EXPLANATORY NOTE

This Amendment No. 1 on Form 10-K/A (this **Amendment**) is being filed with respect to the Annual Report of Forest Laboratories, Inc., a Delaware corporation (the **Company** , or **Forest** , or **we** or **our**) on Form 10-K for the fiscal year ended March 31, 2014 filed with the Securities and Exchange Commission (**SEC**) on May 30, 2014 (the **Original 10-K**). The Original 10-K omitted certain information required by Part III (Items 10 through 14) of Form 10-K, which had been contemplated to be incorporated by reference from the Company's definitive Proxy Statement for its 2014 annual meeting of shareholders (the **Proxy Statement**), in reliance on General Instruction G(3) of Form 10-K. As the Company's Proxy Statement is not expected to be filed within 120 days after the end of the Company's 2014 fiscal year, the Company is filing this Amendment to provide the disclosures required by Part III pursuant to General Instruction G(3) of Form 10-K.

Specifically, in accordance with Rule 12b-15 under the Securities Exchange Act of 1934, as amended (the **Exchange Act**), portions of Items 10 through 14 of the Original 10-K, which were originally omitted and incorporated by reference to the Proxy Statement, have been amended to include this information, and Part IV, Item 15 of the Original 10-K has been amended solely to include as exhibits the new certifications required by Rule 13a-14(a) under the Exchange Act. Because no financial statements have been included in this Amendment and this Amendment does not contain or amend any disclosure with respect to Items 307 and 308 of Regulation S-K, paragraphs 3, 4 and 5 of the certifications required by Section 302 of the Sarbanes-Oxley Act of 2002 and the certifications required by Section 906 of the Sarbanes-Oxley Act of 2002 have been omitted.

Except as described above, no other changes have been made to the Original 10-K. The Original 10-K continues to speak as of the date of the Original 10-K, and the Company has not updated the disclosures contained therein to reflect any events which occurred at a date subsequent to the filing of the Original 10-K other than as expressly indicated in this Amendment. Accordingly, this Amendment should be read in conjunction with the Original 10-K and the Company's other filings made with the SEC on or subsequent to May 30, 2014.

During 2014, we made significant progress towards rejuvenating the Company and increasing shareholder value.

Since our new CEO, Brent Saunders, joined the Company on October 1, 2013, the Company was the top performing company among the S&P 500 listed companies, generating a total return of 116% compared to 13% for the S&P 500 average.

2014 Compensation Highlights

Our financial results for fiscal year 2014 led to above-target annual incentive award payouts for our NEOs. Our adjusted revenue of \$3.5 billion and Non-GAAP Diluted EPS of \$1.83 (each as calculated in accordance with the Incentive Plan) exceeded our target estimates. As a result of this strong performance, payments under our annual incentive program were 144% of target, before adjustment for individual performance.

At the time of their hiring, we made one-time equity award grants to our new CEO and to our Senior Vice President & Chief Human Resources Officer. These awards were comprised of a mix of stock options and restricted stock or restricted stock units that include multi-year vesting requirements. In addition, these executives made direct purchases of Company stock.

Table of Contents

In fiscal year 2014, we continued to make annual equity award grants, in the form of stock options, restricted stock and performance share units. Our performance share units include performance hurdles for revenue and total shareholder return, which strengthen the alignment of executive compensation with shareholder interests.

Basic Principles of our Executive Compensation Program

Our executive compensation program is designed to drive performance while promoting good corporate governance. The Compensation Committee annually assesses and, if appropriate, updates the Company's compensation practices to ensure alignment with these goals. We have highlighted below important aspects of our executive compensation practices as well as certain practices which we believe serve our stockholders' long-term interests.

Majority of Pay is Performance Based. The majority of the total compensation opportunity for our NEOs is not guaranteed. We believe allocating compensation in this manner is in the best long-term interests of our stockholders.

Pay for Performance Awards. Cash bonuses are determined pursuant to an annual incentive bonus plan implemented at the beginning of the fiscal year which establishes performance goals. In addition, our executives receive one-third to one-half of their equity compensation in the form of performance-based stock equivalent units (also referred to as *performance stock units or PSUs*), which vest based on the satisfaction of pre-established corporate performance goals.

Minimal Perquisites. We provide our NEOs with minimal perquisites.

No Repricing of Awards. The Company does not have a history of repricing equity incentive awards, and the Company's 2007 Equity Incentive Plan expressly prohibits such practices, as well as repurchases of underwater stock options or stock appreciation rights.

No Above Market Returns. We do not offer preferential or above market returns on deferred compensation.

No Underpriced Stock Options. We do not grant stock

Stock Ownership Guidelines. We have stock ownership guidelines for our senior management team, including each NEO.

Holding Period for Stock Options, Restricted Stock and Performance Stock Units. With certain limited exceptions, our stock ownership guidelines require our key executives to hold all shares obtained upon the exercise of Company stock options or through Company restricted stock grants and performance stock units until such executive achieves the applicable ownership threshold under the stock ownership guidelines.

Minimum Vesting Periods. All stock options and restricted stock awards granted to all executive officers are required to have a vesting schedule that exceeds 24 months.

Clawback Policy. The Company has an executive incentive compensation recoupment (*clawback*) policy to promote accountability. Pursuant to the policy, the Company may recoup certain incentive- or commission-based payments which were based upon any financial results or operating metrics that were impacted by such executive officer's knowing or intentional fraudulent or illegal conduct.

No-Hedging Policy. Our Directors and executive officers, including our NEOs, are prohibited from hedging their ownership of the Company's stock, including trading in options, puts, calls or other derivative instruments related to Company stock or debt.

Independent Compensation Consultant. The

options with exercise prices that are below the fair market value of the Company's common stock on the date of grant.

Compensation Committee utilizes the services of an independent compensation consulting firm that provides no other services to the Company.

