Item 1.01 Entry into a Material Definitive Agreement.
Agreement to Acquire Williston Basin Assets

On October 19, 2012, Halcón Energy Properties, Inc., a wholly owned subsidiary of Halcón Resources Corporation (Halcón), entered into a Reorganization and Interest Purchase Agreement (the Purchase Agreement) with Petro-Hunt, L.L.C. and Pillar Energy, LLC (collectively, the Petro-Hunt Parties), pursuant to which Halcón has agreed to acquire two newly formed wholly owned subsidiaries of the Petro-Hunt Parties, which immediately before closing will own a total of approximately 81,000 net acres prospective for the Bakken and Three Forks formations primarily located in Williams, Mountrail, McKenzie and Dunn Counties, North Dakota (the Williston Basin Assets). Halcón has agreed to acquire the Williston Basin Assets for a total purchase price of \$1.45 billion, consisting of \$700 million in cash and \$750 million in newly issued Halcón preferred stock that will automatically convert into approximately 100.7 million shares of Halcón common stock at a conversion price of \$7.45 per share following stockholder approval of such conversion and an increase in Halcón s authorized common stock. The shares of preferred stock are to be issued to the Petro-Hunt Parties in a private placement pursuant to the exemptions from registration provided in Regulation D, Rule 506, under Section 4(2) of the Securities Act of 1933, as amended (the Securities Act).

Immediately following the completion of the Williston Basin Assets acquisition (and the related private placement of Halcón common stock described below), the Petro-Hunt Parties are expected to hold preferred stock representing approximately 22% of Halcón s outstanding common stock on an as-converted, fully diluted basis. As holders of the preferred stock, the Petro-Hunt Parties will be entitled to vote on all matters submitted to a vote of Halcón s common stockholders, except for matters required for the conversion of the preferred stock. The voting power attributable to the preferred stock will be limited to 19.99% of the voting power of Halcón s common stock outstanding immediately prior to the issuance of the preferred stock. The preferred stock will accrue dividends at the rate of 8% per annum from the issue date to the extent not converted into common stock within 121 days following issuance. No dividends will be payable if the preferred stock is converted within that period. The conversion rate of the preferred stock will be subject to anti-dilution adjustments in the event of stock splits, stock dividends and under certain other circumstances.

The effective date of the transaction is June 1, 2012 and Halcón expects to close the transaction in mid-December 2012. The purchase price is subject to adjustments for (i) operating expenses, capital expenditures and revenues between the effective date and the closing date, (ii) title and environmental defects, and (iii) other purchase price adjustments customary in oil and gas purchase and sale agreements. Any adjustments to the purchase price at closing would be applied to the cash and convertible preferred stock components of the purchase price in the same proportions.

The Petro-Hunt Parties and Halcón each make representations and warranties in the Purchase Agreement that are customary for a transaction of this type. The parties have agreed to indemnify one another for breaches of their respective representations and warranties, as well as the operation of the Williston Basin Assets prior to (in the case of the Petro-Hunt Parties) and after (in the case of Halcón) the closing date. Indemnities for breaches of representations and warranties, and any purchase price adjustments attributable to title or environmental defects, are subject to certain threshold limitations. Claims and asserted defects must exceed \$75,000 individually and 0.5% of the total purchase price, or \$7.25 million, in the aggregate before Halcón or the Petro-Hunt Parties will be entitled to indemnification or a purchase price adjustment. The parties have agreed to indemnify each other up to the full amount of the purchase price for breaches of representations and warranties regarding their organization, existence, authority and ability to enter into the transaction, which representations and warranties survive closing for

the applicable statute of limitations period. All other representations and warranties, including those relating to the ownership and condition of the Williston Basin Assets, survive the closing date for one year, and indemnification for breaches of those representations and warranties is limited to 10% of the purchase price, or \$145.0 million.

