**FORESTAR GROUP INC.**

**Notes to Consolidated Financial Statements**

**(Unaudited)**

**Note 1 Basis of Presentation**

Our consolidated financial statements include the accounts of Forestar Group Inc., all subsidiaries, ventures and other entities in which we have a controlling interest and variable interest entities of which we are the primary beneficiary. We eliminate all material intercompany accounts and transactions. Noncontrolling interests in consolidated pass-through entities are recognized before income taxes. We account for our investment in other entities in which we have significant influence over operations and financial policies using the equity method (we recognize our share of the entities' income or loss and any preferential returns and treat distributions as a reduction of our investment). We account for our investment in other entities in which we do not have significant influence over operations and financial policies using the cost method (we recognize as income distributions of accumulated earnings).

We prepare our unaudited interim financial statements in accordance with U.S. generally accepted accounting principles and Securities and Exchange Commission requirements for interim financial statements. As a result, they do not include all the information and disclosures required for complete financial statements. However, in our opinion, all adjustments considered necessary for a fair presentation have been included. Such adjustments consist only of normal recurring items unless otherwise noted. We make estimates and assumptions about future events. Actual results can, and probably will, differ from those we currently estimate including those related to allocating cost of sales to real estate, minerals and fiber and measuring assets for impairment. These interim operating results are not necessarily indicative of the results that may be expected for the entire year. For further information, please read the financial statements included in our 2011 Annual Report on Form 10-K.

**Note 2 New and Pending Accounting Pronouncements**

*Accounting Standards Adopted in 2012*

In first quarter 2012, we adopted Accounting Standards Update (ASU) 2011-04 *Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* and ASU 2011-05 *Comprehensive Income (Topic 220): Presentation of Comprehensive Income*. Adoption of these pronouncements did not affect our earnings or financial position.

*Pending Accounting Standards*

Pending ASU 2011-10 *Property, Plant, and Equipment: Derecognition of in Substance Real Estate* will be effective first quarter 2013. Adoption is not anticipated to have a significant effect on our earnings or financial position but may result in certain additional disclosures.

**Note 3 Business Acquisitions**

On March 29, 2012, we acquired from CL Realty, L.L.C. and Temco Associates, LLC, the ventures' interest in 17 residential and mixed-use real estate projects for \$47,000,000. Subsequent to the closing of these acquisitions, we received \$23,370,000 from the ventures, representing our pro-rata share of distributable cash. The purchase price was allocated to the acquired assets and liabilities based on their estimated fair value: \$31,891,000 to real estate; \$14,236,000 to investment in unconsolidated ventures; \$1,385,000 to other assets, principally cash; and \$512,000 to liabilities directly related to the real estate acquired. Transaction costs of about \$432,000 are included in other operating expense in first quarter 2012.

The acquired assets and operating results are included within our real estate segment and at first quarter-end 2012 represent approximately 1,130 fully developed lots, 4,900 planned lots and over 460 commercial acres, principally in the major markets of Texas. Operating results of the acquired assets in first quarter 2012 were not significant. Pro forma consolidated operating income (loss) assuming these acquisitions had occurred at the beginning of 2011 would not be significantly different than those reported.

**Table of Contents****Note 4 Real Estate**

Real estate consists of:

	First Quarter-End 2012	Year-End 2011
	(In thousands)	
Entitled, developed and under development projects	\$ 414,325	\$ 383,026
Undeveloped land	81,078	80,076
Commercial and income producing properties		
Carrying value	137,716	129,220
Accumulated depreciation	(27,836)	(26,955)
Net carrying value	109,880	102,265
	\$ 605,283	\$ 565,367

Included in entitled, developed and under development projects are the estimated costs of assets we expect to convey to utility and improvement districts of \$63,573,000 at first quarter-end 2012 and \$61,526,000 at year-end 2011, including \$34,802,000 included in both first quarter-end 2012 and year-end 2011 related to our Cibolo Canyons project near San Antonio, Texas. These costs relate to water, sewer and other infrastructure assets we have submitted to utility or improvement districts for approval and reimbursement. We submitted for reimbursement to these districts \$2,296,000 in first quarter 2012 and \$1,800,000 in first quarter 2011. We collected \$108,000 from these districts in first quarter 2012 and \$36,000 in first quarter 2011. We expect to collect the remaining amounts billed when these districts achieve adequate tax bases to support payment.

Also included in entitled, developed and under development projects is our investment in the resort development owned by third parties at our Cibolo Canyons project. At first-quarter-end 2012, we have \$35,368,000 invested in the resort development.

In first quarter 2012, entitled, developed and under development projects increased by \$31,891,000 as result of our acquisition of certain residential and mixed-use projects from CL Realty and Temco. Please read **Note 3** for additional information.

At first quarter-end 2012, commercial and income producing properties primarily represents our investment in a 401 unit multifamily property in Houston with a carrying value of \$46,344,000, a 413 guest room hotel in Austin with a carrying value of \$20,844,000 and a 289 unit multifamily project in Austin, currently under construction, with a carrying value of \$21,193,000. In first quarter 2012, we invested \$7,765,000 in construction costs associated with this property and the estimated cost to complete construction is approximately \$9,343,000.

Depreciation expense, primarily related to commercial and income producing properties, was \$882,000 in first quarter 2012 and \$879,000 in first quarter 2011 and is included in other operating expenses.

**Note 5 Timber**

We own directly or through ventures about 130,000 acres of timber, primarily in Georgia and about 17,000 acres of timber under lease. The non-cash cost of timber cut and sold was \$97,000 in first quarter 2012 and \$242,000 in first quarter 2011.

**Note 6 Shareholders Equity**

A reconciliation of changes in shareholders equity at first quarter-end 2012 follows:

	Forestar- Group Inc.	Noncontrolling Interests (In thousands)	Total
Balance at year-end 2011	\$ 509,526	\$ 1,686	\$ 511,212

Edgar Filing: Forestar Group Inc. - Form 10-Q

Net income	2,802	695	3,497
Distributions to noncontrolling interests		(676)	(676)
Contributions from noncontrolling interests		205	205
Other (primarily share-based compensation)	2,679		2,679
Balance at first quarter-end 2012	\$ 515,007	\$ 1,910	\$ 516,917

**Table of Contents**

In first quarter 2012, we issued 107,072 shares of our common stock as a result of stock option exercises and vesting of equity-settled restricted stock units.

**Note 7 Investment in Unconsolidated Ventures**

At first quarter-end 2012, we had ownership interests generally ranging from 25 to 50 percent in 11 ventures that we account for using the equity method. We have no real estate ventures that are accounted for using the cost method.

In first quarter 2012, we acquired from CL Realty and Temco their interest in 17 residential and mixed-use projects for \$47,000,000, principally representing \$31,891,000 in real estate and \$14,236,000 in investment in unconsolidated ventures. Please read **Note 3** for additional information. Also in first quarter 2012, we sold our 25 percent interest in Palisades West LLC, which owns two office buildings and an accompanying parking garage in Austin, to Dimensional Fund Advisors, LP for \$32,095,000, resulting in a gain on sale of \$11,675,000.

Summary information regarding our ventures at first quarter-end 2012 follows:

CL Realty's remaining assets consist of one commercial development site located on the Texas gulf coast and about 900 net mineral acres leased in the Fort Worth Basin with about 23 wells currently producing from the Barnett Shale natural gas formation.

Temco's remaining assets consist of about 5,700 acres of undeveloped land and a golf course and country club property, both located in Paulding County, Georgia.

Other ventures include three investments in unconsolidated ventures acquired from CL Realty and our net share of the equity in these ventures is \$14,660,000 at first quarter-end 2012. These investments represent residential and mixed-use projects located in Houston and San Antonio.

Combined summarized balance sheet information for our ventures accounted for using the equity method follows:

	First Quarter-End 2012					Year-End 2011

Palisades West		364
Other ventures <sup>(c)</sup>	467	(8)
Amortization of deferred gain	10	
Total	\$ 724	\$ 582

**Table of Contents**

- (a) Total includes current maturities of \$73,146,000 at first quarter-end 2012, of which \$44,062,000 is non-recourse to us, and \$71,816,000 at year-end 2011, of which \$43,144,000 is non-recourse to us.
- (b) Principally included deferred income from leasehold improvements funded by tenants in excess of leasehold improvement allowances. These amounts were recognized as rental income over the lease term and were offset by depreciation expense related to these tenant improvements. There was no effect on venture net income.
- (c) Our share of the equity in other ventures reflects our ownership interests generally ranging from 25 to 50 percent, excluding venture losses that exceed our investment where we are not obligated to fund those losses.

- (d) Represents deferred gains on real estate contributed by us to ventures. We are recognizing income as real estate is sold to third parties. The deferred gains are reflected as a reduction to our investment in unconsolidated ventures.

In first quarter 2012, we invested \$117,000 in these ventures and received \$266,000 in distributions; in first quarter 2011, we invested \$673,000 in these ventures and received \$3,044,000 in distributions. Distributions include both return of investments and distributions of earnings.

At first quarter-end 2012, other ventures include three partnerships we participate in that have total assets of \$48,967,000 and total liabilities of \$79,335,000, which includes \$63,463,000 of borrowings classified as current maturities. These partnerships are managed by third parties who intend to extend or refinance these borrowings; however, there is no assurance that this can be done. Although these borrowings may be guaranteed by third parties, we may under certain circumstances elect or be required to provide additional equity to these partnerships. We do not believe that the ultimate resolution of these matters will have a significant effect on our earnings or financial position. Our investment in these partnerships is \$1,884,000 at first quarter-end 2012. These three partnerships are variable interest entities. Please read **Note 16** for additional information.

