- (a) Level 3 security. See Note (a) of the accompanying Notes to Portfolio of Investments.
- (b) Illiquid security.
- (c) Denotes a restricted security.
- (d) Variable Rate Instrument. The rate shown is based on the latest available information as of January 31, 2019. Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions. These securities do not indicate a reference rate and spread in their description.
- (e) The maturity date presented for these instruments represents the next call/put date.
- (f) Perpetual bond. This is a bond that has no maturity date, is redeemable and pays a steady stream of interest indefinitely. The maturity date presented for these instruments represents the next call/put date.
- (g) For this security the annuity payments increase by 3.25% every year, until the asset amortizes to zero.
- (h) Sinkable security.
- (i) This security is government guaranteed.
- (j) The maturity date presented for these instruments is the later of the next date on which the security can be redeemed at par or the next date on which the rate of interest is adjusted.

**Notes to Portfolio of Investments (unaudited)**

**January 31, 2019**

**Summary of Significant Accounting Policies**

**a. Security Valuation:**

The Fund values its securities at current market value or fair value, consistent with regulatory requirements. Fair value is defined in the Fund's Valuation and Liquidity Procedures as the price that could be received to sell an asset or paid to transfer a liability in an orderly transaction between willing market participants without a compulsion to transact at the measurement date.

In accordance with the authoritative guidance on fair value measurements and disclosures under generally accepted accounting principles in the United States of America, the Fund discloses the fair value of its investments using a three-level hierarchy that classifies the inputs to valuation techniques used to measure the fair value. The hierarchy assigns Level 1, the highest level, measurements to valuations based upon unadjusted quoted prices in active markets for identical assets, Level 2 measurements to valuations based upon other significant observable inputs, including adjusted quoted prices in active markets for similar assets, and Level 3, the lowest level, measurements to valuations based upon unobservable inputs that are significant to the valuation. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability, which are based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement.

Long-term debt and other fixed-income securities are valued at the last quoted or evaluated bid price on the valuation date provided by an independent pricing service provider approved by the Board. If there are no current day bids, the security is valued at the previously applied bid. Pricing services generally price debt securities assuming orderly transactions of an institutional round lot size and the strategies employed by the Fund's investment adviser generally trade in round lot sizes. In certain circumstances, some trades may occur in smaller odd lot sizes which may be effected at lower or higher prices than institutional round lot trades. Short-term debt securities (such as commercial paper and U.S. treasury bills) having a remaining maturity of 60 days or less are valued at amortized cost, if it represents the best approximation of fair value. Debt and other fixed-income securities are generally determined to be Level 2 investments.

Short-term investments are comprised of cash and cash equivalents invested in short-term investment funds which are redeemable daily. The Fund sweeps available cash into the State Street Institutional U.S. Government Money Market Fund; a government money market fund pursuant to Rule 2a-7 under the Investment Company Act of 1940, as amended, which has an objective, which is not guaranteed, to maintain a \$1.00 per share net asset value. Registered investment companies are valued at their net asset value as reported by such company. Generally, these investment types are categorized as Level 1 investments.

Derivatives are valued at fair value. Exchange traded derivatives are generally Level 1 investments and over-the-counter derivatives are generally Level 2 investments. Forward foreign currency contracts are generally valued based on the bid price of the forward rates and the current spot rate. Forward exchange rate quotations are available for scheduled settlement dates, such as 1-, 3-, 6-, 9- and 12-month periods. An interpolated valuation is derived based on the actual settlement dates of the forward contracts held. Futures contracts are valued at the settlement price or at the last bid price if no settlement price is available. Interest rate swaps agreements are generally valued by an approved pricing agent based on the terms of the swap agreement (including future cash flows).

In the event that a security's market quotations are not readily available or are deemed unreliable (for reasons other than because the foreign exchange on which they trade closed before the Valuation Time), the security is valued at fair value as determined by the Fund's Pricing Committee, taking into account the relevant factors and surrounding circumstances using valuation policies and procedures approved by the Board. A security that has been fair valued by the Fund's Pricing Committee may be classified as Level 2 or Level 3 depending on the nature of the inputs. The three-level hierarchy of inputs is summarized below:

Level 1 quoted prices in active markets for identical investments;

**Notes to Portfolio of Investments (unaudited) (continued)****January 31, 2019**

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, and credit risk); or

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

A summary of standard inputs is listed below:

<b>Security Type</b>	<b>Standard Inputs</b>
Debt and other fixed-income securities	Reported trade data, broker-dealer price quotations, benchmark yields, issuer spreads on comparable securities, credit quality, yield, and maturity.
Forward foreign currency contracts	Forward exchange rate quotations.
Swap agreements	Market information pertaining to the underlying reference assets, i.e., credit spreads, credit event probabilities, fair values, forward rates, and volatility measures.

The following is a summary of the inputs used as of January 31, 2019 in valuing the Fund's investments and other financial instruments at fair value. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. Please refer to the Portfolio of Investments for a detailed breakout of the security types:

	<b>Level 1-Quoted Prices (\$)</b>	<b>Level 2-Other Significant Observable Inputs (\$)</b>	<b>Level 3-Significant Unobservable Inputs (\$)</b>	<b>Total (\$)</b>
<b>Investments, at Value</b>				
<b>Investments in Securities</b>				
<b>Fixed Income Investments</b>				
Bank Loans	\$	\$	\$ 7,999,522	\$ 7,999,522

<b>Total Liabilities - Other Financial Instruments</b>	<b>\$ (1,375,306)</b>	<b>\$ (2,165,926)</b>	<b>\$</b>	<b>\$ (3,541,232)</b>

Amounts listed as - are \$0 or round to \$0.

## Edgar Filing: ABERDEEN ASIA-PACIFIC INCOME FUND INC - Form N-Q

For the period ended January 31, 2019, there were no significant changes to the fair valuation methodologies. Level 3 investments held, at the beginning, during and at the end of the period in relation to net assets were not significant (less than 0.67% of total net assets) and accordingly, a reconciliation of Level 3 assets for the period ended January 31, 2019 is not presented. The valuation technique used at January 31, 2019 was a single unadjusted broker quote. The inputs utilized by the broker to value the investment were not available.

**Notes to Portfolio of Investments (unaudited) (concluded)**

**January 31, 2019**

**b. Restricted Securities:**

Restricted securities are privately-placed securities whose resale is restricted under U.S. securities laws. The Fund may invest in restricted securities, including unregistered securities eligible for resale without registration pursuant to Rule 144A and privately-placed securities of U.S. and non-U.S. issuers offered outside the U.S. without registration pursuant to Regulation S under the Securities Act of 1933, as amended. Rule 144A securities may be freely traded among certain qualified institutional investors, such as the Fund, but resale of such securities in the U.S. is permitted only in limited circumstances.

Aberdeen Asia-Pacific Income Fund, Inc.

**Item 2 Controls and Procedures**

- (a) The Registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the Registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940 (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of the report that includes the disclosure required by this paragraph, based on the evaluation of these controls and procedures required by Rule 30a-3(b) under the Investment Company Act of 1940 (17 CFR 270.30a3(b)) and Rule 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934 (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There was no change in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940 (17 CFR 270.30a-3(d))) that occurred during the registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

**Item 3. Exhibits**

- (a) Certification of Principal Executive Officer and Principal Financial Officer of the Registrant as required by Rule 30a-2(a) under the Investment Company Act of 1940 (17 CFR 270.30a-2(a)) is attached hereto as Exhibit 99.302CERT.
