acquisitions of other assets, that, in the case of each of (a), (b) and (c), replace the businesses, properties and/or assets that are the subject of such Asset Sale;

provided that, in the case of clauses (2) and (3) above, a binding commitment entered into not later than such 450th day shall extend the period for such Investment or other payment for an additional 180 days after the end of such 450-day period so long as the Company or such Restricted Subsidiary enters into such commitment with the good faith expectation that such Net Proceeds will be applied to satisfy such commitment within 180 days of such commitment (an *Acceptable Commitment*) and, in the event any Acceptable Commitment is later cancelled or terminated for any reason before such Net Proceeds are applied in connection therewith, the Company or such Restricted Subsidiary enters into another Acceptable Commitment (a *Second Commitment*) within such 180-day period; *provided, further* that (x) if any Second Commitment is later cancelled or terminated for any reason before such Net Proceeds are applied or (y) such Net Proceeds are not actually so invested or paid in accordance with (2) and (3) above by the end of such 180-day period, then such Net Proceeds shall constitute Excess Proceeds on the date of such cancellation or termination, or such 180th day, as applicable.

Any Net Proceeds from the Asset Sale that are not invested or applied as provided and within the time period set forth in the preceding paragraph will be deemed to constitute Excess Proceeds. When the aggregate amount of Excess Proceeds exceeds \$40.0 million, the Company shall make an offer to all Holders of the Notes and, if required by the terms of any Indebtedness that is *pari passu* with the Notes (*Pari Passu Indebtedness*), to the holders of such *Pari Passu Indebtedness* (an *Asset Sale Offer*), to purchase the maximum aggregate principal amount of the Notes and such *Pari Passu Indebtedness* that is in an amount equal to at least \$2,000, that may be purchased out of the Excess Proceeds at an offer price in cash in an amount equal to 100.0% of the principal amount thereof (or accreted value thereof, if less), plus accrued and unpaid interest, if any, to the date fixed for the closing of such offer, in accordance with the procedures set forth in the Indenture. The Company will commence an Asset Sale Offer with respect to Excess Proceeds within ten Business Days after the date that Excess Proceeds exceed \$40.0 million by delivering the notice required pursuant to the terms of the Indenture, with a copy to the Trustee. The Company may satisfy the foregoing obligations with respect to any Net Proceeds from an Asset Sale by making an Asset Sale Offer with respect to such Net Proceeds prior to the expiration of the relevant 450 days (or such longer period provided above) or with respect to Excess Proceeds of \$40.0 million or less.

To the extent that the aggregate amount of Notes and such *Pari Passu Indebtedness* tendered pursuant to an Asset Sale Offer is less than the Excess Proceeds, the Company may use any remaining Excess Proceeds for general corporate purposes, subject to other covenants contained in the Indenture. If the aggregate principal amount of Notes or the *Pari Passu Indebtedness* surrendered by such holders thereof exceeds the amount of Excess Proceeds, the Trustee shall select the Notes and the Company shall select such *Pari Passu Indebtedness* to be purchased on a *pro rata* basis based on the accreted value or principal amount of the Notes or such *Pari Passu Indebtedness* tendered. Upon completion of any such Asset Sale Offer, the amount of Excess Proceeds that resulted in the Asset Sale Offer shall be reset to zero.

Pending the final application of any Net Proceeds pursuant to this covenant, the holder of such Net Proceeds may apply such Net Proceeds temporarily to reduce Indebtedness outstanding under a revolving credit facility or otherwise invest such Net Proceeds in any manner not prohibited by the Indenture.

(18) Indebtedness consisting of Indebtedness issued by the Company or any of its Restricted Subsidiaries to future, present or former employees, directors, officers, managers and consultants thereof, their respective Controlled Investment Affiliates or Immediate Family Members, in each case to finance the purchase or redemption of Equity Interests of the Company or any direct or indirect parent company of the Company to the extent described in clause (4) of the second paragraph under Limitation on Restricted Payments ;

understood that any Indebtedness incurred pursuant to this clause (23) shall cease to be deemed incurred or outstanding for the purpose of this clause (23) but shall be deemed incurred for the purposes of the first paragraph of this covenant from and after the first date on which the Issuer or such Restricted Subsidiaries could have incurred such Indebtedness under the first paragraph of this covenant without reliance on this clause (23));

(24) Indebtedness, Disqualified Stock or Preferred Stock of a Restricted Subsidiary incurred or issued to finance or assumed in connection with an acquisition in a principal amount not to exceed \$20.0 million in the aggregate at any one time outstanding together with all other Indebtedness, Disqualified Stock and/or Preferred Stock incurred or issued under this clause (24) (it being understood that any Indebtedness, Disqualified Stock or Preferred Stock incurred pursuant to this clause (24) shall cease to be deemed incurred, issued or outstanding for purposes of this clause (24) but shall be deemed incurred for the purposes of the first paragraph of this covenant from and after the first date on which such Restricted Subsidiary could have incurred such Indebtedness, Disqualified Stock or Preferred Stock under the first paragraph of this covenant without reliance on this clause (24)); and

(25) Indebtedness of the Company or any of its Restricted Subsidiaries undertaken in connection with cash management and related activities with respect to any Subsidiary or joint venture in the ordinary course of business.

For purposes of determining compliance with this covenant:

(1) in the event that an item of Indebtedness, Disqualified Stock or Preferred Stock (or any portion thereof) meets the criteria of more than one of the categories of Permitted Indebtedness, Disqualified Stock or Preferred Stock described in clauses (1) through (25) above or is entitled to be incurred pursuant to the first paragraph of this covenant, the Company, in its sole discretion, will classify or reclassify such item of Indebtedness, Disqualified Stock or Preferred Stock (or any portion thereof) and will only be required to include the amount and type of such Indebtedness, Disqualified Stock or Preferred Stock in one of the above clauses or under the first paragraph of this covenant; *provided* that all Indebtedness outstanding under the Senior Credit Facilities on the Issue Date will be treated as incurred on the Issue Date under clause (1) of the second paragraph above; and

(2) at the time of incurrence, the Company will be entitled to divide and classify an item of Indebtedness in more than one of the types of Indebtedness described in the first and second paragraphs above.

Accrual of interest or dividends, the accretion of accreted value, the accretion or amortization of original issue discount and the payment of interest or dividends in the form of additional Indebtedness, Disqualified Stock or Preferred Stock, as the case may be, of the same class will not be deemed to be an incurrence or issuance of Indebtedness, Disqualified Stock or Preferred Stock for purposes of this covenant.

For purposes of determining compliance with any U.S. dollar-denominated restriction on the incurrence of Indebtedness, the U.S. dollar-equivalent principal amount of Indebtedness denominated in a foreign currency shall be calculated based on the relevant currency exchange rate in effect on the date such Indebtedness was incurred, in the case of term debt, or first committed, in the case of revolving credit debt; *provided* that if such Indebtedness is incurred to refinance other Indebtedness denominated in a foreign currency, and such refinancing would cause the applicable U.S. dollar-denominated restriction to be exceeded if calculated at the relevant currency exchange rate in effect on the date of such refinancing, such U.S. dollar-denominated restriction shall be deemed not to have been exceeded so long as the principal amount of such refinancing Indebtedness does not exceed (i) the principal amount of such Indebtedness being refinanced plus (ii) the aggregate amount of fees, underwriting discounts, premiums and other costs and expenses incurred in connection with such refinancing.

Table of Contents

The principal amount of any Indebtedness incurred to refinance other Indebtedness, if incurred in a different currency from the Indebtedness being refinanced, shall be calculated based on the currency exchange rate applicable to the currencies in which such respective Indebtedness is denominated that is in effect on the date of such refinancing.

The Indenture provides that the Issuers will not, and will not permit any Subsidiary Guarantor to, directly or indirectly, incur any Indebtedness (including Acquired Indebtedness) that is subordinated or junior in right of payment to any Indebtedness of the Issuers or such Subsidiary Guarantor, as the case may be, unless such Indebtedness is expressly subordinated in right of payment to the Notes or such Subsidiary Guarantor's Guarantee to the extent and in the same manner as such Indebtedness is subordinated to other Indebtedness of the Company or such Subsidiary Guarantor, as the case may be. The Indenture does not treat (1) unsecured Indebtedness as subordinated or junior to Secured Indebtedness merely because it is unsecured or (2) Indebtedness as subordinated or junior to any other Indebtedness merely because it has a junior priority with respect to the same collateral.

