Filed Pursuant to Rule 424(b)(5)
Registration No. 333-206993

The information in this preliminary prospectus supplement and the accompanying prospectus is not complete and may be changed. This preliminary prospectus supplement and the accompanying prospectus are not an offer to sell nor does it seek an offer to buy these securities in any jurisdiction where the offer or sale is not permitted.

SUBJECT TO COMPLETION, DATED MARCH 22, 2017

PROSPECTUS SUPPLEMENT

(To Prospectus dated September 17, 2015)

\$

Edison International

% Senior Notes Due 2020

The notes will bear interest at the rate of % per year. Interest on the notes is payable semi-annually on and of each year, beginning on , 2017. The notes will mature on , 2020. We may at our option redeem some or all of the notes at any time at the redemption price discussed under the caption Certain Terms of the Notes Optional Redemption.

The notes will be unsecured obligations and will rank equally with all of our other unsecured and unsubordinated indebtedness from time to time outstanding.

Investing in the notes involves risks. See Risk Factors on page S-4.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus supplement or the related prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

	Per Note	Total
Public offering price	%	\$
Underwriting discount	%	\$
Proceeds to us before expenses	%	\$

Interest on the notes will accrue from March , 2017.

The notes are expected to be delivered in global form through the book-entry delivery system of The Depository Trust Company on or about March , 2017.

ABOUT THIS PROSPECTUS SUPPLEMENT

This document is in two parts. The first part is this prospectus supplement, which describes the specific terms of the notes we are offering and certain other matters about us and our financial condition. The second part, the accompanying base prospectus, provides general information about the debt securities that we may offer from time to time, some of which may not apply to the notes we are offering hereby. Generally, when we refer to the prospectus, we are referring to both this prospectus supplement and the accompanying base prospectus. If the description of the notes varies between this prospectus supplement and the accompanying base prospectus, you should rely on the information in this prospectus supplement. References in this prospectus to Edison International, we, us, and our mean Edison International on a stand-alone basis, not consolidated with its subsidiaries.

FORWARD-LOOKING STATEMENTS

This prospectus and the documents they incorporate by reference contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements reflect our current expectations and projections about future events based on our knowledge of present facts and circumstances and assumptions about future events and include any statement that does not directly relate to a historical or current fact. In this prospectus and elsewhere, the words expects, believes, anticipates, estimates, projects, intends, plans, may, will, could, would, should, and variations of such words and similar expressions, or discussions of strategy, are intended to identify forward-looking statements. Such statements necessarily involve risks and uncertainties that could cause actual results to differ materially from those anticipated. Some of the risks, uncertainties and other important factors that could cause results to differ, or that otherwise could impact us and our subsidiaries, include, but are not limited to:

the ability of Southern California Edison Company (SCE) to recover its costs in a timely manner from customers through regulated rates, including costs relating to the San Onofre Nuclear Generating Station (San Onofre) and proposed spending on grid modernization;

decisions and other actions by the California Public Utilities Commission (CPUC), the Federal Energy Regulatory Commission, the Nuclear Regulatory Commission and other regulatory authorities, including determinations of authorized rate of return or return on equity, approval of proposed spending on grid modernization, outcome of San Onofre CPUC proceedings, and delays in regulatory actions;

our ability to borrow funds and access capital markets on reasonable terms;

risks associated with cost allocation, including the potential movement of costs to certain customers, caused by the ability of cities, counties and certain other public agencies to generate and/or purchase electricity for their local residents and businesses, along with other possible customer bypass or departure due to increased adoption of distributed energy resources or technological advancements in the generation, storage, transmission, distribution and use of electricity, and supported by public policy, government regulations and incentives;

risks inherent in the construction of SCE's transmission and distribution infrastructure investment program, including those related to project site identification, public opposition, environmental mitigation, construction, permitting, power curtailment costs (payments due under power contracts in the event there is insufficient transmission to enable acceptance of power delivery) and governmental approvals;

risks associated with the operation of transmission and distribution assets and power generating facilities including: public safety issues, failure, availability, efficiency and output of equipment and availability and cost of spare parts;

