Table of Contents**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited)****(Dollar amounts in thousands except Note 15, per share and share amounts)****1. Overview***Basis of presentation*

Cooper-Standard Holdings Inc. (together with its consolidated subsidiaries, the Company, Cooper-Standard, we, our, or us) is a leading manufacturer of fluid handling, body sealing, and Anti-Vibration Systems (AVS) components, systems, subsystems, and modules. The Company's products are primarily for use in passenger vehicles and light trucks that are manufactured by global automotive original equipment manufacturers (OEMs) and replacement markets. The Company conducts substantially all of its activities through its subsidiaries.

The accompanying unaudited condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC) for interim financial information and should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's 2012 Annual Report on Form 10-K, as filed with the SEC. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. These financial statements include all adjustments (consisting of normal, recurring adjustments) considered necessary for a fair presentation of the financial position and results of operations of the Company. Certain prior period amounts have been reclassified to conform to the current period financial statement presentation. The operating results for the interim period ended June 30, 2013 are not necessarily indicative of results for the full year. In preparing these financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued.

Recent accounting pronouncements

In July 2013, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2013-11, *Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists*. This ASU requires that a liability related to an unrecognized tax benefit be offset against a deferred tax asset for a net operating loss carryforward, a similar tax loss or a tax credit carryforward if certain criteria are met. The guidance is effective for fiscal years beginning after December 15, 2013. The Company is currently evaluating the impact of this update.

In February 2013, the FASB issued ASU 2013-02, *Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income*. This ASU requires companies to present the effects on the line items of net income of significant amounts reclassified out of accumulated other comprehensive income, but only if the item reclassified is required under U.S. generally accepted accounting principles (U.S. GAAP) to be reclassified to net income in its entirety in the same reporting period. The guidance is effective for fiscal years beginning after December 15, 2012. The Company adopted this guidance effective January 1, 2013. The effects of adoption were not significant and the additional required disclosures are included in Note 8. Accumulated Other Comprehensive Income (Loss), Equity and Redeemable Noncontrolling Interests.

In July 2012, the FASB issued ASU 2012-02, *Intangibles-Goodwill and Other (Topic 350): Testing Indefinite-lived Intangible Assets for Impairment*. This ASU permits companies to assess qualitative factors to determine whether it is more likely than not that an indefinite-lived intangible asset is impaired before performing the quantitative impairment test. This ASU is effective for fiscal years beginning after September 15, 2012 (early adoption is permitted). The Company adopted this guidance effective January 1, 2013. The impact of the adoption of this ASU did not have a material impact on the condensed consolidated financial statements.

2. Goodwill and Intangibles

Effective April 1, 2013, the Company changed its basis of presentation from two to four segments. The changes in the carrying amount of goodwill by reportable operating segment for the six months ended June 30, 2013 are summarized as follows:

	North America	Europe	South America	Asia Pacific	Total
Balance at January 1, 2013	\$ 115,420	\$ 13,836	\$	\$ 4,460	\$ 133,716

Amortization expense is estimated to be approximately \$15,300 for the year ending December 31, 2013.

3. Restructuring***Restructuring activities initiated prior to 2012***

The Company implemented several restructuring initiatives in prior years including the closure or consolidation of facilities throughout the world, the establishment of a centralized shared services function in Europe and the reorganization of the Company's operating structure. The Company commenced these initiatives prior to December 31, 2012 and continued to execute these initiatives during 2013. The majority of the costs associated with these initiatives were incurred shortly after the original implementation. However, the Company continues to incur costs on some of the initiatives related principally to the disposal of the respective facilities.

The following table summarizes the restructuring expense for these initiatives for the three and six months ended June 30, 2012 and 2013:

	Three Months Ended June 30,		Six Months Ended June 30,

During 2012, the Company initiated the restructuring of certain facilities in Europe to change the Company's European footprint to improve operating performance. The majority of the costs have been recognized, however, additional costs may be incurred. The Company has recognized \$23,505 of costs related to these initiatives.

The following table summarizes the restructuring expense for these initiatives for the three and six months ended June 30, 2012 and 2013:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2013	2012	2013

In the first quarter of 2012, the Company initiated the closure of a facility in North America and a restructuring liability of \$4,886 was recorded. During the second quarter of 2012, the Company was able to negotiate a new contract with the union, therefore enabling the facility to remain open. As a result, \$4,725 of restructuring expense was reversed during June, 2012.

Restructuring activities initiated in 2013

In the first quarter of 2013, the Company eliminated certain positions within the organization that resulted in restructuring expense of \$1,621. As of June 30, 2013, there is a liability of \$1,621 associated with this initiative recorded on the Company's condensed consolidated balance sheet. No additional expense is expected to be incurred related to this initiative.

4. Inventories

Senior ABL Facility

On April 8, 2013 the Company entered into the Amended and Restated Senior ABL Facility of its senior secured asset-based revolving credit facility (the Senior ABL Facility), with certain lenders, which amended and restated the existing Senior ABL Facility. The Senior ABL Facility provides for an aggregate revolving loan availability of up to \$150,000, subject to borrowing base availability, including a \$50,000 letter of credit sub-facility and a \$25,000 swing line sub-facility. The Senior ABL Facility also provides for an uncommitted \$75,000 incremental loan facility, for a potential total Senior ABL Facility of \$225,000 (if requested by the Company and the lenders agree to fund such increase). No consent of any lender (other than those participating in the increase) is required to effect any such increase. As of June 30, 2013, no amounts were drawn under the Senior ABL Facility, but there was approximately \$25,991 of letters of credit outstanding under the facility.

Senior PIK Toggle Notes

On April 3, 2013, Cooper-Standard Holdings Inc. issued \$175,000 aggregate principal amount of its Senior PIK Toggle Notes (the Senior PIK Toggle Notes). The Senior PIK Toggle Notes bear an interest rate of 7.375% and mature on April 1, 2018. The Senior PIK Toggle Notes were issued pursuant to an indenture dated April 3, 2013. The Senior PIK Toggle Notes were issued at a discount of \$3,938. On May 20, 2013, Cooper-Standard Holdings Inc. issued additional \$25,000 Senior PIK Toggle Notes pursuant to the indenture dated April 3, 2013. The Senior PIK Toggle Notes were issued at a discount of \$188. The Company used the proceeds from the issuance of the Senior PIK Toggle Notes, together with cash on hand, to finance the purchase of shares pursuant to the Equity Tender Offer.