Our Compensation Philosophy and Objectives

Philosophy

Our executive compensation philosophy seeks to align executive compensation with the achievement of the Company's business objectives and with individual performance directed towards obtaining those objectives. Consequently, the Company's compensation program is designed to reward our executives' respective contributions to the Company's achievements and is intended to facilitate long-term strategic management and the enhancement of stockholder value. In considering the elements of the compensation program, the Compensation Committee emphasizes pay for performance on both an annual and long-term basis and consideration of marketplace best practices.

Objectives

Our compensation program is designed to achieve the following objectives:

Attract and retain highly qualified executives;

Motivate individual performance;

Align incentives with business objectives;

Create incentives that focus executives on, and reward them for, increasing stockholder value;

Maintain equitable levels of overall compensation both among executives and as compared to executives with similar positions at companies in the Comparator Group (as described further on Page 22 of this Amendment);

Create an ownership culture which instills long-term perspective; and

Improve overall Company performance.

2014 Compensation Decisions

Base Salary

General

As described above, base salary provides a fixed element of executive compensation, which is intended to attract and retain key executives and provide an element of security to the executive officers on an ongoing basis. Executive salaries are reviewed on an annual basis by the Compensation Committee in May following the conclusion of the

preceding fiscal year as well as at the time of a promotion or other material change in responsibilities, and are based on:

Assessment of the NEO's performance;

Level of pay compared to the salaries paid to persons in similar positions by companies in the Comparator Group;

Tenure and experience; and

Current compensation.

An increase in base salary is not automatic or guaranteed. In May 2013, a merit increase for Dr. Taglietti of 3.51% was approved, which took effect July 1, 2013. The increase was awarded based on his performance reviews for fiscal year 2013. None of our other NEOs received a merit salary increase in fiscal year 2013. The base salary rates in effect for our NEOs for fiscal year 2014 were as follows: \$1,300,000 for Mr. Saunders; \$712,250 for Ms. Hochberg; \$661,375 for Mr. Perier; \$624,000 for Dr. Taglietti; \$535,000 for Ms. Ling; and \$1,350,000 for Mr. Solomon (until his retirement on September 30, 2013).

Annual Incentives

General

Annual incentives are intended to motivate executives to achieve key operational and individual performance goals and to reward executives for their advancement toward such goals. The Forest Laboratories, Inc. Annual Incentive Compensation Plan (the ***Incentive Plan***) is designed to closely align variable cash compensation awarded to the Company's executives with corporate performance and the development of managerial and leadership skills. In accordance with the terms of the Incentive Plan, target performance and payouts are established for each NEO and the actual payouts under the Incentive Plan are based upon the Compensation Committee's assessment of (i) pre-determined financial objectives (70% weighting) and (ii) individual performance objectives (30% weighting). In determining awards under the Incentive Plan, the Compensation Committee may take into account not only the level at which the performance objectives were met but may also take into consideration such equitable factors as may be determined by the Compensation Committee in its discretion.

Setting Annual Financial Performance Metrics

For fiscal year 2014, 70% of each NEO's annual award was based on the attainment of pre-established financial performance metrics. The Compensation Committee sets the performance metrics as well as the performance targets for each metric. For fiscal year 2014, the Compensation Committee considered financial performance against two separate performance measures, which were weighted as follows:

60% - Attainment of GAAP revenues

40% - Achievement of Non-GAAP Diluted EPS²

The Compensation Committee increased the weighting of the revenue metric from 50% for fiscal year 2013 to 60% for fiscal year 2014 in order to place greater emphasis on growing our top line.

Role of Individual Performance in Annual Awards

For fiscal year 2014, 30% of each NEO's annual award was based on performance against individual performance goals that were developed for each NEO and tied to our objective of encouraging the accomplishment of specific business objectives that we believed would improve the operational effectiveness of the Company.

Individual performance goals were designed for each NEO to reflect their specific functional responsibilities, including effectiveness of oversight and implementation of the Company's business operations, strategies and management, achievement of sales launch and marketing objectives, effective implementation of corporate programs, including corporate governance and compliance initiatives, achievement of research and development objectives, including submission of New Drug Applications and receipt of product approvals, achievements with respect to acquisitions of product rights, and effective management of the supply chain and patent litigation strategies. NEOs were also evaluated on how well they accomplished the same four objectives for the individual development metric: (1) ability to deliver business results; (2) ability to enhance organizational performance; (3) personal leadership; and (4) ability to develop human capital.

We believe this approach for determining Incentive Plan award payments balances the need to consider overall Company financial performance, results specific to a NEO's functional area of responsibility, and the NEO's ability to achieve results versus objectives while also demonstrating desirable managerial and leadership traits.

The payout percentage for each financial performance metric is multiplied by the weighting percentage to obtain the adjusted payout percentage for that metric. The adjusted payout percentages for each metric are then added together to determine the financial performance attainment.

- ² Non-GAAP Diluted EPS is defined as earnings per share calculated in accordance with GAAP as adjusted to exclude (i) amortization arising from business combinations and acquisitions of product rights, (ii) up-front license payments and (iii) such one-time items as approved by the Board.

Table of Contents***Determination of Fiscal Year 2014 Bonus Awards***

Annual Cash Incentive Compensation =

NEO s target award multiplied by:

[Company financial performance *times* 70%] plus [individual performance *times* 30%]

The table below shows the weights, performance and resulting adjusted payout percentage for each of the financial performance metrics earned for fiscal year 2014 under the Incentive Plan:

Fiscal Year 2014 Financial Performance Metrics

Performance Metric	Weight	Performance Target	Actual Performance Results	Performance Level as a Percentage of the Performance		Adjusted Payout Percentage
				Target	Payout Percentage	
Revenue	60%	\$ 3,456,554,000	\$ 3,533,643,000(1)	102%	107%	64%
Non-GAAP Diluted EPS	40%	\$ 0.90	\$ 1.83(2)	203%	200%	80%
Total						144%

(1) Excludes sales during fiscal 2014 from Aptalis and Saphris

(2) Excludes impact of Aptalis, Saphris and interest income.