S-1

Table of Contents

risks associated with the decommissioning of San Onofre, including those related to public opposition, permitting, governmental approvals, and cost overruns;

physical security of our critical assets and personnel and the cyber security of our critical information technology systems for grid control, and business and customer data;

ability to develop our competitive businesses, manage new business risks, and recover and earn a return on our investment in newly developed or acquired businesses;

cost and availability of electricity, including the ability to procure sufficient resources to meet expected customer needs in the event of power plant outages or significant counterparty defaults under power-purchase agreements;

environmental laws and regulations, both at the state and federal levels, or changes in the application of those laws, that could require additional expenditures or otherwise affect the cost and manner of doing business;

changes in tax laws and regulations, at both the state and federal levels, or changes in the application of those laws; that could affect recorded deferred tax assets and liabilities and effective tax rates;

changes in the fair value of investments and other assets;

changes in interest rates and rates of inflation, including escalation rates, which may be adjusted by public utility regulators;

governmental, statutory, regulatory or administrative changes or initiatives affecting the electricity industry, including the market structure rules applicable to each market adopted by the North American Electric Reliability Corporation, Regional Transmission Organizations, and similar regulatory bodies in adjoining regions;

availability and creditworthiness of counterparties and the resulting effects on liquidity in the power and fuel markets and/or the ability of counterparties to pay amounts owed in excess of collateral provided in support of their obligations;

cost and availability of labor, equipment and materials;

our ability to obtain sufficient insurance, including insurance relating to SCE's nuclear facilities and wildfire-related liability, and to recover the costs of such insurance or in the absence of insurance the ability to recover uninsured losses;

potential for penalties or disallowances for non-compliance with applicable laws and regulations;

cost of fuel for generating facilities and related transportation, which could be impaired by, among other things, disruption of natural gas storage facilities, to the extent not recovered through regulated rate cost escalation provisions or balancing accounts;

disruption of natural gas supply due to unavailability of storage facilities, which could lead to electricity service interruptions; and

weather conditions and natural disasters.

Additional information about risks and uncertainties that could cause results to differ from those currently expected or that otherwise could impact us, including more detail about the factors described above, is included in our Annual Report on Form 10-K for the year ended December 31, 2016 and our Current Reports on Form 8-K filed subsequent to that date. Forward-looking statements speak only as of the date they are made and we are not obligated to publicly update or revise forward-looking statements.

Table of Contents

EDISON INTERNATIONAL

Edison International is the parent holding company of Southern California Edison Company, a California public utility. Edison International also owns or holds interests in companies that are competitive businesses related to the generation or use of electricity. Based in Rosemead, California, Edison International was incorporated in California in 1987.

The mailing address and telephone number of our principal executive offices are P.O. Box 976, Rosemead, CA 91770 and (626) 302-2222.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth the ratios of Edison International's consolidated earnings to fixed charges for each year in the five-year period ended December 31, 2016:

	Year Ended December 31,				
	2012	2013	2014	2015	2016
Ratio of Earning to Fixed Charges	4.16	3.03	4.26	3.61	3.57

Table of Contents

RISK FACTORS

*Your decision whether or not to purchase any of the notes will involve some degree of risk. You should be aware of and carefully consider the following risk factors and the risk factors included in our Annual Report on Form 10-K for the year ended December 31, 2016 (which is incorporated by reference in this prospectus supplement and the related base prospectus). New risks may emerge at any time, and we cannot predict such risks or estimate the extent to which they may affect our financial performance. You should also read and consider all of the other information provided or incorporated by reference in this prospectus supplement and the related base prospectus before deciding whether or not to purchase any of the notes. See *Forward-Looking Statements* in this prospectus supplement and *Where You Can Find More Information* in the base prospectus.*

You may be unable to sell your notes if a trading market for the notes does not develop.

The notes will be a new series of securities for which there is currently no established trading market, and none may develop. We do not intend to apply for listing of the notes on any securities exchange or for quotation on any automated dealer quotation system. The liquidity of any market for the notes will depend on the number of holders of the notes, the interest of securities dealers in making a market in the notes, and other factors. Accordingly, we cannot assure you as to the development or liquidity of any market for the notes. If an active trading market does not develop, the market price and liquidity of the notes may be adversely affected. If the notes are traded, they may trade at a discount from their initial offering price depending upon prevailing interest rates, the market for similar securities, general economic conditions, our performance and business prospects, and certain other factors.

The notes are our obligations and not obligations of our subsidiaries and will be effectively subordinated to the claims of the subsidiaries' creditors.

The notes are our obligations exclusively and not obligations of our subsidiaries. Because we are a holding company, our obligations under the notes will be structurally subordinated to all existing and future liabilities and preferred equity of our subsidiaries. Therefore, our creditors, including holders of the notes, will not have a direct right to participate in the assets of any subsidiary upon the liquidation or reorganization of the subsidiary. Instead, our creditors will participate in those assets only to the extent that we receive a distribution from the subsidiary on account of any claim or interest that we have against or in the subsidiary. At December 31, 2016, our subsidiaries had total consolidated liabilities of approximately \$36 billion and preferred equity outstanding with a total liquidation value of approximately \$2.2 billion. SCE expects to issue \$700 million of first and refunding mortgage bonds in March 2017.

