UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

Washington, DC 20549

FORM 10-Q

x **Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934**
For the quarterly period ended September 30, 2012

Or

.. **Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934**
For the transition period from to

Commission file number: 1-1969

ARBITRON INC.

(Exact name of registrant as specified in its charter)

Edgar Filing: ARBITRON INC - Form 10-Q

Delaware
(State or other jurisdiction of
incorporation or organization)

52-0278528
(I.R.S. Employer
Identification No.)

9705 Patuxent Woods Drive
Columbia, Maryland 21046

(Address of principal executive offices) (Zip Code)

(410) 312-8000

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer

Accelerated Filer

Non-Accelerated Filer (Do not check if a smaller reporting company)

Smaller Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The registrant had 26,161,789 shares of common stock, par value \$0.50 per share, outstanding as of October 25, 2012.

ARBITRON INC.

Notes to Consolidated Financial Statements

September 30, 2012

(unaudited)

1. Basis of Presentation and Consolidation

Presentation

The accompanying unaudited consolidated financial statements of Arbitron Inc. (the Company or Arbitron) have been prepared in accordance with U.S. Generally Accepted Accounting Principles (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by GAAP for complete financial statements. In the opinion of management, all adjustments considered necessary for fair presentation have been included and are of a normal recurring nature. The consolidated balance sheet as of December 31, 2011 was audited as of that date, but all of the information and notes as of December 31, 2011 required by GAAP have not been included in this Form 10-Q. For further information, refer to the consolidated financial statements and notes thereto included in the Company s Annual Report on Form 10-K for the year ended December 31, 2011. Certain amounts in the consolidated financial statements for prior periods have been reclassified to conform to the current period s presentation.

Consolidation

The consolidated financial statements of Arbitron for the nine-month period ended September 30, 2012, reflect the consolidated financial position, results of operations and cash flows of the Company and its wholly-owned subsidiaries: Arbitron Holdings Inc., Arbitron Mobile Oy, Astro West LLC, Cardinal North LLC, Ceridian Infotech (India) Private Limited, Arbitron International, LLC, and Arbitron Technology Services India Private Limited. For the nine-month period ended September 30, 2011, the consolidated financial statements reflected the results of operations and cash flows of Arbitron Mobile Oy and Cardinal North LLC incurred subsequent to the acquisition of Zokem Oy during the month ended July 31, 2011. All significant intercompany balances and transactions have been eliminated in consolidation. The Company has one segment which meets the quantitative thresholds for being a reportable segment.

2. New Accounting Pronouncements

Testing Other Intangibles for Impairment. In July 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2012-02, *Intangibles - Goodwill and Other (Topic 350) - Testing Indefinite-Lived Intangible Assets for Impairment* (ASU 2012-02), to allow entities to use a qualitative approach to test indefinite-lived assets for impairment. ASU 2012-02 permits an entity to first perform a qualitative assessment to determine whether it is more likely than not that the fair value of the intangible asset is less than its carrying value. If it is concluded that this is the case, it is necessary to calculate the fair value of the intangible asset and perform the quantitative impairment test. Otherwise, the entity need not perform the quantitative impairment test. ASU 2012-02 is effective for the Company for interim and annual periods ended during 2013. The Company does not expect that the adoption of this guidance will have a material impact on the Company s consolidated financial statements.

Testing Goodwill for Impairment. In September 2011, the FASB issued Accounting Standards Update No. 2011-08, *Intangibles - Goodwill and Other (Topic 350) - Testing Goodwill for Impairment* (ASU 2011-08), to allow entities to use a qualitative approach to test goodwill for impairment. ASU 2011-08 permits an entity to first perform a qualitative assessment to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying value. If it is concluded that this is the case, it is necessary to perform the currently prescribed two-step goodwill impairment test. Otherwise, the two-step goodwill impairment test is not required. ASU 2011-08 is effective for the Company for interim and annual periods ended during 2012. The adoption of this guidance had no impact on the Company s consolidated financial statements.

Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements. In May 2011, the FASB issued Accounting Standards Update No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards (Topic 820) - Fair Value Measurement* (ASU 2011-04), to provide a consistent definition of fair

value and ensure that the fair value

Table of Contents

measurement and disclosure requirements are similar between GAAP and International Financial Reporting Standards. ASU 2011-04 changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. ASU 2011-04 is effective for the Company for interim and annual periods ended during 2012 and will be applied prospectively. The adoption of this guidance had no impact on the Company's consolidated financial statements.

3. Debt

On November 21, 2011, the Company entered into an agreement with a consortium of lenders to provide up to \$150.0 million of financing to the Company through a five-year, unsecured revolving credit facility (the "Credit Facility") expiring on November 21, 2016. The agreement contains an expansion feature to increase the total financing available under the Credit Facility by up to \$75.0 million to an aggregate of \$225.0 million. Such increased financing would be provided by one or more existing Credit Facility lending institutions, subject to the approval of the lending banks, and/or in combination with one or more new lending institutions, subject to the approval of the Credit Facility's administrative agent.

As of September 30, 2012 and December 31, 2011, there were no outstanding borrowings under the Credit Facility. Interest paid during the nine-month periods ended September 30, 2012, and 2011, was \$0.2 million and \$0.3 million, respectively.

Table of Contents**4. Stockholders Equity**

Changes in stockholders' equity for the nine-month period ended September 30, 2012, were as follows (in thousands):

	Shares Outstanding	Common Stock	Treasury Stock	Retained Earnings	Accumulated Other Comprehensive Loss	Total Stockholders Equity
Balance as of December 31, 2011	27,290	\$ 16,169	\$ (2,524)	\$ 128,772	\$ (15,601)	\$ 126,816
Net income				43,557		43,557
Common stock issued from treasury stock	243		121	3,711		3,832
Common stock repurchased	(1,373)		(686)	(49,339)		(50,025)
Excess tax benefits from share-based awards				775		775
Non-cash share-based compensation				6,779		6,779
Dividends declared				(7,951)		(7,951)
Other comprehensive income					939	939
Balance as of September 30, 2012	26,160	\$ 16,169	\$ (3,089)	\$ 126,304	\$ (14,662)	\$ 124,722

A quarterly cash dividend of \$0.10 per common share was paid to stockholders on October 1, 2012.

5. Net Income per Weighted-Average Common Share

The computations of basic and diluted net income per weighted-average common share for the three and nine-month periods ended September 30, 2012 and 2011, are based on the Company's weighted-average shares of common stock and potentially dilutive securities outstanding. Potentially dilutive securities are calculated in accordance with the treasury stock method, which assumes the proceeds from the exercise of all stock options are used to repurchase the Company's common stock at the average market price for the period.

As of September 30, 2012, and 2011, there were stock options to purchase 2,089,125 shares, and 2,094,214 shares of the Company's common stock outstanding, respectively, of which stock options to purchase 1,399,252 shares, and 1,102,228 shares of the Company's common stock, respectively, were excluded from the computation of the diluted net income per weighted-average common share for the three-month periods ended September 30, 2012, and 2011, respectively, either because the stock options' exercise prices were greater than the average market price of the Company's common shares or assumed repurchases from proceeds from the stock options' exercise were antidilutive.

Table of Contents**6. Accumulated Other Comprehensive Loss**

The components of accumulated other comprehensive loss as of September 30, 2012 and December 31, 2011, were as follows (in thousands):

	September 30, 2012	December 31, 2011
Foreign currency translation adjustment	\$ (2,172)	\$ (2,148)
Retirement plan liabilities, net of tax	(12,490)	(13,453)
Accumulated other comprehensive loss	\$ (14,662)	\$ (15,601)

7. Prepaid Expenses and Other Current Assets

Prepays and other current assets as of September 30, 2012, and December 31, 2011, consisted of the following (in thousands):

	September 30, 2012	December 31, 2011
Survey participant incentives and prepaid postage	\$ 3,298	\$ 1,770
Prepaid Scarborough royalties	972	
Prepaid income taxes	1,497	1,984
Insurance recovery receivables	137	993
Other	2,455	2,394
Prepays and other current assets	\$ 8,359	\$ 7,141

Insurance recovery receivables. During 2008, the Company became involved in two securities-law civil actions and a governmental interaction primarily related to the commercialization of the Company's PPM service. The management of the Company believes a portion of the legal fees and costs associated with this litigation are covered by the Company's Directors and Officers insurance policy and therefore has recognized an insurance recovery receivable. On February 3, 2012, as a result of a mediation process overseen by an independent mediator, the Company and its insurers agreed to settle the class action for \$7.0 million, which was funded by insurance. From 2008 until September 30, 2012, the Company had incurred approximately \$12.7 million in legal fees and costs in defense of its positions related thereto, and as of September 30, 2012, the Company had received \$9.7 million in insurance reimbursements related to these legal actions.