As indicated in the table above, the resulting adjusted payout percentage for each NEO attributed to the Revenue and Non-GAAP Diluted EPS and performance metrics was 144%.

As disclosed above under the heading *Role of Individual Performance in Annual Awards*, the remaining 30% of each NEO s fiscal year 2014 Incentive Plan award was based on the achievement of individual performance and development goals. Based on the factors described above, the Compensation Committee determined the degree to which each NEO s individual performance and individual development goals had been achieved. The Compensation Committee then assessed each NEO s individual performance against the Company s performance with respect to the financial performance metrics, which resulted in Incentive Plan award payouts ranging between 138% and 161% of each NEO s target bonus. The actual Incentive Plan awards paid to our NEOs is shown in the table below and also reported in the Summary Compensation Table in the Non-Equity Incentive Plan Compensation column.

Given his strong leadership in driving the exceptional performance of the Company during fiscal year 2014, the Committee determined to provide Mr. Saunders with a full-year bonus award as reflected below.

Fiscal Year 2014 Annual Incentive Awards

Name	Annual Incentive Target (%)	Annual Target Incentive (\$)	Financial Performance (70% weighting)	Individual Performance (30% weighting)	Actual % of Target Bonus Awarded	Actual Payout (\$)

Karen Ling ⁽¹⁾	65%	347,750		155%	37%	128,065

(1) Pursuant to the terms of her letter agreement, Ms. Ling's fiscal year 2014 Incentive Award was prorated to reflect her hire date of January 21, 2014.

Because Mr. Solomon retired effective as of September 30, 2013, he was not eligible to earn an annual bonus in respect of fiscal year 2014.

Long-Term Incentives

General; The Equity Plan

Given the long-term nature of the pharmaceutical business, we believe that incentivizing executives to focus on long-term performance is of particular importance to us. We believe that one of the most effective ways to accomplish this objective is to allocate the majority of the NEO's compensation to long-term incentive components that are tied to an increase in the Company's market value or other pre-determined performance measures. These awards are intended to reward performance over a multi-year period, align the interests of executives with those of stockholders, instill an ownership culture, enhance the personal stake of executive officers in the growth and success of the Company and provide an incentive for continued service at the Company. Long-term incentive awards are made under our stockholder-approved 2007 Equity Incentive Plan, as amended to date (the **Equity Plan**). Equity awards are granted annually following the conclusion of each fiscal year at the Board's regularly scheduled May meeting.

Pursuant to the Equity Plan, employees, including the NEOs, may be granted stock options to purchase shares of common stock, restricted stock awards, stock appreciation rights and stock equivalent units (together, the **Awards**). The exercise price of all options, including incentive stock options as defined by Section 422 of the Internal Revenue Code of 1986, as amended (the **Code**), is the fair market value of the shares on the grant date. All of our employees, our subsidiaries' employees and our non-employee directors are eligible to receive Awards as defined under the Equity Plan.

Annual Long-Term Incentive Vehicles Awarded in Fiscal Year 2014

Mix of Long-Term Awards

We grant our executives, including our NEOs, a package of long-term incentive awards that is designed to incentivize them and to reward them based on the Company's performance. The Compensation Committee, with the advice of its independent compensation consultant, established each executive's long-term incentive target award opportunity as a multiple of such executive's base salary, with that multiple generally being approximately 5.3 times base salary for the CEO (for each fiscal year following fiscal year 2014), 3 to 3.5 times base salary for the Company's Senior Vice Presidents and Executive Vice Presidents, and 1 to 2 times base salary for the Company's Vice Presidents.

For fiscal year 2014, each of our NEOs, other than Mr. Saunders and Ms. Ling, received an annual equity award grant. Annual long-term awards were allocated in approximately equal amounts (based on value) to PSUs, Stock Options and Time-based Restricted Stock Awards, each of which is described in greater detail below.

Performance Stock Units. PSUs granted in May 2013 will vest, if at all, at the end of the performance period based upon the level of achievement of two equally weighted performance metrics, one related to total shareholder return (**TSR**) and one related to revenues of certain products (**Revenues**). The performance for both the Revenue measure and the TSR measure is the 36-month period commencing April 1, 2013 and ending March 31, 2016. The PSUs are paid out in shares of the Company's common stock at a one-to-one ratio in accordance with the terms of the individual award agreement. The terms of the PSUs, including the metrics underlying the PSU are further described below.

Stock Options. Stock options granted in May 2013 vest in four equal annual installments beginning on the first anniversary of the date of grant. These stock options have an exercise price of \$37.88 (the average of the high and low prices of the Company's common stock on May 21, 2013).

Time-based Restricted Stock Awards. Time-based Restricted Stock Awards granted in May 2013 vest in three annual installments with 33%, 33% and 34% vesting on May 15, 2014, May 15, 2015 and May 15, 2016, respectively.

Table of Contents

The Company's long-term equity awards are subject to a grantee's continued employment, but contain exceptions in certain cases in the event of the grantee's death, disability, or retirement or the occurrence of a change of control. The value of the PSUs, Stock Options and Restricted Stock Awards granted to each NEO during fiscal year 2014 is reported in the Summary Compensation Table on Page 26 of this Amendment and the specific number of shares awarded with respect to each type of equity award is set forth in the Grants of Plan-Based Awards Table on Page 28 of this Amendment.

Performance Metrics for Performance Stock Units

The PSUs granted in May 2013 vest, if at all, based upon the level of achievement of two performance metrics:

The Revenues metric is based on the comparison of the Company's total revenues from its cumulative sales of Bystolic, Daliresp[®], Savella[®], Teflaro[®] and Viibryd[®] for the period between April 1, 2013 and March 31, 2016 to the total projected Revenues for the same period as included in the budget prepared by the Company and approved by the Board at its May 2013 meeting; and

The TSR metric is based on the change in TSR of the Company during the period between April 1, 2013 and March 31, 2016 relative to the change in the TSR of the other companies in the NYSE Arca Pharmaceutical Index. To minimize the effect of a single day's stock price volatility on the TSR calculations, stock prices are calculated using the 20-day volume weighted average closing stock prices prior to and including the beginning and end of the performance period.