Cooper-Standard Holdings Inc. will pay the first interest payment on the Senior PIK Toggle Notes in cash (Cash Interest). For each interest period thereafter (other than for the final interest period ending at stated maturity, which will be made in cash), Cooper-Standard Holdings Inc. will be required to pay Cash Interest, unless the conditions described in the indenture are satisfied, in which case Cooper-Standard Holdings Inc. will be entitled to pay, to the extent described in the indenture, interest by increasing the principal amount of the outstanding Senior PIK Toggle Notes or issuing new Senior PIK Toggle Notes (such increase or issuance, PIK Interest). Cash Interest will accrue on the Senior PIK Toggle Notes at a rate equal to 7.375% per annum. PIK Interest will accrue on the Senior PIK Toggle Notes at a rate equal to 8.125% per annum.

The Senior PIK Toggle Notes were not guaranteed as of the date of issuance. If any of Cooper-Standard Holdings Inc. 's wholly-owned domestic restricted subsidiaries guarantees certain debt of Cooper-Standard Holdings Inc., such subsidiary will also be required to guarantee the Senior PIK Toggle Notes.

Edgar Filing: Cooper-Standard Holdings Inc. - Form 10-Q

The Senior PIK Toggle Notes constitute senior debt of Cooper-Standard Holdings Inc. and (1) rank equally in right of payment with all of Cooper-Standard Holdings Inc.'s existing and future senior debt, (2) rank senior in right of payment to any future subordinated debt of Cooper-Standard Holdings Inc., (3) are effectively subordinated in right of payment to all of Cooper-Standard Holdings Inc.'s existing and future secured indebtedness and secured obligations to the extent of the value of the collateral securing such indebtedness and obligations and (4) are structurally subordinated to all existing and future indebtedness and other liabilities of Cooper-Standard Holdings Inc.'s subsidiaries (other than indebtedness and liabilities owed to Cooper-Standard Holdings Inc.).

at any time (which may be more than once) before April 1, 2014, Cooper-Standard Holdings Inc. may redeem up to 100% of the aggregate principal amount of the Senior PIK Toggle Notes with the net proceeds of one or more equity offerings at a price of 102.000% of the face amount of the Senior PIK Toggle Notes, plus accrued and unpaid interest to the date of redemption;

prior to April 1, 2014, Cooper-Standard Holdings Inc. may redeem the Senior PIK Toggle Notes at its option, in whole at any time or in part from time to time, at a redemption price equal to 100% of the principal amount thereof plus the applicable make-whole premium as of, and accrued and unpaid interest thereon, if any, up to, but not including, the applicable redemption date; and

on or after April 1, 2014 Cooper-Standard Holdings Inc. may redeem all or a part of the Senior PIK Toggle Notes, at 102.000% of the principal amount thereof if redeemed during the twelve-month period beginning on April 1, 2014, 101.000% of the principal amount thereof if redeemed during the twelve-month period beginning on April 1, 2015 and 100% of the principal amount thereof if redeemed on or after April 1, 2016, in each case, plus accrued and unpaid interest to the redemption date.

If a change of control occurs with respect to Cooper-Standard Holdings Inc., unless Cooper-Standard Holdings Inc. has exercised its right to redeem all of the outstanding Senior PIK Toggle Notes, each noteholder shall have the right to require Cooper-Standard Holdings Inc. to repurchase such noteholder's Senior PIK Toggle Notes at a purchase price in cash equal to 101% of the principal amount thereof plus accrued and unpaid interest, if any, to the date of purchase.

The Senior PIK Toggle Notes indenture contains covenants and events of default customary for an issuer of non-investment grade debt.

Table of Contents**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS-(Continued)****(Unaudited)****(Dollar amounts in thousands except Note 15, per share and share amounts)****7. Income Taxes**

Under ASC Topic 270, *Interim Reporting*, the Company is required to determine its effective tax rate each quarter based upon its estimated annual effective tax rate. The Company is also required to record the tax impact of certain unusual or infrequently occurring items, including changes in judgment about valuation allowances and effects of changes in tax laws or rates, in the interim period in which they occur. In addition, jurisdictions with a projected loss for the year where no tax benefit can be recognized are excluded from the estimated annual effective tax rate.

The effective tax rate for the three and six months ended June 30, 2013 is 32% and 30%, respectively. The effective tax rate for the three and six months ended June 30, 2012 was (156%) and (62%), respectively, which included a benefit of \$(53,400) resulting from changes in determinations relating to the potential realization of deferred tax assets and the resulting reversal of a valuation allowance on net deferred tax assets in the United States recorded discretely in the three months ended June 30, 2012. Excluding the impact of releasing the U.S. valuation allowance discretely in the quarter, the effective tax rate for the three and six months ended June 30, 2012 was 24% and 25%, respectively. The income tax rate for the three and six months ended June 30, 2013 varies from statutory rates due to a discrete benefit for the effect of the American Taxpayer Relief Act of 2012 which retroactively reinstated the Federal Research and Development Tax Credit (as signed into law in early 2013), as well as the exclusion from U.S. federal taxable income of certain interest, dividends, rents, and royalty income of foreign affiliates, and the benefits of the credits with that income. Additionally, the income tax rate varies from statutory rates due to income taxes on foreign earnings taxed at rates lower than the U.S. statutory rate, the inability to record a tax benefit for pre-tax losses in certain foreign jurisdictions to the extent not offset by other categories of income, tax credits, income tax incentives, withholding taxes, and other permanent items. Further, the Company's current and future provision for income taxes may be impacted by the recognition of valuation allowances in certain countries. The Company intends to maintain these allowances until it is more likely than not that the deferred tax assets will be realized.

