Forward-Looking Statements

The information below includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, with respect to the financial condition, liquidity, results of operations, future performance and our business. These forward-looking statements are intended to be covered by the safe harbor for forward-looking statements provided by the Private Securities Litigation Reform Act of 1995. Forward-looking statements are those that are not historical facts.

Forward-looking statements include statements with respect to beliefs, plans, objectives, goals, expectations, anticipations, estimates and intentions that are subject to significant risks and uncertainties and are subject to change based on various factors (some of which are beyond our control). Forward-looking statements often include the words believes, expects, anticipates, estimates, forecasts, intends, plans, targets, potentially, probably, projects, outlook or similar expressions or future conditional verbs such as may, will, should, would and could. Forward-looking statements include, but are not limited to, (i) changes in general business, industry or economic conditions or competition; (ii) changes in any applicable law, rule, regulation, policy, guideline or practice governing or affecting financial holding companies and their subsidiaries or with respect to tax or accounting principles or otherwise; (iii) adverse changes or conditions in capital and financial markets; (iv) changes in interest rates; (v) higher than expected costs or other difficulties related to integration of combined or merged businesses; (vi) the inability to realize expected cost savings or achieve other anticipated benefits in connection with business combinations and other acquisitions; (vii) changes in the quality or composition of our loan and investment portfolios; (viii) adequacy of loan loss reserves; (ix) increased competition; (x) loss of certain key officers; (xi) continued relationships with major customers; (xii) deposit attrition; (xiii) rapidly changing technology; (xiv) unanticipated regulatory or judicial proceedings and liabilities and other costs; (xv) changes in the cost of funds, demand for loan products or demand for financial services; and (xvi) other economic, competitive, governmental or technological factors affecting our operations, markets, products, services and prices. Some of these and other factors are discussed in our annual and quarterly reports filed with the Securities and Exchange Commission. Such factors could have an adverse impact on our financial position and our results of operations.

The forward-looking statements contained herein are based upon management's beliefs and assumptions. Any forward-looking statement made herein speaks only as of the date on which it is made. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible for us to predict all of them. We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by law.

SUPPLEMENTAL DISCLOSURE OF CASH FLOW INFORMATION:		
Cash paid during the period for:		
Interest	\$ 3,201	\$ 3,257
Income taxes	\$ 542	\$ 32
SUPPLEMENTAL NONCASH DISCLOSURES:		
Transfers to other real estate owned	\$ 129	\$ 51
Grant of restricted stock awards from treasury stock	\$ 609	\$ 539

See Notes to Consolidated Financial Statements

Table of Contents**CNB FINANCIAL CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(UNAUDITED)****1. BASIS OF PRESENTATION**

The accompanying consolidated financial statements have been prepared pursuant to rules and regulations of the Securities and Exchange Commission (SEC) and in compliance with accounting principles generally accepted in the United States of America (GAAP). Because this report is based on an interim period, certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted.

In the opinion of management of the registrant, the accompanying consolidated financial statements as of March 31, 2014 and for the three month periods ended March 31, 2014 and 2013 include all adjustments, consisting of only normal recurring adjustments, necessary for a fair presentation of the financial condition and the results of operations for the periods presented. The financial performance reported for CNB Financial Corporation (the Corporation) for the three month period ended March 31, 2014 is not necessarily indicative of the results to be expected for the full year. This information should be read in conjunction with the Corporation s Annual Report on Form 10-K for the period ended December 31, 2013 (the 2013 Form 10-K). All dollar amounts are stated in thousands, except share and per share data and other amounts as indicated. Certain prior period amounts have been reclassified to conform to the current period presentation.

2. STOCK COMPENSATION

The Corporation has a stock incentive plan for key employees and independent directors. The stock incentive plan, which is administered by a committee of the Board of Directors, provides for aggregate grants of up to 500,000 shares of common stock in the form of nonqualified options or restricted stock. For key employees, the plan vesting is one-fourth of the granted options or restricted stock per year beginning one year after the grant date, with 100% vested on the fourth anniversary of the grant. For independent directors, the vesting schedule is one-third of the granted options or restricted stock per year beginning one year after the grant date, with 100% vested on the third anniversary of the grant.

At March 31, 2014, there was no unrecognized compensation cost related to nonvested stock options granted under this plan and no stock options were granted during the three month periods ended March 31, 2014 and 2013. At March 31, 2014 and December 31, 2013, the Corporation had 35,500 stock options that were fully vested and exercisable.

Compensation expense for the restricted stock awards is recognized over the requisite service period noted above based on the fair value of the shares at the date of grant. Nonvested restricted stock awards are recorded as a reduction of additional paid-in-capital in shareholders equity until earned. Compensation expense resulting from these restricted stock awards was \$208 and \$83 for the three months ended March 31, 2014 and 2013, respectively. As of March 31, 2014, there was \$1,111 of total unrecognized compensation cost related to unvested restricted stock awards.

A summary of changes in nonvested restricted stock awards for the three months ended March 31, 2014 follows:

		Per Share	
	Shares	Weighted Average Grant Date Fair Value	
Nonvested at beginning of period	62,076	\$	16.25
Granted	35,400		17.19

Edgar Filing: CNB FINANCIAL CORP/PA - Form 10-Q

Vested	(27,415)		16.05
Nonvested at end of period	70,061	\$	16.80

Table of Contents**3. FAIR VALUE****Fair Value Measurement**

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. A fair value hierarchy has also been established which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The following three levels of inputs are used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a company's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The fair values of most trading securities and securities available for sale are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs) or matrix pricing, which is a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather relying on the securities' relationship to other benchmark quoted securities (Level 2 inputs). The fair value of one corporate bond held by the Corporation has been determined by using Level 3 inputs. The Corporation has engaged a valuation expert to price this security using a proprietary model which incorporates assumptions about certain factors that market participants would use in pricing the security, including bid/ask spreads and liquidity and credit premiums.

The Corporation's structured pooled trust preferred security is priced using Level 3 inputs. The decline in the level of observable inputs and market activity in this class of investments by the measurement date has been significant and resulted in unreliable external pricing. Broker pricing and bid/ask spreads, when available, vary widely, and the once-active market has become comparatively inactive. The Corporation engaged a third party consultant who has developed a model for pricing this security. Information such as historical and current performance of the underlying collateral, deferral and default rates, collateral coverage ratios, break in yield calculations, cash flow projections, liquidity and credit premiums required by a market participant, and financial trend analysis with respect to the individual issuing financial institutions and insurance companies are utilized in determining the security valuation. Due to the current market conditions as well as the limited trading activity of these types of securities, the market value of the Corporation's structured pooled trust preferred security is highly sensitive to assumption changes and market volatility.

The Corporation's derivative instrument is an interest rate swap that is similar to those that trade in liquid markets. As such, significant fair value inputs can generally be verified and do not typically involve significant management judgments (Level 2 inputs).

The fair value of impaired loans with specific allocations of the allowance for loan losses is generally based on recent real estate appraisals prepared by third-parties. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the appraisers to adjust for differences between the comparable sales and income data available. Management also adjusts appraised values based on the length of time that has passed since the appraisal date and other factors. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value.

Table of Contents

Assets and liabilities measured at fair value on a recurring basis are as follows at March 31, 2014 and December 31, 2013:

Description	Total	Fair Value Measurements at March 31, 2014 Using

2.0% constant prepayment
rate in 2014 and thereafter

At March 31, 2014 and December 31, 2013, the significant unobservable inputs used in the fair value measurement of the Corporation's pooled trust preferred security are collateral default rate, yield, and prepayment speed. Significant increases in specific-issuer default assumptions or decreases in specific-issuer recovery assumptions would result in a significantly lower fair value measurement. Conversely, decreases in specific-issuer default assumptions or increases in specific-issuer recovery assumptions would result in a higher fair value measurement.