Liens

The Company and the Issuers will not, and will not permit any Subsidiary Guarantor to, directly or indirectly, create, incur, assume or suffer to exist any Lien (except Permitted Liens) that secures Obligations under any Indebtedness or any related Guarantee of Indebtedness, on any asset or property of the Company, the Issuers or any Subsidiary Guarantor, or any income or profits therefrom, or assign or convey any right to receive income therefrom, unless:

(1) in the case of Liens securing Subordinated Indebtedness, the Notes and related Guarantees are secured by a Lien on such property, assets or proceeds that is senior in priority to such Liens; and

(2) in all other cases, the Notes or the Guarantees are equally and ratably secured,

except that the foregoing shall not apply to (a) Liens securing the Notes and the related Guarantees, (b) Liens securing (x) Indebtedness and other Obligations permitted to be incurred under Credit Facilities, including any letter of credit facility relating thereto, that was incurred pursuant to clause (1) of the second paragraph under Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock and (y) obligations of the Company or any Subsidiary in respect of any Bank Products and Hedging Obligations provided by any lender party to any Senior Credit Facility or any Affiliate of such lender (or any Person that was a lender or an Affiliate of a lender at the time the applicable agreements pursuant to which such Bank Products are provided were entered into) and (c) Indebtedness permitted to be incurred under the covenant described above under Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock ; *provided that*, with respect to Liens securing Indebtedness permitted under this subclause (c), at the time of incurrence and after giving *pro forma* effect thereto, the Senior Secured Net Leverage Ratio would be no greater than 2.75:1.00.

Merger, Consolidation or Sale of All or Substantially All Assets

(A) Neither Issuer may, and the Company may not permit any Issuer to, consolidate or merge with or into or wind up into (whether or not such Issuer is the surviving Person), or sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of its properties or assets, in one or more related transactions, to any Person unless:

(1) such Issuer is the surviving Person or the Person formed by or surviving any such consolidation or merger (if other than such Issuer) or to which such sale, assignment, transfer, lease, conveyance or other disposition will have been made, is a Person organized or existing under the laws of the United States, any state thereof, the District of Columbia, or any territory thereof (such Person,

as the case may be, being herein called the *Successor Issuer*); *provided* that in the case where the surviving Person is not a corporation, a co-obligor of the Notes is a corporation organized or existing under such laws;

(2) the Successor Issuer, if other than such Issuer, expressly assumes all the obligations of such Issuer under the Notes pursuant to supplemental indentures or other documents or instruments;

(3) immediately after such transaction, no Default exists;

(4) immediately after giving *pro forma* effect to such transaction and any related financing transactions, as if such transactions had occurred at the beginning of the applicable four-quarter period,

(a) the Successor Issuer or, if such Issuer is the surviving Person, such Issuer, would be permitted to incur at least \$1.00 of additional Indebtedness pursuant to the Fixed Charge Coverage Test, or

(b) the Fixed Charge Coverage Ratio for the Company and its Restricted Subsidiaries would be greater than the Fixed Charge Coverage Ratio for the Company and its Restricted Subsidiaries immediately prior to such transaction;

(5) each Guarantor, unless it is the other party to the transactions described above, in which case clause (1)(b) of paragraph (C) shall apply, shall have by supplemental indenture confirmed that its Guarantee shall apply to such Person's obligations under the Indenture and the Notes; and

(6) such Issuer shall have delivered to the Trustee an Officer's Certificate and an Opinion of Counsel, each stating that such consolidation, merger or transfer and such supplemental indentures, if any, comply with the Indenture.

The Successor Issuer will succeed to, and be substituted for, such Issuer under the Indenture, the Guarantees and the Notes, as applicable. Notwithstanding the immediately preceding clauses (3) and (4) of paragraph (A),

(1) any Restricted Subsidiary may consolidate with or merge into or transfer all or part of its properties and assets to an Issuer, and

(2) an Issuer may merge with an Affiliate of the Company (other than with the other Issuer) solely for the purpose of reincorporating such Issuer in the United States, any state thereof, the District of Columbia, or any territory thereof so long as the amount of Indebtedness of such Issuer and the Restricted Subsidiaries is not increased thereby.

Notwithstanding anything to the contrary in the foregoing, the covenant described in this paragraph (A) shall not apply in the event that any Issuer in its sole discretion converts into a limited liability company existing under the laws of the jurisdiction of organization of such Issuer and undertakes any transactions related or incidental thereto at any time after the Closing Date; *provided* that in the case of such conversion, a co-obligor of the Notes is a corporation.

(B) The Company may not consolidate or merge with or into or wind up into (whether or not the Company is the surviving corporation), or sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of its properties or assets, in one or more related transactions, to any Person unless:

(1) the Company is the surviving corporation or the Person formed by or surviving any such consolidation or merger (if other than the Company) or to which such sale, assignment, transfer, lease,

conveyance or other disposition will have been made, is a Person organized or existing under the laws of the United States, any state thereof, the District of Columbia, or any territory thereof (such Person, as the case may be, being herein called the *Successor Company*);

(2) the Successor Company, if other than the Company, expressly assumes all the obligations of the Company under the Notes pursuant to supplemental indentures or other documents or instruments;

(3) immediately after such transaction, no Default exists;

(4) immediately after giving *pro forma* effect to such transaction and any related financing transactions, as if such transactions had occurred at the beginning of the applicable four-quarter period,

(a) the Successor Company or, if the Company is the surviving Person, the Company, would be permitted to incur at least \$1.00 of additional Indebtedness pursuant to the Fixed Charge Coverage Test, or

(b) the Fixed Charge Coverage Ratio for the Successor Company and its Restricted Subsidiaries or, if the Company is the surviving Person, the Company and its Restricted Subsidiaries, would be less than the Fixed Charge Coverage Ratio for the Company and its Restricted Subsidiaries immediately prior to such transaction; and

(5) the Issuer shall have delivered to the Trustee an Officer's Certificate and an Opinion of Counsel, each stating that such consolidation, merger or transfer and such supplemental indentures, if any, comply with the Indenture.

The Successor Company will succeed to, and be substituted for, the Company under the Indenture, the Guarantees and the Notes, as applicable. Notwithstanding the immediately preceding clauses (3) and (4) of paragraph (B),

(1) any Restricted Subsidiary may consolidate with or merge into or transfer all or part of its properties and assets to the Company, and

(2) the Company may merge with an Affiliate of the Company solely for the purpose of reincorporating the Company in the United States, any state thereof, the District of Columbia or any territory thereof so long as the amount of Indebtedness of the Company and the Restricted Subsidiaries is not increased thereby.

(C) Subject to certain limitations described in the Indenture governing release of a Guarantee upon the sale, disposition or transfer of a Guarantor, no Guarantor will, and the Company will not permit any Guarantor to, consolidate or merge with or into or wind up into (whether or not the Company, an Issuer or such Guarantor is the surviving Person), or sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of its properties or assets, in one or more related transactions, to any Person unless:

(1) such Guarantor is the surviving Person or the Person formed by or surviving any such consolidation or merger (if other than such Guarantor) or to which such sale, assignment, transfer, lease, conveyance or other disposition will have been made is a Person organized or existing under the laws of the United States, any state thereof, the District of Columbia, or any territory thereof (such Person being herein called the *Successor Guarantor*);

(2) the Successor Guarantor expressly assumes all the obligations of such Guarantor under the Indenture and such Guarantor's related Guarantee pursuant to supplemental indentures or other documents or instruments;

(3) immediately after such transaction, no Default exists; and

(4) the Issuer shall have delivered to the Trustee an Officer's Certificate and an Opinion of Counsel, each stating that such consolidation, merger or transfer and such supplemental indentures, if any, comply with the Indenture; or

(5) the transaction is made in compliance with the covenant described under Repurchase at the Option of Holders Asset Sales.

Subject to certain limitations described in the Indenture, the Successor Guarantor will succeed to, and be substituted for, such Guarantor under the Indenture and such Guarantor's Guarantee. Notwithstanding the foregoing, any Guarantor (other than the Company) may (1) merge into or transfer all or part of its properties and assets to another Guarantor or any of the Issuers, (2) merge with an Affiliate of the Company solely for the purpose of reincorporating such Guarantor in the United States, any state thereof, the District of Columbia, or any territory thereof or (3) convert into a corporation, partnership, limited partnership, limited liability company or trust organized or existing under the laws of the jurisdiction of organization of such Guarantor.

Transactions with Affiliates

The Company will not, and will not permit any of its Restricted Subsidiaries to, make any payment to, or sell, lease, transfer or otherwise dispose of any of its properties or assets to, or purchase any property or assets from, or enter into or make or amend any transaction, contract, agreement, understanding, loan, advance or guarantee with, or for the benefit of, any Affiliate of the Company (each of the foregoing, an *Affiliate Transaction*) involving aggregate payments or consideration in excess of \$7.5 million, unless:

(2) the Company delivers to the Trustee with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate payments or consideration in excess of \$20.0 million, a resolution adopted by the majority of the board of directors of the Company approving such Affiliate Transaction and set forth in an Officer's Certificate certifying that such Affiliate Transaction complies with clause (1) above.