We have provided performance bonds and letters of credit on behalf of certain ventures totaling \$310,000 at first quarter-end 2012. Generally these performance bonds and letters of credit would be drawn on due to lack of performance by us or the ventures, such as failure to timely deliver streets and utilities in accordance with local codes and ordinances.

**Note 8 Receivables**

Receivables consists of:

	First Quarter- End 2012	Year-End 2011
	(In thousands)	
Non-performing loan	\$ 20,666	\$ 20,666
Notes receivable, average interest rates of 7.50% at first quarter-end 2012 and 7.16% at year-end 2011	1,594	1,817
Receivables and accrued interest	2,258	860
	24,518	23,343
Allowance for bad debts	(62)	(62)
	\$ 24,456	\$ 23,281

At first quarter-end 2012, we have \$20,666,000 invested in a non-performing loan acquired from a financial institution in 2011. The loan matured in February 2010 and the outstanding balance is about \$35,464,000 at first quarter-end 2012. The loan is secured by a lien on 900 acres

Edgar Filing: Forestar Group Inc. - Form 10-Q

of developed and undeveloped real estate located near Houston designated for single-family residential and

**Table of Contents**

commercial development. Through first quarter-end 2012, we have not recorded any accretable yield due the non-performing status of the loan and our inability to estimate future cash flows as the borrower has been in bankruptcy. On March 13, 2012, the bankruptcy court approved a plan of reorganization of the borrower which became effective in second quarter 2012. The reorganization established a principal amount of \$33,800,000 maturing in April 2017. Interest will accrue at 9 percent the first three years escalating to 10 percent in year four and 12 percent in year five, subject to interest rate reductions if the loan is prepaid by certain dates.

Notes receivable generally are secured by a deed of trust and generally due within three years.

Receivables and accrued interest principally include miscellaneous operating receivables arising in the normal course of business.

**Note 9 Debt**

Debt consists of:

	First Quarter-End 2012	Year-End 2011
	(In thousands)	
Senior secured credit facility		
Term loan facility average interest rate of 6.50% at first quarter-end 2012 and year-end 2011	\$ 130,000	\$ 130,000
Revolving line of credit average interest rate of 7.50% at first quarter-end 2012	6,000	
Secured promissory notes average interest rate of 4.32% at first quarter-end 2012 and 4.34% at year-end 2011	41,900	41,900
Other indebtedness due through 2017 at variable and fixed interest rates ranging from 5.00% to 8.00%	49,965	49,687
	\$ 227,865	\$ 221,587

Our debt agreements contain financial covenants customary for such agreements including minimum levels of interest coverage and limitations on leverage. At first quarter-end 2012, we were in compliance with the financial covenants of these agreements.

At first quarter-end 2012, our senior secured credit facility provides for a \$130,000,000 term loan maturing August 6, 2015 and a \$200,000,000 revolving line of credit maturing August 6, 2014. The term loan and the revolving line of credit may be prepaid at any time without penalty. The revolving line of credit includes a \$100,000,000 sublimit for letters of credit, of which \$2,467,000 is outstanding at first quarter-end 2012. Total borrowings under our senior secured credit facility (including the face amount of letters of credit) may not exceed a borrowing base formula. At first quarter-end 2012, we had \$154,878,000 in net unused borrowing capacity under our senior secured credit facility.

At our option, we can borrow at LIBOR plus 4.5 percent (subject to a 2 percent LIBOR floor) or prime plus 2.5 percent. Borrowings under the senior secured credit facility are secured by (a) all timberland, land in entitlement process, minerals and certain raw entitled land, (b) assignments of current and future leases, rents and contracts, including our mineral leases, (c) a security interest in our primary operating account, (d) pledge of the equity interests in current and future material operating subsidiaries or joint venture interests, or if such pledge is not permitted, a pledge of the right to distributions from such entities, to the extent permitted, and (e) negative pledge (without a mortgage) on all other wholly-owned assets. The senior secured credit facility provides for releases of real estate provided that borrowing base compliance is maintained.

At first quarter-end 2012, secured promissory notes include a \$26,500,000 non-recourse loan collateralized by a 401 unit multifamily project located in Houston with a carrying value of \$46,344,000. This secured promissory note includes a prepayment penalty for payments prior to July 1, 2017 and no prepayment penalty thereafter. The prepayment penalty is based on the difference between the fixed annual note rate of 4.94 percent and the assumed reinvestment rate based on the five year treasury constant maturity rate. Secured promissory notes also include a \$15,400,000 loan collateralized by a 413 guest room hotel located in Austin with a carrying value of \$20,844,000 at first quarter-end 2012.

## Edgar Filing: Forestar Group Inc. - Form 10-Q

At first quarter-end 2012, other indebtedness, principally non-recourse, is collateralized by entitled, developed and under development projects with a carrying value of \$112,437,000.

At first quarter-end 2012, we have \$7,654,000 in unamortized deferred financing fees which are included in other assets. Amortization of deferred financing fees was \$740,000 in first quarter 2012 and \$604,000 in first quarter 2011 and is included in interest expense.

**Table of Contents****Note 10 Fair Value**

Non-financial assets measured at fair value on a non-recurring basis principally include real estate assets, assets held for sale, goodwill and other intangible assets, which are measured for impairment. In first quarter 2012 and 2011, no non-financial assets were remeasured at fair value.

We elected not to use the fair value option for cash and cash equivalents, accounts receivable, other current assets, variable debt, accounts payable and other current liabilities. The carrying amounts of these financial instruments approximate their fair values due to their short-term nature or variable interest rates. We determine the fair value of fixed rate financial instruments using quoted prices for similar instruments in active markets.

Information about our fixed rate financial instruments not measured at fair value follows:

	First Quarter-End 2012		Year-End 2011		Valuation Technique
	Carrying Amount	Fair Value	Carrying Amount	Fair Value	
Fixed rate debt	\$ (29,931)	\$ (32,017)	\$ (29,931)	\$ (32,478)	Level 2

**Note 11 Capital Stock**

Pursuant to our stockholder rights plan, each share of common stock outstanding is coupled with one-quarter of a preferred stock purchase right (Right). Each Right entitles our stockholders to purchase, under certain conditions, one one-hundredth of a share of newly issued Series A Junior Participating Preferred Stock at an exercise price of \$100. Rights will be exercisable only if someone acquires beneficial ownership of 20 percent or more of our common shares or commences a tender or exchange offer, upon consummation of which they would beneficially own 20 percent or more of our common shares. We will generally be entitled to redeem the Rights at \$0.001 per Right at any time until the 10th business day following public announcement that a 20 percent position has been acquired. The Rights will expire on December 11, 2017.

Please read **Note 17** for information about additional shares of common stock that could be issued under terms of our share-based compensation plans.

As a result of the 2007 spin-offs from Temple-Inland, at first quarter-end 2012, personnel of Temple-Inland and the other spin-off entity held options to purchase 986,000 shares of our common stock. The options have a weighted average exercise price of \$22.45 and a weighted average remaining contractual term of three years. At first quarter-end 2012, the options have an aggregate intrinsic value of \$770,000.

**Note 12 Net Income per Share**

Earnings attributable to common shareholders and weighted average common shares outstanding used to compute earnings per share were:

	First Quarter	
	2012	2011
	(In thousands)	
Earnings available to common shareholders:		
Consolidated net income (loss)	\$ 3,497	\$ (1,704)
Less: Net income attributable to noncontrolling interest	(695)	(769)
Net income (loss) attributable to Forestar Group Inc.	\$ 2,802	\$ (2,473)
Weighted average common shares outstanding basic	34,855	35,406
Dilutive effect of stock options	118	
Dilutive effect of restricted stock and equity-settled awards	196	

Edgar Filing: Forestar Group Inc. - Form 10-Q

Weighted average common shares outstanding	diluted	35,169	35,406
Anti-dilutive awards excluded from diluted weighted average shares outstanding		2,283	3,186

**Table of Contents****Note 13 Income Taxes**

Our effective tax rate was 32 percent in first quarter 2012, which includes a 4 percent benefit for noncontrolling interests. Our effective tax rate was a benefit of 29 percent in first quarter 2011, which included a 13 percent non-cash charge for share based compensation. In addition, 2012 and 2011 effective tax rates include the effect of state income taxes, nondeductible items and benefits of percentage depletion and the 2011 rate includes the effect of charitable contributions related to timberland conservation.

We have not provided a valuation allowance for our deferred tax asset because we believe it is likely it will be recoverable in future periods.

At first quarter-end 2012, our unrecognized tax benefits totaled \$6,138,000, all of which would affect our effective tax rate if recognized.

**Note 14 Commitments and Contingencies***Litigation*

We are involved in various legal proceedings that arise from time to time in the ordinary course of doing business and believe that adequate reserves have been established for any probable losses. We do not believe that the outcome of any of these proceedings should have a significant adverse effect on our financial position, long-term results of operations or cash flows. It is possible, however, that charges related to these matters could be significant to our results or cash flows in any one accounting period.