Table of Contents

Assets and liabilities measured at fair value on a non-recurring basis are as follows at March 31, 2014 and December 31, 2013:

Description	Total	Fair Value Measurements at March 31, 2014 Using		
		Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Quoted Prices in Active Markets for				
Assets				
Impaired loans:				
Commercial mortgages	\$ 2,994	0	0	\$ 2,994
Commercial, industrial, and agricultural	3,204	0	0	3,204

Description	Total	Fair Value Measurements at December 31, 2013 Using		
		Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Quoted Prices in Active Markets for				
Assets				
Impaired loans:				
Commercial mortgages	\$ 3,000	0	0	\$ 3,000
Commercial, industrial, and agricultural	3,706	0	0	3,706

Impaired loans, which are measured for impairment using the fair value of collateral for collateral dependent loans, had a recorded investment of \$8,059 with a valuation allowance of \$1,861 as of March 31, 2014, resulting in an additional provision for loan losses of \$350 for the corresponding three month period. Impaired loans had a recorded investment of \$8,161 with a valuation allowance of \$1,455 as of December 31, 2013, and an additional provision for loan losses of \$201 was recorded for the three months ended March 31, 2013.

The estimated fair values of impaired collateral dependent loans such as commercial or residential mortgages are determined primarily by using third-party appraisals. When a collateral dependent loan, such as a commercial or residential mortgage loan, becomes impaired, a decision is made regarding whether an updated certified appraisal of the real estate is necessary. This decision is based on various considerations, including the age of the most recent appraisal, the loan-to-value ratio based on the original appraisal, and the condition of the property. Appraised values are discounted to arrive at the estimated selling price of the collateral and a further reduction for estimated costs to sell the property is applied, which results in an amount that is considered to be the estimated fair value. If a loan becomes impaired and Management determines an updated appraisal is not necessary, an appropriate adjustment factor is applied based on experience with current valuations of similar collateral in determining the loan's estimated fair value and resulting allowance for loan losses. Third-party appraisals are not customarily obtained in respect of unimpaired loans, unless in management's view changes in circumstances warrant obtaining an updated appraisal.

Table of Contents

The following table presents quantitative information about Level 3 fair value measurements for financial instruments measured at fair value on a non-recurring basis at March 31, 2014:

		Fair value	Valuation Technique	Unobservable Inputs	Range (Weighted Average)
Impaired loans	commercial mortgages	\$ 2,994	Sales comparison approach	Adjustment for differences between the comparable sales	15% - 60% (26%)
Impaired loans	commercial, industrial, and agricultural	\$ 3,004	Sales comparison approach	Adjustment for differences between the comparable sales	20%
Impaired loans	commercial, industrial, and agricultural	\$ 200	Income approach	Adjustment for differences in net operating income	54%

The following table presents quantitative information about Level 3 fair value measurements for financial instruments measured at fair value on a non-recurring basis at December 31, 2013:

		Fair value	Valuation Technique	Unobservable Inputs	Range (Weighted Average)
Impaired loans	commercial mortgages	\$ 3,000	Sales comparison approach	Adjustment for differences between the comparable sales	17% - 61% (22%)
Impaired loans	commercial, industrial, and agricultural	\$ 3,274	Sales comparison approach	Adjustment for differences between the comparable sales	9%
Impaired loans	commercial, industrial, and agricultural	\$ 432	Income approach	Adjustment for differences in net operating income	2%

Fair Value of Financial Instruments

The following table presents the carrying amount and fair value of financial instruments at March 31, 2014:

	Carrying Amount	Fair Value Measurement Using:			Total Fair Value
		Level 1	Level 2	Level 3	
ASSETS

LIABILITIES					
Deposits	\$ (1,835,314)	\$ (1,569,552)	\$ (265,237)	\$ 0	\$ (1,834,789)
FHLB and other borrowings	(87,950)	0	(87,833)	0	(87,833)
Subordinated debentures	(20,620)	0	(11,178)	0	(11,178)
Interest rate swaps	(1,116)	0	(1,116)	0	(1,116)
Accrued interest payable	(868)	(200)	(653)	(15)	(868)

The methods and assumptions, not otherwise presented, used to estimate fair values are described as follows:

Cash and cash equivalents: The carrying amounts of cash and cash equivalents approximate fair values and are classified as Level 1.

Interest bearing time deposits with other banks: The fair value of interest bearing time deposits with other banks is estimated using a discounted cash flow calculation that applies interest rates currently being offered to a schedule of aggregated expected monthly maturities, resulting in a Level 2 classification.

Loans held for sale: The fair value of loans held for sale is estimated based upon binding contracts and quotes from third party investors resulting in a Level 2 classification.

Loans: For variable rate loans that reprice frequently and with no significant change in credit risk, fair values are based on carrying values, resulting in a Level 3 classification. Fair values for other loans are estimated using discounted cash flow analyses, using interest rates currently being offered for loans with similar terms to borrowers of similar credit quality, resulting in a Level 3 classification. Impaired loans are valued at the lower of cost or fair value as described previously. The methods utilized to estimate the fair value of loans do not necessarily represent an exit price.

FHLB and other equity interests: It is not practical to determine the fair value of Federal Home Loan Bank stock and other equity interests due to restrictions placed on the transferability of these instruments.

Accrued interest receivable: The carrying amount of accrued interest receivable approximates fair value resulting in a classification that is consistent with the asset with which it is associated.

Deposits: The fair values disclosed for demand deposits are, by definition, equal to the amount payable on demand at the reporting date (i.e. their carrying amount), resulting in a Level 1 classification. Fair values for time deposits are estimated using a discounted cash flow calculation that applies interest rates currently being offered on certificates to a schedule of aggregated expected monthly maturities on time deposits, resulting in a Level 2 classification.

FHLB and other borrowings: The fair values of the Corporation's FHLB and other borrowings are estimated using discounted cash flow analyses based on the current borrowing rates for similar types of borrowing arrangements, resulting in a Level 2 classification.

Subordinated debentures: The fair value of the Corporation's subordinated debentures are estimated using discounted cash flow analyses based on the current borrowing rates for similar types of arrangements, resulting in a Level 3 classification.

Table of Contents

Accrued interest payable: The carrying amount of accrued interest payable approximates fair value resulting in a classification that is consistent with the liability with which it is associated.

While estimates of fair value are based on management's judgment of the most appropriate factors as of the balance sheet date, there is no assurance that the estimated fair values would have been realized if the assets had been disposed of or the liabilities settled at that date, since market values may differ depending on various circumstances. The estimated fair values would also not apply to subsequent dates.

In addition, other assets and liabilities that are not financial instruments, such as premises and equipment, are not included in the disclosures. Also, non-financial assets such as, among other things, the estimated earnings power of core deposits, the earnings potential of trust accounts, the trained workforce, and customer goodwill, which typically are not recognized on the balance sheet, may have value but are not included in the fair value disclosures.

4. SECURITIES

Securities available for sale at March 31, 2014 and December 31, 2013 are as follows:

	Amortized Cost	March 31, 2014 Unrealized		Fair Value	Amortized Cost	December 31, 2013 Unrealized		Fair Value
		Gains	Losses			Gains	Losses	
U.S. Treasury	\$ 0	\$ 0	\$ 0	\$ 0	\$ 0	\$ 0	\$ 0	\$ 0
U.S. Gov t sponsored entities	184,938	2,899	(5,110)	182,727	185,205	2,894	(6,474)	181,625

Total	\$ 692,949	\$ 11,016	\$ (16,103)	\$ 687,862	\$ 697,738	\$ 9,827	\$ (21,574)	\$ 685,991

At March 31, 2014, there were no holdings of securities of any one issuer, other than the U.S. Government sponsored entities, in an amount greater than 10% of shareholders' equity. The Corporation's residential and multi-family mortgage securities are issued by government sponsored entities, and the Corporation holds one commercial mortgage security that is private label.