The Compensation Committee believes that both Revenues and TSR are appropriate performance metrics that properly incentivize the Company's executive officers to achieve the Company's long-term financial and strategic goals while simultaneously aligning their interests with the long-term interests of the Company's stockholders. In particular, the Compensation Committee selected Revenues as a performance metric because they tie a portion of the compensation opportunity for the Company's executives to a factor that is largely within their control—i.e., the ability to execute the Company's strategic plan in order to generate projected Revenues—and TSR because it focuses the Company's executives on improving the Company's stock price. In addition, the products chosen by the Compensation Committee as the basis for the Revenue performance metric were selected because they represented the five most recent products that the Company commercially launched in the United States when the PSUs were granted.

While the Compensation Committee determines an executive's total compensation opportunity by assuming that he or she will earn 100% of the PSUs initially awarded in the compensation cycle (the **Target Award**), the number of PSUs that will actually be earned could be between 0% and 150% of the Target Award depending on the level of achievement of both performance metrics.

Sign-On Equity Grants

Pursuant to the terms of his letter agreement, Mr. Saunders received a sign-on equity grant with an aggregate grant date value of \$10,000,000, which was allocated 40% to RSUs and 60% to stock options. These awards are reflected in the Grants of Plan-Based Awards Table and associated footnotes. In addition, pursuant to the terms of his letter agreement, Mr. Saunders purchased shares in the Company with an aggregate purchase price of \$5,000,000 shortly after the commencement of his employment.

Pursuant to the terms of her letter agreement, Ms. Ling received a sign-on equity grant with an aggregate grant date value of \$2,253,000, which was allocated 50% to restricted shares and 50% to stock options. Ms. Ling also received an additional award of RSUs with an aggregate value of \$855,000, to compensate her for the pension benefit she was foregoing from her prior employer. These awards are reflected in the Grants of Plan-Based Awards Table and associated footnotes. In addition, pursuant to the terms of her letter agreement, Ms. Ling purchased shares in the Company with an aggregate purchase price of \$250,000 shortly after the commencement of her employment.

Additional Compensation Elements

Benefits

The NEOs are also eligible to participate in the same retirement plans and health and welfare benefit plans made available to the other benefits-eligible employees of the Company, including, for example, the Company's defined contribution plan, medical, dental, vision, life insurance and disability coverage.

Perquisites

The Company provides certain executive officers, including the NEOs, with certain perquisites that the Compensation Committee believes are reasonable and consistent with the Company's overall compensation program. We believe that the indirect benefit that the Company receives from providing these perquisites outweighs the cost of providing them. The specific cost of perquisites paid by the Company for each NEO in fiscal year 2014 is set forth in the *Summary Compensation Table* on Page 26 of this Amendment under the heading *All Other Compensation* and is described further in footnote 4 to the table. The Committee does not believe that the perquisites provided to executive officers form a material part of their compensation. The Company does not provide loans to executive officers.

Retiree Medical Benefits

On December 1, 1989, the Board authorized the grant of certain lifetime medical benefits to certain senior executive officers and their spouses upon the completion of ten years of service by such officers. The benefit was subsequently discontinued and the only NEO eligible for such benefit is Mr. Solomon. This benefit is further described under the headings *Potential Payments Upon Termination* and *Potential Payments Upon Change in Control* on Page 34 of this Amendment.

Deferred Compensation Plans

The Company maintains a nonqualified Deferred Compensation Plan for the benefit of certain highly compensated employees, including its NEOs. Such plans are common within the Company's competitive peer group. Under this plan, full-time salaried employees who have an annual base salary of at least \$150,000 may defer up to 50% of their annual base salary and up to 100% of their annual bonus. Deferred amounts may be invested among several investment programs at the participant's option. Deferred amounts are not subject to federal or state income tax until a participant withdraws amounts from the plan. The Company does not match any of these funds. Further information on the deferred compensation payable to its NEOs can be found under the heading *Nonqualified Deferred Compensation* on Page 33 of this Amendment.

prorated for fiscal year 2014 to reflect her hire date of January 21, 2014; (iii) receive sign-on and make-whole equity grants, described above in the section entitled *Sign-on Equity Grants* ; (iv) be eligible to receive an annual grant of equity-based incentive awards having an aggregate grant date value of \$878,000 for fiscal year 2014 and \$1,200,00 for fiscal year 2015; and (v) become party to a change in control agreement as described below in the section entitled *Change of Control Employment Agreements*.

Retention Letter Agreements

The Company entered into letter agreements with Mr. Perier and Dr. Taglietti in connection with their employment with the Company. Pursuant to these letter agreements, Mr. Perier and Dr. Taglietti are entitled to guaranteed severance payments for a one year period following a termination of employment, a bonus for the year in which the termination of employment occurs equal to the greater of the last bonus received from the Company or 40% of salary target in the case of Mr. Perier and 30% of salary target in the case of Dr. Taglietti, and continued medical and dental health care coverage for such officer and any eligible family members until the earlier of the expiration of the one year period or the date such officer obtains alternate coverage. The guarantee is triggered if the executive is terminated by the Company without Cause or resigns for Good Reason (each as defined in the relevant letter agreement). A more detailed description of such severance arrangements (including the amounts payable thereunder) can be found on Page 34 of this Amendment under the headings *Potential Payments Upon Termination* and *Potential Payments Upon Change in Control*, respectively.

