Settlement Date:

December 28, 2016 (T+9)

We expect delivery of the Notes will be made against payment therefor on or about December 28, which is the ninth business day following the date of the pricing of the Notes. Under Rule 15c6-1 of the Securities Exchange Act of 1934, as amended, trades in the secondary market generally are required to settle in three business days unless the parties to that trade expressly agree otherwise. Accordingly, purchasers who wish to trade the Notes on the date of pricing of the Notes or the next five succeeding business days will be required by virtue of the fact that the Notes initially will settle in T+9, to specify an alternative settlement cycle at the time of any such trade to prevent failed settlement and should consult their own advisers.

Changes to the Preliminary Prospectus Supplement

Offering Size:

The total offering size has been increased from \$500 million to \$1 billion, which represents an increase of \$500 million from the amount reflected in the Preliminary Prospectus Supplement. As a result, all information (including financial information) presented in the Preliminary Prospectus Supplement is deemed to have changed to the extent affected by the changes described herein.

Tender Offers:

The previously announced Maximum Purchase Amount of the Tender Offers has been upsized up to \$750 million and the Cap with respect to the 4.90% Senior Notes due 2020 has been increased to \$300 million. The Tender Offers are conditioned on the completion of the offering of the Notes for gross proceeds of at least \$750 million. All other terms of the Tender Offers are unchanged.

Use of Proceeds:

The Issuer intends to use the net proceeds from the offering, together with cash on hand, to pay the purchase price and accrued interest (together with fees and expenses) in the Tender Offers. Any remaining proceeds will be used for general corporate purposes, which may include further retirement of debt, including the further purchase of debt in open market or privately negotiated transactions.

Original Issue Discount:

The Notes are being issued with original issue discount (*OID*) for U.S. federal income tax purposes in an amount equal to the difference between their stated principal amount and their issue price (i.e., the first price at which a substantial amount of Notes are sold for cash to persons other than bond houses, brokers or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers). A U.S. holder generally will be required to include the OID in gross income (as ordinary income) in advance of the receipt of cash attributable to that income and regardless of such holder's regular method of tax accounting. Such OID will be included in gross income using a constant yield method, in which case the U.S. holder will have to include in income increasingly greater amounts of OID in successive accrual periods. A U.S. holder's adjusted tax basis in a Note will be increased by any OID previously included in income with respect to that Note. All holders are urged to consult their own tax advisors regarding the application of the OID rules to their particular circumstances.
