Dear Shareholder:

We hope you find the annual report for Prudential Global Short Duration High Yield Fund, Inc. informative and useful. The report covers performance for the 12-month period ended July 31, 2014.

Since market conditions change over time, we believe it is important to maintain a diversified portfolio of funds consistent with your tolerance for risk, time horizon, and financial goals.

Your financial advisor can help you create a diversified investment plan that may include funds covering all the basic asset classes and that reflects your personal investor profile and risk tolerance. Keep in mind, however, that diversification and asset allocation strategies do not assure a profit or protect against loss in declining markets.

Prudential Investments® is dedicated to helping you solve your toughest investment challenges whether it's capital growth, reliable income, or protection from market volatility and other risks. We offer the expertise of Prudential Financial's affiliated asset managers* that strive to be leaders in a broad range of funds to help you stay on course to the future you envision. They also manage money for major corporations and pension funds around the world, which means you benefit from the same expertise, innovation, and attention to risk demanded by today's most sophisticated investors.

Thank you for choosing the Prudential Investments family of funds.

Sincerely,

Stuart S. Parker, President

Prudential Global Short Duration High Yield Fund, Inc.

Your Fund's Performance (Unaudited)

Performance data quoted represent past performance and assume the reinvestment of all dividends. Past performance does not guarantee future results. An investor may obtain more recent performance data by visiting our website at www.prudentialfunds.com.

Investment Objective

The Fund seeks to provide a high level of current income by investing primarily in higher-rated, below-investment-grade fixed income instruments of issuers located around the world, including emerging markets.* The Fund seeks to maintain a weighted average portfolio duration of three years or less and a weighted average maturity of five years or less.

*There can be no guarantee the Fund will achieve its objective. Higher-rated high yield bonds, commonly referred to as junk bonds, are below investment grade and are considered speculative. They are rated Ba, B by Moody's Investors Service, Inc. (Moody's); BB, B by Standard & Poor's Ratings Services (S&P) or Fitch Ratings, Inc. (Fitch); or are comparably rated by another nationally recognized statistical rating organization (NRSRO), or if unrated, are considered by PIM to be of comparable quality.

Performance Snapshot as of 7/31/14

Price Per Share	Total Return For 12 Months Ended 7/31/14
\$18.45 (NAV)	6.85%
\$16.94 (Market Price)	7.39%

Total returns are based on changes in net asset value (NAV) or market price. NAV total return assumes the reinvestment of all distributions, including returns of capital, if any, at NAV. Market Price total return assumes the reinvestment of all distributions, including returns of capital, if any, in additional shares in accordance with the Fund's Dividend Reinvestment Plan.

Strategy and Performance Overview

How did the Fund perform?

For the 12-month reporting period that ended July 31, 2014, the **Prudential Global Short Duration High Yield Fund** s (the Fund) NAV per share declined by \$0.25 from \$18.70 to \$18.45. Including the reinvestment of dividends, the Fund returned 6.85%, underperforming the 7.16% return of the Barclays Global High Yield Ba/B 1-5 Year 1% Issuer Constrained Index. The Fund also underperformed the 9.68% return of the Lipper Closed End Global Income Funds Average. The Fund s market price declined by \$0.24, from \$17.18 to \$16.94 for the period. The Fund s market price total returns, including the reinvestment of dividends, was 7.42% for the period.

What were conditions like in the short-duration global high yield corporate bond market?

Global high yield bonds performed very well throughout the reporting period. The short duration, higher-quality sub-style of global high yield bonds, as measured by the Barclays Global High Yield Ba/B 1-5 Year 1% Issuer Constrained Index (the Index), also performed well, returning 7.16% for the reporting period.

Despite periodic bouts of volatility, the global high yield market was fueled during the period by a continuing search for yield, against a backdrop of strong fundamentals for high yield issuers and default rates well below historical averages. Average high yield bond prices rose \$1.34 while credit spreads—the amount of extra yield that high yield bonds provide over other bonds of similar duration—narrowed by roughly 100 basis points (a basis point is one-hundredth of a percentage point). The average yield to worst of the Index fell by approximately 85 bps to 4.31%. The yield to worst is the lowest potential yield that can be received on a bond without the issuer actually defaulting.

During the period, CCC-rated bonds performed best, returning 9.48%. Higher-quality tiers modestly underperformed, with BB-rated and B-rated bonds returning 7.12% and 7.38%, respectively. Insurance, banking, and non-U.S. sovereign debt were among the best performers, with each returning more than 8%. Media and entertainment, chemicals, and aerospace and defense all lagged, each returning less than 6%.

What strategies proved most beneficial to the Fund s performance?

Strong security selection within healthcare and pharmaceuticals and in metals added to relative performance.

In terms of individual issuer selection, the Fund s positions in cable companies **Numericable Group** and **Dish Network** contributed positively to performance, as did the French vegetable oil provider, **Bertin SA**.

In addition, the Fund benefited from its avoidance of the bonds of Ukrainian sovereign debt and Portuguese bank **Banco Espirito Santo SA**.

The Fund benefited from underweight positions relative to the Index in non-captive finance, building materials, and construction, which were sectors that underperformed the overall high yield market.

What strategies detracted most from the Fund's performance?

Underweight positions versus the Index in the banking, insurance, and non-U.S. sovereign debt sectors hurt performance, as these sectors outperformed the overall high yield market.

Security selection within the capital goods and technology sectors detracted from returns.

In terms of individual issuer selection, the Fund's overweight to gaming company **Caesars Entertainment** and its underweight in U.K. bank **Royal Bank of Scotland** were the largest individual detractors.

How did the Fund's leverage strategy affect its performance?

The Fund's use of leverage positively contributed to results as the returns of the securities purchased were in excess of the cost of borrowing.

As of July 31, 2014, the Fund had borrowed approximately \$316 million and was about 29.5% leveraged. During the reporting period, the average amount of leverage utilized by the Fund was about 27.9%.

(1) Cash of \$600,000 has been segregated to cover requirement for open forward foreign currency contracts as of July 31, 2014.

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in the three broad levels listed below.

Level 1 quoted prices generally in active markets for identical securities.

Level 2 other significant observable inputs including, but not limited to, quoted prices for similar securities, interest rates and yield curves, prepayment speeds, foreign currency exchange rates, and amortized cost.

Level 3 significant unobservable inputs for securities valued in accordance with Board approved fair valuation procedures.

The following is a summary of the inputs used as of July 31, 2014 in valuing such portfolio securities:

	Level 1	Level 2	Level 3
Investments in Securities			
Bank Loans	\$	\$ 73,356,323	\$ 9,092,978
Corporate Bonds		561,672,778	836,409
Foreign Bonds		418,531,638

Edgar Filing: Prudential Global Short Duration High Yield Fund, Inc. - Form N-CSR

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value:

	Bank Loans	Corporate Bonds	Foreign Bonds
Balance as of 7/31/13	\$ 2,993,078	\$	\$ 1,596,424
Realized gain (loss)	(2,044)		
Change in unrealized appreciation (depreciation)**	424,018	25,482	
Purchases	3,966,220		
Sales	2,044	(307,287)	
Accrued discount/premium	6,475		
Transfers into Level 3	1,703,187	1,118,214	
Transfers out of Level 3			(1,596,424)
Balance as of 7/31/14	\$ 9,092,978	\$ 836,409	\$

* Other financial instruments are derivative instruments not reflected in the Portfolio of Investments, such as futures, forwards and swaps contracts, which are recorded at the unrealized appreciation/depreciation on the instrument.

** Of which, \$449,500 was included in Net Assets relating to securities held at the reporting period end.

It is the Portfolio's policy to recognize transfers in and transfers out at the fair value as of the beginning of period. At the reporting period end, there was one Foreign Bond transferred out of Level 3 as a result of being priced by a vendor and one Corporate Bond and one Bank Loan transferred into Level 3 as a result of being priced using a single broker quote.

Level 3 securities as presented in the table above are being fair valued using pricing methodologies approved by the Board of Directors, which contain unobservable inputs. Such methodologies include, but are not limited to, using prices provided by a single broker/dealer, the cost of the investment, and broker quotes adjusted for changes in yields of comparable U.S. Government and other securities using fixed income securities valuation models.

Notes to Financial Statements

Prudential Global Short Duration High Yield Fund, Inc. (the Fund) is a diversified, closed-end management investment company, registered under the Investment Company Act of 1940, as amended, (1940 Act). The Fund was incorporated as a Maryland corporation on July 23, 2012. The Fund's investment objective is to provide a high level of current income.

Note 1. Accounting Policies

The following accounting policies conform to U.S. generally accepted accounting principles. The Fund consistently follows such policies in the preparation of its financial statements.

Security Valuation: The Fund holds securities and other assets that are fair valued at the close of each day the New York Stock Exchange (NYSE) is open for trading. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Board of Directors (the Board) has adopted Valuation Procedures for security valuation under which fair valuation responsibilities have been delegated to Prudential Investments LLC (PI or Manager). Under the current Valuation Procedures, the established Valuation Committee is responsible for supervising the valuation of portfolio securities and other assets. The Valuation Procedures permit the Fund to utilize independent pricing vendor services, quotations from market makers, and alternative valuation methods when market quotations are either not readily available or not deemed representative of fair value. A record of the Valuation Committee's actions is subject to the Board's review, approval, and ratification at its next regularly-scheduled quarterly meeting.

Various inputs determine how the Fund's investments are valued, all of which are categorized according to the three broad levels (Level 1, 2, or 3) detailed in the table following the Portfolio of Investments.