The Purchase Agreement also includes customary covenants relating to the operation of the Williston Basin Assets and other matters. In addition, Halcón has agreed to cause one individual designated by the Petro-Hunt Parties to be elected or appointed to Halcón's board of directors, subject to the reasonable approval of Halcón's Nominating and Corporate Governance Committee, for so long as the Petro-Hunt Parties beneficially own at least 5% of the outstanding shares of Halcón common stock.

The transaction is subject to customary closing conditions, including the expiration or early termination of the waiting period mandated under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as well as the execution and delivery of certain other agreements, including a registration rights agreement, a lock-up agreement and a transition services agreement. The lock-up agreement will prohibit the Petro-Hunt Parties from offering for sale, selling, pledging or otherwise disposing of the shares of Halcón convertible preferred stock (or the underlying shares of Halcón common stock) received as consideration for the transaction for a period of 180 days following the closing of the transaction. Halcón has agreed to file with the Securities and Exchange Commission a shelf registration statement relating to the resale of such shares of Halcón capital stock.

The parties may terminate the Purchase Agreement if any of the above closing conditions have not been satisfied, or if total adjustments to the purchase price exceed \$217.5 million or the transaction has not closed on or before December 20, 2012.

The foregoing description of the Purchase Agreement is qualified in its entirety by reference to the full text of such agreement, a copy of which is filed herewith as Exhibit 2.1 and is incorporated herein by reference.

Halcón will file a proxy statement and other documents relating to the proposed transaction described above with the Securities and Exchange Commission (the "SEC"). Common Stock Purchase Agreement

On October 19, 2012, Halcón entered into a Common Stock Purchase Agreement (the "Stock Purchase Agreement") with CPP Investment Board PMI-2 Inc. ("CPPIB"), pursuant to which CPPIB has agreed to purchase 41,899,441 newly issued shares of Halcón common stock at \$7.16 per share for a total purchase price of approximately \$300.0 million. Net proceeds to Halcón are expected to be approximately \$294.0 million following the payment of an approximate \$6.0 million capital commitment payment to CPPIB upon closing of the transaction. The shares of Halcón common stock will be issued to CPPIB in a private placement pursuant to the exemptions from registration provided in Regulation D, Rule 506, under Section 4(2) of the Securities Act. As a result of this transaction, CPPIB is expected to hold approximately 9% of Halcón's outstanding common stock on a fully diluted basis after giving effect to the completion of the Williston Basin Assets acquisition. CPPIB has agreed to a one-year lock-up period, ending October 19, 2013, during which time it will not offer for sale, sell, pledge or otherwise dispose of the shares of Halcón common stock it acquires pursuant to the Stock Purchase Agreement, subject to certain exceptions.

The Stock Purchase Agreement contains customary representations and warranties by Halcón and CPPIB and the parties have agreed to indemnify each other for losses resulting from the other party's breach of any representations, warranties or covenants. Closing of the transaction is subject to customary closing conditions, as well as the closing of Halcón's acquisition of the Williston Basin Assets described above and the execution and delivery of certain other documents, including a stockholders agreement. The stockholders agreement will provide that, for as long as CPPIB beneficially owns at least 5% of Halcón's common stock, it may designate one individual to serve on Halcón's board of directors and two individuals for so long as it owns 20% or more of Halcón's common stock, such individual(s) to be subject to the reasonable approval of Halcón's Nominating and Corporate Governance Committee. The stockholders agreement will also provide CPPIB with certain pre-emptive rights to acquire additional Halcón securities, as well as shelf registration, demand underwriting and piggyback registration rights.

The foregoing description of the Stock Purchase Agreement is qualified in its entirety by reference to the full text of such agreement, a copy of which is filed herewith as Exhibit 10.1 and is incorporated herein by reference.

The shares of Halcón preferred stock to be issued to the Petro-Hunt Parties and the shares of Halcón common stock to be issued to CPPIB have not been registered under the Securities Act and may not be offered or sold absent registration or an applicable exemption from registration. The information contained in this current report on Form 8-K shall not constitute an offer to sell or a solicitation of an offer to buy, nor shall there be any sale of Halcón securities in any state where such offer, solicitation or sale would be unlawful prior to the registration or qualification under the securities laws of such state.
