EXPLANATORY NOTE

This Post-Effective Amendment No. 1 to the registration statement on Form S-1 (this Post-Effective Amendment No. 1) of Invesco DB Multi-Sector Commodity Trust (the Trust) and Invesco DB Agriculture Fund (the Fund) (Registration Nos. 333-227188 and 333-227188-01) is being filed to incorporate by reference the Fund s Annual Report on Form 10-K for the fiscal year ended December 31, 2018, which the was filed with the Securities and Exchange Commission (the SEC) on February 28, 2019.

Table of Contents

INVESCO DB MULTI-SECTOR COMMODITY TRUST

Invesco DB Agriculture Fund

98,372,875

Common Units of Beneficial Interest

Invesco DB Multi-Sector Commodity Trust (the **Trust**) is organized in seven separate series as a Delaware statutory trust. The Invesco DB Agriculture Fund (the **Fund**) is a series of the Trust and is offered pursuant to this Prospectus. The Fund issues common units of beneficial interest (**Shares**), which represent units of fractional undivided beneficial interest in and ownership of the Fund. Shares may be purchased from the Fund only by certain eligible financial institutions, called Authorized Participants, and only in one or more blocks of 200,000 Shares (**Baskets**). Baskets are issued on the creation order settlement date as of 2:45 p.m., Eastern time, on the business day immediately following the creation order date at the applicable net asset value (**NAV**) per Share as of the closing time of the NYSE Arca, Inc. (**NYSE Arca**) or the last to close of the exchanges on which the Fund's futures contracts are traded, whichever is later, on the creation order date. Upon submission of a creation order, the Authorized Participant may request the Managing Owner to agree to a creation order settlement date up to two business days after the creation order date.

The Shares trade on the NYSE Arca under the symbol **DBA**.

Invesco Capital Management LLC serves as the Fund's managing owner (the **Managing Owner**), commodity pool operator and commodity trading advisor. The Fund trades

exchange-traded futures contracts on the commodities comprising the DBIQ Diversified Agriculture Index Excess Return (the **Index**) with a view to tracking the Index over time. The Fund also earns interest income (**Treasury Income**) from United States Treasury securities (**Treasury Securities**) and dividends from its holdings in money market mutual funds (affiliated or otherwise) (**Money Market Income**). The Fund also gains exposure to Treasury Securities through an investment in exchange-traded funds (affiliated or otherwise) (**ETFs**) that track indexes that measure the performance of U.S. Treasury Obligations with a maximum remaining maturity of up to twelve months (**T-Bill ETFs**), and the Fund may receive dividends or distributions of capital gains from those investments (**T-Bill ETF Income**). Additionally, the Fund's performance reflects the appreciation or depreciation of its investments in Treasury Securities, money market mutual funds and T-Bill ETFs.

The Index, which is comprised of one or more underlying commodities (the **Index Commodities**), is intended to reflect the agricultural sector. The Index Commodities consist of Corn, Soybeans, Wheat, Kansas City Wheat, Sugar, Cocoa, Coffee, Cotton, Live Cattle, Feeder Cattle, and Lean Hogs.

Except when aggregated in Baskets, the Shares are not redeemable securities.

INVESTING IN THE SHARES INVOLVES SIGNIFICANT RISKS.

PLEASE REFER TO RISK FACTORS BEGINNING ON PAGE 15.

Futures trading is volatile and even a small movement in market prices could cause large losses.

Edgar Filing: Invesco DB Multi-Sector Commodity Trust - Form POS AM

The success of the Fund's trading program depends upon the skill of the Managing Owner and its trading principals.

You could lose all or substantially all of your investment.

The Index is concentrated in a small number of commodities. Concentration may result in greater volatility.

Investors pay fees in connection with their investment in the Shares, including asset-based fees of 0.85% per annum. Additional charges include brokerage fees of approximately 0.04% per annum in the aggregate.

Authorized Participants may offer to the public, from time-to-time, Shares from any Baskets they create. Shares offered to the public by Authorized Participants will be offered at a per-Share offering price that will vary depending on, among other factors, the trading price of the Shares on the NYSE Arca, the NAV per Share and the supply of and demand for the Shares at the time of sale. Because the Shares will trade at market prices, rather than the NAV of the Fund, Shares may trade at prices greater than NAV (at a premium), at NAV, or less than NAV (at a discount). Authorized Participants will not receive from the Fund, the Managing Owner or any of their affiliates any fee or other compensation in connection with their sale of Shares to the public.

An Authorized Participant may receive commissions or fees from investors who purchase Shares through their commission or fee-based brokerage accounts. In addition, the Managing Owner pays a distribution services fee to Invesco Distributors, Inc. and pays a marketing services fee to Deutsche Investment Management Americas Inc. (DIMA) without reimbursement from the Trust or the Fund. For more information regarding items of compensation paid to Financial Industry Regulatory Authority, Inc. (FINRA) members, please see the Plan of Distribution section on page 96.

These securities have not been approved or disapproved by the U.S. Securities and Exchange Commission (SEC) or any state securities commission nor has the SEC or any state securities commission passed upon the accuracy or adequacy of this Prospectus. Any representation to the contrary is a criminal offense. The Fund is not a mutual fund or any other type of investment company within the meaning of the Investment Company Act of 1940, as amended, and is not subject to regulation thereunder.

THE COMMODITY FUTURES TRADING COMMISSION HAS NOT PASSED UPON THE MERITS OF PARTICIPATING IN THIS POOL NOR HAS THE COMMISSION PASSED ON THE ADEQUACY OR ACCURACY OF THIS DISCLOSURE DOCUMENT.

COMMODITY FUTURES TRADING COMMISSION

RISK DISCLOSURE STATEMENT

YOU SHOULD CAREFULLY CONSIDER WHETHER YOUR FINANCIAL CONDITION PERMITS YOU TO PARTICIPATE IN A COMMODITY POOL. IN SO DOING, YOU SHOULD BE AWARE THAT COMMODITY INTEREST TRADING CAN QUICKLY LEAD TO LARGE LOSSES AS WELL AS GAINS. SUCH TRADING LOSSES CAN SHARPLY REDUCE THE NET ASSET VALUE OF THE POOL AND CONSEQUENTLY THE VALUE OF YOUR INTEREST IN THE POOL. IN ADDITION, RESTRICTIONS ON REDEMPTIONS MAY AFFECT YOUR ABILITY TO WITHDRAW YOUR PARTICIPATION IN THE POOL.

FURTHER, COMMODITY POOLS MAY BE SUBJECT TO SUBSTANTIAL CHARGES FOR MANAGEMENT, AND ADVISORY AND BROKERAGE FEES. IT MAY BE NECESSARY FOR THOSE POOLS THAT ARE SUBJECT TO THESE CHARGES TO MAKE SUBSTANTIAL TRADING PROFITS TO AVOID DEPLETION OR EXHAUSTION OF THEIR ASSETS. THIS DISCLOSURE DOCUMENT CONTAINS A COMPLETE DESCRIPTION OF EACH EXPENSE TO BE CHARGED THIS POOL AT PAGE 49 AND A STATEMENT OF THE PERCENTAGE RETURNS NECESSARY TO BREAK EVEN, THAT IS, TO RECOVER THE AMOUNT OF YOUR INITIAL INVESTMENT, AT PAGE 30.

THIS BRIEF STATEMENT CANNOT DISCLOSE ALL THE RISKS AND OTHER FACTORS NECESSARY TO EVALUATE YOUR PARTICIPATION IN THIS COMMODITY POOL. THEREFORE, BEFORE YOU DECIDE TO PARTICIPATE IN THIS COMMODITY POOL, YOU SHOULD CAREFULLY STUDY THIS DISCLOSURE DOCUMENT, INCLUDING A DESCRIPTION OF THE PRINCIPAL RISK FACTORS OF THIS INVESTMENT, AT PAGES 15 THROUGH 28.

YOU SHOULD ALSO BE AWARE THAT THIS COMMODITY POOL MAY TRADE FOREIGN FUTURES OR OPTIONS CONTRACTS. TRANSACTIONS ON MARKETS LOCATED OUTSIDE THE UNITED STATES, INCLUDING MARKETS FORMALLY LINKED TO A UNITED STATES MARKET, MAY BE SUBJECT TO REGULATIONS WHICH OFFER DIFFERENT OR DIMINISHED PROTECTION TO THE POOL AND ITS PARTICIPANTS. FURTHER, UNITED STATES REGULATORY AUTHORITIES MAY BE UNABLE TO COMPEL THE ENFORCEMENT OF THE RULES OF REGULATORY AUTHORITIES OR MARKETS IN NON-UNITED STATES JURISDICTIONS WHERE TRANSACTIONS FOR THE POOL MAY BE EFFECTED.

THIS PROSPECTUS DOES NOT INCLUDE ALL OF THE INFORMATION OR EXHIBITS IN THE REGISTRATION STATEMENT OF THE TRUST OR FUND. YOU CAN READ AND COPY THE ENTIRE REGISTRATION STATEMENT AT THE PUBLIC REFERENCE FACILITIES MAINTAINED BY THE SEC IN WASHINGTON, D.C.

THE FUND FILES QUARTERLY AND ANNUAL REPORTS WITH THE SEC. YOU CAN READ AND COPY THESE REPORTS AT THE SEC PUBLIC REFERENCE FACILITIES IN WASHINGTON, D.C. PLEASE CALL THE SEC AT 1-800-SEC-0330 FOR FURTHER INFORMATION.

THE FILINGS OF THE TRUST AND FUND ARE POSTED AT THE SEC WEBSITE AT [HTTP://WWW.SEC.GOV](http://www.sec.gov).

REGULATORY NOTICES

NO DEALER, SALESMAN OR ANY OTHER PERSON HAS BEEN AUTHORIZED TO GIVE ANY INFORMATION OR TO MAKE ANY REPRESENTATION NOT CONTAINED IN THIS PROSPECTUS, AND, IF GIVEN OR MADE, SUCH OTHER INFORMATION OR REPRESENTATION

Table of Contents

MUST NOT BE RELIED UPON AS HAVING BEEN AUTHORIZED BY THE TRUST, THE FUND, THE MANAGING OWNER, THE AUTHORIZED PARTICIPANTS OR ANY OTHER PERSON.

THIS PROSPECTUS DOES NOT CONSTITUTE AN OFFER OR SOLICITATION TO SELL OR A SOLICITATION OF AN OFFER TO BUY, NOR SHALL THERE BE ANY OFFER, SOLICITATION, OR SALE OF THE SHARES IN ANY JURISDICTION IN WHICH SUCH OFFER, SOLICITATION, OR SALE IS NOT AUTHORIZED OR TO ANY PERSON TO WHOM IT IS UNLAWFUL TO MAKE ANY SUCH OFFER, SOLICITATION, OR SALE.

