

Edgar Filing: Towers Watson & Co. - Form 425

Towers Watson & Co.
Form 425
October 26, 2015

Filed by Towers Watson & Co.

Pursuant to Rule 425 under the
Securities Act of 1933, as amended,
and deemed filed pursuant to Rule 14a-6(b)
of the Securities Exchange Act of 1934, as amended

Subject Company:

Towers Watson & Co. (Commission File No. 001-34594)

The following slide presentation was prepared by Towers Watson & Co. (Towers Watson) regarding the proposed merger of Towers Watson and Willis Group Holdings plc. Towers Watson first made these materials available on October 26, 2015.

1
Creating a Leading Global Advisory, Broking and Solutions Firm
October 2015

2
Executive Summary

3

Combination of highly complementary businesses accelerates long-term growth strategy

Conducted extensive shareholder outreach following announcement

Merger of equals structure provides the unique ability to leverage and enhance the strengths of both companies while preserving our most critical assets

people and clients

Board of Directors conducted a thorough evaluation process and negotiated a favorable transaction

Management has a proven track record of delivering substantial

shareholder value through a transformative transaction

Strategic Merger of Equals Positioned to Create Value for Shareholders

4

A Highly Complementary, Strategic Combination

A leading global distribution platform with highly complementary offerings

Comprehensive advice, analytics, specialty capabilities and solutions

Enhanced OneExchange growth opportunity

Additional benefits across Property and Casualty (P&C) brokerage and Global Health and Group Benefits

Broad coverage of both large and middle-market clients

Highly achievable synergies and tax benefits based on the

following expectations:

\$375 -

\$675 million in revenue synergy opportunity

\$100 -

\$125 million in clearly defined cost synergies

Maintain Irish domicile; achieve effective tax rate in

mid-20 percent range vs. current mid-30 percent

range

Significantly accretive to Towers Watson Adjusted EBITDA

and Cash Net Income based on standalone forecasts and

clearly identified synergies

Estimated Cash Net Income accretion to Towers

Watson shareholders of 25%+ for CY 2016, increasing

to 45%+ for CY 2018

Strong continuing management team increases the

likelihood of successfully integrating and capturing synergies

POWERFUL CLIENT

PROPOSITION

ESTIMATED \$4.7 BILLION IN INCREMENTAL

Transaction Was the Result of Thorough, Independent Board Process

BOARD REGULARLY REVIEWS THE LONG-TERM STRATEGIC PLAN WITH THE OBJECTIVE OF ENHANCING SHAREHOLDER VALUE

Board extensively reviewed the assumptions underlying the value-creation thesis of the Willis transaction, including internal and external perspectives on revenue, cost and tax synergies

Board concluded the potential value of the combined company is more compelling than standalone plan and retains future strategic optionality

INDEPENDENT DIRECTORS PLAYED A SIGNIFICANT ROLE IN EVALUATING TRANSACTION

TW's independent directors conducted multiple meetings and executive sessions through the course of the evaluation and negotiation

MERGER OF EQUALS WITH WILLIS IS A UNIQUE OPPORTUNITY THAT LEVERAGES STRENGTHS OF BOTH COMPANIES

The transaction with Willis provides a unique opportunity for TW to benefit from the upside created through broadened product offerings, client reach and geographic scope

Board considered alternative transaction structures, but a MOE with Willis was determined to be optimal

A business combination with Willis was considered by the Board in 2013, but demand for solutions and evolution of exchange business were not sufficiently advanced

BOARD WILL PURSUE THE COURSE OF ACTION THAT WILL BEST DRIVE SHAREHOLDER VALUE

MOE is structured to provide TW with strategic optionality if a competing transaction arises

9

Constructive Shareholder Engagement

Towers Watson conducted comprehensive investor outreach

Discussions resulted in greater understanding of strategic benefits, synergy potential, and earnings accretion
Company continues to actively engage with shareholder base including shareholders who invested in TW
post merger announcement

Selected Market Commentary

(1)

The Willis merger represents a catalyst for upside in exchange revenue growth given increased penetration of the middle market channel. Additionally, we expect the deal to generate run-rate pre-tax cost synergies of \$125M and tax synergies of

\$60M. Finally, we believe Towers management team can bring enhanced execution to Willis, driving a positive turnaround in the insurance business.