Trading securities at March 31, 2014 and December 31, 2013 are as follows:

	March 31, 2014	December 31, 2013
Corporate equity securities	\$ 2,680	\$ 2,705
Mutual funds	933	965
Certificates of deposit	254	253
Corporate notes and bonds	152	152
U.S. Government sponsored entities	54	52
Total	\$ 4,073	\$ 4,127

Table of Contents

Securities with unrealized losses at March 31, 2014 and December 31, 2013, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position, are as follows (in thousands):

March 31, 2014

Description of Securities	Less than 12 Months		12 Months or More		Total

The Corporation evaluates securities for other-than-temporary impairment on a quarterly basis, or more frequently when economic or market conditions warrant such an evaluation.

At March 31, 2014, the Corporation held one structured pooled trust preferred security with an adjusted amortized cost of \$800 and a fair value of \$798. The Corporation evaluated this security for other-than-temporary impairment by estimating the cash flows expected to be received, taking into account future estimated levels of deferrals and defaults by the underlying issuers, and discounting those cash flows at the appropriate accounting yield. For the three months ended March 31, 2014 and 2013, no other-than-temporary impairment was required to be realized in earnings. At March 31, 2014 and December 31, 2013, the Corporation held four structured pooled trust preferred securities with an adjusted amortized cost and fair value of zero.

A roll-forward of the other-than-temporary impairment amount related to credit losses for the three months ended March 31, 2014 and 2013 is as follows:

Edgar Filing: CNB FINANCIAL CORP/PA - Form 10-Q

Balance of credit losses on debt securities for which a portion of other-than-temporary impairment was recognized in earnings, beginning of period	\$ 4,054
Additional credit loss for which other-than-temporary impairment was not previously recognized	0
Additional credit loss for which other-than-temporary impairment was previously recognized	0
Balance of credit losses on debt securities for which a portion of other-than-temporary impairment was recognized in earnings, end of period	\$ 4,054

Table of Contents

Due to the insignificance of the adjusted amortized cost balance, no further disclosures are required with respect to the Corporation's structured pooled trust preferred securities.

For the securities that comprise corporate notes and bonds and the securities that are issued by state and political subdivisions, management monitors publicly available financial information, such as filings with the Securities and Exchange Commission, in order to evaluate the securities for other-than-temporary impairment. For financial institution issuers, management monitors information from quarterly call report filings that are used to generate Uniform Bank Performance Reports. All other securities that were in an unrealized loss position at the balance sheet date were reviewed by management, and issuer-specific documents were reviewed, as appropriate given the following considerations. When reviewing securities for other-than-temporary impairment, management considers the financial condition and near-term prospects of the issuer and whether downgrades by bond rating agencies have occurred. Management also considers the length of time and extent to which fair value has been less than cost, and whether management does not have the intent to sell these securities and it is likely that it will not be required to sell the securities before their anticipated recovery.

As of March 31, 2014 and December 31, 2013, management concluded that the securities described in the previous paragraph were not other-than-temporarily impaired for the following reasons:

There is no indication of any significant deterioration of the creditworthiness of the institutions that issued the securities.

All contractual interest payments on the securities have been received as scheduled, and no information has come to management's attention through the processes previously described which would lead to a conclusion that future contractual payments will not be timely received.

The Corporation does not intend to sell and it is not more likely than not that it will be required to sell the securities in an unrealized loss position before recovery of its amortized cost basis.

Information pertaining to security sales is as follows:

	Proceeds	Gross Gains	Gross Losses
Three months ended March 31, 2014	\$ 12,951	\$ 149	\$ 83
Three months ended March 31, 2013	1,324	76	0

The following is a schedule of the contractual maturity of securities available for sale, excluding equity securities, at March 31, 2014:

	Amortized Cost	Fair Value
1 year or less	\$ 32,146	\$ 31,894
1 year - 5 years	148,788	149,925
5 years - 10 years	154,290	154,341
After 10 years	38,846	37,835
	374,070	373,995
Residential and multi-family mortgage	248,878	245,828
Pooled SBA	68,749	66,824
Commercial mortgage	232	225
Total debt securities	\$ 691,929	\$ 686,872

Mortgage and asset backed securities and pooled SBA securities are not due at a single date; periodic payments are received based on the payment patterns of the underlying collateral.

Edgar Filing: CNB FINANCIAL CORP/PA - Form 10-Q

On March 31, 2014 and December 31, 2013, securities carried at \$339,490 and \$353,102, respectively, were pledged to secure public deposits and for other purposes as provided by law.

Table of Contents**5. LOANS**

Total net loans at March 31, 2014 and December 31, 2013 are summarized as follows:

	March 31, 2014	December 31, 2013
Commercial, industrial, and agricultural	\$ 361,140	\$ 357,715
Commercial mortgages	409,760	413,465
Residential real estate	459,667	459,114
Consumer	62,007	63,491
Credit cards	4,879	5,065
Overdrafts	421	409
Less: unearned discount	(3,778)	(3,896)
allowance for loan losses	(16,674)	(16,234)
Loans, net	\$ 1,277,422	\$ 1,279,129

At March 31, 2014 and December 31, 2013, net unamortized loan costs of \$870 and \$911, respectively, have been included in the carrying value of loans.

The Corporation's outstanding loans and related unfunded commitments are primarily concentrated within Central and Western Pennsylvania and Central Ohio. The Bank attempts to limit concentrations within specific industries by utilizing dollar limitations to single industries or customers, and by entering into participation agreements with third parties. Collateral requirements are established based on management's assessment of the customer. The Corporation maintains lending policies to control the quality of the loan portfolio. These policies delegate the authority to extend loans under specific guidelines and underwriting standards. These policies are prepared by the Corporation's management and reviewed and ratified annually by the Corporation's Board of Directors.

All relevant documentation, such as the loan application, financial statements and tax returns, required under the lending policies is summarized and provided to management and/or the Corporation's Board of Directors in connection with the loan approval process. Such documentation is subsequently electronically archived in the Corporation's document management system. Pursuant to the Corporation's lending policies, management considers a variety of factors when determining whether to extend credit to a customer, including loan-to-value ratios, FICO scores, quality of the borrower's financial statements, and the ability to obtain personal guarantees.

Commercial, industrial, and agricultural loans comprised 28% and 28% of the Corporation's total loan portfolio at March 31, 2014 and December 31, 2013, respectively. Commercial mortgage loans comprised 32% and 32% of the Corporation's total loan portfolio at March 31, 2014 and December 31, 2013, respectively. Management assigns a risk rating to all commercial loans in excess of \$250,000. The loan-to-value policy guidelines for commercial, industrial, and agricultural loans are generally a maximum of 80% of the value of business equipment, a maximum of 75% of the value of accounts receivable, and a maximum of 60% of the value of business inventory. The loan-to-value policy guideline for commercial mortgage loans is generally a maximum of 85% of the appraised value of the real estate.

Residential real estate loans comprised 36% of the Corporation's total loan portfolio at both March 31, 2014 and December 31, 2013. The loan-to-value policy guidelines for residential real estate loans vary depending on the collateral position and the specific type of loan. Higher loan-to-value terms may be approved with the appropriate private mortgage insurance coverage. The Corporation also originates and prices loans for sale into the secondary market through Freddie Mac. Loans so originated are classified as loans held for sale and are excluded from residential real estate loans reported above. The rationale for these sales is to mitigate interest rate risk associated with holding lower rate, long-term residential mortgages in the loan portfolio and to generate fee revenue from sales and servicing the loan. The Corporation also offers a variety of unsecured and secured consumer loan and credit card products which represent less than 10% of the total loan portfolio at both March 31, 2014 and December 31, 2013. Terms and collateral requirements vary depending on the size and nature of the loan.