We may be unable to meet our ongoing and future financial obligations if our subsidiaries are unable to pay dividends to us.

Our ability to meet our financial obligations is primarily dependent on the earnings and cash flows of our subsidiaries and their ability to pay dividends, make other distributions or repay funds owed from time to time to us. Prior to funding Edison International, our subsidiaries have financial and regulatory obligations that must be satisfied, including, among others, debt service and preferred stock dividends. The CPUC also regulates SCE's capital structure and limits the dividends it may pay to us. In addition, the indenture under which the notes will be issued does not limit our ability, or the ability of our subsidiaries, to pledge shares of stock as security for other indebtedness.

Table of Contents

USE OF PROCEEDS

We intend to use the net proceeds from the offering of the notes to repay commercial paper borrowings and/or for general corporate purposes. The current weighted average interest rate of our commercial paper borrowings is 1.02%.

S-5

Table of Contents

CERTAIN TERMS OF THE NOTES

The notes will be a series of our debt securities issued under an indenture dated as of September 10, 2010 between Edison International, as issuer, and The Bank of New York Mellon Trust Company, N.A., as trustee.

The summary of selected provisions of the notes and the indenture referred to below supplements, and to the extent inconsistent supersedes and replaces, the description of the general terms and provisions of the debt securities and the indenture contained in the accompanying base prospectus. This summary is not complete and is qualified by reference to provisions of the notes and the indenture. Forms of the notes and the indenture have been or will be filed with the Securities and Exchange Commission and you may obtain copies as described under [Where You Can Find More Information](#) in the accompanying base prospectus.

Interest Rate and Maturity

The notes will bear interest at the rate of [%](#) per year. Interest on the notes will be payable semi-annually in arrears on [and](#) of each year, beginning on [, 2017](#), to the holders of record at the close of business on the immediately preceding [and](#), respectively. Interest will be computed on the basis of a 360-day year consisting of twelve 30-day months; provided that the amount of interest payable for any period shorter or longer than a full interest period will be computed on the basis of a 360-day year consisting of twelve 30-day months and the actual number of days elapsed in the period using 30-day months.

The notes will mature on [, 2020](#). The notes are subject to earlier redemption at our option as described under [Optional Redemption](#).

If any interest payment date, redemption date or the maturity date of the notes is not a business day in any place of payment, then payment of the principal, premium, if any, and interest may be made on the next business day in that place of payment. In that case, no interest will accrue on the amount payable for the period from and after the applicable interest payment date, redemption date or maturity date, as the case may be. The regular record date for all payments of interest on the notes will be the first day of the month in which payment is to be made, whether or not such day is a business day.

We will pay interest on, principal of, and any premium on, the notes at stated maturity, upon redemption or otherwise, as described under [Book-Entry, Delivery and Form](#). The notes initially will be issued in book-entry form and represented by global securities deposited with, or on behalf of, The Depository Trust Company, as Depository, and registered in the name of Cede & Co., its nominee. This means that you will not be entitled to receive a certificate for the notes that you purchase except in limited circumstances. If any of the notes are issued in certificated form they will be issued only in fully registered form without coupons, in denominations of \$1,000 and integral multiples of \$1,000.

Ranking

The notes will be our unsecured senior debt obligations and will rank on a parity in right of payment with all of our other unsecured and unsubordinated indebtedness. The notes are our obligations exclusively, and are not the obligations of any of our subsidiaries. Because we conduct our operations primarily through our subsidiaries and substantially all of our consolidated assets are held by our subsidiaries, the notes will be effectively subordinated to all existing and future liabilities (including indebtedness) and preferred equity of our subsidiaries. At December 31, 2016, our subsidiaries had total consolidated liabilities of approximately \$36 billion, and preferred equity outstanding with a total liquidation value of approximately \$2.2 billion. SCE expects to issue \$700 million of first and refunding mortgage bonds in March 2017. See [Description of the Debt Securities Ranking Holding Company Structure](#) in the

accompanying base prospectus.

S-6

Table of Contents

Optional Redemption

We will be entitled to redeem the notes at our option as described below. You will not be permitted to require us to redeem or repurchase the notes at your option.

All or a portion of the notes may be redeemed at our option at any time or from time to time. The redemption price for the notes to be redeemed on any redemption date will be equal to the greater of the following amounts:

100% of principal amount; or

the sum of the present values of the remaining scheduled payments of principal and interest on the notes being redeemed on that redemption date (not including any portion of any payments of interest accrued to the redemption date) discounted to the redemption date on a semi-annual basis at the Adjusted Treasury Rate (as defined below) plus basis points, as determined by the Independent Investment Banker (as defined below),

plus, in each case, accrued and unpaid interest on the notes to be redeemed to but excluding the redemption date. The redemption price will be calculated by us on the basis of a 360-day year consisting of twelve 30-day months.

