Independent Auditors' Report

Based on a report originally issued in Korean

To The Board of Directors and Shareholders

SK Telecom Co., Ltd.:

We have audited the accompanying consolidated financial statements of SK Telecom Co., Ltd. and its subsidiaries (the Group), which comprise the consolidated statements of financial position as at December 31, 2015 and 2014, the consolidated statements of income, comprehensive income, changes in equity and cash flows for the years then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Korean International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Korean Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2015 and 2014 and of its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with Korean International Financial Reporting Standards.

Other Matter

The procedures and practices utilized in the Republic of Korea to audit such consolidated financial statements may differ from those generally accepted and applied in other countries.

----------------	-----	---	-------	-------

- (*1) On March 20, 2015, the Board of Directors of the Parent Company decided to grant 0.0168936 share of its treasury stock in exchange for 1 share of SK Broadband Co., Ltd., a subsidiary of the Parent Company, to the shareholders of SK Broadband Co., Ltd. as of June 9, 2015. After the stock exchange, SK Broadband Co., Ltd. became a wholly-owned subsidiary of the Parent Company.
- (*2) Due to the shareholders agreement which grants put option to the non-controlling shareholders, this entity is consolidated as a wholly owned subsidiary in the consolidated financial statements. The Parent Company newly acquired 50,377 and 326,748 shares of Neosnetworks Co., Ltd. by participating in the capital increase and capital increase without consideration, respectively during the year ended December 31, 2015.
- (*3) Although the Group has less than 50% of the voting rights of IRIVER LIMITED, it is considered to have de facto control since the Group holds significantly more voting rights than any other vote holder or organized group of vote holders, and the other shareholdings are widely dispersed.

(*4) On November 2, 2015, the board of directors of the Parent Company entered into a share purchase agreement to acquire 30%(23,234,060 shares) of the issued and outstanding common shares of CJ Hello Vision Co, Ltd. (CJ Hello Vision) from CJ O Shopping Co., Ltd. (CJ O Shopping). The proposed transaction closing date is April 4, 2016. According to the share purchase agreement, the Parent Company will grant put option (exercisable at a price of ₩26,994 during the two year period following the third anniversary of the transaction closing date) to CJ O Shopping and be granted call option (exercisable at a price of ₩26,994 during the five year period following the closing date) on CJ O Shopping s remaining shares in CJ Hello Vision. On November 2, 2015, the board of directors of SK Broadband Co., Ltd. (SK Broadband), a subsidiary of the Parent Company, held a meeting to resolve the merger of SK Broadband into CJ Hello Vision, and SK Broadband entered into a merger agreement with CJ Hello Vision. Under the agreement, SK Broadband will be merged into CJ Hello Vision on April 4, 2016. As of December 31, 2015, the approval of relevant government agencies for the share purchase and the merger has not been completed, and the transaction closing date is subject to change depending on the status of the pre-requirements including the approval of government agencies.

(*5) Changes in subsidiaries are explained in Note 1-(4).

In accordance with the Group s accounting policy relating to the scope of consolidation, small-sized subsidiaries including IM Shopping Inc. were excluded from the list of subsidiaries as the effects on the Group s consolidated financial statements are not material considering both individual and overall quantitative and qualitative effects.

Table of Contents

2. Basis of Presentation

(1) Statement of compliance

These consolidated financial statements were prepared in accordance with Korean International Financial Reporting Standards (K-IFRS), as prescribed in the *Act on External Audits of Stock Companies in the Republic of Korea*.

The consolidated financial statements were authorized for issuance by the Board of Directors on February 3, 2016, which will be submitted for approval at the shareholders meeting to be held on March 18, 2016.

(2) Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis, except for the following material items in the consolidated statements of financial position:

derivative financial instruments are measured at fair value

financial instruments at fair value through profit or loss are measured at fair value

available-for-sale financial assets are measured at fair value

liabilities for defined benefit plans are recognized at the net of the total present value of defined benefit obligations less the fair value of plan assets.

(3) Functional and presentation currency

Financial statements of Group entities within the Group are presented in functional currency and the currency of the primary economic environment in which each entity operates. Consolidated financial statements of the Group are presented in Korean won, which is the Parent Company's functional and presentation currency.

(4) Use of estimates and judgments

The preparation of the consolidated financial statements in conformity with K-IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period prospectively.

1) Critical judgments

Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements is included in Note 4 for the following areas: revenue, consolidation: whether the Group has de facto control over an investee, and classification of lease.

Table of Contents

2. Basis of Presentation, Continued

(4) Use of estimates and judgments, Continued

2) Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year are included in the following notes: allowance for doubtful accounts, estimated useful lives of property and equipment and intangible assets, impairment of goodwill, recognition of provision, measurement of defined benefit liabilities, and recognition of deferred tax assets (liabilities).

3) Fair value measurement

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Group has an established control framework with respect to the measurement of fair values. This includes a valuation team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the finance executive.

The valuation team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of K-IFRS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of an asset or a liability, the Group uses market observable data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Information about assumptions used for fair value measurements are included in Note 35.

(5) Common control transactions

SK Holdings Co., Ltd. (the Ultimate Controlling Entity) is the Ultimate Controlling Entity of the Parent Company because it controls the Parent Company. Accordingly, gains and losses from business acquisitions and dispositions involving entities that are under the control of the Ultimate Controlling Entity are accounted for as common control transactions within equity.

Table of Contents

3. Changes in Accounting Policies

Except for the changes below, the Group has consistently applied the accounting policies set out in Note 4 to all periods presented in these consolidated financial statements.

The Group has adopted the following amendments to standards with a date of initial application of January 1, 2015.

1) K-IFRS 1019 Employee Benefits Employee contributions

Amendments to K-IFRS 1019 introduced a practical expedient to accounting for defined benefit plan, when employees or third parties pay contributions if certain criteria are met. According to the amendments, the entity is permitted to recognize those contributions as a reduction of the service cost in the period in which the related service is rendered, instead of forecast future contributions from employees or third parties and attribute them to periods or service as negative benefits.

There is no material impact of the application of this amendment on the consolidated financial statements.

4. Significant Accounting Policies

The significant accounting policies applied by the Group in preparation of its consolidated financial statements in accordance with K-IFRSs are included below. The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements except for those as described in Note 3.

(1) Operating segments

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. The Group's operating segments have been determined to be each business unit, for which the Group generates separately identifiable financial information that is regularly reported to the chief operating decision maker for the purpose of resource allocation and assessment of segment performance. The Group has three reportable segments which consist of cellular services, fixed-line telecommunication services and others, as described in Note 5. Segment results that are reported to the chief operating decision maker include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

Table of Contents

4. Significant Accounting Policies, Continued

(2) Basis of consolidation

(i) Business combination

A business combination is accounted for by applying the acquisition method, unless it is a combination involving entities or businesses under common control.

Consideration transferred is generally measured at fair value, identical to the measurement of identifiable net assets acquired at fair value. If goodwill incurs as a result of business combination, the Group performs impairment test on an annual basis and recognizes gain from bargain purchases through profit or loss. Acquisition-related costs are expensed in the periods in which the costs are incurred and the services are received excluding costs to issue debt or equity securities recognized based on K-IFRS No. 1032 and 1039.

Consideration transferred does not include the amount settled in relation to the pre-existing relationship and the amount settled in relation to the pre-existing relationship is generally recognized through profit or loss.

Contingent consideration is measured at fair value at the acquisition date. Contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity. If contingent consideration is not classified as equity, the Group subsequently recognizes changes in fair value of contingent consideration and recognizes through profit or loss.

Entire or certain portion of market-based measure of replacement award for share-based payment transactions of the acquiree or the replacement of an acquiree's share-based payment transactions with share-based payment transactions of the acquirer is included in measurement of contingent considerations. Portion of a replacement award that is part of the consideration transferred for the acquiree and the portion that is remuneration for post-combination service is determined by comparing market-based measure of the awards of acquire and replacement awards that is attributable to pre-combination service.

(ii) Non-controlling interests

The Group measure at the acquisition date components of non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of the acquiree's net assets.

Changes in a Controlling Company's ownership interest in a subsidiary that do not result in the Controlling Company losing control of the subsidiary are accounted for as equity transactions.

(iii) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Consolidation of an investee begins from the date the Group obtains control of the investee and cease when the Group loses control of the investee.

Table of Contents

4. Significant Accounting Policies, Continued

(2) Basis of consolidation, Continued

(iv) Loss of control

If the Group loses control of a subsidiary, the Group derecognizes the assets and liabilities of the former subsidiary from the consolidated statement of financial position and recognizes gain or loss associated with the loss of control attributable to the former controlling interest. Any investment retained in the former subsidiary is recognized at its fair value when control is lost.

(v) Interest in investees accounted for using the equity method

Interest in investees accounted for using the equity method composed of interest in associates and joint ventures. An associate is an entity in which the Group has significant influence, but not control, over the entity's financial and operating policies. A joint venture is a joint arrangement whereby the Group that has joint control of the arrangement have rights to the net assets of the arrangement.

The investment in an associate and a joint venture is initially recognized at cost including transaction costs and the carrying amount is increased or decreased to recognize the Group's share of the profit or loss and changes in equity of the associate or the joint venture after the date of acquisition.

(vi) Intra-group transactions

Intra-group balances and transactions, and any unrealized income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. The Group's share of unrealized gain incurred from transactions with investees accounted for using the equity method are eliminated and unrealized loss are eliminated using the same basis if there are no evidence of asset impairments.

(vii) Business combinations under common control

The assets and liabilities acquired from the combination of entities or business under common control are recognized at the carrying amounts in the ultimate controlling shareholder's consolidated financial statements. The difference between consideration and carrying amount of net assets acquired is added to or subtracted from other capital adjustments.

(3) Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits with maturities of three months or less from the acquisition date that are subject to an insignificant risk of changes in their fair value, and are used by the Group in the management of its short-term commitments.

(4) Inventories

Inventories are stated at the acquisition cost using the average method. During the period, a perpetual inventory system is used to value inventories, which is adjusted to the physical inventory counts performed at the period end. When the net realizable value of inventories is less than the acquisition cost, the carrying amount is reduced to the net realizable value and any difference is charged to current operations as operating expenses. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

Table of Contents

4. Significant Accounting Policies, Continued

(5) Non-derivative financial assets

The Group recognizes and measures non-derivative financial assets by the following four categories: financial assets at fair value through profit or loss, held-to-maturity investments, loans and receivables and available-for-sale financial assets. The Group recognizes financial assets in the consolidated statement of financial position when the Group becomes a party to the contractual provisions of the instrument.

Upon initial recognition, non-derivative financial assets are measured at their fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the asset's acquisition or issuance.

(i) Financial assets at fair value through profit or loss

A financial asset is classified as financial assets are classified at fair value through profit or loss if it is held for trading or is designated as such upon initial recognition. Upon initial recognition, transaction costs are recognized in profit or loss when incurred. Financial assets at fair value through profit or loss are measured at fair value, and changes therein are recognized in profit or loss.

(ii) Held-to-maturity investments

A non-derivative financial asset with a fixed or determinable payment and fixed maturity, for which the Group has the positive intention and ability to hold to maturity, are classified as held-to-maturity investments. Subsequent to initial recognition, held-to-maturity investments are measured at amortized cost using the effective interest rate method.

(iii) Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Subsequent to initial recognition, loans and receivables are measured at amortized cost using the effective interest method except for loans and receivables of which the effect of discounting is immaterial.

(iv) Available-for-sale financial assets

Available-for-sale financial assets are those non-derivative financial assets that are designated as available-for-sale or are not classified as financial assets at fair value through profit or loss, held-to-maturity investments or loans and receivables. Subsequent to initial recognition, they are measured at fair value, which changes in fair value, net of any tax effect, recorded in other comprehensive income in equity. Investments in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured are measured at cost.

(v) De-recognition of financial assets

The Group derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Group is recognized as a separate asset or liability. If the Group retains substantially all the risks and rewards of ownership of the transferred financial assets, the Group continues to recognize the transferred financial assets and recognizes financial liabilities for the consideration received.

Table of Contents**4. Significant Accounting Policies, Continued**

(5) Non-derivative financial assets, Continued

(vi) Offsetting between financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is presented in the consolidated statement of financial position only when the Group currently has a legally enforceable right to offset the recognized amounts, and there is the intention to settle on a net basis or to realize the asset and settle the liability simultaneously.

(6) Derivative financial instruments, including hedge accounting

Derivatives are initially recognized at fair value. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are accounted for as described below.

(i) Hedge accounting

The Group holds forward exchange contracts, interest rate swaps, currency swaps and other derivative contracts to manage interest rate risk and foreign exchange risk. The Group designated derivatives as hedging instruments to hedge the risk of changes in the fair value of assets, liabilities or firm commitments (a fair value hedge) and foreign currency risk of highly probable forecasted transactions or firm commitments (a cash flow hedge).

On initial designation of the hedge, the Group formally documents the relationship between the hedging instrument(s) and hedged item(s), including the risk management objectives and strategy in undertaking the hedge transaction, together with the methods that will be used to assess the effectiveness of the hedging relationship.

Fair value hedge

Changes in the fair value of a derivative hedging instrument designated as a fair value hedge are recognized in profit or loss. The gain or loss from remeasuring the hedging instrument at fair value for a derivative hedging instrument and the gain or loss on the hedged item attributable to the hedged risk are recognized in profit or loss in the same line item of the consolidated statement of income. The Group discontinues fair value hedge accounting if the hedging instrument expires or is sold, terminated or exercised, or if the hedge no longer meets the criteria for hedge accounting. Any adjustment arising from gain or loss on the hedged item attributable to the hedged risk is amortized to profit or loss from the date the hedge accounting is discontinued.

Cash flow hedge

When a derivative is designated to hedge the variability in cash flows attributable to a particular risk associated with a recognized asset or liability or a highly probable forecasted transaction that could affect profit or loss, the effective portion of changes in the fair value of the derivative is recognized in other comprehensive income, net of tax, and presented in the hedging reserve in equity. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in profit or loss. If the hedging instrument no longer meets the criteria for hedge accounting, expires or is sold, terminated, exercised, or the designation is revoked, then hedge accounting is discontinued prospectively. The cumulative gain or loss on the hedging instrument that has been recognized in other comprehensive

income is reclassified to profit or loss in the periods during which the forecasted transaction occurs. If the forecasted transaction is no longer expected to occur, then the balance in other comprehensive income is recognized immediately in profit or loss.

Table of Contents

4. Significant Accounting Policies, Continued

(6) Derivative financial instruments, including hedge accounting, Continued

(ii) Separable embedded derivatives

Embedded derivatives are separated from the host contract and accounted for separately only if the following criteria have been met:

- (a) the economic characteristics and risks of the embedded derivative are not closely related to those of the host contract;
- (b) a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and
- (c) the hybrid instrument is not measured at fair value with changes in fair value recognized in profit or loss.

Changes in the fair value of separable embedded derivatives are recognized immediately in profit or loss.

(iii) Other derivative financial instruments

Changes in the fair value of other derivative financial instrument not designated as a hedging instrument are recognized immediately in profit or loss.

(7) Impairment of financial assets

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably. However, losses expected as a result of future events, regardless of likelihood, are not recognized.

Objective evidence that a financial asset is impaired includes following loss events:

significant financial difficulty of the issuer or obligor;

a breach of contract, such as default or delinquency in interest or principal payments;

the lender, for economic or legal reasons relating to the borrower's financial difficulty, granting to the borrower a concession that the lender would not otherwise consider;

it becoming probable that the borrower will enter bankruptcy or other financial reorganization;

the disappearance of an active market for that financial asset because of financial difficulties; or

observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the group

In addition, for an investment in an equity security, a significant or prolonged decline in its fair value below its cost is objective evidence of impairment.

Table of Contents

4. Significant Accounting Policies, Continued

(7) Impairment of financial assets, Continued

If financial assets have objective evidence that they are impaired, impairment losses should be measured and recognized.

(i) Financial assets measured at amortized cost

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount and the present value of its estimated future cash flows discounted at the asset's original effective interest rate. If it is not practicable to obtain the instrument's estimated future cash flows, impairment losses would be measured by using prices from any observable current market transactions. The Group can recognize impairment losses directly or establish a provision to cover impairment losses. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized (such as an improvement in the debtor's credit rating), the previously recognized impairment loss shall be reversed either directly or by adjusting an allowance account.

(ii) Financial assets carried at cost

If there is objective evidence that an impairment loss has occurred on an unquoted equity instrument that is not carried at fair value because its fair value cannot be reliably measured, or on a derivative asset that is linked to and must be settled by delivery of such an unquoted equity instrument, the amount of the impairment loss is measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses shall not be reversed.

(iii) Available-for-sale financial assets

When a decline in the fair value of an available-for-sale financial asset has been recognized in other comprehensive income and there is objective evidence that the asset is impaired, the cumulative loss that had been recognized in other comprehensive income shall be reclassified from equity to profit or loss as a reclassification adjustment even though the financial asset has not been derecognized. Impairment losses recognized in profit or loss for an investment in an equity instrument classified as available-for-sale shall not be reversed through profit or loss. If, in a subsequent period, the fair value of a debt instrument classified as available-for-sale increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in profit or loss, the impairment loss shall be reversed, with the amount of the reversal recognized in profit or loss.