*Environmental*

Environmental remediation liabilities arise from time to time in the ordinary course of doing business, and we believe we have established adequate reserves for any probable losses that we can reasonably estimate. We own 288 acres near Antioch, California, portions of which were sites of a former Temple-Inland paper manufacturing operation that are in remediation. We have received certificates of completion on all but one 80 acre tract, a portion of which includes subsurface contamination. We estimate the cost to complete remediation activities will be approximately \$2,372,000, which is included in other accrued expenses. It is possible that remediation or monitoring activities could be required in addition to those included within our estimate, but we are unable to determine the scope, timing or extent of such activities.

**Note 15 Segment Information**

We manage our operations through three business segments: real estate, mineral resources and fiber resources. Real estate secures entitlements and develops infrastructure on our lands for single-family residential and mixed-use communities, and manages our undeveloped land, commercial and income producing properties, primarily a hotel and a multifamily property. Mineral resources manages our oil, natural gas and water interests. Fiber resources manages our timber and recreational leases.

Assets allocated by segment are as follows:

	First Quarter-End 2012	Year-End 2011
	(In thousands)	
Real estate	\$ 668,599	\$ 657,661
Mineral resources	21,705	19,130
Fiber resources	14,123	14,444
Assets not allocated to segments	93,344	103,622
<b>Total assets</b>	<b>\$ 797,771</b>	<b>\$ 794,857</b>

We evaluate performance based on segment earnings (loss) before unallocated items and income taxes. Segment earnings (loss) consist of operating income, equity in earnings (loss) of unconsolidated ventures and net (income) loss attributable to noncontrolling interests. Items not allocated to our business segments consist of general and administrative expense, share-based compensation, gain on sale of strategic timberland, interest expense and other non-operating income and expense. The accounting policies of the segments are the same as those

## Edgar Filing: Forestar Group Inc. - Form 10-Q

described in the accounting policy note to the consolidated financial statements. Our revenues are derived from our U.S. operations and all of our assets are located in the U.S. In first quarter 2012, no single customer accounted for more than 10 percent of our total revenues.

**Table of Contents**

Segment revenues and earnings are as follows:

	First Quarter 2012                      2011 (In thousands)	
<b>Revenues:</b>		
Real estate	\$ 17,922	\$ 21,139
Mineral resources	9,426	7,333
Fiber resources	744	1,368
<b>Total revenues</b>	<b>\$ 28,092</b>	<b>\$ 29,840</b>
<b>Segment earnings:</b>		
Real estate	\$ 11,577	\$ 2,575
Mineral resources	5,875	5,598
Fiber resources	390	640
<b>Total segment earnings</b>	<b>17,842</b>	<b>8,813</b>
Items not allocated to segments <sup>(a)</sup>	(13,420)	(11,998)
<b>Income (loss) before taxes attributable to Forestar Group Inc.</b>	<b>\$ 4,422</b>	<b>\$ (3,185)</b>

(a) Items not allocated to segments consist of:

	First Quarter 2012                      2011 (In thousands)	
General and administrative expense	\$ (4,362)	\$ (3,916)
Shared-based compensation expense	(5,231)	(4,100)
Interest expense	(3,891)	(4,009)
Other non-operating income	64	27
	<b>\$ (13,420)</b>	<b>\$ (11,998)</b>

**Note 16 Variable Interest Entities**

At first quarter-end 2012, we are the primary beneficiary of two VIEs that we consolidate. We have provided the majority of equity to these VIEs, which absent our contributions or advances do not have sufficient equity to fund their operations. We have the authority to approve project budgets and the issuance of additional debt. At first quarter-end 2012, our consolidated balance sheet includes \$15,687,000 in assets, principally real estate, and \$2,920,000 in liabilities related to these two VIEs. In first quarter 2012, we contributed or advanced \$559,000 to these VIEs.

Also at first quarter-end 2012, we are not the primary beneficiary of three VIEs that we account for using the equity method. The unrelated managing partners oversee day-to-day operations and guarantee some of the debt of the VIEs while we have the authority to approve project budgets and the issuance of additional debt. Although some of the debt is guaranteed by the managing partners, we may under certain circumstances elect or be required to provide additional funds to these VIEs. At first quarter-end 2012, these three VIEs have total assets of \$48,967,000, substantially all of which represent developed and undeveloped real estate and total liabilities of \$79,335,000, which includes \$63,463,000 of borrowings classified as current maturities. These amounts are included in other ventures in the combined summarized balance sheet information for ventures accounted for using the equity method in **Note 7**. At first quarter-end 2012, our investment in these three VIEs is \$1,884,000 and is included in investment in unconsolidated ventures. In first three months 2012, we contributed or advanced \$37,000 to these VIEs. Our maximum exposure to loss related to these VIEs is estimated at \$34,695,000, which exceeds our investment as we have a nominal

## Edgar Filing: Forestar Group Inc. - Form 10-Q

general partner interest in two of these VIEs and could be held responsible for their liabilities. The maximum exposure to loss represents the maximum loss that we could be required to recognize assuming all the ventures' assets (principally real estate) are worthless, without consideration of the probability of a loss or of any actions we may take to mitigate any such loss.

**Table of Contents****Note 17 Share-Based Compensation**

Share-based compensation expense consists of:

	<b>First Quarter</b>	
	<b>2012</b>	<b>2011</b>
	<b>(In thousands)</b>	
Cash-settled awards	\$ 2,082	\$ 2,169
Equity-settled awards	1,274	149
Restricted stock	614	663
Stock options	1,261	1,119
	<b>\$ 5,231</b>	<b>\$ 4,100</b>

Share-based compensation expense is included in:

	<b>First Quarter</b>	
	<b>2012</b>	<b>2011</b>
	<b>(In thousands)</b>	
General and administrative expense	\$ 2,601	\$ 2,055
Other operating expense	2,630	2,045
	<b>\$ 5,231</b>	<b>\$ 4,100</b>

Share-based compensation increased principally as result of new awards granted in first quarter 2012 and an increase in our expected stock price volatility rate assumptions used in valuing new awards and existing awards.

The fair value of awards granted to retirement eligible employees and expensed at the date of grant was \$595,000 in first quarter 2012 and \$654,000 in first quarter 2011. Unrecognized share-based compensation expense related to non-vested equity-settled awards, restricted stock and stock options is \$12,899,000 at first quarter-end 2012. The weighted average period over which this amount will be recognized is estimated to be two years. We did not capitalize any share-based compensation in first quarter 2012 or 2011.

In first quarter 2012, we withheld 70,894 shares having a value of \$1,148,000 in connection with vesting of restricted stock awards and exercises of stock options. In first quarter 2011, we withheld 63,000 shares having a value of \$1,190,000 in connection with vesting of restricted stock awards and exercises of stock options. These shares are included in treasury stock and are reflected in financing activities in our consolidated statement of cash flows.

A summary of awards granted under our 2007 Stock Incentive Plan follows:

***Cash-settled awards***

Cash-settled awards granted to our employees in the form of restricted stock units or stock appreciation rights generally vest over three to four years from the date of grant and generally provide for accelerated vesting upon death, disability or if there is a change in control. Vesting for some restricted stock unit awards is also conditioned upon achievement of a minimum one percent annualized return on assets over a three-year period. Cash-settled stock appreciation rights have a ten-year term, generally become exercisable ratably over four years and provide for accelerated or continued vesting upon retirement, death, disability or if there is a change in control. Stock appreciation rights were granted with an exercise price equal to the market value of our stock on the date of grant.

Cash-settled awards granted to our directors in the form of restricted stock units are fully vested at the time of grant and payable upon retirement.

**Table of Contents**

The following table summarizes the activity of cash-settled restricted stock unit awards in the first quarter 2012:

	Equivalent Units (In thousands)	Weighted Average Grant Date Fair Value (Per unit)
Non-vested at beginning of period	449	\$ 13.13
Granted	187	16.11
Vested	(286)	10.32
Forfeited		
Non-vested at end of period	350	\$ 17.03

The following table summarizes the activity of cash-settled stock appreciation rights in first quarter 2012:

	Rights Outstanding (In thousands)	Weighted Average Exercise Price (Per share)	Weighted Average Remaining Contractual Term (In years)	Aggregate Intrinsic Value (Current Value Less Exercise Price) (In thousands)
Balance at beginning of period	895	\$ 11.31	7	\$ 3,986
Granted				
Exercised	(4)	9.29		
Forfeited				
Balance at end of period	891	\$ 11.32	7	\$ 4,137
Exercisable at end of period	613	\$ 10.79	7	\$ 3,084

The fair value of awards settled in cash was \$4,671,000 in first quarter 2012 and \$184,000 in first quarter 2011. At first quarter-end 2012, the fair value of vested cash-settled awards is \$14,927,000 and is included in other liabilities. The aggregate current value of non-vested cash-settled awards is \$6,432,000 at first quarter-end 2012 based on a quarter-end stock price of \$15.39.

**Equity-settled awards**

Equity-settled awards granted to our employees include restricted stock units (RSU), which vest ratably over three years from the date of grant, and market-leveraged stock units (MSU), which vest after three years. Equity settled awards in the form of restricted stock units granted to our directors are fully vested at time of grant and payable upon retirement. The following table summarizes the activity of equity-settled awards in first quarter 2012:

	Equivalent Units (In thousands)	Weighted Average Grant Date Fair Value (Per share)
Non-vested at beginning of period	159	\$ 20.74
Granted	278	17.56
Vested	(68)	16.11
Forfeited		

## Edgar Filing: Forestar Group Inc. - Form 10-Q

Non-vested at end of period	369	\$	19.20
-----------------------------	-----	----	-------

In first quarter 2012, we granted 154,900 MSU awards. These awards will be settled in common stock based upon our stock price performance over three years from the date of grant. The number of shares to be issued could range from a high of 232,370 shares if our stock price increases by 50 percent or more, to a low of 77,460 shares if our stock price decreases by 50 percent, or could be zero if our stock price decreases by more than 50 percent, the minimum threshold performance. MSU awards are valued using a Monte Carlo simulation pricing model, which includes expected stock price volatility and risk-free interest rate assumptions. Compensation expense is recognized regardless of achievement of performance conditions, provided the requisite service period is satisfied.