-
Piper Jaffray, August 11, 2015

Further
Analyzing
TW's
Merger
of
Equals
with
WSH

In
the
~10
weeks
since
TW

announced its merger of equals with Willis on 6/30, we have had numerous opportunities to conduct our diligence on the merits of the proposed deal. Our conclusion is that while the deal was a negative surprise for investors and TW's initial messaging around the deal was not as crisp as we might have liked, the combination of the deal benefits and stock reaction makes TW one of our better overall Buy ideas today. We note that although the stock retreated ~15% initially, it has consolidated in the \$118-\$122 range in the past ~4 weeks and we have begun to see new (and well-justified) interest in the stock. Buy TW.

-Citi, September 17, 2015

Although management commented on large companies comprising a higher percentage of 2017 private exchange RFPs, Towers continues to believe small and middle-market sized companies will comprise the majority of new private exchange enrollees on January 1, 2017. We agree with this view and this is the primary reason why we are convinced the Willis (WSH, Buy, \$46.07, \$53 PT) / Towers Watson merger is an excellent strategic move by both companies. Willis has the country's most extensive broker distribution network concentrating on small and mid-sized organizations in the country.

-
MKM Partners, August 12, 2015

Towers Watson management has an appropriate perspective on the value that will emerge at Willis as it executes on its Operational Improvement Program. The market clearly didn't see this in the immediate aftermath of the announcement, but it reflects good long-term thinking.

-
Keefe, Bruyette
& Woods, October 9, 2015

Over the 15 years we have followed TW there have been a number of acquisitions that CEO John Haley has stewarded that were initially underappreciated -- including the key Towers Perrin merger and Extend Health acquisition to enter the private exchange space.

-Baird Equity Research, June 30, 2015

Roadmap for Successful Integration to Achieve Synergies

Update to Integration Planning

In July 2015 retained Bain & Co. as an integration
advisor

Joint operating committee commenced integration
work in late July

12 integration workstreams formed across client-facing

and functional areas to ensure go-to-market effectiveness on Day 1
Joint integration team
Well-defined integration process
Strongest combination of talent and practices
Commitment to communicate with and engage talent
Unwavering focus on client service and current growth and operational improvement opportunities
Realize full benefits of combination

22
Board Process and Governance

23

The Board Conducted a Thorough Process

A potential business combination with Willis was preliminarily discussed by TW's Board in 2013, but the Board determined that the timing was not right and directed management not to pursue a potential transaction

Independent Towers Watson directors were extensively involved and included multiple reviews in executive session

The Board conducted a detailed review of the strategic and financial implications of the transaction, including the perspectives of the internal team and external advisors, and evaluated potential alternative structures Exchange ratio based on market capitalization, which is more favorable than

alternative mechanisms proposed by Willis, and was agreed to in principle at a ratio more favorable than at any time prior to that date
After extensive review, the Board, including all independent directors, unanimously approved the transaction

24
TW Board Structures Compensation to Align Management with Shareholders
TW'S STRONG COMPENSATION PRACTICES
PAY AND PERFORMANCE ALIGNMENT
(5 YEAR CAGR)
Over past 5 years
Total Shareholder Return of ~190%
(1)
97% average support on say-on-pay vote
TW EXECUTIVES' INTERESTS WILL REMAIN ALIGNED WITH LONG-TERM SHAREHOLDERS
Significant portion of CEO's assets remain held in TW stock and equity awards (performance-based or at-

risk)

well in excess of our ownership requirement

Double-trigger change in control

equity awards for CEO, CFO and all continuing executives will remain outstanding

Stock options

TW stock options will be converted into options of the combined company (not monetized)

Conservative pay practices

»