(8) Property, plant and equipment

Property, plant and equipment are initially measured at cost and after initial recognition, are carried at cost less accumulated depreciation and accumulated impairment losses. The cost of property, plant and equipment includes

expenditures arising directly from the construction or acquisition of the asset, any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management and the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

Table of Contents**4. Significant Accounting Policies, Continued****(8) Property, plant and equipment, continued**

Subsequent to initial recognition, an item of property, plant and equipment is carried at its cost less any accumulated depreciation and any accumulated impairment losses.

Subsequent costs are recognized in the carrying amount of property, plant and equipment at cost or, if appropriate, as separate items if it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day servicing are recognized in profit or loss as incurred.

Property, plant and equipment, except for land, are depreciated on a straight-line basis over estimated useful lives that appropriately reflect the pattern in which the asset's future economic benefits are expected to be consumed. A component that is significant compared to the total cost of property, plant and equipment is depreciated over its separate useful life.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognized as other non-operating income (loss).

The estimated useful lives of the Group's property, plant and equipment are as follows:

	Useful lives (years)
Buildings and structures	15 ~ 40
Machinery	3 ~ 15
Other property, plant and equipment (Other PP&E)	4 ~ 10

Depreciation methods, useful lives and residual values are reviewed at the end of each reporting date and adjusted, if appropriate. The change is accounted for as a change in an accounting estimate.

(9) Borrowing costs

The Group capitalizes borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset as part of the cost of that asset. Other borrowing costs are recognized in expense as incurred. A qualifying asset is an asset that requires a substantial period of time to get ready for its intended use or sale. Financial assets and inventories that are manufactured or otherwise produced over a short period of time are not qualifying assets. Assets that are ready for their intended use or sale when acquired are not qualifying assets.

To the extent that the Group borrows funds specifically for the purpose of obtaining a qualifying asset, the Group determines the amount of borrowing costs eligible for capitalization as the actual borrowing costs incurred on that borrowing during the period less any investment income on the temporary investment of those borrowings. To the extent that the Group borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the

Group shall determine the amount of borrowing costs eligible for capitalization by applying a capitalization rate to the expenditures on that asset. The capitalization rate shall be the weighted average of the borrowing costs applicable to the borrowings of the Group that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs that the Group capitalizes during a period shall not exceed the amount of borrowing costs incurred during that period.

Table of Contents**4. Significant Accounting Policies, Continued****(10) Intangible assets**

Intangible assets are measured initially at cost and, subsequently, are carried at cost less accumulated amortization and accumulated impairment losses.

Amortization of intangible assets except for goodwill is calculated on a straight-line basis over the estimated useful lives of intangible assets from the date that they are available for use. The residual value of intangible assets is zero. However, as there are no foreseeable limits to the periods over which club memberships are expected to be available for use, this intangible asset is determined as having indefinite useful lives and not amortized.

The estimated useful lives of the Group's intangible assets are as follows:

	Useful lives (years)
Frequency use rights	6.3 ~ 13.1
Land use rights	5
Industrial rights	5, 10
Development costs	5
Facility usage rights	10, 20
Customer relations	3 ~ 7
Other	3 ~ 20

Amortization periods and the amortization methods for intangible assets with finite useful lives are reviewed at the end of each reporting period. The useful lives of intangible assets that are not being amortized are reviewed at the end of each reporting period to determine whether events and circumstances continue to support indefinite useful life assessments for those assets. Changes are accounted for as changes in accounting estimates.

Expenditures on research activities, undertaken with the prospect of gaining new scientific or technical knowledge and understanding, are recognized in profit or loss as incurred. Development expenditures are capitalized only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Group intends to and has sufficient resources to complete development and to use or sell the asset. Other development expenditures are recognized in profit or loss as incurred.

Subsequent expenditures are capitalized only when they increase the future economic benefits embodied in the specific asset to which it relates. All other expenditures, including expenditures on internally generated goodwill and brands, are recognized in profit or loss as incurred.

Table of Contents

4. Significant Accounting Policies, Continued

(11) Government grants

Government grants are not recognized unless there is reasonable assurance that the Group will comply with the grant's conditions and that the grant will be received.

(i) Grants related to assets

Government grants whose primary condition is that the Group purchase, construct or otherwise acquire long-term assets are deducted in calculating the carrying amount of the asset. The grant is recognized in profit or loss over the life of a depreciable asset as a reduction to depreciation expense.

(ii) Grants related to income

Government grants which are intended to compensate the Group for expenses incurred are deducted from the related expenses.

(12) Investment property

Property held for the purpose of earning rentals or benefiting from capital appreciation is classified as investment property. Investment property is initially measured at its cost. Transaction costs are included in the initial measurement. Subsequently, investment property is carried at depreciated cost less any accumulated impairment losses.

Subsequent costs are recognized in the carrying amount of investment property at cost or, if appropriate, as separate items if it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day servicing are recognized in profit or loss as incurred.

Investment property except for land, are depreciated on a straight-line basis over 15~40 years as estimated useful lives.

Depreciation methods, useful lives and residual values are reviewed at the end of each reporting date and adjusted, if appropriate. The change is accounted for as a change in an accounting estimate.

(13) Impairment of non-financial assets

The carrying amounts of the Group's non-financial assets, other than assets arising from employee benefits, inventories, deferred tax assets and non-current assets held for sale, are reviewed at the end of the reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill and intangible assets that have indefinite useful lives or that are not yet available for use, irrespective of whether there is any indication of impairment, are tested for impairment annually by comparing their recoverable amount to their carrying amount.

Table of Contents**4. Significant Accounting Policies, Continued****(13) Impairment of non-financial assets, Continued**

The Group estimates the recoverable amount of an individual asset, if it is impossible to measure the individual recoverable amount of an asset, then the Group estimates the recoverable amount of cash-generating unit (CGU). A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets. The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. The value in use is estimated by applying a pre-tax discount rate that reflect current market assessments of the time value of money and the risks specific to the asset or CGU for which estimated future cash flows have not been adjusted, to the estimated future cash flows expected to be generated by the asset or CGU.

An impairment loss is recognized in profit or loss if the carrying amount of an asset or a CGU exceeds its recoverable amount.

Goodwill acquired in a business combination is allocated to each CGU that is expected to benefit from the synergies arising from the goodwill acquired. Any impairment identified at the CGU level will first reduce the carrying value of goodwill and then be used to reduce the carrying amount of the other assets in the CGU on a pro rata basis. Except for impairment losses in respect of goodwill which are never reversed, an impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

(14) Leases

The Group classifies and accounts for leases as either a finance or operating lease, depending on the terms. Leases where the Group assumes substantially all of the risks and rewards of ownership are classified as finance leases. All other leases are classified as operating leases.

(i) Finance leases

At the commencement of the lease term, the Group recognizes as finance assets and finance liabilities in its consolidated statements of financial position, the lower amount of the fair value of the leased property and the present value of the minimum lease payments, each determined at the inception of the lease. Any initial direct costs are added to the amount recognized as an asset.

Minimum lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability. Contingent rents are charged as expenses in the periods in which they are incurred.

The depreciable amount of a leased asset is allocated to each accounting period during the period of expected use on a systematic basis consistent with the depreciation policy the lessee adopts for depreciable assets that are owned. If

there is no reasonable certainty that the lessee will obtain ownership by the end of the lease term, the asset is fully depreciated over the shorter of the lease term and its useful life. The Group reviews to determine whether the leased asset may be impaired.

Table of Contents

4. Significant Accounting Policies, Continued

(14) Leases, Continued

(ii) Operating leases

Leases where the lessor retains a significant portion of the risks and rewards of ownership are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are recognized in profit or loss on a straight-line basis over the period of the lease.

(iii) Determining whether an arrangement contains a lease

Determining whether an arrangement is, or contains, a lease shall be based on the substance of the arrangement and requires an assessment of whether fulfillment of the arrangement is dependent on the use of a specific asset or assets (the asset) and the arrangement conveys a right to use the asset.

At inception or reassessment of the arrangement, the Group separates payments and other consideration required by such an arrangement into those for the lease and those for other elements on the basis of their relative fair values. If the Group concludes for a financial lease that it is impracticable to separate the payments reliably, the Group recognizes an asset and a liability at an amount equal to the fair value of the underlying asset that was identified as the subject of the lease. Subsequently, the liability shall be reduced as payments are made and an imputed finance charge on the liability recognized using the purchaser's incremental borrowing rate of interest.

(15) Non-current assets held for sale

Non-current assets, or disposal groups comprising assets and liabilities, that are expected to be recovered primarily through sale rather than through continuing use, are classified as held for sale. In order to be classified as held for sale, the asset (or disposal group) must be available for immediate sale in its present condition and its sale must be highly probable. The assets or disposal group that are classified as non-current assets held for sale are measured at the lower of their carrying amount and fair value less cost to sell. The Group recognizes an impairment loss for any initial or subsequent write-down of an asset (or disposal group) to fair value less costs to sell, and a gain for any subsequent increase in fair value less costs to sell, up to the cumulative impairment loss previously recognized in accordance with K-IFRS No. 1036, Impairment of Assets .

A non-current asset that is classified as held for sale or part of a disposal group classified as held for sale is not depreciated (or amortized).

Table of Contents

4. Significant Accounting Policies, Continued

(16) Non-derivative financial liabilities

The Group classifies non-derivative financial liabilities into financial liabilities at fair value through profit or loss or other financial liabilities in accordance with the substance of the contractual arrangement and the definitions of financial liabilities. The Group recognizes financial liabilities in the consolidated statement of financial position when the Group becomes a party to the contractual provisions of the financial liability.

(i) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading or designated as such upon initial recognition. Subsequent to initial recognition, financial liabilities at fair value through profit or loss are measured at fair value, and changes therein are recognized in profit or loss. Upon initial recognition, transaction costs that are directly attributable to the acquisition are recognized in profit or loss as incurred.

(ii) Other financial liabilities

Non-derivative financial liabilities other than financial liabilities at fair value through profit or loss are classified as other financial liabilities. At the date of initial recognition, other financial liabilities are measured at fair value minus transaction costs that are directly attributable to the acquisition. Subsequent to initial recognition, other financial liabilities are measured at amortized cost using the effective interest method.

The Group derecognizes a financial liability from the consolidated statement of financial position when it is extinguished (i.e. when the obligation specified in the contract is discharged, cancelled or expires).

(17) Employee benefits

(i) Short-term employee benefits

Short-term employee benefits are employee benefits that are due to be settled within 12 months after the end of the period in which the employees render the related service. When an employee has rendered service to the Group during an accounting period, the Group recognizes the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service.

(ii) Other long-term employee benefits

Other long-term employee benefits include employee benefits that are settled beyond 12 months after the end of the period in which the employees render the related service, and are calculated at the present value of the amount of future benefit that employees have earned in return for their service in the current and prior periods. Any changes from remeasurements are recognized through profit or loss in the period in which they arise.

Table of Contents

4. Significant Accounting Policies, Continued

(17) Employee benefits, Continued

(iii) Retirement benefits: defined contribution plans

When an employee has rendered service to the Group during a period, the Group recognizes the contribution payable to a defined contribution plan in exchange for that service as a liability (accrued expense), after deducting any contribution already paid. If the contribution already paid exceeds the contribution due for service before the end of the reporting period, the Group recognizes that excess as an asset (prepaid expense) to the extent that the prepayment will lead to a reduction in future payments or a cash refund.

(iv) Retirement benefits: defined benefit plans

As of the end of reporting period, defined benefits liabilities relating to defined benefit plans are recognized as present value of defined benefit obligations net of fair value of plan assets.

The calculation is performed annually by an independent actuary using the projected unit credit method. When the fair value of plan assets exceeds the present value of the defined benefit obligation, the Group recognizes an asset, to the extent of the present value of any economic benefits available in the form of refunds from the plan or reduction in the future contributions to the plan.

Remeasurements of the net defined benefit liability comprise of actuarial gains and losses, the return on plan assets excluding amounts included in net interest on the net defined benefit liability, and any change in the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and recognized in other comprehensive income. The Group determines net interests on net defined benefit liability (asset) by multiplying discount rate determined at the beginning of the annual reporting period and considers changes in net defined benefit liability (asset) from contributions and benefit payments. Net interest costs and other costs relating to the defined benefit plan are recognized through profit or loss.

When the plan amendment or curtailment occurs, gains or losses on amendment or curtailment in benefits for the past service provided are recognized through profit or loss. The Group recognizes gain or loss on a settlement when the settlement of defined benefit plan occurs.

(v) Termination benefits

The Group recognizes a liability and expense for termination benefits at the earlier of the period when the Group can no longer withdraw the offer of those benefits and the period when the Group recognizes costs for a restructuring that involves the payment of termination benefits. If benefits are payable more than 12 months after the reporting period, then they are discounted to their present value.

Table of Contents

4. Significant Accounting Policies, Continued

(18) Provisions

Provisions are recognized when the Group has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The risks and uncertainties that inevitably surround many events and circumstances are taken into account in reaching the best estimate of a provision. Where the effect of the time value of money is material, provisions are determined at the present value of the expected future cash flows.

Where some or all of the expenditures required to settle a provision are expected to be reimbursed by another party, the reimbursement shall be recognized when, and only when, it is virtually certain that reimbursement will be received if the entity settles the obligation. The reimbursement shall be treated as a separate asset.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimates. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision is reversed.

A provision shall be used only for expenditures for which the provision was originally recognized.

(19) Foreign currencies

(i) Foreign currency transactions

Transactions in foreign currencies are translated to the respective functional currencies of Group entities at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are retranslated to the functional currency using the reporting date's exchange rate. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined.

Foreign currency differences arising on retranslation are recognized in profit or loss, except for differences arising on the retranslation of available-for-sale equity instruments, a financial liability designated as a hedge of the net investment in a foreign operation, or qualifying cash flow hedges, which are recognized in other comprehensive income. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

(ii) Foreign operations

If the presentation currency of the Group is different from a foreign operation's functional currency, the financial statements of the foreign operation are translated into the presentation currency using the following methods:

The assets and liabilities of foreign operations, whose functional currency is not the currency of a hyperinflationary economy, are translated to presentation currency at exchange rates at the reporting date. The income and expenses of

foreign operations are translated to functional currency at exchange rates at the dates of the transactions. Foreign currency differences are recognized in other comprehensive income.

Table of Contents

4. Significant Accounting Policies, Continued

(19) Foreign currencies, Continued

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition of that foreign operation is treated as assets and liabilities of the foreign operation. Thus they are expressed in the functional currency of the foreign operation and translated at the closing rate.

When a foreign operation is disposed of, the relevant amount in the translation is transferred to profit or loss as part of the profit or loss on disposal. On the partial disposal of a subsidiary that includes a foreign operation, the relevant proportion of such cumulative amount is reattributed to non-controlling interest. In any other partial disposal of a foreign operation, the relevant proportion is reclassified to profit or loss.

(20) Equity capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of ordinary shares and share options are recognized as a deduction from equity, net of any tax effects.

When the Group repurchases its share capital, the amount of the consideration paid is recognized as a deduction from equity and classified as treasury shares. The profits or losses from the purchase, disposal, reissue, or retirement of treasury shares are not recognized as current profit or loss. If the Group acquires and retains treasury shares, the consideration paid or received is directly recognized in equity.

(21) Hybrid bond

The Group recognizes a financial instrument issued by the Group as an equity instrument if it does not include contractual obligation to deliver financial assets including cash to the counter party.

(22) Revenue

Revenue from the sale of goods, rendering of services or use of the Group assets is measured at the fair value of the consideration received or receivable. Returns, trade discounts and volume rebates are recognized as a reduction of revenue.

(i) Services

Revenue from cellular services consists of revenue from basic charges, voice charges, data charges, data-roaming services and interconnection charges. Such revenues are recognized as services are performed. Revenues received for the activation of service are deferred and recognized over the average customer retention period.

Revenue from fixed-line services includes domestic short and long distance charges, international phone connection charges, and broadband internet services. Such revenues are recognized as the related services are performed.

Revenue from services rendered is recognized in profit or loss in proportion to the stage of completion of the transaction at the reporting date. The stage of completion is assessed by reference to surveys of work performed.

4. Significant Accounting Policies, Continued

(22) Revenue, Continued

(ii) Goods sold

Revenue is recognized when persuasive evidence exists, usually in the form of an executed sales agreement, that the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing management involvement with the goods, and the amount of revenue can be measured reliably.

(iii) Customer loyalty programmes

For customer loyalty programmes, the fair value of the consideration received or receivable in respect of the initial sale is allocated between the award credits and the other components of the sale. The amount allocated to the award credits is estimated by reference to the fair value of the services to be provided with respect to the redeemable award credits. The fair value of the services to be provided with respect to the redeemable portion of the award credits granted to the customers in accordance with customer loyalty programmes is estimated taking into account the expected redemption rate and timing of the expected redemption. Considerations allocated to the award credits are deferred and revenue is recognized when the award credits are recovered and the Group performs its obligation to provide the service. The amount of revenue recognized is based on the relative size of the total award credits that are expected to be redeemed and the redeemed award credits in exchange for services.