**Table of Contents**

Unrecognized share-based compensation expense related to non-vested equity-settled awards is \$5,221,000 at first quarter-end 2012. The weighted average period over which this amount will be recognized is estimated to be two years.

**Restricted stock**

Restricted stock awards vest either ratably over or after three years, generally if we achieve a minimum one percent annualized return on assets over such three-year period. The following table summarizes the activity of restricted stock awards in first quarter 2012:

	<b>Restricted Shares (In thousands)</b>	<b>Weighted Average Grant Date Fair Value (Per share)</b>
Non-vested at beginning of period	399	\$ 15.02
Granted		
Vested	(183)	12.65
Forfeited		
Non-vested at end of period	216	\$ 17.03

Unrecognized share-based compensation expense related to non-vested restricted stock awards is \$2,147,000 at first quarter-end 2012. The weighted average period over which this amount will be recognized is estimated to be one year.

**Stock options**

Stock options have a ten-year term, generally become exercisable ratably over four years and provide for accelerated or continued vesting upon retirement, death, disability or if there is a change in control. Options were granted with an exercise price equal to the market value of our stock on the date of grant. The following table summarizes the activity of stock option awards in first quarter 2012:

	<b>Options Outstanding (In thousands)</b>	<b>Weighted Average Exercise Price (Per share)</b>	<b>Weighted Average Remaining Contractual Term (In years)</b>	<b>Aggregate Intrinsic Value (Current Value Less Exercise Price) (In thousands)</b>
Balance at beginning of period	1,284	\$ 22.22	7	\$ 944
Granted	453	16.11		
Exercised				
Forfeited				
Balance at end of period	1,737	\$ 20.62	8	\$ 986
Exercisable at end of period	910	\$ 24.20	7	\$ 740

We estimate the fair value of stock options using the Black-Scholes option pricing model and the following assumptions:

	<b>First Quarter</b>	
	<b>2012</b>	<b>2011</b>
Expected dividend yield	0 %	0 %
Expected stock price volatility	61.8 %	56.2 %
Risk-free interest rate	1.4 %	2.4 %

## Edgar Filing: Forestar Group Inc. - Form 10-Q

Expected life of options (years)	6	6
Weighted average estimated fair value of options granted	\$ 9.32	\$ 10.11

We have limited historical experience as a stand-alone company so we utilized alternative methods in determining our valuation assumptions. The expected life was based on the simplified method utilizing the midpoint between the vesting period and the contractual life of the awards. Our expected stock price volatility is based on a blended rate utilizing our historical volatility and historical prices of our peers' common stock for a period corresponding to the expected life of the options. Pre-vesting forfeitures are estimated based upon the pool of participants and their expected activity and historical trends.

**Table of Contents**

Unrecognized share-based compensation expense related to non-vested stock options is \$5,531,000 at first quarter-end 2012. The weighted average period over which this amount will be recognized is estimated to be three years.

***Pre-Spin Awards***

Certain of our employees participated in Temple-Inland's share-based compensation plans. In conjunction with the 2007 spin-off, these awards were equitably adjusted into separate awards of the common stock of Temple-Inland and the spin-off entities. As result of Temple-Inland's merger with International Paper's in first quarter 2012, all outstanding awards on Temple-Inland stock were settled with an intrinsic value of \$1,132,000.

Pre-Spin stock option awards to our employees to purchase our common stock have a ten-year term, generally become exercisable ratably over four years and provide for accelerated or continued vesting upon retirement, death, disability or if there is a change in control. At first quarter-end 2012, there were 69,000 awards outstanding and exercisable on our stock with a weighted average exercise price of \$23.17, weighted average remaining term of three years and aggregate intrinsic value of \$69,000.

**Note 18 Subsequent Events**

On April 20, 2012, Forestar/RPG Land Company LLC, a consolidated venture, sold approximately 800 acres near Dallas, Texas (Light Farms real estate project) for \$56,000,000 total consideration. We received \$25,000,000 in distributable cash from the venture, reduced our consolidated debt by approximately \$31,000,000, and recognized a gain on sale of approximately \$3,400,000.

## **Table of Contents**

### **Item 2. *Management's Discussion and Analysis of Financial Condition and Results of Operations***

Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with the financial statements and Management's Discussion and Analysis of Financial Condition and Results of Operations in our 2011 Annual Report on Form 10-K. Unless otherwise indicated, information is presented as of first quarter-end 2012, and references to acreage owned includes all acres owned by ventures regardless of our ownership interest in a venture.

### **Forward-Looking Statements**

This Quarterly Report on Form 10-Q and other materials we have filed or may file with the Securities and Exchange Commission contain forward-looking statements within the meaning of the federal securities laws. These forward-looking statements are identified by their use of terms and phrases such as believe, anticipate, could, estimate, likely, intend, may, plan, expect, and similar expressions, including assumptions. These statements reflect our current views with respect to future events and are subject to risks and uncertainties. We note that a variety of factors and uncertainties could cause our actual results to differ significantly from the results discussed in the forward-looking statements. Factors and uncertainties that might cause such differences include, but are not limited to:

general economic, market or business conditions in Texas or Georgia, where our real estate activities are concentrated;

our ability to achieve some or all of our strategic initiatives;

the opportunities (or lack thereof) that may be presented to us and that we may pursue;

significant customer concentration;

future residential, multifamily or commercial entitlements, development approvals and the ability to obtain such approvals;

obtaining approvals of reimbursements and other payments from special improvement districts and the timing of such payments

accuracy of estimates and other assumptions related to investment in real estate, the expected timing and pricing of land and lot sales and related cost of real estate sales, impairment of long-lived assets, income taxes, share-based compensation and oil and natural gas reserves;

the levels of resale housing inventory and potential impact of foreclosures in our mixed-use development projects and the regions in which they are located;

fluctuations in costs and expenses;

demand for new housing, which can be affected by a number of factors including the availability of mortgage credit;

competitive actions by other companies;

## Edgar Filing: Forestar Group Inc. - Form 10-Q

changes in governmental policies, laws or regulations and actions or restrictions of regulatory agencies, including regulation of hydraulic fracturing;

government regulation of exploration and production technology, including hydraulic fracturing;

the results of financing efforts, including our ability to obtain financing with favorable terms;

our partners' ability to fund their capital commitments and otherwise fulfill their operating and financial obligations;

the effect of limitations, restrictions and natural events on our ability to harvest and deliver timber;

## **Table of Contents**

Inability to obtain permits for, or changes in laws, governmental policies or regulations effecting, water withdrawal or usage and

the final resolutions or outcomes with respect to our contingent and other liabilities related to our business.

Other factors, including the risk factors described in Item 1A of our 2011 Annual Report on Form 10-K, may also cause actual results to differ materially from those projected by our forward-looking statements. New factors emerge from time to time and it is not possible for us to predict all such factors, nor can we assess the impact of any such factor on our business or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement.

Any forward-looking statement speaks only as of the date on which such statement is made, and, except as required by law, we expressly disclaim any obligation or undertaking to disseminate any updates or revisions to any forward-looking statement to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of unanticipated events.

## **Strategy**

Our strategy is:

Recognizing and responsibly delivering the greatest value from every acre; and

Growing through strategic and disciplined investments.

### **2012 Strategic Initiatives**

In 2012, we announced Triple in FOR, new strategic initiatives designed to further enhance shareholder value by:

Accelerating value realization of our real estate and natural resources by increasing total residential lots sales, oil and gas production, and total segment earnings.

Optimizing transparency and disclosure by expanding reported oil and natural gas resources, providing additional information related to groundwater interests, and establishing a progress report on corporate responsibility efforts.

Raising our net asset value through strategic and disciplined investments by pursuing growth opportunities which help prove up our asset value and meet return expectations, developing a low-capital, high-return multifamily business, and accelerating investment in lower-risk oil and natural gas opportunities.

**Table of Contents****Results of Operations**

A summary of our consolidated results by business segment follows:

	<b>First Quarter</b>	
	<b>2012</b>	<b>2011</b>
	<b>(In thousands)</b>	
<b>Revenues:</b>		
Real estate	\$ 17,922	\$ 21,139
Mineral resources	9,426	7,333
Fiber resources	744	1,368
<b>Total revenues</b>	<b>\$ 28,092</b>	<b>\$ 29,840</b>
<b>Segment earnings :</b>		
Real estate	\$ 11,577	\$ 2,575
Mineral resources	5,875	5,598
Fiber resources	390	640
<b>Total segment earnings</b>	<b>17,842</b>	<b>8,813</b>
<b>Items not allocated to segments:</b>		
General and administrative expense	(4,362)	(3,916)
Share-based compensation expense	(5,231)	(4,100)
Interest expense	(3,891)	(4,009)
Other non-operating income	64	27
<b>Income (loss) before taxes</b>	<b>4,422</b>	<b>(3,185)</b>
<b>Income tax (expense) benefit</b>	<b>(1,620)</b>	<b>712</b>
<b>Net income (loss) attributable to Forestar Group Inc.</b>	<b>\$ 2,802</b>	<b>\$ (2,473)</b>

Significant aspects of our results of operations follow:

**First Quarter 2012**

Real estate segment earnings benefited from a \$11,675,000 gain from the sale of our 25 percent interest in Palisades West LLC to Dimensional Fund Advisors L.P. for \$32,095,000. Segment earnings were negatively impacted by lower undeveloped land sales from our retail sales program.