THE BOOKS AND RECORDS OF THE FUND ARE MAINTAINED AS FOLLOWS: ALL MARKETING MATERIALS ARE MAINTAINED AT THE OFFICES OF INVESCO DISTRIBUTORS, INC., 11 GREENWAY PLAZA, SUITE 1000, HOUSTON, TEXAS 77046-1173; TELEPHONE NUMBER (800) 983-0903; BASKET CREATION AND REDEMPTION BOOKS AND RECORDS, ACCOUNTING AND CERTAIN OTHER FINANCIAL BOOKS AND RECORDS (INCLUDING FUND ACCOUNTING RECORDS, LEDGERS WITH RESPECT TO ASSETS, LIABILITIES, CAPITAL, INCOME AND EXPENSES, THE REGISTRAR, TRANSFER JOURNALS AND RELATED DETAILS) AND TRADING AND RELATED DOCUMENTS RECEIVED FROM FUTURES COMMISSION MERCHANTS ARE MAINTAINED BY THE BANK OF NEW YORK MELLON, 2 HANSON PLACE, BROOKLYN, NEW YORK 11217, TELEPHONE NUMBER (718) 315-7500. ALL OTHER BOOKS AND RECORDS OF THE FUND (INCLUDING MINUTE BOOKS AND OTHER GENERAL CORPORATE RECORDS, TRADING RECORDS AND RELATED REPORTS AND OTHER ITEMS RECEIVED FROM THE FUND'S COMMODITY BROKERS) ARE MAINTAINED AT THE FUND'S PRINCIPAL OFFICE, C/O INVESCO CAPITAL MANAGEMENT LLC, 3500 LACEY ROAD, SUITE 700, DOWNERS GROVE, ILLINOIS 60515; TELEPHONE NUMBER (800) 983-0903. SHAREHOLDERS WILL HAVE THE RIGHT, DURING NORMAL BUSINESS HOURS, TO HAVE ACCESS TO AND COPY (UPON PAYMENT OF REASONABLE REPRODUCTION COSTS) SUCH BOOKS AND RECORDS IN PERSON OR BY THEIR AUTHORIZED ATTORNEY OR AGENT. MONTHLY ACCOUNT STATEMENTS FOR THE FUND CONFORMING TO COMMODITY FUTURES TRADING COMMISSION (CFTC) AND THE NATIONAL FUTURES ASSOCIATION (NFA) REQUIREMENTS ARE POSTED ON THE MANAGING OWNER'S WEBSITE AT [HTTP://WWW.INVESCO.COM/ETFs](http://www.invesco.com/ETFs). ADDITIONAL REPORTS MAY BE POSTED ON THE MANAGING OWNER'S WEBSITE IN THE DISCRETION OF THE MANAGING OWNER OR AS REQUIRED BY REGULATORY AUTHORITIES. INFORMATION ON THE MANAGING OWNER'S WEBSITE SHALL NOT BE DEEMED TO BE A PART OF THIS PROSPECTUS OR INCORPORATED BY REFERENCE HEREIN UNLESS OTHERWISE EXPRESSLY STATED. THERE WILL SIMILARLY BE DISTRIBUTED TO SHAREHOLDERS, NOT MORE THAN 90 DAYS AFTER THE CLOSE OF THE FUND'S FISCAL YEAR, CERTIFIED AUDITED FINANCIAL STATEMENTS AND (IN NO EVENT LATER THAN MARCH 15 OF THE IMMEDIATELY FOLLOWING YEAR) THE TAX INFORMATION RELATING TO SHARES OF THE FUND NECESSARY FOR THE PREPARATION OF SHAREHOLDERS' ANNUAL FEDERAL INCOME TAX RETURNS.

THE DIVISION OF INVESTMENT MANAGEMENT OF THE SECURITIES AND EXCHANGE COMMISSION REQUIRES THAT THE FOLLOWING STATEMENT BE PROMINENTLY SET FORTH HEREIN: NEITHER INVESCO DB MULTI-SECTOR COMMODITY TRUST NOR ANY SERIES THEREOF IS A MUTUAL FUND OR ANY OTHER TYPE OF INVESTMENT COMPANY WITHIN THE MEANING OF THE INVESTMENT COMPANY ACT OF 1940, AS AMENDED, AND IS NOT SUBJECT TO REGULATION THEREUNDER.

AUTHORIZED PARTICIPANTS MAY BE REQUIRED TO DELIVER A PROSPECTUS WHEN TRANSACTING IN SHARES. SEE PLAN OF DISTRIBUTION.

SUMMARY

This summary of material information contained or incorporated by reference in this Prospectus is intended for quick reference only and does not contain all of the information that may be important to you. For ease of reference, any references throughout this Prospectus to various actions taken by the Fund are actually actions that the Trust has taken on behalf of the Fund. The remainder of this Prospectus contains more detailed information. You should read the entire Prospectus, including the information incorporated by reference in this Prospectus, before deciding whether to invest in Shares. Please see the section "Incorporation by Reference of Certain Documents" for information on how you can obtain the information that is incorporated by reference in this Prospectus. This Prospectus is dated April 10, 2019.

The Trust and the Fund

Invesco DB Multi-Sector Commodity Trust (the Trust) was formed as a Delaware statutory trust, in seven separate series, or funds, on August 3, 2006. Invesco DB Agriculture Fund (the Fund) is a series of the Trust. The Fund issues common units of beneficial interest (Shares), which represent units of fractional undivided beneficial interest in and ownership of the Fund. The term of the Trust and the Fund is perpetual (unless terminated earlier in certain circumstances). The principal executive offices of the Trust and the Fund are located at c/o Invesco Capital Management LLC, 3500 Lacey Road, Suite 700, Downers Grove, IL 60515, and its telephone number is (800) 983-0903.

As of the date of this Prospectus, the Trust consists of the following seven series: Invesco DB Energy Fund, Invesco DB Oil Fund, Invesco DB Precious Metals Fund, Invesco DB Gold Fund, Invesco DB Silver Fund, Invesco DB Base Metals Fund and Invesco DB Agriculture Fund. This Prospectus is for the Fund only and not for the first six funds listed in the prior sentence (the Sectors Funds). The Sectors Funds are not being offered by this Prospectus. Information regarding both the Fund and the Sectors Funds (and any

other additional series of the Trust) is available at

www.invesco.com/ETFs.

Shares Listed on the NYSE Arca

The Shares are listed on the NYSE Arca under the symbol DBA.

Secondary market purchases and sales of Shares are subject to ordinary brokerage commissions and charges.

Purchases and Sales in the Secondary Market on the NYSE Arca

Individual Shares may be purchased and sold only on the NYSE Arca. Because the Shares will trade at market prices, rather than the net asset value (NAV) of the Fund, Shares may trade at prices greater than NAV (at a premium), at NAV, or less than NAV (at a discount).

Baskets may be created or redeemed directly with the Fund only by Authorized Participants. It is expected that Baskets will be created when the market price per Share is at a premium to the NAV per Share. Similarly, it is expected that Baskets will be redeemed when the market price per Share is at a discount to the NAV per Share. Retail investors seeking to purchase or sell Shares on any day are expected to effect such transactions in the secondary market, on the NYSE Arca, at the market price per Share.

The market price of the Shares may not be identical to the NAV per Share, but these valuations are expected to be very close. Investors are able to use the intra-day indicative value (IIV) per Share to determine if they want to purchase in the secondary market via the NYSE Arca. The IIV per Share is based on the prior day's final NAV, adjusted four times per minute throughout the trading day to reflect the price changes of the Fund's holdings. As a result, the IIV provides a continuously updated estimate of the Fund's NAV per Share.

Retail investors may purchase and sell Shares through traditional brokerage accounts. Purchases or sales of Shares may be subject to brokerage commissions. Investors are encouraged to review the terms of their brokerage accounts for applicable charges.

Table of Contents

Pricing Information Available on the NYSE Arca and Other Sources

The following table lists additional NYSE Arca symbols and their meanings with respect to the Fund and the Index:

DBA	Market price per Share on NYSE Arca
DBA.IV	IIV per Share
DBA.NV	End of day NAV of the Fund
DBAGIX	Intra-day Index closing level
DBLCDBAE	End of day Index closing level as of close of NYSE Arca

The intra-day data in the above table, including the IIV, is published once every fifteen seconds throughout each trading day.

The Index Sponsor (as defined herein) calculates and publishes the closing level of the Index daily. The Managing Owner publishes the NAV of the Fund and the NAV per Share daily.

All of the foregoing information is published as follows:

The intra-day level of the Index (symbol: DBAGIX) and the IIV per Share (symbol: DBA.IV) (each quoted in U.S. dollars) are published once every fifteen seconds throughout each trading day on the consolidated tape, Reuters and/or Bloomberg and on the Managing Owner's website at www.invesco.com/ETFs, or any successor thereto.

The current trading price per Share (symbol: DBA) (quoted in U.S. dollars) is published continuously as trades occur throughout each trading day on the consolidated tape, Reuters and/or Bloomberg and on the Managing Owner's website at www.invesco.com/ETFs, or any successor thereto.

The most recent end-of-day Index closing level (symbol: DBLCDBAE) is published as of the close of business for the NYSE Arca each trading day on the consolidated tape, Reuters and/or Bloomberg and on the Managing Owner's website at www.invesco.com/ETFs, or any successor thereto.

The most recent end-of-day NAV of the Fund (symbol: DBA.NV) is published as of the close of business on Reuters and/or Bloomberg and on the Managing Owner's website at www.invesco.com/ETFs, or any successor thereto. In addition, the most recent end-of-day NAV of the Fund (symbol: DBA.NV) is published the following morning on the consolidated tape.

All of the foregoing information with respect to the Index, including the Index's history, is also published at <https://index.db.com>.

The Index Sponsor obtains information for inclusion in, or for use in the calculation of, the Index from sources the Index Sponsor considers reliable. None of the Index Sponsor, the Managing Owner, the Fund or any of their respective affiliates accepts responsibility for or guarantees the accuracy and/or completeness of the Index or any data included in the Index.

Information on the Managing Owner's website shall not be deemed to be a part of this Prospectus or incorporated by reference herein unless otherwise expressly stated.

CUSIP Number

The CUSIP number of the Fund is 46140H106.

Risk Factors

An investment in the Shares is speculative and involves a high degree of risk. The summary risk factors set forth below are intended merely to highlight certain risks of the Fund. The Fund has additional risks that are set forth elsewhere in this Prospectus.

Edgar Filing: Invesco DB Multi-Sector Commodity Trust - Form POS AM

Past performance is not necessarily indicative of future results; all or substantially all of an investment in the Fund could be lost.

The Fund's trading of futures contracts takes place in very volatile markets.

The Fund is subject to fees and expenses in the aggregate amount of approximately 0.89% per annum and will be successful

Table of Contents

only if its annual returns from futures trading, plus its annual Treasury Income, and any Money Market Income and T-Bill ETF Income, exceed such fees and expenses.

The Fund is subject to position limits imposed by the Commodity Futures Trading Commission (CFTC) and/or futures exchange rules. If the Fund were to reach a position limit, its ability to issue new Baskets or to reinvest income in additional futures contracts may be impaired or limited. This may adversely affect the correlation between the market price of the Shares and the NAV of the Fund, which could result in Shares trading at a premium or discount to NAV of the Fund.

There can be no assurance that the Fund will achieve profits or avoid losses, significant or otherwise.

Performance of the Fund may not track the Index during particular periods or over the long term. This tracking error may cause the Fund to outperform or underperform the Index.

Disruptions in the ability to create or redeem Baskets may adversely affect investors.

Certain potential conflicts of interest exist between the Managing Owner, the Commodity Broker (as defined herein) and their affiliates and the Fund's shareholders (Shareholders).

Although the Managing Owner attempts to monitor for conflicts, it is extremely difficult, if not impossible, for the Managing Owner to ensure that the conflicts will not, in fact, result in adverse consequences to the Fund and the Shareholders.