14. Business Segments

ASC 280, *Segment Reporting*, establishes the standards for reporting information about operating segments in financial statements. The Company organized, managed and reported its global business operations through the two geographic regions in the first quarter of 2013. In April 2013, the Company implemented organizational and management changes of its global business operations resulting in four reportable segments. In applying the criteria set forth in ASC 280, the Company revised its segment disclosures beginning with the second quarter of 2013 from the two segments, North America and International, to four reportable segments, North America, Europe, South America and Asia Pacific. The Company's principal product lines within each of these segments are body and chassis products and fluid handling products. The Company evaluates segment performance based on segment profit before tax. The results of each segment include certain allocations for general, administrative, interest, and other shared costs. Prior periods have been revised to conform to the current period presentation. Due to this segment revision, the Company has also revised the previously reported amounts in Note 2. Goodwill and Intangibles to conform to the new segment presentation.

Fair values of the Senior Notes approximated \$480,938 and \$477,000 at December 31, 2012 and June 30, 2013, respectively, based on quoted market prices, compared to the recorded value of \$450,000. This fair value measurement is classified within Level 1 of the fair value hierarchy.

Fair values of the Senior PIK Toggle Notes approximated \$193,627 at June 30, 2013 based on quoted market prices, compared to the recorded value of \$196,078. This fair value measurement is classified within Level 1 of the fair value hierarchy.

Fair values of the redeemable preferred stock approximated \$169,193 and \$175,075 at December 31, 2012 and June 30, 2013, respectively, compared to the recorded values of \$121,649 and \$103,489 at December 31, 2012 and June 30, 2013, respectively. This fair value measurement is classified within Level 3 of the fair value hierarchy.

The Company completed an agreement with FMEA on May 2, 2011, to establish a joint venture that combined the Company's French body sealing operations and the operations of Société des Polymères Barre-Thomas (SPBT). SPBT was a French supplier of anti-vibration systems and low pressure hoses, as well as body sealing products, which FMEA acquired as a preliminary step to the joint venture transaction. SPBT changed its name to Cooper Standard France SAS (CS France) subsequent to the transaction. The Company has 51 percent ownership and FMEA has 49 percent ownership. In connection with the investment in CS France, the noncontrolling shareholders have the option, which is embedded in the noncontrolling interest, to require the Company to purchase the remaining 49 percent noncontrolling share at a formula price designed to approximate fair value based on operating results of the entity.

The noncontrolling interest is redeemable at other than fair value as the put value is determined based on a formula described above. The Company records the noncontrolling interests in CS France at the greater of 1) the initial carrying amount, increased or decreased for the noncontrolling shareholders' share of net income or loss and its share of other comprehensive income or loss and dividends (carrying amount) or 2) the cumulative amount required to accrete the initial carrying amount to the redemption value, which resulted in accretion of \$437 for the six months ended June 30, 2013. Such accretion amounts are recorded as increases to redeemable noncontrolling interests with offsets to equity. According to authoritative accounting guidance, the redeemable noncontrolling interest is classified outside of permanent equity, in mezzanine equity, on the Company's condensed consolidated balance sheets. As of June 30, 2013 the estimated redemption value of the put option is \$10,290. The redemption amount related to the put option is guaranteed by the Company and secured with the CS France shares held by a subsidiary of the Company. The Company has determined that the non-recurring fair value measurement related to this calculation relies primarily on Company-specific inputs and the Company's assumptions, as observable inputs are not available. As such, the Company has determined that this fair value measurement resides within Level 3 of the fair value hierarchy. To determine the fair value of the put option, the Company utilizes the projected cash flows expected to be generated by the joint venture, then discounts the future cash flows by using a risk-adjusted rate for the Company.

According to authoritative accounting guidance for redeemable noncontrolling shareholders' interests, to the extent the noncontrolling shareholders have a contractual right to receive an amount upon exercise of a put option that is other than fair value, and such amount is greater than carrying value, then the noncontrolling shareholder has, in substance, received a dividend distribution that is different than other common stockholders. Therefore the redemption amount in excess of fair value should be reflected in the computation of earnings per share available to the Company's common stockholders. At June 30, 2013 there was no difference between redemption value and fair value.

Derivative Instruments and Hedging Activities

The Company uses derivative financial instruments, including forward and swap contracts, to manage its exposures to fluctuations in foreign exchange and interest rates. For a fair value hedge, both the effective and ineffective, if significant, portions are recorded in earnings and reflected in the condensed consolidated statement of comprehensive income. For a cash flow hedge, the effective portion of the change in the fair value of the derivative is recorded in accumulated other comprehensive income (AOCI) in the condensed consolidated balance sheet. The ineffective portion, if significant, is recorded in other income or expense. When the underlying hedged transaction is realized or the hedged transaction is no longer probable, the gain or loss included in AOCI is recorded in earnings and reflected in the condensed consolidated

Edgar Filing: Cooper-Standard Holdings Inc. - Form 10-Q

statement of comprehensive income on the same line as the gain or loss on the hedged item attributable to the hedged risk.

The Company formally documents its hedge relationships, including the identification of the hedging instruments and the hedged items, as well as its risk management objectives and strategies for undertaking the cash flow hedges. The Company also formally assesses whether a cash flow hedge is highly effective in offsetting changes in the cash flows of the hedged item. Derivatives are recorded at fair value in other current assets, accrued liabilities and other long-term liabilities.

Table of Contents**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS-(Continued)****(Unaudited)****(Dollar amounts in thousands except Note 15, per share and share amounts)****Cash Flow Hedges**

Forward foreign exchange contracts The Company enters into forward contracts to hedge currency risk of the U.S. Dollar against the Mexican Peso, the Romanian Leu against the Euro and the Euro against the Polish Zloty and the U.S. Dollar. The forward contracts are used to mitigate the potential volatility to earnings and cash flow arising from changes in currency exchange rates that impact the Company's foreign currency transactions. As of June 30, 2013, the notional amount of these contracts was \$20,363. The fair values of these contracts at June 30, 2013 were \$144 in the asset position recorded in other current assets and \$294 in the liability position recorded in accrued liabilities in the condensed consolidated balance sheet. The gains or losses on the forward contracts are reported as a component of AOCI and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. The amount reclassified from AOCI into cost of products sold was \$(63) and \$(113) for the three and six months ended June 30, 2013. These foreign currency derivative contracts consist of hedges of transactions up to December 2013.