Letter Agreement with Howard Solomon

On May 22, 2013, Howard Solomon advised the Board of his decision to retire as President and Chief Executive Officer of the Company effective December 31, 2013, and entered into a letter agreement with the Company pursuant to which he agreed to continue serving as the Company's Chief Executive Officer and President until the later of December 31, 2013, or the date his successor as Chief Executive Officer is appointed, which occurred on October 1, 2013 (the ***Transition Date***). Under the terms of his agreement, Mr. Solomon received his current compensation and benefits through the Transition Date. In light of Mr. Solomon's key relationships, including with the Company's licensing partners, and in order to retain the benefit of his experience, from and following the Transition Date, Mr. Solomon commenced employment as a Senior Advisor to the Company, and in that capacity he provided services reasonably requested by the Board or the Chief Executive Officer of the Company. Mr. Solomon's term as Senior Advisor to the Company will last until the earlier of December 31, 2016 or the date his employment is terminated in accordance with the terms of the agreement. For additional details relating Mr. Solomon's letter agreement with the Company, please see the current report of the Company filed on Form 8-K on May 24, 2013.

Change-in-Control Employment Agreements

The Company is party to change-in-control employment agreements with certain key executives, including each of the NEOs, which provide for severance (i) upon a termination due to death or disability or a termination without Cause or for Good Reason or, in the case of all NEOs other than Mr. Saunders, Adequate Reason, in each case during the three year period following a Change of Control (as such terms is defined in the applicable agreement) or (ii) in connection with a termination of the agreement within 90 days following a Change of Control. Each individual covered by such an agreement has made a significant contribution to the Company and has knowledge and understanding of the Company and its operations and these arrangements are provided to maintain continuity of such expertise and leadership during potentially disruptive negotiations relating to potential mergers, acquisitions or other business combinations. They also serve to protect the stockholders' interest in maintaining executive leadership so that goals and objectives in the best interest of stockholders are pursued. A more detailed description of such severance arrangements (including the amounts payable thereunder) can be found under the heading *Potential Payments Upon*

Change in Control on Page 34 of this Amendment.

Table of Contents

In connection with its entry into the merger agreement with Actavis, the Company entered into an amendment to the Change of Control employment agreements with Mr. Saunders and Ms. Ling, each of whom had become employees of the Company during fiscal year 2014. These amendments provide that, in the event that the executive becomes subject to excise taxes under Section 4999 of the Code, he or she will be entitled to a gross-up payment from the Company to compensate him or her for the excise taxes that are imposed. In consideration for the gross-up protection, each executive will be bound by a one-year non-competition restriction.

How We Make Compensation Decisions

The Role of Our Compensation Committee

The Compensation Committee is responsible for establishing the Company's compensation strategy and overall program of executive compensation and for administering and monitoring compliance with the compensation program. The Compensation Committee seeks to ensure that the total compensation paid to our NEOs is fair, reasonable and competitive. For fiscal year 2014, the Compensation Committee also engaged an independent compensation consultant as described below under the heading *The Role of the Compensation Committee's Independent Compensation Consultant*.

The Compensation Committee reviews the performance of and establishes compensation for the CEO and CFO. The Compensation Committee is also responsible for granting all equity awards under the Equity Plan. With respect to non-equity compensation awarded to senior executives of the Company other than the CEO and CFO, including the other NEOs, the Compensation Committee reviews and assesses management's evaluation of such executives performance and makes recommendations to the Board regarding their non-equity compensation.

The Role of Our Management

As part of the annual compensation approval process, the Compensation Committee considers the advice of the CEO with respect to the compensation of all NEOs other than the CEO. Other members of management provided support to the Compensation Committee as needed.

Our management was also involved in developing proposals regarding program design and administration for the Compensation Committee's review and approval. Management was responsible for responding to any Compensation Committee requests for information, analysis, or perspective as it related to topics that arose during the course of the year. Lastly, management carries out certain responsibilities relating to administration of the compensation program.

The Role of the Compensation Committee's Independent Compensation Consultant

The Compensation Committee engaged an independent compensation consultant, Steven Hall & Partners, LLP (*SH&P*) to provide advice in connection with fiscal year 2014 compensation. At the Compensation Committee's request, SH&P conducted a thorough review of the Company's executive compensation plans, policies and practices, as well as market trends and current and pending legislation and evolving policies and procedures adopted by proxy advisory services firms. The SH&P report to the Compensation Committee recommended the adoption of a comparator group to be used for benchmarking of compensation and practices and specific recommendations based on the Company's long-term objectives to create a stronger alignment with the interests of stockholders and in line with current best practices.

Non-Binding Advisory Say on Pay Proposal and Recent Changes in Compensation Practices

In August 2013, our stockholders approved a non-binding advisory say-on-pay proposal at our 2013 Annual Meeting with approximately 96% of the votes cast voting in favor of that proposal. The Compensation Committee interpreted these results as a validation of the structure of our pay-for-performance compensation program and determined to retain our general approach to executive compensation. Nonetheless, the Compensation Committee continues to work with its independent compensation consultant to consider alternatives and intends to make changes to the program, both large and small, where it determines it appropriate. Accordingly, the Compensation Committee will continue to monitor and consider future advisory say-on-pay votes to ensure that there is continued support for our pay-for-performance compensation programs among our stockholders. The Board has historically held this vote annually and continues to do so, consistent with the recommendation of our stockholders at the 2011 annual meeting.

Table of Contents**Competitive Marketplace Assessment**

As part of our executive compensation program, we periodically review executive compensation data from similar companies (the *Comparator Group*) in order to ensure that our practices are fair and reasonable. The Comparator Group was selected based on industry focus and revenue size and includes companies with which we compete for talent. In addition, we considered an analysis of market capitalization and similarity of broad-based product and service offerings. In fiscal year 2014, the Comparator Group consisted of:

Allergan, Inc.	Hospira, Inc.
Biogen Idec Inc.	Mylan Inc.
Celgene Corporation	Perrigo Company
Cephalon Inc. ³	Warner Chilcott PLC
Endo Pharmaceuticals Holdings Inc.	Watson Pharmaceuticals, Inc. ⁴
Gilead Sciences, Inc.	

Compensation decisions by the Compensation Committee during fiscal year 2014 also took into account elements of compensation including base salaries, total cash compensation and total compensation for officers of the Comparator Group. In developing compensation levels for the Company's officers, the Compensation Committee used such data as a point of reference, and made adjustments based on differences in the scope of responsibilities of the Company's executive as compared to their counterparts within the Comparator Group. The Compensation Committee further adjusted compensation levels based on the executive's tenure, performance during the compensation period and the relative strategic importance of such executive's position within the Company.