The Fund's NAV may not always correspond to the market price of the Shares and, as a result, Baskets may be created or redeemed at a value that differs from the market price of the Shares.

Shareholders will be subject to taxation on their allocable share of the Fund's taxable income, whether or not they receive cash distributions.

The Trustee

Wilmington Trust Company (the Trustee), a Delaware trust company, is the sole trustee of the Trust. The Trustee's duties and liabilities with respect to the offering of the Shares and the management of the Fund are limited to its express obligations under the Fifth Amended and Restated Declaration of Trust and Trust Agreement (the Trust Agreement).

Investment Objective

The Fund seeks to track changes, whether positive or negative, in the level of the DBIQ Diversified Agriculture Index Excess Return (the Index) over time, plus the excess, if any, of the sum of the Fund's Treasury Income, Money Market Income and T-Bill ETF Income, over the expenses of the Fund. The Fund invests in futures contracts in an attempt to track its Index. The Fund holds Treasury Securities, money market mutual funds and T-Bill ETFs for margin and/or cash management purposes only, and the Fund's performance reflects the appreciation or depreciation of such securities.

The Shares are designed for investors who want a cost-effective and convenient way to invest in commodity futures on U.S. and non-U.S. markets.

Advantages of investing in the Fund include:

Edgar Filing: Invesco DB Multi-Sector Commodity Trust - Form POS AM

Ease and Flexibility of Investment. The Shares trade on the NYSE Arca and provide institutional and retail investors with indirect access to commodity futures markets. The Shares may be bought and sold on the NYSE Arca like other exchange-listed securities. Retail investors may purchase and sell Shares through traditional brokerage accounts.

Margin. Shares are eligible for margin accounts.

Diversification. The Shares may help to diversify a portfolio of investments in stocks, bonds, and related assets to the extent there is low to negative correlation between those asset classes and the performance of the Index.

Optimum Yield . A portion of the Index utilizes an Optimum Yield methodology, which seeks to minimize the effects of negative roll yield that may be experienced by other commodities indexes. Negative

Table of Contents

roll yield is a term that describes the adverse impact of an upward-sloping price curve for futures contracts, which makes it more expensive to replace expiring contracts with new contracts.

Transparency. The Shares provide a more direct investment in commodities than mutual funds or ETFs that invest in commodity-linked notes or otherwise gain indirect exposure to commodities, which may have implicit imbedded costs, credit risk and other potentially opaque features.

Investing in the Fund does not insulate Shareholders from certain risks, including volatility in the spot prices of the commodities comprising the Index (Index Commodities). In addition, the Fund seeks to mitigate the adverse consequences of negative roll yield and to maximize the potential benefits of positive roll yield by tracking the Index. However, it may not be successful in doing so.

The Fund pursues its investment objective by investing in a portfolio of exchange-traded futures on the Index Commodities.

The Index is intended to reflect the agricultural sector. The Index Commodities consist of Corn, Soybeans, Wheat, Kansas City Wheat, Sugar, Cocoa, Coffee, Cotton, Live Cattle, Feeder Cattle, and Lean Hogs.

The Fund trades futures contracts on Index Commodities (Index Contracts) that are subject to position limits under regulations of the CFTC or futures exchange rules, as applicable. The Managing Owner may determine to invest in other futures contracts if at any time it is impractical or inefficient to gain full or partial exposure to any Index Commodity through the use of Index Contracts. These other futures contracts may or may not be based on an Index Commodity. When they are not, the Managing Owner seeks to select futures contracts that it reasonably believes tend to exhibit trading prices that correlate with an Index Contract.

As the Fund approaches or reaches position limits with respect to an Index Commodity, the Fund may commence investing in Index Contracts that reference other Index Commodities. In those

circumstances, the Fund may also trade in futures contracts based on commodities other than Index Commodities that the Managing Owner reasonably believes tend to exhibit trading prices that correlate with an Index Contract.

The Index Sponsor calculates the Index on an excess return basis. The excess return basis calculation reflects the change in market value over time, whether positive or negative, of the applicable underlying commodity futures only.

The Fund also holds United States Treasury Securities (Treasury Securities) for deposit with the Fund's Commodity Broker as margin and Treasury Securities, cash and money market mutual funds (affiliated or otherwise) on deposit with the Custodian (for cash management purposes). Additionally, the Fund gains an exposure to Treasury Securities, with a maximum remaining maturity of up to 12 months, through its holdings of T-Bill ETFs (affiliated or otherwise). Such holdings of T-Bill ETFs are on deposit with the Custodian (for cash management purposes) and may be held by the Fund's Commodity Broker as margin, to the extent permissible under CFTC rules.

General

The Index is calculated on an excess return, or unfunded basis. The Index is rolled on both an Optimum Yield™ and non-Optimum Yield™ basis. The Optimum Yield™ rolling methodology seeks to maximize the roll benefits in backwarddated markets and to minimize the losses from rolling in contangoed markets. The non-Optimum Yield™ portion of the Index is rolled to the next to expire futures contract as provided below under Contract Selection (Non-OY Single Commodity Indexes only).

The sponsor of the Index is Deutsche Investment Management Americas Inc. (the Index Sponsor or DIMA).

Composition of the Index

The Index is designed to be composed of notional amounts of each Index Commodity. The notional amount of each Index Commodity included

Table of Contents

in the Index is intended to reflect the changes in market value of each such Index Commodity within the Index. The Closing Level of the Index is calculated on each Index Business Day (as defined below) by the Index Sponsor based on the closing price of the futures contracts for each of the underlying Index Commodities and the notional amounts of such Index Commodities.

Each Index Commodity is assigned a weight (Index Base Weight), which is intended to reflect the proportion of such Index Commodity relative to the Index. The Index has been calculated back to a base date (Base Date). On the Base Date of January 18, 1989, the closing level of the Index (the Closing Level) was 100. The Index is rebalanced annually in November to ensure that each of the Index Commodities is weighted in the same proportion that such Index Commodities were weighted on the Base Date.

The composition of the Index may be adjusted in the event that the Index Sponsor is not able to calculate the closing prices of the Index Commodities.

The Index methodology includes provisions for the replacement of futures contracts as they approach maturity. This replacement takes place over a period of time in order to lessen the impact on the market for the futures contracts being replaced. With respect to each Index Commodity, the Fund employs a rule-based approach when it rolls from one futures contract to another. The Index is comprised of OY Single Commodity Indexes and non-OY Single Commodity Indexes. The Index Commodities that underlie the OY Single Commodity Indexes are Corn, Soybeans, Wheat, Kansas City Wheat and Sugar. The Index Commodities that underlie the non-OY Single Commodity Indexes are Cocoa, Coffee, Cotton, Live Cattle, Feeder Cattle and Lean Hogs.

The OY Single Commodity Indexes are rolled to the futures contract which generates the best possible implied roll yield under prevailing market conditions. Where there is an upward-sloping price curve for futures contracts, the implied roll yield is expected to be negative. The selection of a new Index Contract in such market conditions is designed to

minimize the impact of negative roll yield. Conversely, where there is a downward-sloping price curve for futures contracts, the implied roll yield is expected to be positive. The selection of a new Index Contract in such market conditions is designed to maximize the impact of positive roll yield. The OY Single Commodity Indexes take the impact of implied roll yield into consideration by selecting, as the replacement for an expiring futures contract, the futures contract with a delivery month within the next thirteen months that generates the most favorable implied roll yield under current market conditions.

The market condition in which the Index is designed to maximize the effect of positive roll yield when entering into new futures contracts is called backwardation. Backwardation exists when prices are higher for contracts with shorter-term expirations than those with longer-term expirations, a condition that is typically associated with commodities that are consumed quickly instead of being held in storage. Rolling in a backwardated market will tend to enhance returns from futures trading.

The market condition in which the Index is designed to mitigate the effect of negative roll yield when entering into new futures contracts is called contango. Contango exists when contract prices are higher in distant delivery months than in nearer delivery months, typically due to costs associated with storing a given physical commodity for a longer period. Rolling in a contangoed market will tend to cause a drag on returns from futures trading.

Each of the non-OY Single Commodity Indexes rolls only to the next to expire futures contract as provided below under Contract Selection (Non-OY Single Commodity Indexes only).

The Fund's returns from futures trading are called excess return, which is the combined return based on the spot prices of the Index Commodities and the roll yield from trading Index Contracts.

Contract Selection (OY Single Commodity Indexes only)

On the first Index Business Day of each month (Verification Date), each Index Commodity futures contract will be tested in order to determine whether

Table of Contents

to continue including it in the applicable OY Single Commodity Index. If the Index Commodity futures contract requires delivery of the underlying commodity in the next month, known as the Delivery Month, a new Index Commodity futures contract will be selected for inclusion in such OY Single Commodity Index. For example, if the first Index Business Day is May 1 of the current year, and the Delivery Month of the Index Commodity futures contract currently in such OY Single Commodity Index is June of the current year, a new Index Commodity futures contract with a later Delivery Month will be selected.

For each underlying Index Commodity of an OY Single Commodity Index, the new Index Contract selected will be the Index Contract with the best possible implied roll yield based on the closing price for each eligible Index Contract. Eligible Index Contracts are any Index Contracts having a Delivery Month (i) no sooner than the month after the Delivery Month of the Index Contract currently in such OY Single Commodity Index, and (ii) no later

than the thirteenth month after the Verification Date. For example, if the first Index Business Day is May 1 of the current year and the Delivery Month of an Index Contract currently in an OY Single Commodity Index is June of the current year, the Delivery Month of an eligible new Index Contract must be between July of the current year and June of the following year. The implied roll yield is calculated and the futures contract on the Index Commodity with the best possible implied roll yield is selected. If two futures contracts have the same implied roll yield, the futures contract with the fewest number of months prior to the Delivery Month is selected.

After selection of the replacement futures contract, each OY Single Commodity Index will roll such replacement futures contract as provided in the sub-paragraph Monthly Index Roll Period with respect to both OY Single Commodity Indexes and Non-OY Single Commodity Indexes.

[Remainder of page left blank intentionally.]

Table of Contents

Contract Selection (Non-OY Single Commodity Indexes only)

On the first Index Business Day of each month, each non-OY Single Commodity Index will select a new futures contract to replace the old futures contract as provided in the following schedule.

Contract	Exchange (Symbol)	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Cocoa	ICE-US (CC)	H	K	K	N	N	U	U	Z	Z	Z	H	H

After selection of the replacement futures contract, each non-OY Single Commodity Index will roll such replacement futures contract as provided in the sub-paragraph Monthly Index Roll Period with respect to both OY Single Commodity Indexes and Non-OY Single Commodity Indexes.

[Remainder of page left blank intentionally.]

Table of Contents

Monthly Index Roll Period with respect to both OY Single Commodity Indexes and Non-OY Single Commodity Indexes

After the futures contract selection with respect to both OY Single Commodity Indexes and non-OY Single Commodity Indexes, the monthly roll for each Index Commodity subject to a roll in that particular month unwinds the old futures contract and enters a position in the new futures contract. This takes place between the second and sixth Index Business Day of the month.

On each day during the roll period, new notional holdings are calculated. The calculations for the Index Contracts that are leaving the Index and for the new Index Contracts that are being added to the Index are then calculated.

On all days that are not monthly index roll days, the notional holdings of each Index Contract remains constant.

The Index is re-weighted on an annual basis on the sixth Index Business Day of each November. The calculation of the Index is expressed as the weighted average return of the Index Commodities.