Common stocks, exchange-traded funds, and derivative instruments that are traded on a national securities exchange are valued at the last sale price as of the close of trading on the applicable exchange. Securities traded via NASDAQ are valued at the NASDAQ official closing price. To the extent these securities are valued at the last sale price or NASDAQ official closing price; they are classified as Level 1 in the fair value hierarchy except for exchange-traded and cleared swaps which are classified as Level 2 in the fair value hierarchy, as the prices marked at the official settle are not public.

Notes to Financial Statements

continued

In the event that no sale or official closing price on valuation date exists, these securities are generally valued at the mean between the last reported bid and asked prices, or at the last bid price in the absence of an asked price. These securities are classified as Level 2 in the fair value hierarchy, as the inputs are observable and considered to be significant to the valuation.

Common stocks traded on foreign securities exchanges are valued using pricing vendor services that provide model prices derived using adjustment factors based on information such as local closing price, relevant general and sector indices, currency fluctuations, depositary receipts, and futures, as applicable. Securities valued using such model prices are classified as Level 2 in the fair value hierarchy, as the adjustment factors are observable and considered to be significant to the valuation. Securities not valued using such model prices are valued in accordance with exchange-traded common stocks discussed above.

Investments in open-end, non-exchange-traded mutual funds are valued at their net asset values as of the close of the NYSE on the date of valuation. These securities are classified as Level 1 in the fair value hierarchy since they may be purchased or sold at their net asset values on the date of valuation.

Fixed income securities traded in the over-the-counter market are generally valued at prices provided by approved independent pricing vendors. The pricing vendors provide these prices after evaluating observable inputs including, but not limited to yield curves, yield spreads, credit ratings, deal terms, tranche level attributes, default rates, cash flows, prepayment speeds, broker/dealer quotations, and reported trades. Securities valued using such vendor prices are classified as Level 2 in the fair value hierarchy.

Over-the-counter derivative instruments are generally valued using pricing vendor services, which derive the valuation based on inputs such as underlying asset prices, indices, spreads, interest rates, and exchange rates. These instruments are categorized as Level 2 in the fair value hierarchy.

Securities and other assets that cannot be priced according to the methods described above are valued based on pricing methodologies approved by the Board. In the event that significant unobservable inputs are used when determining such valuations, the securities will be classified as Level 3 in the fair value hierarchy.

When determining the fair value of securities, some of the factors influencing the valuation include: the nature of any restrictions on disposition of the securities; assessment of the general liquidity of the securities; the issuer's financial condition and the markets in which it does business; the cost of the investment; the size of the holding and the capitalization of the issuer; the prices of any recent transactions or bids/offers for such securities or any comparable securities; any available analyst media or other reports or information deemed reliable by the investment adviser regarding the issuer or the markets or industry in which it operates. Using fair value to price securities may result in a value that is different from a security's most recent closing price and from the price used by other mutual funds to calculate their net asset values.

Restricted and Illiquid Securities: The Fund may invest in illiquid securities. Illiquid securities are those that, because of the absence of a readily available market or due to legal or contractual restrictions on resale, cannot be sold within seven days in the ordinary course of business at approximately the amount at which the Fund has valued the investment. Therefore, the Fund may find it difficult to sell illiquid securities at the time considered most advantageous by its Subadviser and may incur expenses that would not be incurred in the sale of securities that were freely marketable. Certain securities that would otherwise be considered illiquid because of legal restrictions on resale to the general public may be traded among qualified institutional buyers under Rule 144A of the Securities Act of 1933. These Rule 144A securities, as well as commercial paper that is sold in private placements under Section 4(2) of the Securities Act, may be deemed liquid by the Fund's Subadviser under the guidelines adopted by the Fund. However, the liquidity of the Fund's investments in Rule 144A securities could be impaired if trading does not develop or declines.

Forward Currency Contracts: A forward currency contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate between two parties. The Fund enters into forward currency contracts in order to hedge its exposure to changes in foreign currency exchange rates on its foreign portfolio holdings or specific receivables and payables denominated in a foreign currency. The contracts are valued daily at current exchange rates and any unrealized gain or loss is included in net unrealized appreciation or depreciation on foreign currencies. Gain or loss is realized on the settlement date of the contract equal to the difference between the settlement value of the original and negotiated forward contracts. This gain or loss, if any, is included in net realized gain (loss) on foreign currency transactions. Risks may arise upon entering into these contracts from the potential inability of the counterparties to meet the terms of their contracts. Forward currency contracts involve risks from currency exchange rate and credit risk in excess

Notes to Financial Statements

continued

of the amounts reflected on the Statement of Assets and Liabilities. The Fund's maximum risk of loss from counterparty credit risk is the net value of the cash flows to be received from the counterparty at the end of the contract's life.

Master Netting Arrangements: The Fund is subject to various Master Agreements, or netting arrangements, with select counterparties. A master netting arrangement between the Fund and the counterparty permits the Fund to offset amounts payable by the Fund to the same counterparty against amounts to be received; and by the receipt of collateral from the counterparty by the Fund to cover the Fund's exposure to the counterparty. However, there is no assurance that such mitigating factors are easily enforceable. The right to set-off exists when all the conditions are met such that each of the parties owes the other a determinable amount, the reporting party has the right to set-off the amount owed with the amount owed by the other party, the reporting party intends to set-off, and the right of set-off is enforceable by law. During the reporting period, no instances occurred where the right to set-off existed and management has not elected to offset.

The Fund is party to ISDA (International Swaps and Derivatives Association, Inc.) Master Agreements (Master Agreements) with certain counterparties that govern over-the-counter derivative and foreign exchange contracts entered into from time to time. The Master Agreements may contain provisions regarding, among other things, the parties' general obligations, representations, agreements, collateral requirements, events of default and early termination. With respect to certain counterparties, in accordance with the terms of the Master Agreements, collateral posted to the Fund is held in a segregated account by the Fund's custodian and with respect to those amounts which can be sold or re-pledged, are presented in the Portfolio of Investments. Collateral pledged by the Fund is segregated by the Fund's custodian and identified in the Portfolio of Investments. Collateral can be in the form of cash or debt securities issued by the U.S. Government or related agencies or other securities as agreed to by the Fund and the applicable counterparty. Collateral requirements are determined based on the Fund's net position with each counterparty. Termination events applicable to the Fund may occur upon a decline in the Fund's net assets below a specified threshold over a certain period of time. Termination events applicable to counterparties may occur upon a decline in the counterparty's long-term and short-term credit ratings below a specified level. In each case, upon occurrence, the other party may elect to terminate early and cause settlement of all derivative and foreign exchange contracts outstanding, including the payment of any

losses and costs resulting from such early termination, as reasonably determined by the terminating party. Any decision by one or more of the Fund's counterparties to elect early termination could impact the Fund's future derivative activity.

In addition to each instrument's primary underlying risk exposure (e.g. interest rate, credit, equity or foreign exchange, etc.), swap agreements involve, to varying degrees, elements of credit, market and documentation risk. Such risks involve the possibility that no liquid market for these agreements will exist, the counterparty to the agreement may default on its obligation to perform or disagree on the contractual terms in the agreement, and changes in net interest rates will be unfavorable. In connection with these agreements, securities may be identified or received as collateral from the counterparty in accordance with the terms of the respective swap agreements to provide or receive assets of value and serve as recourse in the event of default or bankruptcy/insolvency of either party. Such over-the-counter derivative agreements include conditions which, when materialized, give the counterparty the right to cause an early termination of the transactions under those agreements. Any election by the counterparty for early termination of the contract(s) may impact the amounts reported on financial statements.

As of July 31, 2014, the Fund has not met conditions under such agreements that give the counterparty the right to call for an early termination.

Forward currency contracts, written options, short sales, swaps and financial futures contracts involve elements of both market and credit risk in excess of the amounts reflected on the Statement of Assets and Liabilities. Such risks may be mitigated by engaging in master netting arrangements.

Loan Participations: The Fund may invest in loan participations. When the Fund purchases a loan participation, the Fund typically enters into a contractual relationship with the lender or third party selling such participations (Selling Participant), but not the borrower. As a result, the Fund assumes the credit risk of the borrower and any other persons interpositioned between the Fund and the borrower. The Fund may not directly benefit from the collateral supporting the senior loan in which it has purchased the loan participation.

Payment In Kind Securities: The Fund may invest in open market or receive pursuant to debt restructuring, securities that pay in kind (PIK) the interest due on such debt instruments. The PIK interest, computed at the contractual rate specified, is added to the existing principal balance of the debt when issued bonds have the same terms as the bond or recorded as a separate bond when terms are different from the existing debt, and is recorded as interest income. The interest rate on PIK debt is paid out over time.

Cash Flow Information: The Fund invests in securities and distributes dividends from net investment income, which are paid in cash or are reinvested at the discretion of stockholders. These activities are reported in the Statement of Changes in Net Assets and additional information on cash receipts and cash payments is presented in the Statement of Cash Flows.

Accounting practices that do not affect reporting activities on a cash basis include carrying investments at value, accruing income on PIK (payment-in-kind) securities and accreting discounts and amortizing premiums on debt obligations.

Securities Transactions and Net Investment Income: Securities transactions are recorded on the trade date. Realized gains or losses from security and currency transactions are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date. Interest income, including amortization of premium and accretion of discount on debt securities, as required, is recorded on the accrual basis. Expenses are recorded on the accrual basis, which may require the use of certain estimates by management, that may differ from actual.