For the nine-month periods ended September 30, 2012, and 2011, the Company incurred approximately \$0.6 million, and \$1.3 million, respectively, in related legal fees, which were recognized as increases to selling, general, and administrative expense. These legal fees were offset by \$0.9 million, and \$1.4 million in estimated insurance recoveries, respectively, which were recognized as reductions to selling, general and administrative expense during 2012 and 2011, respectively.

Table of Contents**8. Equity and Other Investments**

The Company's equity and cost investments as of September 30, 2012, and December 31, 2011, consisted of the following (in thousands):

	September 30, 2012	December 31, 2011
Equity investment	\$ 7,506	\$ 13,210
Cost investment		1,703
Equity and other investments	\$ 7,506	\$ 14,913

The Company's 49.5% investment in Scarborough Research (Scarborough), a Delaware general partnership, is accounted for using the equity method of accounting. During the month ended July 31, 2012, the Company sold its \$1.7 million preferred stock investment in TRA Global, Inc. (TRA). Prior to the sale, the TRA investment was accounted for using the cost method of accounting. The proceeds from the sale were approximately equal to the investment's carrying value. Cash proceeds received from the sale amounted to approximately \$1.5 million as of September 30, 2012, with an additional \$0.2 million deposited in escrow. The escrow funds will be released to the Company in January 2014, less any claims paid from the escrow account. The escrow fund deposit is recorded on the Company's balance sheet as a portion of the Company's non-current assets.

The following table shows the investment activity and balances for each of the Company's investments for the three and nine-month periods ended September 30, 2012, and 2011 (in thousands):

	Three-Month Period September 30, 2012			Three-Month Period September 30, 2011		
	Scarborough	TRA	Total	Scarborough	TRA	Total
Beginning balance	\$ 11,945	\$ 1,703	\$ 13,648	\$ 12,076	\$ 5,180	\$ 17,256

Ending balance	\$ 7,506	\$	\$ 7,506	\$ 7,636	\$ 5,180	\$ 12,816

Table of Contents**9. Retirement Plans**

Certain of the Company's United States employees participate in a defined-benefit pension plan that closed to new participants effective January 1, 1995. The Company has a nonqualified, unfunded supplemental retirement plan, as well as a postretirement healthcare plan for eligible retired employees who participate in the pension plan and were hired before January 1, 1992. The components of periodic benefit costs for the defined-benefit pension, postretirement healthcare and supplemental retirement plans were as follows for the three and nine-month periods ended September 30, 2012, and 2011 (in thousands):

	Defined-Benefit		Postretirement Healthcare		Supplemental	
	Pension Plan		Plan		Retirement Plan	
	Three-Month Period		Three-Month Period		Three-Month Period	
	Ended September 30, 2012	2011	Ended September 30, 2012	2011	Ended September 30, 2012	2011

Table of Contents**10. Acquisitions**

Zokem Oy. On July 28, 2011, a wholly-owned subsidiary of the Company acquired Zokem Oy. The purchase price was \$10.6 million in cash plus a contingent consideration arrangement with an estimated fair value of approximately \$0.9 million as of the acquisition date. The contingent consideration arrangement provides for possible additional cash payments to be made by the Company to the former Zokem shareholders through 2015 of up to \$12.0 million, which are contingent upon Zokem reaching certain financial performance targets in the future. The acquisition date fair value estimate was determined by applying the income approach method. The key assumptions used in the fair value valuation included a probability-weighted range of performance targets for the four-year measurement period of 2012 through 2015 and an adjusted discount rate. The Company periodically reassesses the fair value of the contingent consideration. As of September 30, 2012, the Company's estimate of the fair value of the contingent consideration was \$1.1 million, recorded in other noncurrent liabilities on the Company's consolidated balance sheet.

The following table shows the changes in goodwill for the nine-month periods ended September 30, 2012, and 2011, (in thousands):

	Nine-Month Period Ended September 30, 2012	Nine-Month Period Ended September 30, 2011
Beginning balance	\$ 45,430	\$ 38,895
Zokem Oy addition		5,623
Translation effect	(71)	
Ending balance	\$ 45,359	\$ 44,518

11. Taxes

The effective tax rate decreased to 38.1% for the nine months ended September 30, 2012, from 39.5% for the nine-month period ended September 30, 2011. The effective tax rate through September 30, 2011 was impacted unfavorably by certain nondeductible Arbitron Mobile related operating losses. The effective tax rate through September 30, 2012 was reduced due to a favorable audit resolution with the Internal Revenue Service during 2012.

During the nine-month period ended September 30, 2012, the Company's unrecognized tax benefits for certain income tax contingencies increased from \$1.3 million as of December 31, 2011, to \$1.6 million as of September 30, 2012. The increase is attributable to various state related issues. If recognized, the \$1.6 million in unrecognized tax benefits would reduce the Company's effective tax rate in future periods.

Income taxes paid for the nine-months ended September 30, 2012 and 2011, were \$28.1 million and \$21.1 million, respectively.

Table of Contents**12. Share-Based Compensation**

The following table sets forth information with regard to the income statement recognition of share-based compensation for the three and nine-month periods ended September 30, 2012, and 2011 (in thousands):

	Three-Month Period Ended September 30, 2012	Three-Month Period Ended September 30, 2011	Nine-Month Period Ended September 30, 2012	Nine-Month Period Ended September 30, 2011
Cost of revenue	\$ 139	\$ 200	\$ 382	\$ 442
Selling, general and administrative	2,196	1,734	6,136	5,164
Research and development	67	95	261	254
Share-based compensation	\$ 2,402	\$ 2,029	\$ 6,779	\$ 5,860

No share-based compensation cost was capitalized during the nine-month periods ended September 30, 2012, and 2011.

Stock Options

Stock options awarded to employees under the Company's 2008 Equity Compensation Plan (2008 Plan) generally vest annually over a three-year period, have a 10-year term and have an exercise price equal to the fair market value of the Company's common stock at the date of grant. Compensation expense for stock options is recognized on a straight-line basis over the vesting period using the fair value of each stock option estimated as of the grant date.

For the three-month period ended September 30, 2012 and 2011, the number of stock options granted was 108,871 and 81,001, respectively, and the weighted-average exercise price for those stock options granted was \$36.07 and \$34.83, respectively. For the nine-month periods ended September 30, 2012 and 2011, the number of stock options granted was 215,337 and 154,226, respectively, and the weighted-average exercise price for those stock options granted was \$35.07 and \$39.21, respectively.

As of September 30, 2012, there was \$3.4 million in total unrecognized compensation cost related to unvested stock options. This aggregate unrecognized cost is expected to be recognized over a weighted-average remaining period of 2.3 years. The weighted-average exercise price and weighted-average remaining contractual term for outstanding stock options as of September 30, 2012, were \$34.01 and 5.4 years, respectively.

Service and Performance Award Units

Service award units. The Company's unvested service award units (i) were issued at the fair market value of the Company's common stock on the date of grant, (ii) vest in four equal annual installments beginning on the first anniversary date of the grant, and (iii) expire without vesting if the employee is no longer employed by the Company. Compensation expense for service award units is recognized on a straight-line basis over the vesting period using the fair market value of the Company's common stock on the date of grant.

As of September 30, 2012, there was \$2.6 million of total unrecognized compensation cost related to unvested service award units. This aggregate unrecognized cost for service award units is expected to be recognized over a weighted-average period of approximately 3.0 years.