Shares Should Track Closely the Value of the Index

The Shares are intended to provide investment results that generally correspond to changes, positive or negative, in the levels of the Index over time.

The value of the Shares is expected to fluctuate in relation to changes in the value of the Fund's portfolio. The market price of the Shares may not be identical to the NAV per Share, but these two valuations are expected to be very close.

The Fund holds a portfolio of long futures contracts on the Index Commodities which comprise its Index, each of which are traded on various commodity futures markets. The Fund's portfolio is traded with a view to tracking the Index over time, whether the Index is rising, falling or flat over any particular period. The Fund is not actively managed on the basis of judgments relating to economic,

financial and market considerations with a view to obtaining positive results under all market conditions.

The Managing Owner

Invesco Capital Management LLC, a Delaware limited liability company, serves as Managing Owner of the Trust and the Fund. The Managing Owner was formed on February 7, 2003. The Managing Owner is an affiliate of Invesco Ltd. The Managing Owner was formed to be the managing owner of investment vehicles such as ETFs and has been managing non-commodity futures based ETFs since 2003 and a commodity futures based ETF since 2014. The Managing Owner serves as the commodity pool operator and commodity trading advisor of the Trust and the Fund. The Managing Owner is registered as a commodity pool operator and commodity trading advisor with the CFTC and is a member of, and approved as a swap firm by, the National Futures Association (the "NFA"). As a registered commodity pool operator and commodity trading advisor, with respect to both the Trust and the Fund, the Managing Owner must comply with various regulatory requirements under the United States Commodity Exchange Act of 1936, as amended (the "Commodity Exchange Act") and the rules and regulations of the CFTC and the NFA, including investor protection requirements, antifraud prohibitions, disclosure requirements, and reporting and recordkeeping requirements. The Managing Owner also is subject to periodic inspections and audits by the CFTC and NFA.

The principal office of the Managing Owner is located at 3500 Lacey Road, Suite 700, Downers Grove, IL 60515. The telephone number of the Managing Owner is (800) 983-0903.

The Fund pays the Managing Owner a Management Fee, monthly in arrears, in an amount equal to 0.85% per annum of the daily NAV of the Fund.

The Management Fee is paid in consideration of the Managing Owner's services related to the management of the Fund's business and affairs, including the provision of commodity futures trading advisory services.

Table of Contents

The Fund may, for margin and/or cash management purposes, invest in money market mutual funds and/or T-Bill ETFs that are managed by affiliates of the Managing Owner. The indirect portion of the management fees that the Fund may incur through such investments is in addition to the Management Fee paid to the Managing Owner. The Managing Owner has contractually agreed to waive indefinitely the fees that it receives from the Fund in an amount equal to the indirect management fees that the Fund incurs through its investments in affiliated money market mutual funds and/or affiliated T-Bill ETFs. The Managing Owner may terminate this waiver on 60 days notice.

Under the Trust Agreement, Wilmington Trust Company is the trustee of the Fund. The Trustee's duties and liabilities with respect to the offering of the Shares and the management of the Fund are limited to its express obligations under the Trust Agreement. The Trustee has no duty or liability to supervise or monitor the performance of the Managing Owner, nor does the Trustee have any liability for the acts or omissions of the Managing Owner.

Effective June 4, 2018, the name of the Managing Owner changed from Invesco PowerShares Capital Management LLC to Invesco Capital Management LLC, the name of the Trust changed from PowerShares DB Multi-Sector Commodity Trust to Invesco DB Multi-Sector Commodity Trust, and the name of the Fund changed from PowerShares DB Agriculture Fund to Invesco DB Agriculture Fund.

The Commodity Broker

A variety of executing brokers execute futures transactions on behalf of the Fund. Such executing brokers give-up all such transactions to Morgan Stanley & Co. LLC, a Delaware limited liability company, which serves as the Fund's clearing broker (the Commodity Broker). In its capacity as clearing broker, the Commodity Broker may execute or receive transactions executed by others, clears all of the Fund's futures transactions and performs certain administrative services for the Fund. The Commodity Broker is registered with the CFTC as a futures commission merchant and is a member of the NFA in such capacity.

The Fund pays the Commodity Broker all brokerage commissions, including applicable exchange fees, NFA fees, give-up fees, pit brokerage fees and other transaction related fees and expenses charged in connection with trading activities. On average, total charges paid to the Commodity Broker are expected to be less than \$7.00 per round-turn trade, although the Commodity Broker's brokerage commissions and trading fees are determined on a contract-by-contract basis. The Managing Owner estimates the brokerage commissions and fees will be approximately 0.04% of the NAV of the Fund in any year, although the actual amount of brokerage commissions and fees in any year or any part of any year may be greater.

The Administrator, Custodian and Transfer Agent

The Bank of New York Mellon is the administrator (the Administrator) and serves as the custodian (the Custodian) and the transfer agent (the Transfer Agent) of the Fund. The Bank of New York Mellon has entered into a Administration and Accounting Agreement (the Administration Agreement), a Global Custody Agreement (the Custody Agreement), and a Transfer Agency and Service Agreement, in connection therewith.

Pursuant to the Administration Agreement, the Administrator performs or supervises the performance of services necessary for the operation and administration of the Fund (other than making investment decisions), NAV calculations, accounting and other fund administrative services. Key terms of the Administration Agreement are summarized under the heading Material Contracts.

The Administrator's monthly fees are paid on behalf of the Fund by the Managing Owner out of the Management Fee.

Pursuant to the Transfer Agency and Service Agreement, the Transfer Agent receives a transaction processing fee in connection with receiving and processing orders from Authorized Participants to create or redeem Baskets in the amount of \$500 per order. These transaction processing fees are paid directly by the Authorized Participants and not by the Fund.

Table of Contents

Invesco Distributors, Inc.

Invesco Distributors, Inc. (Invesco Distributors) assists the Managing Owner with certain functions and duties relating to distribution and marketing, including reviewing and approving marketing materials. Invesco Distributors retains all marketing materials at c/o Invesco Distributors, Inc., 11 Greenway Plaza, Suite 1000, Houston, Texas 77046-1173. Investors may contact Invesco Distributors toll-free in the U.S. at (800) 983-0903. The Fund has entered into a Distribution Services Agreement with Invesco Distributors. Invesco Distributors is affiliated with the Managing Owner.

The Managing Owner, out of the Management Fee, pays Invesco Distributors \$25,000 annually (\$6,250 per quarter) for performing its duties on behalf of the Fund. Such services may include, among other services, reviewing distribution related legal documents and contracts, consulting on marketing or sales strategy, maintaining certain books and records in respect of the Fund and performing additional marketing and distribution related services as may be agreed upon by Invesco Distributors and the Managing Owner.

Index Sponsor

The Managing Owner, on behalf of the Fund, has appointed DIMA to serve as the Index Sponsor. The Index Sponsor calculates and publishes the daily index levels and the indicative intraday index levels. The Index Sponsor also calculates the IIV per Share throughout each Business Day.

The Managing Owner pays the Index Sponsor a licensing fee and an index services fee out of the Management Fee for performing its duties.

Marketing Agent

The Managing Owner, on behalf of the Fund, has appointed DIMA (the Marketing Agent) to assist the Managing Owner by providing support to educate institutional investors about the Deutsche Bank indices and to complete governmental or institutional due diligence questionnaires or requests for proposals related to the Deutsche Bank indices.

The Managing Owner pays the Marketing Agent a marketing services fee out of the Management Fee.

The Marketing Agent will not open or maintain customer accounts or handle orders for the Fund. The Marketing Agent has no responsibility for the performance of the Fund or the decisions made or actions taken by the Managing Owner.

800 Number for Investors

Investors may contact the Managing Owner toll free in the U.S. at (800) 983-0903.

Limitation of Liabilities

You cannot lose more than your investment, including any appreciation in your investment, in the Shares. Shareholders are entitled to limitation on liability equivalent to the limitation on liability enjoyed by stockholders of a Delaware business corporation for profit. An investor may be required to return some or all of its capital in the event of a bankruptcy of the Fund.

You will not be subject to the losses or liabilities of any other fund of the Trust in which you have not invested. We have received an opinion of counsel that the Fund is entitled to the benefits of the limitation on inter-series liability provided under the Delaware Statutory Trust Act. Each Share, when purchased in accordance with the Trust Agreement, shall, except as otherwise provided by law, be fully-paid and non-assessable.

The debts, liabilities, obligations, claims and expenses of the Fund will be enforceable against the assets of the Fund only, and not against the assets of the Trust generally or the assets of any other fund of the Trust, and, unless otherwise provided in the Trust Agreement, none of the debts, liabilities, obligations and expenses incurred, contracted for or otherwise existing with respect to the Trust generally or any other series thereof will be enforceable against the assets of the Fund, as the case may be.

Creation and Redemption of Shares

The Fund creates and redeems Shares from time to time, but only in one or more Baskets. A Basket is a block of 200,000 Shares. Baskets may be created or redeemed only by Authorized Participants. Baskets are created and redeemed continuously on the creation order settlement date or

Edgar Filing: Invesco DB Multi-Sector Commodity Trust - Form POS AM

redemption order settlement date, as applicable, as of 2:45 p.m., Eastern time, on the business day immediately following the date on which a valid order to create or

Table of Contents

redeem a Basket is accepted by the Fund. The creation or redemption will be at the NAV of 200,000 Shares as of the closing time of the NYSE Arca or the last to close of the exchanges on which the Index Commodities are traded, whichever is later, on the date that a valid order to create or redeem a Basket is accepted by the Fund. Upon submission of a creation order or redemption order, the Authorized Participant may request the Managing Owner to agree to a creation order settlement or redemption order settlement date up to two business days after the creation order date or redemption order date.

For purposes of processing both purchase and redemption orders, a business day means any day other than a day when banks in New York City are required or permitted to be closed. Except when aggregated in Baskets, the Shares are not redeemable securities. Authorized Participants pay a transaction fee of \$500 in connection with each order to create or redeem a Basket and are subject to an additional processing charge for failure to timely deliver such orders. Authorized Participants may sell the Shares included in the Baskets they purchase from the Fund to other investors.

See [Creation and Redemption of Shares](#) for more details.

Authorized Participants

Baskets may be created or redeemed only by Authorized Participants. Each Authorized Participant must:

- (1) be a registered broker-dealer or other securities market participant such as a bank or other financial institution which is not required to register as a broker-dealer to engage in securities transactions;
- (2) be a participant in the Depository Trust Company (DTC); and
- (3) have entered into an agreement with the Fund and the Managing Owner (a Participant Agreement). The Participant Agreement sets forth the procedures for the creation and redemption of Baskets and for the delivery of cash required for such creations or redemptions.

A list of the current Authorized Participants can be obtained from the Administrator. See [Creation and Redemption of Shares](#) for more details.

NAV

NAV means the total assets of the Fund including, but not limited to, all cash and cash equivalents or other debt securities less total liabilities of the Fund, each determined on the basis of generally accepted accounting principles in the United States, consistently applied under the accrual method of accounting.

NAV per Share is the NAV of the Fund divided by the number of outstanding Shares.

See [Description of the Shares; The Fund; Certain Material Terms of the Trust Agreement-NAV](#) for more details.

Clearance and Settlement

The Shares are evidenced by global certificates that the Fund issues to DTC. The Shares are available only in book-entry form. Shareholders may hold their Shares through DTC, if they are participants in DTC, or indirectly through entities that are participants in DTC.