Interest rate swaps The Company has an interest rate swap contract to manage cash flow fluctuations of variable rate debt due to changes in market interest rates. This contract which fixes the interest payment of a certain variable rate debt instrument is accounted for as a cash flow hedge. As of June 30, 2013, the notional amount of this contract was \$1,048. At June 30, 2013, the fair value before taxes of the Company's interest rate swap contract was \$41 and is recorded in accrued liabilities and other long-term liabilities in the Company's condensed consolidated balance sheet with the offset reflected in AOCI, net of deferred taxes. The amount reclassified from AOCI into interest expense for this swap was \$53 and \$(230) for the six months ended June 30, 2012 and 2013, respectively. The amount to be reclassified in the next twelve months is expected to be approximately \$41. The maturity date of this swap contract is September 2013.

Undesignated Derivatives

As part of the FMEA joint venture, SPBT had undesignated derivative forward contracts to hedge currency risk of the Euro against the Polish Zloty which are included in the Company's condensed consolidated financial statements. The forward contracts are used to mitigate the potential volatility of cash flows arising from changes in currency exchange rates that impact the Company's foreign currency transactions. These foreign currency derivative contracts relate to hedge transactions through April 2014. As of June 30, 2013, the notional amount of these contracts was \$12,300. At June 30, 2013, the fair value of the Company's undesignated derivative forward contracts was \$511 and is recorded in accrued liabilities in the Company's condensed consolidated balance sheet. The unrealized gain or loss on the forward contracts is reported as a component of other expense. The unrealized gain (loss) amounted to \$(474) and \$(305) for the three months ended June 30, 2012 and 2013, respectively, and \$2,360 and \$(493) for the six months ended June 30, 2012 and 2013, respectively.

Fair Value Measurements

ASC 820 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based upon assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

- Level 1:* Observable inputs such as quoted prices in active markets;
- Level 2:* Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3:* Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

Table of Contents**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS-(Continued)****(Unaudited)****(Dollar amounts in thousands except Note 15, per share and share amounts)**

Estimates of the fair value of foreign currency and interest rate derivative instruments are determined using exchange traded prices and rates. The Company also considers the risk of non-performance in the estimation of fair value, and includes an adjustment for non-performance risk in the measure of fair value of derivative instruments. In certain instances where market data is not available, the Company uses management judgment to develop assumptions that are used to determine fair value. Fair value measurements and the fair value hierarchy level for the Company's liabilities measured or disclosed at fair value on a recurring basis as of December 31, 2012 and June 30, 2013, are shown below:

Contract	Asset (Liability)	December 31, 2012		
		Level 1	Level 2	Level 3
Interest rate swap	\$ (68)	\$	\$ (68)	\$
Forward foreign exchange contracts	(29)		(29)	
Total	\$ (97)	\$	\$ (97)	\$

Contract	Asset (Liability)	June 30, 2013

Interest rate swap	\$ (41)	\$	\$ (41)	\$
Forward foreign exchange contracts	(661)		(661)	
Total	\$ (702)	\$	\$ (702)	\$

Items measured at fair value on a non-recurring basis

In addition to items that are measured at fair value on a recurring basis, the Company measures certain assets and liabilities at fair value on a non-recurring basis, which are not included in the table above. As these non-recurring fair value measurements are generally determined using unobservable inputs, these fair value measurements are classified within Level 3 of the fair value hierarchy. For further information on assets and liabilities measured at fair value on a non-recurring basis, see Note 3. Restructuring.

17. Accounts Receivable Factoring

As a part of its working capital management, the Company sells certain receivables through third party financial institutions with and without recourse. The amount sold varies each month based on the amount of underlying receivables and cash flow needs of the Company. The Company continues to service the receivables. These are permitted transactions under the Company's credit agreement and the indentures governing the Senior Notes and the Senior PIK Toggle Notes.

At June 30, 2012 and 2013, the Company had \$76,135 and \$102,486, respectively, outstanding under receivable transfer agreements without recourse entered into by various locations. The total amount of accounts receivable factored were \$180,140 and \$229,210 for the six months ended June 30, 2012 and 2013, respectively. Costs incurred on the sale of receivables were \$692 and \$689 for the three months ended June 30, 2012 and 2013, respectively, and \$1,301 and \$1,329 for the six months ended June 30, 2012 and 2013, respectively. These amounts are recorded in other income, net and interest expense, net of interest income in the condensed consolidated statements of comprehensive income.

Edgar Filing: Cooper-Standard Holdings Inc. - Form 10-Q

At June 30, 2012 and 2013, the Company had \$14,360 and \$16,985, respectively, outstanding under receivable transfer agreements with recourse. The secured borrowings are recorded in debt payable within one year and receivables are pledged equal to the balance of the borrowings. The total amount of accounts receivable factored was \$44,111 and \$49,877 for the six months ended June 30, 2012 and 2013, respectively. Costs incurred on the sale of receivables were \$97 and \$136 for the three months ended June 30, 2012 and 2013, respectively, and \$207 and \$221 for the six months ended June 30, 2012 and 2013, respectively. These amounts are recorded in other income, net and interest expense, net of interest income in the condensed consolidated statements of comprehensive income.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.**

This Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) presents information related to the condensed consolidated results of operations of the Company, including the impact of restructuring costs on the Company's results, a discussion of the past results and future outlook of each of the Company's segments, and information concerning both the liquidity and capital resources of the Company. The following discussion and analysis, which should be read in conjunction with our condensed consolidated financial statements and the notes included elsewhere in this report, contains certain forward-looking statements relating to anticipated future financial condition and operating results of the Company and its current business plans. In the future, the financial condition and operating results of the Company could differ materially from those discussed herein and its current business plans could be altered in response to market conditions and other factors beyond the Company's control. Important factors that could cause or contribute to such differences or changes include those discussed elsewhere in this report (see Forward-Looking Statements) and in our most recently filed Annual Report on Form 10-K (see Item 1A. Risk Factors).