Mineral resources segment earnings benefited from increased oil production volumes and higher average oil prices. This increase was partially offset by a decrease in lease bonus payments and increased costs from additional oil and natural gas personnel and professional services associated with our water initiatives.

Fiber resources segment earnings continued to decrease principally due to lower harvest volume as a result of selling over 217,000 acres of timberland since year-end 2008.

## Edgar Filing: Forestar Group Inc. - Form 10-Q

Share-based compensation increased principally as result of new awards granted in first quarter 2012 and an increase in our expected stock price volatility rate assumptions used in valuing new and existing awards.

### *First Quarter 2011*

Real estate segment earnings were positively impacted by higher undeveloped land sales volume and price from our retail sales program and improved sales activity within our single-family residential and mixed-use communities.

Mineral resources segment earnings declined due to increased costs associated with developing our water resources initiatives.

Fiber resources segment earnings decreased principally due to reduced harvest activity resulting from the sale of approximately 30,000 acres of timberland in 2010.

---

## **Table of Contents**

### **Current Market Conditions**

Current U.S. market conditions in the single-family residential industry continue to be challenging, characterized by high unemployment rates, depressed sales volumes and prices, difficult financing environment for purchasers and competition from foreclosure inventory. It is difficult to predict when and at what rate these broader negative conditions will improve. We have seen signs of stability in certain markets, where declining finished lot inventories and lack of real estate development is increasing demand for our developed lots, principally in the Texas markets. Multifamily market conditions are improving, with many markets experiencing healthy occupancy levels and positive rent growth. This improvement has been driven primarily by limited new construction activity, reduced single-family mortgage credit availability, and the increased propensity to rent among the 18 to 34 year old demographic of the U.S. population.

Oil prices have increased principally due to supply uncertainty, demand growth from emerging markets and ongoing political unrest in oil-producing regions. Natural gas prices have remained depressed due to increased levels of production and record levels of inventory due to mild temperatures. Shale resource drilling and production remains strong and working natural gas inventories are expected to remain relatively high. In the East Texas Basin, exploration and production companies continue to focus drilling on natural gas prospects in order to extend and hold existing mineral leases. In the Gulf Coast Basin, in Louisiana, activity has increased as operators have shifted exploration efforts to oil and high liquid natural gas plays. These conditions may impact the demand for new mineral leases, new exploration activity and the amount of royalty revenues we receive. Pine sawtimber prices continue to be depressed due to weak demand driven by the overall slowdown in residential construction activity, while pine pulpwood demand remains steady and pricing is relatively flat.

### **Business Segments**

We manage our operations through three business segments:

Real estate,

Mineral resources, and

Fiber resources.

We evaluate performance based on earnings (loss) before unallocated items and income taxes. Segment earnings (loss) consist of operating income, equity in earnings (loss) of unconsolidated ventures and net (income) loss attributable to noncontrolling interests. Items not allocated to our business segments consist of general and administrative expenses, share-based compensation, gain on sale of strategic timberland, interest expense and other non-operating income and expense. The accounting policies of the segments are the same as those described in the accounting policy note to the consolidated financial statements.

We operate in cyclical industries. Our operations are affected to varying degrees by supply and demand factors and economic conditions including changes in interest rates, availability of mortgage credit, consumer and home builder sentiment, new housing starts, real estate values, employment levels, changes in the market prices for oil, natural gas, and timber, and the overall strength or weakness of the U.S. economy.

### ***Real Estate***

We own directly or through ventures over 146,000 acres of real estate located in nine states and 12 markets. Our real estate segment secures entitlements and develops infrastructure on our lands, primarily for single-family residential and mixed-use communities. We own 104,000 acres in a broad area around Atlanta, Georgia, with the balance located primarily in Texas. We target investments principally in our strategic growth corridors, regions across the southern half of the United States that possess key demographic and growth characteristics that we believe make them attractive for long-term real estate investment. We own and manage our projects either directly or through ventures. Our real estate segment revenues are principally derived from the sales of residential single-family lots and tracts, undeveloped land and commercial real estate and from the operation of commercial and income producing properties, primarily a hotel and a multifamily property.

**Table of Contents**

A summary of our real estate results follows:

	<b>First Quarter</b>	
	<b>2012</b>	<b>2011</b>
	<b>(In thousands)</b>	
Revenues	\$ 17,922	\$ 21,139
Cost of sales	(10,331)	(10,170)
Operating expenses	(7,544)	(7,714)
	47	3,255
Gain on sale of venture interest	11,675	
Equity in earnings of unconsolidated ventures	550	89
Less: Net income attributable to noncontrolling interests	(695)	(769)
Segment earnings	\$ 11,577	\$ 2,575

Revenues in our owned and consolidated ventures consist of:

	<b>First Quarter</b>	
	<b>2012</b>	<b>2011</b>
	<b>(In thousands)</b>	
Residential real estate	\$ 8,498	\$ 7,867
Undeveloped land	733	6,090
Commercial and Income producing properties	7,278	6,935
Other	1,413	247
Total revenues	\$ 17,922	\$ 21,139

Residential real estate revenues principally consist of the sale of single-family lots to national, regional and local homebuilders. In first quarter 2012, residential real estate revenues increased principally as a result of increased lot sales volume due to demand for finished lot inventory by homebuilders in markets where supply has diminished.

In first quarter 2012, undeveloped land sales decreased due to lower volume from our retail land sales program as a result of current market conditions primarily resulting from limited credit availability and alternate investment options to buyers in the marketplace.

In first quarter 2012, commercial and income producing properties revenue increased as a result of higher occupancy levels and revenue per available room from our 413 guest room hotel in Austin and rent growth from our 401 unit multifamily property located in Houston.

In first quarter 2012, other revenues include \$1,047,000 as result of selling seven acres of impervious cover entitlement credits to a national homebuilder. This sale generated segment earnings of approximately \$920,000.

**Table of Contents**

Units sold in our owned and consolidated ventures consist of:

	<b>First Quarter</b>	
	<b>2012</b>	<b>2011</b>
<b>Residential real estate:</b>

Professional services	1,257	966
Depreciation and amortization	1,047	1,281
Other	1,172	1,342
 Total operating expenses	 \$ 7,544	 \$ 7,714

**Table of Contents**

Information about our real estate projects and our real estate ventures follows:

	<b>First Quarter-End</b>	
	<b>2012</b>	<b>2011</b>
<b>Owned and consolidated ventures:</b>		
Entitled, developed and under development projects		
Number of projects	66	52
Residential lots remaining	22,830	17,635
Commercial acres remaining	2,123	1,774
Undeveloped land and land in the entitlement process		
Number of projects	16	18
Acres in entitlement process	27,590	29,620
Acres undeveloped	96,606	167,387
<b>Ventures accounted for using the equity method:</b>		
Ventures lot sales (for first three months)		
Lots sold	148	69
Average price per lot sold	\$ 44,570	\$ 35,473
Ventures entitled, developed and under development projects		
Number of projects	7	21
Residential lots remaining	4,093	9,582
Commercial acres sold (for first three months)		20
Average price per acre sold	\$	\$ 152,460
Commercial acres remaining	333	570
Ventures undeveloped land and land in the entitlement process		
Acres sold (for first three months)	135	
Average price per acre sold	\$ 2,600	\$
Acres undeveloped	5,655	5,731

In first quarter 2012, we acquired from CL Realty and Temco, 14 entitled, developed and under development projects and interests in three ventures accounted for using the equity method. The acquired assets represent approximately 1,130 fully developed lots, 4,900 planned lots, and over 460 commercial acres, principally in the major markets of Texas.

We underwrite development projects based on a variety of assumptions incorporated into our development plans, including the timing and pricing of sales and leasing and costs to complete development. Our development plans are periodically reviewed in comparison to our current projections and expectations, and we may revise our plans as business conditions warrant. If as a result of changes to our development plans the anticipated future net cash flows are reduced such that our basis in a project is not fully recoverable, we may be required to recognize a non-cash impairment charge for such project.

Our net investment in owned and consolidated real estate by geographic location follows:

State	\$xxxxxxxxx Entitled, Developed, and Under Development Projects	\$xxxxxxxxx Undeveloped Land	\$xxxxxxxxx Commercial and Income Producing Properties	\$xxxxxxxxx Total
	(In thousands)			
Texas	\$ 352,553	\$ 9,615	\$ 101,007	\$ 463,175
Georgia	21,912	56,515		78,427
Colorado	22,465		8,873	31,338
California	8,795	14,440		23,235
Other	9,108			9,108
Total	\$ 414,833	\$ 80,570	\$ 109,880	\$ 605,283

**Table of Contents****Mineral Resources**

We own directly or through ventures about 594,000 net acres of mineral interests. Our mineral resources segment revenues are principally derived from oil and natural gas royalties, non-operating working interests and other lease revenues from our mineral interests located principally in Texas, Louisiana, Georgia and Alabama. At first quarter-end 2012, we have about 49,000 net acres under lease and about 32,000 net acres held by production.