Table of Contents

Additional information for the three and nine-month periods ended September 30, 2012, and 2011, is noted in the following table (dollars in thousands, except per share amounts):

	Three-Month Period Ended September 30, 2012	Three-Month Period Ended September 30, 2011	Nine-Month Period Ended September 30, 2012	Nine-Month Period Ended September 30, 2011
Number of service award shares granted during the period	45,402		49,985	18,434
Weighted average grant-date fair value per share granted during the period	\$ 36.10		\$ 36.04	\$ 42.72
Fair value of service award shares vested during the period	\$ 266	\$ 322	\$ 2,006	\$ 2,536

Service award units to Board of Directors (Board). Beginning in 2012, the Board members have the right to elect to receive all or a portion of their annual 2012 compensation as Board service award units. These Board service award units (i) were issued at the fair market value of the Company's common stock on the date of grant, and (ii) vest on the anniversary date of the grant. Compensation expense for Board service award units is recognized on a straight-line basis over the vesting period using the fair market value of the Company's common stock on the date of grant.

During the three-month period ended September 30, 2012, no Board service award units were granted. During the nine-month period ended September 30, 2012, the Company granted 5,640 Board service award units at a weighted average grant-date fair value per share of \$35.46. As of September 30, 2012, there was \$0.1 million of total unrecognized compensation cost related to unvested Board service award units. This aggregate unrecognized cost for service award units is expected to be recognized over a weighted-average period of 0.6 years.

Performance award units. During the nine-month periods ended September 30, 2012 and 2011, the Company granted performance award units under the 2008 Plan. These performance award units (i) were issued at the fair market value of the Company's common stock on the date of grant, (ii) will expire without vesting if the Company's return on invested capital (ROIC) for the annual performance period does not exceed 12%, which is an approximation of the Company's weighted average cost of capital, (iii) will, if the Company's ROIC exceeds 12%, vest in four equal annual installments beginning with the first anniversary date of the grant, and (iv) for any unvested units, expire without vesting if the recipient is no longer employed by the Company.

Compensation expense for performance award units is recognized on an accelerated basis using the fair market value of the Company's common stock on the date of grant. The Company recognizes expense for these performance award units under the assumption that the performance ROIC target will be achieved. If it appears such performance ROIC target will not be met, the Company will stop recognizing any further compensation cost and any previously recognized compensation cost would be reversed. As of September 30, 2012, there was \$1.8 million of total unrecognized compensation cost related to unvested performance award units. This aggregate unrecognized cost is expected to be recognized over a weighted-average period of 2.7 years.

Table of Contents

Additional information for the three and nine-month periods ended September 30, 2012, and 2011, is noted in the following table (dollars in thousands, except per share amounts):

	Three-Month Period Ended September 30, 2012	Three-Month Period Ended September 30, 2011	Nine-Month Period Ended September 30, 2012	Nine-Month Period Ended September 30, 2011
Number of performance award shares granted during the period		29,992	34,229	52,503
Weighted average grant-date fair value per share granted during the period		\$ 41.52	\$ 33.87	\$ 42.77
Fair value of performance award shares vested during the period	\$ 236		\$ 1,083	\$ 804

Deferred Stock Units

Service DSU grants to CEO. During the nine-month periods ended September 30, 2012 and 2011, the Company granted service-based deferred stock unit awards (Service DSUs) under the 2008 Plan to its CEO. Service DSUs are issued at the fair market value of the Company's stock on the date of grant, and generally vest annually over a four-year period on each anniversary date of the grant. Service DSUs also include dividend equivalent DSUs, which vest immediately upon the date of grant.

Compensation expense for Service DSUs is recognized on a straight-line basis over the vesting period using the fair market value of the Company's common stock on the date of grant. The Service DSUs provide for accelerated vesting upon termination without cause or the CEO's retirement as defined in his employment agreement. As of September 30, 2012, there was no unrecognized compensation cost related to Service DSUs.

Table of Contents

The Service DSUs will be convertible into shares of the Company's common stock following the holder's termination of employment. No Service DSUs were converted into shares of the Company's common stock during the nine-month periods ended September 30, 2012, and 2011. Additional information for the three and nine-month periods ended September 30, 2012, and 2011, is noted in the following table (dollars in thousands, except per share amounts):

	Three-Month Period Ended September 30, 2012	Three-Month Period Ended September 30, 2011	Nine-Month Period Ended September 30, 2012	Nine-Month Period Ended September 30, 2011
Service DSU s Granted to CEO				
Number of shares granted during the period			1,181	900
Weighted-average grant date fair value per share granted during the period			\$ 33.87	\$ 44.44
Fair value of shares vested during the period			\$ 568	\$ 704

Performance DSU grants to CEO. During the nine-month periods ended September 30, 2012 and 2011, the Company granted performance-based deferred stock unit awards (Performance DSUs) under the 2008 Plan to its CEO. These Performance DSUs (i) were issued at the fair market value of the Company's common stock on the date of grant, (ii) will expire without vesting if the Company's ROIC for the annual performance period does not exceed 12%, which is an approximation of the Company's weighted average cost of capital, (iii) will, if the Company's ROIC exceeds 12%, vest in four equal annual installments beginning on the first anniversary date of the grant, and (iv) provide for accelerated vesting upon termination without cause or the CEO's retirement as defined in his employment agreement. These Performance DSUs, if vested, will be convertible into shares of the Company's common stock, subsequent to termination of employment.

Compensation expense for Performance DSUs is recognized on an accelerated basis using the fair market value of the Company's common stock on the date of grant. The Company recognizes expense for these Performance DSUs under the assumption that the performance target will be achieved. If it appears such performance target will not be met, the Company will stop recognizing any further compensation cost and any previously recognized compensation cost would be reversed. As of September 30, 2012, there was \$0.8 million of total unrecognized compensation cost related to Performance DSUs. This aggregate unrecognized cost is expected to be recognized over the weighted-average period of 0.3 years.

Additional information for the three and nine-month periods ended September 30, 2012, and 2011, is noted in the following table (dollars in thousands, except per share amounts):

	Three-Month Period Ended September 30, 2012	Three-Month Period Ended September 30, 2011	Nine-Month Period Ended September 30, 2012	Nine-Month Period Ended September 30, 2011
Performance DSU s Granted to CEO				
Number of shares granted during the period			59,049	24,122
Weighted-average grant date fair value per share granted during the period			\$ 33.87	\$ 44.44
Fair value of shares vested during the period			\$ 396	\$ 227

Table of Contents

Service DSU grants to Board. The Company issues deferred stock units to its Board of Directors (Board DSUs) under the 2008 Plan. These Board DSUs (i) were issued at the fair market value of the Company's common stock on the date of grant and (ii) if vested, will be convertible to shares of the Company's common stock subsequent to termination of service as a director. Beginning in 2012, the Board members have the right to elect to receive all or a portion of their annual 2012 compensation as Board DSUs that vest completely on the first anniversary date of the grant. For 2011 and 2010, annual grants were issued to the Board as Board DSUs that vest annually in three equal installments over a three-year period.

In addition, the Board members have the right to elect to receive all or a portion of their retainer and meeting attendance fees as Board DSUs, which vest immediately. Board DSUs are only granted to nonemployee Directors. Board DSUs also include dividend equivalent DSUs, which vest immediately upon the date of grant.

Compensation expense for Board DSUs is recognized on a straight-line basis over the vesting period using the fair market value of the Company's common stock on the date of grant. As of September 30, 2012, there was \$1.2 million of total unrecognized compensation cost related to Board DSUs granted to nonemployee directors. This aggregate unrecognized cost is expected to be recognized over the weighted-average period of 1.1 years.

Additional information for the three and nine-month periods ended September 30, 2012, and 2011, is noted in the following table (dollars in thousands, except per share amounts):

	Three-Month Period Ended September 30, 2012	Three-Month Period Ended September 30, 2011	Nine-Month Period Ended September 30, 2012	Nine-Month Period Ended September 30, 2011
Number of shares granted during the period	1,298	6,232	23,866	28,798
Weighted-average grant date fair value per share granted during the period	\$ 38.06	\$ 38.78	\$ 35.63	\$ 40.19
Fair value of shares vested during the period	\$ 158	\$ 113	\$ 818	\$ 624

Table of Contents**13. Concentration Risk**

Arbitron is a leading media and marketing information services firm primarily serving radio, advertisers, advertising agencies, cable and broadcast television, retailers, out-of-home media, online media, mobile media, telecommunications providers, and print media.