Dividends and Distributions: The Fund intends to make a level dividend distribution each month to the holders of Common Stock. The level dividend rate may be modified by the Board from time to time, and will be based upon the past and projected performance and expenses of the Fund. The Fund intends to also make a distribution during or with respect to each calendar year (which may be combined with a regular monthly distribution), which will generally include any net investment income and net realized capital gain for the year not otherwise distributed.

PI has received an order from the Securities and Exchange Commission granting the Fund an exemption from Section 19(b) of the 1940 Act and Rule 19b-1 thereunder to permit certain closed-end funds managed by PI to include realized long-term capital gains as a part of their respective regular distributions to the holders of Common Stock more frequently than would otherwise be permitted by the 1940 Act (generally once per taxable year). The Fund intends to rely on this exemptive order. The Board may, at the request of PI, adopt a managed distribution policy.

Dividends and distributions to stockholders, which are determined in accordance with federal income tax regulations and which may differ from generally accepted accounting principles, are recorded on the ex-dividend date. Permanent book/tax

differences relating to income and gains are reclassified amongst undistributed net investment income, accumulated net realized gain or loss and paid-in capital in excess of par, as appropriate.

Organization and Offering Costs: PI has agreed to pay all of the Fund's organizational costs and such amount of the Fund's offering costs (other than sales load) that exceed \$0.04 per share of common stock. Organizational costs are expensed by the Fund as incurred.

Taxes: For federal income tax purposes, the Fund is treated as a separate taxpaying entity. It is the Fund's policy to continue to meet the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable net income and capital gains, if any, to its stockholders. Therefore, no federal income tax provision is required. Withholding taxes on foreign interest are recorded, net of reclaimable amounts, at the time the related income is earned.

Estimates: The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Note 2. Agreements

The Fund has a management agreement with PI. Pursuant to this agreement, PI has responsibility for all investment advisory services and supervises the subadviser's performance of such services. PI has entered into a subadvisory agreement with PIM. The subadvisory agreement provides that PIM will furnish investment advisory services in connection with the management of the Fund. In connection therewith, PIM is obligated to keep certain books and records of the Fund. PI pays for the services of PIM, the cost of compensation of officers of the Fund, occupancy and certain clerical and bookkeeping costs of the Fund. The Fund bears all other cost and expenses.

The management fee paid to PI is computed daily and payable monthly, at an annual rate of .85% of the average daily value of the Fund's investable assets. Investable assets refers to the net assets attributable to the outstanding Common Stock of the Fund plus the liquidation preference of any outstanding preferred stock issued by the Fund, the principal amount of any borrowings and the principal on any debt securities issued by the Fund.

PI and PIM are indirect, wholly-owned subsidiaries of Prudential Financial, Inc. (Prudential).

Note 3. Other Transactions with Affiliates

The Fund invests in the Prudential Core Taxable Money Market Fund (the Core Fund), a portfolio of the Prudential Investment Portfolios 2, registered under the 1940 Act, and managed by PI. Earnings from the Core Fund are disclosed on the Statement of Operations as affiliated dividend income.

Note 4. Fund Securities

Purchases and sales of portfolio securities, other than short-term investments, for the year ended July 31, 2014, aggregated \$745,152,663 and \$685,133,199, respectively.

Note 5. Distributions and Tax Information

Distributions to shareholders, which are determined in accordance with federal income tax regulations and which may differ from generally accepted accounting principles, are recorded on the ex-dividend date. In order to present distributions in excess of net investment income, accumulated net realized loss on investment and foreign currency transactions and paid-in capital in excess of par on the Statement of Assets and Liabilities that more closely represent their tax character, certain adjustments have been made to distributions in excess of net investment income and accumulated net realized loss on investment and foreign currency transactions. For the period ended July 31, 2014, the adjustments were to decrease distributions in excess of net investment income and increase accumulated net realized loss on investment and foreign currency transactions by \$3,901,432 due to differences in the treatment for book and tax purposes of premium amortization, certain transactions involving foreign currencies and paydown gains/losses. Net investment income, net realized gain (loss) on investment and foreign currency transactions and net assets were not affected by this change.

For the year ended July 31, 2014 and period ended July 31, 2013, the tax character of dividends paid as reflected in the Statement of Changes in Net Assets were \$61,385,819 and \$30,689,346 of ordinary income, respectively.

As of July 31, 2014, the accumulated undistributed earnings on a tax basis was \$2,642,039 of ordinary income. This differs from the amount shown on the Statement

Edgar Filing: Prudential Global Short Duration High Yield Fund, Inc. - Form N-CSR

of Assets and Liabilities primarily due to cumulative timing differences between financial and tax reporting.

The United States federal income tax basis of the Fund's investments and the net unrealized depreciation as of July 31, 2014 were as follows:

Tax Basis	Appreciation	Depreciation	Net Unrealized Depreciation	Other Cost Basis Adjustments	Total Net Unrealized Depreciation
\$1,087,174,679	\$7,339,247	\$(25,135,723)	\$(17,796,476)	\$158,254	\$(17,638,222)

The difference between book basis and tax basis is primarily attributable to deferred losses on wash sales and differences in the treatment of premium amortization for book and tax purposes. The other cost basis adjustments are primarily attributable to appreciation (depreciation) of foreign currencies and mark-to-market of receivables and payables.

For federal income tax purposes, the Fund had a capital loss carryforward as of July 31, 2014 of approximately \$9,927,000 which can be carried forward for an unlimited period. No capital gains distributions are expected to be paid to shareholders until net gains have been realized in excess of such losses.

Management has analyzed the Fund's tax positions and has concluded that no provision for income tax is required in the Fund's financial statements for the current reporting period. The Fund's federal and state income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state departments of revenue.

Note 6. Capital

There are 1 billion shares of \$0.001 par value Common Stock authorized. Prior to commencement of operations on December 26, 2012, the Fund issued 5,240 shares of Common Stock to Prudential at an aggregate purchase price of \$100,084. As of July 31, 2014, Prudential owned 5,899 shares of Common Stock of the Fund.

For the year ended July 31, 2014, the Fund did not issue any shares of Common Stock in connection with the Fund's dividend reinvestment plan.

On February 1, 2013, an additional 3,902,005 shares of Common Stock were issued in connection with the exercise of the underwriters over-allotment option. An amount of \$74,528,296 (net of sales load of \$3,511,805) was received pursuant to this allotment.

Notes to Financial Statements

continued

An amount of \$156,080 (\$0.04 per share of the Common Stock) will be used to offset any offering costs as described in Note 1 of the Notes to the Financial Statements.

During the period ended July 31, 2013, the Fund issued 37,000,000 shares of Common Stock in its initial public offering. These shares were all issued at \$20.00 per share before a sales load of \$0.90 per share. Offering costs of approximately \$1,298,000 were accrued and offset against the proceeds of the offering and have been charged to paid-in capital in excess of par.

Note 7. Borrowings

The Fund currently is a party to a committed credit facility (the credit facility) with a financial institution. The credit facility provides for a maximum commitment of approximately \$378 million. Interest on any borrowings under the credit facility is payable at the negotiated rates. The Fund's obligations under the credit facility are secured by the assets of the Fund segregated for the purpose of securing the amount borrowed. The purpose of the credit facility is to provide the Fund with portfolio leverage and to meet its general cash flow requirements.

During the year ended July 31, 2014, the Fund utilized the credit facility and had an average daily outstanding loan balance of \$298,490,411 during the 365 day period that the facility was utilized, at an average interest rate of 0.91%. The maximum amount of loan outstanding during the period was \$316,000,000. There was a balance of \$316,000,000 outstanding at July 31, 2014.

Note 8. Subsequent Event

Dividends and Distributions: On August 28, 2014 the Fund declared monthly dividends of \$0.1250 per share payable on September 30, 2014, October 31, 2014 and November 28, 2014, respectively, to shareholders of record on September 19, 2014, October 17, 2014, and November 20, 2014, respectively. The ex-dividend dates were September 17, 2014, October 15, 2014, and November 18, 2014, respectively.

These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of July 31, 2014, by correspondence with the custodian, transfer agent and brokers or by other appropriate auditing procedures when replies from brokers were not received. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Fund as of July 31, 2014, and the results of its operations, the cash flows, the changes in its net assets and the financial highlights for the periods described in the first paragraph above, in conformity with U.S. generally accepted accounting principles.

Tax Information

(Unaudited)

For the year ended July 31, 2014, the Fund reports the maximum amount allowable but not less than 60.87% as interest related dividends in accordance with Section 871(k)(1) and 881(e)(1) of the Internal Revenue Code.

Interest-related dividends do not include any distributions paid by a fund with respect to Fund tax years beginning after July 31, 2014. Consequently, this provision expires with respect to such distributions paid after the Fund's fiscal year end.

In January 2015, you will be advised on IRS Form 1099-DIV or substitute 1099-DIV as to the federal tax status of dividends received by you in calendar year 2014.

Dividend Reinvestment Plan. Unless a holder of Common Stock elects to receive cash by contacting Computershare Trust Company, N.A. (the Plan Administrator), all dividends declared on Common Stock will be automatically reinvested by the Plan Administrator pursuant to the Fund's Automatic Dividend Reinvestment Plan (the Plan), in additional Common Stock. The holders of Common Stock who elect not to participate in the Plan will receive all dividends and other distributions (together, a Dividend) in cash paid by check mailed directly to the stockholder of record (or, if the Common Stock is held in street or other nominee name, then to such nominee) by the Plan Administrator as dividend disbursing agent. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the Dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared Dividend. Such notice will be effective with respect to a particular Dividend. Some brokers may automatically elect to receive cash on behalf of the holders of Common Stock and may re-invest that cash in additional Common Stock.