A summary of our mineral resources results follows:

	<b>First Quarter</b>	
	<b>2012</b>	<b>2011</b>
	<b>(In thousands)</b>	
Revenues	\$ 9,426	\$ 7,333
Cost of sales	(1,375)	(794)
Operating expenses	(2,344)	(1,429)
	5,707	5,110
Equity in earnings of unconsolidated ventures	168	488
Segment earnings	\$ 5,875	\$ 5,598

Cost of sales represents our share of oil and natural gas production severance taxes, which are calculated based on a percentage of oil and natural gas produced, costs related to our oil and natural gas non-operating working interests and delay rental payments related to ground water leases in central Texas.

Equity in earnings of unconsolidated ventures includes our share of royalty revenue from 23 producing wells in the Barnett Shale natural gas formation.

Revenues consist of:

	<b>First Quarter</b>	
	<b>2012</b>	<b>2011</b>
	<b>(In thousands)</b>	
Royalties	\$ 7,027	\$ 3,676
Non-operating working interests	915	129
Other revenues	1,484	3,528
Total revenues	\$ 9,426	\$ 7,333

In first quarter 2012, royalty revenues increased principally as result of increased oil production and higher oil prices in our owned and consolidated properties. Increased oil production contributed about \$3,071,000 and increased oil prices contributed about \$1,043,000 as compared with first quarter 2011. Increased natural gas production contributed about \$204,000 but was essentially offset by decreased natural gas prices of \$181,000 as compared with first quarter 2011.

In first quarter 2012, other revenues includes \$1,115,000 in delay rental payments principally related to extending the lease term on approximately 4,300 net mineral acres and \$287,000 in lease bonus payments as a result of leasing about 800 net mineral acres for an average of about \$360 per acre. In first quarter 2011, other revenues include \$1,657,000 in lease bonus payments as a result of leasing about 4,800 net mineral acres for an average of about \$340 per acre, \$1,555,000 related to mineral seismic exploration associated with 31,100 acres in Louisiana and \$156,000 related to delay rental payments.

**Table of Contents**

Oil and natural gas produced and average unit prices related to our royalty interests follows:

	<b>First Quarter</b>	
	<b>2012</b>	<b>2011</b>
<b>Consolidated entities:</b>		
Oil production (barrels)	69,200	32,000
Average price per barrel	\$ 97.57	\$ 82.49
Natural gas production (millions of cubic feet)	362.1	308.2
Average price per thousand cubic feet	\$ 3.29	\$ 3.79
<b>Our share of ventures accounted for using the equity method:</b>		
Natural gas production (millions of cubic feet)	90.1	158.6
Average price per thousand cubic feet	\$ 2.99	\$ 3.57
<b>Total consolidated and our share of equity method ventures:</b>		
Oil production (barrels)	69,200	32,000
Average price per barrel	\$ 97.57	\$ 82.49
Natural gas production (millions of cubic feet)	452.2	466.8
Average price per thousand cubic feet	\$ 3.23	\$ 3.72

At first quarter-end 2012, there were 534 productive wells operated by others on our leased mineral acres compared to 496 productive wells at first quarter-end 2011.

Operating expenses consist of:

	<b>First Quarter</b>	
	<b>2012</b>	<b>2011</b>
	<b>(In thousands)</b>	
Employee compensation and benefits	\$ 1,037	\$ 453
Professional and consulting services	722	644
Property taxes	71	76
Other	514	256
<b>Total operating expenses</b>	<b>\$ 2,344</b>	<b>\$ 1,429</b>

In first quarter 2012, employee compensation and benefits increased principally as result of incremental staffing to support our oil, natural gas and water interests. Professional and consulting services includes \$429,000 in first quarter 2012 and 2011 due to non-cash amortization of contingent consideration paid to the seller of a water resources company acquired in 2010. These costs are being amortized ratably over the performance period assuming certain milestones are achieved by July 2014.

In addition, we have water interests in 1,550,000 acres, including a 45 percent nonparticipating royalty interest in groundwater produced or withdrawn for commercial purposes or sold from 1,400,000 acres in Texas, Louisiana, Georgia and Alabama and 17,800 acres of ground water leases in central Texas. We have not received significant revenue or earnings from these interests.

**Fiber Resources**

Our fiber resources segment focuses principally on the management of our timber holdings and recreational leases. We have about 130,000 acres of timber we own directly or through ventures, primarily in Georgia, and about 17,000 acres of timber under lease. Our fiber resources segment revenues are principally derived from the sales of wood fiber from our land and leases for recreational uses. We have sold over 217,000 acres of timberland since year-end 2008. As a result of the reduced acreage from land sales, future segment revenues and earnings are anticipated to be lower.

**Table of Contents**

A summary of our fiber resources results follows:

	\$xxx,xxx	\$xxx,xxx
	<b>First Quarter</b>	
	<b>2012</b>	<b>2011</b>
	<b>(In thousands)</b>	
Revenues	\$ 744	\$ 1,368
Cost of sales	(128)	(247)
Operating expenses	(466)	(486)
	150	635
Other operating income, principally gain on termination of timber leases	234	
Equity in earnings of unconsolidated ventures	6	5
<b>Segment earnings</b>	<b>\$ 390</b>	<b>\$ 640</b>

Revenues consist of:

	\$xxx,xxx	\$xxx,xxx
	<b>First Quarter</b>	
	<b>2012</b>	<b>2011</b>
	<b>(In thousands)</b>	
Fiber	\$ 334	\$ 865
Recreational leases and other	410	503
<b>Total revenues</b>	<b>\$ 744</b>	<b>\$ 1,368</b>

Fiber sold consists of:

	<b>First Quarter</b>	
	<b>2012</b>	<b>2011</b>
Pulpwood tons sold	24,400	65,600
Average pulpwood price per ton	\$ 10.18	\$ 9.18
Sawtimber tons sold	4,400	15,500
Average sawtimber price per ton	\$ 19.48	\$ 16.98
<b>Total tons sold</b>	<b>28,800</b>	<b>81,100</b>
Average price per ton	\$ 11.59	\$ 10.67

**Table of Contents**

In first quarter 2012, total fiber tons sold decreased principally due to the sale of about 74,000 acres of timberland in 2011. The majority of our fiber sales were to International Paper at market prices.

Information about our recreational leases follows:

	First Quarter	
	2012	2011
Average recreational acres leased	130,900	200,000
Average price per leased acre	\$ 8.80	\$ 8.91

Operating expenses consist of:

	\$xxx,xxx	\$xxx,xxx
	First Quarter	
	2012	2011
	(In thousands)	
Employee compensation and benefits	\$ 244	\$ 237
Facility and long-term timber lease costs	121	119
Other	101	130
 Total operating expenses	 \$ 466	 \$ 486

**Items Not Allocated to Segments**

Unallocated items represent income and expenses managed on a company-wide basis and include general and administrative expenses, share-based compensation, gain on sale of strategic timberland, interest expense and other non-operating income and expense. General and administrative expenses principally consist of accounting and finance, tax, legal, human resources, internal audit, information technology and our board of directors. These functions support all of our business segments and are not allocated.

General and administrative expenses consist of:

	\$xxx,xxx	\$xxx,xxx
	First Quarter	
	2012	2011
	(In thousands)	
Professional services	\$ 842	\$ 680
Employee compensation and benefits	1,576	1,454
Depreciation and amortization	299	351
Insurance costs	269	244
Facility costs	198	211
Other	1,178	976
 Total general and administrative expenses	 \$ 4,362	 \$ 3,916

**Income Taxes**

Our effective tax rate was 32 percent in first quarter 2012, which includes a 4 percent benefit for noncontrolling interests. Our effective tax rate was a benefit of 29 percent in first quarter 2011, which included a 13 percent non-cash charge for share based compensation. In addition, 2012 and 2011 effective tax rates include the effect of state income taxes, nondeductible items and benefits of percentage depletion and the 2011 rate includes the effect of charitable contributions related to timberland conservation.

## Edgar Filing: Forestar Group Inc. - Form 10-Q

We have not provided a valuation allowance for our deferred tax asset because we believe it is likely it will be recoverable in future periods based on considerations including taxable income in prior carryback years, future reversals of existing temporary differences, tax planning strategies and future taxable income. If these sources of income are not sufficient in future periods, we may be required to provide a valuation allowance for our deferred tax asset.

---

**Table of Contents****Capital Resources and Liquidity*****Sources and Uses of Cash***

We operate in cyclical industries and our cash flows fluctuate accordingly. Our principal operating cash requirements are for the acquisition and development of real estate, either directly or indirectly through ventures, taxes, interest and compensation. Our principal sources of cash are proceeds from the sale of real estate and timber, the cash flow from minerals and income producing properties, borrowings, and reimbursements from utility and improvement districts. Operating cash flows are affected by the timing of the payment of real estate development expenditures and the collection of proceeds from the eventual sale of the real estate, the timing of which can vary substantially depending on many factors including the size of the project, state and local permitting requirements and availability of utilities, and by the timing of oil and natural gas leasing and production activities. Working capital is subject to operating needs, the timing of sales of real estate and timber, the timing of collection of mineral royalties or mineral lease payments, collection of receivables, reimbursement from utility and improvement districts and the payment of payables and expenses.

***Cash Flows from Operating Activities***

Cash flows from our real estate development activities, undeveloped land sales, commercial and income producing properties, timber sales, mineral and recreational leases and reimbursements from utility and improvement districts are classified as operating cash flows.

