Mylan Highlights Clear Value Creation to Perrigo Shareholders

Available Through its Offer

*Offer Represents a Highly Compelling Multiple and Significant Accretion
to Perrigo Shareholders*

Mylan to Host Conference Call and Webcast Today at 5:00 p.m. ET

HERTFORDSHIRE, England and PITTSBURGH, Oct. 13, 2015 Mylan N.V. (Nasdaq: MYL), a leading global pharmaceutical company, will today at 5:00 p.m. ET host a conference call and webcast to review the clear value to be created for Perrigo Company plc (NYSE: PRGO; TASE) shareholders through Mylan's offer to acquire the company. The call will be hosted by Mylan's Executive Chairman Robert J. Coury, CEO Heather Bresch and CFO John Sheehan.

Mylan will review a comprehensive presentation which outlines how Mylan's offer delivers to Perrigo shareholders an attractive premium and immediate accretion, while also immediately achieving Perrigo's stated business strategy and reducing its future performance risk. Mylan shareholders have recognized the value of, and already supported, the combination, so the focus of the presentation is solely on how it benefits Perrigo shareholders. Key highlights from the presentation include:

MULTIPLE MATH IS CLEAR AND COMPELLING: Mylan's offer for Perrigo represents a 19-22x multiple to Perrigo's estimated 2015 calendar year adjusted EBITDA using both Mylan's current share price and its share price on April 7, 2015, the day before Mylan first made its offer public. This is at the high end of comparable deals in the sector over the past few years. Mylan believes this fundamental reality is why no other bidder has emerged in the six months since Mylan first announced its proposal to acquire Perrigo.

PERRIGO'S STANDALONE SHARE PRICE WOULD LIKELY BE SUBSTANTIALLY LOWER TODAY ABSENT MYLAN'S BID: As the market and the healthcare sector have shifted, Mylan believes that Perrigo's share price has unquestionably been supported by its offer. Based on comparable companies, Mylan believes that Perrigo's current hypothetical unaffected stock price would be between approximately \$117 and \$139, with an average of approximately \$129². This is \$32 lower than Perrigo's current price and \$36 lower than Perrigo's price on April 7, 2015.

THE OFFER IS SIGNIFICANTLY ACCRETIVE TO EARNINGS, GROWTH AND VALUE CREATION FOR PERRIGO SHAREHOLDERS: Using Perrigo's own analysis in its September 2015 presentation to investors, Mylan will demonstrate that its offer is immediately accretive to Perrigo shareholders. The accretion significantly increases if Perrigo shareholders decide to reinvest the \$75 per share in cash they will receive back into the combined company. Perrigo's math also shows that a combined Mylan + Perrigo would have higher long-term adjusted diluted EPS growth, as Perrigo's standalone long-term adjusted diluted EPS growth is decelerating. Furthermore, at a range of pro forma P/E Multiples, using Perrigo's math, the transaction results in immediate value creation for Perrigo shareholders with the value per share increasing over time as synergies are achieved.

RECEIVE A PREMIUM OR PAY A PREMIUM: Perrigo shareholders will need to consider the compelling value of the \$6.5 billion implied premium³ being offered in contrast to Perrigo's own uncertain standalone future and stated strategy of delivering a premium to other parties to support its growth going forward. This is exacerbated by the fact that Perrigo's own numbers indicate its organic revenues have turned negative in fiscal year 2015⁴, underscoring its need to pursue an uncertain acquisition strategy.

PERRIGO EARNINGS DEPEND SIGNIFICANTLY ON A THIRD PARTY ROYALTY, WHICH IS EXPECTED TO BE UNDER PRESSURE FROM POTENTIAL COMPETING THERAPIES:

Concern over Perrigo's core business is only heightened when its reliance on the Tysabri[®] royalty for its adjusted diluted earnings per share is examined. Mylan estimates that the revenue stream from Perrigo's specialty sciences segment (primarily comprised of the Tysabri[®] royalty) represents approximately 28% of Perrigo's adjusted diluted EPS for calendar year 2015⁵. This highly priced product in an increasingly competitive therapeutic category is expected to be under pressure from potential competing therapies. On a pro-forma basis, Mylan expects the specialty sciences segment (primarily Tysabri[®]) to represent less than 10% of the adjusted diluted EPS for the combined company for calendar year 2015⁶.