Notwithstanding the foregoing, installments of interest on notes that are due and payable on interest payment dates falling on or prior to a redemption date will be payable on the interest payment date to the registered holders as of the close of business on the relevant record date according to the notes and the indenture.

Adjusted Treasury Rate means, for any date fixed for redemption, the rate per year equal to the semi-annual equivalent yield to maturity of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for the date fixed for redemption.

Comparable Treasury Issue means the United States Treasury security or securities selected by an Independent Investment Banker as having an actual or interpolated maturity comparable to the remaining term to stated maturity of the bonds to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of the bonds to be redeemed.

Comparable Treasury Price means, for any date fixed for redemption, the average of the Reference Treasury Dealer Quotations for the date fixed for redemption, or if only one Reference Treasury Dealer quotation is received, such quotation.

Independent Investment Banker means Barclays Capital Inc. or its successor or, if such firm or its successor, as applicable, is unwilling or unable to select the Comparable Treasury Issue, one of the remaining Reference Treasury Dealers appointed by us.

Reference Treasury Dealer means (1) Barclays Capital Inc., Wells Fargo Securities, LLC, and any other primary U.S. Government securities dealer in the United States of America (a **Primary Treasury Dealer**) designated by, and not affiliated with, any of the foregoing or their successors, provided, however, that if any of the foregoing, or any of their designees, ceases to be a Primary Treasury Dealer, we will appoint another Primary Treasury Dealer as a substitute, and (2) any other Primary Treasury Dealer selected by us.

Reference Treasury Dealer Quotations means, for each Reference Treasury Dealer and any date fixed for redemption, the average, as determined by the Independent Investment Banker, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing

S-7

Table of Contents

to the Independent Investment Banker by the Reference Treasury Dealer at 5:00 p.m. New York City time on the third business day preceding the date fixed for redemption.

We will provide notice of any redemption at least 30 days but not more than 60 days before the redemption date to the registered holders of the notes to be redeemed. We may make any redemption conditional upon the receipt by the paying agent, on or prior to the date fixed for redemption, of money sufficient to pay the redemption price. If the paying agent has not received the money by the date fixed for redemption, we will not be required to redeem the debt securities. See *Description of the Debt Securities Redemption* in the accompanying base prospectus.

Unless we default in payment of the redemption price, on and after the redemption date interest will cease to accrue on the notes or portions thereof called for redemption.

No Sinking Fund

There will be no provisions for any sinking funds for the notes.

Other

We may, from time to time, without notice to or the consent of the holders of the notes, increase the principal amount of the notes under the indenture and issue such increased principal amount (or any portion thereof), in which case any additional notes so issued shall have the same form and terms (other than the date of issuance, public offering price, and, under certain circumstances, the date from which interest thereon shall begin to accrue and the first interest payment date), and shall carry the same right to receive accrued and unpaid interest as the notes previously issued, and such additional notes shall form a single series with the notes offered by this prospectus supplement, provided that such additional notes shall be fungible with the notes offered by this prospectus supplement for United States federal income tax purposes.

Book-Entry, Delivery, and Form

The notes will be represented by one or more permanent global notes in definitive, fully registered form without interest coupons. Upon issuance, the notes will be deposited with The Bank of New York Mellon Trust Company, N.A., as trustee, as custodian for The Depository Trust Company in New York, New York (which we refer to as *DTC*), and registered in the name of *DTC* or its nominee.

Ownership of beneficial interests in a global note will be limited to persons who have accounts with *DTC*, which we refer to as *participants*, or persons who hold interests through *participants*. Ownership of beneficial interests in a global note will be shown on, and the transfer of that ownership will be effected only through, records maintained by *DTC* or its nominee (with respect to interests of *participants*) and the records of *participants* (with respect to interests of persons other than *participants*).

So long as *DTC*, or its nominee, is the registered owner or holder of any of the notes, *DTC* or that nominee, as the case may be, will be considered the sole owner or holder of such notes represented by the global note for all purposes under the note indenture and the notes. No beneficial owner of an interest in a global note will be able to transfer such interest except in accordance with *DTC*'s applicable procedures, in addition to those provided for under the note indenture.