In first quarter 2012, net cash (used for) operating activities was (\$47,514,000) as expenditures for real estate development and acquisitions significantly exceeded non-cash real estate cost of sales, principally as result of acquiring real estate assets from CL Realty and Temco for \$47,000,000. Subsequent to closing of this acquisition, we received \$23,370,000 from the ventures, representing our pro-rata share of distributable cash. Also, we invested an additional \$7,765,000 in a 289 unit multifamily property currently under construction in Austin and we paid \$8,451,000 in federal and state taxes, net of refunds. In first quarter 2011, net cash (used for) operating activities was (\$6,406,000) as expenditures for real estate development and acquisitions exceeded non-cash real estate cost of sales principally due to our investment of \$7,900,000 in undeveloped land in San Antonio, Texas and our payment of \$3,446,000 in federal and state taxes net of refunds.

***Cash Flows from Investing Activities***

Capital contributions to and capital distributions from unconsolidated ventures and investment in oil and natural gas properties and equipment are classified as investing activities. In addition, proceeds from the sale of property and equipment, software costs and expenditures related to reforestation activities are also classified as investing activities.

In first quarter 2012, net cash provided by investing activities was \$29,413,000 principally due to proceeds from the sale of our 25 percent interest in Palisades West LLC to Dimensional Fund Advisors L.P. for \$32,095,000. In addition, we invested \$1,968,000 in oil and natural gas properties and equipment associated with our non-operating working interests. In first quarter 2011, net cash (used for) investing activities was (\$1,171,000) and is principally related to contributions to unconsolidated ventures and investment in property, equipment, software and reforestation.

***Cash Flows from Financing Activities***

In first quarter 2012, net cash provided by financing activities was \$6,619,000. The increase in our debt of \$6,278,000 was principally used to fund our real estate development and acquisition activities. In first quarter 2011, net cash provided by financing activities was \$7,819,000 due to increases in our debt of \$9,011,000 principally to fund our expenditures for real estate development and acquisitions.

***Liquidity***

At first quarter-end 2012, our senior secured credit facility provides for a \$130,000,000 term loan maturing August 6, 2015 and a \$200,000,000 revolving line of credit maturing August 6, 2014. The term loan and the revolving line of credit may be prepaid at any time without penalty. The revolving line of credit includes a \$100,000,000 sublimit for letters of credit, of which \$2,467,000 is outstanding at first quarter-end 2012. Total borrowings under our senior secured credit facility (including the face amount of letters of credit) may not exceed a borrowing base formula. Our borrowing base availability is calculated on a monthly basis by applying advance rates of between 35 – 60 percent against base asset values which include timberland, high-value timberland (land in the entitlement process), raw entitled land, land under development, and minerals. All assets included in the borrowing base must be wholly-owned and unencumbered. At first quarter-end 2012, net unused borrowing capacity under our senior secured credit facility is calculated as follows:

**Table of Contents**

	<b>Senior Credit Facility (In thousands)</b>
Borrowing base availability	\$ 293,345
Less: borrowings	(136,000)
Less: letters of credit	(2,467)
Unused borrowing capacity	\$ 154,878

Our unused borrowing capacity in first quarter 2012 ranged from a high of \$154,878,000 to a low of \$149,618,000. This facility is used primarily to fund our operating cash needs, which fluctuate due to timing of residential real estate sales, undeveloped land sales, mineral lease bonus payments, timber sales, payment of payables and expenses and capital expenditures.

Our senior secured credit facility and other debt agreements contain financial covenants customary for such agreements including minimum levels of interest coverage and limitations on leverage. At first quarter-end 2012, we were in compliance with the financial covenants of these agreements.

The following table details our compliance with the financial covenants calculated as provided in the senior credit facility:

Financial Covenant	Requirement	First Quarter-End 2012
Interest Coverage Ratio <sup>(a)</sup>	<sup>3</sup> 1.05:1.0	6.93:1.0
Revenues/Capital Expenditures Ratio <sup>(b)</sup>	<sup>3</sup> 1.00:1.0	1.63:1.0
Total Leverage Ratio <sup>(c)</sup>	£40%	25%
Net Worth <sup>(d)</sup>	> \$ 441 million	\$ 510 million
Collateral Value to Loan Commitment Ratio <sup>(e)</sup>	<sup>3</sup> 1.50:1.0	1.73 :1.0

- (a) Calculated as EBITDA (earnings before interest, taxes, depreciation and amortization), plus non-cash compensation expense, plus other non-cash expenses, divided by interest expense excluding loan fees. This covenant is applied at the end of each quarter on a rolling four quarter basis.
- (b) Calculated as total gross revenues, plus our pro rata share of the operating revenues from unconsolidated ventures, divided by capital expenditures. Capital expenditures are defined as consolidated development and acquisition expenditures plus our pro rata share of unconsolidated ventures' development and acquisition expenditures. This covenant is applied at the end of each quarter on a rolling four quarter basis.
- (c) Calculated as total funded debt divided by adjusted asset value. Total funded debt includes indebtedness for borrowed funds, secured liabilities and reimbursement obligations with respect to letters of credit or similar instruments. Adjusted asset value is defined as the sum of unrestricted cash and cash equivalents, timberlands, high value timberlands, raw entitled lands, entitled land under development, minerals business, other real estate owned at book value without regard to any indebtedness and our pro rata share of joint ventures' book value without regard to any indebtedness. This covenant is applied at the end of each quarter.
- (d) Calculated as the amount by which consolidated total assets exceeds consolidated total liabilities. At first quarter-end 2012, the requirement is \$441,000,000, computed as: \$439,000,000, plus 85 percent of the aggregate net proceeds received by us from any equity offering, plus 75 percent of all positive net income, on a cumulative basis. This covenant is applied at the end of each quarter.
- (e) Calculated as the total collateral value of timberland, high value timberland and our minerals business, divided by total aggregate loan commitment. This covenant is applied at the end of each quarter.

---

## **Table of Contents**

To make additional investments, acquisitions, or distributions, we must maintain available liquidity equal to the lesser of \$35,000,000 or 10% of the aggregate commitments in place. At first quarter-end 2012, the minimum liquidity requirement was \$33,000,000, resulting in \$160,993,000 in available liquidity based on the unused borrowing capacity under our senior secured credit facility plus unrestricted cash and cash equivalents. The failure to maintain such minimum liquidity does not constitute a default or event of default of our senior secured credit facility.

### ***Contractual Obligations and Off-Balance Sheet Arrangements***

In 2011, we began construction on a 289 unit multifamily project in Austin, Texas in which the estimated cost at completion, including land, is approximately \$30,536,000. At first-quarter end 2012, our investment in this project including land and construction in progress is \$21,193,000 with an estimated cost to complete construction of \$9,343,000.

At first quarter-end 2012, we participate in three partnerships that have total assets of \$48,967,000 and total liabilities of \$79,335,000, which includes \$63,463,000 of borrowings classified as current maturities. These partnerships are managed by third parties who intend to extend or refinance these borrowings; however, there is no assurance that this can be done. Although these borrowings are guaranteed by third parties, we may under certain circumstances elect or be required to provide additional equity to these partnerships. We do not believe that the ultimate resolution of these matters will have a significant effect on our earnings or financial position. Our investment in these partnerships is \$1,884,000 at first quarter-end 2012. These three partnerships are variable interest entities.

### **Cibolo Canyons San Antonio, Texas**

Cibolo Canyons consists of the JW Marriott<sup>®</sup> San Antonio Hill Country Resort & Spa development owned by third parties and a mixed-use development we own. We have \$80,186,000 invested in Cibolo Canyons at first quarter-end 2012.

### ***Resort Hotel, Spa and Golf Development***

In 2007, we entered into agreements to facilitate third party construction and ownership of the JW Marriott<sup>®</sup> San Antonio Hill Country Resort & Spa, which includes a 1,002 room destination resort and two PGA Tour<sup>®</sup> Tournament Players Club<sup>®</sup> (TPC) golf courses. Under these agreements, we agreed to transfer to third party owners 700 acres of undeveloped land, to provide \$30,000,000 cash and to provide \$12,700,000 of other consideration principally consisting of golf course construction materials, substantially all of which has been provided.

In exchange for our commitment to the resort, the third party owners assigned to us certain rights under an agreement between the third party owners and a legislatively created Special Improvement District (SID). This agreement includes the right to receive from the SID 9 percent of hotel occupancy revenues and 1.5 percent of other resort sales revenues collected as taxes by the SID through 2034. The amount we receive will be net of annual ad valorem tax reimbursements by the SID to the third party owners of the resort through 2020. In addition, these payments will be net of debt service, if any, on bonds issued by the SID collateralized by hotel occupancy tax and other resort sales tax through 2034.

The amounts we collect under this agreement are dependent on several factors including the amount of revenues generated by and ad valorem taxes imposed on the resort and the amount of any applicable debt service incurred by the SID. As a result, there is significant uncertainty as to the amount and timing of collections under this agreement. Until these uncertainties are clarified, amounts collected under the agreement will be accounted for as a reduction of our investment in the resort development. The resort began operations on January 22, 2010.

We did not receive any reimbursements in first quarter 2012. Since inception, we have received \$7,906,000 in reimbursements and have accounted for this as a reduction of our investment. At first quarter-end 2012, we have \$35,368,000 invested in the resort development.