The Company's quantitative radio audience ratings service and related software licensing revenue accounted for the following percentages, in the aggregate, of total Company revenue:

	Three-Month Period Ended September 30, 2012	Three-Month Period Ended September 30, 2011	Nine-Month Period Ended September 30, 2012	Nine-Month Period Ended September 30, 2011
Quantitative radio audience ratings service and related software licensing revenue	94%	95%	91%	91%

The Company had one customer that individually represented approximately 19% of its annual revenue for the year ended December 31, 2011. The Company had two customers that individually represented approximately 19% and 10% of its total accounts receivable balance as of September 30, 2012, and two customers that individually represented approximately 23% and 11% of its total accounts receivable balance as of December 31, 2011. The Company has historically experienced a high level of contract renewals.

14. Stock Repurchases

On February 9, 2012, the Company's Board of Directors authorized a program to repurchase up to \$100.0 million in shares of the Company's outstanding common stock through either periodic open-market or private transactions, in accordance with applicable insider trading and other securities laws and regulations, at then-prevailing market prices over a period of up to two years ending February 9, 2014. As of September 30, 2012, the Company had repurchased 1,372,853 shares of its outstanding common stock under this program for approximately \$50.0 million. No shares of the Company's common stock were repurchased during the three-month period ended September 30, 2012.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with our consolidated financial statements and the notes thereto in this Quarterly Report on Form 10-Q.

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. The statements regarding Arbitron Inc. and its subsidiaries (we, our, Arbitron, or the Company) in this document that are not historical in nature, particularly those that utilize terminology such as may, will, should, likely, expects, intends, anticipates, estimates, believe, comparable terminology, are forward-looking statements based on current expectations about future events, which we have derived from information currently available to us. These forward-looking statements involve known and unknown risks and uncertainties that may cause our actual results to differ materially from results implied by such forward-looking statements. These risks and uncertainties include, in no particular order, whether we will be able to:

successfully obtain and/or maintain Media Rating Council, Inc. (MRC) accreditation for our audience ratings services;

renew contracts with key customers;

collect, manage, and process the consumer information we utilize in our media marketing and information services in compliance with applicable data protection and privacy statutes, regulations, and other requirements;

successfully execute and maintain our cross platform and mobile measurement initiatives;

support our current and future services by designing, recruiting, and maintaining research samples that appropriately balance quality, size and operational cost;

successfully develop, implement, and fund initiatives designed to enhance sample quality;

successfully manage costs associated with cell phone household recruitment, targeted in-person recruitment, and address-based sampling;

successfully maintain and promote industry usage of our media and marketing information services, a critical mass of broadcaster encoding, and the proper understanding of our services and methodologies in light of governmental actions, including investigation, regulation, legislation or litigation, customer or industry group activism, or adverse community or public relations efforts;

successfully manage the impact on our business of the current economic environment generally, and in the advertising market, including, without limitation, the insolvency of any of our customers or the impact of the economic environment on our customers' ability to fulfill their payment obligations to us;

successfully integrate acquired operations, including differing levels of management and internal control effectiveness at the acquired entity;

Edgar Filing: ARBITRON INC - Form 10-Q

effectively respond to rapidly changing technologies by creating proprietary systems to support our research initiatives and by developing new services that meet marketplace demands in a timely manner;

successfully execute our business strategies, including evaluating and, where appropriate, entering into potential acquisition, joint-venture or other material third-party agreements;

successfully develop and implement technology solutions to identify and report consumer use of new and existing forms of media content and delivery, and advertising in an increasingly competitive environment; and

compete with companies that may have financial, marketing, sales, technical or other advantages over us.

There are a number of additional important factors that could cause actual events or our actual results to differ materially from those indicated by such forward-looking statements, including, without limitation, the factors set forth in Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2011, and elsewhere, and any subsequent periodic or current reports filed by us with the Securities and Exchange Commission (the SEC).

Table of Contents

In addition, any forward-looking statements represent our expectations only as of the day we filed this Quarterly Report with the SEC and should not be relied upon as representing our expectations as of any subsequent date. While we may elect to update forward-looking statements at some point in the future, we specifically disclaim any obligation to do so, even if our expectations change.

Overview

We are a leading media and marketing information services firm primarily serving radio, advertisers, advertising agencies, cable and broadcast television, retailers, out-of-home media, online media, mobile media, telecommunications providers, and print media. We currently provide four main services:

estimating the size and composition of radio audiences in local markets and of audiences to network radio programming and commercials in the United States;

estimating the size and composition of audiences to media other than radio, including television viewed out-of-home, and content distributed on multiple platforms; we also analyze the behavior of smartphone and tablet users;

providing qualitative information about consumers, including their lifestyles, shopping patterns, and use of media; and

providing software to access and analyze media audience and marketing information data.

We have commercialized our Arbitron Portable People Meter™ (PPM) ratings service in 48 of the largest United States radio markets. We may choose to commercialize our PPM ratings service in additional markets in the future. We refer to each of the 48 United States radio markets in which we have commercialized our PPM service as a PPM Market and collectively, as the PPM Markets.

Historically, our quantitative radio ratings services and related software have accounted for a substantial majority of our revenue. For each of the nine-month periods ended September 30, 2012, and 2011, our quantitative radio ratings services and related software accounted for approximately 91% of our revenue. Approximately 80% of our total revenue for the nine-month period ended September 30, 2012, was derived from local radio ratings services, of which approximately 70% was from the PPM Markets and 30% was from our Diary markets.

We expect for the year ending December 31, 2012, our quantitative radio ratings services and related software licensing will account for approximately 89% of our revenue. We also expect approximately 78% of our total revenue for the year ending December 31, 2012 will be derived from local radio ratings services, of which we estimate approximately 75% will be from the PPM Markets and 25% will be from the Diary markets. Quarterly fluctuations in these percentages are reflective of the seasonal delivery schedule of our quantitative radio ratings service and our Scarborough reports. For further information regarding seasonality trends, see Seasonality.

While we expect our quantitative radio ratings services and related software licensing will account for the majority of our revenue for the foreseeable future, we continue to seek opportunities to diversify our revenue base by, among other things, leveraging the investment we have made in our PPM ratings service and technology.

With the commercialization of our PPM ratings service complete in 48 of the largest U.S. radio markets, our future performance will be impacted by our ability, and the costs required, to address a variety of challenges and opportunities in the markets and industries we serve. See Ratings Trends and Initiatives for our Syndicated Radio Ratings Services below. Protecting and supporting our existing customer base, and ensuring our services are competitive from a price, quality, and service perspective are critical components to these overall goals, although there can be no guarantee we will be successful in our efforts.

Table of Contents

Ratings Trends and Initiatives for our Syndicated Radio Ratings Services

Challenges

We face a number of challenges in our syndicated radio audience ratings services. Response rates are one measure of our effectiveness in obtaining consent from persons to participate in our surveys and panels. Overall response rates for survey research, in general, have declined over the past several decades, and it has become increasingly difficult and more costly for us to obtain consent from persons to participate in our surveys and panels. We have been adversely impacted by these industry trends. Another measure often employed by users of our data to assess quality in our ratings is sample proportionality, which refers to how well the distribution of the group participating in any individual survey compares to the distribution of the population in the local market. We strive to achieve a level of both response rates and sample proportionality in our surveys sufficient to maintain marketplace confidence in our ratings and acceptance by the industry, and to support accreditation by the MRC.

If response rates decline or we are unable to maintain sample proportionality in our surveys or the costs of recruitment initiatives significantly increase, our radio audience ratings business could be adversely affected.