Risk Considerations

The Compensation Committee has reviewed the Company's compensation policies and practices and analyzed the potential business risks inherent in such policies and practices. The Compensation Committee believes that the Company's executive compensation policies and practices do not encourage our management, including our NEOs, to take unnecessary business risks that are reasonably likely to have a material adverse effect on the Company. Specifically, the Company's historical practice of providing the majority of management compensation in the form of long-term equity awards and including the issuance of PSUs, which use multiple performance metrics, have a range of payouts based on the achievement of such metrics (as opposed to an all or nothing payout scheme that could otherwise encourage the taking of unnecessary risks), and have a minimum three-year performance period, and the requirement that all awards granted to executive officers under the Equity Plan have a vesting schedule that exceeds 24 months, align the interests of our management with the long-term interests of the Company's stockholders and protect against inappropriate risk taking. In addition to the foregoing, the Company's Corporate Governance Guidelines include stock ownership guidelines, a holding period requirement with respect to shares acquired by executive officers from option exercises and restricted stock grants, and an anti-hedging policy with a view to further aligning the interests of management with those of our stockholders, thereby mitigating the taking of unnecessary risks. Finally, as described in greater detail in the following section, the Company also maintains a clawback policy to discourage knowing or intentional fraudulent or illegal conduct.

³ Cephalon, Inc. was acquired subsequently by Teva Pharmaceutical Industries Ltd. on October 14, 2011.

⁴

Following its acquisition of Actavis Group in October 2012, Watson Pharmaceuticals, Inc. changed its name to Actavis, Inc.

Table of Contents**Clawback Policy**

The Company maintains a clawback policy, which is set forth in our Corporate Governance Guidelines. The policy provides that, in addition to any other remedies that may be available to the Company, the Company may recover (in whole or in part) any bonus, incentive payment, commission, equity award or other compensation received by an executive officer of the Company that is or was based on any financial results or operating metrics that were impacted by such executive officer's knowing or intentional fraudulent or illegal conduct.

Stock Ownership Guidelines

Our Corporate Governance Guidelines include stock ownership guidelines applicable to our non-employee directors and our executive officers, including the NEOs. These guidelines are intended to align the long-term interests of our non-employee directors and executives with the interests of stockholders and promote an ownership culture and long-term perspective.

Role	Value of Common Stock to be Owned
Chairman of the Board, Chief Executive Officer and President	Six times base salary
Direct Reports to the Chief Executive Officer	Three times base salary
Other senior executives	One times base salary
Non-employee directors	Three times annual retainer fee

Each executive and non-employee director is required to meet his or her target stock ownership threshold on or before December 31 of the year which includes the fifth anniversary or seventh anniversary, respectively, of the date he or she became subject to the guidelines.

Holding Period for Stock Options, Restricted Stock and Performance Stock Units

To further promote a culture of ownership and long-term investment, the Board has adopted a policy requiring that shares obtained by executives, including the NEOs, upon the exercise of Company stock options or through Company restricted stock grants and performance stock units be held until such executive achieves the applicable ownership threshold under the stock ownership guidelines, subject to exceptions for shares required to be sold in order to exercise the option or pay the taxes accruing as a result of the exercise of the option or the vesting of the restricted stock award or performance stock unit and in connection with corporate transactions that are generally available to stockholders.

No-Hedging Policy

To further align our directors' and executive officers' interests with the interests of the Company's stockholders, the Board has adopted a policy applicable to all directors and executive officers, including the NEOs, which prohibits transactions designed to limit or eliminate economic risks to our directors or executive officers from owning the Company's stock, such as transactions involving any form of margin arrangement, short sales or dealing in puts and calls or other derivative instruments related to Company stock or debt.

Tax and Accounting Implication of Compensation

Section 162(m) of the Code generally limits the deductibility of compensation (other than qualified performance-based compensation) in excess of \$1,000,000 paid in a taxable year to a company's chief executive officer and the four other most highly compensated executive officers. The Company considers the impact of this deductibility limitation on its compensation program, but recognizes that there may be cases in which authorized compensation exceeds the limits contemplated in Section 162(m) of the Code. Current accounting rules, including Financial Accounting Standards Board Accounting Standards Codification Topic 718 (*FASB ASC 718*),

Compensation-Stock Compensation, require the Company to record as an expense the estimated fair market value of stock option grants and stock awards, which reduces the Company's reported profits. The Committee considers this expense when determining the types and values of equity awards to be granted to employees, including the NEOs.

- (1) In December 2011, the Compensation Committee decided to align the Company's compensation cycle, which historically covered the twelve month period ending September 30, with the Company's fiscal year end of March 31. The amounts set forth in the Bonus column for fiscal year 2012 represent the cash incentives issued as a bonus for the fiscal year ended March 31, 2012. Commencing with fiscal year 2013, the Compensation Committee discontinued granting discretionary cash bonus awards and instituted a policy of granting formula based cash incentive awards under the Incentive Plan instead. All awards granted pursuant to the Incentive Plan were determined in accordance with the terms of the Incentive Plan as described under the heading *Annual Incentives* of the *Executive Compensation Discussion and Analysis* on Page 9 of this Amendment.
- (2) Represents the aggregate grant date fair values of awards granted during the fiscal years ended March 31, 2014,

2013 and 2012 computed in accordance with FASB ASC 718. For a discussion of valuation assumptions used in calculating the amounts for fiscal years 2014, 2013 and 2012, see Note 1 to our Consolidated Financial Statements included in our Annual Reports on Form 10-K for the fiscal years ended March 31, 2014, 2013 and 2012, respectively. For all fiscal years presented, the Stock Awards column reflects the grant date fair value for both grants of Restricted Stock (awards and units) and PSUs granted to the NEOs during that period. The value of PSUs has been determined based on an assumed vesting of 100% of the target PSUs awarded, which is the performance threshold the Company believed as of the grant date was most likely to be achieved under the grants. The following is the maximum grant date fair value for the PSU awards granted in fiscal years 2012, 2013 and 2014 for each of the following NEOs if, due to the Company's performance during the applicable performance cycle,

the PSUs vested at their maximum level: Brenton L. Saunders: \$0, \$0, and \$0; Howard Solomon: \$4,310,282, \$2,194,737 and \$0; Elaine Hochberg: \$1,073,071, \$558,690 and \$1,520,503; Francis I. Perier: \$1,007,832, \$519,886 and \$1,411,560; Marco Taglietti: \$859,357, \$436,794 and \$1,206,857; and Karen Ling: \$0, \$0 and \$0. Please see the *Grants of Plan-Based Awards* table on Page 28 of this Amendment for more information regarding equity awards granted in fiscal year 2014.