Business Environment and Outlook

Our business is directly affected by the automotive build rates in North America and Europe. It is also becoming increasingly impacted by build rates in South America and Asia Pacific. New vehicle demand is driven by macro-economic and other factors, such as interest rates, fuel prices, consumer confidence, employment levels, income growth trends, as well as manufacturer and dealer sales incentives.

Details on light vehicle production in certain regions for the three and six months ended June 30, 2012 and 2013 are provided in the following table:

Competition in the automotive supplier industry is intense and has increased in recent years as OEMs have demonstrated a preference for stronger relationships with fewer suppliers. There are typically three or more significant competitors and numerous smaller competitors for most of the products we produce. Globalization and the importance of servicing customers around the world will continue to shape the success of suppliers going forward.

OEMs have shifted some research and development, design and testing responsibility to suppliers, while at the same time shortening new product cycle times. To remain competitive, suppliers must have state-of-the-art engineering and design capabilities and must be able to continuously improve their engineering, design and manufacturing processes to effectively service the customer. Suppliers are increasingly expected to collaborate on, or assume the product design and development of, key automotive components and to provide innovative solutions to meet evolving technologies aimed at improved fuel economy, emissions and safety.

Pricing pressure has continued as competition for market share has reduced the overall profitability of the industry and resulted in continued pressure on suppliers for price concessions. Consolidations and market share shifts among vehicle manufacturers continues to put additional pressures on the supply chain. These pricing and market pressures will continue to drive our focus on reducing our overall cost structure through lean initiatives, capital redeployment, restructuring and other cost management processes.

Three Months Ended June 30, 2013 Compared with Three Months Ended June 30, 2012

Sales. Sales were \$784.7 million for the three months ended June 30, 2013 compared to \$734.5 million for the three months ended June 30, 2012, an increase of \$50.2 million, or 6.8%. Sales were favorably impacted by increased volumes in all regions and favorable foreign exchange of \$3.2 million. These items were partially offset by customer price concessions.

Cost of Products Sold. Cost of products sold is primarily comprised of material, labor, manufacturing overhead, depreciation and amortization and other direct operating expenses. Cost of products sold was \$652.4 million for the three months ended June 30, 2013 compared to \$620.1 million for the three months ended June 30, 2012, an increase of \$32.4 million or 5.2%. Raw materials comprise the largest component of our cost of products sold and represented 52% and 50% of total cost of products sold for the three months ended June 30, 2012 and 2013, respectively. The period was impacted by increased volumes in all regions, higher staffing costs and other operating expenses. These items were partially offset by lean savings and favorable material prices.

Gross Profit. Gross profit for the three months ended June 30, 2013 was \$132.3 million compared to \$114.4 million for the three months ended June 30, 2012, an increase of \$17.8 million, or 15.6%. As a percentage of sales, gross profit was 15.6% and 16.9% of sales for the three months ended June 30, 2012 and 2013, respectively. The increase in gross profit margin was driven primarily by the favorable impact of lean savings, material prices, increased volumes in all regions and lower depreciation expense, partially offset by customer price concessions, higher staffing costs and other operating expenses.

Selling, Administration and Engineering. Selling, administration and engineering expense for the three months ended June 30, 2013 was \$72.7 million or 9.3% of sales compared to \$69 million or 9.4% of sales for the three months ended June 30, 2012. Selling, administration and engineering expense for the three months ended June 30, 2013 was impacted by increased staffing and compensation expenses as we increase our research and development and engineering resources to support our growth initiatives around the world.

Restructuring. Restructuring charges were \$1.1 million for the three months ended June 30, 2013 for previously announced restructuring initiatives.

Edgar Filing: Cooper-Standard Holdings Inc. - Form 10-Q

Interest Expense, Net. Net interest expense of \$10.8 million for the three months ended June 30, 2012 resulted primarily from interest and debt issue amortization recorded on the Senior Notes. Net interest expense of \$13.6 million for the three months ended June 30, 2013 resulted primarily from interest and debt issue amortization recorded on the Senior Notes and Senior PIK Toggle Notes.

Other Expense, Net. Other expense for the three months ended June 30, 2013 was \$6 million, which consisted primarily of foreign currency losses of \$7.4 million, unrealized losses related to forward contracts of \$0.3 million, and loss on sale of receivables of \$0.4 million, partially offset by miscellaneous income of \$2.1 million. Other expense for the three months ended June 30, 2012 was \$4.5 million, which consisted primarily of foreign currency losses of \$3.7 million, unrealized losses related to forward contracts of \$0.5 million, and loss on sale of receivables of \$0.3 million.

Income Tax Expense (Benefit). For the three months ended June 30, 2013, we recorded income tax provision of \$12.2 million on earnings before income taxes of \$38.3 million. This compares to an income tax benefit of \$(46.2) million on earnings before income taxes of \$29.6 million for the same period of 2012, which included a benefit of \$(53.4) million resulting from changes in determinations relating to the potential realization of deferred tax assets and the resulting reversal of a valuation allowance on net deferred tax assets in the United States recorded discretely in the three months ended June 30, 2012. Income tax expense for the three months ended June 30, 2013 differs from statutory rates due to income taxes on foreign earnings taxed at rates lower than the U.S. statutory rate, the inability to record a tax benefit for pre-tax losses in certain foreign jurisdictions to the extent not offset by other categories of income, tax credits, income tax incentives, withholding taxes, and other permanent items. Further, our current and future provision for income taxes may be impacted by the recognition of valuation allowances in certain countries. We intend to maintain these allowances until it is more likely than not that the deferred tax assets will be realized.

Six Months Ended June 30, 2013 Compared with Six Months Ended June 30, 2012

Sales. Sales increased to \$1,532.3 million for the six months ended June 30, 2013 compared to \$1,499.8 million for the six months ended June 30, 2012, an increase of \$32.5 million, or 2.2%. Sales were favorably impacted by increased volumes primarily in North America and South America, partially offset by customer price concessions and unfavorable foreign exchange of \$1.6 million.