Total direct compensation is between 25

th

and 50

th

percentile of peers

Majority of executive pay is variable and linked to financial performance

»

80% of CEO comp in 2014 was performance-based

»

All long-term incentives are performance-based equity

Rigorous stock ownership guidelines

»

Share ownership of 5x base salary required for CEO

Double-trigger change in control provisions

Robust clawback

policy

Anti-hedging and anti-pledging policies

No tax gross-ups and no golden parachutes

30

The Board and Management Team Conducted a Thorough Analysis to Maximize Shareholder Value

January 26, 2015: TW and WSH CEOs meet to discuss existing commercial arrangements; a potential business combination is

April 2015: TW and WSH discuss the potential benefits of a business combination but do not discuss financial terms.

May 4, 2015:

TW Board appoints a special committee of 4 independent directors to initially assess matters relating to the transaction.

May 11, 2015: TW CEO proposes that pro forma ownership be determined based on market capitalization.

WSH CEO and Chairman

suggest ownership be based on relative contribution of several financial metrics which would result in WSH shareholders owning a significantly larger percentage of the company.

Edgar Filing: Towers Watson & Co. - Form 425

May 14, 2015: TW's lead independent director discusses the leadership of the combined company with WSH's Chairman.

May 15, 2015: TW Board and management discuss the potential transaction, after which management is excused and the independent directors continue the discussion in executive session.

May 20, 2015: The parties agree to consider several alternative transaction structures.

May 29, 2015: TW CEO and WSH CEO discuss preliminary terms for the combination.

A pre-closing dividend is discussed as a method to obtain the desired ownership percentages of the surviving company despite the fact that TW had a larger market capitalization at the time.

June 10, 2015: The parties agree that the exchange ratio be based on 60 day weighted average prices as of June 5th and include a special dividend to TW shareholders to reduce pro forma TW ownership below 50%.

June 20, 2015: TW Board holds an in-person special meeting and discusses with management the proposed transaction. After the CEO leaves the meeting, the discussion is continued by the independent directors in executive session.

June 27, 2015: The exchange ratio and amount of the special dividend are calculated based on the previous agreement that they be based on the 60 day weighted average as of June 5.

June 29, 2015: The TW Board unanimously determines to approve the merger.

Forward Looking Statements

This document contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. You can identify these statements and other forward-looking statements in this document by words such as may, will, v anticipate, believe, estimate, plan, intend, continue, or similar words, expressions or the negative of such terms or comparable terminology. These statements include, but are not limited to, the benefits of the business combination transaction between Towers Watson and Willis Group, including the combined company's future financial and operating results, plans, objectives, and intentions and other statements that are not historical facts. Such statements are based upon the current beliefs and expectations of Towers Watson's and Willis Group's management and are subject to significant risks and uncertainties. Actual results may differ from those set forth in the forward-looking statements.

The following factors, among others, could cause actual results to differ from those set forth in the forward-looking statements:

obtain governmental approvals of the transaction on the proposed terms and schedule; the failure of Towers Watson stockholders or Willis Group shareholders to approve the transaction; the failure of the transaction to close for any reason; the risk that the businesses may not be integrated successfully; the risk that anticipated cost savings and any other synergies from the transaction may not be fully realized or may take longer to realize than expected; the potential impact of the announcement or consummation of the proposed transaction on relationships, including with employees, suppliers, customers and competitors; changes in general economic, business and political conditions, including changes in the financial markets; significant competition; compliance with extensive government regulations; the combined company's ability to make acquisitions and its ability to integrate or manage such acquired businesses. Additional risks and factors are identified under "Risk Factors" in Towers Watson's Annual Report on Form 10-K filed on August 14, 2013, which is on file with the Commission, and under "Risk Factors" in the joint proxy statement/prospectus.

You should not rely upon forward-looking statements as predictions of future events because these statements are based on assumptions that may not come true and are speculative by their nature. Neither Towers Watson or Willis Group undertakes an obligation to update or revise any of the forward-looking information included in this document, whether as a result of new information, future events, changed circumstances or otherwise.

33