- (3) There are no above-market or preferential earnings on deferred compensation. Consequently, the Summary Compensation Table does not include earnings on deferred amounts. In addition, none of the NEOs is eligible for pension benefits because Forest does not have a defined benefit retirement program.
- (4) This amount includes the cost of group term life insurance and compensation credited to the NEOs pursuant to our Savings and Profit Sharing Plan, which benefits are available on the same terms to all non-bargaining unit employees of the Company and its domestic subsidiaries. These employees become participants in the plan if they are employed for at least six months prior to the plan year-end. The Company makes contributions to the plan at the Board's discretion. However, for fiscal year 2014, the contribution base may not exceed 25% of the individual plan participant's gross salary (up to a maximum salary of \$260,000), including allocated forfeitures for the plan year. Plan participants vest over a period of one to five years of credited service. The amount disclosed also includes the costs of all perquisites provided to the NEOs, including with respect to Dr. Taglietti amounts that did not exceed \$10,000. The amount of such perquisites represent the cost associated with company cars (including insurance), company provided lunches and membership dues. With respect to Mr. Howard Solomon and Ms. Hochberg, this amount also includes \$9,364 and \$35,734, respectively, of medical expenses paid on behalf of Mr. Solomon and Ms. Hochberg under a supplemental medical plan.

- (1) The amounts actually paid to each NEO under the Annual Incentive Plan are set forth in the Summary Compensation Table at Page 26 of this Amendment. The amount set forth as the **Maximum** represents the maximum individual bonus that could have been earned by each NEO with respect to such NEO's grant for the 2014 fiscal year under our Incentive Plan. The amount set forth as the **Threshold** represents the bonus that would have been payable if each of the four metrics under the award was achieved at the minimum level of performance, although no bonus, or a smaller bonus, could have been payable if none, or only some, respectively, of the four performance metrics were achieved at the threshold level. The amounts shown for Ms. Ling are pro-rated to reflect her date of hire of January 21, 2014.
- (2) PSUs are earned after a three-year period based on achievement of financial objectives established by the Compensation Committee at the time of grant. At the end of the third year, the Compensation Committee assesses performance versus the targets to determine how many shares are earned, and payouts are then made. The amount set forth as the **Maximum** represents the maximum number of shares that could be issued under the PSUs with

Nonqualified Deferred Compensation

The following table shows the executive contributions, earnings and account balances for all NEOs who participate in our Deferred Compensation Plan. The Deferred Compensation Plan allows full-time salaried employees who have an annual base salary of at least \$150,000, including the NEOs, to defer up to 50% of their annual base salary and up to 100% of their annual bonuses. Deferred amounts are not subject to federal or state income tax until a participant withdraws amounts from the Deferred Compensation Plan. We do not match any of these funds.

Employees who participate in the Deferred Compensation Plan may at their option invest deferred monies in a range of investment vehicles that generally mirror the choices available to all employees in the Company's 401(k) Plan. The investment options in the Deferred Compensation Plan have returns that would be the same as those earned on the same options in the Company's 401(k) Plan for the 2014 fiscal year. The rates of return for funds in the Deferred Compensation Plan ranged from: -0.31% to 32.22%.

Potential Payments Upon Change in Control

As described above, the Company has entered into Change in Control agreements with several key employees, including each of its Named Executive Officers, other than Mr. Solomon, whose agreement expired upon his retirement. The current agreements automatically renew each year on January 1 for an additional three year period unless the Company provides the executive written notice at least 60 days prior to such date that the term of his or her Change in Control agreement will not be extended for an additional three-year period. The Board has determined that it is in both our best interests and the best interests of our stockholders to enter into Change in Control agreements with certain executive officers. In particular, these agreements enable management to evaluate and support potential transactions that might be beneficial to stockholders without regard to the potential impact on their own job security or earned benefits. Additionally, the agreements provide for continuity of management in the event of a Change in Control.

Each agreement becomes effective only upon the occurrence of a Change in Control and provides that the executive is entitled to salary, bonus and benefits for a three-year period following a Change in Control if the executive's employment is terminated as a result of such Change in Control or during such three year period by the Company without Cause or by the employee for Good Reason or for Adequate Reason (a Qualifying Termination). Cause is generally defined as one of the following: (i) refusal of the executive to comply with written instructions of our Board or CEO that are consistent with the scope of the executive's responsibilities; or (ii) willful engagement by the executive in illegal conduct or gross misconduct which is materially and demonstrably injurious to the Company.

Good Reason includes a reduction in job responsibilities, or changes in pay and benefits as well as any material change in the geographic location at which the executive must perform services to the Company. The executive has 90 days to assert a claim for payment in connection with a termination for Good Reason. Adequate Reason means the executive's resignation for any reason or no reason during the 30-day period immediately following the first

anniversary of the Change in Control.

Subject to certain exceptions, a Change in Control is generally defined as (i) an acquisition of more than 50% of our common stock or voting securities by a person or group not acquiring their shares directly from us, (ii) an acquisition during any 12-month period of 30% or more of our common stock by a person or group not acquiring their shares directly from us, (iii) a change in the majority of the current Board or their designated successors not consented to by such current Board or designated successors, or (iv) a merger, consolidation or sale of all or substantially all of our assets which involves a 50% or greater change in our stockholders or the replacement of a majority of the current Board or their designated successors or the acquisition by a person or group of more than 30% of our voting securities.