Cost of Products Sold. Cost of products sold is primarily comprised of material, labor, manufacturing overhead, depreciation and amortization and other direct operating expenses. Cost of products sold was \$1,279.7 million for the six months ended June 30, 2013 compared to \$1,263.7 million for the six months ended June 30, 2012, an increase of \$16 million or 1.3%. Raw materials comprise the largest component of our cost of products sold and represented 52% and 50% of total cost of products sold for the six months ended June 30, 2012 and 2013, respectively. The period was impacted by increased volumes primarily in North America and South America, higher staffing costs and other operating expenses. These items were partially offset by lean savings and favorable material prices.

Gross Profit. Gross profit for the six months ended June 30, 2013 was \$252.6 million compared to \$236.1 million for the six months ended June 30, 2012. As a percentage of sales, gross profit was 15.7% and 16.5% of sales for the six months ended June 30, 2012 and 2013, respectively. The increase was driven by the favorable impact of lean savings, material prices, increased volumes primarily in North America and South America and lower depreciation expense, partially offset by customer price concessions, higher staffing costs and other operating expenses.

Selling, Administration and Engineering. Selling, administration and engineering expense for the six months ended June 30, 2013 was \$147.8 million or 9.6% of sales compared to \$141 million or 9.4% of sales for the six months ended June 30, 2012. Selling, administration and engineering expense for the six months ended June 30, 2013 was impacted by increased staffing and compensation expenses as we increase our research and development and engineering resources to support our growth initiatives around the world.

Restructuring. Restructuring charges of \$5.8 million for the six months ended June 30, 2013 were increased slightly compared to \$5.6 million for the six months ended June 30, 2012.

Interest Expense, Net. Net interest expense of \$22 million for the six months ended June 30, 2012 resulted primarily from interest and debt issue amortization recorded on the Senior Notes. Net interest expense of \$24.8 million for the six months ended June 30, 2013 resulted primarily from interest and debt issue amortization recorded on the Senior Notes and Senior PIK Toggle Notes.

Other Expense, Net. Other expense for the six months ended June 30, 2013 was \$6.3 million, which consisted primarily of \$7.2 million of foreign currency losses, \$0.5 million of unrealized losses related to forward contracts, and \$0.8 million of loss on sale of receivables, partially offset by \$2.1 million of other miscellaneous income. Other expense for the six months ended June 30, 2012 was \$1.6 million, which consisted primarily of \$4.3 million of foreign currency losses and \$0.5 million of loss on sale of receivables, partially offset by \$2.4 million of gains related to forward contracts and \$0.9 million of other miscellaneous income.

Income Tax Expense (Benefit). For the six months ended June 30, 2013, we recorded an income tax provision of \$20.1 million on earnings before income taxes of \$66.1 million. This compares to an income tax benefit of \$(38.2) million on earnings before income taxes of \$61.8 million for the same period of 2012, which included a benefit of \$(53.4) million resulting from changes in determinations relating to the potential realization of deferred tax assets and the resulting reversal of a valuation allowance on net deferred tax assets in the United States recorded discretely in the six months ended June 30, 2012. Income tax expense for the six months ended June 30, 2013 differs from statutory rates due to a discrete benefit for the effect of the American Taxpayer Relief Act of 2012 which retroactively reinstated the Federal Research and Development Tax Credit (as signed into law in early 2013), as well as the exclusion from U.S. federal taxable income of certain interest, dividends, rents, and royalty income of foreign affiliates, and the benefits of the credits with that income. Additionally, the income tax rate varies from statutory rates due to income taxes on foreign

North America. Sales for the three months ended June 30, 2013 increased \$12.8 million, or 3.3%, primarily due to an increase in sales volume, partially offset by customer price concessions. Segment profit for the three months ended June 30, 2013 decreased by \$5.5 million, primarily due to, customer price concessions, higher staffing costs and other operating expenses, partially offset by the favorable impact of lean savings, material prices and increased sales volume.

Europe. Sales for the three months ended June 30, 2013 increased \$19.5 million, or 7.4%, primarily due to an increase in sales volume and favorable foreign exchange of \$5.4 million, partially offset by customer price concessions. Segment loss for the three months ended June 30, 2013 improved by \$9 million, primarily due to increased volumes, the favorable impact of lean and restructuring savings and favorable material prices, partially offset by customer price concessions, higher staffing costs and other operating expenses.

South America. Sales for the three months ended June 30, 2013 increased \$16.1 million, or 46.9%, primarily due to an increase in sales volume, partially offset by unfavorable foreign exchange of \$2.7 million. Segment loss for the three months ended June 30, 2013 improved by \$2.7 million, primarily due to increased volumes and the favorable impact of lean savings and material prices, partially offset by other operating expenses.

Asia Pacific. Sales for the three months ended June 30, 2013 increased \$1.9 million, or 3.9%, primarily due to an increase in sales volume and favorable foreign exchange of \$0.5 million. Segment profit for the three months ended June 30, 2013 increased by \$2.6 million, primarily due to increased volumes and the favorable impact of lean savings, partially offset by higher staffing costs.

months ended June 30, 2013 improved by \$6.8 million, primarily due to the favorable impact of lean and restructuring savings and favorable material prices, partially offset by decreased volumes, customer price concessions, higher staffing costs and other operating expenses.

South America. Sales for the six months ended June 30, 2013 increased \$27.6 million, or 40.5%, primarily due to an increase in sales volume, partially offset by unfavorable foreign exchange of \$8.5 million. Segment loss for the six months ended June 30, 2013 improved by \$1.5 million, primarily due to increased volumes, lean savings and favorable material prices, partially offset by other operating expenses.

Asia Pacific. Sales for the six months ended June 30, 2013 increased \$2.5 million, or 2.4%, primarily due to an increase in sales volume. Segment profit for the six months ended June 30, 2013 increased by \$5.7 million, primarily due to increased volumes and lean savings, partially offset by higher staffing costs.