Quality Improvement Initiatives

In an effort to address the above challenges, we established internal benchmarks we strive to achieve for response rates and sample proportionality and have instituted a number of methodological enhancements, including cell phone household recruiting, targeted in-person recruiting, and address-based sampling. It is more expensive for us to recruit cell phone households and to conduct targeted in-person recruiting and address-based sampling. Because we intend to continue to increase the number of cell phone households in our samples and the level of address-based and targeted in-person recruiting, we expect the expenditures required to support these methods will be material. We currently anticipate the aggregate cost of cell phone household recruitment for the PPM and Diary services, and address-based and targeted in-person recruiting for the PPM service will be approximately \$18.5 million in 2012, as compared to \$15.5 million in 2011.

Portable People Meter Service. In operating our PPM ratings service, we have experienced and expect to continue to experience challenges, including those related to response rates and sample proportionality as described above in Ratings Trends and Initiatives for our Syndicated Radio Ratings Services Challenges. We expect to continue to implement additional measures to address these challenges. Since launching our PPM ratings service, we have implemented a number of initiatives and announced additional initiatives. We believe these steps reflect our commitment to ongoing improvement and our responsiveness to feedback from customers and governmental entities. We believe these commitments and enhancements are consistent with our efforts to continuously improve our radio ratings services and to obtain and maintain MRC accreditation. We expect these initiatives will likely require expenditures that will be material in the aggregate.

Diary Service. We strive to achieve representative samples. We believe that additional expenditures will be required in the future as we continue to research and test new measures associated with improving response rates and sample proportionality as described above in Ratings Trends and Initiatives for our Syndicated Radio Ratings Services Challenges.

MRC Accreditation

On July 18, 2012, the MRC accredited the radio average-quarter-hour monthly ratings data produced by the PPM ratings service in five markets: Los Angeles, Tampa-St. Petersburg-Clearwater, Baltimore, Riverside-San Bernardino, and San Antonio. Three of the markets, including Los Angeles, Baltimore and San Antonio, were granted MRC accreditation for the first time. Two of the markets, including Riverside-San Bernardino and Tampa-St. Petersburg-Clearwater, regained accreditation, which had been withdrawn by the MRC in January 2012. The MRC has also voted to continue accreditation in nine other markets: Atlanta, Cincinnati, Houston, Kansas City, Milwaukee-Racine, Minneapolis-St. Paul, Philadelphia, Phoenix, and St. Louis. The MRC voted to not grant accreditation at this time in the remaining 34 PPM markets, and therefore PPM data in those markets continue to be unaccredited.

Table of Contents

As of the date we filed this Quarterly Report on Form 10-Q with the SEC, the quarter-hour-based radio ratings data produced by the PPM ratings service is accredited by the MRC in 14 local markets: Atlanta; Cincinnati; Houston-Galveston; Kansas City; Milwaukee-Racine; Minneapolis-St. Paul; Philadelphia; Phoenix; St. Louis; Los Angeles; Tampa-St. Petersburg-Clearwater; Baltimore; Riverside-San Bernardino; and San Antonio. We have applied for accreditation in all PPM Markets. We continue to seek accreditation in all unaccredited PPM Markets. For additional information regarding the status of MRC accreditation of our ratings services, see Item 1. Business Media Rating Council Accreditation in our Annual Report on Form 10-K for the year ended December 31, 2011.

Privacy and Data Security

We are currently subject to U.S. and international data protection and privacy statutes, rules, and regulations, and may in the future become subject to additional such statutes, rules, and regulations. Complying with these laws may require us to make certain investments, make modifications to existing services, or prohibit us from offering certain types of services, any of which may be material and adversely impact our financial results. Failure to comply could result in civil and criminal liability, negative publicity, data being blocked from use, and liability under contracts with our customers, vendors, and partners.

Sale of TRA Investment

During July 2012, we sold our investment in TRA for approximately \$1.7 million, which was approximately equal to its \$1.7 million carrying value at the time of the sale. Cash proceeds received from the sale amounted to approximately \$1.5 million with an additional \$0.2 million deposited in escrow. The escrow funds will be released to us in January 2014, less any claims paid from the escrow account. The escrow fund deposit is recorded on our balance sheet as a portion of our non-current assets.

Stock Repurchases

On February 9, 2012, our Board of Directors authorized a program to repurchase up to \$100.0 million in shares of our outstanding common stock through either periodic open-market or private transactions, in accordance with applicable insider trading and other securities laws and regulations, at then-prevailing market prices over a period of up to two years ending February 9, 2014. As of October 25, 2012, we have repurchased 1,372,853 shares of outstanding common stock under this program for approximately \$50.0 million.

General Economic Conditions

Many of our customers derive most of their revenue from transactions involving the sale or purchase of advertising. During recent challenging economic times, advertisers reduced advertising expenditures, impacting advertising agencies and media. As a result, advertising agencies and media companies have been and may continue to be less likely to purchase our services, which has and could continue to adversely impact our business, financial position, and operating results. If the recovery from the recent economic downturn slows or if the economy experiences another downturn in the foreseeable future, it may also lead to an increase of incidences of customers' inability to pay their accounts, an increase in our provision for doubtful accounts, and a further increase in collection cycles for accounts receivable or insolvency of our customers.

We depend on a limited number of key customers for our ratings services and related software. For example, in 2011, Clear Channel represented approximately 19% of our total revenue. If one or more key customers do not renew all or part of their contracts as they expire, we could experience a significant decrease in our operating results.

Table of Contents

Critical Accounting Policies and Estimates

Critical accounting policies and estimates are those that are both important to the presentation of our financial position or results of operations, and require our most difficult, complex or subjective judgments.

Software development costs. We capitalize software development costs with respect to significant internal use software initiatives or enhancements from the time the preliminary project stage is completed and management considers it probable the software will be used to perform the function intended, until the time the software is placed in service for its intended use. Once the software is placed in service, the capitalized costs are amortized over periods of three to five years. We perform an assessment quarterly to determine if it is probable all capitalized software will be used to perform its intended function. If an impairment exists, the software cost is written down to estimated fair value. As of September 30, 2012, and December 31, 2011, our capitalized software developed for internal use had carrying amounts of \$28.4 million and \$28.9 million, respectively, including \$10.0 million and \$10.4 million, respectively, of software related to the PPM service.

Deferred income taxes. We use the asset and liability method of accounting for income taxes. Under this method, income tax expense is recognized for the amount of taxes payable or refundable for the current year and for deferred tax assets and liabilities for the future tax consequences of events that have been recognized in an entity's financial statements or tax returns. We must make assumptions, judgments and estimates to determine the current provision for income taxes and also deferred tax assets and liabilities and any valuation allowance to be recorded against a deferred tax asset. Our assumptions, judgments, and estimates relative to the current provision for income taxes take into account current tax laws, interpretation of current tax laws and possible outcomes of current and future audits conducted by domestic and foreign tax authorities. Changes in tax law or interpretation of tax laws and the resolution of current and future tax audits could significantly impact the amounts provided for income taxes in the consolidated financial statements. Our assumptions, judgments and estimates relative to the value of a deferred tax asset take into account forecasts of the amount and nature of future taxable income. Actual operating results and the underlying amount and nature of income in future years could render current assumptions, judgments and estimates of recoverable net deferred tax assets inaccurate. We believe it is more likely than not that we will realize the benefits of these deferred tax assets. Any of the assumptions, judgments and estimates mentioned above could cause actual income tax obligations to differ from estimates, thus impacting our financial position and results of operations.

We include, in our tax calculation methodology, an assessment of the uncertainty in income taxes by establishing recognition thresholds for our tax positions. Inherent in our calculation are critical judgments by management related to the determination of the basis for our tax positions. For further information regarding our unrecognized tax benefits, see Note 11 in the Notes to Consolidated Financial Statements contained in this Quarterly Report on Form 10-Q.

Insurance Receivables. During 2008, we became involved in two securities-law civil actions and a governmental interaction primarily related to the commercialization of our PPM service. Since 2008, we have incurred a total of \$12.7 million in legal fees and expenses in connection with these matters. As of September 30, 2012, an aggregate of \$9.7 million in insurance reimbursements related to these legal actions has been received. As of September 30, 2012, and December 31, 2011, our insurance claims receivable related to these legal actions was \$0.1 million and \$1.0 million, respectively, and these amounts are included in our prepaid expenses and other current assets on our balance sheet. See Note 7 in our Notes to Consolidated Financial Statements for additional information concerning our insurance recovery receivables.