(iv) Bundled arrangements

When the Group sells both handsets and wireless services to subscribers, the Group recognizes these transactions separately as sales for handset sales and wireless telecommunication services.

(23) Finance income and finance costs

Finance income comprises interest income on funds invested (including available-for-sale financial assets), dividend income, gains on the disposal of available-for-sale financial assets, changes in the fair value of financial assets at fair value through profit or loss, and gains on hedging instruments that are recognized in profit or loss. Interest income is recognized as it accrues in profit or loss, using the effective interest rate method. Dividend income is recognized in profit or loss on the date that the Group's right to receive payment is established.

Finance costs comprise interest expense on borrowings, unwinding of the discount on provisions, changes in the fair value of financial assets at fair value through profit or loss, and losses on hedging instruments that are recognized in profit or loss. Interest expense on borrowings and debentures are recognized in profit or loss using the effective interest rate method.

(24) Income taxes

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognized in profit or loss except to the extent that it relates to a business combination, or items recognized directly in equity or in other comprehensive income.

Table of Contents**4. Significant Accounting Policies, Continued**

(24) Income taxes, Continued

(i) Current tax

Current tax is the expected tax payable or receivable on the taxable profit or loss for the year, using tax rates enacted or substantively enacted at the end of the reporting period and any adjustment to tax payable in respect of previous years. The taxable profit is different from the accounting profit for the period since the taxable profit is calculated excluding the temporary differences, which will be taxable or deductible in determining taxable profit (tax loss) of future periods, and non-taxable or non-deductible items from the accounting profit.

(ii) Deferred tax

Deferred tax is recognized, using the asset-liability method, in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The Group recognizes a deferred tax liability for all taxable temporary differences associated with investments in subsidiaries and associates, except to the extent that the Group is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. The Group recognizes a deferred tax asset for all deductible temporary differences arising from investments in subsidiaries and associates, to the extent that it is probable that the temporary difference will reverse in the foreseeable future and taxable profit will be available against which the temporary difference can be utilized.

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period and reduces the carrying amount to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or all of that deferred tax asset to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and deferred tax assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if (a) there is a legally enforceable right to offset the related current tax liabilities and assets, (b) they relate to income taxes levied by the same tax authority and (c) they intend to settle current tax liabilities and assets on a net basis. Income tax expense in relation to dividend payments is recognized when liabilities relating to the dividend payments are recognized.

Table of Contents

4. Significant Accounting Policies, Continued

(25) Earnings per share

The Group presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Parent Company by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for own shares held, for the effects of all dilutive potential ordinary shares, which comprise convertible notes and share options granted to employees.

(26) Discontinued operations

A discontinued operation is a component of the Group's business that represents a separate major line of business or geographical area of operations that has been disposed of or is held for sale, or is a subsidiary acquired exclusively with a view to resale. When an operation is classified as a discontinued operation, the comparative consolidated statement of comprehensive income is re-presented as if the operation had been discontinued from the start of the comparative period.

(27) New standards and interpretations not yet adopted

The following new standards, have been published and are mandatory for the Group for annual period beginning on January 1, 2018, and the Group has not early adopted them.

As of December 31, 2015, management is in the process of evaluating the impact of applying these standards on its financial position and results of operations.

1) K-IFRS 1109 Financial Instruments

K-IFRS 1109, published in December 2015, replaces the existing guidance in K-IFRS 1039, Financial Instruments: Recognition and Measurement. K-IFRS 1109 includes revised guidance on the classification and measurement of financial instruments, a new expected credit loss model for calculating impairment on financial assets, and new general hedge accounting requirements. It also carries forward the guidance on recognition and derecognition of financial instruments from K-IFRS 1039. K-IFRS 1109 is effective for annual periods beginning on or after January 1, 2018, with early adoption permitted.

2) K-IFRS 1115 Revenue from Contracts with Customers

K-IFRS 1115, published in December 2015, establishes a comprehensive framework for determining whether, how much and when revenue is recognized. It replaces existing revenue recognition guidance, including K-IFRS 1018, Revenue, K-IFRS 1011, Construction Contracts and K-IFRS 2113, Customer Loyalty Programmes. K-IFRS 1115 is effective for annual reporting periods beginning on or after January 1, 2018, with early adoption permitted.

Table of Contents**5. Operating Segments**

The Group's operating segments have been determined to be each business unit, for which the Group provides independent services and merchandise. The Group's reportable segments are: 1) cellular services, which include cellular voice service, wireless data service and wireless internet services, and 2) fixed-line telecommunication services, which include telephone services, internet services, and leased line services. All other operating segments, which include the Group's internet portal services and other immaterial operations, do not meet the quantitative thresholds to be considered reportable segments and are presented as others.

(1) Segment information as of and for the years ended December 31, 2015 and 2014 is as follows:

(In millions of won)

	2015					
	Cellular Services	Fixed-line telecommunication services	Others	Sub-total	Consolidation adjustments	Consolidated amount

Total liabilities	9,626,724	2,172,454	924,683	12,723,861	(30,898)	12,692,963

Intersegment sales and purchases are conducted on an arms-length basis and eliminated on consolidation. Since there are no intersegment sales of inventory, there is no unrealized intersegment profit to be eliminated on consolidation. The Group principally operates its business in its domestic market in Korea and the amounts outside of Korea are immaterial, therefore no entity-wide geographical information is presented.

No single customer contributed 10% or more to the Group's total revenue for the years ended December 31, 2015 and 2014.

Table of Contents**6. Restricted Deposits**

Deposits which are restricted in use as of December 31, 2015 and 2014 are summarized as follows:

(In millions of won)

	December 31, 2015	December 31, 2014
Short-term financial instruments		
Charitable fund(*)	₩ 79,500	86,000

Long-term investment securities	₩ 1,207,226	956,280

(*1) Unlisted equity securities whose fair value cannot be measured reliably are recorded at cost.

(*2) Equity investments are recorded at cost.

(*3) Details of maturity for the public bonds as of December 31, 2015 and 2014 are as follows:

(In millions of won)

	December 31, 2015	December 31, 2014
Less than 1 year	₩	158

(*4) During the year ended December 31, 2015, the Parent Company exercised the conversion right for the convertible bonds of Health Connect Co., Ltd., which were classified as available-for-sale financial assets. Health Connect Co., Ltd. has been classified as investments in associates (₩5,900 million) as the Parent Company obtained significant influence over the company. As a result of this transaction, investments in associates have increased by ₩5,900 million and the remaining convertible bonds of ₩560 million was fully redeemed.

Table of Contents**10. Assets and Liabilities Classified as Held for Sale**

During the year ended December 31, 2014, the Group entered into a disposal contract regarding the Group's ownership interests in Shenzhen E-eye High Tech Co., Ltd., the Parent Company's subsidiary. Assets and liabilities of the subsidiary amounting to ₩10,510 million and ₩408 million, were reclassified to assets and liabilities held for sale, respectively, and the carrying amount in excess of the fair value less cost to sell was recognized as impairment loss. The ownership interests of Shenzhen E-eye High Tech Co., Ltd. were disposed during the year ended December 31, 2015.

11. Business Combinations**(1) General information**

On April 1, 2015, Neosnetworks Co., Ltd., a subsidiary of the Parent Company, acquired an unmanned machine security business of Joeun Safe Co., Ltd., which manages facility guarding services, in order to expand infrastructure and enhance competitiveness of its security business.

The Group recognized the acquired assets and liabilities at fair value and the difference between the consideration and fair value of net assets as goodwill.

(2) Consideration paid and assets and liabilities transferred

Consideration paid and assets in succession recognized at the acquisition date are as follows:

(In millions of won)

	2015
Consideration paid	
Cash and cash equivalents	₩ 13,197
Accounts payable - other	1,858
	₩ 15,055
Assets transferred	
Property and equipment	₩ 3,208
Intangible assets	8,486
Other assets	1,603
	₩ 13,297

(3) During the year ended December 31, 2015, hoppin service division of SK Planet Co., Ltd., a subsidiary of the Parent Company, was spun off from SK Planet Co., Ltd. and was merged into SK Broadband, Co., Ltd. There is no impact on the consolidated financial statements as it is a business combination under common

control.

(In millions of won)

	December 31, 2015		December 31, 2014	
	Carrying amount	Fair value	Carrying amount	Fair value
Land	₩ 10,634	6,009	10,418	6,056
Buildings	4,437	4,261	4,579	4,288
	₩ 15,071	10,270	14,997	10,344

The fair value of investment property was appraised on the basis of market price by an independent appraisal company.

Table of Contents**14. Investment Property, Continued**

(4) Income (expense) from investment property for the years ended December 31, 2015 and 2014 are as follows:

(In millions of won)

	2015	2014
Rent revenue	₩ 850	896
Operating expense	(240)	(239)

15. Goodwill

(1) Goodwill as of December 31, 2015 and 2014 is as follows:

(In millions of won)

	December 31, 2015	December 31, 2014
Goodwill related to acquisition of Shinsegi Telecom, Inc.	₩ 1,306,236	1,306,236
Goodwill related to acquisition of SK Broadband Co., Ltd.	358,443	358,443
Other goodwill	243,911	252,916
	₩ 1,908,590	1,917,595

Goodwill is allocated to the following CGUs for the purpose of impairment testing.

Shinsegi Telecom, Inc.(*1): cellular services

SK Broadband Co., Ltd.(*2): fixed-line telecommunication services

Other: other

(*1) Shinsegi Telecom, Inc.

The recoverable amount of the CGU is based on its value in use calculated by applying the annual discount rate of 4.9% to the estimated future cash flows based on financial budgets for the next five years. An annual growth rate of 0.62% was applied for the cash flows expected to be incurred after five years and is not expected to exceed the Group's long-term wireless telecommunication business growth rate. Management of the Group does not expect the total carrying amount of the CGU will exceed the total recoverable amount due to reasonably possible changes from the major assumptions used to estimate the recoverable amount.

(*2) Goodwill related to acquisition of SK Broadband Co., Ltd.

The recoverable amount of the CGU is based on its value in use calculated by applying the annual discount rate of 5.3% to the estimated future cash flows based on financial budgets for the next five years. An annual growth rate of 1.0%, the Group's long-term fixed-line telecommunication business growth rate, was applied for the cash flows expected to be incurred after five years. Management of the Group does not expect the total carrying amount of the CGU will exceed the total recoverable amount due to reasonably possible changes from the major assumptions used to estimate the recoverable amount.

Table of Contents**20. Leases, Continued****(2) Operating Leases**

The Group entered into operating leases and sublease agreements in relation to rented office space and the expected future lease payments and lease revenues as of December 31, 2015 and 2014 (included in other non-operating income in the accompanying consolidated statements of income) are as follows:

(In millions of won)

	2015		2014	
	Lease payments	Lease revenues	Lease payments	Lease revenues
Less than 1 year	₩ 32,416	1,876	29,233	3,496
1~5 years	75,568	1,026	76,306	1,390
More than 5 years	33,602	577	49,582	1,043
	₩ 141,586	3,479	155,121	5,929

(3) Sale and Leaseback Transaction

During the year ended December 31, 2012, the Group disposed a portion of its property and equipment and investment property, and entered into lease agreements with respect to those assets. This sale and leaseback transaction is considered as an operating lease. The Group recognized ₩14,539 million and ₩14,075 million of lease payments in relation to the operating lease agreement for the years ended December 31, 2015 and 2014, respectively, and ₩2,393 million and ₩2,469 million of lease revenues in relation to the sublease agreement for the years ended December 31, 2015 and 2014, respectively. Expected future lease payments and lease revenues are included in Note 20-(2).

Table of Contents**21. Defined Benefit Liabilities**

(1) Details of defined benefit liabilities as of December 31, 2015 and 2014 are as follows:

(In millions of won)

	December 31, 2015	December 31, 2014
Present value of defined benefit obligations	₩ 525,269	437,844
Fair value of plan assets	(426,413)	(346,257)
	₩ 98,856	91,587

(2) Principal actuarial assumptions as of December 31, 2015 and 2014 are as follows:

	December 31, 2015	December 31, 2014
Discount rate for defined benefit obligations	1.90%~2.93%	2.23% ~ 3.70%
Expected rate of salary increase	2.51%~7.04%	2.51% ~ 7.39%

Discount rate for defined benefit obligation is determined based on the Group's credit ratings and yield rate of corporate bonds with similar maturities for estimated payment term of defined benefit obligation. Expected rate of salary increase is determined based on the Group's historical promotion index, inflation rate and salary increase ratio in accordance with salary agreement.

(3) Changes in defined benefit obligations for the years ended December 31, 2015 and 2014 are as follows:

(In millions of won)

	For the year ended December 31	
	2015	2014
Beginning balance	₩ 437,844	312,494
Current service cost	106,764	109,625
Interest cost	12,292	12,630
Remeasurement		
- Demographic assumption	732	2,859
- Financial assumption	5,900	28,287
- Adjustment based on experience	15,100	9,932
Benefit paid	(58,513)	(46,531)
Others(*)	5,150	8,548
Ending balance	₩ 525,269	437,844

- (*) Others for the year ended December 31, 2015 include liabilities of ₩3,470 million succeeded due to transfer of employees from associates and transfer to construction in progress, etc. Others for the year ended December 31, 2014 include the effect of changes in the consolidation scope of ₩2,939 million, liabilities of ₩4,433 million succeeded due to transfer of employees from associates, and transfer to construction in progress, etc.

Table of Contents**21. Defined Benefit Liabilities, Continued**

Table of Contents**22. Derivative Instruments, Continued**

- (2) As of December 31, 2015, fair values of the above derivatives recorded in assets or liabilities and details of derivative instruments are as follows:

(In millions of won and thousands of foreign currencies)

Hedged item	Accumulated gain (loss) on valuation of derivatives	Cash flow hedge Tax effect	Fair value		Held for trading purpose	Total
			Accumulated foreign currency translation (gain) loss	Others (*)		
Non-current assets:						
Structured bond (face value of KRW 150,000)	₩				6,277	6,277
Fixed-to-fixed cross currency swap (U.S. dollar denominated bonds face value of USD 400,000)	(46,616)	(14,883)	11,180	129,806		79,487
Fixed-to-fixed cross currency swap (U.S. dollar denominated bonds face value of USD 700,000)	(18,705)	(5,971)	56,738			32,062
Floating-to-fixed cross currency interest rate swap (U.S. dollar denominated bonds face value of USD 300,000)	(5,748)	(1,835)	26,439			18,856
Fixed-to-fixed cross currency swap (U.S. dollar denominated bonds face value of USD 300,000)	(6,394)		32,870			26,476
Fixed-to-fixed long-term borrowings (U.S. dollar denominated bonds face value of USD 74,817)	(4,072)	(1,300)	8,613			3,241
Total assets					₩	166,399
Non-current liabilities:						
Fixed-to-fixed cross currency swap (Swiss Franc denominated bonds face value of CHF 300,000)	₩ (3,678)	(1,174)	(7,851)			(12,703)
Fixed-to-fixed cross currency swap (U.S. dollar denominated bonds face value of AUD 300,000)	2,013	642	(79,248)			(76,593)
Total liabilities					₩	(89,296)

- (*) Cash flow hedge accounting has been applied to the relevant contracts from May 12, 2010. Others represent gain on valuation of currency swap incurred prior to the application of hedge accounting and was recognized through profit or loss prior to the year ended December 31, 2013.

Table of Contents**23. Share Capital and Capital Surplus and Other Capital Adjustments**

The Parent Company's outstanding share capital consists entirely of common stock with a par value of ₩500. The number of authorized, issued and outstanding common shares and capital surplus and other capital adjustments as of December 31, 2015 and 2014 are as follows:

(In millions of won, except for share data)

	December 31, 2015	December 31, 2014
Authorized shares	220,000,000	220,000,000
Issued shares(*1)	80,745,711	80,745,711
Share capital		
Common stock	₩ 44,639	44,639
Capital surplus and other capital adjustments:		
Paid-in surplus	2,915,887	2,915,887
Treasury stock(Note 24)	(2,260,626)	(2,139,683)
Loss on disposal of treasury stock		(18,087)
Hybrid bonds(Note 25)	398,518	398,518
Others	(864,269)	(878,637)
	₩ 189,510	277,998

(*1) During the years ended December 31, 2003, 2006 and 2009, the Parent Company retired 7,002,235 shares, 1,083,000 shares and 448,000 shares, respectively, of treasury stock which reduced its retained earnings before appropriation in accordance with the Korean Commercial Act. As a result, the Parent Company's outstanding shares have decreased without change in the share capital.