Mylan's Executive Chairman Robert J. Coury commented, "We are now entering the final stages of our offer for Perrigo and are confident that Perrigo shareholders will support us by tendering their shares and making this attractive offer a reality. We believe shareholders recognize the compelling value of our offer, which includes a significant cash component, and that they understand the exciting growth potential of the combined company. By using Perrigo's own published numbers from its recent defensive presentations, we demonstrate clearly in our presentation that the offer delivered to Perrigo shareholders is the best available opportunity for value creation, which is why we believe no alternative has been or will be presented from a third party. Further, we believe that our offer is superior to Perrigo's so-called 'base plus, plus, plus' strategy, given its risks and uncertainties. We very much look forward to speaking with Perrigo's shareholders in these final weeks and, with their support, soon welcoming Perrigo, Omega and their employees to Mylan in November."

Under the terms of Mylan's offer, Perrigo shareholders will receive \$75 in cash and 2.3 Mylan ordinary shares for each Perrigo ordinary share. On September 14, 2015 Mylan officially commenced its formal offer to acquire all outstanding ordinary shares of Perrigo.

The offer is being made in accordance with Mylan's announcement (dated April 24, 2015 and amended on April 29, 2015 and on August 13, 2015) pursuant to Rule 2.5 of Irish Takeover Rules that set forth Mylan's legally binding commitment to commence an offer and the Offer to Exchange / Prospectus (being the offer document for the purposes of the Irish Takeover Rules) dated September 14, 2015. The offer and withdrawal rights are scheduled to expire at 1:00 P.M. (Irish time)/8:00 A.M. (New York City time) on November 13, 2015, unless the offer is extended with the consent of the Irish Takeover Panel. The acceptance condition for the offer requires greater than 50% of Perrigo ordinary shares to have been tendered into the offer.

A copy of the Offer to Exchange/Prospectus and other related materials have been mailed to Perrigo shareholders and the Offer to Exchange/Prospectus is available at perrigotransaction.mylan.com.

Factors that could cause or contribute to such differences include, but are not limited to: uncertainties related to the Perrigo Proposal, including as to the timing of the offer and a compulsory acquisition, whether Perrigo will cooperate with Mylan and whether Mylan will be able to consummate the offer and a compulsory acquisition, the possibility that competing offers will be made, the possibility that the conditions to the consummation of the offer will not be satisfied, and the possibility that Mylan will be unable to obtain regulatory approvals for the offer or be required, as a condition to obtaining regulatory approvals, to accept conditions that could reduce the anticipated benefits of the offer; the ability to meet expectations regarding the accounting and tax treatments of a transaction relating to the Perrigo Proposal and the EPD Transaction; changes in relevant tax and other laws, including but not limited to changes in healthcare and pharmaceutical laws and regulations in the U.S. and abroad; the integration of Perrigo and the EPD Business being more difficult, time-consuming, or costly than expected; operating costs, customer loss, and business disruption (including, without limitation, difficulties

NON-GAAP FINANCIAL MEASURES

This communication includes the presentation and discussion of certain financial information that differs from what is reported under GAAP. Mylan's non-GAAP financial measures,

including, but not limited to, adjusted diluted earnings per share (adjusted diluted EPS), are presented in order to supplement investors' and other readers' understanding and assessment of Mylan's financial performance. Mylan has also presented certain non-GAAP financial measures for Perrigo, including, but not limited to, adjusted diluted EPS and adjusted EBITDA, which have been taken from published sources. Management uses non-GAAP financial measures internally for forecasting, budgeting and measuring its operating performance. In addition, primarily due to acquisitions, Mylan believes that an evaluation of its ongoing operations (and comparisons of its current operations with historical and future operations) would be difficult if the disclosure of its financial results were limited to financial measures prepared only in accordance with GAAP. Also, Mylan has provided below reconciliations of such non-GAAP financial measures to the most directly comparable GAAP financial measures, other than Perrigo's 2015E adjusted diluted EPS company guidance and Thomson Reuters consensus estimates of adjusted EBITDA which cannot be reconciled as they are from a third party source. Mylan does not endorse or adopt Thomson Reuters consensus estimates. Investors and other readers are encouraged to review the related GAAP financial measures and the reconciliations of the non-GAAP measures to their most directly comparable GAAP measures, and investors and other readers should consider non-GAAP measures only as supplements to, not as substitutes for or as superior measures to, the measures of financial performance prepared in accordance with GAAP.