Contingent consideration. The agreement governing the 2011 acquisition of Zokem Oy, now Arbitron Mobile Oy (Arbitron Mobile), provides for possible additional cash payments to be made by us to the former Zokem shareholders through 2015 of up to \$12.0 million, contingent upon Arbitron Mobile reaching certain financial performance targets in the future. We estimated the fair value of this contingent consideration to be approximately \$0.9 million as of the July 28, 2011 acquisition date. We periodically estimate the fair value of the contingent consideration and any change in fair value will be recognized in our consolidated financial results of operations. An increase in the contingent consideration expected to be paid will result in a charge to operations in the quarter the anticipated fair value of contingent consideration increases, while a decrease in the contingent consideration expected to be paid will result in a credit to operations in the quarter the anticipated fair value of contingent consideration decreases. The estimate of the fair

Table of Contents

value of contingent consideration requires subjective assumptions to be made of future operating results. We estimated that the fair value of the contingent consideration as of September 30, 2012 to be \$1.1 million. Future revisions to our assumptions could materially change our estimate of the fair value of contingent consideration and therefore materially affect our future financial results and financial condition.

- (1) EBIT (earnings before interest and income taxes), EBIT Margin (EBIT divided by revenue), EBITDA (earnings before interest, income taxes, depreciation and amortization), and EBITDA Margin (EBITDA divided by revenue) are non-GAAP financial measures we believe are useful to investors in evaluating our results. See EBIT and EBITDA below for further discussion of these non-GAAP financial measures.

Table of Contents

Revenue. Revenue increased by 8.3% or \$8.8 million for the three-month period ended September 30, 2012, as compared to the same period in 2011, due primarily to a \$4.9 million increase in PPM-based ratings service revenue, in particular the nearly completed phase-in of contracted PPM price increases, and a \$2.3 million increase in Diary rating service revenue, a \$0.9 million increase in custom service revenue and a \$0.7 million increase in PPM International revenue.

Cost of Revenue. Cost of revenue increased by 9.0% or \$4.5 million for the three-month period ended September 30, 2012, as compared to the same period in 2011. Cost of revenue increased primarily due to a \$1.4 million increase in PPM variable costs, including higher survey participant incentives and panel management costs resulting from a higher average number of panelists for the three-month period ended September 30, 2012, as compared to the same period of 2011, a \$1.4 million increase in aggregate costs associated with address based sampling, in-person recruiting and cell-phone household recruiting, and a \$0.8 million increase associated with our Arbitron Mobile service.

Selling, General, and Administrative. Selling, general, and administrative expense increased by 21.3% or \$3.9 million for the three-month period ended September 30, 2012, as compared to the same period in 2011. Selling, general, and administrative costs increased primarily due to a \$1.2 million increase in Arbitron Mobile and cross-platform service related costs, a \$0.9 million impairment charge incurred during the third quarter 2012 associated with certain internal use software deemed impaired as a result of enhancements to our cross-platform methodologies, a \$0.7 million increase in short-term executive incentive compensation expense, a \$0.5 million increase in legal fees, net of insurance recoveries, and a \$0.5 million increase in share-based compensation expense incurred during the three-month period ended September 30, 2012, as compared to the same period of 2011.

EBIT and EBITDA. We believe presenting EBIT and EBITDA, both non-GAAP financial measures, as supplemental information helps investors, analysts and others, if they so choose, understand and evaluate our operating performance in some of the same ways we do because EBIT and EBITDA exclude certain items not directly related to our core operating performance. We reference these non-GAAP financial measures in assessing current performance and making decisions about internal budgets, resource allocation and financial goals. EBIT is calculated by deducting interest income from net income and adding back interest expense and income tax expense to net income. EBITDA is calculated by deducting interest income from net income and adding back interest expense, income tax expense, and depreciation and amortization to net income. EBIT and EBITDA margins are calculated as percentages of revenue. EBIT and EBITDA should not be considered substitutes either for net income, as indicators of our operating performance, or for cash flow, as measures of our liquidity. In addition, because EBIT and EBITDA may not be calculated identically by all companies, the presentation here may not be comparable to other similarly titled measures of other companies.

Both EBIT and EBITDA were flat for the three-month period ended September 30, 2012, as compared to the same period of 2011. Both EBIT and EBITDA for the three-month period ended September 30, 2012 were reduced by a \$0.9 million software impairment charge incurred during the third quarter of 2012.

- (1) EBIT (earnings before interest and income taxes), EBIT Margin (EBIT divided by revenue), EBITDA (earnings before interest, income taxes, depreciation and amortization), and EBITDA Margin (EBITDA divided by revenue) are non-GAAP financial measures we believe are useful to investors in evaluating our results. See EBIT and EBITDA below for further discussion of these non-GAAP financial measures.

Table of Contents

Revenue. Revenue increased by 7.6% or \$23.0 million for the nine-month period ended September 30, 2012, as compared to the same period in 2011, due primarily to a \$17.3 million increase in PPM-based ratings service revenue, in particular the nearly completed phase-in of contracted PPM price increases, a \$3.0 million increase in Diary-based ratings service revenue, a \$1.8 million increase in our Scarborough qualitative service revenue, and a \$0.8 million increase associated with our Arbitron Mobile service.

Cost of Revenue. Cost of revenue increased by 5.4% or \$8.4 million for the nine-month period ended September 30, 2012, as compared to the same period in 2011. Cost of revenue increased primarily due to a \$2.1 million increase in PPM variable costs, including higher survey participant incentives and panel management costs resulting from a higher average number of panelists for the nine-month period ended September 30, 2012, as compared to the same period of 2011, a \$2.0 million increase in aggregate costs associated with address based sampling, in-person recruiting and cell-phone household recruiting, a \$1.6 million increase in costs associated with Arbitron Mobile, which was acquired in July 2011, and a \$1.4 million increase in Scarborough royalty costs associated with higher Scarborough revenue for the nine-month period ended September 30, 2012, as compared to the same period in 2011.

Selling, General, and Administrative. Selling, general, and administrative expense increased by 12.7% or \$6.9 million for the nine-month period ended September 30, 2012, as compared to the same period in 2011. Selling, general, and administrative costs increased primarily due to a \$2.7 million increase in Arbitron Mobile related costs, a \$1.1 million increase in cross-platform service related costs, a \$1.0 million increase in share-based compensation, \$0.8 million of executive separation costs incurred during the first half of 2012, a \$0.7 million increase in amortization expense associated with back-office systems implemented during the last half of 2011, and a \$0.7 million increase in certain internal use software impairment charges incurred during the nine-month period ended September 30, 2012, as compared with the same period of 2011.

Research and Development. Research and development increased by 7.5% or \$2.1 million for the nine-month period ended September 30, 2012, as compared to the same period in 2011. Research and development increased primarily due to a \$0.8 million increase in engineering development expense related to our PPM service for the nine-month period ended September 30, 2012, as compared to the same period in 2011, as well as a \$0.7 million increase in costs associated with Arbitron Mobile, which was acquired during the third quarter of 2011.

EBIT and EBITDA. We believe presenting EBIT and EBITDA, both non-GAAP financial measures, as supplemental information helps investors, analysts and others, if they so choose, understand and evaluate our operating performance in some of the same ways we do because EBIT and EBITDA exclude certain items not directly related to our core operating performance. We reference these non-GAAP financial measures in assessing current performance and making decisions about internal budgets, resource allocation and financial goals. EBIT is calculated by deducting interest income from net income and adding back interest expense and income tax expense to net income. EBITDA is calculated by deducting interest income from net income and adding back interest expense, income tax expense, and depreciation and amortization to net income. EBIT and EBITDA margins are calculated as percentages of revenue. EBIT and EBITDA should not be considered substitutes either for net income, as indicators of our operating performance, or for cash flow, as measures of our liquidity. In addition, because EBIT and EBITDA may not be calculated identically by all companies, the presentation here may not be comparable to other similarly titled measures of other companies.