There were no changes in share capital for the years ended December 31, 2015 and 2014. Changes in number of shares outstanding for the years ended December 31, 2015 and 2014 as follows:

<i>(In shares)</i>	2015			2014		
	Issued shares	Treasury stock	Outstanding shares	Issued shares	Treasury stock	Outstanding shares
Beginning issued shares	80,745,711	9,809,375	70,936,336	80,745,711	9,809,375	70,936,336
Disposal of treasury stock		(1,692,824)	1,692,824			
Acquisition of treasury stock		2,020,000	(2,020,000)			
Ending issued shares	80,745,711	10,136,551	70,609,160	80,745,711	9,809,375	70,936,336

Table of Contents**24. Treasury Stock**

The Parent Company acquired treasury stock to provide stock dividends, merge with Shinsegi Telecom, Inc. and SK IMT Co, Ltd., increase shareholder value and to stabilize its stock prices when needed.

Treasury stock as of December 31, 2015 and 2014 are as follows:

(In millions of won, shares)

	December 31, 2015	December 31, 2014
Number of shares	10,136,551	9,809,375
Amount	₩ 2,260,626	2,139,683

On June 9, 2015, the Parent Company granted 1,692,824 shares of its treasury stock (acquisition cost: ₩369,249 million) in order to acquire shares of SK Broadband Co., Ltd. In addition, from September 30, 2015 to December 11, 2015, the Parent Company newly acquired 2,020,000 shares of its treasury stock amounting to ₩490,192 million in order to stabilize stock price.

25. Hybrid Bond

Hybrid bonds classified as equity as of December 31, 2015 are as follows:

(In millions of won)

	Type	Issuance date	Maturity	Annual interest rate(%)	Amount
Private hybrid bonds	Blank coupon unguaranteed subordinated bond	June 7, 2013	June 7, 2073(*1)	4.21(*2)	₩ 400,000
Issuance costs					(1,482)
					₩ 398,518

Hybrid bonds issued by the Parent Company is classified as equity as there is no contractual obligation for delivery of financial assets to the bond holders. These are subordinated bonds which rank before common shareholders in the event of a liquidation or reorganization of the Parent Company.

(*1) The Parent Company has a right to extend the maturity under the same issuance terms without any notice or announcement. The Parent Company also has the right to defer interest payment at its sole discretion.

(*2) Annual interest rate is adjusted after five years from the issuance date.

Table of Contents**26. Retained Earnings**

(1) Retained earnings as of December 31, 2015 and 2014 are as follows:

(In millions of won)

	December 31, 2015	December 31, 2014
Appropriated:		
Legal reserve	₩ 22,320	22,320
Reserve for research & manpower development	87,301	151,533
Reserve for business expansion	9,671,138	9,476,138
Reserve for technology development	2,616,300	2,416,300
	12,397,059	12,066,291
Unappropriated	2,610,568	2,122,300
	₩ 15,007,627	14,188,591

(2) Legal reserve

The Korean Commercial Act requires the Parent Company to appropriate as a legal reserve at least 10% of cash dividends paid for each accounting period until the reserve equals 50% of outstanding share capital. The legal reserve may not be utilized for cash dividends, but may only be used to offset a future deficit, if any, or may be transferred to share capital.

(3) Reserve for research & manpower development

The reserve for research and manpower development was appropriated in order to recognize certain tax deductible benefits through the early recognition of future expenditures for tax purposes. These reserves will be reversed from appropriated and retained earnings in accordance with the relevant tax laws. Such reversal will be included in taxable income in the year of reversal.

27. Reserves

(1) Details of reserves, net of taxes, as of December 31, 2015 and 2014 are as follows:

Available-for-sale financial assets	₩ 21,787	24,533
Bad debt for accounts receivable - trade	60,450	45,754
Bad debt for accounts receivable - other	15,323	17,943
	₩ 97,560	88,230

31. Income Tax Expense for Continuing Operations

- (1) Income tax expenses for continuing operations for the years ended December 31, 2015 and 2014 consist of the following:

(In millions of won)

	2015	2014
Current tax expense		
Current tax payable	₩ 417,022	181,273
Adjustments recognized in the period for current tax of prior periods	(4,124)	(19,938)
	412,898	161,335
Deferred tax expense		
Changes in net deferred tax assets	102,305	276,049
Tax directly charged to equity	4,669	16,929
Changes in scope of consolidation	(575)	
Others (exchange rate differences, etc.)	183	195
	106,582	293,173
Income tax for continuing operation	₩ 519,480	454,508

Table of Contents**31. Income Tax Expense for Continuing Operations, Continued**

- (2) The difference between income taxes computed using the statutory corporate income tax rates and the recorded income taxes for the years ended December 31, 2015 and 2014 is attributable to the following:

(In millions of won)

	2015	2014
Income taxes at statutory income tax rates	₩ 492,096	544,964
Non-taxable income	(85,589)	(32,277)
Non-deductible expenses	44,770	61,580
Tax credit and tax reduction	(25,756)	(33,581)
Changes in unrealizable deferred taxes	83,623	(43,820)
Others (income tax refund and tax rate differences, etc.)	10,336	(42,358)
Income tax for continuing operation	₩ 519,480	454,508

Tax rates applied for the above taxable income for the years ended December 31, 2015 and 2014 are corporate income tax rates applied for taxable income in Republic of Korea, of which SK Telecom Co., Ltd., the Parent Company, is located.

- (3) Deferred taxes directly charged to (credited from) equity for the years ended December 31, 2015 and 2014 are as follows:

(In millions of won)

	2015	2014
Net change in fair value of available-for-sale financial assets	₩ 2,461	(4,089)
Share of other comprehensive income of associates	(63)	(72)
Gain or loss on valuation of derivatives	(448)	12,188
Remeasurement of defined benefit liabilities	2,719	8,902
	₩ 4,669	16,929

- (5) Details of temporary differences, unused tax loss carryforwards and unused tax credits carryforwards which are not recognized as deferred tax assets (liabilities), as the Group does not believe it is probable that the deferred tax assets will be realizable in the future, in the consolidated statements of financial position as of December 31, 2015 and 2014 are as follows:

(In millions of won)

	December 31, 2015	December 31, 2014
Allowance for doubtful accounts	₩ 182,266	155,634
Investments in subsidiaries and associates	281,719	422,033
Other temporary differences	285,845	314,188
Unused tax loss carryforwards	1,034,070	729,570
Unused tax credit carryforwards	2,271	2,438
	₩ 1,786,171	1,623,863

- (6) The expirations of unused tax loss carryforwards and unused tax credit carryforwards which are not recognized as deferred tax assets as of December 31, 2015 are as follows:

(In millions of won)

	Unused tax loss carryforwards	Unused tax credit carryforwards
Less than 1 year	₩ 4,894	1,041
1 ~ 2 years		155
2 ~ 3 years		870
More than 3 years	1,029,176	205
	₩ 1,034,070	2,271

Table of Contents**32. Earnings per Share**

(1) Basic earnings per share

- 1) Basic earnings per share for the years ended December 31, 2015 and 2014 are calculated as follows:

(In millions of won, shares)

	2015	2014
Basic earnings per share attributable to owners of the Parent Company:		
Profit attributable to owners of the Parent Company	₩ 1,518,604	1,801,178
Interest on hybrid bond	(16,840)	(16,840)
Profit attributable to owners of the Parent Company on common shares	1,501,764	1,784,338
Weighted average number of common shares outstanding	71,551,966	70,936,336
Basic earnings per share (In won)	₩ 20,988	25,154

- 2) The weighted average number of common shares outstanding for the years ended December 31, 2015 and 2014 are calculated as follows:

(In shares)

	2015	2014
Outstanding common shares	80,745,711	80,745,711
Weighted number of treasury stocks	(9,193,745)	(9,809,375)
Weighted average number of common shares outstanding	71,551,966	70,936,336

(2) Diluted earnings per share

For the year ended December 31, 2015 and 2014, there were no potentially dilutive shares. Therefore, diluted earnings per share for the years ended December 31, 2015 and 2014 are the same as basic earnings per share.

Table of Contents**33. Dividends**

(1) Details of dividends declared

Details of dividend declared for the years ended December 31, 2015 and 2014 are as follows:

(In millions of won, except for face value and share data)

Year	Dividend type	Number of shares outstanding	Face value (In won)	Dividend ratio	Dividends
2015	Cash dividends (interim)	72,629,160	500	200%	72,629
	Cash dividends (year-end)	70,609,160	500	1800%	635,482
					708,111
2014	Cash dividends (interim)	70,936,336	500	200%	70,937
	Cash dividends (year-end)	70,936,336	500	1680%	595,865
					666,802

(2) Dividends payout ratio

Dividends payout ratios for the years ended December 31, 2015 and 2014 are as follows:

(In millions of won)

Year	Dividends calculated	Profit	Dividends payout ratio
2015	₩ 708,111	1,518,604	46.63%
2014	₩ 666,802	1,801,178	37.02%

(3) Dividends yield ratio

Dividends yield ratios for the years ended December 31, 2015 and 2014 are as follows:

(In won)

Year	Dividend type	Dividend per share	Closing price at settlement	Dividend yield ratio
2015	Cash dividends	10,000	215,500	4.64%
2014	Cash dividends	9,400	268,000	3.51%

Finance lease liabilities		26
Other non-current liabilities	23,542	27,801
	₩ 2,970,801	3,241,615

35. Financial Risk Management

(1) Financial risk management

The Group is exposed to credit risk, liquidity risk and market risk. Market risk is the risk related to the changes in market prices, such as foreign exchange rates, interest rates and equity prices. The Group implements a risk management system to monitor and manage these specific risks.

The Group's financial assets under financial risk management consist of cash and cash equivalents, financial instruments, available-for-sale financial assets, trade and other receivables. Financial liabilities consist of trade and other payables, borrowings, and debentures.

1) Market risk

(i) Currency risk

The Group is exposed to currency risk mainly on exchange fluctuations on recognized assets and liabilities. The Group manages currency risk by currency forward, etc. if needed to hedge currency risk on business transactions. Currency risk occurs on forecasted transaction and recognized assets and liabilities which are denominated in a currency other than the functional currency of the Group.

Table of Contents**35. Financial Risk Management, Continued**

(1) Financial risk management, Continued

1) Market risk, Continued

(i) Currency risk, Continued

Monetary foreign currency assets and liabilities as of December 31, 2015 are as follows:

(In millions of won, thousands of U.S. dollars, thousands of Euros, thousands of Japanese Yen, thousands of other currencies)

	Assets		Liabilities	
	Foreign currencies	Won translation	Foreign currencies	Won translation
USD	162,322	₩ 189,763	1,836,860	₩ 2,152,800
EUR	23,421	30,005	257	328
JPY	24,462	238	695	7
AUD			299,023	255,097
CHF			299,403	354,909
Others	4,995	1,148	291	121
		₩ 221,154		₩ 2,763,262

In addition, the Group has entered into cross currency swaps to hedge against currency risk related to foreign currency borrowings and debentures. (Refer to Note 22)

As of December 31, 2015, effects on income (loss) before income tax as a result of change in exchange rate by 10% are as follows:

(In millions of won)

	If increased by 10%	If decreased by 10%
USD	₩ 9,600	(9,600)
EUR	2,934	(2,934)
JPY	23	(23)
Others	100	(100)
	₩ 12,657	(12,657)

(ii) Equity price risk

The Group has equity securities which include listed and non-listed securities for its liquidity and operating purpose. As of December 31, 2015, available-for-sale equity instruments measured at fair value amount to ₩1,076,291 million.

(iii) Interest rate risk

Since the Group's interest bearing assets are mostly fixed-interest bearing assets, as such, the Group's revenue and operating cash flow are not influenced by the changes in market interest rates. However, the Group still has interest rate risk arising from borrowings and debentures.

Accordingly, the Group performs various analysis of interest rate risk, which includes refinancing, renewal, alternative financing and hedging instrument option, to reduce interest rate risk and to optimize its financing.

Table of Contents**35. Financial Risk Management, Continued**

(1) Financial risk management, Continued

1) Market risk, Continued

(iii) Interest rate risk, Continued

The interest rate risk arises from the Group's floating-rate borrowings and bonds agreements. As of December 31, 2015, the floating-rate borrowings and bonds are ₩20,573 million and ₩351,600 million, respectively, and the Group has entered into interest rate swap agreements, as described in Note 22, for all floating-rate bonds to hedge the interest rate risk of floating-rate bonds. On the other hand, if the interest rate increases (decreases) 1% with all other variables held constant, income before income taxes for the year ended December 31, 2015, fluctuates as much as ₩206 million due to the interest expense on floating-rate borrowings that have not entered into an interest rate swap agreement.

2) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet his/her contractual obligations. The maximum credit exposure as of December 31, 2015 and 2014 are as follows:

(In millions of won)

	2015	2014
Cash and cash equivalents	₩ 768,794	833,129
Financial instruments	701,713	313,699
Available-for-sale financial assets	3,430	15,498
Accounts receivable trade	2,390,110	2,460,686
Loans and receivables	1,102,403	1,123,507
Derivative financial assets	166,399	70,035
Financial assets at fair value through profit or loss		7,817
	₩ 5,132,849	4,824,371

To manage credit risk, the Group evaluates the credit worthiness of each customer or counterparty considering the party's financial information, its own trading records and other factors; based on such information, the Group establishes credit limits for each customer or counterparty.

For the year ended December 31, 2015, the Group has no trade and other receivables or loans which have indications of significant impairment loss or are overdue for a prolonged period. As a result, the Group believes that the possibility of default is remote. Also, the Group's credit risk can rise due to transactions with financial institutions related to its cash and cash equivalents, financial instruments and derivatives. To minimize such risk, the Group has a policy to deal with high credit worthy financial institutions. The amount of maximum exposure to credit risk of the Group is the carrying amount of financial assets as of December 31, 2015.

In addition, the aging of trade and other receivables that are over-due at the end of the reporting period but not impaired is stated in Note 7 and the analysis of financial assets that are individually determined to be impaired at the end of the reporting period is stated in Note 30.

Table of Contents**35. Financial Risk Management, Continued**

(1) Financial risk management, Continued

3) Liquidity risk

The Group's approach to managing liquidity is to ensure that it will always maintain sufficient cash and cash equivalents balances and have enough liquidity through various committed credit lines. The Group maintains flexibly enough liquidity under credit lines through active operating activities.

Contractual maturities of financial liabilities as of December 31, 2015 are as follows:

(In millions of won)

	Carrying amount	Contractual cash flows	Less than 1 year	1 - 5 years	More than 5 years
Accounts payable - trade	₩ 279,782	279,782	279,782		
Borrowings(*1)	415,134	428,012	298,118	109,200	20,694
Debentures(*1)	7,108,653	8,514,028	897,895	4,516,896	3,099,237
Accounts payable - other and others(*2)	2,970,801	3,030,356	2,330,565	578,643	121,148
	₩ 10,774,370	12,252,178	3,806,360	5,204,739	3,241,079

The Group does not expect that the cash flows included in the maturity analysis could occur significantly earlier or at different amounts.

(*1) Includes estimated interest to be paid and excludes discounts on borrowings and debentures.

(*2) Excludes discounts on accounts payable-other and others.

As of December 31, 2015, periods which cash flows from cash flow hedge derivatives are expected to be incurred are as follows:

(In millions of won)

	Carrying amount	Contractual cash flows	Less than 1 year	1 - 5 years	More than 5 years
Assets	₩ 160,122	171,808	1,894	138,980	30,934
Liabilities	(89,296)	(92,498)	(4,882)	(87,616)	
	₩ 70,826	79,310	(2,988)	51,364	30,934

Table of Contents**35. Financial Risk Management, Continued****(2) Capital management**

The Group manages its capital to ensure that it will be able to continue as a business while maximizing the return to shareholders through the optimization of its debt and equity balance. The overall strategy of the Group is the same as that of the group as of and for the year ended December 31, 2014.

The Group monitors its debt-equity ratio as a capital management indicator. This ratio is calculated as total liabilities divided by total equity which are extracted from the financial statements.

Debt-equity ratio as of December 31, 2015 and 2014 are as follows:

<i>(In millions of won)</i>			
		December 31, 2015	December 31, 2014
Liabilities	₩	13,207,291	12,692,963
Equity		15,374,096	15,248,270
Debt-equity ratio		85.91%	83.24%

Accounts payable - other and others(*1)	3,241,615				
	₩ 10,162,937		7,063,915		7,063,915

(*1) Does not include fair values of financial assets and liabilities of which fair values have not been measured as carrying amounts are closed to the reasonable approximate fair values.

(*2) Equity instruments which do not have quoted price in an active market for the identical instruments (inputs for level 1) are measured at cost in accordance with K-IFRS 1039 as such equity instruments cannot be reliably measured using other methods.

Fair value of the financial instruments that are traded in an active market (available-for-sale financial assets, financial liabilities at fair value through profit or loss, etc.) is measured based on the bid price at the end of the reporting date.

Table of Contents**35. Financial Risk Management, Continued****(3) Fair value, Continued**

The Group uses various valuation methods for valuation of fair value of financial instruments that are not traded in an active market. Fair value of available-for-sale securities is determined using the market approach methods and financial assets through profit or loss are measured using the option pricing model. In addition, derivative financial contracts and long-term liabilities are measured using the present value methods. Inputs used to such valuation methods include swap rate, interest rate, and risk premium, and the Group performs valuation using the inputs which are consistent with natures of assets and liabilities being evaluated.