The Plan Administrator will open an account for each common stockholder under the Plan in the same name in which such common stockholder's Common Stock is registered. Whenever the Fund declares a Dividend payable in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in Common Stock. The Common Stock will be acquired by the Plan Administrator for the participants' accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized Common Stock from the Fund (Newly Issued Common Stock) or (ii) by purchase of outstanding Common Stock on the open market (Open-Market Purchases) on the NYSE or elsewhere. If, on the payment date for any Dividend, the closing market price of the Common Stock plus per share fees (as defined below) is equal to or greater than the NAV per share of Common Stock (such condition being referred to as market premium), the Plan Administrator will invest the Dividend amount in Newly Issued Common Stock on behalf of the participants. The number of Newly Issued Common Stock to be credited to each participant's account will be determined by dividing the dollar amount of the Dividend by the NAV per share of Common Stock on the payment date, provided that, if the NAV per share of Common Stock is less than or equal to 95% of the closing market price per share of Common Stock on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per Common Stock on the payment date. If, on the payment date for any Dividend, the NAV per share of Common Stock is greater than the closing market value per share of Common Stock plus per share fees (such condition being referred to as market discount), the Plan Administrator will invest the Dividend amount in shares of Common Stock acquired on behalf of the participants in Open-Market Purchases.

Per share fees include any applicable brokerage commissions the Plan Administrator is required to pay.

In the event of a market discount on the payment date for any Dividend, the Plan Administrator will have until the last business day before the next date on which the Common Stock trades on an ex-dividend basis or 30 days after the payment date for such Dividend, whichever is sooner (the Last Purchase Date), to invest the Dividend amount in Common Stock acquired in Open-Market Purchases on behalf of participants. If, before the Plan Administrator has completed its Open-Market Purchases, the market price per share of Common Stock exceeds the NAV per share of Common Stock, the average per share purchase price paid by the Plan Administrator for Common Stock may exceed the NAV per share of the Common Stock, resulting in the acquisition of fewer shares of Common Stock than if the Dividend had been paid in Newly Issued Common Stock on the Dividend payment date. Because of the foregoing difficulty with respect to Open-Market Purchases, the Plan provides that if the Plan Administrator is unable to invest the full Dividend amount in Open-Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making Open-Market Purchases and may invest the uninvested portion of the Dividend amount in Newly Issued Common Stock at the NAV per share of Common Stock at the close of business on the Last Purchase Date, provided that, if the NAV is less than or equal to 95% of the then current market price per share of Common Stock, the dollar amount of the Dividend will be divided by 95% of the market price on the payment date for purposes of determining the number of shares issuable under the Plan.

The Plan Administrator maintains all stockholder accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by stockholders for tax records. Common Stock in the account of each Plan participant will be held by the Plan Administrator on behalf of the Plan participant, and each stockholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Administrator will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instructions of the participants.

In the case of the holders of Common Stock such as banks, brokers or nominees that hold shares of Common Stock for others who are the beneficial owners, the Plan Administrator will administer the Plan on the basis of the number of shares of Common Stock certified from time to time by the record stockholder's name and held for the account of beneficial owners who participate in the Plan.

Other Information

(Unaudited) continued

The Plan Administrator's service fee, if any, and expenses for administering the plan will be paid for by the Fund. If a participant elects by written, Internet or telephonic notice to the Plan Administrator to have the Plan Administrator sell part or all of the shares held by the Plan Administrator in the participant's account and remit the proceeds to the participant, the Plan Administrator is authorized to deduct a \$15.00 transaction fee plus a \$0.12 per share fee. If a participant elects to sell his or her shares of Common Stock, the Plan Administrator will process all sale instructions received no later than five business days after the date on which the order is received by the Plan Administrator, assuming the relevant markets are open and sufficient market liquidity exists (and except where deferral is required under applicable federal or state laws or regulations). Such sale will be made through the Plan Administrator's broker on the relevant market and the sale price will not be determined until such time as the broker completes the sale. In every case the price to the participant shall be the weighted average sale price obtained by the Plan Administrator's broker net of fees for each aggregate order placed by the participant and executed by the broker. To maximize cost savings, the Plan Administrator will seek to sell shares in round lot transactions. For this purpose the Plan Administrator may combine a participant's shares with those of other selling participants.

There will be no brokerage charges with respect to shares of Common Stock issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred in connection with Open-Market Purchases. Each participant will be charged a per share fee (currently \$0.05 per share) on all Open-Market Purchases. The automatic reinvestment of Dividends will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such Dividends. See Tax Matters. Participants that request a sale of Common Stock through the Plan Administrator are subject to brokerage commissions.

Each participant may terminate the participant's account under the Plan by so notifying the Plan Administrator via the Plan Administrator's website at www.computershare.com/investor, by filling out the transaction request form located at the bottom of the participant's Statement and sending it to the Plan Administrator or by calling the Plan Administrator. Such termination will be effective immediately if the participant's notice is received by the Plan Administrator prior to any dividend or distribution record date. Upon any withdrawal or termination, the Plan Administrator will cause to be delivered to each terminating participant a statement of holdings for the appropriate number of the Fund's whole book-entry shares of Common Stock and a check for the cash adjustment of any fractional share at the market value of the Fund's shares of Common Stock as of the close of business on the date the termination is effective less any applicable fees. In the event a participant's notice of

termination is on or after a record date (but before payment date) for an account whose dividends are reinvested, the Plan Administrator, in its sole discretion, may either distribute such dividends in cash or reinvest them in shares of Common Stock on behalf of the terminating participant. In the event reinvestment is made, the Plan Administrator will process the termination as soon as practicable, but in no event later than five business days after the reinvestment is completed. The Plan may be terminated by the Fund upon notice in writing mailed to each participant at least 30 days prior to any record date for the payment of any dividend or distribution by the Fund.

The Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence or questions concerning the Plan should be directed to the Plan Administrator, Computershare Trust Company, N.A., P.O. Box 43078, Providence, RI 02940-3078 or by calling (toll free) 800-451-6788.

Approval of Advisory Agreements

The Fund's Board of Directors

The Board of Directors (the *Board*) of Prudential Global Short Duration High Yield Fund, Inc. (the *Fund*) consists of thirteen individuals, eleven of whom are not interested persons of the Fund, as defined in the Investment Company Act of 1940, as amended (the *1940 Act*) (the *Independent Directors*). The Board is responsible for the oversight of the Fund and its operations, and performs the various duties imposed on the Directors of investment companies by the 1940 Act. The Independent Directors have retained independent legal counsel to assist them in connection with their duties. The Chair of the Board is an Independent Director. The Board has established two standing committees: the Audit Committee and the Nominating and Governance Committee. Each committee is chaired by, and composed of, Independent Directors.

Annual Approval of the Fund's Advisory Agreements

As required under the 1940 Act, the Board determines annually whether to renew the Fund's management agreement with Prudential Investments LLC (*PI*) and the Fund's subadvisory agreement with Prudential Investment Management, Inc. (*PIM*). In considering the renewal of the agreements, the Board, including all of the Independent Directors, met on June 9-11, 2014 and approved the renewal of the agreements through July 31, 2015, after concluding that the renewal of the agreements was in the best interests of the Fund and its shareholders.

In advance of the meetings, the Board requested and received materials relating to the agreements, and had the opportunity to ask questions and request further information in connection with its consideration. Among other things, the Board considered comparative fee information from PI and PIM. Also, the Board considered comparisons with other mutual funds in relevant Peer Universes and Peer Groups, as is further discussed below.

In approving the agreements, the Board, including the Independent Directors advised by independent legal counsel, considered the factors it deemed relevant, including the nature, quality and extent of services provided by PI and PIM, the performance of the Fund, the profitability of PI and its affiliates, expenses and fees, and the potential for economies of scale that may be shared with the Fund and its shareholders as the Fund's assets grow. In their deliberations, the Directors did not identify any single factor which alone was responsible for the Board's decision to approve the agreements with respect to the Fund. In connection with its deliberations, the Board considered information provided by PI throughout the year at regular Board meetings, presentations from portfolio managers and other information, as well as information furnished at or in advance of the meetings on June 9-11, 2014.

Prudential Global Short Duration High Yield Fund, Inc.

Approval of Advisory Agreements (continued)

The Directors determined that the overall arrangements between the Fund and PI, which serves as the Fund's investment manager pursuant to a management agreement, and between PI and PIM, which serves as the Fund's subadviser pursuant to the terms of a subadvisory agreement with PI, are in the best interests of the Fund and its shareholders in light of the services performed, fees charged and such other matters as the Directors considered relevant in the exercise of their business judgment.

The material factors and conclusions that formed the basis for the Directors' reaching their determinations to approve the continuance of the agreements are separately discussed below.

Nature, Quality and Extent of Services

The Board received and considered information regarding the nature, quality and extent of services provided to the Fund by PI and PIM. The Board considered the services provided by PI, including but not limited to the oversight of the subadviser for the Fund, as well as the provision of fund recordkeeping, compliance, and other services to the Fund. With respect to PI's oversight of the subadviser, the Board noted that PI's Strategic Investment Research Group (SIRG), which is a business unit of PI, is responsible for monitoring and reporting to PI's senior management on the performance and operations of the subadviser. The Board also considered that PI pays the salaries of all of the officers and non-Independent Directors of the Fund. The Board also considered the investment subadvisory services provided by PIM, including investment research and security selection, as well as adherence to the Fund's investment restrictions and compliance with applicable Fund policies and procedures. The Board considered PI's evaluation of the subadviser, as well as PI's recommendation, based on its review of the subadviser, to renew the subadvisory agreement.