### ***Mixed-Use Development***

The mixed-use development we own consists of 2,100 acres planned to include approximately 1,475 residential lots and 150 commercial acres designated for multifamily and retail uses, of which 705 lots and 68 commercial acres have been sold through first quarter-end 2012.

In 2007, we entered into an agreement with the SID providing for reimbursement of certain infrastructure costs related to the mixed-use development. Reimbursements are subject to review and approval by the SID and unreimbursed amounts accrue interest at 9.75 percent. The SID's funding for reimbursements is principally derived from its ad valorem tax collections and bond proceeds collateralized by ad valorem taxes, less debt service on these bonds and annual administrative and public service expenses. Through first quarter-end 2012, we have submitted and received approval for reimbursement of approximately \$57,322,000 of infrastructure costs and have received reimbursements totaling \$22,520,000. We did not receive any reimbursements in first quarter 2012. At first quarter-end 2012, we have \$34,802,000 in approved and pending reimbursements, excluding interest.

### **Table of Contents**

Since the amount of each reimbursement is dependent on several factors, including timing of SID approval and the SID having an adequate tax base to generate funds that can be used to reimburse us, there is uncertainty as to the amount and timing of reimbursements under this agreement. We expect to recover our investment from lot and tract sales and reimbursement of approved infrastructure costs from the SID. We have not recognized income from interest due, but not collected. As these uncertainties are clarified, we will modify our accounting accordingly.

At first quarter-end 2012, we have \$44,818,000 invested in the mixed-use development.

### **Critical Accounting Policies and Estimates**

There have been no significant changes in our critical accounting policies or estimates from those disclosed in our 2011 Annual Report on Form 10-K.

### **Recent Accounting Standards**

Please read **Note 2** to the Consolidated Financial Statements included in this Quarterly Report on Form 10-Q.

**Table of Contents****Statistical and Other Data**

A summary of our real estate projects in the entitlement process <sup>(a)</sup> at first quarter-end 2012 follows:

<b>Project</b>	<b>County</b>	<b>Market</b>	<b>Project Acres <sup>(b)</sup></b>
<b>California</b>			
Hidden Creek Estates	Los Angeles	Los Angeles	700

<b>Texas</b>			
Lake Houston	Harris/Liberty	Houston	3,700
San Jacinto	Montgomery	Houston	150
<b>Total</b>			<b>27,590</b>

<sup>(a)</sup> A project is deemed to be in the entitlement process when customary steps necessary for the preparation of an application for governmental land-use approvals, like conducting pre-application meetings or similar discussions with governmental officials, have commenced, or an application has been filed. Projects listed may have significant steps remaining, and there is no assurance that entitlements ultimately will be received.

<sup>(b)</sup> Project acres, which are the total for the project regardless of our ownership interest, are approximate. The actual number of acres entitled may vary.

- (a) A project is deemed entitled when all major discretionary governmental land-use approvals have been received. Some projects may require additional permits and/or non-governmental authorizations for development.
- (b) Interest owned reflects our net equity interest in the project, whether owned directly or indirectly. There are some projects that have multiple ownership structures within them. Accordingly, portions of these projects may appear as owned, consolidated or accounted for using the equity method.
- (c) Lots are for the total project, regardless of our ownership interest. Lots remaining represent vacant developed lots, lots under development and future planned lots and are subject to change based on business plan revisions.
- (d) Commercial acres are for the total project, regardless of our ownership interest, and are net developable acres, which may be fewer than the gross acres available in the project.
- (e) The Lantana project consists of a series of 24 partnerships in which our voting interests range from 25 percent to 55 percent. We account for three of these partnerships using the equity method and we consolidate the remaining partnerships.
- (f) Excludes acres associated with commercial and income producing properties.

(g) In second quarter 2012, the consolidated venture sold 800 real estate acres, representing about 2,500 planned residential lots.

**Table of Contents**

A summary of our significant commercial and income producing properties at first quarter-end 2012 follows:

Project	County	Market	Interest Owned <sup>(a)</sup>	Type	Acres	Description
Broadstone Memorial	Harris	Houston	100%	Multifamily	9	401 unit luxury apartment
Radisson Hotel	Travis	Austin	100%	Hotel	2	413 guest rooms and suites
Las Brisas	Williamson	Austin	59%	Multifamily	30	414 unit luxury apartment
Promesa <sup>(b)</sup>	Travis	Austin	100%	Multifamily	16	289 unit luxury apartment (construction in progress)

<sup>(a)</sup> Interest owned reflects our total interest in the project, whether owned directly or indirectly.

<sup>(b)</sup> Formerly marketed as Ridge at Ribelin Ranch.

A summary of our oil and natural gas mineral interests <sup>(a)</sup> at first quarter-end 2012 follows:

State	Unleased	Leased <sup>(b)</sup>	Held By Production <sup>(c)</sup> (Net acres)	Total <sup>(d)</sup>
Texas	195,000	30,000	27,000	252,000
Louisiana	120,000	19,000	5,000	144,000
Georgia	156,000			156,000
Alabama	40,000			40,000
California	1,000			1,000
Indiana	1,000			1,000
	513,000	49,000	32,000	594,000

<sup>(a)</sup> Includes ventures.

<sup>(b)</sup> Includes leases in primary lease term or for which a delay rental payment has been received. In the ordinary course of business, leases covering a significant portion of leased net mineral acres may expire from time to time in a single reporting period.

<sup>(c)</sup> Acres being held by production are producing oil or natural gas in paying quantities.

<sup>(d)</sup> Texas, Louisiana, California and Indiana net acres are calculated as the gross number of surface acres multiplied by our percentage ownership of the mineral interest. Georgia and Alabama net acres are calculated as the gross number of surface acres multiplied by our estimated percentage ownership of the mineral interest based on county sampling. Excludes 477 net mineral acres located in Colorado including 379 acres leased and 29 acres held by production.

**Table of Contents**

A summary of our Texas and Louisiana mineral acres <sup>(a)</sup> by county or parish at first quarter-end 2012 follows:

Texas County	Net Acres	Louisiana Parish	Net Acres
Trinity	46,000	Beauregard	79,000
Angelina	42,000	Vernon	39,000
Houston	29,000	Calcasieu	17,000
Anderson	25,000	Allen	7,000
Cherokee	24,000	Rapides	1,000
Sabine	23,000	Other	1,000
Red River	14,000		144,000
Newton	13,000		
San Augustine	13,000		
Jasper	12,000		
Other	11,000		
	252,000		

<sup>(a)</sup> Includes ventures.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk****Interest Rate Risk**

Our interest rate risk is principally related to our variable-rate debt. Interest rate changes impact earnings due to the resulting increase or decrease in the cost of our variable-rate debt, which is \$197,934,000 at first quarter-end 2012 and \$191,656,000 at year-end 2011.

The following table illustrates the estimated effect on our pre-tax income of immediate, parallel, and sustained shifts in interest rates for the next 12 months on our variable-rate debt at first quarter-end 2012, with comparative year-end 2011 information. This estimate assumes that debt reductions from contractual payments will be replaced with short-term, variable-rate debt; however, that may not be the financing alternative we choose.

Change in Interest Rates	First Quarter-End 2012	Year-End 2011
	(In thousands)	
+2%	\$ (3,410)	\$ (3,296)
+1%	(1,979)	(1,917)
-1%	1,979	1,917
-2%	3,959	3,833

**Foreign Currency Risk**

We have no exposure to foreign currency fluctuations.

**Commodity Price Risk**

We have no significant exposure to commodity price fluctuations.

**Item 4. Controls and Procedures**

(a) Disclosure Controls and Procedures

Our management, with the participation of the Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (or the Exchange Act)) as of the end of the period covered by this report. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, our disclosure

**Table of Contents**

controls and procedures are effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by us in the reports that we file or submit under the Exchange Act and are effective in ensuring that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

**(b) Changes in Internal Control over Financial Reporting**

There have not been any changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**PART II OTHER INFORMATION****Item 1. Legal Proceedings**

We are involved directly or through ventures in various legal proceedings that arise from time to time in the ordinary course of doing business. We believe we have established adequate reserves for any probable losses and that the outcome of any of the proceedings should not have a material adverse effect on our financial position, long-term results of operations or cash flows. It is possible, however, that circumstances beyond our control or significant subsequent developments could result in additional charges related to these matters that could be significant to results of operations or cash flow in any single accounting period.

**Item 1A. Risk Factors**

There are no material changes from the risk factors disclosed in our 2011 Annual Report on Form 10-K.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds****Issuer Purchases of Equity Securities <sup>(a)</sup>**

Period	Total Number of Shares Purchased <sup>(b)</sup>	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares That May Yet be Purchased Under the Plans or Programs
Month 1 (1/1/2012 - 1/31/2012)	16,708	\$ 15.66		5,092,305
Month 2 (2/1/2012 - 2/29/2012)	54,186	\$ 16.36		5,092,305
Month 3 (3/1/2012 - 3/31/2012)		\$		5,092,305
Total	70,894	\$ 16.20		

<sup>(a)</sup> On February 11, 2009, we announced that our Board of Directors authorized the repurchase of up to 7,000,000 shares of our common stock. We have purchased 1,907,695 shares under this authorization, which has no expiration date. We have no repurchase plans or programs that expired during the period covered by the table above and no repurchase plans or programs that we intend to terminate prior to expiration or under which we no longer intend to make further purchases.

<sup>(b)</sup> Represents shares withheld to pay taxes in connection with vesting of restricted stock awards and exercises of stock options.