Fair values of accounts receivable - trade, and accounts payable - trade are considered to be carrying amount less impairment and fair value of financial liabilities for the disclosure purpose is estimated by discounting contractual future cash flows using the current market interest rate used for the similar financial instruments by the Group.

Interest rates used by the Group for the fair value measurement as of December 31, 2015 are as follows:

	Interest rate
Derivative instruments	1.92 ~ 2.37%
Borrowings and debentures	2.12 ~ 3.34%

3) There have been no transfers from Level 2 to Level 1 in 2015 and changes of financial assets classified as Level 3 for the year ended December 31, 2015 are as follows:

	Balance at Jan. 1	Acquisition	Loss for the period	Other comprehensive loss	Disposal	Others	Balance at Dec. 31
Available-for-sale financial assets	142,326	3,103	(449)	(2,379)	(30,359)	18,829	131,071

- (5) As of December 31, 2015, there are no collateral or guarantee provided by the Group to related parties nor by related parties to the Group.
- (6) M&Service Co., Ltd., a subsidiary of the Parent Company, entered into performance agreement with SK Energy Co., Ltd. and provides a blank note to SK Energy Co., Ltd., with regard to this transaction.
- (7) During the year ended December 31, 2014, the Group acquired convertible bonds with a face value of ₩6,000 million from Health Connect Co., Ltd. at the face value. During the year ended December 31, 2015, the Parent Company exercised the conversion right for the convertible bonds of Health Connect Co., Ltd. As a result of this transaction, investments in associates have increased by ₩5,900 million.
- (8) As of December 31, 2015 the Parent Company has established a right of pledge on its capital investment for Entrix Co., Ltd., a subsidiary of the Parent Company, amounting to ₩10,000 million.
- (9) There were additional investments in associates and joint ventures during the year ended December 31, 2015. (See Note 12)

Table of Contents

37. Commitments and Contingencies

(1) Collateral assets and commitments

SK Broadband Co., Ltd., a subsidiary of the Parent Company, has pledged its properties as collateral for leases on buildings in the amount of ₩10,193 million as of December 31, 2015.

SK Broadband Co., Ltd., a subsidiary of the Parent Company, has guaranteed for employees borrowings relating to employee stock ownership and provided short-term financial instruments amounting to ₩1,219 million as collateral as of December 31, 2015.

(2) Legal claims and litigations

As of December 31, the Group is involved in various legal claims and litigation. Provision recognized in relation to these claims and litigation is immaterial. For those legal claims and litigation for which no provision was recognized, management does not believe the Group has a present obligation for these matters, nor is it expected any of these claims or litigation will have a significant impact on the Group's financial position or operating results in the event an outflow of resources is ultimately necessary.

(3) Guarantee provided

PS&Marketing Corporation, a subsidiary of the Parent Company, obtained ₩3,000 million of payment guarantees from Shinhan Bank, in relation to handsets purchased from the Apple Computer Korea Ltd.

Independent Auditors' Report

Based on a report originally issued in Korean

To The Board of Directors and Shareholders

SK Telecom Co., Ltd.:

We have audited the accompanying separate financial statements of SK Telecom Co., Ltd. (the Company) which comprise the separate statements of financial position as at December 31, 2015 and 2014, the separate statements of income, comprehensive income, changes in equity and cash flows for the years then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Separate Financial Statements

Management is responsible for the preparation and fair presentation of these separate financial statements in accordance with Korean International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of separate financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these separate financial statements based on our audits. We conducted our audits in accordance with Korean Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the separate financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the separate financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the separate financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the separate financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the separate financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the separate financial statements present fairly, in all material respects, the separate financial position of the Company as at December 31, 2015 and 2014 and of its separate financial performance and its separate cash flows for the years then ended in accordance with Korean International Financial Reporting Standards.

Table of Contents**1. Reporting Entity**

SK Telecom Co., Ltd. (the Company) was incorporated in March 1984 under the laws of the Republic of Korea (Korea) to engage in providing cellular telephone communication services in Korea. The Company mainly provides wireless telecommunications in Korea. The Company s common shares and depositary receipts (DRs) are listed on the Stock Market of Korea Exchange, the New York Stock Exchange and the London Stock Exchange. As of December 31, 2015, the Company s total issued shares are held by the following:

	Number of shares	Percentage of total shares issued (%)
SK Holdings Co., Ltd.(*)	20,363,452	25.22
National Pension Service	6,963,591	8.63
Institutional investors and other minority stockholders	43,282,117	53.60
Treasury stock	10,136,551	12.55
Total number of shares	80,745,711	100.00

(*) During the year ended December 31, 2015, SK C&C Co., Ltd., the ultimate controlling entity s investee accounted using equity method, merged SK Holdings Co., Ltd., the ultimate controlling entity of the Company, and changed its name to SK, Holdings Co., Ltd.

2. Basis of Presentation**(1) Statement of compliance**

These separate financial statements were prepared in accordance with Korean International Financial Reporting Standards (K-IFRS), as prescribed in the *Act on External Audits of Stock Companies in the Republic of Korea*.

These financial statements are separate financial statements prepared in accordance with K-IFRS No.1027, *Separate Financial Statements* presented by a parent, an investor with joint control of, of significant influence over, an investee, in which the investments are accounted for at cost.

The separate financial statements were authorized for issuance by the Board of Directors on February 3, 2016, which will be submitted for approval at the shareholders meeting to be held on March 18, 2016.

(2) Basis of measurement

The separate financial statements have been prepared on the historical cost basis, except for the following material items in the separate statement of financial position:

derivative financial instruments are measured at fair value

financial instruments at fair value through profit or loss are measured at fair value

available-for-sale financial assets are measured at fair value

liabilities for defined benefit plans are recognized at the net of the total present value of defined benefit obligations less the fair value of plan assets

(3) Functional and presentation currency

These separate financial statements are presented in Korean won, which is the Company's functional currency and the currency of the primary economic environment in which the Company operates.

Table of Contents

2. Basis of Presentation, Continued

(4) Use of estimates and judgments

The preparation of the separate financial statements in conformity with K-IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period prospectively.

1) Critical judgments

Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements is included in Note 4 for the following areas: revenue and classification of lease.

2) Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year are included in the following notes: allowance for doubtful accounts, estimated useful lives of property and equipment and intangible assets, impairment of goodwill, recognition of provision, measurement of defined benefit liabilities, and recognition of deferred tax assets (liabilities).

3) Fair value measurement

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Company has an established control framework with respect to the measurement of fair values. This includes a valuation team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the finance executive.

The valuation team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of K-IFRS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of an asset or a liability, the Company uses market observable data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Table of Contents

2. Basis of Presentation, Continued

(4) Use of estimates and judgments, continued

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Information about assumptions used for fair value measurements are included in Note 30.

(5) Common control transactions

SK Holdings Co., Ltd. (the Ultimate Controlling Entity) is the Ultimate Controlling Entity of the Company because it controls the Company. Accordingly, gains and losses from business acquisitions and dispositions involving entities that are under the control of the Ultimate Controlling Entity are accounted for as common control transactions within equity.

3. Changes in Accounting Policies

Except for the changes below, the Company has consistently applied the accounting policies set out in Note 4 to all periods presented in these financial statements.

The Company has adopted the following amendments to standards with a date of initial application of January 1, 2015.

1) K-IFRS 1019 Employee Benefits Employee contributions

Amendments to K-IFRS 1019 introduced a practical expedient to accounting for defined benefit plan, when employees or third parties pay contributions if certain criteria are met. According to the amendments, the entity is permitted to recognize those contributions as a reduction of the service cost in the period in which the related service is rendered, instead of forecast future contributions from employees or third parties and attribute them to periods or service as negative benefits.

There is no material impact of the application of this amendment on the Company's financial statements.

Table of Contents

4. Significant Accounting Policies

The significant accounting policies applied by the Company in preparation of its separate financial statements in accordance with K-IFRSs are included below. The accounting policies set out below have been applied consistently to all periods presented in these separate financial statements except for those as described in Note 3.

(1) Operating segments

The Company presents disclosures relating to operating segments on its separate financial statements in accordance with K-IFRS No. 1108, *Operating Segments* and such disclosures are not separately disclosed on these separate financial statements.

(2) Investments in subsidiaries and associates

These separate financial statements are prepared and presented in accordance with K-IFRS No. 1027, *Separate Financial Statements*. The Company applied the cost method to investments in subsidiaries and associates in accordance with K-IFRS No. 1027. Dividends from a subsidiary or associate are recognized in profit or loss when the right to receive the dividend is established.

(3) Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits with maturities of three months or less from the acquisition date that are subject to an insignificant risk of changes in their fair value, and are used by the Company in the management of its short-term commitments.

(4) Inventories

Inventories are stated at the acquisition cost using the average method. During the period, a perpetual inventory systems is used to value inventories, which is adjusted to the physical inventory counts performed at the period end. When the net realizable value of inventories is less than the acquisition cost, the carrying amount is reduced to the net realizable value and any difference is charged to current operations as operating expenses. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

Table of Contents

4. Significant Accounting Policies, Continued

(5) Non-derivative financial assets

The Company recognizes and measures non-derivative financial assets by the following four categories: financial assets at fair value through profit or loss, held-to-maturity investments, loans and receivables and available-for-sale financial assets. The Company recognizes financial assets in the separate statement of financial position when the Company becomes a party to the contractual provisions of the instrument.

Upon initial recognition, non-derivative financial assets are measured at their fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the asset's acquisition or issuance.

(i) Financial assets at fair value through profit or loss

A financial asset is classified as financial assets are classified at fair value through profit or loss if it is held for trading or is designated as such upon initial recognition. Upon initial recognition, transaction costs are recognized in profit or loss when incurred. Financial assets at fair value through profit or loss are measured at fair value, and changes therein are recognized in profit or loss.

(ii) Held-to-maturity investments

A non-derivative financial asset with a fixed or determinable payment and fixed maturity, for which the Company has the positive intention and ability to hold to maturity, are classified as held-to-maturity investments. Subsequent to initial recognition, held-to-maturity investments are measured at amortized cost using the effective interest rate method.

(iii) Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Subsequent to initial recognition, loans and receivables are measured at amortized cost using the effective interest method except for loans and receivables of which the effect of discounting is immaterial.

(iv) Available-for-sale financial assets

Available-for-sale financial assets are those non-derivative financial assets that are designated as available-for-sale or are not classified as financial assets at fair value through profit or loss, held-to-maturity investments or loans and receivables. Subsequent to initial recognition, they are measured at fair value, which changes in fair value, net of any tax effect, recorded in other comprehensive income in equity. Investments in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured are measured at cost.

Table of Contents**4. Significant Accounting Policies, Continued****(5) Non-derivative financial assets, Continued****(v) De-recognition of financial assets**

The Company derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Company is recognized as a separate asset or liability. If the Company retains substantially all the risks and rewards of ownership of the transferred financial assets, the Company continues to recognize the transferred financial assets and recognizes financial liabilities for the consideration received.

(vi) Offsetting between financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is presented in the statement of financial position only when the Company currently has a legally enforceable right to offset the recognized amounts, and there is the intention to settle on a net basis or to realize the asset and settle the liability simultaneously.

(6) Derivative financial instruments, including hedge accounting

Derivatives are initially recognized at fair value. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are accounted for as described below.

(i) Hedge accounting

The Company holds forward exchange contracts, interest rate swaps, currency swaps and other derivative contracts to manage interest rate risk and foreign exchange risk. The Company designated derivatives as hedging instruments to hedge the risk of changes in the fair value of assets, liabilities or firm commitments (a fair value hedge) and foreign currency risk of highly probable forecasted transactions or firm commitments (a cash flow hedge).

On initial designation of the hedge, the Company formally documents the relationship between the hedging instrument(s) and hedged item(s), including the risk management objectives and strategy in undertaking the hedge transaction, together with the methods that will be used to assess the effectiveness of the hedging relationship

Fair value hedge

Changes in the fair value of a derivative hedging instrument designated as a fair value hedge are recognized in profit or loss. The gain or loss from remeasuring the hedging instrument at fair value for a derivative hedging instrument and the gain or loss on the hedged item attributable to the hedged risk are recognized in profit or loss in the same line item of the statement of income. The Company discontinues fair value hedge accounting if the hedging instrument expires or is sold, terminated or exercised, or if the hedge no longer meets the criteria for hedge accounting. Any adjustment arising from gain or loss on the hedged item attributable to the hedged risk is amortized to profit or loss from the date the hedge accounting is discontinued.

4. Significant Accounting Policies, Continued

(6) Derivative financial instruments, including hedge accounting, Continued

Cash flow hedge

When a derivative is designated to hedge the variability in cash flows attributable to a particular risk associated with a recognized asset or liability or a highly probable forecasted transaction that could affect profit or loss, the effective portion of changes in the fair value of the derivative is recognized in other comprehensive income, net of tax, and presented in the hedging reserve in equity. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in profit or loss. If the hedging instrument no longer meets the criteria for hedge accounting, expires or is sold, terminated, exercised, or the designation is revoked, then hedge accounting is discontinued prospectively. The cumulative gain or loss on the hedging instrument that has been recognized in other comprehensive income is reclassified to profit or loss in the periods during which the forecasted transaction occurs. If the forecasted transaction is no longer expected to occur, then the balance in other comprehensive income is recognized immediately in profit or loss.

(ii) Separable embedded derivatives

Embedded derivatives are separated from the host contract and accounted for separately only if the following criteria have been met:

- (a) the economic characteristics and risks of the embedded derivative are not closely related to those of the host contract;
- (b) a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and
- (c) the hybrid instrument is not measured at fair value with changes in fair value recognized in profit or loss.

Changes in the fair value of separable embedded derivatives are recognized immediately in profit or loss.

(iii) Other derivative financial instruments

Changes in the fair value of other derivative financial instrument not designated as a hedging instrument are recognized immediately in profit or loss.

Table of Contents

4. Significant Accounting Policies, Continued

(7) Impairment of financial assets

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably. However, losses expected as a result of future events, regardless of likelihood, are not recognized.

Objective evidence that a financial asset is impaired includes following loss events:

significant financial difficulty of the issuer or obligor;

a breach of contract, such as default or delinquency in interest or principal payments;

the lender, for economic or legal reasons relating to the borrower's financial difficulty, granting to the borrower a concession that the lender would not otherwise consider;

it becoming probable that the borrower will enter bankruptcy or other financial reorganization;

the disappearance of an active market for that financial asset because of financial difficulties; or

observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the group.

In addition, for an investment in an equity security, a significant or prolonged decline in its fair value below its cost is objective evidence of impairment.

If financial assets have objective evidence that they are impaired, impairment losses should be measured and recognized.

(i) Financial assets measured at amortized cost

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount and the present value of its estimated future cash flows discounted at the asset's original effective interest rate. If it is not practicable to obtain the instrument's estimated future cash flows, impairment losses would be measured by using prices from any observable current market transactions. The Company can recognize impairment losses directly or establish a provision to cover impairment losses. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was

recognized (such as an improvement in the debtor's credit rating), the previously recognized impairment loss shall be reversed either directly or by adjusting an allowance account.

Table of Contents

4. Significant Accounting Policies, Continued

(7) Impairment of financial assets, Continued

(ii) Financial assets carried at cost

If there is objective evidence that an impairment loss has occurred on an unquoted equity instrument that is not carried at fair value because its fair value cannot be reliably measured, or on a derivative asset that is linked to and must be settled by delivery of such an unquoted equity instrument, the amount of the impairment loss is measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses shall not be reversed.

(iii) Available-for-sale financial assets

When a decline in the fair value of an available-for-sale financial asset has been recognized in other comprehensive income and there is objective evidence that the asset is impaired, the cumulative loss that had been recognized in other comprehensive income shall be reclassified from equity to profit or loss as a reclassification adjustment even though the financial asset has not been derecognized. Impairment losses recognized in profit or loss for an investment in an equity instrument classified as available-for-sale shall not be reversed through profit or loss. If, in a subsequent period, the fair value of a debt instrument classified as available-for-sale increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in profit or loss, the impairment loss shall be reversed, with the amount of the reversal recognized in profit or loss.

(8) Property, plant and equipment

Property, plant and equipment are initially measured at cost and after initial recognition, are carried at cost less accumulated depreciation and accumulated impairment losses. The cost of property, plant and equipment includes expenditures arising directly from the construction or acquisition of the asset, any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management and the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

Subsequent to initial recognition, an item of property, plant and equipment is carried at its cost less any accumulated depreciation and any accumulated impairment losses.

Table of Contents**4. Significant Accounting Policies, Continued****(8) Property, plant and equipment, Continued**

Subsequent costs are recognized in the carrying amount of property, plant and equipment at cost or, if appropriate, as separate items if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day servicing are recognized in profit or loss as incurred.