EBIT and EBITDA increased by \$5.7 million and \$6.5 million, respectively, for the nine-month period ended September 30, 2012, as compared to the same period in 2011, primarily due to an increase in PPM service revenue.

Table of Contents**Liquidity and Capital Resources**

	As of September 30, 2012	As of December 31, 2011	Change
Cash and cash equivalents	\$ 37,051	\$ 19,715	\$ 17,336
Working capital	\$ 27,229	\$ 16,250	\$ 10,979
Working capital, excluding deferred revenue which does not require a significant additional cash outlay	\$ 76,509	\$ 53,330	\$ 23,179
Total debt	\$	\$	\$

We have historically relied upon our cash flow from operations, supplemented by borrowings under our available revolving credit facility as needed, to fund our dividends, common stock repurchases, capital expenditures, and contractual obligations. We expect, based on current and anticipated levels of operating performance, our cash flow from operations, cash and cash equivalents, and availability under our Credit Facility will be sufficient to support our operations for the next 12 to 24 months. See [Credit Facility](#) below for further discussion of the relevant terms and covenants.

Cash flow from operating activities. For the nine-month period ended September 30, 2012, the net cash provided by operating activities was \$86.0 million, which was primarily due to \$93.7 million of EBITDA, increased by \$6.8 million of non-cash share-based compensation and \$1.3 million of non-cash bad debt expense, partially offset by \$28.1 million in income taxes paid for the nine-month period ended September 30, 2012. EBITDA is discussed and reconciled to net income in [Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations](#) Results of Operations.

Net cash provided by operating activities for the nine-month period ended September 30, 2012, was also positively impacted by a \$12.2 million increase in deferred revenue primarily due to price escalators associated with our PPM ratings service and a \$2.4 million increase in long-term retirement and employee incentive liabilities, partially offset by a \$5.1 million decrease in Scarborough royalty accruals and a \$3.1 million decrease in payroll, bonus, and benefit accruals for the nine-month period ended September 30, 2012.

Cash flow from investing activities. Net cash used in investing activities for the nine-month periods ended September 30, 2012, and 2011, was \$15.4 million and \$33.6 million, respectively. This \$18.2 million decrease in cash used in investing activities was due largely to the \$10.6 million cash outlay for the purchase of Zokem Oy during 2011. There were no acquisitions paid for during the nine-month period ended September 30, 2012. The decrease in cash investing activities also included a \$4.0 million decrease in metering equipment and other PPM-related capital expenditures, and a \$2.9 million decrease in purchased and internally developed software expenditures for the nine-month period ended September 30, 2012, as compared to the same period in 2011. During the nine-month period ended September 30, 2012, we also received \$1.5 million in proceeds from the sale of our TRA cost investment.

Cash flow from financing activities. Net cash used in financing activities for the nine-month periods ended September 30, 2012, and 2011, was \$53.2 million and \$59.0 million, respectively. During the nine-month period ended September 30, 2012, we had no outstanding borrowings or repayments under our current Credit Facility, and we repurchased \$50.0 million of our common stock. During the nine-month period ended September 30, 2011, we made no repurchases of our common stock, and we repaid \$54.1 million of net repayments of our then outstanding obligations under our prior credit facility. In addition, there was a \$1.3 million increase in proceeds from stock option exercises and stock purchase plans for the nine-month period ended September 30, 2012, when a large number of stock options were nearing their expiration, as compared to the same period of 2011.

Repatriation of Foreign Earnings

We have provided for U.S. taxes on all of our foreign earnings, consistent with the U.S. Internal Revenue Code's taxation of world-wide income. We do not have material amounts of unrepatriated earnings in foreign jurisdictions and do not expect to permanently reinvest these current or future foreign earnings outside of the U.S.

Table of Contents***Credit Facility***

On November 21, 2011, we entered into the Credit Facility, a new agreement with a consortium of lenders to provide up to \$150.0 million of financing through a five-year, unsecured revolving credit facility expiring on November 21, 2016. The agreement contains an expansion feature to increase the total financing available under the Credit Facility by up to \$75.0 million to an aggregate of \$225.0 million. Such increased financing would be provided by one or more existing Credit Facility lending institutions, subject to the approval of the lending banks, and/or in combination with one or more new lending institutions, subject to the approval of the Credit Facility's administrative agent. Interest on borrowings under the Credit Facility is calculated based on a floating rate for a duration of up to nine months (or, with the consent of each lender, nine or 12 months), at which time the interest rate is reset based upon the LIBOR.

Our Credit Facility contains financial terms, covenants and operating restrictions that potentially restrict our financial flexibility. The material debt covenants under our Credit Facility include both a maximum leverage ratio and a minimum interest coverage ratio. The leverage ratio is a non-GAAP financial measure equal to the amount of our consolidated total indebtedness, as defined in our Credit Facility, divided by a contractually defined adjusted Earnings Before Interest, Taxes, Depreciation and Amortization and non-cash compensation (Consolidated EBITDA) for the trailing four-quarter period. The interest coverage ratio is a non-GAAP financial measure equal to Consolidated EBITDA divided by total interest expense. Both ratios are designed as measures of our ability to meet current and future debt obligations. The following table presents the actual ratios and their threshold limits as defined by the Credit Facility as of September 30, 2012:

Covenant	Threshold	Actual
Maximum leverage ratio	3.25	0.00
Minimum interest coverage ratio	3.00	232.0

As of September 30, 2012, based upon these financial covenants, there was no default or limit on our ability to borrow the unused portion of our Credit Facility.

Our Credit Facility contains customary events of default, including nonpayment and breach covenants. In the event of default, repayment of borrowings under the Credit Facility could be accelerated. Our Credit Facility also contains cross default provisions whereby a default on any material indebtedness, as defined in the Credit Facility, could result in the acceleration of our outstanding debt and the termination of any unused commitment under the Credit Facility. The agreement potentially limits, among other things, our ability to sell assets, incur additional indebtedness, and grant or incur liens on our assets. Under the terms of the Credit Facility, all of our material domestic subsidiaries, if any, must guarantee the commitment. Currently, we do not have any material domestic subsidiaries as defined under the terms of the Credit Facility. Although we do not believe the terms of our Credit Facility limit the operation of our business in any material respect, the terms of the Credit Facility may restrict or prohibit our ability to raise additional debt when needed or could prevent us from investing in other growth initiatives. We have been in compliance with the terms of the Credit Facility since the inception of the agreement. As of October 25, 2012, we had no outstanding borrowings under the Credit Facility.

Table of Contents

Seasonality

Revenue

We recognize revenue for services over the term of license agreements as services are delivered while expenses are recognized as incurred. As of Fall 2012, we gather radio-listening data in 275 U.S. local markets, including 227 Diary markets and 48 PPM Markets.

In PPM Markets, we deliver ratings 13 times per year, with four PPM ratings reports delivered in the fourth quarter of a given year. As a result, we expect to recognize more revenue in PPM Markets in the fourth quarter than in each of the first three quarters of the year.

All 227 Diary markets are measured at least twice per year (April-May-June for the Spring Survey and October-November-December for the Fall Survey). In addition, we measure 47 larger Diary markets an additional two times per year (January-February-March for the Winter Survey and July-August-September for the Summer Survey). We generally deliver our Diary ratings reports and recognize the related revenue in the quarter after the survey is measured. Consequently, our Diary revenue is generally higher in the first and third quarters as a result of the delivery of the Fall Survey and Spring Survey to all Diary markets compared to revenue in the second and fourth quarters, when delivery of the Winter Survey and Summer Survey, respectively, is made only to 47 larger Diary markets.

Revenue related to the sale of Scarborough services by Arbitron is recognized predominantly in the second and fourth quarters when the substantial majority of services are delivered.

As a result of the various seasonal impacts mentioned above, consolidated revenue is typically highest in the fourth quarter and lowest in the second quarter of each year.

Costs and expenses

Now that all our planned PPM Markets are commercialized, and because we conduct our PPM services continuously throughout the year, we do not expect significant seasonality in PPM costs and expenses. In our Diary service, our expenses are generally higher in the second and fourth quarters as we conduct the Spring and Fall Surveys for all of our Diary Markets.

