**Item 8.01. Other Events.**

On December 5, 2013, Esterline announced that it would accelerate plans to consolidate certain facilities and to create cost efficiencies through shared services in sales, general administration and support functions. These integration activities are launching currently in each segment, and are expected to result in one-time charges and expenses of approximately \$40 million. Esterline expects to incur costs of \$25 million to \$30 million in fiscal 2014 to support these efforts, with the balance incurred in fiscal 2015. Expense savings on short-cycle integration activities will commence in fiscal 2014, with substantially greater savings expected in 2015. Esterline expects these projects to build to anticipated savings in excess of \$15 million annually starting in fiscal 2016. The projects have short payback periods of approximately two years with an internal rate of return nearing 100%. The press release attached hereto describes the integration activities, which with the disclosure in this item, should be read in conjunction with the note regarding forward-looking statements included in the text of the press release.