Property, plant and equipment, except for land, are depreciated on a straight-line basis over estimated useful lives that appropriately reflect the pattern in which the asset's future economic benefits are expected to be consumed. A component that is significant compared to the total cost of property, plant and equipment is depreciated over its separate useful life.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognized as other non-operating income (loss).

The estimated useful lives of the Company's property, plant and equipment are as follows:

	Useful lives (years)
Buildings and structures	15, 30
Machinery	3 ~ 6
Other property, plant and equipment (Other PP&E)	4 ~ 10

Depreciation methods, useful lives and residual values are reviewed at the end of each reporting date and adjusted, if appropriate. The change is accounted for as a change in an accounting estimate.

(9) Borrowing costs

The Company capitalizes borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset as part of the cost of that asset. Other borrowing costs are recognized in expense as incurred. A qualifying asset is an asset that requires a substantial period of time to get ready for its intended use or sale. Financial assets and inventories that are manufactured or otherwise produced over a short period of time are not qualifying assets. Assets that are ready for their intended use or sale when acquired are not qualifying assets.

To the extent that the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the Company determines the amount of borrowing costs eligible for capitalization as the actual borrowing costs incurred on that borrowing during the period less any investment income on the temporary investment of those borrowings. To the extent that the Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the Company shall determine the amount of borrowing costs eligible for capitalization by applying a capitalization rate to the expenditures on that asset. The capitalization rate shall be the weighted average of the borrowing costs applicable to the borrowings of the Company that are outstanding during the period, other than borrowings made

specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs that the Company capitalizes during a period shall not exceed the amount of borrowing costs incurred during that period.

Table of Contents**4. Significant Accounting Policies, Continued****(10) Intangible assets**

Intangible assets are measured initially at cost and, subsequently, are carried at cost less accumulated amortization and accumulated impairment losses.

Amortization of intangible assets except for goodwill is calculated on a straight-line basis over the estimated useful lives of intangible assets from the date that they are available for use. The residual value of intangible assets is zero. However, as there are no foreseeable limits to the periods over which club memberships are expected to be available for use, this intangible asset is determined as having indefinite useful lives and not amortized.

The estimated useful lives of the Company's intangible assets are as follows:

	Useful lives (years)
Frequency use rights	6.3 ~ 13.1
Land use rights	5
Industrial rights	5, 10
Development costs	5
Facility usage rights	10, 20
Other	3 ~ 20

Amortization periods and the amortization methods for intangible assets with finite useful lives are reviewed at the end of each reporting period. The useful lives of intangible assets that are not being amortized are reviewed at the end of each reporting period to determine whether events and circumstances continue to support indefinite useful life assessments for those assets. Changes are accounted for as changes in accounting estimates.

Expenditures on research activities, undertaken with the prospect of gaining new scientific or technical knowledge and understanding, are recognized in profit or loss as incurred. Development expenditures are capitalized only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Company intends to and has sufficient resources to complete development and to use or sell the asset. Other development expenditures are recognized in profit or loss as incurred.

Subsequent expenditures are capitalized only when they increase the future economic benefits embodied in the specific asset to which it relates. All other expenditures, including expenditures on internally generated goodwill and brands, are recognized in profit or loss as incurred.

Table of Contents

4. Significant Accounting Policies, Continued

(11) Government grants

Government grants are not recognized unless there is reasonable assurance that the Company will comply with the grant's conditions and that the grant will be received.

(i) Grants related to assets

Government grants whose primary condition is that the Company purchase, construct or otherwise acquire long-term assets are deducted in calculating the carrying amount of the asset. The grant is recognized in profit or loss over the life of a depreciable asset as a reduction to depreciation expense.

(ii) Grants related to income

Government grants which are intended to compensate the Company for expenses incurred are deducted from the related expenses.

(12) Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets, other than assets arising from employee benefits, inventories, deferred tax assets and non-current assets held for sale, are reviewed at the end of the reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill and intangible assets that have indefinite useful lives or that are not yet available for use, irrespective of whether there is any indication of impairment, are tested for impairment annually by comparing their recoverable amount to their carrying amount.

The Company estimates the recoverable amount of an individual asset, if it is impossible to measure the individual recoverable amount of an asset, then the Company estimates the recoverable amount of cash-generating unit (CGU). A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets. The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. The value in use is estimated by applying a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU for which estimated future cash flows have not been adjusted, to the estimated future cash flows expected to be generated by the asset or CGU.

An impairment loss is recognized in profit or loss if the carrying amount of an asset or a CGU exceeds its recoverable amount.

Goodwill acquired in a business combination is allocated to each CGU that is expected to benefit from the synergies arising from the goodwill acquired. Any impairment identified at the CGU level will first reduce the carrying value of goodwill and then be used to reduce the carrying amount of the other assets in the CGU on a pro rata basis. Except for impairment losses in respect of goodwill which are never reversed, an impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of

depreciation or amortization, if no impairment loss had been recognized.

4. Significant Accounting Policies, Continued

(13) Leases

The Company classifies and accounts for leases as either a finance or operating lease, depending on the terms. Leases where the Company assumes substantially all of the risks and rewards of ownership are classified as finance leases. All other leases are classified as operating leases.

(i) Finance leases

At the commencement of the lease term, the Company recognizes as finance assets and finance liabilities in its separate statements of financial position, the lower amount of the fair value of the leased property and the present value of the minimum lease payments, each determined at the inception of the lease. Any initial direct costs are added to the amount recognized as an asset.

Minimum lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability. Contingent rents are charged as expenses in the periods in which they are incurred.

The depreciable amount of a leased asset is allocated to each accounting period during the period of expected use on a systematic basis consistent with the depreciation policy the lessee adopts for depreciable assets that are owned. If there is no reasonable certainty that the lessee will obtain ownership by the end of the lease term, the asset is fully depreciated over the shorter of the lease term and its useful life. The Company reviews to determine whether the leased asset may be impaired.

(ii) Operating leases

Leases where the lessor retains a significant portion of the risks and rewards of ownership are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are recognized in profit or loss on a straight-line basis over the period of the lease.

(iii) Determining whether an arrangement contains a lease

Determining whether an arrangement is, or contains, a lease shall be based on the substance of the arrangement and requires an assessment of whether fulfillment of the arrangement is dependent on the use of a specific asset or assets (the asset) and the arrangement conveys a right to use the asset.

At inception or reassessment of the arrangement, the Company separates payments and other consideration required by such an arrangement into those for the lease and those for other elements on the basis of their relative fair values. If the Company concludes for a financial lease that it is impracticable to separate the payments reliably, the Company recognizes an asset and a liability at an amount equal to the fair value of the underlying asset that was identified as the subject of the lease. Subsequently, the liability shall be reduced as payments are made and an imputed finance charge on the liability recognized using the purchaser's incremental borrowing rate of interest.

Table of Contents

4. Significant Accounting Policies, Continued

(14) Non-current assets held for sale

Non-current assets, or disposal groups comprising assets and liabilities, that are expected to be recovered primarily through sale rather than through continuing use, are classified as held for sale. In order to be classified as held for sale, the asset (or disposal group) must be available for immediate sale in its present condition and its sale must be highly probable. The assets or disposal group that are classified as non-current assets held for sale are measured at the lower of their carrying amount and fair value less cost to sell. The Company recognizes an impairment loss for any initial or subsequent write-down of an asset (or disposal group) to fair value less costs to sell, and a gain for any subsequent increase in fair value less costs to sell, up to the cumulative impairment loss previously recognized in accordance with K-IFRS No. 1036, Impairment of Assets .

A non-current asset that is classified as held for sale or part of a disposal group classified as held for sale is not depreciated (or amortized).

(15) Non-derivative financial liabilities

The Company classifies non-derivative financial liabilities into financial liabilities at fair value through profit or loss or other financial liabilities in accordance with the substance of the contractual arrangement and the definitions of financial liabilities. The Company recognizes financial liabilities in the separate statement of financial position when the Company becomes a party to the contractual provisions of the financial liability.

(i) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading or designated as such upon initial recognition. Subsequent to initial recognition, financial liabilities at fair value through profit or loss are measured at fair value, and changes therein are recognized in profit or loss. Upon initial recognition, transaction costs that are directly attributable to the acquisition are recognized in profit or loss as incurred.

(ii) Other financial liabilities

Non-derivative financial liabilities other than financial liabilities at fair value through profit or loss are classified as other financial liabilities. At the date of initial recognition, other financial liabilities are measured at fair value minus transaction costs that are directly attributable to the acquisition. Subsequent to initial recognition, other financial liabilities are measured at amortized cost using the effective interest method.

The Company derecognizes a financial liability from the separate statements of financial position when it is extinguished (i.e. when the obligation specified in the contract is discharged, cancelled or expires).

Table of Contents

4. Significant Accounting Policies, Continued

(16) Employee benefits

(i) Short-term employee benefits

Short-term employee benefits are employee benefits that are due to be settled within 12 months after the end of the period in which the employees render the related service. When an employee has rendered service to the Company during an accounting period, the Company recognizes the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service.

(ii) Other long-term employee benefits

Other long-term employee benefits include employee benefits that are settled beyond 12 months after the end of the period in which the employees render the related service, and are calculated at the present value of the amount of future benefit that employees have earned in return for their service in the current and prior periods. Any changes from remeasurements are recognized through profit or loss in the period in which they arise.

(iii) Retirement benefits: defined contribution plans

When an employee has rendered service to the Company during a period, the Company recognizes the contribution payable to a defined contribution plan in exchange for that service as a liability (accrued expense), after deducting any contribution already paid. If the contribution already paid exceeds the contribution due for service before the end of the reporting period, the Company recognizes that excess as an asset (prepaid expense) to the extent that the prepayment will lead to a reduction in future payments or a cash refund.

(iv) Retirement benefits: defined benefit plans

As of the end of reporting period, defined benefits liabilities relating to defined benefit plans are recognized as present value of defined benefit obligations net of fair value of plan assets.

The calculation is performed annually by an independent actuary using the projected unit credit method. When the fair value of plan assets exceeds the present value of the defined benefit obligation, the Company recognizes an asset, to the extent of the present value of any economic benefits available in the form of refunds from the plan or reduction in the future contributions to the plan.

Remeasurements of the net defined benefit liability comprise of actuarial gains and losses, the return on plan assets excluding amounts included in net interest on the net defined benefit liability, and any change in the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and recognized in other comprehensive income. The Company determines net interests on net defined benefit liability (asset) by multiplying discount rate determined at the beginning of the annual reporting period and considers changes in net defined benefit liability (asset) from contributions and benefit payments. Net interest costs and other costs relating to the defined benefit plan are recognized through profit or loss.

When the plan amendment or curtailment occurs, gains or losses on amendment or curtailment in benefits for the past service provided are recognized through profit or loss. The Company recognizes gain or loss on a settlement when the settlement of defined benefit plan occurs.

Table of Contents

4. Significant Accounting Policies, Continued

(v) Termination benefits

The Company recognizes a liability and expense for termination benefits at the earlier of the period when the Company can no longer withdraw the offer of those benefits and the period when the Company recognizes costs for a restructuring that involves the payment of termination benefits. If benefits are payable more than 12 months after the reporting period, then they are discounted to their present value.

(17) Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The risks and uncertainties that inevitably surround many events and circumstances are taken into account in reaching the best estimate of a provision. Where the effect of the time value of money is material, provisions are determined at the present value of the expected future cash flows.

Where some or all of the expenditures required to settle a provision are expected to be reimbursed by another party, the reimbursement shall be recognized when, and only when, it is virtually certain that reimbursement will be received if the entity settles the obligation. The reimbursement shall be treated as a separate asset.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimates. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision is reversed.

A provision shall be used only for expenditures for which the provision was originally recognized.

(18) Foreign currencies

Transactions in foreign currencies are translated to the respective functional currencies of Company entities at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are retranslated to the functional currency using the reporting date's exchange rate. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined.

Foreign currency differences arising on retranslation are recognized in profit or loss, except for differences arising on the retranslation of available-for-sale equity instruments, a financial liability designated as a hedge of the net investment in a foreign operation, or qualifying cash flow hedges, which are recognized in other comprehensive income. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

Table of Contents

4. Significant Accounting Policies, Continued

(19) Equity capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of ordinary shares and share options are recognized as a deduction from equity, net of any tax effects.

When the Company repurchases its share capital, the amount of the consideration paid is recognized as a deduction from equity and classified as treasury shares. The profits or losses from the purchase, disposal, reissue, or retirement of treasury shares are not recognized as current profit or loss. If the Company acquires and retains treasury shares, the consideration paid or received is directly recognized in equity.

(20) Hybrid bond

The Company recognizes a financial instrument issued by the Company as an equity instrument if it does not include contractual obligation to deliver financial assets including cash to the counter party.

(21) Revenue

Revenue from the sale of goods, rendering of services or use of assets is measured at the fair value of the consideration received or receivable. Returns, trade discounts and volume rebates, and are recognized as a reduction of revenue.

(i) Services

Revenue from cellular services consists of revenue from basic charges, voice charges, data charges, data-roaming services and interconnection charges. Such revenues are recognized as services are performed. Revenues received for the activation of service are deferred and recognized over the average customer retention period.

Revenue from services rendered is recognized in profit or loss in proportion to the stage of completion of the transaction at the reporting date. The stage of completion is assessed by reference to surveys of work performed.

(ii) Goods sold

Revenue is recognized when persuasive evidence exists, usually in the form of an executed sales agreement, that the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing management involvement with the goods, and the amount of revenue can be measured reliably.

When two or more revenue generating activities or deliverables are sold under a single arrangement, each deliverable that is considered to be a separate unit of account is accounted for separately. The allocation of consideration from a revenue arrangement to its separate units of account is based on the relative fair values of each unit.

Table of Contents

4. Significant Accounting Policies, Continued

(21) Revenue, Continued

(iii) Customer loyalty programmes

For customer loyalty programmes, the fair value of the consideration received or receivable in respect of the initial sale is allocated between the award credits and the other components of the sale. The amount allocated to the award credits is estimated by reference to the fair value of the services to be provided with respect to the redeemable award credits. The fair value of the services to be provided with respect to the redeemable portion of the award credits granted to the customers in accordance with customer loyalty programmes is estimated taking into account the expected redemption rate and timing of the expected redemption. Considerations allocated to the award credits are deferred and revenue is recognized when the award credits are recovered and the Company performs its obligation to provide the service. The amount of revenue recognized is based on the relative size of the total award credits that are expected to be redeemed and the redeemed award credits in exchange for services.

(22) Finance income and finance costs

Finance income comprises interest income on funds invested (including available-for-sale financial assets), dividend income, gains on the disposal of available-for-sale financial assets, changes in the fair value of financial assets at fair value through profit or loss, and gains on hedging instruments that are recognized in profit or loss. Interest income is recognized as it accrues in profit or loss, using the effective interest method. Dividend income is recognized in profit or loss on the date that the Company's right to receive payment is established.

Finance costs comprise interest expense on borrowings, unwinding of the discount on provisions, changes in the fair value of financial assets at fair value through profit or loss, and losses on hedging instruments that are recognized in profit or loss. Interest expense on borrowings and debentures are recognized in profit or loss using the effective interest rate method.

Table of Contents

4. Significant Accounting Policies, Continued

(23) Income taxes

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognized in profit or loss except to the extent that it relates to items recognized directly in equity or in other comprehensive income.

(i) Current tax

Current tax is the expected tax payable or receivable on the taxable profit or loss for the year, using tax rates enacted or substantively enacted at the end of the reporting period and any adjustment to tax payable in respect of previous years. The taxable profit is different from the accounting profit for the period since the taxable profit is calculated excluding the temporary differences, which will be taxable or deductible in determining taxable profit (tax loss) of future periods, and non-taxable or non-deductible items from the accounting profit.

(ii) Deferred tax

Deferred tax is recognized, using the asset-liability method, in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The Company recognizes a deferred tax liability for all taxable temporary differences associated with investments in subsidiaries and associates, except to the extent that the Company is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. The Company recognizes a deferred tax asset for all deductible temporary differences arising from investments in subsidiaries and associates, to the extent that it is probable that the temporary difference will reverse in the foreseeable future and taxable profit will be available against which the temporary difference can be utilized.

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period and reduces the carrying amount to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or all of that deferred tax asset to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and deferred tax assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if there is a legally enforceable right to offset the related current tax liabilities and assets, and they relate to income taxes levied by the same tax authority and they intend to settle current tax liabilities and assets on a net basis. Income tax expense in relation to dividend payments is recognized when liabilities relating to the dividend payments are recognized.

Table of Contents

4. Significant Accounting Policies, Continued

(24) Earnings per share

The Company presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for own shares held, for the effects of all dilutive potential ordinary shares, which comprise convertible notes and share options granted to employees.

(25) New standards and interpretations not yet adopted

The following new standards and amendments to existing standards have been published and are mandatory for the Company for annual periods beginning on or after January 1, 2016, and the Company has not early adopted them.

As of December 31, 2015, management is in the process of evaluating the impact of applying these standards on its financial position and results of operations.