Payments of the principal of, and interest on, a global note will be made to *DTC* or its nominee, as the case may be, as the registered owner thereof. None of the trustee, any paying agent, or we will have any responsibility or liability for

any aspect of the records relating to or payments made on account of beneficial ownership interests in a global note or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

S-8

Table of Contents

We expect that DTC or its nominee, upon receipt of any payment of principal or interest in respect of a global note, will credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of such global note as shown on the records of DTC or its nominee. We also expect that payments by participants to owners of beneficial interests in such global note held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. Such payments will be the responsibility of such participants.

We expect that transfers between participants in DTC will be effected in the ordinary way in accordance with DTC rules and procedures and will be settled in same-day funds.

We expect that DTC will take any action permitted to be taken by a holder of notes only at the direction of one or more participants to whose account the DTC interests in a global note is credited and only in respect of such portion of the aggregate principal amount of notes as to which such participant or participants has or have given such direction.

A global note is exchangeable for definitive notes in registered certificate form if:

DTC (i) notifies us that it is unwilling or unable to continue as depository for the global notes, and we fail to appoint a successor depository, or (ii) has ceased to be a clearing agency registered under the Securities Exchange Act of 1934, as amended; or

at our option, we notify the trustee in writing that we have elected to cause the issuance of the certificated securities.

In all cases, certificated securities delivered in exchange for any global note or beneficial interests in global notes will be registered in the names, and issued in any approved denominations, requested by or on behalf of the depository (in accordance with its customary procedures). Certificated securities may be presented for registration, transfer and exchange at The Bank of New York Mellon Trust Company, N.A., Chicago, Illinois, or the office or agency designated for such purpose.

DTC has advised us that: DTC is a limited purpose trust company organized under the laws of the State of New York, a banking organization within the meaning of New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the Uniform Commercial Code and a Clearing Agency registered pursuant to the provisions of Section 17A of the Exchange Act. DTC was created to hold securities for its participants and facilitate the clearance and settlement of securities transactions between participants through electronic book-entry changes in accounts of its participants, thereby eliminating the need for physical movement of certificates. Indirect access to the DTC system is available to others such as banks, brokers, dealers and trust companies and certain other organizations that clear through or maintain a custodial relationship with a participant, either directly or indirectly, whom we refer to as indirect participants.

Although DTC is expected to follow the foregoing procedures in order to facilitate transfers of interests in a global note among participants of DTC, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time. None of the trustee, the paying agent, nor we will have any responsibility for the performance by DTC or its participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

Same Day Settlement and Payment

We will make payments in respect of the notes represented by the global notes (including principal, interest and premium, if any) by wire transfer of immediately available funds to the accounts specified by the global noteholder. We will make all payments of principal, interest and premium with respect to certificated securities by wire transfer of immediately available funds to the accounts specified by the holders thereof or, if no account

S-9

Table of Contents

is specified, by mailing a check to that holder's registered address. The exchange notes represented by the global notes are expected to trade in DTC's Same Day Funds Settlement System, and any permitted secondary market trading activity in the notes will, therefore, be required by DTC to be settled in immediately available funds. We expect that secondary trading in any certificated securities will also be settled in immediately available funds.

S-10

Table of Contents**UNDERWRITING**

Barclays Capital Inc. and Wells Fargo Securities, LLC (together, the Representatives), as representatives of the underwriters named below, have entered into an underwriting agreement, dated the date of this prospectus supplement, with Edison International relating to the offer and sale of the notes. In the underwriting agreement, Edison International has agreed to sell to each underwriter, and each underwriter has severally agreed to purchase from Edison International, the principal amount of notes set forth opposite its name below:

Underwriter	Principal Amount of Notes to be Purchased
Barclays Capital Inc.	\$
Wells Fargo Securities, LLC.	
Total	\$

The underwriting agreement provides that the obligations of the underwriters to purchase the notes included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters are obligated to purchase all the notes if they purchase any of the notes.

The underwriters propose to offer the notes directly to the public at the public offering price set forth on the cover page of this prospectus supplement and may offer the notes to dealers at the public offering price less a concession not to exceed % of the principal amount of the notes. The underwriters may allow, and dealers may reallow a concession not to exceed % of the principal amount of the notes on sales to other dealers. After the initial offering of the notes to the public, the underwriters may change the public offering price and concessions.

In connection with this offering, we will pay an underwriting discount to the underwriters of % of the principal amount of the notes.

In connection with the offering, the underwriters may purchase and sell notes in the open market. These transactions may include over-allotment, syndicate covering transactions, and stabilizing transactions. Over-allotment involves syndicate sales of notes in excess of the principal amount of notes to be purchased by the underwriter in the offering, which creates a syndicate short position. Syndicate covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover syndicate short positions. Stabilizing transactions consist of certain bids or purchases of notes made for the purpose of preventing or retarding a decline in the market price of the notes while the offering is in progress.