Table of Contents

CNB has not underwritten any hybrid loans, payment option loans, or low documentation/no documentation loans. Variable rate loans are generally underwritten at the fully indexed rate. Loan underwriting policies and procedures have not changed materially between any periods presented.

During the first quarter of 2014, management reviewed its loan portfolio segments resulting in the reclassification of approximately \$66 million into Commercial, Industrial and Agricultural, \$54 million out of Commercial Mortgages and \$12 million out of Residential Real Estate. Accordingly, the December 31, 2013 loan portfolio segment balances were reclassified to conform to the March 31, 2014 presentation. The effect of this reclassification was not considered material to the overall allowance for loan losses, did not change the total loan balances, and is not considered material to the consolidated financial statements taken as a whole.

Transactions in the allowance for loan losses for the three months ended March 31, 2014 were as follows:

	Commercial, Industrial, and Agricultural	Commercial Mortgages	Residential Real Estate	Consumer	Credit Cards	Overdrafts	Total
Allowance for loan losses, January 1, 2014	\$ 6,394	\$ 5,354	\$ 2,880	\$ 1,333	\$ 66	\$ 207	\$ 16,234
Charge-offs	0	(50)	(122)	(399)	(21)	(58)	(650)
Recoveries	0	0	19	22	2	28	71
Provision (benefit) for loan losses	734	(570)	(202)	1,016	21	20	1,019

Recoveries	0	1	1	41	2	31	76
Provision (benefit) for loan losses	331	208	100	298	4	(11)	930
Allowance for loan losses, March 31, 2013	\$ 5,271	\$ 4,299	\$ 2,395	\$ 1,707	\$ 77	\$ 148	\$ 13,897

The following table presents the balance in the allowance for loan losses and the recorded investment in loans by portfolio segment and is based on the Corporation's impairment method as of March 31, 2014 and December 31, 2013. The recorded investment in loans excludes accrued interest and unearned discounts due to their insignificance.

March 31, 2014

	Commercial, Industrial, and Agricultural	Commercial Mortgages	Residential Real Estate	Consumer	Credit Cards	Overdrafts	Total
Allowance for loan losses:							
Ending allowance balance attributable to loans:							
Individually evaluated for impairment	\$ 847	\$ 0	\$ 0	\$ 0	\$ 0	\$ 0	\$ 847
Collectively evaluated for impairment	6,168	3,467	2,575	1,972	68	197	14,447

The following table presents the recorded investment in nonaccrual loans and loans past due over 90 days still accruing interest by class of loans as of March 31, 2014 and December 31, 2013:

	March 31, 2014		December 31, 2013	
	Nonaccrual	Past Due Over 90 Days Still on Accrual	Nonaccrual	Past Due Over 90 Days Still on Accrual
		\$		\$
Commercial, industrial, and agricultural	\$ 3,883	\$ 27	\$ 1,006	\$ 0
Commercial mortgages	4,067	0	7,236	0
Residential real estate	2,756	375	2,389	150
Consumer	938	15	942	170
Credit cards	0	39	0	24
Total	\$ 11,644	\$ 456	\$ 11,573	\$ 344

Nonaccrual loans and loans past due over 90 days still on accrual include both smaller balance homogeneous loans that are collectively evaluated for impairment and individually classified impaired loans.

Generally, loans are restored to accrual status when the obligation is brought current, has performed in accordance with the contractual terms for a reasonable period of time (generally six months) and the ultimate collectability of the total contractual principal and interest is no longer in doubt.

The following table presents the aging of the recorded investment in past due loans as of March 31, 2014 and December 31, 2013 by class of loans.

Table of Contents**March 31, 2014**

	30-59 Days Past Due	60-89 Days Past Due	Greater Than 90 Days Past Due	Total Past Due	Loans Not Past Due	Total

Troubled Debt Restructurings

The terms of certain loans have been modified as troubled debt restructurings. The modification of the terms of such loans included either or both of the following: a reduction of the stated interest rate of the loan or an extension of the maturity date at a stated rate of interest lower than the current market rate for new debt with similar risk.

The following table presents the number of loans, loan balances, and specific reserves for loans that have been restructured in a troubled debt restructuring as of March 31, 2014 and December 31, 2013.

	March 31, 2014			December 31, 2013		
	Number of Loans	Loan Balance	Specific Reserve	Number of Loans	Loan Balance	Specific Reserve
Commercial, industrial, and agricultural	5	\$ 1,745	\$ 113	5	\$ 1,790	\$ 115
Commercial mortgages	7	10,200	1,267	7	10,346	1,340
Residential real estate	0	0	0	0	0	0
Consumer	0	0	0	0	0	0
Credit cards	0	0	0	0	0	0
Total	12	\$ 11,945	\$ 1,380	12	\$ 12,136	\$ 1,455

Edgar Filing: CNB FINANCIAL CORP/PA - Form 10-Q

There were no loans modified as troubled debt restructurings during the three months ended March 31, 2014. The following table presents loans by class modified as troubled debt restructurings that occurred during the three months ended March 31, 2013.

	Three Months Ended March 31, 2013		
	Number of Loans	Pre-Modification Outstanding Recorded Investment	Post-Modification Outstanding Recorded Investment
Commercial, industrial, and agricultural	0	\$ 0	\$ 0
Commercial mortgages	1	346	403
Residential real estate	0	0	0
Consumer	0	0	0
Credit cards	0	0	0
 Total	 1	 \$ 346	 \$ 403

Table of Contents

The troubled debt restructuring described above did not increase the allowance for loan losses during the three months ended March 31, 2013.

Modifications involving a reduction of the stated interest rate of the loan were for periods ranging from 4 to 15 years. Modifications involving an extension of the maturity date were for periods ranging from 4 to 18 years.

A loan is considered to be in payment default once it is 90 days contractually past due under the modified terms. Except as discussed below, all loans modified in troubled debt restructurings are performing in accordance with their modified terms as of March 31, 2014 and December 31, 2013 and no principal balances were forgiven in connection with the loan restructurings.

During the three months ended March 31, 2013, the Corporation recorded a partial chargeoff of \$595 for one commercial mortgage loan with a balance of \$1,660 that had defaulted under its restructured terms in 2012 and was placed on nonaccrual status. The Corporation recorded an additional provision for loan losses of \$135 on this loan during the three months ended March 31, 2013.

During the year ended December 31, 2013, a commercial mortgage loan with a balance of \$1,086 defaulted under its restructured terms in 2013 and was placed on nonaccrual status. The Corporation recorded an additional provision for loan losses of \$615 on this loan during the year ended December 31, 2013.

In order to determine whether a borrower is experiencing financial difficulty, an evaluation is performed of the probability that the borrower will be in payment default on any of its debt in the foreseeable future without a loan modification. This evaluation is performed using the Corporation's internal underwriting policies. The Corporation has no further loan commitments to customers whose loans are classified as a troubled debt restructuring.

Generally, non-performing troubled debt restructurings are restored to accrual status when the obligation is brought current, has performed in accordance with the contractual terms for a reasonable period of time (generally six months) and the ultimate collectability of the total contractual principal and interest is no longer in doubt.

Credit Quality Indicators

The Corporation classifies commercial, industrial, and agricultural loans and commercial mortgage loans into risk categories based on relevant information about the ability of borrowers to service their debt, such as current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. Loans with outstanding balances greater than \$1 million are analyzed at least semiannually and loans with outstanding balances of less than \$1 million are analyzed at least annually.