3) K-IFRS 1109 Financial Instruments

K-IFRS 1109, published in December 2015, replaces the existing guidance in K-IFRS 1039, Financial Instruments: Recognition and Measurement. K-IFRS 1109 includes revised guidance on the classification and measurement of financial instruments, a new expected credit loss model for calculating impairment on financial assets, and new general hedge accounting requirements. It also carries forward the guidance on recognition and derecognition of financial instruments from K-IFRS 1039. K-IFRS 1109 is effective for annual periods beginning on or after January 1, 2018, with early adoption permitted.

4) K-IFRS 1115 Revenue from Contracts with Customers

K-IFRS 1115, published in December 2015, establishes a comprehensive framework for determining whether, how much and when revenue is recognized. It replaces existing revenue recognition guidance, including K-IFRS 1018, Revenue, K-IFRS 1011 Construction Contracts and K-IFRS 2113 Customer Loyalty Programmes. K-IFRS 1115 is effective for annual reporting periods beginning on or after January 1, 2018, with early adoption permitted.

5) K-IFRS 1027 Separate Financial Statements

Amendments to K-IFRS 1027 introduced equity accounting as a third option in the entity's separate financial statements, in addition to the existing cost and equity method options. This amendment is effective for annual periods beginning on or after January 1, 2016, with early adoption permitted.

Table of Contents**5. Restricted Deposits**

Deposits which are restricted in use as of December 31, 2015 and 2014 are summarized as follows:

(In millions of won)

	December 31, 2015	December 31, 2014
Short-term financial instruments	₩	
Charitable fund(*)	79,000	85,500
Long-term financial instruments		
Charitable fund(*)	10,000	
Other	62	69
Guarantee deposits	280	280
	₩ 89,342	85,849

(*) The Company established a trust fund for charitable purposes. Profits from the fund are donated to charitable institutions. As of December 31, 2015, the funds cannot be withdrawn.

6. Trade and Other Receivables

(1) Details of trade and other receivables as of December 31, 2015 and 2014 are as follows:

(In millions of won)

	Gross amount	December 31, 2015 Allowances for impairment	Carrying amount
Current assets:			
Accounts receivable - trade	₩ 1,654,575	(125,824)	1,528,751
Short-term loans	48,223	(482)	47,741
Accounts receivable - other	323,870	(59,129)	264,741
Accrued income	7,505		7,505
	2,034,173	(185,435)	1,848,738

Table of Contents**10. Goodwill**

Goodwill as of December 31, 2015 and 2014 is as follows:

(In millions of won)

	December 31, 2015		December 31, 2014	
Goodwill related to acquisition of Shinsegi Telecom, Inc.	₩	1,306,236		1,306,236

The recoverable amount of the CGU is based on its value in use calculated by applying the annual discount rate of 4.9% to the estimated future cash flows based on financial budgets for the next five years. An annual growth rate of 0.62% was applied for the cash flows expected to be incurred after five years and is not expected to exceed the Company's long-term wireless business growth. Management of the Company does not expect the total carrying amount of the CGU will exceed the total recoverable amount due to reasonably possible changes from the major assumptions used to estimate the recoverable amount.

Table of Contents**12. Borrowings and Debentures, Continued**

(3) Debentures as of December 31, 2015 and 2014 are as follows, Continued:

(*1) As of December 31, 2015, 3M Libor rate is 0.61%.

(*2) The Company settled the difference of the measurement bases of accounting profit or loss between the bonds and related derivatives by designating the structured bonds as financial liabilities at fair value through profit or loss. The difference between the carrying amount of the designated financial liabilities at fair value through profit or loss and the amount required to pay at maturity is ₩5,704 million as of December 31, 2015.

(*3) As of December 31, 2014, the principal amount and the fair value of the structured bonds were ₩50,000 million and ₩55,188 million, respectively. The entire bonds were early redeemed during the year ended December 31, 2015.

(*4) Convenient translation was provided for the bonds repayable in other currencies.

13. Long-term Payables - Other

(1) As of December 31, 2015 and 2014, long-term payables - other consist of payables related to the acquisition of W-CDMA licenses for 800MHZ, 2.3GHz and 1.8GHz frequencies as follows (Refer to Note 11):

(In millions of won)

	Period of repayment	Coupon rate	Annual effective interest rate(*)	December 31, 2015	December 31, 2014
800MHz	2013~2015	3.51%	5.69%	₩	69,416
2.3GHz	2014~2016	3.00%	5.80%	2,882	5,766
1.8GHz	2012~2021	2.43~3.00%	4.84~5.25%	707,006	824,841
				709,888	900,023
Present value discount on long-term payables other				(38,739)	(53,633)
				671,149	846,390
Less current portion of long-term payables other				(120,718)	(190,134)
Current portion of present value discount on long-term payables other				533	745
Carrying amount at December 31				₩ 550,964	657,001

(*) The Company estimated the discount rate based on its credit ratings and corporate bond yield rate as there is no market interest rate available for long-term payables-other.

(2) The repayment schedule of long-term payables other related to acquisition of W-CDMA licenses as of December 31, 2015 is as follows:

<i>(In millions of won)</i>	Amount
Less than 1 year	₩ 120,718
1~3 years	235,669
3~5 years	235,669
More than 5 years	117,832
	₩ 709,888

Table of Contents**14. Provisions**

Change in provisions for the years ended December 31, 2015 and 2014 are as follows:

(In millions of won)

	For the year ended December 31, 2015				As of December 31, 2015		
	Beginning balance	Increase	Utilization	Reversal	Ending balance	Current	Non-current
Provision for handset subsidy(*1)	₩ 26,799	1,641	(5,004)	(17,766)	5,670	2,232	3,438
Provision for restoration	51,333	5,220	(962)	(5,132)	50,459	33,842	16,617
Emission allowance (*2)		1,477			1,477	1,477	
	₩ 78,132	8,338	(5,966)	(22,898)	57,606	37,551	20,055

(In millions of won)

	For the year ended December 31, 2014				As of December 31, 2014		
	Beginning balance	Increase	Utilization	Ending balance	Current	Non-current	
Provision for handset subsidy(*1)	₩ 53,923	41,802	(68,926)	26,799	14,844	11,955	
Provision for restoration	32,173	19,699	(539)	51,333	35,612	15,721	
	₩ 86,096	61,501	(69,465)	78,132	50,456	27,676	

(*1) The Company has provided handset subsidy to subscribers who purchase handsets on an installment basis and recognized provision for subsidy amounts which the Company is expected to pay in future periods.

(*2) The Company recognizes estimated future payment for the number of emission certificates required to settle the Company's obligation exceeding the actual number of certificates on hand as emission allowances according to the Act on Allocation and Trading of Greenhouse Gas Emission Permits.

Table of Contents**15. Defined Benefit Liabilities**

(1) Details of defined benefit liabilities as of December 31, 2015 and 2014 are as follows:

(In millions of won)

	December 31, 2015	December 31, 2014
Present value of defined benefit obligations	₩ 212,139	195,130
Fair value of plan assets	(208,133)	(179,575)
	₩ 4,006	15,555

(2) Principal actuarial assumptions as of December 31, 2015 and 2014 are as follows:

	December 31, 2015	December 31, 2014
Discount rate for defined benefit obligations	2.57%	2.91%
Expected rate of salary increase	3.58%	3.80%

Discount rate for defined benefit obligation is determined based on the Company's credit ratings and yield rate of corporate bonds with similar maturities for estimated payment term of defined benefit obligation. Expected rate of salary increase is determined based on the Company's historical promotion index, inflation rate and salary increase ratio in accordance with salary agreement.

(3) Changes in defined benefit obligations for the years ended December 31, 2015 and 2014 are as follows:

(In millions of won)

	For the year ended December 31	
	2015	2014
Beginning balance	₩ 195,130	154,460
Current service cost	34,933	33,457
Interest cost	5,391	6,415
Remeasurement		
- Demographic assumption	2,118	
- Financial assumption	2,843	8,231
- Adjustment based on experience	(1,643)	11,500
Benefit paid	(29,795)	(21,887)
Others(*)	3,162	2,954
Ending balance	₩ 212,139	195,130

(*) Others for the years ended December 31, 2015 and 2014 include transfer to construction in progress and liabilities succeeded in relation to transfer of executives from affiliates.

Table of Contents**15. Defined Benefit Liabilities, Continued**

(4) Changes in plan assets for the years ended December 31, 2015 and 2014 are as follows:

(In millions of won)

	2015	2014
Beginning balance	₩ 179,575	131,574
Interest income	4,944	5,302
Actuarial gain	3,826	1,514
Contributions to the plan	47,000	48,500
Benefit paid	(27,212)	(7,315)
Ending balance	₩ 208,133	179,575

The Company expects to make a contribution of ₩43,000 million to the defined benefit plans during the next financial year.

(5) Expenses recognized in profit and loss (included in labor cost in the accompanying statements of income) and capitalized into construction-in-progress for the years ended December 31, 2015 and 2014 are as follows:

(In millions of won)

	2015	2014
Current service cost	₩ 34,933	33,457
Net Interest cost	447	1,113
	₩ 35,380	34,570

The above costs are recognized in labor cost, research and development, or capitalized into construction-in-progress.

(6) Details of plan assets as of December 31, 2015 and 2014 are as follows:

(In millions of won)

	December 31, 2015	December 31, 2014
Equity instruments	₩ 402	951
Debt instruments	71,892	52,614
Short-term financial instruments, etc.	135,839	126,010
	₩ 208,133	179,575

Actual return on plan assets for the years ended December 31, 2015 and 2014 amounted to ~~₩~~8,770 million and ~~₩~~6,816 million, respectively.

Table of Contents**15. Defined Benefit Liabilities, Continued**

- (7) As of December 31, 2015, effects on defined benefit obligations if each of significant actuarial assumptions changes within expectable and reasonable range are as follows:

(In millions of won)

	Increase	Decrease
Discount rate (if changed by 0.5%)	₩ (7,827)	8,346
Expected salary increase rate (if changed by 0.5%)	8,412	(7,959)

The sensitivity analysis does not consider dispersion of all cash flows that are expected from the plan and provides approximate values of sensitivity for the assumptions used.

Weighted average durations of defined benefit obligations as of December 31, 2015 and 2014 are 9.21 years and 8.42 years, respectively.

16. Derivative Instruments

- (1) Currency swap contracts under cash flow hedge accounting as of December 31, 2015 are as follows:

(In thousands of foreign currencies)

Borrowing date	Hedged item	Hedged risk	Contract type	Financial institution	Duration of contract
Jul. 20, 2007	Fixed-to-fixed cross currency swap (U.S. dollar denominated bonds face value of USD 400,000)	Foreign currency risk	Currency swap	Morgan Stanley and five other banks	Jul. 20, 2007 ~ Jul. 20, 2027
Jun. 12, 2012	Fixed-to-fixed cross currency swap (Swiss Franc denominated bonds face value of CHF 300,000)	Foreign currency risk	Currency swap	Citibank and four other banks	Jun. 12, 2012 ~ Jun. 12, 2017
Nov. 1, 2012	Fixed-to-fixed cross currency swap (U.S. dollar denominated bonds face value of USD 700,000)	Foreign currency risk	Currency swap	Barclays and eight other banks	Nov. 1, 2012 ~ May 1, 2018
Jan. 17, 2013	Fixed-to-fixed cross currency swap (Australia dollar denominated bonds face value of AUD 300,000)	Foreign currency risk	Currency swap	BNP Paribas and three other banks	Jan. 17, 2013 ~ Nov. 17, 2017
Mar. 7, 2013	Floating-to-fixed cross currency interest rate swap (U.S. dollar denominated bonds face value of	Foreign currency risk and the interest rate risk	Currency interest rate swap	DBS bank	Mar. 7, 2013 ~ Mar. 7, 2020

	USD 300,000)				
	Fixed-to-fixed cross				
Dec. 16, 2013	currency swap (U.S. dollar denominated bonds face value of USD 74,817)	Foreign currency risk	Currency swap	Deutsche bank	Dec. 16, 2013 ~ Apr. 29, 2022

Table of Contents**16. Derivative Instruments, Continued**

- (2) As of December 31, 2015, fair values of the above derivatives recorded in assets or liabilities and details of derivative instruments are as follows:

(In millions of won and thousands of foreign currencies)

Hedged item	Accumulated gain (loss) on valuation of derivatives	Fair value			Held for trading purpose	Total
		Cash flow hedge Tax effect	Accumulated loss (gain) on foreign currency translation	Others (*)		
Non-current assets:						
Structured bond (face value of KRW 150,000)	₩				6,277	6,277
Fixed-to-fixed cross currency swap (U.S. dollar denominated bonds face value of USD 400,000)	(46,616)	(14,883)	11,180	129,806		79,487
Fixed-to-fixed cross currency swap (U.S. dollar denominated bonds face value of USD 700,000)	(18,705)	(5,971)	56,738			32,062
Floating-to-fixed cross currency interest rate swap (U.S. dollar denominated bonds face value of USD 300,000)	(5,748)	(1,835)	26,439			18,856
Fixed-to-fixed long-term borrowings (U.S. dollar denominated bonds face value of USD 74,817)	(4,072)	(1,300)	8,613			3,241
Total assets					₩	139,923
Non-current liabilities:						
Fixed-to-fixed cross currency swap (Swiss Franc denominated bonds face value of CHF 300,000)	₩ (3,678)	(1,174)	(7,851)			(12,703)
Fixed-to-fixed cross currency swap (Australia dollar denominated bonds face value of AUD 300,000)	2,013	642	(79,248)			(76,593)
Total liabilities					₩	(89,296)

(*)

Cash flow hedge accounting has been applied to the relevant contract from May 12, 2010. Others represent gain on valuation of currency swap incurred prior to the application of hedge accounting and was recognized through profit or loss prior to the year ended December 31, 2013.

Table of Contents**17. Share Capital and Capital Surplus and Other Capital Adjustments**

The Company's outstanding share capital consists entirely of common stock with a par value of ₩500. The number of authorized, issued and outstanding common shares and capital surplus and other capital adjustments as of December 31, 2015 and 2014 are as follows:

(In millions of won, except for share data)

	December 31, 2015	December 31, 2014
Authorized shares	220,000,000	220,000,000
Issued shares(*)	80,745,711	80,745,711
Share capital		
Common stock	₩ 44,639	44,639
Capital surplus and other capital adjustments:		
Paid-in surplus	2,915,887	2,915,887
Treasury stock (Note 18)	(2,260,626)	(2,139,683)
Loss on disposal of treasury stock		(18,087)
Hybrid bond (Note 19)	398,518	398,518
Others	(684,333)	(722,741)
	₩ 369,446	433,894

(*) During the years ended December 31, 2003, 2006 and 2009, the Company retired 7,002,235 shares, 1,083,000 shares and 448,000 shares, respectively, of treasury stock which reduced its retained earnings before appropriation in accordance with the Korean Commercial Law. As a result, the Company's outstanding shares have decreased without change in the share capital.

There were no changes in share capital for the years ended December 31, 2015 and 2014.

Changes in number of shares outstanding for the years ended December 31, 2015 and 2014 are as follows:

<i>(In shares)</i>	2015			2014		
	Issued shares	Treasury stock	Outstanding shares	Issued shares	Treasury stock	Outstanding shares
Beginning issued shares	80,745,711	9,809,375	70,936,336	80,745,711	9,809,375	70,936,336
Disposal of treasury stock		(1,692,824)	1,692,824			
Acquisition of treasury stock		2,020,000	(2,020,000)			
Ending issued shares	80,745,711	10,136,551	70,609,160	80,745,711	9,809,375	70,936,336

Table of Contents**18. Treasury Stock**

The Company acquired treasury stock to provide stock dividends, merge with Shinsegi Telecom, Inc. and SK IMT Co, Ltd., increase shareholder value and to stabilize its stock prices when needed.

Treasury stock as of December 31, 2015 and 2014 are as follows:

(In millions of won, shares)

	December 31, 2015	December 31, 2014
Number of shares	10,136,551	9,809,375
Amount	₩ 2,260,626	2,139,683

On June 9, 2015, the Company granted 1,692,824 shares of its treasury stock (acquisition cost: ₩369,249 million) in order to acquire shares of SK Broadband Co., Ltd. In addition, from September 30, 2015 to December 11, 2015, the Company newly acquired 2,020,000 shares of its treasury stock amounting to ₩490,192 million in order to stabilize stock price.

19. Hybrid Bond

Hybrid bonds classified as equity as of December 31, 2015 are as follows:

(In millions of won)

	Type	Issuance date	Maturity	Annual interest rate (%)	Amount
Private hybrid bonds	Blank coupon unguaranteed				
	subordinated bonds	June 7, 2013	June 7, 2073(*1)	4.21(*2)	₩ 400,000
Issuance costs					(1,482)
					₩ 398,518

Hybrid bonds issued by the Company are classified as equity as there is no contractual obligation for delivery of financial assets to the bond holders. These are subordinated bonds which rank before common shareholders in the event of a liquidation or reorganization of the Company.

(*1) The Company has a right to extend the maturity under the same issuance terms without any notice or announcement. The Company also has the right to defer interest payment at its sole discretion.