The foregoing provisions will not apply to the following:

(2) Permitted Investments and Restricted Payments permitted by the provisions of the Indenture described above under the covenant Limitation on Restricted Payments ;

(4) transactions in which the Company or any of its Restricted Subsidiaries, as the case may be, delivers to the Trustee a letter from an Independent Financial Advisor stating that such transaction is fair to the Company or such Restricted Subsidiary from a financial point of view or stating that the terms are not materially less favorable to the Company or its relevant Restricted Subsidiary than those that would have been obtained in a comparable transaction by the Company or such Restricted Subsidiary with an unrelated Person on an arm's-length basis;

(5) any agreement as in effect as of the Issue Date, or any amendment thereto (so long as any such amendment is not disadvantageous in any material respect in the good faith judgment of the board of directors of the Company to the Holders when taken as a whole as compared to the applicable agreement as in effect on the Issue Date);

(6) the existence of, or the performance by the Company or any of its Restricted Subsidiaries of its obligations under the terms of, any stockholders agreement (including any registration rights agreement or purchase agreement related thereto) to which it is a party as of the Issue Date and any similar agreements which it may enter into thereafter; *provided* that the existence of, or the performance by the Company or any of its Restricted Subsidiaries of obligations under any future amendment to any such existing agreement or under any similar agreement entered into after the Issue Date shall only be permitted by this clause (6) to the extent that the terms of any such amendment or new agreement are not otherwise disadvantageous in any material respect in the good faith judgment of the board of directors of the Company to the Holders when taken as a whole;

Limitation on Guarantees of Indebtedness by Restricted Subsidiaries

The Company will not permit any of its Wholly-Owned Subsidiaries that are Restricted Subsidiaries (and non-Wholly-Owned Subsidiaries if such non-Wholly-Owned Subsidiaries guarantee other debt of the Company, the Issuers or any Subsidiary Guarantor), other than the Issuer, a Subsidiary Guarantor, a Foreign Subsidiary (except any Foreign Subsidiary that guarantees any Indebtedness of the Issuer under the Senior Credit Facilities) or a Securitization Subsidiary, to incur or guarantee the payment of any Indebtedness of the Company, the Issuer, or any Subsidiary Guarantor unless:

(1) such Restricted Subsidiary within 30 days executes and delivers a supplemental indenture to the Indenture providing for a Guarantee by such Restricted Subsidiary, except that with respect to a guarantee of Indebtedness of the Issuer or any Guarantor, if such Indebtedness is by its express terms subordinated in right of payment to the Notes or such Guarantor's Guarantee, any such guarantee by such Restricted Subsidiary with respect to such Indebtedness shall be subordinated in right of payment to such Guarantee substantially to the same extent as such Indebtedness is subordinated to the Notes; and

(2) such Restricted Subsidiary waives and will not in any manner whatsoever claim or take the benefit or advantage of, any rights of reimbursement, indemnity or subrogation or any other rights against the Company or any other Restricted Subsidiary as a result of any payment by such Restricted Subsidiary under its Guarantee;

provided that this covenant shall not be applicable to (i) any guarantee of any Restricted Subsidiary that existed at the time such Person became a Restricted Subsidiary and was not incurred in connection with, or in contemplation of, such Person becoming a Restricted Subsidiary and (ii) guarantees of any Qualified Securitization Facility by any Restricted Subsidiary. The Issuer may elect, in its sole discretion, to cause any Subsidiary that is not otherwise required to be a Subsidiary Guarantor to become a Subsidiary Guarantor, in which case such Subsidiary shall not be required to comply with the 30 day period described in clause (1) above.

Existence of Corporate Co-Issuers

The Issuer will always maintain a Wholly-Owned Subsidiary of the Company organized as a corporation under the laws of the United States of America, any State thereof or the District of Columbia that will serve as a co-issuer of the notes unless the Issuer is itself a corporation under the laws of the United States of America, any State thereof or the District of Columbia.

Reports and Other Information

Notwithstanding that the Company may not be subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act or otherwise report on an annual and quarterly basis on forms provided for such annual and quarterly reporting pursuant to rules and regulations promulgated by the SEC, the Indenture requires the Company to file with the SEC (and make available to the Trustee and Holders of the Notes (without exhibits), without cost to any Holder, within 15 days after it files them with the SEC) from and after the Issue Date,

(1) within 90 days after the end of each fiscal year, annual reports on Form 10-K, or any successor or comparable form, containing the information required to be contained therein, or required in such successor or comparable form;

in each case, in a manner that complies in all material respects with the requirements specified in such form; *provided* that the Company shall not be so obligated to file such reports with the SEC if the SEC does not permit such filing. In addition, to the extent not satisfied by the foregoing, the Company will agree that, for so long as any Notes are outstanding, it will furnish to Holders and to securities analysts and prospective investors, upon their request, the information required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act.

Notwithstanding anything herein to the contrary, the Company will not be deemed to have failed to comply with any of its obligations hereunder for purposes of clause (3) under **Events of Default and Remedies** until 90 days after the date any report hereunder is due.

For purposes of this covenant, the Company will be deemed to have furnished the reports, documents and information to the Trustee and the holders of notes, and to the extent herein provided, to prospective investors, as required by this covenant if it has filed such reports with the SEC using the Electronic Data Gathering Analysis and Retrieval system (**EDGAR**) (or any successor system) or if such system is not available to the Company, if the Company has filed such reports, documents and information on the Company website, and in each such case, such reports are publicly available thereon.

Delivery of such reports, information and documents to the Trustee is for informational purposes only, and the Trustee's receipt of such shall not constitute constructive notice of any information contained therein or determinable from information contained therein, including the Issuers compliance with any of their covenants hereunder (as to which the Trustee is entitled to rely exclusively on officers' certificates).

Events of Default and Remedies

The Indenture provides that each of the following is an Event of Default:

(1) default in payment when due and payable, upon redemption, acceleration or otherwise, of principal of, or premium, if any, on the Notes;

(2) default for 30 days or more in the payment when due of interest on or with respect to the Notes;

(3) failure by the Issuers or any Guarantor for 60 days after receipt of written notice given by the Trustee or the Holders of not less than 25% in principal amount of the then outstanding Notes to comply with any of its obligations, covenants or agreements (other than a default referred to in clause (1) or (2) above) contained in the Indenture or the Notes;

(4) default under any mortgage, indenture or instrument under which there is issued or by which there is secured or evidenced any Indebtedness for money borrowed by the Company or any of its Restricted Subsidiaries or the payment of which is guaranteed by the Company or any of its Restricted Subsidiaries, other than Indebtedness owed to the Company or a Restricted Subsidiary, whether such Indebtedness or guarantee now exists or is created after the issuance of the Notes, if both:

Table of Contents

(a) such default either results from the failure to pay any principal of such Indebtedness at its stated final maturity (after giving effect to any applicable grace periods) or relates to an obligation other than the obligation to pay principal of any such Indebtedness at its stated final maturity and results in the holder or holders of such Indebtedness causing such Indebtedness to become due prior to its stated maturity; and

(b) the principal amount of such Indebtedness, together with the principal amount of any other such Indebtedness in default for failure to pay principal at stated final maturity (after giving effect to any applicable grace periods), or the maturity of which has been so accelerated, aggregate \$30.0 million or more at any one time outstanding;

(5) failure by the Company or any Significant Subsidiary (or any group of Restricted Subsidiaries that together (determined as of the most recent consolidated financial statements of the Company for a fiscal quarter end provided as required under Reports) would constitute a Significant Subsidiary) to pay final judgments aggregating in excess of \$30.0 million (net of amounts covered by insurance policies issued by reputable insurance companies), which final judgments remain unpaid, undischarged and unstayed for a period of more than 60 days after such judgment becomes final, and in the event such judgment is covered by insurance, an enforcement proceeding has been commenced by any creditor upon such judgment or decree which is not promptly stayed;

(6) certain events of bankruptcy or insolvency with respect to the Issuers or any Significant Subsidiary (or any group of Restricted Subsidiaries that together (determined as of the most recent consolidated financial statements of the Company for a fiscal quarter end provided as required under Reports) would constitute a Significant Subsidiary); or

(7) the Guarantee of any Significant Subsidiary (or any group of Restricted Subsidiaries that together (determined as of the most recent consolidated financial statements of the Company for a fiscal quarter end provided as required under Reports) would constitute a Significant Subsidiary) shall for any reason cease to be in full force and effect or be declared null and void or any responsible officer of any Subsidiary Guarantor that is a Significant Subsidiary (or the responsible officers of any group of Restricted Subsidiaries that together (as of the most recent consolidated financial statement of the Company for a fiscal quarter end) would constitute a Significant Subsidiary), as the case may be, denies in writing that it has any further liability under its Guarantee or gives written notice to such effect, other than by reason of the termination of the Indenture or the release of any such Guarantee in accordance with the Indenture.