The Board considered the qualifications, backgrounds and responsibilities of PI's senior management responsible for the oversight of the Fund and PIM, and also considered the qualifications, backgrounds and responsibilities of PIM's portfolio managers who are responsible for the day-to-day management of the Fund's portfolio. The Board was provided with information pertaining to PI's and PIM's organizational structure, senior management, investment operations, and other relevant information pertaining to both PI and PIM. The Board also noted that it received favorable compliance reports from the Fund's Chief Compliance Officer (CCO) as to both PI and PIM. The Board noted that PIM is affiliated with PI.

Visit our website at www.prudentialfunds.com

The Board concluded that it was satisfied with the nature, extent and quality of the investment management services provided by PI and the subadvisory services provided to the Fund by PIM, and that there was a reasonable basis on which to conclude that the Fund benefits from the services provided by PI and PIM under the management and subadvisory agreements.

Costs of Services and Profits Realized by PI

The Board was provided with information on the profitability of PI and its affiliates in serving as the Fund's investment manager. The Board discussed with PI the methodology utilized in assembling the information regarding profitability and considered its reasonableness. The Board recognized that it is difficult to make comparisons of profitability from fund management contracts because comparative information is not generally publicly available and is affected by numerous factors, including the structure of the particular adviser, the types of funds it manages, its business mix, numerous assumptions regarding allocations and the adviser's capital structure and cost of capital. The Board separately considered information regarding the profitability of the subadviser, an affiliate of PI. Taking these factors into account, the Board concluded that the profitability of PI and its affiliates in relation to the services rendered was not unreasonable.

Economies of Scale

In 2013, PI and the Board retained an outside business consulting firm, in order to assist the Board in its consideration of the renewal of the management and subadvisory agreements, by reviewing management fee breakpoint usage and trends in management fees across the mutual fund industry. The consulting firm's analysis and conclusions with respect to the Funds' management fee structures were presented to the Board and PI at the December 3-5, 2013 meeting, and were discussed extensively by the Board and PI over the following two quarters.

The Board noted that the management fee schedule for the Fund does not contain breakpoints that would reduce the fee rate on assets above specified levels. The Board received and discussed information concerning whether PI realizes economies of scale as the Fund's assets grow beyond current levels. The Board considered that, as a closed-end fund, the Fund would not be expected to have inflows of capital that might produce increasing economies of scale. The Board recognized the inherent limitations of any analysis of economies of scale, stemming largely from the Board's understanding that most of PI's costs are not specific to any individual funds, but rather are incurred across a variety of products and services. In light of the Fund's current size, performance and expense structure, the Board concluded that the absence of breakpoints in the Fund's fee schedule is acceptable at this time.

Approval of Advisory Agreements (continued)

Other Benefits to PI and PIM

The Board considered potential ancillary benefits that might be received by PI and PIM and their affiliates as a result of their relationship with the Fund. The Board concluded that potential benefits to be derived by PI included fees received by affiliates of PI for serving as the Fund's securities lending agent, as well as benefits to its reputation or other intangible benefits resulting from PI's association with the Fund. The Board concluded that the potential benefits to be derived by PIM included the ability to use soft dollar credits, as well as the potential benefits consistent with those generally resulting from an increase in assets under management, specifically, potential access to additional research resources and benefits to its reputation. The Board concluded that the benefits derived by PI and PIM were consistent with the types of benefits generally derived by investment managers and subadvisers to mutual funds.

Performance of the Fund / Fees and Expenses

The Board considered certain additional specific factors and made related conclusions relating to the historical performance of the Fund for the one-year period ended December 31, 2013. The Board considered that the Fund commenced operations on December 26, 2012 and that longer-term performance was not yet available.

The Board also considered the Fund's actual management fee, as well as the Fund's net total expense ratio, for the fiscal year ended July 31, 2013. The Board considered the management fee for the Fund as compared to the management fee charged by PI to other funds and the fee charged by other advisers to comparable mutual funds in a Peer Group. The actual management fee represents the fee rate actually paid by Fund shareholders and includes any fee waivers or reimbursements. The net total expense ratio for the Fund represents the actual expense ratio incurred by Fund shareholders.

The mutual funds included in the Peer Universe (the Lipper Closed End Global Income Funds Performance Universe) and the Peer Group were objectively determined by Lipper Inc. (Lipper), an independent provider of mutual fund data. The comparisons placed the Fund in various quartiles, with the first quartile being the best 25% of the mutual funds (for performance, the best performing mutual funds and, for expenses, the lowest cost mutual funds).

The section below summarizes key factors considered by the Board and the Board's conclusions regarding the Fund's performance, fees and overall expenses. The table sets forth gross performance comparisons (which do not reflect the impact on performance of fund expenses, or any subsidies, expense caps or waivers that may be

applicable) with the Peer Universe, actual management fees with the Peer Group (which reflect the impact of any subsidies or fee waivers), and net total expenses with the Peer Group, each of which were key factors considered by the Board.

<i>Performance</i>	<i>1 Year</i> 1 st Quartile	<i>3 Years</i> N/A	<i>5 Years</i> N/A	<i>10 Years</i> N/A
	<i>Actual Management Fees: 2nd Quartile</i>			
	<i>Net Total Expenses: 1st Quartile</i>			

The Board noted that Fund outperformed its benchmark index for the one-year period.

The Board concluded that, in light of the Fund's recent inception date, it would be in the best interests of the Fund and its shareholders to allow the Fund's performance record to continue to develop and to renew the agreements.

The Board concluded that the management fees (including subadvisory fees) and total expenses were reasonable in light of the services provided.

* * *

After full consideration of these factors, the Board concluded that the approval of the agreements was in the best interests of the Fund and its shareholders.

Item 2 Code of Ethics See Exhibit (a)

As of the end of the period covered by this report, the registrant has adopted a code of ethics (the Section 406 Standards for Investment Companies - Ethical Standards for Principal Executive and Financial Officers) that applies to the registrant's Principal Executive Officer and Principal Financial Officer; the registrant's Principal Financial Officer also serves as the Principal Accounting Officer.

The registrant hereby undertakes to provide any person, without charge, upon request, a copy of the code of ethics. To request a copy of the code of ethics, contact the registrant 973-367-7521, and ask for a copy of the Section 406 Standards for Investment Companies - Ethical Standards for Principal Executive and Financial Officers.

Item 3 Audit Committee Financial Expert

The registrant's Board has determined that Mr. Stephen P. Munn, member of the Board's Audit Committee is an audit committee financial expert, and that he is independent, for purposes of this Item.

Item 4 Principal Accountant Fees and Services

(a) Audit Fees

For the fiscal year ended July 31, 2014 and the fiscal period ended July 31, 2013, KPMG, the Registrant's principal accountant, billed the Registrant \$44,625 and \$114,500, respectively for professional services rendered for the audit of the Registrant's annual financial statements or services that are normally provided in connection with statutory and regulatory filings. The Registrant commenced operations on December 26, 2012, therefore no information is available prior to the fiscal period ended July 31, 2013.

(b) Audit-Related Fees

None.

(c) Tax Fees

None.

(d) All Other Fees

None.

(e) (1) Audit Committee Pre-Approval Policies and Procedures

THE PRUDENTIAL MUTUAL FUNDS

AUDIT COMMITTEE POLICY

on

Pre-Approval of Services Provided by the Independent Accountants

The Audit Committee of each Prudential Mutual Fund is charged with the responsibility to monitor the independence of the Fund's independent accountants. As part of this responsibility, the Audit Committee must pre-approve any independent accounting firm's engagement to render audit and/or permissible non-audit services, as required by law. In evaluating a proposed engagement of the independent accountants, the Audit Committee will assess the effect that the engagement might reasonably be expected to have on the accountant's independence. The Committee's evaluation will be based on:

a review of the nature of the professional services expected to be provided,

a review of the safeguards put into place by the accounting firm to safeguard independence, and

periodic meetings with the accounting firm.

Policy for Audit and Non-Audit Services Provided to the Funds

On an annual basis, the scope of audits for each Fund, audit fees and expenses, and audit-related and non-audit services (and fees proposed in respect thereof) proposed to be performed by the Fund's independent accountants will be presented by the Treasurer and the independent accountants to the Audit Committee for review and, as appropriate, approval prior to the initiation of such services. Such presentation shall be accompanied by confirmation by both the Treasurer and the independent accountants that the proposed services will not adversely affect the independence of the independent accountants. Proposed services shall be described in sufficient detail to enable the Audit Committee to assess the appropriateness of such services and fees, and the compatibility of the provision of such services with the auditor's independence. The Committee shall receive periodic reports on the progress of the audit and other services which are approved by the Committee or by the Committee Chair pursuant to authority delegated in this Policy.

The categories of services enumerated under *Audit Services*, *Audit-related Services*, and *Tax Services* are intended to provide guidance to the Treasurer and the independent accountants as to those categories of services which the Committee believes are generally consistent with the independence of the independent accountants and which the Committee (or the Committee Chair) would expect upon the presentation of specific proposals to pre-approve. The enumerated categories are not intended as an exclusive list of audit, audit-related or tax services, which the Committee (or the Committee Chair) would consider for pre-approval.