The underwriters also may impose a penalty bid. Penalty bids permit the underwriters to reclaim a selling concession from a syndicate member when the underwriters, in covering syndicate short positions or making stabilizing purchases, repurchase notes originally sold by that syndicate member.

Any of these activities may have the effect of preventing or retarding a decline in the market price of the notes. They may also cause the price of the notes to be higher than the price that otherwise would exist in the open market in the absence of these transactions. The underwriters may conduct these transactions in the over-the-counter market or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.

We estimate that our total expenses for this offering, excluding the underwriting discount, will be \$.

Certain of the underwriters and their affiliates have performed investment banking, commercial banking and advisory services for us and our affiliates from time to time for which they have received customary fees and expenses. The underwriters and their affiliates may, from time to time, engage in transactions with and perform services for us and our affiliates in the ordinary course of their business.

S-11

Table of Contents

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities.

In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve our securities and instruments or those of our affiliates. The underwriters and their respective affiliates may also make investment recommendations or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long or short positions in such securities and instruments.

We expect delivery of the notes will be made against payment therefor on or about March 1, 2017, which is the fifth business day after the date of this prospectus. Under Rule 15c6-1 of the Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the notes on the date of this prospectus or the next succeeding business day will be required, by virtue of the fact that the notes initially will not settle in T+3, to specify an alternative settlement cycle at the time of any such trade to prevent a failed settlement and should consult their own advisor.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933, or to contribute to payments the underwriters may be required to make because of any of those liabilities.

Selling Restrictions

Canada

The notes may be sold only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 *Prospectus Exemptions* or subsection 73.3(1) of the *Securities Act* (Ontario), and are permitted clients, as defined in National Instrument 31-103 *Registration Requirements, Exemptions and Ongoing Registrant Obligations*. Any resale of the notes must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this prospectus supplement (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for particulars of these rights or consult with a legal advisor.

Pursuant to section 3A.3 of National Instrument 33-105 *Underwriting Conflicts* (NI 33-105), the underwriters are not required to comply with the disclosure requirements of NI 33-105 regarding underwriter conflicts of interest in connection with this offering.

Table of Contents

LEGAL MATTERS

Barbara E. Mathews, our Vice President, Associate General Counsel, Chief Governance Officer and Corporate Secretary, will pass upon the legality of the notes for us. Certain legal matters will be passed upon for the underwriters by Cleary Gottlieb Steen & Hamilton LLP, New York, New York.

PROSPECTUS

EDISON INTERNATIONAL

Debt Securities

We may offer and sell an indeterminate amount of debt securities from time to time in one or more offerings. This prospectus provides you with a general description of the debt securities that may be offered.

Each time debt securities are sold, a supplement to this prospectus that contains specific information about the offering and the terms of the debt securities will be provided. The supplement may also add, update or change information contained in this prospectus. You should carefully read this prospectus and any supplement for the specific offering before you invest in any of the debt securities.

The debt securities may be sold to or through underwriters, dealers or agents or directly to other purchasers. A prospectus supplement will set forth the names of any underwriters, dealers or agents involved in the sale of the debt securities, the principal amounts of debt securities to be purchased by them, and the compensation they will receive.

We will provide information in the prospectus supplement for the trading market, if any, for any debt securities we may offer.

This prospectus may be used to offer and sell debt securities only if accompanied by the prospectus supplement for those debt securities.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this Prospectus is September 17, 2015

ABOUT THIS PROSPECTUS

This prospectus is provided by Edison International which is sometimes referred to in this prospectus by the terms we, us and our.

This prospectus is part of a shelf registration statement filed with the United States Securities and Exchange Commission. By using a shelf registration statement, we may sell the debt securities described in this prospectus from time to time in one or more offerings. This prospectus only provides you with a general description of the debt securities that we may offer. Each time we sell debt securities, we will provide a supplement to this prospectus that contains specific information about the terms of the debt securities. The supplement may also add, delete, update or change information contained in this prospectus. You should rely on the information in the applicable supplement if this prospectus and the supplement are inconsistent. Before purchasing any debt securities, you should carefully read both this prospectus and any applicable supplement, together with the additional information described under the heading Where You Can Find More Information.

We are responsible for the information contained and incorporated by reference in this prospectus, in any accompanying supplement and in any applicable free writing prospectus that we prepare or authorize. We have not authorized anyone to provide you with any other information, and we take no responsibility for any other information that others may provide you. We will not make an offer to sell these debt securities in any jurisdiction where the offer or sale is not permitted. You should assume that the information appearing in this prospectus and any supplement is accurate only as of the dates on their respective covers, or any earlier dates specified therein. Our business, financial condition, results of operations and prospects may have changed since those respective dates.

