Item 7.01 Regulation FD Disclosure.

On April 9, 2013, we provided our guidance for 2013, including a range for 2013 net sales of \$3.8 billion to \$4.0 billion and a range for 2013 earnings per share of \$4.00 to \$4.50. Today, we are reaffirming our 2013 guidance, including our estimated net sales range and our estimated earnings per share range.

We have not historically provided guidance regarding financial performance during any particular quarter, with the exception of the first quarter of 2013. As we stated on our first quarter of 2013 earnings call, the sale of certain projects in Canada, which we refer to as the ABW projects, could close in the second half of 2013 rather than in the second quarter of 2013. This would result in a shift of the net sales and earnings associated with the sale of these projects from the second quarter of 2013 into the second half of 2013. Although we are currently working on closing the sale of these projects in the second quarter, we expect that any such shift would result in a material sequential decline in our net sales and a material sequential decline in earnings per share for the second quarter of 2013 and a corresponding increase in our net sales and earnings per share for the second half of 2013. This kind of quarterly variability is the principal reason that we have not historically provided guidance on a quarterly basis, and we reiterate that it is important to stay focused on our full year guidance, which we are reaffirming today.

The information in this Form 8-K shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act) or otherwise subject to the liability of that Section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.