If any Event of Default (other than of a type specified in clause (6) above) occurs and is continuing under the Indenture, the Trustee or the Holders of at least 25.0% in principal amount of the then total outstanding Notes may declare the principal, premium, if any, interest and any other monetary obligations on all the then outstanding Notes to be due and payable immediately.

Upon the effectiveness of such declaration, such principal of and premium, if any, and interest will be due and payable immediately. Notwithstanding the foregoing, in the case of an Event of Default arising under clause (6) of the first paragraph of this section, all outstanding Notes will become due and payable without further action or notice. The Indenture provides that the Trustee may withhold from the Holders notice of any continuing Default, except a Default relating to the payment of principal, premium, if any, or interest, if it determines that withholding notice is in their interest. In addition, the Trustee will have no obligation to accelerate the Notes if in the best judgment of the Trustee acceleration is not in the best interests of the Holders of the Notes.

The Indenture provides that the Holders of a majority in aggregate principal amount of the then outstanding Notes by notice to the Trustee may on behalf of the Holders of all of the Notes waive any existing Default and its consequences under the Indenture (except a continuing Default in the payment of interest on,

Table of Contents

premium, if any, or the principal of any Note held by a non-consenting Holder) and rescind any acceleration with respect to the Notes and its consequences (except if such rescission would conflict with any judgment of a court of competent jurisdiction). In the event of any Event of Default specified in clause (4) above, such Event of Default and all consequences thereof (excluding any resulting payment default, other than as a result of acceleration of the Notes) shall be annulled, waived and rescinded, automatically and without any action by the Trustee or the Holders, if within 20 days after such Event of Default arose:

- (1) the Indebtedness or guarantee that is the basis for such Event of Default has been discharged; or
- (2) holders thereof have rescinded or waived the acceleration, notice or action (as the case may be) giving rise to such Event of Default; or
- (3) the default that is the basis for such Event of Default has been cured.

Subject to the provisions of the Indenture relating to the duties of the Trustee thereunder, in case an Event of Default occurs and is continuing, the Trustee will be under no obligation to exercise any of the rights or powers under the Indenture at the request or direction of any of the Holders of the Notes unless the Holders have offered to the Trustee reasonable indemnity or security against any loss, liability or expense. Except to enforce the right to receive payment of principal, premium (if any) or interest when due, no Holder of a Senior Note may pursue any remedy with respect to the Indenture or the Notes unless:

- (1) such Holder has previously given the Trustee notice that an Event of Default is continuing;
- (2) Holders of at least 25.0% in principal amount of the total outstanding Notes have requested the Trustee to pursue the remedy;
- (3) Holders of the Notes have offered the Trustee reasonable security or indemnity against any loss, liability or expense;
- (4) the Trustee has not complied with such request within 60 days after the receipt thereof and the offer of security or indemnity; and
- (5) Holders of a majority in principal amount of the total outstanding Notes have not given the Trustee a direction inconsistent with such request within such 60-day period.

Subject to certain restrictions, under the Indenture the Holders of a majority in principal amount of the total outstanding Notes are given the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or of exercising any trust or power conferred on the Trustee. The Trustee, however, may refuse to follow any direction that conflicts with law or the Indenture or that the Trustee determines is unduly prejudicial to the rights of any other Holder of a Senior Note or that would involve the Trustee in personal liability.

The Indenture provides that the Issuers are required to deliver to the Trustee annually a statement regarding compliance with the Indenture, and the Issuers are required to deliver to the Trustee a statement specifying any Default within five Business Days after becoming aware of such Default.

No Personal Liability of Directors, Officers, Employees and Stockholders

No past, present or future director, officer, employee, incorporator, member, partner or stockholder of the Issuers or any Guarantor or any of their direct or indirect parent companies (other than the Issuers and the Guarantors) shall have any liability, for any obligations of the Issuers or the Guarantors under the Notes, the Guarantees or the Indenture or for any claim based on, in respect of, or by reason of such obligations or their

creation. Each Holder by accepting Notes waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Notes. Such waiver may not be effective to waive liabilities under the federal securities laws and it is the view of the SEC that such a waiver is against public policy.

Legal Defeasance and Covenant Defeasance

The obligations of the Issuers and the Guarantors under the Indenture will terminate (other than certain obligations) and will be released upon payment in full of all of the Notes. The Issuers may, at their option and at any time, elect to have all of their obligations discharged with respect to the Notes and have each Guarantor's obligation discharged with respect to its Guarantee (*Legal Defeasance*) and cure all then existing Events of Default except for:

- (1) the rights of Holders of Notes to receive payments in respect of the principal of, premium, if any, and interest on the Notes when such payments are due solely out of the trust created pursuant to the Indenture;
- (2) the Issuers' obligations with respect to Notes concerning issuing temporary Notes, registration of such Notes, mutilated, destroyed, lost or stolen Notes and the maintenance of an office or agency for payment and money for security payments held in trust;
- (3) the rights, powers, trusts, duties and immunities of the Trustee, and the Issuers' obligations in connection therewith; and
- (4) the Legal Defeasance provisions of the Indenture.

In addition, the Issuers may, at their option and at any time, elect to have their obligations and those of each Guarantor released with respect to substantially all of the restrictive covenants that are described in the Indenture (*Covenant Defeasance*) and thereafter any omission to comply with such obligations shall not constitute a Default with respect to the Notes. In the event Covenant Defeasance occurs, certain events (not including bankruptcy, receivership, rehabilitation and insolvency events pertaining to the Issuers) described under Events of Default and Remedies will no longer constitute an Event of Default with respect to the Notes.

In order to exercise either Legal Defeasance or Covenant Defeasance with respect to the Notes:

- (1) the Issuers must irrevocably deposit with the Trustee, in trust, for the benefit of the Holders of the Notes, cash in U.S. dollars, non-callable U.S. dollar-denominated Government Securities, or a combination thereof, in such amounts as will be sufficient, in the opinion of a nationally recognized firm of independent public accountants, to pay the principal of, premium, if any, and interest due on the Notes on the stated maturity date or on the redemption date, as the case may be, of such principal, premium, if any, or interest on such Notes, and the Issuers must specify whether such Notes are being defeased to maturity or to a particular redemption date; provided, that upon any redemption that requires the payment of the Applicable Premium, the amount deposited shall be sufficient for purposes of the Indenture to the extent that an amount is deposited with the Trustee equal to the Applicable Premium calculated as of the date of the notice of redemption, with any deficit as of the date of redemption (any such amount, the *Applicable Premium Deficit*) only required to be deposited with the Trustee on or prior to the date of redemption (it being understood that any defeasance shall be subject to the condition subsequent that such deficit is in fact paid). Any Applicable Premium Deficit shall be set forth in an Officer's Certificate delivered to the Trustee simultaneously with the deposit of such Applicable Premium Deficit that confirms that such Applicable Premium Deficit shall be applied toward such redemption;
- (2) in the case of Legal Defeasance, the Issuers shall have delivered to the Trustee an Opinion of Counsel reasonably acceptable to the Trustee confirming that, subject to customary assumptions and exclusions,

Table of Contents

(a) the Issuers have received from, or there has been published by, the United States Internal Revenue Service a ruling, or

(b) since the issuance of the Notes, there has been a change in the applicable U.S. federal income tax law,

in either case to the effect that, and based thereon such Opinion of Counsel shall confirm that, subject to customary assumptions and exclusions, the Holders of the Notes will not recognize income, gain or loss for U.S. federal income tax purposes, as applicable, as a result of such Legal Defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Legal Defeasance had not occurred;

(3) in the case of Covenant Defeasance, the Issuers shall have delivered to the Trustee an Opinion of Counsel reasonably acceptable to the Trustee confirming that, subject to customary assumptions and exclusions, the Holders of the Notes will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such Covenant Defeasance and will be subject to such tax on the same amounts, in the same manner and at the same times as would have been the case if such Covenant Defeasance had not occurred;

(4) no Default or Event of Default (other than that resulting from borrowing funds to be applied to make such deposit and any similar and simultaneous deposit relating to other Indebtedness and, in each case, the granting of Liens in connection therewith) shall have occurred and be continuing on the date of such deposit;

(5) such Legal Defeasance or Covenant Defeasance shall not result in a breach or violation of, or constitute a default under the Senior Credit Facilities or any other material agreement or instrument (other than the Indenture) to which, the Issuers or any Guarantor is a party or by which the Issuers or any Guarantor is bound (other than that resulting from any borrowing of funds to be applied to make the deposit required to effect such Legal Defeasance or Covenant Defeasance and any similar and simultaneous deposit relating to other Indebtedness, and, in each case, the granting of Liens in connection therewith);

(6) the Issuers shall have delivered to the Trustee an Opinion of Counsel to the effect that, as of the date of such opinion and subject to customary assumptions and exclusions following the deposit, the trust funds will not be subject to the effect of Section 547 of Title 11 of the United States Code;

(7) the Issuers shall have delivered to the Trustee an Officer's Certificate stating that the deposit was not made by the Issuers with the intent of defeating, hindering, delaying or defrauding any creditors of the Issuers or any Guarantor or others; and

(8) the Issuers shall have delivered to the Trustee an Officer's Certificate and an Opinion of Counsel (which Opinion of Counsel may be subject to customary assumptions and exclusions) each stating that all conditions precedent provided for or relating to the Legal Defeasance or the Covenant Defeasance, as the case may be, have been complied with.