The Corporation uses the following definitions for risk ratings:

Special Mention: Loans classified as special mention have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the Corporation's credit position at some future date.

Substandard: Loans classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the Corporation will sustain some loss if the deficiencies are not corrected.

Doubtful: Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

Table of Contents

Loans not rated as special mention, substandard, or doubtful are considered to be pass rated loans. All loans included in the following tables have been assigned a risk rating within 12 months of the balance sheet date.

March 31, 2014

	Pass	Special Mention	Substandard	Doubtful	Total
Commercial, industrial, and agricultural	\$ 338,861	\$ 2,129	\$ 19,799	\$ 351	\$ 361,140
Commercial mortgages	354,206	5,016	50,035	503	409,760
Total	\$ 693,067	\$ 7,145	\$ 69,834	\$ 854	\$ 770,900

December 31, 2013

	Pass	Special Mention	Substandard	Doubtful	Total
Commercial, industrial, and agricultural	\$ 332,507	\$ 5,509	\$ 19,318	\$ 381	\$ 357,715
Commercial mortgages	351,421	16,623	44,936	485	413,465
Total	\$ 683,928	\$ 22,132	\$ 64,254	\$ 866	\$ 771,180

The Corporation considers the performance of the loan portfolio and its impact on the allowance for loan losses. For residential real estate, consumer, and credit card loan classes, the Corporation also evaluates credit quality based on the aging status of the loan, which was previously presented, and by payment activity. The following table presents the recorded investment in residential, consumer, and credit card loans based on payment activity as of March 31, 2014 and December 31, 2013:

	March 31, 2014			December 31, 2013		
	Residential Real Estate	Consumer	Credit Cards	Residential Real Estate	Consumer	Credit Cards
	Performing	\$ 456,536	\$ 61,054	\$ 4,840	\$ 456,575	\$ 62,379
Non-performing	3,131	953	39	2,539	1,112	24
Total	\$ 459,667	\$ 62,007	\$ 4,879	\$ 459,114	\$ 63,491	\$ 5,065

The Corporation's portfolio of residential real estate and consumer loans maintained within Holiday Financial Services Corporation (Holiday), a subsidiary that offers small balance unsecured and secured loans, primarily collateralized by automobiles and equipment, to borrowers with higher risk characteristics than are typical in the Bank's consumer loan portfolio, are considered to be subprime loans.

Holiday's loan portfolio is summarized as follows at March 31, 2014 and December 31, 2013:

	March 31, 2014	December 31, 2013
Consumer	\$ 24,051	\$ 24,891
Residential real estate	1,488	1,552
Less: unearned discount	(3,778)	(3,896)

Total	\$ 21,761	\$ 22,547
-------	-----------	-----------

Table of Contents**6. DEPOSITS**

Total deposits at March 31, 2014 and December 31, 2013 are summarized as follows (in thousands):

	Percentage Change	March 31, 2014	December 31, 2013
Checking, non-interest bearing	-0.2%	\$ 221,831	\$ 221,293
Checking, interest bearing	-2.6%	438,291	450,216
Savings accounts	5.6%	947,950	898,043
Certificates of deposit	-17.0%	220,586	265,762
	-0.4%	\$ 1,828,658	\$ 1,835,314

7. EARNINGS PER SHARE

Basic earnings per share is computed by dividing net income by the weighted average number of shares outstanding during the applicable period, excluding outstanding participating securities. Diluted earnings per share is computed using the weighted average number of shares determined for the basic computation plus the dilutive effect of potential common shares issuable under certain stock compensation plans. For the three months ended March 31, 2013, 37,500 shares issuable pursuant to outstanding stock options were excluded from the diluted earnings per share calculations because the strike prices associated with the options exceeded the market price of the Corporation's common stock thus making the shares anti-dilutive. There were no anti-dilutive shares outstanding during the three months ended March 31, 2014.

Unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and are included in the computation of earnings per share pursuant to the two-class method. The Corporation has determined that its outstanding non-vested stock awards are participating securities.

The computation of basic and diluted earnings per share is shown below (in thousands except per share data):

	Three months ended March 31,	
	2014	2013
Basic earnings per common share computation:		
Net income per consolidated statements of income	\$ 5,166	\$ 4,297
Net earnings allocated to participating securities	(22)	(20)
Net earnings allocated to common stock	\$ 5,144	\$ 4,277
Distributed earnings allocated to common stock	\$ 2,375	\$ 2,053
Undistributed earnings allocated to common stock	2,769	2,224
Net earnings allocated to common stock	\$ 5,144	\$ 4,277
Weighted average common shares outstanding, including shares considered participating securities	14,444	12,493
Less: Average participating securities	(52)	(49)
Weighted average shares	14,392	12,444
Basic earnings per common share	\$ 0.36	\$ 0.34

Diluted earnings per common share computation:

Edgar Filing: CNB FINANCIAL CORP/PA - Form 10-Q

Net earnings allocated to common stock	\$ 5,144	\$ 4,277
Weighted average common shares outstanding for basic earnings per common share	14,392	12,444
Add: Dilutive effects of assumed exercises of stock options	2	1
Weighted average shares and dilutive potential common shares	14,394	12,445
Diluted earnings per common share	\$ 0.36	\$ 0.34

Table of Contents**8. DERIVATIVE INSTRUMENTS**

On May 3, 2011, the Corporation executed an interest rate swap agreement with a 5 year term and an effective date of September 15, 2013 in order to hedge cash flows associated with \$10 million of a subordinated note that was issued by the Corporation during 2007 and elected cash flow hedge accounting for the agreement. The Corporation's objective in using this derivative is to add stability to interest expense and to manage its exposure to interest rate risk. The interest rate swap involves the receipt of variable-rate amounts in exchange for fixed-rate payments from September 15, 2013 to September 15, 2018 without exchange of the underlying notional amount. At March 31, 2014, the variable rate on the subordinated debt was 1.78% (LIBOR plus 155 basis points) and the Corporation was paying 5.57% (4.02% fixed rate plus 155 basis points).

On August 1, 2008, the Corporation executed an interest rate swap agreement with a 5 year term and an effective date of September 15, 2008 in order to hedge cash flows associated with \$10 million of a subordinated note discussed above. The Corporation's objective in using this derivative was to add stability to interest expense and to manage its exposure to interest rate risk. The interest rate swap involved the receipt of variable-rate amounts in exchange for fixed-rate payments from September 15, 2008 to the September 15, 2013 maturity date without exchange of the underlying notional amount.

As of March 31, 2014 and December 31, 2013, no derivatives were designated as fair value hedges or hedges of net investments in foreign operations. Additionally, the Corporation does not use derivatives for trading or speculative purposes and currently does not have any derivatives that are not designated as hedges.

The following tables provide information about the amounts and locations of activity related to the interest rate swaps designated as cash flow hedges within the Corporation's consolidated balance sheet and statement of income as of March 31, 2014 and December 31, 2013 and for the three months ended March 31, 2014 and 2013:

	Balance Sheet Location	Fair value as of	
		March 31, 2014	December 31, 2013
Interest rate contracts	Accrued interest and other liabilities	(\$1,079)	(\$ 1,116)
For the Three Months			
Ended March 31, 2014	(a) (b)	(c)	(d) (e)
Interest rate contracts	Interest expense subordinated debentures	(\$97)	Other income \$ 0
For the Three Months			
Ended March 31, 2013	(a) (b)	(c)	(d) (e)
Interest rate contracts	Interest expense subordinated debentures	(\$97)	Other income \$ 0

- (a) Amount of Gain or (Loss) Recognized in Other Comprehensive Loss on Derivative (Effective Portion), net of tax
(b) Location of Gain or (Loss) Reclassified from Accumulated Other Comprehensive Loss into Income (Effective Portion)
(c) Amount of Gain or (Loss) Reclassified from Accumulated Other Comprehensive Loss into Income (Effective Portion)

Table of Contents

(d) Location of Gain or (Loss) Recognized in Income on Derivative (Ineffective Portion and Amount Excluded from Effectiveness Testing)
(e) Amount of Gain or (Loss) Recognized in Income on Derivative (Ineffective Portion and Amount Excluded from Effectiveness Testing)
Amounts reported in accumulated other comprehensive loss related to the interest rate swap will be reclassified to interest expense as interest payments are made on the subordinated debentures. Such amounts reclassified from accumulated other comprehensive loss to interest expense in the next twelve months are expected to be \$379. As of March 31, 2014 and December 31, 2013, a cash collateral balance in the amount of \$1,400 was maintained with a counterparty to the interest rate swaps. These balances are included in interest bearing deposits with other banks on the consolidated balance sheet.