Equity earnings/losses in Scarborough Research

Our affiliate, Scarborough, typically experiences losses during the first and third quarters of each year because revenue is recognized predominantly in the second and fourth quarters when the substantial majority of services are delivered. Scarborough royalty costs, which are recognized in cost of revenue, are also higher during the second and fourth quarters.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

Our interest income and expense are sensitive to fluctuations in the general level of interest rates. As such, changes in interest rates affect the interest earned on the Company's cash and cash equivalents and other highly liquid investments, as well as the value of those investments.

In November 2011, we entered into our Credit Facility with a consortium of lenders to provide us up to \$150.0 million of financing. Interest on borrowings under the Credit Facility is calculated based on a floating rate for a duration of up to nine months, at which time the interest rate is reset based upon the LIBOR. As of September 30, 2012, we had no outstanding borrowings under the Credit Facility. Therefore, a hypothetical market interest rate change of 1% would have zero impact on our results of operations over a 12-month period. A hypothetical market interest rate change of 1% would have no impact on either the carrying amount or the fair value of the Credit Facility. We do not use derivatives for speculative or trading purposes.

Foreign Currency Risk

We are exposed to the translation of foreign currency earnings to the U.S. dollar. Our principal exposures are to the euro via our Finnish subsidiary and the Indian rupee via our Indian subsidiary. If we expand our foreign operations in both Finland and India, our exposure to foreign currency exchange rate trends could increase, resulting in higher or lower translation impacts to our financial results and position.

As of September 30, 2012, we had \$7.9 million in recorded intercompany balances on our Finnish and Indian subsidiary balance sheets, which are impacted by fluctuations in currency exchange rates. As the exchange rates increase or decrease, our intercompany balances will be exposed to translation adjustment charges and/or credits, which will be recognized in our financial results.

Financial statements of foreign subsidiaries are translated into U.S. dollars at current rates at the end of the period except that revenue and expenses are translated at average current exchange rates during each reporting period. The translation adjustments are recorded in accumulated other comprehensive income (loss) on our consolidated balance sheet until the net investment in such foreign subsidiaries is liquidated. As of September 30, 2012, the cumulative net currency translation adjustment recorded on our balance sheet reduced our shareholders' equity by \$2.2 million.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's President and Chief Executive Officer and the Company's Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of the end of the most recently completed fiscal quarter. Based upon that evaluation, the Company's President and Chief Executive Officer and the Company's Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this Report.

Changes in Internal Control Over Financial Reporting

There were no changes in the Company's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the quarterly period ended September 30, 2012, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are involved, from time to time, in litigation and proceedings, including with governmental authorities, arising out of the ordinary course of business. Legal costs for services rendered in the course of these proceedings are charged to expense as they are incurred.

On April 30, 2008, Plumbers and Pipefitters Local Union No. 630 Pension-Annuity Trust Fund filed a securities class action lawsuit in the United States District Court for the Southern District of New York on behalf of a purported Class of all purchasers of Arbitron common stock between July 19, 2007, and November 26, 2007. The plaintiff asserts that Arbitron, Stephen B. Morris (our former Chairman, President and Chief Executive Officer), and Sean R. Creamer (currently our Executive Vice President, and Chief Operating Officer) violated federal securities laws. The plaintiff alleges misrepresentations and omissions relating, among other things, to the delay in commercialization of our PPM ratings service in November 2007, as well as stock sales during the period by company insiders who were not named as defendants and Messrs. Morris and Creamer. The plaintiff sought class certification, compensatory damages plus interest and attorneys' fees, among other remedies. On September 22, 2008 the plaintiff filed an Amended Class Action Complaint. On November 25, 2008, Arbitron, Mr. Morris, and Mr. Creamer each filed Motions to Dismiss the Amended Class Action Complaint. In September 2009, the plaintiff sought leave to file a Second Amended Class Action Complaint in lieu of oral argument on the pending Motions to Dismiss. The court granted leave to file a Second Amended Class Action Complaint and denied the pending Motions to Dismiss without prejudice. On or about October 19, 2009, the plaintiff filed a Second Amended Class Action Complaint. Arbitron and each of Mr. Morris and Mr. Creamer again moved to dismiss the Second Amended Class Action Complaint. Briefing on motions to dismiss the Second Amended Class Action Complaint was completed in March 2010. On September 24, 2010, the Court granted Mr. Creamer's motion to dismiss the plaintiff's claims against him, and all claims against Mr. Creamer were dismissed with prejudice. The motions to dismiss the Second Amended Class Action Complaint by Arbitron and Mr. Morris were denied. Arbitron and Mr. Morris each then filed answers denying the claims. On September 6, 2011, the Court entered an order granting the plaintiff's motion to certify the action as a class action, to appoint the lead plaintiff as class representative, and to appoint its counsel as lead counsel. The court defined the class as all purchasers of common stock of the Company who were damaged through purchasing stock during the period July 19, 2007 through November 26, 2007. On February 3, 2012, as a result of a mediation process overseen by an independent mediator, the Company and its insurers agreed to settle the case for \$7 million, which will be funded by insurance. Because this is a class action, settlements of this type are subject to preliminary and final review by the Court with an opportunity for class members to respond to the proposed settlement and object if they so desire. In May 2012, the Court issued an order preliminarily approving the settlement and Notice of the settlement was sent to the class members. None of the defendants in the settlement admitted any wrongdoing with respect to the allegations in the case. The Court held a hearing on final approval of the settlement on October 19, 2012 and issued its Order of Final Approval of the Settlement on October 23, 2012, which also terminated the case.

On or about June 13, 2008, a purported stockholder derivative lawsuit, *Pace v. Morris, et al.*, was filed against Arbitron, as a nominal defendant, each of our directors, and certain of our current and former executive officers in the Supreme Court of the State of New York for New York County. The derivative lawsuit is based on essentially the same substantive allegations as the securities class action lawsuit. The derivative lawsuit asserts claims against the defendants for misappropriation of information, breach of fiduciary duty, abuse of control, and unjust enrichment. On July 28, 2011 the derivative plaintiff filed an amended complaint that reiterates, in large part, the claims of the original complaint filed in 2008. The amended complaint also adds claims for breach of fiduciary duty related to the retirement of Mr. Morris in 2009 and the resignation of Mr. Skarzynski in 2010. The derivative plaintiff seeks equitable and/or injunctive relief, restitution and disgorgement of profits, plus attorneys' fees and costs, among other remedies.

The Company intends to defend itself and its interests vigorously against these allegations.

We are involved from time to time in a number of judicial and administrative proceedings considered ordinary with respect to the nature of our current and past operations, including employment-related disputes, contract disputes, government proceedings, customer disputes, and tort claims. In some proceedings, the claimant seeks damages as well as other relief, which, if granted, would require substantial expenditures on our part. Some of these matters raise difficult and complex factual and legal issues, and are subject to many uncertainties, including, but not limited to, the facts and circumstances of each particular action, and the jurisdiction, forum and law under which each action is pending. Because of this complexity, final disposition of some of these proceedings may not occur for several years. As such, we are not

Table of Contents

always able to estimate the amount of our possible future liabilities. There can be no certainty that we will not ultimately incur charges in excess of present or future established accruals or insurance coverage. Although occasional adverse decisions (or settlements) may occur, we believe that the likelihood that final disposition of these proceedings will, considering the merits of the claims, have a material adverse impact on our financial position or results of operations is remote.

Item 1A. Risk Factors

See Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2011 for a detailed discussion of risk factors affecting Arbitron.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On February 9, 2012, our Board of Directors authorized a program to repurchase up to \$100.0 million in shares of our outstanding common stock through either periodic open-market or private transactions, in accordance with applicable insider trading and other securities laws and regulations, at then-prevailing market prices over a period of up to two years ending February 9, 2014. The following table outlines the stock repurchase activity during the three months ended September 30, 2012:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Total Amount of Dollars Purchased	Maximum Dollar Value of Shares That May Yet Be Purchased Under the Program
July 1-31		\$		\$	\$ 49,975,155
August 1-31					49,975,155
September 1-30					49,975,155
Total		\$		\$	\$ 49,975,155