Satisfaction and Discharge

The Indenture will be discharged and will cease to be of further effect as to all Notes, when either:

(1) all Notes theretofore authenticated and delivered, except lost, stolen or destroyed Notes which have been replaced or paid and Notes for whose payment money has theretofore been deposited in trust, have been delivered to the Trustee for cancellation; or

Table of Contents

(2) (a) all Notes not theretofore delivered to the Trustee for cancellation have become due and payable by reason of the making of a notice of redemption or otherwise, will become due and payable within one year or are to be called for redemption within one year under arrangements satisfactory to the Trustee for the giving of notice of redemption by the Trustee in the name, and at the expense, of the Issuers and the Issuers or any Guarantor have irrevocably deposited or caused to be deposited with the Trustee as trust funds in trust solely for the benefit of the Holders of the Notes, cash in U.S. dollars, non-callable U.S. dollar-denominated Government Securities, or a combination thereof, in such amounts as will be sufficient without consideration of any reinvestment of interest to pay and discharge the entire indebtedness on the Notes not theretofore delivered to the Trustee for cancellation for principal, premium, if any, and accrued interest to the date of maturity or redemption; provided, that upon any redemption that requires the payment of the Applicable Premium, the amount deposited shall be sufficient for purposes of the Indenture to the extent that an amount is deposited with the Trustee equal to the Applicable Premium calculated as of the date of the notice of redemption, with any deficit as of the date of redemption (any such amount, the *Applicable Premium Deficit*) only required to be deposited with the Trustee on or prior to the date of redemption (it being understood that any defeasance shall be subject to the condition subsequent that such deficit is in fact paid). Any Applicable Premium Deficit shall be set forth in an Officer's Certificate delivered to the Trustee simultaneously with the deposit of such Applicable Premium Deficit that confirms that such Applicable Premium Deficit shall be applied toward such redemption,

(b) no Default or Event of Default (other than that resulting from borrowing funds to be applied to make such deposit or any similar and simultaneous deposit relating to other Indebtedness and the granting of Liens in connection therewith) with respect to the Indenture or the Notes shall have occurred and be continuing on the date of such deposit or shall occur as a result of such deposit and such deposit will not result in a breach or violation of, or constitute a default under the Senior Credit Facilities Notes or any other material agreement or instrument (other than the Indenture) to which the Issuers or any Guarantor is a party or by which the Issuers or any Guarantor is bound (other than resulting from any borrowing of funds to be applied to make such deposit and any similar and simultaneous deposit relating to other Indebtedness and, in each case, the granting of Liens in connection therewith);

(c) the Issuers have paid or caused to be paid all sums payable by it under the Indenture; and

(d) the Issuers have delivered irrevocable instructions to the Trustee to apply the deposited money toward the payment of the Notes at maturity or the redemption date, as the case may be.

In addition, the Issuers must deliver an Officer's Certificate and an Opinion of Counsel to the Trustee stating that all conditions precedent to satisfaction and discharge have been satisfied.

Amendment, Supplement and Waiver

Except as provided in the next two succeeding paragraphs, the Indenture, any Guarantee and the Notes may be amended or supplemented with the consent of the Holders of at least a majority in principal amount of the

Notes then outstanding, including consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes, and any existing Default (except a continuing Default in the payment of interest on, premium, if any, or the principal on maturity of any Note held by a non-consenting Holder) or compliance with any provision of the Indenture or the Notes issued thereunder may be waived with the consent of the Holders of a majority in principal amount of the then outstanding Notes, other than Notes beneficially owned by the Issuer or its Affiliates (including consents obtained in connection with a purchase of or tender offer or exchange offer for the Notes).

Table of Contents

The Indenture provides that, without the consent of each affected Holder of Notes, an amendment or waiver may not, with respect to any Notes held by a non-consenting Holder:

- (1) reduce the principal amount of such Notes whose Holders must consent to an amendment, supplement or waiver;
- (2) reduce the principal of or change the fixed final maturity of any such Note or alter or waive the provisions with respect to the redemption of such Notes (other than provisions relating to the covenants described above under Repurchase at the Option of Holders);
- (3) reduce the rate of or change the time for payment of interest on any Note;
- (4) waive a Default in the payment of principal of or premium, if any, or interest on the Notes, except a rescission of acceleration of the Notes by the Holders of at least a majority in aggregate principal amount of the Notes and a waiver of the payment default that resulted from such acceleration, or in respect of a covenant or provision contained in the Indenture or any Guarantee which cannot be amended or modified without the consent of all Holders;
- (5) make any Note payable in money other than that stated therein;
- (6) make any change in the provisions of the Indenture relating to waivers of past Defaults or the rights of Holders to receive payments of principal of or premium, if any, or interest on the Notes;
- (7) make any change in these amendment and waiver provisions;
- (8) impair the right of any Holder to receive payment of principal of, or premium, if any, or interest on such Holder's Notes on or after the due dates therefor or to institute suit for the enforcement of any payment on or with respect to such Holder's Notes;
- (9) make any change to or modify the ranking of the Notes that would adversely affect the Holders; or
- (10) except as expressly permitted by the Indenture, modify the Guarantees of any Significant Subsidiary in any manner adverse to the Holders of the Notes.

Notwithstanding the foregoing, the Issuers, any Guarantor (with respect to a Guarantee or the Indenture to which it is a party) and the Trustee may amend or supplement the Indenture and any Guarantee or Notes without the consent of any Holder:

- (1) to cure any ambiguity, omission, mistake, defect or inconsistency;
- (2) to provide for uncertificated Notes of such series in addition to or in place of certificated Notes;
- (3) to comply with the covenant relating to mergers, amalgamations, consolidations and sales of assets;
- (4) to provide for the assumption of the Issuers' or any Guarantor's obligations to the Holders;
- (5) to make any change that would provide any additional rights or benefits to the Holders or that does not adversely affect the legal rights under the Indenture of any such Holder;
- (6) to add covenants for the benefit of the Holders or to surrender any right or power conferred upon the Issuers or any Guarantor;

Table of Contents

- (11) to conform the text of the Indenture, Guarantees or the Notes to any provision of this Description of Notes to the extent that such provision in this Description of Notes was intended to be a verbatim recitation of a provision of the Indenture, Guarantee or Notes; or
- (12) to make any amendment to the provisions of the Indenture relating to the transfer and legending of Notes as permitted by the Indenture, including, without limitation to facilitate the issuance and administration of the Notes; *provided* that (a) compliance with the Indenture as so amended would not result in Notes being transferred in violation of the Securities Act or any applicable securities law and (b) such amendment does not materially and adversely affect the rights of Holders to transfer Notes.

The consent of the Holders is not necessary under the Indenture to approve the particular form of any proposed amendment. It is sufficient if such consent approves the substance of the proposed amendment.

Notices given by publication or electronic delivery will be deemed given on the first date on which publication is made and notices given by first-class mail, postage prepaid, will be deemed given five calendar days after mailing.

Concerning the Trustee

The Indenture contains certain limitations on the rights of the Trustee thereunder, should it become a creditor of the Issuers, to obtain payment of claims in certain cases, or to realize on certain property received in respect of any such claim as security or otherwise. The Trustee will be permitted to engage in other transactions; however, if it acquires any conflicting interest it must eliminate such conflict within 90 days, apply to the SEC for permission to continue (if the Indenture has been qualified under the Trust Indenture Act) or resign.

The Indenture provides that the Holders of a majority in principal amount of the outstanding Notes will have the right to direct the time, method and place of conducting any proceeding for exercising any remedy available to the Trustee, subject to certain exceptions. The Indenture provides that in case an Event of Default shall occur (which shall not be cured), the Trustee will be required, in the exercise of its power, to use the degree of care of a prudent person in the conduct of his own affairs. Subject to such provisions, the Trustee will be under no obligation to exercise any of its rights or powers under the Indenture at the request of any Holder of the Notes, unless such Holder shall have offered to the Trustee security and indemnity satisfactory to it against any loss, liability or expense.

Governing Law

The Indenture, the Notes and any Guarantee will be governed by and construed in accordance with the internal laws of the State of New York.