Below is a reconciliation of forecasted GAAP net earnings and GAAP diluted EPS for Mylan to Mylan's adjusted net earnings and adjusted diluted EPS for the twelve months ended December 31, 2015:

The reconciliation below is based on management's estimate of adjusted net earnings and adjusted diluted EPS for the twelve months ending December 31, 2015. Mylan expects certain known GAAP amounts for 2015, as presented in the reconciliation below. Other GAAP charges, including those related to potential litigation, asset impairments and restructuring programs that would be excluded from the adjusted results are possible, but their amounts are dependent on numerous factors that we currently cannot ascertain with sufficient certainty or are presently unknown. These GAAP charges are dependent upon future events and valuations that have not yet occurred or been performed. The unaudited forecasted amounts presented below are stated in millions, except for earnings per share data.

- ¹ Multiple range based on Public Filings and Thomson Reuters consensus estimates as of October 9, 2015, and assumes Mylan stock price as of October 9, 2015, Mylan's Average Share price as of the last 30 trading days prior to October 9, 2015 and Mylan's stock price as of April 7, 2015, the day prior to the release of the initial Rule 2.4 filing. Adjusted EBITDA is a non-GAAP financial measure. Perrigo's Adjusted EBITDA reflects CY2015E Perrigo adjusted EBITDA of \$1.6bn per Thomson Reuters consensus estimates as of April 7, 2015 and October 9, 2015. Mylan does not endorse or adopt Thomson Reuters consensus estimates, which are used for illustrative purposes only. Nothing in this statement is intended to be a profit forecast or a target. Cash and debt as of latest Perrigo Annual Report on Form 10-K filed August 13, 2015 of \$0.8bn and \$5.3bn, respectively. Assumes 147mm diluted Perrigo shares outstanding.
- ² Hypothetical unaffected share price is based on the average of three calculation methodologies: 1) Change in S&P Pharmaceuticals Index since April 7, 2015 applied to Perrigo's April 7, 2015 stock price, 2) Change in Selected Peer 2016E P/E Multiple since April 7, 2015 applied to Perrigo's 2016E P/E multiple as of April 7, 2015 and 3) Change in Perrigo's Proxy Peers' 2016E P/E Multiple since April 7, 2015 applied to Perrigo's 2016E P/E multiple as of April 7, 2015. 2016E P/E multiple calculated as share price divided by 2016E Thomson Reuters consensus estimate adjusted diluted EPS as of October 9, 2015. Selected Peer Average 2016E P/E Multiple based on average of Thomson Reuters's current estimates for the 2016E P/E Multiple of each relevant peer and multiplied by Thomson Reuters current estimate of 2016E adjusted diluted EPS of \$8.90 for Perrigo to give the hypothetical unaffected share price. Selected peers consist of Valeant, Mallinckrodt, Endo, Jazz, Teva, Akorn and Mead Johnson. Perrigo's public Proxy Peers Average 2016E P/E Multiple based on average of Thomson Reuters's current estimates for the 2016E P/E Multiple of each relevant peer and multiplied by Thomson Reuters current estimate of 2016E adjusted diluted EPS of \$8.90 for Perrigo to give the hypothetical unaffected share price. Perrigo's Peers per Perrigo's definitive proxy statement, filed September 25, 2015, and consist of Abbvie, Mallinckrodt, Actavis, Mead Johnson, Allergan, Mylan, Bristol-Myers Squibb, Regeneron, Celgene, Cubist, Shire, United Therapeutics, Endo, Valeant, Hospira, Zoetis, and Jazz Pharmaceuticals. Excludes Allergan due to sale of generics business to Teva as well as recently acquired Actavis, Cubist and Hospira. Thomson Reuters consensus estimates as of October 9, 2015. Mylan does not endorse or adopt Thomson Reuters consensus estimates, which are used for illustrative purposes only. Nothing in this statement is intended to be a profit forecast or a target. Adjusted diluted EPS is a non-GAAP financial measure.
- ³ Premium calculated as the difference between the value of Mylan's offer for Perrigo of \$173 per Perrigo ordinary share on October 9, 2015 and Perrigo's average implied hypothetical unaffected share price of \$129 multiplied by 147mm of diluted Perrigo ordinary shares, also as of October 9, 2015. For further detail on the computation of Perrigo's average implied hypothetical unaffected share price please refer to footnote 2.
- ⁴ Growth rates for organic revenues for Perrigo represent year-on-year organic revenue growth on a fiscal year basis for Perrigo based on Perrigo's organic revenue presented on Page 23 of Perrigo's September 17, 2015 investor presentation, entitled "Responding to Mylan's Inadequate Tender Offer".
- ⁵ Tysabri® royalty as a percentage of Perrigo's adjusted diluted EPS assumes ~\$314mm net income impact of Tysabri® in CY2015. Net income impact calculated as post tax adjusted EBITDA assuming 1% tax rate of Tysabri® and FY15 revenue contribution of 6% (per page 12 of Perrigo's investor presentation dated September 17, 2015, titled "Responding to Mylan's Inadequate Tender Offer") of Tysabri® applied to CY15 revenue for Perrigo of \$5,550 million based on midpoint of Perrigo's guidance. Adjusted diluted EPS impact of Tysabri® is calculated assuming the above mentioned net income impact divided by Perrigo's 2015 weighted average diluted share count of 144mm, per Perrigo's guidance, resulting in \$2.18 Tysabri® impact per share. Percentage Tysabri® impact on adjusted diluted EPS assumes Perrigo standalone adjusted diluted EPS of \$7.75 (midpoint of 2015E adjusted diluted EPS company guidance). Adjusted diluted EPS is a non-GAAP financial measure.
- ⁶ Adjusted diluted EPS impact of Tysabri® on Pro-Forma adjusted diluted EPS assumes Pro-Forma adjusted diluted EPS of the combined company of \$4.45 in CY2015. Pro-Forma adjusted net income is calculated as the sum of the following items: Mylan adjusted net income (based on Mylan's adjusted diluted EPS of \$4.25, based on the midpoint of Mylan's 2015 guidance and Mylan's 2015 weighted average diluted shares outstanding of

