**Item 1.01 Entry Into a Material Definitive Agreement.**

***Purchase Agreement***

On September 4, 2014, Huron Consulting Group Inc. (the *Company*) entered into a Purchase Agreement (the *Purchase Agreement*) with Merrill Lynch, Pierce, Fenner & Smith Incorporated and J.P. Morgan Securities LLC (the *Representatives*), as the representatives of the several initial purchasers named therein (collectively, the *Initial Purchasers*) relating to the sale of \$225 million aggregate principal amount of the *Company*'s 1.25% Convertible Senior Notes due 2019 (the *Notes*), for resale to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended (the *Securities Act*). The *Company* also granted the *Initial Purchasers* an option to purchase, within a period of 13 days beginning on, and including, the date the *Notes* are first issued, up to an additional \$25 million aggregate principal amount of the *Notes* on the same terms and conditions.

The *Purchase Agreement* includes customary representations, warranties and covenants and customary closing conditions. Under the terms of the *Purchase Agreement*, the *Company* has agreed to indemnify the *Initial Purchasers* against certain liabilities.

The foregoing description of the *Purchase Agreement* is qualified in its entirety by reference to the *Purchase Agreement*, which is filed as Exhibit 10.1 to this Current Report on Form 8-K and is incorporated herein by reference.

***Convertible Note Hedge Transactions and Warrant Transactions***

In connection with the pricing of the *Notes*, on September 4, 2014, the *Company* entered into privately negotiated convertible note hedge transactions (together, the *Convertible Note Hedge Transactions*) with each of Bank of America, N.A. and J.P. Morgan Securities LLC, as an agent for JPMorgan Chase Bank, National Association, London Branch (together, the *Hedge Counterparties*). The *Convertible Note Hedge Transactions* cover, subject to customary anti-dilution adjustments, the number of shares of the *Company*'s common stock initially underlying the *Notes*. On September 4, 2014, the *Company* also entered into separate, privately negotiated warrant transactions (the *Warrant Transactions*) with each of the *Hedge Counterparties* collectively relating to the same number of shares of the *Company*'s common stock underlying the *Convertible Note Hedge Transactions*, subject to customary anti-dilution adjustments, with an initial strike price of approximately \$97.12 per share, subject to customary anti-dilution adjustments, which is approximately 55.0% higher than the closing price per share of the *Company*'s common stock on September 4, 2014. The warrants evidenced by the *Warrant Transactions* will be settled on a net-share basis. If the *Initial Purchasers* exercise their option to purchase additional *Notes*, the *Company* intends to enter into additional convertible note hedge transactions and additional warrant transactions with the *Hedge Counterparties*, which will initially cover, subject to customary anti-dilution adjustments, the number of shares of the *Company*'s common stock that will initially underlie the additional notes sold to the *Initial Purchasers*.

The *Convertible Note Hedge Transactions* are intended to generally reduce the potential dilution with respect to the *Company*'s common stock and/or offset any potential cash payments the *Company* is required to make in excess of the principal amount of converted *Notes*, as the case may be, upon any conversion of the *Notes* in the event that the price per share of the *Company*'s common stock is greater than the strike price of the *Convertible Note Hedge Transactions*. The *Warrant Transactions* could separately have a dilutive effect with respect to the *Company*'s common stock to the extent that the price per share of the *Company*'s common stock, as measured under the *Warrant Transactions*, exceeds the strike price of the warrants.

The *Company* expects to pay the *Hedge Counterparties* approximately \$37.91 million for the *Convertible Note Hedge Transactions* and expects to receive approximately \$21.26 million from the *Hedge Counterparties* for the *Warrant Transactions*, resulting in a net cost to the *Company* of approximately \$16.65 million.

The foregoing description of the Convertible Note Hedge Transactions and Warrant Transactions is qualified in its entirety by reference to the confirmations for the Convertible Note Hedge Transactions and Warrant Transactions with each of the Hedge Counterparties, which are filed as Exhibits 10.2, 10.3, 10.4, and 10.5 to this Current Report on Form 8-K and are incorporated herein by reference.

**Item 3.02 Unregistered Sales of Equity Securities.**

As described in Item 1.01 of this Current Report on Form 8-K, which is incorporated herein by reference, on September 4, 2014, the Company entered into the Warrant Transactions with each of the Option Counterparties, pursuant to which the Company issued warrants to acquire approximately 2.8 million shares of the Company's common stock at a strike price of \$97.12 per share. The number of warrants and the strike price are subject to adjustment under certain circumstances described in the confirmations for the Warrant Transactions. The Company offered and sold the warrants in reliance on the exemption from registration provided by Section 4(a)(2) of the Securities Act. Neither the warrants nor the underlying shares of common

stock issuable upon exercise of the warrants comprising the Warrant Transactions, if any, have been registered under the Securities Act, and accordingly neither may be offered or sold in the United States absent registration or an applicable exemption from registration requirements.

As described in Item 1.01 of this Current Report on Form 8-K, on September 4, 2014, the Company entered into the Purchase Agreement to issue up to \$250 million aggregate principal amount of Notes. The Company offered and sold the Notes to the Initial Purchasers in reliance on the exemption from registration provided by Section 4(a)(2) of the Securities Act, and the Initial Purchasers are relying, in connection with the initial resale of the Notes, on the exemption from registration under the Securities Act provided by Rule 144A under the Securities Act. The initial conversion rate of the Notes, which is subject to adjustment, is 12.5170 shares of the Company's common stock per \$1,000 principal amount of Notes. Upon conversion, the Company will deliver cash, shares of its common stock or a combination thereof, at the Company's election and subject to the terms of the indenture governing the Notes.

**Item 8.01 Other Events.**

On September 5, 2014, the Company issued a press release announcing the pricing of its offering of \$225 million aggregate principal amount of the Notes in a private offering to qualified institutional buyers pursuant to Rule 144A under the Securities Act. A copy of the press release is filed herewith as Exhibit 99.1 and is incorporated herein by reference.