Audit Services

The following categories of audit services are considered to be consistent with the role of the Fund's independent accountants:

Annual Fund financial statement audits

Seed audits (related to new product filings, as required)

SEC and regulatory filings and consents

Audit-related Services

The following categories of audit-related services are considered to be consistent with the role of the Fund's independent accountants:

Accounting consultations

Fund merger support services

Agreed Upon Procedure Reports

Attestation Reports

Other Internal Control Reports

Individual audit-related services that fall within one of these categories and are not presented to the Audit Committee as part of the annual pre-approval process will be subject to pre-approval by the Committee Chair (or any other Committee member on whom this responsibility has been delegated) so long as the estimated fee for those services does not exceed \$50,000.

Tax Services

The following categories of tax services are considered to be consistent with the role of the Fund's independent accountants:

Tax compliance services related to the filing or amendment of the following:

Federal, state and local income tax compliance; and,

Sales and use tax compliance

Timely RIC qualification reviews

Tax distribution analysis and planning

Tax authority examination services

Tax appeals support services

Accounting methods studies

Fund merger support services

Tax consulting services and related projects

Individual tax services that fall within one of these categories and are not presented to the Audit Committee as part of the annual pre-approval process will be subject to pre-approval by the Committee Chair (or any other Committee member on whom this responsibility has been delegated) so long as the estimated fee for those services does not exceed \$50,000.

Other Non-audit Services

Certain non-audit services that the independent accountants are legally permitted to render will be subject to pre-approval by the Committee or by one or more Committee members to whom the Committee has delegated this authority and who will report to the full Committee any pre-approval decisions made pursuant to this Policy. Non-audit services presented for pre-approval pursuant to this paragraph will be accompanied by a confirmation from both the Treasurer and the independent accountants that the proposed services will not adversely affect the independence of the independent accountants.

Proscribed Services

The Fund's independent accountants will not render services in the following categories of non-audit services:

Bookkeeping or other services related to the accounting records or financial statements of the Fund

Financial information systems design and implementation

Appraisal or valuation services, fairness opinions, or contribution-in-kind reports

Actuarial services

Internal audit outsourcing services

Management functions or human resources

Broker or dealer, investment adviser, or investment banking services

Legal services and expert services unrelated to the audit

Any other service that the Public Company Accounting Oversight Board determines, by regulation, is impermissible.

Pre-approval of Non-Audit Services Provided to Other Entities Within the Prudential Fund Complex

Certain non-audit services provided to Prudential Investments LLC or any of its affiliates that also provide ongoing services to the Prudential Mutual Funds will be subject to pre-approval by the Audit Committee. The only non-audit services provided to these entities that will require pre-approval are those related directly to the operations and financial reporting of the Funds. Individual projects that are not presented to the Audit Committee as part of the annual pre-approval process will be subject to pre-approval by the Committee Chair (or any other Committee member on whom this responsibility has been delegated) so long as the estimated fee for those services does not exceed \$50,000. Services presented for pre-approval pursuant to this paragraph will be accompanied by a confirmation from both the Treasurer and the independent accountants that the proposed services will not adversely affect the independence of the independent accountants.

Although the Audit Committee will not pre-approve all services provided to Prudential Investments LLC and its affiliates, the Committee will receive an annual report from the Fund's independent accounting firm showing the aggregate fees for all services provided to Prudential Investments and its affiliates.

(e) (2) Percentage of services referred to in 4(b)-(4)(d) that were approved by the audit committee

Not applicable.

(f) Percentage of hours expended attributable to work performed by other than full time employees of principal accountant if greater than 50%.

The percentage of hours expended on the principal accountant's engagement to audit the registrant's financial statements for the most recent fiscal year that were attributed to work performed by persons other than the principal accountant's full-time, permanent employees was 0%.

(g) Non-Audit Fees

Not applicable to Registrant for the fiscal years 2014 and 2013. The aggregate non-audit fees billed by KPMG for services rendered to the registrant's investment adviser and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the registrant for the fiscal years 2014 and 2013 was \$0 respectively.

(h) Principal Accountant's Independence

Not applicable as KPMG has not provided non-audit services to the registrant's investment adviser and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the registrant that were not pre-approved pursuant to Rule 2-01(c)(7)(ii) of Regulation S-X.

Item 5 Audit Committee of Listed Registrants

The registrant has a separately designated standing audit committee (the Audit Committee) established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The members of the Audit Committee are Stephen P. Munn (chair), Kevin J. Bannon, Robin B. Smith, Ellen S. Alberding, Douglas McCorkindale, James E. Quinn, and Richard A. Redeker (ex-officio).

Item 6 Schedule of Investments The schedule is included as part of the report to shareholders filed under Item 1 of this Form.

Item 7 Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies

PROXY VOTING POLICIES OF THE SUBADVISER

PRUDENTIAL FIXED INCOME

Our policy is to vote proxies in the best economic interest of our clients. In the case of pooled accounts, our policy is to vote proxies in the best economic interest of the pooled account. Our proxy voting policy contains detailed voting guidelines on a wide variety of issues commonly voted upon by shareholders. These guidelines reflect our judgment of how to further the best economic interest of our clients through the shareholder or debt-holder voting process.

Prudential Fixed Income invests primarily in debt securities, thus there are few traditional proxies voted by us. We generally vote with management on routine matters such as the appointment of accountants or the election of directors. From time to time, ballot issues arise that are not addressed by our policy or circumstances may suggest a vote not in accordance with our

established guidelines. In these cases, voting decisions are made on a case-by-case basis by the applicable portfolio manager taking into consideration the potential economic impact of the proposal. If a security is held in multiple accounts and two or more portfolio managers are not in agreement with respect to a particular vote, our proxy voting committee will determine the vote. Not all ballots are received by us in advance of voting deadlines, but when ballots are received in a timely fashion, we strive to meet our voting obligations. We cannot, however, guarantee that every proxy will be voted prior to its deadline.

With respect to non-US holdings, we take into account additional restrictions in some countries that might impair our ability to trade those securities or have other potentially adverse economic consequences. We generally vote non-US securities on a best efforts basis if we determine that voting is in the best economic interest of our clients.

Occasionally, a conflict of interest may arise in connection with proxy voting. For example, the issuer of the securities being voted may also be a client of ours. When we identify an actual or potential conflict of interest between the firm and our clients with respect to proxy voting, the matter is presented to senior management who will resolve such issue in consultation with the compliance and legal departments.

Any client may obtain a copy of our proxy voting policy, guidelines and procedures as well as the proxy voting records for that client's securities, by contacting the client service representative responsible for the client's account.

Item 8 Portfolio Managers of Closed-End Management Investment Companies

Portfolio Managers

The following individuals have primary responsibility for the day-to-day implementation of the Fund's investment strategy.

Paul Appleby, CFA, is a Managing Director and co-Head of Prudential Fixed Income's Leveraged Finance Team, which includes the US and European High Yield Bond and Bank Loan sector teams. Previously, he was Director of Credit Research and Chief Equity Strategist for Prudential Financial's proprietary portfolios. Mr. Appleby was also a high yield bond credit analyst and worked in Prudential Financial's private placement group. Before joining Prudential Financial in 1987, he was a strategic planner for Amerada Hess. Mr. Appleby received a BS in Economics from The Wharton School of the University of Pennsylvania and an MBA from the Sloan School at the Massachusetts Institute of Technology (MIT). He holds the Chartered Financial Analyst (CFA) designation.

Robert Cignarella, CFA, is a Managing Director and co-Head of Prudential Fixed Income's Leveraged Finance Team, which includes the US and European High Yield Bond and Bank Loan sector teams. Previously, Mr. Cignarella was a managing director and co-head of high yield and bank loans at Goldman Sachs Asset Management. He also held positions as a high yield portfolio manager and a high yield and investment grade credit analyst. Earlier, he was a financial analyst in the investment banking division of Salomon Brothers. Mr. Cignarella received an MBA from the University of Chicago, and a bachelor's degree in operations research and industrial engineering from Cornell University. He holds the Chartered Financial Analyst (CFA) designation.

Michael J. Collins, CFA, is a Managing Director and Senior Investment Officer for Prudential Fixed Income. He is also senior portfolio manager for Core Plus, Absolute Return, and other multi-sector Fixed Income strategies. Previously, Mr. Collins was a High Yield Portfolio Manager and Fixed Income Investment Strategist. He continues to work closely with the high yield team and other credit teams on portfolio strategy and construction. Earlier he was a credit research analyst, covering investment grade and high yield corporate credits. Additionally, he developed proprietary quantitative international interest rate and currency valuation models for our global bond unit. Mr. Collins began his career at Prudential Financial in 1986 as a software applications designer. He received a BS in Mathematics and Computer Science from the State University of New York at Binghamton and an MBA in Finance from New York University. Mr. Collins holds the Chartered Financial Analyst (CFA) designation and is a Fellow of the Life Management Institute (FLMI).

Daniel Thorogood, CFA, is a Vice President for Prudential Fixed Income's High Yield Team, responsible for portfolio strategy and managing high yield bond allocations in multi-sector portfolios. Prior to joining the High Yield Team, Mr. Thorogood was a member of Prudential Fixed Income's Quantitative Research and Risk Management Group. Mr. Thorogood was the head of a team of portfolio analysts who support the firm's credit-related strategies, including investment grade corporate, high yield corporate, and emerging market debt sectors. The team was primarily responsible for performing detailed portfolio analysis relative to benchmarks, monitoring portfolio risk exposures, and analyzing performance through proprietary return attribution models. Prior to joining the Quantitative Research and Risk Management Group in 1996, Mr. Thorogood was Associate Manager in Prudential Fixed Income's Trade Support and Operations Unit. He received a BS in Finance from Florida State University and an MBA in Finance from Rutgers University. Mr. Thorogood holds the Chartered Financial Analyst (CFA) designation.