Senior Indebtedness means Indebtedness of the Issuers or any Subsidiary Guarantor unless the instrument under which such Indebtedness is incurred expressly provides that it is or subordinated in right of payment to the Notes or any related Guarantee.

In the event that the Company or any Restricted Subsidiary incurs, assumes, guarantees, redeems, repays, retires or extinguishes any Indebtedness (other than Indebtedness incurred or repaid under any revolving credit facility unless such Indebtedness has been permanently repaid and has not been replaced) or issues or redeems Disqualified Stock or Preferred Stock subsequent to the commencement of the period for which the Senior Secured Net Leverage Ratio is being calculated but prior to or simultaneously with the event for which the calculation of the Senior Secured Net Leverage Ratio is made (the *Secured Net Leverage Ratio Calculation Date*), then the Senior Secured Net Leverage Ratio shall be calculated giving *pro forma* effect to such incurrence, assumption, guarantee, redemption, repayment, retirement or extinguishment of Indebtedness, or such issuance or redemption of Disqualified Stock or Preferred Stock, as if the same had occurred immediately prior to the end of such most recent fiscal quarter end.

For purposes of making the computation referred to above, Investments, acquisitions, dispositions, mergers, amalgamations, consolidations and discontinued operations (as determined in accordance with GAAP) that have been made by the Company or any of its Restricted Subsidiaries during the four-quarter reference period or subsequent to such reference period and on or prior to or simultaneously with the Secured Net Leverage Ratio Calculation Date shall be calculated on a *pro forma* basis assuming that all such Investments, acquisitions, dispositions, mergers, amalgamations, consolidations and discontinued operations (and the change in EBITDA resulting therefrom) had occurred on the first day of the four-quarter reference period. If since the beginning of

Table of Contents

such period any Person that subsequently became a Restricted Subsidiary or was merged with or into the Company or any of its Restricted Subsidiaries since the beginning of such period shall have made any Investment, acquisition, disposition, merger, amalgamation, consolidation or discontinued operation that would have required adjustment pursuant to this definition, then the Senior Secured Net Leverage Ratio shall be calculated giving *pro forma* effect thereto for such period as if such Investment, acquisition, disposition, merger, amalgamation, consolidation or discontinued operation had occurred at the beginning of the applicable four-quarter period. For purposes of this definition, whenever *pro forma* effect is to be given to an Investment, acquisition, disposition, merger or consolidation, the *pro forma* calculations shall be made in good faith by a responsible financial or accounting officer of the Company (and may include, for the avoidance of doubt, cost savings, synergies and operating expense reductions resulting from such Investment, acquisition, merger, amalgamation or consolidation which is being given *pro forma* effect that have been or are expected to be realized).

(2) any partnership, joint venture, limited liability company or similar entity of which

(a) more than 50.0% of the capital accounts, distribution rights, total equity and voting interests or general or limited partnership interests, as applicable, are owned or controlled, directly or indirectly, by such Person or one or more of the other Subsidiaries of that Person or a combination thereof whether in the form of membership, general, special or limited partnership or otherwise, and

(b) such Person or any Restricted Subsidiary of such Person is a controlling general partner or otherwise controls such entity.

The Company will (1) calculate the Treasury Rate on the 2nd Business Day preceding the applicable Redemption Date and (2) prior to such redemption date file with the Trustee an officer's certificate setting forth the Applicable Premium and the Treasury Rate and showing the calculation of each in reasonable detail.

- (2) any Subsidiary of an Unrestricted Subsidiary.

The Company may designate any Subsidiary of the Company (including any existing Subsidiary and any newly acquired or newly formed Subsidiary) to be an Unrestricted Subsidiary unless such Subsidiary or any of its Subsidiaries owns any Equity Interests or Indebtedness of, or owns or holds any Lien on, any property of, the Company or any Subsidiary of the Company (other than solely any Subsidiary of the Subsidiary to be so designated); *provided* that

BOOK-ENTRY; DELIVERY AND FORM

General

The Notes will be issued in fully registered global form. The Notes initially will be represented by one or more global certificates without interest coupons (the global notes). The global notes will be deposited upon issuance with the trustee as custodian for DTC and registered in the name of DTC or its nominee for credit to the accounts of direct or indirect participants in DTC, as described below under Depository Procedures.

The global notes will be deposited on behalf of the acquirers of the Notes for credit to the respective accounts of the acquirers or to such other accounts as they may direct. Except as described below, the global notes may be transferred, in whole and not in part, only to another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in the global notes may not be exchanged for the Notes in certificated form except in the limited circumstances described below under Exchange of Book-Entry Notes for Certificated Notes.

Transfers of beneficial interests in the global notes will be subject to the applicable rules and procedures of DTC and its direct or indirect participants, which may change from time to time.

Depository Procedures

The following description of the operations and procedures of DTC is provided solely as a matter of convenience. These operations and procedures are solely within the control of the respective settlement systems and are subject to changes by them. We take no responsibility for these operations and procedures and urge investors to contact the systems or their participants directly to discuss these matters.

DTC has advised us that it is:

a limited purpose trust company organized under the New York State Banking Law;

a banking organization within the meaning of the New York State Banking Law;

a member of the U.S. Federal Reserve System;

a clearing corporation within the meaning of the New York Uniform Commercial Code; and

a clearing agency registered under Section 17A of the Exchange Act.

DTC was created to hold securities for its participating organizations (collectively, the participants) and facilitate the clearance and settlement of transactions in those securities between participants through electronic book-entry changes in accounts of its participants. The participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. Access to DTC's system is also available to other entities such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly (collectively, the indirect participants). Persons who are not participants may beneficially own securities held by or on behalf of DTC only through participants or indirect participants. DTC has no knowledge of the identity of beneficial owners of securities held by or on behalf of DTC. DTC's records reflect only the identity of participants to whose accounts securities are credited. The ownership interests and transfer of ownership interests of each beneficial owner of each security held by or on behalf of DTC are recorded on the records of the participants and indirect participants.

DTC has also advised us that, pursuant to procedures established by DTC, ownership of interests in the global notes will be shown on, and the transfer of ownership of such interest will be effected only through,

Table of Contents

records maintained by DTC (with respect to the participants) or by the participants and the indirect participants (with respect to other owners of beneficial interests in the global notes).

Investors in the global notes may hold their interests therein directly through DTC if they are participants in such system or indirectly through organizations that are participants or indirect participants in such system. All interests in the global notes will be subject to the procedures and requirements of DTC. The laws of some states require that certain persons take physical delivery of certificates evidencing securities they own. Consequently, the ability to transfer beneficial interests in the global notes to such persons will be limited to that extent. Because DTC can act only on behalf of participants, which in turn act on behalf of indirect participants, the ability of beneficial owners of interests in the global notes to pledge such interests to persons or entities that do not participate in the DTC system, or otherwise take actions in respect of such interests, may be affected by the lack of a physical certificate evidencing such interests.

Except as described below, owners of interests in the global notes will not have Notes registered in their names, will not receive physical delivery of the Notes in certificated form and will not be considered the registered owners or holders thereof under the indenture for any purpose.

Payments in respect of the principal of and premium, if any, and interest on the global notes registered in the name of DTC or its nominee will be payable by the trustee (or the paying agent if other than the trustee) to DTC in its capacity as the registered holder under the indenture. We and the trustee will treat the persons in whose names the Notes, including the global notes, are registered as the owners thereof for the purpose of receiving such payments and for any and all other purposes whatsoever. Consequently, none of us, the trustee or any agent of ours or the trustee has or will have any responsibility or liability for:

any aspect of DTC's records or any participant's or indirect participant's records relating to or payments made on account of beneficial ownership interests in the global notes, or for maintaining, supervising or reviewing any of DTC's records or any participant's or indirect participant's records relating to the beneficial ownership interests in the global notes; or

any other matter relating to the actions and practices of DTC or any of its participants or indirect participants.

DTC has advised us that its current practice, upon receipt of any payment in respect of securities such as the Notes (including principal and interest), is to credit the accounts of the relevant participants with the payment on the payment date in amounts proportionate to their respective holdings in the principal amount of the relevant security as shown on the records of DTC, unless DTC has reason to believe it will not receive payment on such payment date. Payments by the participants and the indirect participants to the beneficial owners of Notes will be governed by standing instructions and customary practices and will be the responsibility of the participants or the indirect participants and will not be the responsibility of DTC, the trustee or us. Neither we nor the trustee will be liable for any delay by DTC or any of its participants in identifying the beneficial owners of the Notes, and we and the trustee may conclusively rely on and will be protected in relying on instructions from DTC or its nominee for all purposes.

Interests in the global notes are expected to be eligible to trade in DTC's Same-Day Funds Settlement System and secondary market trading activity in such interests will therefore settle in immediately available funds, subject in all cases to the rules and procedures of DTC and its participants.