Liquidity and Capital Resources

Short and Long-Term Liquidity Considerations and Risks

We intend to fund our ongoing capital and working capital requirements through a combination of cash flows from operations, cash on hand and borrowings under our Senior ABL Facility, in addition to certain receivable factoring. We anticipate that funds generated by operations, cash on hand and funds available under our Senior ABL Facility will be sufficient to meet working capital requirements for the next 12 months. For additional information, see Note 5. Debt to the condensed consolidated financial statements.

Based on our current and anticipated levels of operations and the condition in our markets and industry, we believe that our cash on hand, cash flow from operations and availability under our Senior ABL Facility will enable us to meet our working capital, capital expenditures, debt service and other funding requirements for the foreseeable future. However, our ability to fund our working capital needs, debt payments and other obligations, and to comply with the financial covenants, including borrowing base limitations, under our Senior ABL Facility, as amended, depends on our future operating performance and cash flow and many factors outside of our control, including the costs of raw materials, the state of the overall automotive industry and financial and economic conditions and other factors. Any future acquisitions, joint ventures or other similar transactions will likely require additional capital and there can be no assurance that any such capital will be available to us on acceptable terms, if at all.

Cash Flows

Operating Activities. Net cash used in operations was \$27.5 million for the six months ended June 30, 2013, which included \$148.7 million of cash used that related to changes in operating assets and liabilities. The use of cash related to operating assets and liabilities was primarily a result of increased accounts receivables and inventories, partially offset by increased accounts payables. Net cash used in operations was \$35.3 million for the six months ended June 30, 2012, which included \$155.1 million of cash used that related to changes in operating assets and liabilities.

Investing Activities. Net cash used in investing activities was \$67.7 million for the six months ended June 30, 2013, which consisted of \$70.1 million of capital spending, offset by a \$2.1 million return on equity investments and proceeds of \$0.3 million for the sale of fixed assets. Net cash used in investing activities was \$51.3 million for the six months ended June 30, 2012, which consisted of \$58.5 million of capital spending and final payment of \$1.1 million related to the acquisition of Sigit S.p.A., offset by proceeds of \$8.3 million for the sale of fixed assets. We anticipate that we will spend approximately \$165 million to \$175 million on capital expenditures in 2013.

Financing Activities. Net cash used in financing activities totaled \$17.2 million for the six months ended June 30, 2013, which consisted primarily of repurchase of common stock of \$217.2 million, payments on long-term debt of \$2.6 million, purchase of noncontrolling interest of \$1.9 million and payment of cash dividends of \$1.7 million, partially offset by proceeds of \$194.9 million from the issuance of Senior PIK Toggle Notes and \$11.3 million related to the exercise of stock warrants. Net cash used in financing activities totaled \$24 million for the six months ended June 30, 2012, which consisted primarily of repurchase of common stock of \$13.6 million, repurchase of preferred stock of \$4.9 million, payments on long-term debt of \$2.6 million and payment of cash dividends of \$3.5 million.

Non-GAAP Financial Measures

In evaluating our business, management considers EBITDA and Adjusted EBITDA as key indicators of our operating performance. Our management also uses EBITDA and Adjusted EBITDA:

because similar measures are utilized in the calculation of the financial covenants and ratios contained in our financing arrangements;

Table of Contents

in developing our internal budgets and forecasts;

as a significant factor in evaluating our management for compensation purposes;

in evaluating potential acquisitions;

in comparing our current operating results with corresponding historical periods and with the operational performance of other companies in our industry; and

in presentations to the members of our board of directors to enable our board of directors to have the same measurement basis of operating performance as is used by management in their assessments of performance and in forecasting and budgeting for our company.

In addition, we believe EBITDA and Adjusted EBITDA and similar measures are widely used by investors, securities analysts and other interested parties in evaluating our performance. We define Adjusted EBITDA as net income (loss) plus provision for income tax expense (benefit), interest expense, net of interest income, depreciation and amortization or EBITDA, as adjusted for items that management does not consider to be reflective of our core operating performance. These adjustments include restructuring costs, impairment charges, non-cash fair value adjustments, acquisition related costs, professional fees and expenses associated with our reorganization, non-cash stock based compensation and non-cash gains and losses from certain foreign currency transactions and translation.

We calculate EBITDA and Adjusted EBITDA by adjusting net income (loss) to eliminate the impact of a number of items we do not consider indicative of our ongoing operating performance. You are encouraged to evaluate each adjustment and the reasons we consider it appropriate for supplemental analysis. EBITDA and Adjusted EBITDA are not financial measurements recognized under U.S. GAAP, and when analyzing our operating performance, investors should use EBITDA and Adjusted EBITDA in addition to, and not as alternatives for, net income (loss), operating income, or any other performance measure derived in accordance with U.S. GAAP, or as an alternative to cash flow from operating activities as a measure of our liquidity. EBITDA and Adjusted EBITDA have limitations as analytical tools, and they should not be considered in isolation or as substitutes for analysis of our results of operations as reported under U.S. GAAP. These limitations include:

they do not reflect our cash expenditures or future requirements for capital expenditure or contractual commitments;

they do not reflect changes in, or cash requirements for, our working capital needs;

they do not reflect interest expense or cash requirements necessary to service interest or principal payments under our Senior Notes, Senior PIK Toggle Notes and Senior ABL Facility;

they do not reflect certain tax payments that may represent a reduction in cash available to us;

although depreciation and amortization are non-cash charges, the assets being depreciated or amortized may have to be replaced in the future, and EBITDA and Adjusted EBITDA do not reflect cash requirements for such replacements; and

other companies, including companies in our industry, may calculate these measures differently and, as the number of differences in the way companies calculate these measures increases, the degree of their usefulness as a comparative measure correspondingly decreases.

Edgar Filing: Cooper-Standard Holdings Inc. - Form 10-Q

In addition, in evaluating Adjusted EBITDA, it should be noted that in the future we may incur expenses similar to the adjustments in the below presentation. Our presentation of Adjusted EBITDA should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items.