Terence Wheat, CFA, is a Principal, global high yield portfolio manager and an emerging markets corporate portfolio manager at Prudential Fixed Income. Previously, he was a high yield portfolio manager for Prudential Fixed Income's High Yield Team for six years. Mr. Wheat also spent 12 years as a credit analyst in Prudential Fixed Income's Credit Research Group, where he was responsible for the consumer products, gaming and leisure, retail, supermarkets, and textile/apparel industries. Mr. Wheat covered high yield bonds from 1998 to 2003, and investment grade issues from 1993 to 1998. Earlier, he worked for Prudential's Financial Management Group. Mr. Wheat joined Prudential Financial in 1988. He received a BS in Accounting and an MBA from Rider University. Mr. Wheat holds the Chartered Financial Analyst (CFA) designation.

Robert Spano, CFA, CPA, is a Principal and a high yield portfolio manager for Prudential Fixed Income's High Yield Bond Team. Prior to assuming his current position in 2007, Mr. Spano was a high yield credit analyst for 10 years in Prudential Fixed Income's Credit Research Group, covering the health, lodging, consumer, gaming, restaurants, and chemical industries. Earlier, he worked as an investment analyst in the Project Finance Unit of Prudential Financial's private placement group. Mr. Spano also held positions in the internal audit and risk management units of

Prudential Securities. He received a BS in Accounting from the University of Delaware and an MBA from New York University. Mr. Spano holds the Chartered Financial Analyst (CFA) and Certified Public Accountant (CPA) designations.

Ryan Kelly, CFA, is a Principal and a high yield portfolio manager for Prudential Fixed Income's High Yield Team. Prior to his current position, Mr. Kelly was a senior high yield credit analyst in Prudential Fixed Income's Credit Research Group, covering the automotive, energy, technology and finance sectors. Previously, Mr. Kelly was a senior high yield bond analyst at Muzinich & Company. Earlier, he was an investment banker at PNC Capital Markets/PNC Bank where he worked in the high yield bond, mergers and acquisition (M&A) and loan syndication groups. Mr. Kelly began his career in investment banking at Chase Manhattan Bank, working on project finance transactions and M&A advisory mandates for the electric power sector. He received a BA in Economics from Michigan State University and holds the Chartered Financial Analyst (CFA) designation.

Brian Clapp, CFA, is a Principal and a high yield portfolio manager for Prudential Fixed Income's High Yield Team. Mr. Clapp was previously a senior high yield credit analyst on Prudential Fixed Income's Credit Research team. He joined Prudential Financial in 2006 from Muzinich & Co. While there, Mr. Clapp held several positions, including portfolio manager for a high yield bond based hedge fund, hedge fund credit analyst, and credit analyst covering the chemical, industrial, and transportation sectors. Earlier at Triton Partners, an institutional high yield fund manager, Mr. Clapp was a credit analyst covering the metals and mining, healthcare, homebuilding, building products and transportation sectors. He received a BS in Finance from Bryant College, and an MS in Computational Finance, and an MBA from Carnegie Mellon. Mr. Clapp holds the Chartered Financial Analyst (CFA) designation.

Other Accounts Managed by the Portfolio Managers. The following tables set forth certain information with respect to the portfolio managers for the Fund. Unless noted otherwise, all information is provided as of July 31, 2014.

The table below identifies, for each portfolio manager, the number of accounts (other than the Fund) for which the portfolio manager has day-to-day management responsibilities and the total assets in such accounts, within each of the following categories: registered investment companies, other pooled investment vehicles, and other accounts. For each category, the number of accounts and total assets in the accounts whose fees are based on performance is indicated in *italic typeface*. In addition is information about portfolio manager ownership of Fund securities. The Ownership of Fund Securities column shows the dollar range of equity securities of the Fund beneficially owned by the portfolio manager.

Compensation and Conflicts Disclosure:

Prudential Investment Management, Inc. (PIM)

COMPENSATION. The base salary of an investment professional in the Prudential Fixed Income unit of PIM is based on market data relative to similar positions as well as the past performance, years of experience and scope of responsibility of the individual. Incentive compensation, including the annual cash bonus, the long-term equity grant and grants under Prudential Fixed Income's long-term incentive plan, is primarily based on such person's contribution to Prudential Fixed Income's goal of providing investment performance to clients consistent with portfolio objectives, guidelines and risk parameters and market-based data such as compensation trends and levels of overall compensation for similar positions in the asset management industry. In addition, an investment professional's qualitative contributions to the organization are considered in determining incentive compensation. Incentive compensation is not solely based on the performance of, or value of assets in, any single account or group of client accounts.

An investment professional's annual cash bonus is paid from an annual incentive pool. The pool is developed as a percentage of Prudential Fixed Income's operating income and is refined by business metrics, such as:

business development initiatives, measured primarily by growth in operating income;

the number of investment professionals receiving a bonus; and

investment performance of portfolios relative to appropriate peer groups or market benchmarks.

Long-term compensation consists of Prudential Financial restricted stock and grants under the long-term incentive plan. Grants under the long-term incentive plan are participation interests in notional accounts with a beginning value of a specified dollar amount. The value attributed to these notional accounts increases or decreases over a defined period of time based, in part, on the performance of investment composites representing a number of Prudential Fixed Income's most frequently marketed investment strategies. An investment composite is an aggregation of accounts with similar investment strategies. The long-term incentive plan is designed to more closely align compensation with investment performance and the growth of Prudential Fixed Income's business. Both the restricted stock and participation interests are subject to vesting requirements.

CONFLICTS OF INTEREST. Like other investment advisers, Prudential Fixed Income is subject to various conflicts of interest in the ordinary course of its business. Prudential Fixed Income strives to identify potential risks, including conflicts of interest, that are inherent in its business, and conducts annual conflict of interest reviews. When actual or potential conflicts of interest are identified, Prudential Fixed Income seeks to address such conflicts through one or more of the following methods:

elimination of the conflict;

disclosure of the conflict; or

management of the conflict through the adoption of appropriate policies and procedures.

Prudential Fixed Income follows the policies of Prudential Financial, Inc. (Prudential Financial) on business ethics, personal securities trading by investment personnel, and information barriers. Prudential Fixed Income has adopted a code of ethics, allocation policies and conflicts of interest policies, among others, and has adopted supervisory procedures to monitor compliance with its policies. Prudential Fixed Income cannot guarantee, however, that its policies and procedures will detect and prevent, or assure disclosure of, each and every situation in which a conflict may arise.

Side-by-Side Management of Accounts and Related Conflicts of Interest. Prudential Fixed Income's side-by-side management of multiple accounts can create conflicts of interest. Examples are detailed below, followed by a discussion of how Prudential Fixed Income addresses these conflicts.

Performance Fees Prudential Fixed Income manages accounts with asset-based fees alongside accounts with performance-based fees. This side-by-side

management may be deemed to create an incentive for Prudential Fixed Income and its investment professionals to favor one account over another. Specifically, Prudential Fixed Income could be considered to have the incentive to favor accounts for which it receives performance fees, and possibly take greater investment risks in those accounts, in order to bolster performance and increase its fees.

Affiliated accounts Prudential Fixed Income manages accounts on behalf of its affiliates as well as unaffiliated accounts. Prudential Fixed Income could be considered to have an incentive to favor accounts of affiliates over others.

Large accounts large accounts typically generate more revenue than do smaller accounts and certain of Prudential Fixed Income's strategies have higher fees than others. As a result, a portfolio manager could be considered to have an incentive when allocating scarce investment opportunities to favor accounts that pay a higher fee or generate more income for Prudential Fixed Income.

Long only and long/short accounts Prudential Fixed Income manages accounts that only allow it to hold securities long as well as accounts that permit short selling. Prudential Fixed Income may, therefore, sell a security short in some client accounts while holding the same security long in other client accounts. These short sales could reduce the value of the securities held in the long only accounts. In addition, purchases for long only accounts could have a negative impact on the short positions.

Securities of the same kind or class Prudential Fixed Income may buy or sell for one client account securities of the same kind or class that are purchased or sold for another client at prices that may be different. Prudential Fixed Income may also, at any time, execute trades of securities of the same kind or class in one direction for an account and in the opposite direction for another account due to differences in investment strategy or client direction. Different strategies trading in the same securities or types of securities may appear as inconsistencies in Prudential Fixed Income's management of multiple accounts side-by-side.

Financial interests of investment professionals Prudential Fixed Income investment professionals may invest in investment vehicles that it advises. Also, certain of these investment vehicles are options under the 401(k) and deferred compensation plans offered by Prudential Financial. In addition, the value of grants under Prudential Fixed Income's long-term incentive plan is affected by the performance of certain client accounts. As a result, Prudential Fixed Income investment professionals may have financial interests in accounts managed by Prudential Fixed Income or that are related to the performance of certain client accounts.