DTC has advised us that it will take any action permitted to be taken by a holder of Notes only at the direction of one or more participants to whose account with DTC interests in the global notes are credited and only in respect of such portion of the aggregate principal amount of the Notes as to which such participant or participants has or have given such direction.

Table of Contents

Although DTC has agreed to the foregoing procedures to facilitate transfers of interests in the global notes among participants in DTC, it is under no obligation to perform or to continue to perform such procedures, and the procedures may be discontinued at any time. Neither we nor the trustee will have any responsibility for the performance by DTC or its participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

The information in this section concerning DTC and its book-entry system has been obtained from sources that we believe to be reliable, but we take no responsibility for the accuracy thereof.

Exchange of Book-Entry Notes for Certificated Notes

If (i) DTC is at any time unwilling or unable to continue as depository and a successor depository is not appointed by us within 90 days, (ii) DTC has ceased to be a clearing agency registered under the Exchange Act, (iii) we, at our option, notify the trustee in writing that we elect to cause the issuance of the notes in the form of certificated notes, or (iv) an Event of Default has occurred and is continuing, upon request by the holders of the notes, we will issue notes in certificated form in exchange for global securities. The indenture permits us to determine at any time and in our sole discretion that notes shall no longer be represented by global securities. DTC has advised us that, under its current practices, it would notify its participants of our request, but will only withdraw beneficial interests from the global security at the request of each DTC participant. We would issue definitive certificates in exchange for any beneficial interests withdrawn.

Table of Contents

MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following is a summary of U.S. federal income tax considerations material to the purchase, ownership and disposition of the notes. This summary does not describe all of the tax consequences that may be relevant to you in light of your particular circumstances. For example, it does not address considerations that may be relevant to investors that are subject to special tax rules such as banks, thrifts, real estate investment trusts, regulated investment companies, insurance companies, dealers in securities or currencies, traders in securities electing to mark-to-market, tax-exempt investors, controlled foreign corporations, passive foreign investment companies, or certain U.S. expatriates. It also does not discuss notes held as part of a hedge, straddle, conversion, synthetic security or other integrated transaction. This summary addresses only holders that purchase the notes in connection with this offering from the underwriter at the offering price and that hold the notes as capital assets. It does not include any description of any alternative minimum tax consequences, federal estate tax consequences or the tax laws of any state or local government or of any foreign government that may be applicable to the notes. You should consult your own tax advisors as to the particular tax consequences of purchasing, holding and disposing of the notes.

This summary is based upon the Internal Revenue Code of 1986, as amended (the Code), Treasury regulations, Internal Revenue Service (IRS) rulings and pronouncements and administrative and judicial decisions currently in effect, all of which are subject to change (possibly with retroactive effect) or possible differing interpretations.

For the purposes of this summary, you are a U.S. holder if you are a beneficial owner of the notes and:

you are a citizen or resident of the United States;

you are a corporation or other entity taxable as a corporation under U.S. federal income tax laws created or organized in or under the laws of the United States or any political subdivision of the United States;

you are an estate the income of which is includable in gross income for U.S. federal income tax purposes regardless of its source; or

you are a trust subject to the primary supervision of a U.S. court and the control of one or more U.S. persons, or a trust (other than a wholly owned grantor trust) that has elected to be treated as a domestic trust.

You are a Non-U.S. holder if you are a beneficial owner of the notes and are neither a U.S. holder nor a partnership (including any entity treated as a partnership for U.S. federal income tax purposes).

If a partnership, including any entity treated as a partnership for U.S. federal income tax purposes, is a holder, the tax treatment of a partner in the partnership will generally depend upon the status of the partner and the activities of the partnership. A holder that is a partnership, and partners in such a partnership, should consult their own tax advisors regarding the tax consequences of the purchase, ownership and disposition of the notes.

U.S. Federal Income Tax Consequences to U.S. Holders

This section applies to you if you are a U.S. holder. In general, you must include interest on the notes in your gross income as ordinary income as it is received or accrued in accordance with your regular accounting method.

However, because the notes will not be issued on the date of a stated interest payment, some portion of the purchase price paid by you for the notes may be attributable to interest accrued prior to the issuance of the

Table of Contents

notes (pre-issuance accrued interest). In this case, we intend to take the position that a portion of the first interest payment received by you that is attributable to the pre-issuance accrued interest will be treated as a return of a portion of purchase price rather than interest income. You should consult your tax advisor regarding this possible characterization.

If you purchase a note at a price (excluding pre-issuance accrued interest) greater than its stated principal amount, you may elect to amortize the excess of the purchase price over the stated principal amount of the note (the amortizable bond premium) as an offset to interest income, using a constant yield method, over the remaining term of the note. If you elect to amortize the premium, you will be required to reduce your tax basis in the note by the amount of premium amortized during your holding period. If you make this election, it generally will apply to all debt instruments that you hold at the time of the election, as well as any debt instruments that you subsequently acquire, and the election is irrevocable without the consent of the IRS.

Upon a sale, exchange, redemption, retirement or other disposition of a note, you generally will recognize taxable gain or loss equal to the difference between the amount you receive (other than amounts representing accrued and unpaid interest, which will be treated as such) and your adjusted tax basis in the notes. Your adjusted tax basis in a note generally will be the amount you paid for the note, excluding any amounts attributable to pre-issuance accrued interest. Your gain or loss generally will be a capital gain or loss and will be a long-term capital gain or loss if you have held the note for more than one year at the time of disposition. Certain non-corporate U.S. holders are eligible for reduced rate of tax on long-term capital gains. The deductibility of capital losses is subject to limitation. If you sell a note between interest payment dates, a portion of the amount you receive on disposition will reflect interest that has accrued on a note but has not yet been paid by the sale date. This amount will be treated as interest income and not as capital gain.

U.S. Federal Income Tax Consequences to Non-U.S. Holders

Other than as discussed below under Backup Withholding Tax and Information Reporting, if you are a Non-U.S. holder, payments on the notes made to you, including payments of premium (if any) or interest, if any, will be exempt from U.S. federal income and withholding tax, unless:

income arising from such payments is effectively connected with your conduct of a trade or business in the United States, in which case such income will be subject to U.S. federal income tax on a net-income basis (but exempt from U.S. federal withholding tax if you provide us with a properly executed IRS form W-8ECI, or applicable successor form);

you own, actually or constructively, 10% or more of the total combined voting power of all classes of either of the issuers equity entitled to vote, or you are a controlled foreign corporation related, directly or indirectly, to the issuers through actual or constructive stock ownership, in which case such gain will be subject to a 30% U.S. federal withholding tax; or

you fail to provide to us the required certification that you are not a U.S. person or to provide your name and address or otherwise satisfy applicable documentation requirements, in which case such gain will be subject to a 30% U.S. federal withholding tax.

Other than as discussed below under Backup Withholding Tax and Information Reporting, if you are a Non-U.S. holder, you will not be subject to U.S. federal income tax or withholding tax on gain realized on the sale, exchange, redemption or other disposition of the notes unless:

the gain is effectively connected with your conduct of a trade or business in the United States, in which case such gain will be subject to U.S. federal income tax on a net-income basis;

Table of Contents

you are an individual holder present in the United States for 183 days or more in the taxable year of the disposition and certain other conditions are met; or

any such gain represents accrued but unpaid interest, in which case the rules applicable to interest would apply to such amount.

Backup Withholding Tax and Information Reporting

The paying agent must file information returns with the Internal Revenue Service in connection with payments made on the notes to certain U.S. holders. In addition, you may be subject to information reporting with respect to the proceeds from a sale of the notes. If you are a U.S. holder, you generally will not be subject to backup withholding on such payments if you provide your taxpayer identification number to the paying agent. If you are a Non-U.S. holder, you may have to comply with certification procedures to establish your non-U.S. status in order to avoid information reporting on IRS Form 1099 and backup withholding. The certification procedures required to claim the exemption from withholding on interest income described above will satisfy these requirements. The amount of any backup withholding from a payment may be allowed as a credit against your U.S. federal income tax liability and may entitle you to a refund, provided that the required information is timely furnished to the Internal Revenue Service.

Table of Contents**UNDERWRITING**

Merrill Lynch, Pierce, Fenner & Smith Incorporated, Credit Suisse Securities (USA) LLC, Goldman, Sachs & Co., Macquarie Capital (USA) Inc. and Morgan Stanley & Co. LLC are acting as representatives of each of the underwriters named below. Subject to the terms and conditions set forth in an underwriting agreement among us, the underwriters and the guarantors named therein, we have agreed to sell to the underwriters, and each of the underwriters has agreed, severally and not jointly, to purchase from us, the principal amount of additional notes set forth opposite its name below.

