On September 19, 2012, Ascent Solar Technologies, Inc. (the Company) entered into an underwriting agreement (the Underwriting Agreement) with Aegis Capital Corp. (the Representative) as representative of the several underwriters (the Underwriters), providing for the sale in a firm commitment offering of 9,166,700 shares of the Company s common stock, par value \$0.0001 per share (the Shares), at a price to the public of \$1.20 per Share (the Offering). The Company expects the Offering to close on or about September 25, 2012, subject to the satisfaction of customary closing conditions, and expects that the net proceeds from the Offering will be approximately \$10.14 million after deducting the estimated underwriting discount and estimated offering expenses payable by the Company. In the Underwriting Agreement, the Company agrees to indemnify the Underwriters against certain liabilities, including liabilities under the Securities Act of 1933, as amended, or to contribute to payments that the Underwriters may be required to make because of such liabilities. In addition, the Underwriting Agreement provides the Underwriters a 45-day option to purchase up to an additional 1,375,005 Shares from the Company.

The Shares are being offered and sold pursuant to a prospectus supplement dated September 19, 2012 and an accompanying base prospectus dated February 3, 2012, pursuant to the Company s existing shelf registration statement on Form S-3 (File No. 333-178821) that was declared effective by the Securities and Exchange Commission on February 14, 2012.

The foregoing description of the Underwriting Agreement is not complete and is qualified in its entirety by reference to the full text of the Underwriting Agreement, a copy of which is filed as Exhibit 1.1 to this Current Report on Form 8-K and is incorporated by reference herein.