(*2) Annual interest rate is adjusted after five years from the issuance date.

Table of Contents**20. Retained Earnings**

(1) Retained earnings as of December 31, 2015 and 2014 are as follows:

	December 31, 2015	December 31, 2014
Appropriated:		
Legal reserve	₩ 22,320	22,320
Reserve for research & manpower development	87,301	151,534
Reserve for business expansion	9,671,138	9,476,138
Reserve for technology development	2,616,300	2,416,300
	12,397,059	12,066,292
Unappropriated	1,021,544	930,498
	₩ 13,418,603	12,996,790

(2) Legal reserve

The Korean Commercial Code requires the Company to appropriate as a legal reserve at least 10% of cash dividends paid for each accounting period until the reserve equals 50% of outstanding share capital. The legal reserve may not be utilized for cash dividends, but may only be used to offset a future deficit, if any, or may be transferred to share capital.

(3) Reserve for research & manpower development

The reserve for research and manpower development was appropriated in order to recognize certain tax deductible benefits through the early recognition of future expenditures for tax purposes. These reserves will be reversed from appropriated and retained earnings in accordance with the relevant tax laws. Such reversal will be included in taxable income in the year of reversal.

Table of Contents**21. Statements of Appropriation of Retained Earnings**

Details of appropriations of retained earnings for the years ended December 31, 2015 and 2014 are as follows:

Date of appropriation for 2015: March 18, 2016

Date of appropriation for 2014: March 20, 2015

(In millions of won)

	2015	2014
Unappropriated retained earnings:		
Unappropriated retained earnings	₩ 3,866	3,542
Remeasurement of defined benefit liabilities	386	(13,808)
Interim dividends - ₩1,000 per share, 200% on par value	(72,629)	(70,937)
Interest on hybrid bond	(16,840)	(16,840)

Table of Contents**26. Income Tax Expense, Continued**

- (5) Details of temporary differences not recognized as deferred tax assets in the statements of financial position as of December 31, 2015 and 2014 are as follows:

(In millions of won)

	December 31, 2015	December 31, 2014
Allowance for doubtful accounts	₩ 77,405	77,405
Investments in subsidiaries and associates	980,860	717,455
Other temporary differences	51,150	51,150
	₩ 1,109,415	846,010

27. Earnings per Share

- (1) Basic earnings per share

- 1) Basic earnings per share for the years ended December 31, 2015 and 2014 are calculated as follows:

(In millions of won, shares)

	2015	2014
Profit for the year	₩ 1,106,761	1,028,541
Interest on hybrid bond	(16,840)	(16,840)
Profit for the year on common shares	1,089,921	1,011,701
Weighted average number of common shares outstanding	71,551,966	70,936,336
Basic earnings per share (In won)	₩ 15,233	14,262

- 2) The weighted average number of common shares outstanding for the years ended December 31, 2015 and 2014 are calculated as follows:

(In millions of won, shares)

	2015	2014
Outstanding common shares at January 1, 2015	₩ 80,745,711	80,745,711

Effect of treasury stock	(9,193,745)	(9,809,375)
Weighted average number of common shares outstanding at December 31, 2015	₩ 71,551,966	70,936,336

(2) Diluted earnings per share

For the years ended December 31, 2015 and 2014, there were no potentially dilutive shares. Therefore, diluted earnings per share for the years ended December 31, 2015 and 2014 are the same as basic earnings per share.

Table of Contents**28. Dividends**

(1) Details of dividends declared

Details of dividend declared for the years ended December 31, 2015 and 2014 are as follows:

(In millions of won, except for face value and share data)

Year	Dividend type	Number of shares outstanding	Face value (In won)	Dividend ratio	Dividends
2015	Cash dividends (interim)	72,629,160	500	200%	₩ 72,629
	Cash dividends (year-end)	70,609,160	500	1,800%	635,482
					₩ 708,111
2014	Cash dividends (interim)	70,936,336	500	200%	₩ 70,937
	Cash dividends (year-end)	70,936,336	500	1,680%	595,865
					₩ 666,802

(2) Dividends payout ratio

Dividends payout ratios for the years ended December 31, 2015 and 2014 are as follows:

(In millions of won)

Year	Dividends calculated	Profit	Dividends payout ratio
2015	₩ 708,111	1,106,761	63.98%
2014	₩ 666,802	1,028,541	64.83%

(3) Dividends yield ratio

Dividends yield ratios for the years ended December 31, 2015 and 2014 are as follows:

(In won)

Year	Dividend type	Dividend per share	Closing price at settlement	Dividend yield ratio
2015	Cash dividends	10,000	215,500	4.64%
2014	Cash dividends	9,400	268,000	3.51%

Table of Contents**29. Categories of Financial Instruments**

(1) Financial assets by categories as of December 31, 2015 and 2014 are as follows:

	₩ 2,171,141	2,582,608

30. Financial Risk Management

(1) Financial risk management

The Company is exposed to credit risk, liquidity risk and market risk. Market risk is the risk related to the changes in market prices, such as foreign exchange rates, interest rates and equity prices. The Company implements a risk management system to monitor and manage these specific risks.

The Company's financial assets under financial risk management consist of cash and cash equivalents, financial instruments, available-for-sale financial assets, trade and other receivables. Financial liabilities consist of trade and other payables, borrowings, and debentures.

1) Market risk

(i) Currency risk

The Company is exposed to currency risk mainly on exchange fluctuations on recognized assets and liabilities. The Company manages currency risk by currency forward, etc. if needed to hedge currency risk on business transactions. Currency risk occurs on forecasted transaction and recognized assets and liabilities which are denominated in a

currency other than the functional currency of the Company.

Table of Contents**30. Financial Risk Management, Continued**

(1) Financial risk management, Continued

Monetary foreign currency assets and liabilities as of December 31, 2015 are as follows:

(In millions of won, thousands of U.S. dollars, thousands of Euros, thousands of Japanese Yen, thousands of other currencies)

	Assets		Liabilities	
	Foreign currencies	Won translation	Foreign currencies	Won translation
USD	61,525	₩ 71,682	1,463,959	₩ 1,715,760
EUR	23,357	29,923	38	48
JPY	20,688	201		
AUD			299,022	255,097
CHF			299,403	354,909
Other	4,992	1,148	290	120
		₩ 102,954		₩ 2,325,934

In addition, the Company has entered into cross currency swaps to hedge against currency risk related to foreign currency borrowings and debentures. (Refer to Note 16)

As of December 31, 2015, effects on income (loss) before income tax as a result of change in exchange rate by 10% are as follows:

(In millions of won)

	If increased by 10%	If decreased by 10%
USD	₩ 6,336	(6,336)
EUR	2,954	(2,954)
JPY	20	(20)
Others	100	(100)
	₩ 9,410	(9,410)

(ii) Equity price risk

The Company has equity securities which include listed and non-listed securities for its liquidity and operating purpose. As of December 31, 2015, available-for-sale equity instruments measured at fair value amounts to ₩655,845 million.

(iii) Interest rate risk

Since the Company's interest bearing assets are mostly fixed-interest bearing assets, as such, the Company's revenue and operating cash flow are not influenced by the changes in market interest rates. However, the Company still has interest rate risk arising from borrowings and debentures.

Accordingly, the Company performs various analysis of interest rate risk, which includes refinancing, renewal, alternative financing and hedging instrument option, to reduce interest rate risk and to optimize its financing.

Table of Contents**30. Financial Risk Management, Continued**

(1) Financial risk management, Continued

The Company's interest rate risk arises from floating-rate borrowings and payables. As of December 31, 2015, floating-rate debentures amount to ₩351,600 million and the Company has entered into interest rate swaps to hedge interest rate risk related to floating-rate borrowings and debentures (Refer to Note 16). If interest rate only increases (decreases) by 1%, income before income taxes for the year ended December 31, 2015 would not have been changed due to the interest expense from floating-rate borrowings and debentures.

2) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet his/her contractual obligations. The maximum credit exposure as of December 31, 2015 and 2014 are as follows:

(In millions of won)

	December 31, 2015	December 31, 2014
Cash and cash equivalents	₩ 431,636	248,281
Financial instruments	131,562	143,069
Available-for-sale financial assets	2,030	8,648
Accounts receivable - trade	1,528,751	1,559,281
Loans and receivables	521,723	575,597
Derivative financial assets	139,923	67,728
Financial assets at fair value through profit or loss	7,073	7,817
	₩ 2,762,698	2,610,421

To manage credit risk, the Company evaluates the credit worthiness of each customer or counterparty considering the party's financial information, its own trading records and other factors; based on such information, the Company establishes credit limits for each customer or counterparty.

For the year ended December 31, 2015, the Company has no trade and other receivables or loans which have indications of significant impairment loss or are overdue for a prolonged period. As a result, the Company believes that the possibility of default is remote. Also, the Company's credit risk can rise due to transactions with financial institutions related to its cash and cash equivalents, financial instruments and derivatives. To minimize such risk, the Company has a policy to deal with high credit worthy financial institutions. The amount of maximum exposure to credit risk of the Company is the carrying amount of financial assets as of December 31, 2015.

In addition, the aging of trade and other receivables that are overdue at the end of the reporting period but not impaired is stated in Note 6 and the analysis of financial assets that are individually determined to be impaired at the end of the reporting period is stated in Note 25.

Table of Contents**30. Financial Risk Management, Continued**

(1) Financial risk management, Continued

3) Liquidity risk

The Company's approach to managing liquidity is to ensure that it will always maintain sufficient cash equivalents balance and have enough liquidity through various committed credit lines. The Company maintains flexibly enough liquidity under credit lines through active operating activities.

Contractual maturities of financial liabilities as of December 31, 2015 are as follows:

(In millions of won)

	Carrying amount	Contractual cash flows	Less than 1 year	1 - 5 years	More than 5 years
Borrowings(*1)	₩ 315,561	324,352	245,693	57,965	20,694
Debentures (*1)	5,613,125	6,874,448	763,194	3,012,017	3,099,237
Accounts payable - other and others (*2)	2,171,141	2,223,315	1,552,820	549,376	121,119
	₩ 8,099,827	9,422,115	2,561,707	3,619,358	3,241,050

The Company does not expect that the cash flows included in the maturity analysis could occur significantly earlier or at different amounts.

(*1) Includes estimated interest to be paid and excludes discounts on bonds.

(*2) Excludes discounts on accounts payable-other and others.

As of December 31, 2015, periods which cash flows from cash flow hedge derivatives is expected to be incurred are as follows:

(In millions of won)

	Carrying amount	Contractual cash flows	Less than 1 year	1 - 5 years	More than 5 years
Assets	₩ 133,646	143,638	3,266	109,438	30,934
Liabilities	(89,296)	(92,498)	(4,882)	(87,616)	
	₩ 44,350	51,140	(1,616)	21,822	30,934

(2) Capital management

The Company manages its capital to ensure that it will be able to continue as a business while maximizing the return to shareholders through the optimization of its debt and equity balance. The overall strategy of the Company is the same as that of the Company as of and for the year ended December 31, 2015.

The Company monitors its debt-equity ratio as a capital management indicator. This ratio is calculated as total liabilities divided by total equity which are extracted from the financial statements.

Table of Contents**30. Financial Risk Management, Continued**

(2) Capital management, Continued

Debt-equity ratio as of December 31, 2015 and 2014 are as follows:

(In millions of won)

- (*1) Does not include fair values of financial assets and liabilities of which fair values have not been measured as carrying amounts are closed to the reasonable approximate fair values.
- (*2) Equity instruments which do not have quoted price in an active market for the identical instruments (inputs for Level 1) are measured at cost in accordance with K-IFRS 1039 as such equity instruments cannot be reliably measured using other methods.

Table of Contents**30. Financial Risk Management, Continued**

(3) Fair value, Continued

Fair value of the financial instruments that are traded in an active market (available-for-sale financial assets, financial liabilities at fair value through profit or loss, etc.) is measured based on the bid price at the end of the reporting date.

The Company uses various valuation methods for valuation of fair value of financial instruments that are not traded in an active market. Fair value of available-for-sale securities is determined using the market approach methods and financial assets through profit or loss are measured using the option pricing model. In addition, derivative financial contracts and long-term liabilities are measured using the present value methods. Inputs used to such valuation methods include swap rate, interest rate, and risk premium, and the Company performs valuation using the inputs which are consistent with natures of assets, liabilities being evaluated.

Interest rates used by the Company for the fair value measurement as of December 31, 2015 are as follows:

	Interest rate
Derivative instruments	1.92 ~ 2.37%
Borrowings and Debentures	2.12 ~ 2.45%

- 3) There have been no transfers from Level 2 to Level 1 in 2015 and changes of financial assets classified as Level 3 for the year ended December 31, 2015 are as follows:

(In millions of won)

	Balance at beginning	Gain for the period	Other comprehensive loss	Disposal	Balance at ending
Financial assets at fair value through profit or loss	₩ 7,817	(744)			7,073
Available-for-sale financial assets	48,932		(4,749)	(14,882)	29,301

Independent Accountants' Review Report on Internal Accounting Control System

English translation of a Report Originally Issued in Korean

To the Representative Director of

SK Telecom Co., Ltd.

We have reviewed the accompanying Report on the Operations of Internal Accounting Control System (IACS) of SK Telecom Co., Ltd. (the Company) As of December 31, 2015. The Company's management is responsible for designing and maintaining effective IACS and for its assessment of the effectiveness of IACS. Our responsibility is to review management's assessment and issue a report based on our review. In the accompanying report of management's assessment of IACS, the Company's management stated: Based on the assessment on the operations of the IACS, the Company's IACS has been effectively designed and is operating as of December 31, 2015, in all material respects, in accordance with the IACS Framework issued by the Internal Accounting Control System Operation Committee.

We conducted our review in accordance with IACS Review Standards, issued by the Korean Institute of Certified Public Accountants. Those Standards require that we plan and perform the review to obtain assurance of a level less than that of an audit as to whether Report on the Operations of Internal Accounting Control System is free of material misstatement. Our review consists principally of obtaining an understanding of the Company's IACS, inquiries of company personnel about the details of the report, and tracing to related documents we considered necessary in the circumstances. We have not performed an audit and, accordingly, we do not express an audit opinion.

A company's IACS is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Because of its inherent limitations, however, IACS may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Based on our review, nothing has come to our attention that Report on the Operations of Internal Accounting Control System as of December 31, 2015 is not prepared in all material respects, in accordance with IACS Framework issued by the Internal Accounting Control System Operation Committee.

This report applies to the Company's IACS in existence as of December 31, 2015. We did not review the Company's IACS subsequent to December 31, 2015. This report has been prepared for Korean regulatory purposes, pursuant to the External Audit Law, and may not be appropriate for other purposes or for other users.

Report on the Assessment of Internal Accounting Control System (IACS)

English translation of a Report Originally Issued in Korean

To the Board of Directors and Audit Committee of

SK Telecom Co., Ltd.

I, as the Internal Accounting Control Officer (IACO) of SK Telecom Co., Ltd. (the Company), assessed the status of the design and operation of the Company s IACS as of December 31, 2015.

The Company s management including IACO is responsible for designing and operating IACS. I, as the IACO, assessed whether the IACS has been appropriately designed and is effectively operating to prevent and detect any error or fraud which may cause any misstatement of the financial statements, for the purpose of preparing and disclosing reliable financial statements reporting. I, as the IACO, applied the IACS Framework established by the Korea Listed Companies Association for the assessment of design and operation of the IACS.

Based on the assessment of the IACS, the Company s IACS has been appropriately designed and is operating effectively as of December 31, 2015, in all material respects, in accordance with the IACS Framework issued by the Internal Accounting Control System Operation Committee.

Table of Contents**5. Approval of Ceiling Amount of the Remuneration of Directors**

The number of directors and total amount and maximum authorized amount of compensation of directors are as follows:

Classification	Fiscal year 2015	Fiscal year 2016
Number of directors (Number of independent non-executive directors)	6 persons (4 persons)	6 persons (4 persons)
Total amount and maximum authorized amount of compensation of directors	Won 12 billion	Won 12 billion

Table of Contents**6. Approval of Amendment to the Remuneration Policy for Executives**

According to the position grade-based [performance management standard] adopted in 2012 with respect to the Company's executives, amendments to the severance pay policy for executives are proposed as below.

< Severance Payout Rate Grade >

Before amendment		
Position	Years of Service	Payout Rate
Chairman	1	6.0
Vice Chairman	1	5.5
President	1	
Senior Executive Vice President	1	3.5
Executive Vice President	1	
Senior Vice President	1	2.5
After amendment		
Grade	Years of Service	Payout Rate
Chairman,	1	
Vice Chairman		4.0
Grade E	1	
Grade D	1	
Grade C	1	3.5
Grade B	1	
Grade A	1	2.5

The severance payment amount is to be calculated as the sum of the relevant executive's monthly salary multiplied by

the payout ratio corresponding to the executive's grade for each year of service. The proposed amendments are to be effective April 1, 2016. The payout rate with respect to periods of service prior to April 1, 2016 will be determined on the basis of the severance payout rate scale prior to the above amendments.