<u>Underwriter</u>	Principal Amount of the Additional Notes
Merrill Lynch, Pierce, Fenner & Smith Incorporated	\$ 56,000,000
Credit Suisse Securities (USA) LLC.	11,000,000
Goldman, Sachs & Co.	11,000,000
Macquarie Capital (USA) Inc.	11,000,000
Morgan Stanley & Co. LLC	11,000,000
Total	\$ 100,000,000

Subject to the terms and conditions set forth in the underwriting agreement, the underwriters have agreed, severally and not jointly, to purchase all of the additional notes sold under the underwriting agreement if any of these additional notes are purchased. If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the nondefaulting underwriters may be increased or the underwriting agreement may be terminated.

We have agreed to indemnify the several underwriters and their controlling persons against certain liabilities in connection with this offering, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the additional notes, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the additional notes, and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officer's certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

Commissions and Discounts

The representatives have advised us that the underwriters propose initially to offer the additional notes at the offering price set forth on the cover page of this prospectus supplement. After the initial offering, the offering price or any other term of the offering may be changed.

The expenses of the offering, not including the underwriting discount, are estimated at \$750,000 and are payable by us.

Trading Market

We do not intend to apply for listing of the additional notes on any national securities exchange or for inclusion of the additional notes on any automated dealer quotation system. We have been advised by the

Table of Contents

underwriters that they presently intend to continue to make a market in the notes. However, they are under no obligation to do so and may discontinue any market-making activities at any time without any notice. We cannot assure the liquidity of the trading market for the additional notes or that an active public market for the additional notes will develop. If an active public trading market for the additional notes does not develop, the market price and liquidity of the additional notes may be adversely affected. If the additional notes are traded, they may trade at a discount from their initial offering price, depending on prevailing interest rates, the market for similar securities, our operating performance and financial condition, general economic conditions and other factors.

No Sales of Similar Securities

We have agreed that we will not, for a period of 90 days after the date of this prospectus supplement, without first obtaining the prior written consent of Merrill Lynch, Pierce, Fenner & Smith Incorporated, directly or indirectly, issue, sell, offer to contract or grant any option to sell, pledge, transfer or otherwise dispose of, any debt securities or securities exchangeable for or convertible into debt securities, except for the additional notes sold to the underwriters pursuant to the underwriting agreement.

Short Positions

In connection with the offering, the underwriters may purchase and sell the additional notes in the open market. These transactions may include short sales and purchases on the open market to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater principal amount of additional notes than they are required to purchase in the offering. The underwriters must close out any short position by purchasing additional notes in the open market. A short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the additional notes in the open market after pricing that could adversely affect investors who purchase in the offering.

Similar to other purchase transactions, the underwriters' purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of the additional notes or preventing or retarding a decline in the market price of the additional notes. As a result, the price of the additional notes may be higher than the price that might otherwise exist in the open market.

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the additional notes. In addition, neither we nor any of the underwriters make any representation that the representatives will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Other Relationships

Some of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions. For example, affiliates of Merrill Lynch, Pierce, Fenner & Smith Incorporated, Credit Suisse Securities (USA) LLC, Goldman, Sachs & Co. and Morgan Stanley & Co. LLC are lenders under our Senior Credit Facility and affiliates of Merrill Lynch, Pierce, Fenner & Smith Incorporated, Credit Suisse Securities (USA) LLC, Goldman, Sachs & Co., Macquarie Capital (USA) Inc. and Morgan Stanley & Co. LLC serve in various agency and other capacities under such facilities.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. Certain of the underwriters or their affiliates that have a lending relationship with us routinely hedge

Table of Contents

their credit exposure to us consistent with their customary risk management policies. Typically, such underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the additional notes offered hereby. Any such short positions could adversely affect future trading prices of the additional notes offered hereby. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

OUR COMPANY

General

We are a leading global producer of styrenic block copolymers (SBCs) and other engineered polymers. We market our products under the Kraton® brand. SBCs are highly-engineered synthetic elastomers, which we invented and commercialized almost 50 years ago, that enhance the performance of numerous end use products by imparting greater flexibility, resilience, strength, durability and processability. Our SBC polymers are typically formulated or compounded with other products to achieve improved, customer specific performance characteristics in a variety of applications. We focus on the end use markets we believe offer the highest growth potential and greatest opportunity to differentiate our products from competing products. Within these end use markets, we provide our customers with a broad portfolio of highly-engineered polymers that we believe are value-enhancing and, in many cases, critical to the performance of their products. We seek to maximize the value of our product portfolio by emphasizing complex or specialized polymers and innovations that yield higher margins than more commoditized products. We sometimes refer to these complex or specialized polymers or innovations as being more differentiated. Our products are typically developed using our proprietary, and in many cases patent-protected, technology and require significant engineering, testing and certification. In 2011, we were awarded 79 patents for new products or applications and at December 31, 2011, we had 1,136 granted patents and 286 pending patent applications. We believe our almost 50-year track record of innovation, long-standing customer relationships and global infrastructure position us well to successfully execute our strategies.

Our SBC products are found in many everyday applications, including disposable diapers, the rubberized grips of toothbrushes, razor blades and power tools and asphalt formulations used to pave roads. We also produce Cariflex, isoprene rubber (IR) and isoprene rubber latex (IRL). Our Cariflex™ products are highly-engineered, non-SBC synthetic substitutes for natural rubber latex. Our IRL products, which have not been found to contain the proteins present in natural rubber latex and are, therefore, not known to cause allergies, are used in applications such as surgical gloves and condoms. We believe the versatility of IRL provides opportunities for new, high-margin applications. In addition to IRL, we have a portfolio of innovations at various stages of development and commercialization, including polyvinyl chloride (PVC), alternatives for wire, cable and medical applications, and polymers for use in slush molding for automotive applications, and our Nexar™ family of membrane polymers for applications such as water filtration and breathable fabrics.

Our total capacity as of December 31, 2011 was approximately 420 kilotons. We generated approximately \$1,437.5 million of sales revenue and 303.0 kilotons of sales volume for the year ended December 31, 2011. In 2011, we generated 14.3% of our sales revenue from innovation-driven revenue, which we define as revenue from products or applications introduced in the preceding five years. Our customers are diversified by industry and geography with more than 800 customers in over 60 countries. We manufacture our polymers at five manufacturing facilities globally, including our flagship facility in Belpre, Ohio, as well as facilities in Germany, France, Brazil, and Japan. The facility in Japan is operated by an unconsolidated manufacturing joint venture.

We have had relationships with many of our customers for 15 years or more and work closely with our customers to design products that meet application-specific performance and quality requirements. We have a diverse customer base, with no single customer accounting for more than 10.0% of our sales revenue in 2011 and our top 10 customers together representing approximately 29.2% of our sales revenues in 2011. Because of the technical expertise and investment required to develop many of our product formulations and the lead times required to replace them, our customers would likely incur additional costs by changing to an alternative vendor.

Over the past several years, we have implemented a range of strategic initiatives designed to enhance our profitability and end use market position. These include fixed asset investments to expand our capacity in specialized products, to enhance productivity at our existing facilities and to reduce our fixed costs through headcount reductions, production line closures at our Pernis, the Netherlands, facility (Pernis) and system upgrades. During this period, we have substantially exited the footwear applications business, which typically yielded lower margins than our other core end use markets, and implemented pricing strategies designed to

Table of Contents

enhance our overall margins and return on invested capital. We believe these initiatives provide us with a platform to benefit from volume growth that may occur in our end use markets.

Any such required prospectus or prospectus supplement, and, if necessary, a post-effective amendment to the registration statement of which this prospectus is a part, will be filed with the SEC to reflect the disclosure of additional information with respect to the distribution of notes covered by this prospectus.

To facilitate the offering of the additional notes covered by this prospectus, certain persons participating in the offering may engage in transactions that stabilize, maintain or otherwise affect the price of the additional notes. This may include over-allotments or short sales of the securities, which involve the sale by persons participating in the offering of more securities than we sold to them. In these circumstances, these persons would cover such over-allotments or short positions by making purchases in the open market or by exercising their over-allotment option, if any. In addition, these persons may stabilize or maintain the price of the securities by bidding for or purchasing securities in the open market or by imposing penalty bids, whereby selling concessions allowed to dealers participating in the offering may be reclaimed if securities sold by them are repurchased in connection with stabilization transactions. The effect of these transactions may be to stabilize or maintain the market price of the securities at a level above that which might otherwise prevail in the open market. These transactions may be discontinued at any time.

In the ordinary course of their business activities, any underwriter, broker-dealer or agent and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments. Such investment and securities activities may involve our securities and other instruments. Any underwriter, broker-dealer or agent and their respective affiliates may also engage in transactions with or perform services for us or provide other types of financing to us in the ordinary course of their business.

To the extent required, this prospectus may be amended and/or supplemented from time to time to describe a specific plan of distribution.