500mm, calculated based on the midpoint of Mylan's 2015 adjusted net income and adjusted diluted EPS guidance), Perrigo's adjusted net income (calculated as Perrigo adjusted diluted EPS of \$7.75 based on midpoint of Perrigo's guidance and Perrigo's weighted average diluted shares outstanding of 144mm, per Perrigo's guidance), 100% of anticipated run-rate after-tax operational synergies of \$650mm (assuming a tax rate of 19%) and post-tax interest expense of \$161mm (assuming a tax rate of 19%) for illustrative purposes only. Interest expense assumes transaction debt interest rate L+1.5% per bridge

commitment and assumes 3-month LIBOR of 0.2936%, Perrigo's debt is not refinanced and total transaction debt amounts to \$11.0 billion. Pro-Forma adjusted net income of \$3,730mm is then divided by Pro-Forma weighted average share count of 838mm, which equals the sum of Mylan standalone's 2015 weighted average diluted shares outstanding and Mylan ordinary shares expected to be issued to Perrigo shareholders (2.3 times Perrigo's current diluted shares outstanding of 147mm as of October 9, 2015), which equals \$4.45. Full run-rate synergies are not expected to be realized until the end of year four following the consummation of the offer. Mylan / Perrigo adjusted diluted EPS assumes that Mylan acquires 100% of Perrigo ordinary shares in the offer and that Mylan shareholders realize the benefit of all synergies realized in the transaction. Adjusted diluted EPS is a non-GAAP financial measure.