Segregated Accounts/Treasury Income, Money Market Income and T-Bill ETF Income

The Fund has arranged for the proceeds of the continuous offering of the Shares to be deposited as cash in a segregated account in the name of the Fund at the Custodian (or another eligible financial institution, as applicable) in accordance with CFTC investor protection and segregation requirements. The Fund is credited with 100% of the interest earned on its average net assets on deposit with the Custodian or such other financial institution each week. The Fund's non-margin assets are generally invested in Treasury Securities, money market mutual funds (affiliated or otherwise), and T-Bill ETFs (affiliated or otherwise).

See [Fees and Expenses](#) for more details.

Table of Contents

Fees and Expenses

Management Fee	<p>The Fund pays the Managing Owner a Management Fee, monthly in arrears, in an amount equal to 0.85% per annum of the daily NAV of the Fund. The Management Fee is paid in consideration of the Managing Owner's services related to the management of the Fund's business and affairs, including the provision of commodity futures trading advisory services.</p> <p>The Fund may, for margin and/or cash management purposes, invest in money market mutual funds and/or T-Bill ETFs that are managed by affiliates of the Managing Owner. The indirect portion of the management fees that the Fund may incur through such investments is in addition to the Management Fee paid to the Managing Owner. The Managing Owner has contractually agreed to waive indefinitely the fees that it receives in an amount equal to the indirect management fees that the Fund incurs through its investments in affiliated money market mutual funds and/or affiliated T-Bill ETFs. The Managing Owner may terminate the fee waiver on 60 days notice.</p>
Offering Expenses	<p>Expenses incurred in connection with the continuous offering of Shares are paid by the Managing Owner.</p>
Brokerage Commissions and Fees	<p>The Fund pays to the Commodity Broker all brokerage commissions, including applicable exchange fees, NFA fees, give-up fees, pit brokerage fees and other transaction related fees and expenses charged in connection with its trading activities. On average, total charges paid to the Commodity Broker are expected to be less than \$7.00 per round-turn trade, although the Commodity Broker's brokerage commissions and trading fees are determined on a contract-by-contract basis. The Managing Owner estimates the brokerage commissions and fees will be approximately 0.04% of the NAV of the Fund in any year, although the actual amount of brokerage commissions and fees in any year or any part of any year may be greater.</p>
Routine Operational, Administrative and Other Ordinary Expenses	<p>The Managing Owner pays all of the routine operational, administrative and other ordinary expenses of the Fund, including, but not limited to, computer services, the fees and expenses of the Trustee, license and service fees paid to DIMA as Marketing Agent and Index Sponsor, legal and accounting fees and expenses, tax preparation expenses, filing fees, and printing, mailing and duplication costs.</p>
Non-Recurring Fees and Expenses	<p>The Fund pays all of the non-recurring and unusual fees and expenses (referred to as extraordinary fees and expenses in the Trust Agreement), if any, as determined by the Managing Owner. Non-recurring and unusual fees and expenses include items such as legal claims and liabilities, litigation costs, indemnification expenses and other expenses that are not currently anticipated obligations of the Fund or of managed futures funds in general.</p>

Table of Contents

Management Fee and Expenses to be Paid First out of Treasury Income, Money Market Income and/or T-Bill ETF Income

The Management Fee and the brokerage commissions and fees of the Fund are paid first out of Treasury Income from the Fund's holdings of Treasury Securities, Money Market Income from the Fund's holdings of money market mutual funds (affiliated or otherwise) and T-Bill ETF Income from the Fund's holdings of T-Bill ETFs (affiliated or otherwise), as applicable, on deposit with the Commodity Broker as margin, the Custodian, or otherwise. If the sum of the Treasury Income, the Money Market Income and the T-Bill ETF Income is not sufficient to cover the fees and expenses of the Fund that are payable by the Fund during any period, the excess of such fees and expenses over such Treasury Income, Money Market Income and T-Bill ETF Income, as applicable, will be paid out of income from futures trading, if any, or from sales of the Fund's holdings in Treasury Securities, money market mutual funds, and/or holdings in T-Bill ETFs.

Selling Commission

Retail investors may purchase and sell Shares through traditional brokerage accounts. Investors are expected to be charged a commission by their brokers in connection with purchases of Shares that will vary from investor to investor. Investors are encouraged to review the terms of their brokerage accounts for applicable charges.

Table of Contents

Distributions

The Fund will make distributions at the discretion of the Managing Owner. To the extent that the Fund's actual and projected Treasury Income, the Fund's actual and projected Money Market Income and the Fund's actual and projected T-Bill ETF Income, as applicable, exceeds the actual and projected fees and expenses of the Fund, the Managing Owner expects periodically to make distributions of the amount of such excess. The Managing Owner currently does not expect to make distributions with respect to the Fund's capital gains. Depending on the Fund's performance for the taxable year and your own tax situation for such year, your income tax liability for the taxable year for your allocable share of the Fund's net ordinary income or loss and capital gain or loss may exceed any distributions you receive with respect to such year.

Fiscal Year

The fiscal year of the Fund ends on December 31 of each year.

U.S. Federal Income Tax Considerations

Subject to the discussion below in Material U.S. Federal Income Tax Considerations, the Fund will be classified as a partnership for U.S. federal income tax purposes. Accordingly, the Fund will generally not incur U.S. federal income tax liability; rather, each beneficial owner of Shares will be required to take into account its allocable share of the Fund's income, gain, loss, deduction and other items for the Fund's taxable year ending with or within the owner's taxable year.

Please refer to the Material U.S. Federal Income Tax Considerations section below for information on the potential U.S. federal income tax consequences of the purchase, ownership and disposition of Shares.

Breakeven Amounts

A Shareholder should expect that the Fund's fees and expenses during the first twelve months of the Shareholder's investment will equal 0.89% of the Fund's NAV. This amount equates to \$0.15 per

annum per Share at \$16.94 the Fund's NAV per Share as of January 31, 2019. The Fund's Treasury Income, Money Market Income, and T-Bill ETF Income are expected to exceed the Fund's fees and expenses during those first twelve months, assuming that Treasury Income is earned at a rate of 2.43%, Money Market Income is earned at a rate of 2.10%, and T-Bill ETF Income is earned at a rate of 2.46%. (These assumed rates are based on market rates observed as of January 31, 2019.) This means that, during those first twelve months, the Fund would have to experience trading losses that would exceed the positive difference between the Fund's income and its expenses. As a result, the breakeven amount is reflected as \$0.00 and 0% of NAV.

THE SHARES ARE SPECULATIVE AND INVOLVE A HIGH DEGREE OF RISK.

[Remainder of page left blank intentionally.]

Table of Contents

RISK FACTORS

You could lose money investing in Shares. You should consider carefully the risks described below before making an investment decision. You should also refer to the other information included in this Prospectus.

MARKET RISKS

NAV May Not Always Correspond to Market Price and, as a Result, Baskets May be Created or Redeemed at a Value that Differs from the Market Price of the Shares.

Shares may trade at, above or below their NAV. The NAV fluctuates with changes in the market value of the Fund's assets. The trading price of Shares fluctuates in accordance with changes in the NAV, intraday changes in the value of the futures contracts and market supply and demand. The amount of the discount or premium in the trading price of the Shares relative to their NAV may be influenced by non-concurrent trading hours between NYSE Arca (the exchange on which the Shares trade) and the exchanges on which Index Contracts trade. While the Shares are expected to trade on NYSE Arca until 4:00 p.m. (Eastern time), liquidity in the markets for the Index Contracts are expected to be reduced whenever the principal markets for those contracts are closed. As a result, trading spreads, and the resulting premium or discount on Shares, may widen during these gaps in market trading hours.

The NYSE Arca May Halt Trading in the Shares Which Would Adversely Impact Your Ability to Sell Shares.

The Shares are listed for trading on the NYSE Arca under the market symbol DBA. Trading in Shares may be halted due to market conditions or, in light of NYSE Arca rules and procedures, for reasons that, in the view of the NYSE Arca, make trading in Shares inadvisable. In addition, trading is subject to trading halts caused by extraordinary market volatility pursuant to "circuit breaker" rules that require trading to be halted for a specified period based on a specified market decline. If the Fund were no longer to meet the requirements necessary to maintain the listing of its Shares, the Shares would be delisted. In such a scenario, the Fund would be terminated.

The Lack of An Active Trading Market for the Shares May Result in Losses on Your Investment at the Time of Disposition of Your Shares.

Although the Shares are listed and traded on the NYSE Arca, there can be no guarantee that an active trading market for the Shares will be maintained. If you need to sell your Shares at a time when no active market for them exists, the price you receive for your Shares, assuming that you are able to sell them, likely will be lower than the price you would receive if an active market did exist.

Volatility May Cause the Total Loss of Your Investment.

Futures contracts prices have a high degree of volatility and are subject to rapid and substantial changes. Consequently, there is a risk that the value of your investment in the Fund could decrease significantly due to rapid and substantial changes in the prices of futures contracts held by the Fund. The Index's average annual volatility since inception is 10.08%. Average annual volatility is the average of the Index's volatility each year since its inception. Yearly volatility is the relative rate at which the price of the Index moves up and down, found by calculating the annualized standard deviation of the daily change in price for each business day in the given year.

In addition, the Fund enters sell orders with the Commodity Broker from time to time, to liquidate Index Contract positions in order to satisfy redemption requests or to pay expenses and liabilities. The Fund is subject to the risk that temporary aberrations or distortions will occur in the market for Index Contracts at the time those orders are executed. The prices received by the Fund from the liquidation of its positions could be adversely affected, which in turn could adversely affect the value of the Shares. Those aberrations or distortions may result from trading activities by other market participants or actions taken by the Commodity Broker, the CFTC, the exchanges or other regulatory authorities. If the Fund's positions are liquidated at inopportune times or in a manner that temporarily distorts the market or otherwise causes a pricing aberration, the value of the Shares may be adversely affected.

Table of Contents

The Fund's Trading of Index Contracts May Adversely Affect the Price that the Fund Pays for Index Contracts.

The prices that the Fund pays for Index Contracts may be adversely affected by the trading of Index Contracts by other market participants. Transactions by other market participants may be based on their awareness of the Fund's positions in Index Contracts. If other market participants are able to anticipate the timing of the Fund's Index Contract transactions, for instance, they may be able to execute transactions in advance of the Fund. If that were to occur, those market participants may receive more favorable pricing for their Index Contract transactions than the Fund does for its own, subsequent Index Contract transactions. If the Fund's Index Contract positions represent a significant part of the open long interest in those Index Contracts, moreover, other market participants may take that fact into account and trade in a manner that adversely affects the prices that the Fund obtains when trading Index Contracts. The Fund may not be able to counteract adverse pricing effects of its own positions and transactions in Index Contracts.

Withdrawal from Participation by Authorized Participants May Affect the Liquidity of Shares.

If one or more Authorized Participants withdraws from participation, it may become more difficult to create or redeem Baskets, which may reduce the liquidity of the Shares. If it becomes more difficult to create or redeem Baskets, the correlation between the price of the Shares and the NAV may be affected, which may affect the trading market for the Shares. Having fewer participants in the market for the Shares could also adversely affect the ability to arbitrage any price difference between futures contracts and the Shares, which may also affect the trading market and liquidity of the Shares.

Possible Illiquid Markets May Exacerbate Losses.