9. RECENT ACCOUNTING PRONOUNCEMENTS

In July 2013, the FASB issued Accounting Standards Update 2013-11, Income Taxes (Topic 740), Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists (ASU 2013-11). ASU 2013-11 was issued to clarify the financial presentation of unrecognized tax benefits in the instances described. ASU 2013-11 is effective for reporting periods beginning after December 15, 2013. The effect of adopting ASU 2013-11 did not have a material effect on the Corporation's financial statements.

In January 2014, the FASB issued Accounting Standards Update 2014-04, Receivables - Troubled Debt Restructurings by Creditors (Subtopic 310-40) (ASU 2014-04). The amendments in ASU 2014-04 clarify the circumstances under which an in substance repossession or foreclosure occurs and when a creditor is considered to have received physical possession of a residential real estate property collateralizing a residential real estate loan. The amendments in ASU 2014-04 also require interim and annual disclosure of the amount of foreclosed residential real estate property held by the creditor and the recorded investment in loans collateralized by residential real estate property that are in the process of foreclosure according to local requirements of the applicable jurisdiction. ASU 2014-04 is effective for reporting periods beginning after December 15, 2014. The effect of adopting ASU 2014-04 is not expected to have a material effect on the Corporation's financial statements.

Table of Contents

ITEM 2

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS**

The following discussion and analysis of the consolidated financial statements of CNB Financial Corporation (the Corporation) is presented to provide insight into management's assessment of financial results. The Corporation's subsidiary, CNB Bank (the Bank), provides financial services to individuals and businesses primarily within its primary market area of the Pennsylvania counties of Cambria, Cameron, Centre, Clearfield, Crawford, Elk, Indiana, Jefferson, and McKean. As ERIEBANK, a division of CNB Bank, the Bank operates in the Pennsylvania counties of Crawford, Erie, and Warren. As FCBank, a division of CNB Bank, the Bank operates in the Ohio counties of Crawford, Richland, Ashland, Wayne, Marion, Morrow, Knox, Holmes, Delaware, and Franklin.

The Bank is subject to regulation, supervision and examination by the Pennsylvania State Department of Banking as well as the Federal Deposit Insurance Corporation. The financial condition and results of operations of the Corporation and its consolidated subsidiaries are not necessarily indicative of future performance. CNB Securities Corporation is incorporated in Delaware and currently maintains investments in debt and equity securities. County Reinsurance Company is an Arizona corporation and provides credit life and disability insurance for customers of CNB Bank. CNB Insurance Agency, incorporated in Pennsylvania, provides for the sale of nonproprietary annuities and other insurance products. Holiday Financial Services Corporation (Holiday), incorporated in Pennsylvania, offers small balance unsecured loans and secured loans, primarily collateralized by automobiles and equipment, to borrowers with higher risk characteristics.

When we use the terms we, us and our, we mean CNB Financial Corporation and its subsidiaries. Management's discussion and analysis should be read in conjunction with the Corporation's consolidated financial statements and related notes.

GENERAL OVERVIEW

Management concentrates on return on average equity, earnings per share, asset quality, and other metrics to measure the performance of the Corporation. The interest rate environment will continue to play an important role in the future earnings of the Corporation. During the past several years, in order to address the historic lows on interest rates that are primarily tied to short-term rates, such as the Prime Rate, the Corporation has taken a variety of measures including instituting rate floors on our commercial lines of credit and home equity lines. In addition, the Corporation decreased interest rates on certain deposit products during 2013 and the first quarter of 2014 but maintained deposit growth as a result of successful marketing and business development strategies.

Non-interest costs are expected to increase with the growth of the Corporation; however, management's growth strategies are expected to also result in an increase in earning assets as well as enhanced non-interest income which is expected to more than offset increases in non-interest expenses during the remainder of 2014 and beyond. While past results are not an indication of future earnings, management believes the Corporation is well-positioned to sustain core earnings during 2014.

The Dodd-Frank Act, enacted into law on July 21, 2010, includes numerous provisions designed to strengthen the financial industry, enhance consumer protection, expand disclosures and provide for transparency, and significantly changed the bank regulatory structure and affected and will continue to affect the lending, deposit, investment, trading and operating activities of financial institutions and their holding companies.

The Dodd-Frank Act requires various federal agencies to adopt a broad range of new rules and regulations, and to prepare various studies and reports for Congress.

It is difficult to predict at this time what specific impact certain provisions of the Dodd-Frank Act and the implementing rules and regulations will have on the Corporation. The legislation and any implementing rules may have adverse implications on the financial industry, the competitive environment, and the Corporation's ability to conduct business. The Corporation will apply resources to ensure that it is in compliance with all applicable provisions of the Dodd-Frank Act and its many and varied implementing rules, which may increase its costs of operations and adversely impact its earnings.

Table of Contents**CASH AND CASH EQUIVALENTS**

Cash and cash equivalents totaled \$33.9 million at March 31, 2014 compared to \$29.6 million at December 31, 2013. Cash and cash equivalents fluctuate based on the timing and amount of liquidity events that occur in the normal course of business.

Management believes the liquidity needs of the Corporation are satisfied by the current balance of cash and cash equivalents, readily available access to traditional funding sources, and the portion of the investment and loan portfolios that mature within one year. These sources of funds will enable the Corporation to meet cash obligations and off-balance sheet commitments as they come due.

SECURITIES

Securities available for sale and trading securities have combined to increase \$1.8 million or 0.3% since December 31, 2013. See the notes to the consolidated financial statements for additional detail concerning the composition of the Corporation's securities portfolio and the process for evaluating securities for other-than-temporary impairment.

The Corporation generally buys into the market over time and does not attempt to time its transactions. In doing this, the highs and lows of the market are averaged into the portfolio and minimize the overall effect of different rate environments. Management monitors the earnings performance and the effectiveness of the liquidity of the securities portfolio on a regular basis through meetings of the Asset/Liability Committee of the Corporation's Board of Directors (ALCO). The ALCO also reviews and manages interest rate risk for the Corporation. Through active balance sheet management and analysis of the securities portfolio, a sufficient level of liquidity is maintained to satisfy depositor requirements and various credit needs of our customers.

LOANS

The Corporation experienced a decrease in loans, net of unearned discount, of \$1.3 million, or 0.1%, during the first three months of 2014. Lending efforts consist principally of commercial and retail lending, which includes single family residential mortgages and other consumer loans. The Corporation views commercial lending as its competitive advantage and continues to focus on this area by hiring and retaining experienced loan officers and supporting them with quality credit analysis. Despite the slight decline in loan balances in the first quarter, the Corporation expects loan demand to increase and loan balances to grow throughout the remainder of 2014.