Forward-Looking Statements

This Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of U.S. federal securities laws, and we intend that such forward-looking statements be subject to the safe harbor created thereby. We make forward-looking statements in this Quarterly Report on Form 10-Q and may make such statements in future filings with the SEC. We may also make forward-looking statements in our press releases or other public or stockholder communications. These forward-looking statements include statements concerning our plans, objectives, goals, strategies, future events, future revenue or performance, capital expenditures, financing needs, plans or intentions relating to acquisitions, business trends, and other information that is not historical information and, in particular, appear under Management's Discussion and Analysis of Financial Condition and Results of Operations, Risk Factors, and Business Environment and Outlook. When used in this report, the words estimates, expects, anticipates, projects, plans, intends, believes, forecasts, or future or conditional verbs, such as will, should, variations of such words or similar expressions are intended to identify forward-looking statements. All forward-looking statements, including, without limitation, management's examination of historical operating trends and data are based upon our current expectations and various assumptions. Our expectations, beliefs, and projections are expressed in good faith and we believe there is a reasonable basis for them. However, no assurances can be made that these expectations, beliefs, and projections will be achieved. Forward-looking statements are not guarantees of future performance and are subject to significant risks and uncertainties that may cause actual results or achievements to be materially different from the future results or achievements expressed or implied by the forward-looking statements.

The risks, uncertainties, and other important factors that could cause our actual results to differ materially from the forward-looking statements in this report include, among others: cyclical nature of the automotive industry with the possibility of further material contractions in automotive sales and production affecting the viability of our customers and financial condition of our customers; global economic uncertainty, particularly in Europe; loss of large customers or significant platforms; supply shortages; escalating pricing pressures and decline of volume requirements from our customers; our ability to meet significant increases in demand; availability and increasing volatility in cost of raw materials or manufactured components; our ability to continue to compete successfully in the highly competitive automotive parts industry; risks associated with our non-U.S. operations; foreign currency exchange rate fluctuations; our ability to control the operations of joint ventures for our benefit; the effectiveness of our lean manufacturing and other cost savings plans; product liability and warranty and recall claims that may be brought against us; work stoppages or other labor conditions; natural disasters; our ability to attract and retain key personnel; our ability to meet our customers' needs for new and improved products in a timely manner or cost-effective basis; the possibility that our acquisition strategy may not be successful; our legal rights to our intellectual property portfolio; environmental and other regulations; legal proceedings or commercial and contractual disputes that we may be involved in; the possible volatility of our annual effective tax rate; our ability to generate sufficient cash to service our indebtedness, obtain future financing, and meet dividend obligations on our 7% preferred stock; our underfunded pension plans; significant changes in discount rates and the actual return on pension assets; the possibility of future impairment charges to our goodwill and long-lived assets; and operating and financial restrictions imposed on us by our indentures governing our outstanding notes and our Senior ABL facility. See Item 1A. Risk Factors, in our 2012 Annual Report on Form 10-K for additional information regarding these and other risks and uncertainties. There may be other factors that may cause our actual results to differ materially from the forward-looking statements.

All forward-looking statements attributable to us or persons acting on our behalf apply only as of the date of this report and are expressly qualified in their entirety by the cautionary statements included in this report. We undertake no obligation to update or revise forward-looking statements to reflect events or circumstances that arise after the date made or to reflect the occurrence of unanticipated events.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes to the quantitative and qualitative information about the Company's market risk from those previously disclosed in the Company's 2012 Annual Report on Form 10-K.

Item 4. Controls and Procedures.

The Company has evaluated, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this Report. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. However, based on that evaluation, the Company's Chief Executive Officer along with the Chief Financial Officer have concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this Report.

Edgar Filing: Cooper-Standard Holdings Inc. - Form 10-Q

There have been no changes in the Company's internal control over financial reporting during the quarter ended June 30, 2013 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents**PART II OTHER INFORMATION****Item 1. Legal Proceedings.**

We are periodically involved in claims, litigation and various legal matters that arise in the ordinary course of business. In addition, we conduct and monitor environmental investigations and remedial actions at certain locations. We accrue for litigation exposure when it is probable that future costs will be incurred and such costs can be reasonably estimated. Any resulting adjustments, which could be material, are recorded in the period the adjustments are identified. As of June 30, 2013, management does not believe that there is a reasonable possibility that any material loss exceeding the amounts already recognized for our litigation claims and matters, if any, has been incurred. However, the ultimate resolutions of these proceedings and matters are inherently unpredictable. As such, our financial condition and results of operations could be adversely affected in any particular period by the unfavorable resolution of one or more of these proceedings or matters.

Item 1A. Risk Factors

In addition to other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our 2012 Annual Report on Form 10-K (the "Form 10-K") which could materially impact our business, financial condition or future results. Risks disclosed in the Form 10-K are not the only risks facing the Company. Additional risks and uncertainties not currently known to us or that we currently deem immaterial may materially adversely impact our business, financial condition or operating results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**(c) Purchases of Equity Securities By the Issuer and Affiliated Purchasers**

On April 5, 2013, the Company commenced a cash tender offer to purchase up to 4,651,162 shares of its common stock at a price of \$43.00 per share (the "Equity Tender Offer"). On May 2, 2013, the Company purchased 4,651,162 shares pursuant to the Equity Tender Offer at a purchase price of \$43.00 per share for an aggregate purchase price of approximately \$200,000. The Company used the proceeds from the issuance of the Senior PIK Toggle Notes (see Note 5. "Debt"), together with cash on hand, to finance the purchase of shares of common stock pursuant to the Equity Tender Offer.

On May 24, 2013, the Company announced that its Board of Directors approved a securities repurchase program (the "Program") authorizing the Company to repurchase, in the aggregate, up to \$50 million of its outstanding common stock 7% preferred stock or warrants to purchase common stock. Under the Program, repurchases may be made on the open market or through private transactions, as determined by the Company's management and in accordance with the prevailing market conditions and federal securities laws and regulations. The Company expects to fund all repurchases from cash on hand and future cash flows from operations. The Company is not obligated to acquire a particular amount of securities, and the program may be discontinued at any time at the Company's discretion.

The following table presents repurchases of common stock during the period covered by this Report:

	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet be Purchased Under the Program (in millions)
