Ref.: RESPONSE TO OFFICIAL LETTER No. 3311/2016-SAE/GEA 2

Dear Sirs,

Ultrapar Participações (Ultrapar or Company), in compliance with the Official Letter 3311/2016-SAE/GEA 2, which is fully reproduced at the end of this document, requesting clarifications on the news published in *Valor Econômico* newspaper on November 30, 2016, stating that the State Prosecutor of São Paulo indicated an estimated amount for alleged environmental damages caused by the fire at Ultracargo's terminal that occurred in 2015, in Santos (SP), at an amount slightly above R\$ 3.6 billion, clarifies the following:

The news is based on a Technical Opinion issued by the *Centro de Apoio Operacional à Execução CAEX* (Technical Opinion), a technical body linked to the State Prosecutor of São Paulo, published yesterday, November, 29. The Technical Opinion indicates an estimated amount for the alleged environmental damages caused by the fire. Such opinion is non-binding, with no condemnatory or sanctioning nature, and should still be evaluated by the authorities and parties.

Ultrapar disagrees with the extension of the alleged impacts, as well as the technical criteria used to qualify alleged environmental damages. In our view and pursuant to the monitoring conducted by experts after the event (under the supervision of competent authorities), damages were limited and temporary, and, therefore, the amounts indicated in the Technical Opinion are not proportional to the actual facts.

Ultrapar clarifies that it is in negotiations with the State Prosecutor, aiming at the conclusion of an agreement, and that there is currently no lawsuit filed on the matter.

We believe we have provided the information requested in the Official Letter, and we are at your disposal to make any further clarifications necessary.

Yours sincerely,