Non-discretionary accounts or models Prudential Fixed Income provides non-discretionary investment advice and non-discretionary model portfolios to some clients and manages others on a discretionary basis. Trades in non-discretionary accounts could occur before, in concert with, or after Prudential Fixed Income executes similar trades in its discretionary accounts. The non-discretionary

clients may be disadvantaged if Prudential Fixed Income delivers the model investment portfolio or investment advice to them after it initiates trading for the discretionary clients, or vice versa.

How Prudential Fixed Income Addresses These Conflicts of Interest. Prudential Fixed Income has developed policies and procedures designed to address the conflicts of interest with respect to its different types of side-by-side management described above.

The head of Prudential Fixed Income and its chief investment officer periodically review and compare performance and performance attribution for each client account within its various strategies.

In keeping with Prudential Fixed Income's fiduciary obligations, its policy with respect to trade aggregation and allocation is to treat all of its accounts fairly and equitably over time. Prudential Fixed Income's trade management oversight committee, which generally meets quarterly, is responsible for providing oversight with respect to trade aggregation and allocation. Prudential Fixed Income has compliance procedures with respect to its aggregation and allocation policy that include independent monitoring by its compliance group of the timing, allocation and aggregation of trades and the allocation of investment opportunities. In addition, its compliance group reviews a sampling of new issue allocations and related documentation each month to confirm compliance with the allocation procedures. Prudential Fixed Income's compliance group reports the results of the monitoring processes to its trade management oversight committee. Prudential Fixed Income's trade management oversight committee reviews forensic reports of new issue allocation throughout the year so that new issue allocation in each of its strategies is reviewed at least once during each year. This forensic analysis includes such data as: (i) the number of new issues allocated in the strategy; (ii) the size of new issue allocations to each portfolio in the strategy; and (iii) the profitability of new issue transactions. The results of these analyses are reviewed and discussed at Prudential Fixed Income's trade management oversight committee meetings. Prudential Fixed Income's trade management oversight committee also reviews forensic reports on the allocation of trading opportunities in the secondary market. The procedures above are designed to detect patterns and anomalies in Prudential Fixed Income's side-by-side management and trading so that it may assess and improve its processes.

Prudential Fixed Income has policies and procedures that specifically address its side-by-side management of long/short and long only portfolios. These policies address potential conflicts that could arise from differing positions between long/short and long only portfolios. In addition, lending opportunities with respect to securities for which the market is demanding a slight premium rate over normal market rates are allocated to long only accounts prior to allocating the opportunities to long/short accounts.

Conflicts Related to Prudential Fixed Income's Affiliations. As an indirect wholly-owned subsidiary of Prudential Financial, Prudential Fixed Income is part of a diversified, global financial services organization. Prudential Fixed Income is affiliated with many types of U.S. and non-U.S. financial service providers, including insurance companies, broker-dealers, commodity trading advisors, commodity pool operators and other investment advisers. Some of its employees are officers of some of these affiliates.

Conflicts Arising Out of Legal Restrictions. Prudential Fixed Income may be restricted by law, regulation or contract as to how much, if any, of a particular security it may purchase or sell on behalf of a client, and as to the timing of such purchase or sale. These restrictions may apply as a result of its relationship with Prudential Financial and its other affiliates. For example, Prudential Fixed Income's holdings of a security on behalf of its clients may, under some SEC rules, be aggregated with the holdings of that security by other Prudential Financial affiliates. These holdings could, on an aggregate basis, exceed certain reporting thresholds that are monitored, and Prudential Fixed Income may restrict purchases to avoid exceeding these thresholds. In addition, Prudential Fixed Income could receive material, non-public information with respect to a particular issuer and, as a result, be unable to execute transactions in securities of that issuer for its clients. For example, Prudential Fixed Income's bank loan team often invests in private bank loans in connection with which the borrower provides material, non-public information, resulting in restrictions on trading securities issued by those borrowers. Prudential Fixed Income has procedures in place to carefully consider whether to intentionally accept material, non-public information with respect to certain issuers. Prudential Fixed Income is generally able to avoid receiving material, non-public information from its affiliates and other units within PIM by maintaining information barriers. In some instances, it may create an isolated information barrier around a small number of its employees so that material, non-public information received by such employees is not attributed to the rest of Prudential Fixed Income.

Conflicts Related to Outside Business Activity. From time to time, certain of Prudential Fixed Income employees or officers may engage in outside business activity, including outside directorships. Any outside business activity is subject to prior approval pursuant to Prudential Fixed Income's personal conflicts of interest and outside business activities policy. Actual and potential conflicts of interest are analyzed during such approval process. Prudential Fixed Income could be restricted in trading the securities of certain issuers in client portfolios in the unlikely event that an employee or officer, as a result of

outside business activity, obtains material, nonpublic information regarding an issuer. The head of Prudential Fixed Income serves on the board of directors of the operator of an electronic trading platform. Prudential Fixed Income has adopted procedures to address the conflict relating to trading on this platform. The procedures include independent monitoring by Prudential Fixed Income's chief investment officer and chief compliance officer and reporting on Prudential Fixed Income's use of this platform to the President of PIM.

Conflicts Related to Investment of Client Assets in Affiliated Funds. Prudential Fixed Income may invest client assets in funds that it manages or subadvises for an affiliate. Prudential Fixed Income may also invest cash collateral from securities lending transactions in these funds. These investments benefit both Prudential Fixed Income and its affiliate.

PICA General Account. Because of the substantial size of the general account of The Prudential Insurance Company of America (PICA), trading by PICA's general account, including Prudential Fixed Income's trades on behalf of the account, may affect market prices. Although Prudential Fixed Income doesn't expect that PICA's general account will execute transactions that will move a market frequently, and generally only in response to unusual market or issuer events, the execution of these transactions could have an adverse effect on transactions for or positions held by other clients.

Conflicts Related to Securities Holdings and Other Financial Interests

Securities Holdings. PIM, Prudential Financial, PICA's general account and accounts of other affiliates of Prudential Fixed Income (collectively, affiliated accounts) hold public and private debt and equity securities of a large number of issuers and may invest in some of the same companies as other client accounts but at different levels in the capital structure. These investments can result in conflicts between the interests of the affiliated accounts and the interests of Prudential Fixed Income's clients. For example: (i) Affiliated accounts can hold the senior debt of an issuer whose subordinated debt is held by Prudential Fixed Income's clients or hold secured debt of an issuer whose public unsecured debt is held in client accounts. In the event of restructuring or insolvency, the affiliated accounts as holders of senior debt may exercise remedies and take other actions that are not in the interest of, or are adverse to, other clients that are the holders of junior debt. (ii) To the extent permitted by applicable law, Prudential Fixed Income may also invest client assets in offerings of securities the proceeds of which are used to repay debt obligations held in affiliated accounts or other client accounts. Prudential Fixed Income's interest in having the debt repaid creates a conflict of interest. Prudential Fixed Income has adopted a refinancing policy to address this conflict. Prudential Fixed Income may be unable to invest client assets in the securities of certain issuers as a result of the investments described above.

Conflicts Related to the Offer and Sale of Securities. Certain of Prudential Fixed Income's employees may offer and sell securities of, and interests in, commingled funds that it manages or subadvises. There is an incentive for Prudential Fixed Income's employees to offer these securities to investors regardless of whether the investment is appropriate for such investor since increased assets in these vehicles will result in increased advisory fees to it. In addition, such sales could result in increased compensation to the employee.

Conflicts Related to Long-Term Compensation. The performance of many client accounts is not reflected in the calculation of changes in the value of participation interests under Prudential Fixed Income's long-term incentive plan. This may be because the composite representing the strategy in which the account is managed is not one of the composites included in the calculation or because the account is excluded from a specified composite due to guideline restrictions or other factors. As a result of the long-term incentive plan, Prudential Fixed Income's portfolio managers from time to time have financial interests related to the investment performance of some, but not all, of the accounts they manage. To address potential conflicts related to these financial interests, Prudential Fixed Income has procedures, including trade allocation and supervisory review procedures, designed to ensure that each of its client accounts is managed in a manner that is consistent with Prudential Fixed Income's fiduciary obligations, as well as with the account's investment objectives, investment strategies and restrictions. Specifically, Prudential Fixed Income's chief investment officer reviews performance among similarly managed accounts to confirm that performance is consistent with expectations. The results of this review process are discussed at meetings of Prudential Fixed Income's trade management oversight committee.

Other Financial Interests. Prudential Fixed Income and its affiliates may also have financial interests or relationships with issuers whose securities it invests in for client accounts. These interests can include debt or equity financing, strategic corporate relationships or investments, and the offering of investment advice in various forms. For example, Prudential Fixed Income may invest client assets in the securities of issuers that are also its advisory clients.

In general, conflicts related to the securities holdings and financial interests described above are addressed by the fact that Prudential Fixed Income makes investment decisions for each client independently considering the best economic interests of such client.

Conflicts Related to Valuation and Fees.

When client accounts hold illiquid or difficult to value investments, Prudential Fixed Income faces a conflict of interest when making recommendations regarding the value of such investments since its management fees are generally based on the value of assets under management. Prudential Fixed Income believes that its valuation policies and procedures mitigate this conflict effectively and enable it to value client assets fairly and in a manner that is consistent with the client's best interests.

Conflicts Related to Securities Lending Fees

When Prudential Fixed Income manages a client account and also serves as securities lending agent for the account, it could be considered to have the incentive to invest in securities that would yield higher securities lending rates. This conflict is mitigated by the fact that Prudential Fixed Income's advisory fees are generally based on the value of assets in a client's account. In addition, Prudential Fixed Income's securities lending function has a separate reporting line to its chief operating officer (rather than its chief investment officer).