FORWARD-LOOKING STATEMENTS

This prospectus, any accompanying supplement and the additional information described under the heading Where You Can Find More Information may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. The words believes, expects, anticipates, intends, plans, estimates, projects, may, will, could, would, should, and variations of such words and similar expressions, or discussions of strategy plans, are intended to identify forward-looking statements. Such statements necessarily involve risks and uncertainties that could cause actual results to differ materially from those anticipated or otherwise could impact us and the value of our debt securities. Some of the risks, uncertainties and other important factors that could cause results to differ from those currently expected, or that otherwise could impact us or the value of our debt securities, are described under the headings Management's Discussion and Analysis of Financial Condition and Results of Operations, Forward-Looking Statements and Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2014, and in subsequent Quarterly Reports on Form 10-Q and Current Reports on Form 8-K incorporated by reference into this prospectus.

We urge you to read this entire prospectus, including any supplement and the information incorporated by reference, and carefully consider the risks, uncertainties and other factors that affect our business. Forward-looking statements speak only as of the date they are made and we are not obligated to publicly update or revise forward-looking statements. You should review future reports we file with the Securities and Exchange Commission.

EDISON INTERNATIONAL

Edison International is the parent holding company of Southern California Edison Company, a California public utility. Edison International also owns or holds interests in companies that are competitive businesses related to the generation or use of electricity. Such competitive business activities are currently not material to report as a separate business segment. Based in Rosemead, California, Edison International was incorporated in California in 1987.

The mailing address and telephone number of our principal executive offices are P.O. Box 976, Rosemead, CA 91770 and (626) 302-2222.

Table of Contents**USE OF PROCEEDS**

Except as otherwise described in a prospectus supplement, we intend for the net proceeds of the offered debt securities to be used for general corporate purposes or to reduce short-term debt.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth the ratios of Edison International's consolidated earnings to fixed charges for each year in the five-year period ended December 31, 2014 and for the six months ended June 30, 2015:

	Year Ended December 31,					Six Months Ended June 30,
	2010	2011	2012	2013	2014	2015
Ratio of Earning to Fixed Charges	3.93	4.06	4.16	3.03	4.26	3.75

DESCRIPTION OF THE DEBT SECURITIES

The following is a general description of the terms and provisions of the debt securities we may offer and sell by this prospectus in one or more distinct offerings. This summary is not meant to be a complete description of each series of debt securities. This prospectus and any accompanying prospectus supplement will contain the particular terms and conditions for each series of debt securities. For more information about the debt securities, please refer to the indenture dated as of September 10, 2010 between Edison International and The Bank of New York Mellon Trust Company, N.A., as trustee, for the issuance of debt securities, which we refer to as the indenture in this prospectus.

We have filed a copy of the indenture as an exhibit to the registration statement that includes this prospectus. We refer to the trustee for the indenture as the indenture trustee. The indenture is governed by the Trust Indenture Act of 1939 and may be supplemented or amended from time to time.

The indenture gives us broad authority to set the particular terms of each series of debt securities, including the right to modify certain of the terms contained in the indenture. The particular terms of a series of debt securities and the extent, if any, to which the particular terms of the issue modify the terms of the indenture will be described in the prospectus supplement relating to the debt securities.

The indenture contains the full legal text of the matters described in this section. Because this section is a summary, it does not describe every aspect of the debt securities or the indenture. This summary is subject to and qualified by all the provisions of the indenture, including definitions of terms used in the indenture. Therefore, you should read carefully the detailed provisions of the indenture, which we have incorporated by reference as an exhibit to the registration statement that includes this prospectus. This summary also is subject to and qualified by the description of the particular terms of the debt securities in the applicable prospectus supplement.

General

We may issue an unlimited amount of debt securities under the indenture in one or more series. We need not issue all debt securities of one series at the same time and, unless otherwise provided, we may reopen a series, without the consent of the holders of the debt securities of that series, for issuances of additional debt securities of that series.

Prior to the issuance of each series of debt securities, the terms of the particular debt securities will be specified in a supplemental indenture (including any pricing supplement) or in one or more officer's certificates of Edison International pursuant to a supplemental indenture or a board resolution. We refer you to the applicable prospectus supplement for a description of the following terms, among others, of the series of debt securities:

the title of the debt securities;

any limit upon the aggregate principal amount of the debt securities of that series;

the date or dates on which principal will be payable or how to determine the dates;

the rate or rates or method of determination of interest; the date from which interest will accrue; the dates on which interest will be payable, which we refer to as the interest payment dates; and any record dates for the interest payable on the interest payment dates;

any obligation or option of Edison International to redeem, purchase or repay debt securities, or any option of the registered holder to require Edison International to redeem or repurchase debt securities, and the terms and conditions upon which the debt securities will be redeemed, purchased or repaid;

the denominations in which the debt securities will be issuable (if other than denominations of \$1,000 and any integral multiple of \$1,000 in excess thereof);

any provision relating to deferral of interest payments;

Table of Contents

whether the debt securities are subject to discharge or defeasance at our option;

whether the debt securities are to be issued in whole or in part in the form of one or more global debt securities and, if so, the identity of the depository for the global debt securities; and

any other terms of the debt securities.