Table of Contents

Upon such Qualifying Termination, executives subject to these agreements are eligible for the following amounts: (i) the amount of any accrued compensation obligations to the executive through the termination date, consisting of unpaid base salary, a pro-rated bonus equal to the greater of the executive's annualized current year bonus or the highest annual bonus received by such executive during the three years preceding the Change in Control, and other accrued compensation through the termination date; plus (ii) an amount equal to three times the executive's base salary (which must be at least 12 times the executive's highest monthly salary during the 12 months preceding the Change in Control) and highest annual bonus during the three years preceding the Change in Control; plus (iii) the actuarial equivalent of the employee's benefit under any retirement plans in which the executive participates, assuming continued participation for a three year period following the termination date. In addition, the executive will receive continued medical benefits for a three year period for both the executive and his or her family, provided however that such coverage will be secondary to any coverage the executive obtains from a subsequent employer. Lastly, the employee will be provided with outplacement services and any other amounts or benefits required to be paid or provided under any plan or program.

The following table sets forth our reasonable estimate of the potential payments to each of our Named Executive Officers under our Change in Control Agreements assuming a Change in Control and the executive's termination of employment both occurred as of March 31, 2014:

In connection with Mr. Saunders' sign-on equity grants, it was expected that he would purchase, and upon his request, the Company will sell to him at a price equal to the then fair market value of the common stock, shares of common stock having an aggregate purchase price of \$5,000,000 within the first six months following the Start Date or as such period may be extended to take into account restrictions on Mr. Saunders' ability to purchase the common stock under applicable law. In accordance with the terms and conditions of the Saunders Letter Agreement, Mr. Saunders and the Company entered into a stock purchase agreement on October 1, 2013, pursuant to which Mr. Saunders purchased 116,172 shares of Common Stock directly from the Company at a per share price of \$43.04 (which was the average of the high and low price of a share of Common Stock on the New York Stock Exchange on October 1, 2013) and for an aggregate purchase price of \$5,000,042.88. The transaction, which was exempt from registration with the SEC pursuant to Section 4(a)(2) of the Securities Act of 1933, closed the following day.

On February 16, 2014, the Company entered into an amendment to Mr. Saunders' Change of Control employment agreement which provides that, in the event that Mr. Saunders becomes subject to excise taxes under Section 4999 of the Internal Revenue Code of 1986, as amended (the **Code**), he will be entitled to a gross-up payment from the Company to compensate him for the excise taxes that are imposed (the **Gross-up Adjustment**).

On February 16, 2014 and as more fully described in the subsection entitled Change-in-Control Employment Agreements appearing on Page 20 of this Amendment, the Company also entered into amendments to its Change of Control employment agreements (each a **Change of Control Agreement**) with Ms. Ling and Messrs. Bailey and Kelly. In addition to amending the Change of Control Agreements to provide a Gross-up Adjustment for each of Ms. Ling and Messrs. Bailey and Kelly, the amendments (i) eliminate (unless the affected executive officer is terminated without Cause or resigns for Good Reason), the Company's obligations to make certain payments in the event the affected executive officer is terminated either upon a change of control or within 90 days thereof; (ii) revise certain provisions governing the timing of payments to comply with Section 409A of the Code; and (iii) restrict the executive officer from competing against the Company for a one-year period following (x) the executive officer's voluntary termination of employment other than for Good Reason (as defined in the applicable Change of Control Agreement) or (y) any termination of employment on or before the third anniversary of the effective date of the applicable Change of Control Agreement that entitles the executive officer to severance benefits under his or her Change of Control Agreement.

Director Independence

The Board has affirmatively determined that the following directors have no material relationship with us and are independent within the meaning of the NYSE definition of independence: Nesli Basgoz, M.D., Christopher J. Coughlin, Kenneth E. Goodman, Vincent Intrieri, Pierre Legault, Gerald M. Lieberman, Lester B. Salans, M.D., and Peter J. Zimetbaum, M.D. To assist in making the independence determination, the Board has adopted Director Qualification Standards as part of our Corporate Governance Guidelines. The Director Qualification Standards satisfy the NYSE independence requirements, and a copy of our Corporate Governance Guidelines is available on our website by clicking on the Corporate Governance link under the Investor Center section at www.frx.com. Independent directors receive no compensation from us for service on the Board or the Committees other than directors' fees and non-discretionary grants under our 2007 Equity Incentive Plan.

Item 14. Principal Accountant Fees and Services

In addition to retaining BDO to audit our consolidated financial statements for fiscal year 2014, we and our affiliates retained BDO, as well as other accounting and consulting firms, to provide various

consulting and other services in fiscal year 2014 and expect to continue to do so in the future.

Table of Contents

The following table presents fees for professional audit services rendered by BDO for the audit of our annual financial statements and review of financial statements included in our Quarterly Reports on Form 10-Q for fiscal years 2014 and 2013, and fees billed for other services rendered by BDO:

Tax Fees (1)		
All Other Fees		
Total	\$ 2,676,020	\$ 1,771,850

(1) The Audit Committee has considered the non-audit services performed for us by BDO in the Committee's evaluation of BDO's independence.

(2) Audit related fees in 2014 were related to the Bond Issuances and the audit of our Savings and Profit Sharing Plan. Audit related fees in 2013 were related to the audit of our Savings and Profit Sharing Plan.

The Audit Committee's policy is to pre-approve all audit services and all non-audit services that our independent registered public accounting firm is permitted to perform for us under applicable federal securities regulations. While the general policy of the Audit Committee is to make such determinations at full Audit Committee meetings, the Audit Committee may delegate its pre-approval authority to one or more members of the Audit Committee, provided that all such decisions are presented to the full Audit Committee at its next regularly scheduled meeting.