Futures positions cannot always be liquidated at the desired price. It is difficult to execute a trade at a specific price when there is a relatively small volume of buy and sell orders in a market. A market disruption, such as when foreign governments may take or be subject to political actions which disrupt

the markets in their currencies or major commodities exports, can also make it difficult to liquidate a position.

Illiquidity may cause losses for the Fund. The large size of the positions which the Fund may acquire increases the risk of illiquidity by both making its positions more difficult to liquidate and increasing the losses incurred while trying to do so.

Trading on Futures Exchanges Outside the United States is Not Subject to U.S. Regulation.

Trading on futures exchanges located outside the United States is not regulated by any United States governmental agency and may involve certain risks not applicable to trading on U.S. exchanges, including different or diminished investor protections. If the Fund trades contracts denominated in currencies other than U.S. dollars, the Fund will be exposed to the risk of adverse exchange-rate movements between the dollar and the currencies in which those contracts are denominated.

In addition, trading on non-U.S. exchanges is subject to the risks presented by exchange controls, expropriation, increased tax burdens and exposure to local economic declines and political instability, among other factors. An adverse development with respect to any of these factors could reduce the profit or increase the loss earned on the Fund's trades on non-U.S. exchanges.

The Effect of Market Disruptions and Government Interventions Are Unpredictable and May Have an Adverse Effect on the Value of Your Shares.

The commodity futures markets may be subject to temporary distortions due to various factors, including lack of liquidity, congestion, disorderly closing periods, manipulation and disruptive conduct, limitations on deliverable supplies, excessive speculation, government regulation and intervention, technical and operational or system failures, nuclear accidents, terrorism, riots and acts of God.

Government intervention has in certain cases been implemented on an emergency basis, suddenly and substantially eliminating market participants' ability to continue to implement certain strategies or manage the risk of their outstanding

Table of Contents

positions. These interventions have typically been unclear in scope and application, resulting in confusion and uncertainty which in itself has been materially detrimental to the efficient functioning of the markets as well as previously successful investment strategies.

The financial crisis of 2008-2009 and associated regulatory changes, including the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Dodd-Frank Act), are generally considered to have contributed to less credit being available to financial market participants. This is particularly the case for credit extended by banks and other traditional lending sources. The Fund does not borrow from lenders for the purpose of pursuing its investment objective. Nonetheless, restrictions on the availability of credit may adversely affect investors who borrow to purchase Shares and participants in the markets for financial instruments in which the Fund trades, including futures markets. Limitations on the availability of credit, whether in stressed market conditions or otherwise, may have a material adverse effect on investors and financial market participants, which in turn could affect the Fund's ability to pursue its investment objective. Among other things, fewer prospective investors may adversely affect the Fund's asset levels, and fewer financial market participants may reduce liquidity and adversely affect pricing for the financial instruments that the Fund seeks to trade.

The Fund may incur major losses in the event of disrupted markets and other extraordinary events in which historical pricing relationships become materially distorted. The risk of loss from pricing distortions is compounded by the fact that in disrupted markets many positions become illiquid, making it difficult or impossible to close out or liquidate positions against which the markets are moving. The large size of the positions which the Fund may acquire increases the risk of illiquidity by both making its positions more difficult to liquidate and increasing the losses incurred while trying to do so.

An Investment in the Shares May Be Adversely Affected by Competition From Other Methods of Investing in Commodities.

The Fund competes with other financial vehicles, including mutual funds, and other

investment companies, ETFs, other index tracking commodity pools, actively traded commodity pools, hedge funds, traditional debt and equity securities issued by companies in the commodities industry, other securities backed by or linked to commodities, and direct investments in the underlying commodities or commodity futures contracts. Market and financial conditions, and other conditions beyond the Managing Owner's control, may make it more attractive to invest in other financial vehicles or to invest in such commodities directly, which could limit the market for the Shares and therefore reduce the liquidity of the Shares.

The NAV Calculation of the Fund May Be Overstated or Understated Due to the Valuation Method Employed When a Settlement Price is not Available on the Date of NAV Calculation.

Calculating the NAV of the Fund includes, in part, any unrealized profits or losses on open commodity futures contracts. Under normal circumstances, the NAV of the Fund reflects the settlement price of open commodity futures contracts on the date when the NAV is being calculated. However, if a commodity futures contract traded on an exchange could not be liquidated for any reason on such day, the Managing Owner may value such futures contract pursuant to policies the Managing Owner has adopted. In such a situation, there is a risk that the calculation of the NAV of the Fund on such day will not accurately reflect the realizable market value of such commodity futures contract. For example, daily limits are generally triggered in the event of a significant change in market price of a commodity futures contract. Therefore, as a result of the daily limit, the current settlement price is unavailable. Because the Managing Owner may value such futures contract pursuant to policies the Managing Owner has adopted, there is a risk that the resulting calculation of the NAV of the Fund could be understated or overstated, perhaps to a significant degree.

FUTURES RISKS

Fluctuations in the Price of Assets Held by the Fund Could Have a Material Adverse Effect on the Value of an Investment in Shares.

The Shares are designed to reflect as closely as possible the changes, positive or negative, in the level

Table of Contents

of the Index, over time, through the Fund's portfolio of Index Contracts. The value of the Shares relates directly to the value of the portfolio, less the liabilities (including estimated accrued but unpaid expenses) of the Fund. The price of the Index Commodities may fluctuate widely. Several factors may affect the prices of the Index Commodities, including, but not limited to:

Global supply and demand of each of the Index Commodities, which may be influenced by such factors as forward selling by the various commodities producers, purchases made by the commodities producers to unwind their hedge positions and production and cost levels in the major markets of each of the Index Commodities;

Domestic and foreign interest rates and investors' expectations concerning interest rates;

Domestic and foreign inflation rates and investors' expectations concerning inflation rates;

Investment and trading activities of mutual funds, ETFs, closed-end funds, hedge funds and commodity funds;

Weather and other environmental conditions;

Acts of God; and

Global or regional political, economic or financial events and situations.

Fewer Representative Commodities May Result in Greater Index Volatility.

The Index Commodities are Corn, Soybeans, Wheat, Kansas City Wheat, Sugar, Cocoa, Coffee, Cotton, Live Cattle, Feeder Cattle, and Lean Hogs. Other commodity indexes may contain a larger number of commodities than the Index. Accordingly, increased volatility in a single Index Commodity is expected to have a greater impact on the Index's overall volatility than would likely be the case with increased volatility in a single commodity within a more diversified index. Because the Fund tracks the performance of the Index, your investment in the Fund will be exposed to the relatively greater impact on the Index of volatility in a single Index Commodity.

Because the Futures Contracts Have No Intrinsic Value, the Positive Performance of Your Investment Is Wholly Dependent Upon an Equal and Offsetting Loss.

Trading in futures contracts transfers the risk of future price movements from one market participant to another. For every gain in futures trading, there is an equal and offsetting loss rather than an opportunity to participate over time in general economic growth. Accordingly, the prices of stocks, bonds, and other assets could rise significantly, and the economy as a whole could prosper, while the Fund experiences losses as a result of pursuing its investment objective through trading Index Contracts.

The Fund May Not Provide a Diversification Benefit to Investments in Other Asset Classes and May Result in Additional Losses to Your Portfolio.

Historically, commodity futures returns have tended not to be correlated with the returns of other assets such as stocks and bonds. Commodity futures contracts therefore have the potential to help diversify investor portfolios consisting of stocks and bonds, to the extent there is low or negative correlation between commodity futures contracts and other assets held in those portfolios. However, the fact that the Index is not inversely correlated with other assets such as stocks and bonds means that, in seeking to replicate the performance of the Index, the Fund will not necessarily be profitable during unfavorable periods for the stock or bond markets. If the Shares perform in a manner that correlates with the stock or bond markets or otherwise do not perform successfully, the Shares may not provide any diversification from losses in those markets. In such a scenario, the Shares may produce no gains to offset your losses from investments in stocks, bonds, or related assets and may result in additional losses to your portfolio.

Edgar Filing: Invesco DB Multi-Sector Commodity Trust - Form POS AM

The Fund's Returns from Futures Trading Will Be Affected by Market Conditions When Replacing Expiring Futures Contracts with New Futures Contracts on Index Commodities.

The Fund's returns from futures trading are called excess return, which is the combined return based on the spot prices of Index Commodities and

Table of Contents

the roll yield from trading Index Contracts. Market conditions at the time the Fund replaces expiring Index Contracts with new Index Contracts *i.e.*, when Index Contracts are rolled will affect the Fund's roll yield. Those market conditions are referred to as backwardation and contango, which will generally affect the Fund's roll yield as set forth below:

Rolling in a backwardated market will tend to enhance returns from futures trading. Backwardation exists when prices are higher for contracts with shorter-term expirations than those with longer-term expirations, a condition that is typically associated with commodities that are consumed quickly instead of being put in storage.

Rolling in a contangoed market will tend to cause a drag on returns from futures trading. Contango exists when contract prices are higher in distant delivery months than in nearer delivery months, typically due to costs associated with storing a given physical commodity for a longer period.

In seeking to track the performance of the Index, therefore, the Fund will be exposed to the effects of backwardation and contango when it rolls its positions in Index Contracts. A portion of the Index uses the Optimum Yield™ rolling methodology, which seeks to maximize the roll benefits in backwardated markets and to minimize the losses from rolling in contangoed markets. There can be no assurance that these outcomes will be obtained. In addition, the non-Optimum Yield™ portion of the Index is rolled to the next to expire futures contract without regard to whether the market for a given Index Contract is backwardated or in contango. This portion of the Index will be fully exposed to the potential adverse effects of contango, and will likely fail to capitalize fully on the potential benefits of backwardation, when Index Contracts contained therein are rolled. The impact of backwardation and contango may also cause the Fund's performance to vary from the returns of other price references, including the spot prices of one or more Index Commodities.

INDEX RISKS

The Fund's Performance May Not Always Replicate the Changes in the Levels of its Index.

It is possible that the Fund's performance may not fully replicate the changes in levels of the Index due to disruptions in the markets for the relevant Index Commodities, the imposition of position limits, or due to other extraordinary circumstances. The Managing Owner may determine to invest in other futures contracts if at any time it is impractical or inefficient to gain full or partial exposure to an Index Commodity through the use of Index Contracts. These other futures contracts may or may not be based on an Index Commodity. When they are not, the Managing Owner may seek to select futures contracts that it reasonably believes tend to exhibit trading prices that correlate with an Index Contract.

As the Fund approaches or reaches position limits with respect to an Index Commodity, the Fund may commence investing in Index Contracts that reference other Index Commodities. In those circumstances, the Fund may also trade in futures contracts based on commodities other than Index Commodities that the Managing Owner reasonably believes tend to exhibit trading prices that correlate with an Index Contract. In addition, the Fund may not be able to replicate the changes in levels of the Index because the total return generated by the Fund is reduced by expenses and transaction costs, including those incurred in connection with the Fund's trading activities, and increased by, as applicable, Treasury Income, Money Market Income and T-Bill ETF Income held for margin and/or cash management purposes. Tracking the Index requires trading of the Fund's portfolio with a view to tracking the Index over time and is dependent upon the skills of the Managing Owner and its trading principals, among other factors.

The Fund Is Not Actively Managed and Tracks the Index During Periods in Which the Index Is Flat or Declining as Well as When the Index Is Rising.