Ranking

The debt securities will be unsecured senior debt obligations of Edison International. The indebtedness represented by the debt securities will rank equally with all other unsecured and unsubordinated debt of Edison International.

Holding Company Structure

Edison International conducts its operations through its subsidiaries and substantially all of its consolidated assets are held by its subsidiaries. Accordingly, Edison International's cash flow and its ability to meet its obligations under its debt securities are largely dependent upon the earnings of its subsidiaries and the distribution or other payment of these earnings to Edison International. The subsidiaries are separate and distinct legal entities and have no obligation to pay any amounts due on the Edison International debt securities or to make any funds available for payment of amounts due on these debt securities.

Because Edison International is a holding company, its obligations under the debt securities will be structurally subordinated to all existing and future liabilities and preferred equity of its subsidiaries. Therefore, the rights of Edison International's creditors, including the rights of the holders of the debt securities issued by Edison International, to participate in the assets of any subsidiary upon the liquidation or reorganization of the subsidiary will depend on the rights of Edison International against the subsidiary. In that regard, Edison International's equity interest in the subsidiary would be subject to the prior claims of the subsidiary's creditors and preferred stockholders. To the extent that Edison International may itself be a creditor with recognized claims against any of its subsidiaries, Edison International's claims would be subordinated to any security interest in, or mortgages or other liens on, the assets of the subsidiary or any other indebtedness or other liabilities of the subsidiary that are senior to the claims held by Edison International.

Payment of Debt Securities Interest

Unless indicated otherwise in an applicable prospectus supplement, we will pay interest on the debt security on each interest payment date to the person in whose name the debt security is registered as of the close of business on the regular record date relating to the interest payment date.

Unless otherwise specified in connection with a particular offering of debt securities:

if an interest payment date falls on a day that is not a Business Day, the payment due on such interest payment date will be postponed to the next succeeding Business Day and no further interest will accrue in respect of such postponement;

interest will be computed on the basis of a 360-day year consisting of twelve 30-day months; provided that the amount of interest payable for any period shorter or longer than a full interest period will be computed on the basis of a 360-day year consisting of twelve 30-day months and the actual number of days elapsed in the period using 30-day months; and

in this section, **Business Day** means any day which is a day on which commercial banks settle payments and are open for general business in Los Angeles.

If a date for payment of interest or principal on the debt securities falls on a day that is not a business day in the place of payment, such payment will be made on the next succeeding business day in such place of payment as if made on the date the payment was due. No interest will accrue on any amounts payable for the period from and after the due date for payment of such principal or interest.

Table of Contents

If we default in paying interest on a debt security, we will pay defaulted interest in either of the two following ways:

We will first propose to the indenture trustee a payment date for the defaulted interest. Next, the indenture trustee will choose a special record date for determining which registered holders are entitled to the payment. The special record date will be between 10 and 15 days before the payment date we propose. Finally, we will pay the defaulted interest on the payment date to the registered holder of the debt security as of the close of business on the special record date.

Alternatively, we can propose to the indenture trustee any other lawful manner of payment, provided that is not inconsistent with the requirements of any securities exchange on which the debt securities are listed for trading, if any. If the indenture trustee thinks the proposal is practicable, payment will be made as proposed.

Payment of Debt Securities Principal

Unless indicated otherwise in an applicable prospectus supplement, we will pay principal of and any premium on the debt securities at stated maturity, upon redemption or otherwise, upon presentation of the debt securities at the office of the indenture trustee, as our initial paying agent. Any other paying agent initially designated for the debt securities of a particular series will be named in the applicable prospectus supplement.

In our discretion, we may change the place of payment on the debt securities, and may remove any paying agent, may appoint one or more additional paying agents, and may act as our own paying agent.

If the stated maturity of the debt securities falls on a day that is not a Business Day, the payment due at stated maturity will be postponed to the next succeeding Business Day, and no further interest will accrue in respect of such postponement.

Form; Transfers; Exchanges

Unless we indicate otherwise in an applicable prospectus supplement, the debt securities will be issued

only in fully registered form;

without interest coupons; and