ALLOWANCE FOR LOAN LOSSES

The allowance for loan losses is established by provisions for losses in the loan portfolio as well as overdrafts in deposit accounts. These provisions are charged against current income. Loans and overdrafts deemed not collectible are charged off against the allowance while any subsequent collections are recorded as recoveries and increase the allowance.

The table below shows activity within the allowance account for the specified periods (in thousands):

	Three months ending March 31, 2014	Year ending December 31, 2013	Three months ending March 31, 2013
Balance at beginning of period	\$ 16,234	\$ 14,060	\$ 14,060

The adequacy of the allowance for loan losses is subject to a formal analysis by the Credit Administrator of the Corporation. As part of the formal analysis, delinquencies and losses are monitored monthly. The loan portfolio is divided into several categories in order to better analyze the entire pool. First is a selection of classified loans that is given a specific reserve. The remaining loans are pooled, by category, into these segments:

Reviewed

Commercial, industrial, and agricultural

Commercial mortgages

Homogeneous

Residential real estate

Consumer

Credit cards

Overdrafts

The reviewed loan pools are further segregated into four categories: special mention, substandard, doubtful, and unclassified. Historical loss factors are calculated for each pool excluding overdrafts based on the previous eight quarters of experience. The homogeneous pools are evaluated by analyzing the historical loss factors from the most previous quarter end and the two most recent year ends.

The historical loss factors for both the reviewed and homogeneous pools are adjusted based on these six qualitative factors:

levels of and trends in delinquencies, non-accrual loans, and classified loans;

trends in volume and terms of loans;

effects of any changes in lending policies and procedures;

experience, ability and depth of management;

national and local economic trends and conditions; and

concentrations of credit.

The methodology described above was created using the experience of the Corporation's Credit Administrator, guidance from the regulatory agencies, expertise of a third-party loan review provider, and discussions with peers. The resulting factors are applied to the pool balances in order to estimate the probable risk of loss within each pool. Prudent business practices dictate that the level of the allowance, as well as corresponding charges to the provision for loan losses, should be commensurate with identified areas of risk within the loan portfolio and the attendant risks inherent therein. The quality of the credit risk management function and the overall administration of this vital segment of the Corporation's assets are critical to the ongoing success of the Corporation.

Table of Contents

The previously mentioned analysis considers numerous historical and other factors to analyze the adequacy of the allowance and current period charges against the provision for loan losses. Management uses the analysis to compare and plot the actual level of the allowance against the aggregate amount of loans adversely classified in order to compute the estimated probable losses associated with those loans. Management then determines the current adequacy of the allowance and evaluates trends that may be developing. The volume and composition of the Corporation's loan portfolio continue to reflect growth in commercial credits including commercial real estate loans.

As mentioned in the Loans section of this analysis, management considers commercial lending to be a competitive advantage and continues to focus on this area as part of its strategic growth initiatives. However, management recognizes and considers the fact that risk is more pronounced in these types of credits and is, to a greater degree than with other loans, driven by the economic environment in which the debtor's business operates.

During the three months ended March 31, 2014, CNB recorded a provision for loan losses of \$1.0 million, as compared to a provision for loan losses of \$930 thousand for the three months ended March 31, 2013. The Corporation increased its reserve for two impaired commercial and industrial loans in the first quarter of 2014, resulting in an increase in the provision for loan losses of \$421 thousand. In addition, the Corporation increased its allowance for consumer loans due to trends in delinquencies and charge-offs for this portfolio segment.

Management believes that the allowance for loan losses is reasonable and adequate to absorb probable incurred losses in its portfolio at March 31, 2014.

FUNDING SOURCES

The Corporation considers deposits, short-term borrowings, and term debt when evaluating funding sources. Deposits decreased \$6.7 million from \$1.835 billion at December 31, 2013 to \$1.829 billion at March 31, 2014.

Periodically, the Corporation utilizes term borrowings from the Federal Home Loan Bank (FHLB) and other lenders to meet funding needs. Management plans to maintain access to short-term and long-term borrowings as an available funding source.

SHAREHOLDERS' EQUITY AND CAPITAL RATIOS AND METRICS

The Corporation's capital continued to provide a base for profitable growth through March 31, 2014. Total shareholders' equity was \$172.3 million at March 31, 2014 and \$169.4 million at December 31, 2013. In the first three months of 2014, the Corporation earned \$5.2 million and declared dividends of \$2.4 million, a dividend payout ratio of 46.2% of net income. The Corporation has also complied with the standards of capital adequacy mandated by the banking regulators. Bank regulators have established risk-based capital requirements designed to measure capital adequacy. Risk-based capital ratios reflect the relative risks of various assets banks hold in their portfolios. A weight category of 0% (lowest risk assets), 20%, 50%, or 100% (highest risk assets) is assigned to each asset on the balance sheet and certain other off-balance sheet assets.

The Corporation's capital ratios, book value per share and tangible book value per share as of March 31, 2014 and December 31, 2013 are as follows:

	March 31, 2014	December 31, 2013
Total risk-based capital ratio	14.00%	13.72%
Tier 1 capital ratio	12.76%	12.51%
Leverage ratio	8.15%	7.96%
Tangible common equity/tangible assets (1)	6.70%	6.34%
Book value per share	\$ 11.91	\$ 11.43
Tangible book value per share (1)	9.73	9.23

Table of Contents

- (1) Tangible common equity, tangible assets and tangible book value per share are non-GAAP financial measures calculated using GAAP amounts. Tangible common equity is calculated by excluding the balance of goodwill from the calculation of shareholders' equity. Tangible assets is calculated by excluding the balance of goodwill from the calculation of total assets. Tangible book value per share is calculated by dividing tangible common equity by the number of shares outstanding. The Corporation believes that these non-GAAP financial measures provide information to investors that is useful in understanding its financial condition because they are additional measures used to assess capital adequacy. Because not all companies use the same calculation of tangible common equity and tangible assets, this presentation may not be comparable to other similarly titled measures calculated by other companies. A reconciliation of these non-GAAP financial measures is provided below (dollars in thousands, except share and per share data).

	March 31, 2014	December 31, 2013
Shareholders' equity	\$ 172,281	\$ 164,911
Less goodwill	27,194	27,194
Less core deposit intangible	4,280	4,583
Tangible common equity	\$ 140,807	\$ 133,134
Total assets	\$ 2,134,061	\$ 2,131,289
Less goodwill	27,194	27,194
Less core deposit intangible	4,280	4,583
Tangible assets	\$ 2,102,587	\$ 2,099,512
Ending shares outstanding	14,464,842	14,427,780
Tangible book value per share	\$ 9.73	\$ 9.23
Tangible common equity/tangible assets	6.70%	6.34%

LIQUIDITY

Liquidity measures an organization's ability to meet cash obligations as they come due. The consolidated statement of cash flows provides analysis of the Corporation's cash and cash equivalents. Additionally, management considers that portion of the loan and investment portfolio that matures within one year to be part of the Corporation's liquid assets. The Corporation's liquidity is monitored by both management and the ALCO, which establishes and monitors ranges of acceptable liquidity. Management believes the Corporation's current liquidity position is acceptable.

OFF BALANCE SHEET ACTIVITIES

Some financial instruments, such as loan commitments, credit lines, letters of credit and overdraft protection, are issued to meet customer financing needs. The contractual amount of financial instruments with off-balance sheet risk was as follows at March 31, 2014 (in thousands):

Commitments to extend credit	\$ 302,346
Standby letters of credit	14,411
	\$ 316,757

- (1) Includes unamortized discounts and premiums. Average balance is computed using the carrying value of securities. The average yield has been computed using the historical amortized cost average balance for available for sale securities.
- (2) Average yields are stated on a fully taxable equivalent basis.
- (3) Average outstanding includes the average balance outstanding of all non-accrual loans. Loans consist of the average of total loans less average unearned income. The amount of loan fees included in the interest income on loans is not material.