The Fund is not actively managed on the basis of judgments relating to economic, financial and market conditions with a view to obtaining positive results under all market conditions. Instead, the

Table of Contents

Managing Owner seeks to cause the NAV to track the performance of the Index during periods in which the Index is flat or declining as well as when the Index is rising. Therefore, if positions in any one or more of the Index Commodities are declining in value, the Fund will not close out such positions, except in connection with a change in the composition or weighting of the Index.

Unusually Long Peak-to-Valley Drawdown Periods With Respect To the Index May Be Reflected in Equally Long Peak-to-Valley Drawdown Periods with Respect to the Performance of the Shares.

Peak-to-valley drawdown represents the cumulative percentage decline in month-end NAV per Share due to losses sustained during any period in which the initial month-end NAV per Share is not equaled or exceeded by a subsequent month-end NAV per Share.

Although past Index levels are not necessarily indicative of future Index levels, the peak-to-valley drawdown periods that the Index has experienced have been unusually long and have lasted for multi-year drawdown periods. Please see the chart on page 33 for information regarding worst peak-to-valley drawdown periods with respect to the Index.

Because it is expected that the Fund's performance will track the change of its underlying Index, the Fund would experience a continuous drawdown during the period that the Index experiences such a drawdown. The value of your Shares will also decrease during such a period.

REGULATORY RISKS

Regulatory and Exchange Position Limits and Other Rules May Restrict the Creation of Baskets and the Operation of the Fund.

Position Limits. CFTC and futures exchange rules impose position limits on market participants, including the Fund, trading in certain commodity futures contracts. These position limits prohibit any person from holding a position of more than a specific number of futures contracts. Generally, position limits in the physical delivery markets are set at a stricter level during the spot month, which is

the month when the futures contract matures and becomes deliverable, versus the limits for any other month or for all months combined. Limits are generally applied on an aggregate basis to positions held in accounts that are subject to 10% or greater common ownership or control. There are exemptions from this general aggregation requirement.

The Index is composed of 11 Index Commodities, which are all subject to position limits imposed by the CFTC and/or the rules of futures exchanges on which Index Contracts are traded. Currently, position limits (i) for corn, oats, wheat, soybean, soybean oil and cotton are determined by the CFTC and (ii) for all other commodities are determined by the futures exchanges.

The CFTC has been seeking to amend its position limits rules for several years. In November 2013, the CFTC proposed for public comment new position limits and aggregation regulations. After a lengthy comment period on this proposal, the CFTC re-proposed in December 2016 position limits for 25 commodity futures and options contracts, as well as for swaps that are economically equivalent to those contracts. In December 2016, the CFTC adopted rule amendments that provide exemptions from the general requirement to aggregate all positions that are held pursuant to 10% or greater common ownership or control.

The ultimate outcome of this rulemaking effort, and the resulting impact on the Fund of any final regulations that impose new or revised position limits, is unknown. It is also possible that one or more futures exchanges may amend its existing position limits rules or adopt new requirements. In addition, the CFTC could separately implement other changes to specific position limits or to the regime as a whole. New or more restrictive position limits could reduce liquidity in the market, which would be likely to have adverse effects on the pricing of commodity futures contracts. Changes in CFTC and/or exchange-level position limits rules therefore could adversely affect the Fund's ability to pursue its investment objective or achieve favorable performance.

Position Aggregation. In general, a trader is required by CFTC or exchange rules, as applicable, to aggregate all positions in accounts as to which the trader has 10% or greater ownership or control.

Table of Contents

CFTC and exchange rules provide exemptions from this requirement. For example, a trader is not required to aggregate positions in multiple accounts that it owns or controls if that trader is able to satisfy the requirements of an exemption from aggregation of those accounts, including, where available, the independent account controller exemption.

Failure to comply with the independent account controller exemption or another exemption from the aggregation requirement could obligate the Managing Owner to aggregate positions in multiple accounts under its control, which could include the Fund and other commodity pools or accounts under the Managing Owner's control. In such a scenario, the Fund may not be able to obtain exposure to one or more Index Contracts necessary to pursue its investment objective, or it may be required to liquidate existing Index Contract positions in order to comply with a limit. Such an outcome could adversely affect the Fund's ability to pursue its investment objective or achieve favorable performance.

The CFTC amended its position aggregation rules in December 2016. The CFTC staff subsequently issued time-limited no-action relief from compliance with certain requirements under the amended aggregation rules, including the general requirement to aggregate positions in the same commodity futures contracts traded pursuant to substantially identical trading strategies. This no-action relief expires on August 12, 2019.

Accountability Levels. Exchanges may establish accountability levels applicable to futures contracts instead of position limits. An exchange may order a person who holds or controls a position in excess of a position accountability level not to further increase its position, to comply with any prospective limit that exceeds the size of the position owned or controlled, or to reduce any open position that exceeds the position accountability level if the exchange determines that such action is necessary to maintain an orderly market. Position accountability levels could adversely affect the Fund's ability to establish and maintain positions in commodity futures contracts to which such levels apply, if the Fund were to trade in such contracts. Such an outcome could adversely affect the Fund's ability to pursue its investment objective or achieve favorable performance.

Daily Limits. U.S. futures exchanges and some foreign exchanges have regulations that limit the amount of fluctuation in futures contract prices that may occur during a single business day. These limits are generally referred to as daily price fluctuation limits or daily limits, and the maximum or minimum price of a contract on any given day as a result of these limits is referred to as a limit price. Once a limit price has been reached in a particular contract, it is usually the case that no trades may be made at a different price than specified in the limit. The duration of limit prices generally varies. Limit prices may have the effect of precluding the Fund from trading in a particular contract or requiring the Fund to liquidate contracts at disadvantageous times or prices. Either of those outcomes could adversely affect the Fund's ability to pursue its investment objective or achieve favorable performance.

Potential Effects of Positions Limits, Accountability Levels, and Daily Limits. The Fund is currently subject to position limits and may be subject to new and more restrictive position limits in the future. If the Fund reached a position limit or accountability level or became subject to a price limit, it would not be able to issue new Baskets or reinvest income in additional commodity futures contracts to the extent these restrictions limit its ability to establish new futures positions, add to existing positions, or otherwise transact in futures. Limiting the size of the Fund, or restricting the Fund's futures trading, under these requirements could adversely affect the Fund's ability to pursue its investment objective or achieve favorable performance.

Failure of Futures Commission Merchants or Commodity Brokers to Segregate Assets May Increase Losses; Despite Segregation of Assets, the Fund Remains at Risk of Significant Losses Because the Fund May Only Receive a Pro-Rata Share of the Assets or No Assets at All.

The Commodity Exchange Act requires a futures commission merchant to segregate all funds received from customers from such futures commission merchant's proprietary assets. If the Commodity Broker fails to segregate customer assets as required, the assets of the Fund might not be fully protected in the event of the Commodity Broker's bankruptcy. Furthermore, in the event of the

Table of Contents

Commodity Broker's bankruptcy, the Fund could be limited to recovering either a pro rata share of all available funds segregated on behalf of the Commodity Broker's combined customer accounts or the Fund may not recover any assets at all, even though certain property specifically traceable to the Fund was held by the Commodity Broker.

The Commodity Exchange Act requires an approved derivatives clearing organization to segregate all funds and other property received from a clearing member's customers in connection with U.S. futures and options contracts from any funds held at the clearing organization to support the clearing member's proprietary trading. Nevertheless, customer funds held at a clearing organization in connection with any futures or options contracts may be held in a commingled omnibus account, which may not identify the name of the clearing member's individual customers. With respect to futures and options contracts, a clearing organization may use assets of a non-defaulting customer held in an omnibus account at the clearing organization to satisfy payment obligations of a defaulting customer of the clearing member to the clearing organization. In the event of a default of the clearing futures commission merchant's other clients or the clearing futures commission merchant's failure to extend its own funds in connection with any such default, a customer may not be able to recover the full amount of assets deposited by the clearing futures commission merchant with the clearing organization on the customer's behalf.

In the event of a bankruptcy or insolvency of any exchange or a clearing house, the Fund could experience a loss of the funds deposited through the Commodity Broker as margin with the exchange or clearing house, a loss of any unrealized profits on its open positions on the exchange, and the loss of unrealized profits on its closed positions on the exchange.

Regulatory Changes or Actions, Including the Implementation of the Dodd-Frank Act, May Alter the Operations and Profitability of the Fund.

The regulation of commodity interest transactions and markets, including under the Dodd-Frank Act, is a rapidly changing area of law and is subject to ongoing modification by governmental and

judicial action. In particular, the Dodd-Frank Act has expanded the regulation of markets, market participants and financial instruments. The regulatory regime under the Dodd-Frank Act has imposed additional compliance and legal burdens on participants in the markets for futures and other commodity interests. For example, under the Dodd-Frank Act new capital and risk requirements have been imposed on market intermediaries. Those requirements may cause the cost of trading to increase for market participants, like the Fund, that must interact with those intermediaries to carry out their trading activities. These increased costs can detract from the Fund's performance.

The Fund is Subject to Extensive Regulatory Reporting and Compliance.

The Fund is subject to a comprehensive scheme of regulation under the federal commodity futures trading and securities laws. The Fund could be subject to sanctions for a failure to comply with those requirements, which could adversely affect the Fund's financial performance (in the case of financial penalties) or ability to pursue its investment objective (in the case of a limitation on its ability to trade).

Because the Shares are publicly traded, the Fund is subject to certain rules and regulations of federal, state and financial market exchange entities charged with the protection of investors and the oversight of companies whose securities are publicly traded. These entities, including the Public Company Accounting Oversight Board (the PCAOB), the SEC, the CFTC and NYSE-ARCA, have in recent years issued new requirements and regulations, most notably the Sarbanes-Oxley Act of 2002. From time to time, since the adoption of the Sarbanes-Oxley Act of 2002, these authorities have continued to develop additional regulations or interpretations of existing regulations. The Fund's ongoing efforts to comply with these regulations and interpretations have resulted in, and are likely to continue resulting in, a diversion of management's time and attention from revenue-generating activities to compliance related activities.

The Fund is responsible for establishing and maintaining adequate internal control over financial reporting. The Fund's internal control system is designed to provide reasonable assurance to its management regarding the preparation and fair

Table of Contents

presentation of published financial statements. All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective may provide only reasonable assurance with respect to financial statement preparation and presentation.

Current Discussions between the SEC and PricewaterhouseCoopers LLP regarding PricewaterhouseCoopers LLP's Independence Could Have Potentially Adverse Consequences for the Fund.

PricewaterhouseCoopers LLP informed the Fund that it has identified an issue related to its independence under Rule 2-01(c)(1)(ii)(A) of Regulation S-X (referred to as the Loan Rule). The Loan Rule prohibits accounting firms, such as PricewaterhouseCoopers LLP, from being deemed independent if they have certain financial relationships with their audit clients or certain affiliates of those clients. The Fund is required under various securities laws to have its financial statements audited by an independent accounting firm.

The Loan Rule specifically provides that an accounting firm would not be independent if it or certain affiliates and covered persons receive a loan from a lender that is a record or beneficial owner of more than ten percent of an audit client's equity securities (referred to as a more than ten percent owner). For purposes of the Loan Rule, audit clients include the Fund as well as all registered investment companies advised by the Managing Owner and its affiliates, including other subsidiaries of the Managing Owner's parent company, Invesco Ltd. (collectively, the Invesco Fund Complex). PricewaterhouseCoopers LLP informed the Fund it and certain affiliates and covered persons have relationships with lenders who hold, as record owner, more than ten percent of the shares of certain funds within the Invesco Fund Complex, which may implicate the Loan Rule.