Table of Contents

RESULTS OF OPERATIONS

Three Months Ended March 31, 2014 and 2013

OVERVIEW OF THE INCOME STATEMENT

The Corporation had net income of \$5.2 million in the first quarter of 2014 and \$4.3 million in the first quarter of 2013. The earnings per diluted share were \$0.36 in the first quarter of 2014 and \$0.34 in the first quarter of 2013. The return on assets and return on equity for the first quarter of 2014 are 0.97% and 11.97% compared to 0.96% and 11.76% for the first quarter of 2013.

INTEREST INCOME AND EXPENSE

Net interest margin on a fully tax equivalent basis was 3.79% for the three months ended March 31, 2014, compared to 3.41% for the three months ended March 31, 2013. Net accretion included in loan interest income in the first quarter of 2014 related to loans acquired in the fourth quarter of 2013 was \$740 thousand, resulting in an increase in the net interest margin of 15 basis points. Changes in earning assets, interest-bearing liabilities, and resulting interest income and expense from the first quarter of 2013 to the first quarter of 2014 are primarily a result of the acquisition of FC Banc Corp. in the fourth quarter of 2013.

PROVISION FOR LOAN LOSSES

The Corporation recorded a provision for loan losses of \$1.0 million in the first quarter of 2014 compared to \$930 thousand in the first quarter of 2013. As disclosed in the Allowance for Loan Losses section of Management's Discussion and Analysis, in the first quarter of 2014, the Corporation increased its loss reserves in connection with two impaired commercial and industrial loans, resulting in an increase in the provision for loan losses of \$421 thousand. The Corporation also increased its loss reserves for consumer loans due to trends in delinquencies and charge-offs for this portfolio segment. Net charge-offs for the first quarter of 2014 were \$501 thousand, compared to net charge-offs of \$1.1 million in the first quarter of 2013.

Management believes the provision for loan losses was appropriate and the allowance for loan losses is adequate to absorb probable incurred losses in our portfolio as of March 31, 2014.

NON-INTEREST INCOME

Non-interest income was \$3.2 million for the three months ended March 31, 2014, compared to \$3.1 million for the three months ended March 31, 2013. Wealth and asset management fees increased from \$574 thousand during the three months ended March 31, 2013 to \$672 thousand during the three months ended March 31, 2014 due to increases in assets under management resulting from CNB's strategic focus to grow its Wealth and Asset Management Division. Interchange fees and other income related to check and debit card usage increased from \$124 thousand during the three months ended March 31, 2013 to \$333 thousand during the three months ended March 31, 2014 and was primarily due to the increase in deposit accounts resulting from both organic growth and the acquisition of FC Banc Corp. in the 4th quarter of 2013. This deposit growth also accounted for an increase in overdraft fee income from \$780 thousand to \$824 thousand for the respective periods.

NON-INTEREST EXPENSES

Total non-interest expenses increased \$3.6 million, or 37.0%, during the three months ended March 31, 2014 compared to the three months ended March 31, 2013, primarily as a result of the acquisition of FC Banc Corp. in the fourth quarter of 2013. Salaries and benefits expenses increased \$1.6 million, or 31.5%, in part as a result of the addition of 60 full-time equivalent employees in the FCBank market area. Occupancy expenses increased \$444 thousand, or 33.7%, in part as a result of the addition of eight FCBank branches.

Table of Contents

INCOME TAX EXPENSE

Income tax expense was \$2.0 million in the first quarter of 2014 and \$1.6 million in the first quarter of 2013, resulting in effective tax rates of 28.3% and 27.3% for the periods, respectively. The effective rates for the periods differed from the federal statutory rate of 35.0% principally as a result of tax exempt income from securities and loans as well as earnings from bank owned life insurance.

CRITICAL ACCOUNTING POLICIES

The Corporation's accounting and reporting policies are in accordance with GAAP and conform to general practices within the financial services industry. Accounting and reporting practices for the allowance for loan losses and fair value of securities are deemed critical since they involve the use of estimates and require significant management judgments. In addition, the fair value of assets acquired and liabilities assumed in connection with business combinations, including the associated goodwill that was recorded, required the use of material estimates. Application of assumptions different than those used by management could result in material changes in the Corporation's financial position or results of operations. Note 1 (Summary of Significant Accounting Policies), Note 2 (Business Combination), Note 3 (Securities), and Note 4 (Loans), of the Corporation's 2013 Form 10-K, provide detail with regard to the Corporation's accounting for the allowance for loan losses, the fair value of securities, and business combinations. There have been no significant changes in the application of accounting policies since December 31, 2013.

ITEM 3

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a financial institution, the Corporation's primary source of market risk is interest rate risk, which is the exposure to fluctuations in the Corporation's future earnings resulting from changes in interest rates. This exposure is correlated to the repricing characteristics of the Corporation's portfolio of assets and liabilities. Each asset or liability reprices either at maturity or during the life of the instrument.

The principal purpose of asset/liability management is to maximize current and future net interest income within acceptable levels of interest rate risk while satisfying liquidity and capital requirements. Net interest income is enhanced by increasing the net interest margin and by the growth in earning assets. As a result, the primary goal of interest rate risk management is to maintain a balance between risk and reward such that net interest income is maximized while risk is maintained at an acceptable level.

The Corporation uses an asset-liability management model to measure the effect of interest rate changes on its net interest income. The Corporation's management also reviews asset-liability maturity gap and repricing analyses regularly. The Corporation does not always attempt to achieve a precise match between interest sensitive assets and liabilities because it believes that an actively managed amount of interest rate risk is inherent and appropriate in the management of the Corporation's profitability.

Asset-liability modeling techniques and simulation involve assumptions and estimates that inherently cannot be measured with precision. Key assumptions in these analyses include maturity and repricing characteristics of assets and liabilities, prepayments on amortizing assets, non-maturing deposit sensitivity, and loan and deposit pricing. These assumptions are inherently uncertain due to the timing, magnitude, and frequency of rate changes and changes in market conditions and management strategies, among other factors. However, the analyses are useful in quantifying risk and provide a relative gauge of the Corporation's interest rate risk position over time.

Management reviews interest rate risk on a quarterly basis and reports to the ALCO. This review includes earnings shock scenarios whereby interest rates are immediately increased and decreased by 100, 300, and 400 basis points. These scenarios, detailed in the table below, indicate that there would not be a significant variance in net interest income over a one-year period due to interest rate changes; however, actual results could vary significantly. Based on the most recent data available as of December 31, 2013, all interest rate risk levels according to the model were within the tolerance limits of ALCO approved policy of +/- 25%. In addition, the table does not take into consideration changes that management would make to realign its assets and liabilities in the event of an unexpected changing interest rate environment. Due to the historically low interest rate environment, the -300 and -400 scenarios have been excluded from the table.

Table of Contents

	December 31, 2013	
Change in		% Change in Net
Basis Points		Interest Income
400		-6.2%
300		-3.8%
100		-0.1%
(100)		-3.7%

ITEM 4

CONTROLS AND PROCEDURES

As of the end of the period covered by this quarterly report, an evaluation was carried out under the supervision and with the participation of the Corporation's management, including the Chief Executive Officer and Principal Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Securities Exchange Act of 1934) (Exchange Act). Based on their evaluation, our Chief Executive Officer and Principal Financial Officer have concluded that the Corporation's disclosure controls and procedures were effective as of the end of the period covered by this quarterly report to ensure that information required to be disclosed by the Corporation in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. There were no changes in the Corporation's internal control over financial reporting that occurred during the period covered by this quarterly report that have materially affected, or are reasonably likely to materially affect, the Corporation's internal control over financial reporting.