On June 20, 2016, the SEC Staff issued a no-action letter to another mutual fund complex (see Fidelity Management & Research Company et al., No-Action Letter) related to the audit independence issue described above. In that letter, the SEC confirmed that it would not recommend enforcement action against a fund that relied on audit services performed by an audit firm that was not in

compliance with the Loan Rule in certain specified circumstances. On May 2, 2018, the SEC proposed amendments to the Loan Rule that, if adopted as proposed, would address many of the issues that led to issuance of the no-action letter. In connection with prior independence determinations, PricewaterhouseCoopers LLP communicated, as contemplated by the no-action letter, that it believes that it remains objective and impartial and that a reasonable investor possessing all the facts would conclude that PricewaterhouseCoopers LLP is able to exhibit the requisite objectivity and impartiality to report on the Fund's financial statements as the independent registered public accounting firm. PricewaterhouseCoopers LLP also represented that it has complied with PCAOB Rule 3526(b)(1) and (2), which are conditions to the Funds relying on the no action letter, and affirmed that it is an independent accountant within the meaning of PCAOB Rule 3520. Therefore, the Managing Owner, the Fund and PricewaterhouseCoopers LLP concluded that PricewaterhouseCoopers LLP could continue as the Fund's independent registered public accounting firm. The Invesco Fund Complex relied upon the no-action letter in reaching this conclusion.

If in the future the independence of PricewaterhouseCoopers LLP is called into question under the Loan Rule by circumstances that are not addressed in the SEC's no-action letter, the Fund will need to take other action in order for the Fund's filings with the SEC containing financial statements to be deemed compliant with applicable securities laws. Such additional actions could result in additional costs, impair the ability of the Fund to issue new shares or have other material adverse effects on the Fund. The SEC no-action relief was initially set to expire eighteen (18) months from issuance but has been extended by the SEC without an expiration date, except that the no-action letter will be withdrawn upon the effectiveness of any amendments to the Loan Rule designed to address the concerns expressed in the letter.

TAX RISKS

Shareholders Will Be Subject to Taxation on Their Allocable Share of the Fund's Taxable Income, Whether or Not They Receive Cash Distributions.

Shareholders will be subject to U.S. federal income taxation and, in some cases, state, local, or

Table of Contents

foreign income taxation on their allocable share of the Fund's taxable income, whether or not they receive cash distributions from the Fund. Shareholders may not receive cash distributions equal to their share of the Fund's taxable income or even the tax liability that results from such income.

Items of Income, Gain, Loss and Deduction With Respect to Shares Could Be Reallocated if the IRS Does Not Accept the Assumptions or Conventions Used by the Fund in Allocating Such Items.

U.S. federal income tax rules applicable to partnerships are complex and often difficult to apply to publicly traded partnerships. The Fund will apply certain assumptions and conventions in an attempt to comply with applicable rules and to report items of income, gain, loss and deduction to Shareholders in a manner that reflects the Shareholders' beneficial interest in such tax items, but these assumptions and conventions may not be in compliance with all aspects of the applicable tax requirements. It is possible that the United States Internal Revenue Service (the "IRS") will successfully assert that the conventions and assumptions used by the Fund do not satisfy the technical requirements of the Internal Revenue Code of 1986, as amended (the "Code"), and/or the Federal Tax Regulations codified under 26 C.F.R., referred to herein as the Treasury Regulations, and could require that items of income, gain, loss and deduction be adjusted or reallocated in a manner that adversely affects one or more Shareholders.

The Tax Cuts and Jobs Act (the "Tax Act") Makes Significant Changes to U.S. Federal Income Tax Rules.

The Tax Act makes significant changes to the U.S. federal income tax rules for taxation of individuals and corporations, generally effective for taxable years beginning after December 31, 2017. Most of the changes applicable to individuals are temporary and would apply only to taxable years beginning after December 31, 2017 and before January 1, 2026. In particular, for individuals, the Tax Act establishes for taxable years beginning after December 31, 2017 and before January 1, 2026 a 20% deduction for "qualified publicly traded partnership income" within the meaning of Section 199A(e)(5) of the Code. In general, "qualified publicly traded partnership income" for

this purpose is an item of income, gain, deduction or loss that is effectively connected with a United States trade or business and includable income for the year, but does not include certain investment income. It is currently not expected that the Fund's income will be eligible for such deduction because as discussed below, although the matter is not free from doubt, the Fund believes that the activities directly conducted by the Fund will not result in the Fund being engaged in a trade or business with the United States. Potential investors should consult their tax advisors regarding the availability of such deduction for their allocable share of the Fund's items of income, gain, deduction and loss.

PROSPECTIVE INVESTORS ARE STRONGLY URGED TO CONSULT THEIR OWN TAX ADVISORS AND COUNSEL WITH RESPECT TO THE POSSIBLE TAX CONSEQUENCES TO THEM OF AN INVESTMENT IN THE SHARES; SUCH TAX CONSEQUENCES MAY DIFFER WITH RESPECT TO DIFFERENT INVESTORS.

OTHER RISKS

An Insolvency Resulting From Another Series of the Trust or the Trust Itself May Have a Material Adverse Effect on the Fund.

This Fund is a series of a Delaware statutory trust. Pursuant to Delaware law, the organization of the Trust provides that the assets and liabilities of this Fund are separate from the assets and liabilities of the other series of the Trust, as well as the Trust itself. Although such organization may, under state law, protect the assets of the Fund in an insolvency action brought by the creditors of one or more of the series of the Trust, this may be insufficient to protect the assets of the Fund from such creditors in an insolvency action in federal court, or in a court in a foreign jurisdiction. Accordingly, an insolvency resulting from one or more of the other series of the Trust or the Trust itself may have a material adverse effect on the Fund.

Disruptions in the Ability to Create and Redeem Baskets May Adversely Affect Investors.

It is generally expected that the public trading price per Share will track the NAV per Share closely

Table of Contents

over time. The relationship between the public trading price per Share and the NAV per Share depends, to a considerable degree, on the ability of Authorized Participants or their clients or customers to purchase and redeem Baskets in the ordinary course. If the process for creating or redeeming Shares is impaired for any reason, Authorized Participants and their clients or customers may not be able to purchase and redeem Baskets or, even if possible, may choose not to do so. The inability to purchase and redeem Baskets, or the partial impairment of the ability to purchase and redeem Baskets, could result in Shares trading at a premium or discount to the NAV of the Fund. Such a premium or discount could be significant, depending upon the nature or duration of the impairment.

If the Fund were to issue all Shares registered in this offering, it would not be able to create new Baskets until it registered additional Shares and those additional Shares became available for sale. An inability to create new Baskets could increase the possibility that the trading price per Share would not track closely the NAV per Share. In addition, the Fund may, in its discretion, suspend the creation of Baskets. Suspension of creations may adversely affect how the Shares are traded and could cause Shares to trade at a premium or discount to the NAV of the Fund, perhaps to a significant degree.

The Shares Could Decrease in Value if Unanticipated Operational or Trading Problems Arise.

The mechanisms and procedures governing the creation, redemption and offering of the Shares have been developed specifically for the Fund. Consequently, there may be unanticipated problems with respect to the mechanics of the operations of the Fund and the trading of the Shares that could have a material adverse effect on an investment in the Shares. To the extent that unanticipated operational or trading problems arise, the Managing Owner's past experience and qualifications may not be suitable for solving those problems.

Historical Performance of the Fund and the Index is Not Indicative of Future Performance.

Past performance of the Fund or the Index is not necessarily indicative of future results. Therefore,

past performance of the Fund or the Index should not be relied upon in deciding whether to buy Shares of the Fund.

Fees and Expenses May Deplete the Fund's Assets if the Fund's Investment Performance is Not Favorable.

The Fund pays fees and expenses regardless of its investment performance. Such fees and expenses include asset-based fees of 0.85% per annum. Additional charges include brokerage fees of approximately 0.04% per annum in the aggregate and selling commissions. Selling commissions are not included in the Fund's breakeven calculation. The sum of the Fund's Treasury Income, Money Market Income and/or T-Bill ETF Income may not exceed its fees and expenses. If such income does not exceed its fees and expenses, in order to break even, the Fund's futures trading activity will need to have a favorable performance that exceeds the difference between the sum of the Fund's Treasury Income, Money Market Income and/or T-Bill ETF Income and its fees and expenses. If the Fund's futures trading performance is not sufficiently favorable, the Fund's expenses could deplete its assets over time. In such a scenario, the value of your Shares will decrease.

There may be circumstances that could prevent the Fund from being operated in a manner consistent with its investment objective.

There may be circumstances outside the control of the Managing Owner and/or the Fund that make it, for all practical purposes, impossible to re-position the Fund and/or to process a purchase or redemption order. Examples of such circumstances include: natural disasters; public service disruptions or utility problems such as those caused by fires, floods, extreme weather conditions, and power outages resulting in telephone, telecopy, and computer failures; market conditions or activities causing trading halts; systems failures involving computer or other information systems affecting the aforementioned parties, as well as DTC, or any other participant in the purchase process, and similar extraordinary events. While the Managing Owner has established and implemented a disaster recovery plan, circumstances such as those identified above may prevent the Fund from being operated in a manner consistent with its investment objective.

Table of Contents

You May Be Adversely Affected by Redemption Orders that Are Subject To Postponement, Suspension or Rejection Under Certain Circumstances.

The Managing Owner may, in its discretion, suspend the right of redemption or postpone the redemption order settlement date, for (1) any period during which an emergency exists as a result of which the redemption distribution is not reasonably practicable, or (2) such other period as the Managing Owner determines to be necessary for the protection of the Shareholders. In addition, the Fund will reject a redemption order if the order is not in proper form as described in the participant agreement with the Authorized Participant, or if the fulfillment of the order, in the opinion of its counsel, might be unlawful. Any such postponement, suspension or rejection could adversely affect a redeeming Authorized Participant. For example, the resulting delay may adversely affect the value of the Authorized Participant's redemption proceeds if the NAV of the Fund declines during the period of delay. The Fund disclaims any liability for any loss or damage that may result from any such suspension or postponement.

Shareholders Do Not Have the Protections Associated With Ownership of Shares in an Investment Company Registered Under the Investment Company Act of 1940.

The Fund is not registered as an investment company under the Investment Company Act of 1940, as amended. Consequently, Shareholders do not have the legal and regulatory protections provided to the investors in investment companies that are registered as such.

Shareholders Do Not Have the Rights Enjoyed by Investors in Certain Other Vehicles.

As interests in separate series of a Delaware statutory trust, the Shares have none of the statutory rights normally associated with the ownership of shares of a corporation. However, under Delaware law, a beneficial owner of a business trust (such as a Shareholder) may, under certain circumstances, institute legal action on behalf of himself and all other similarly situated beneficial owners to recover damages from a third party where a managing owner has failed or refused to institute legal action on behalf

of himself and all other similarly situated beneficial owners to recover damages from a managing owner for violations of fiduciary duties, or on behalf of a business trust to recover damages from a third party where a managing owner has failed or refused to institute proceedings to recover such damages. The Shares have limited voting and distribution rights (for example, Shareholders do not have the right to elect directors and the Fund is not required to pay regular distributions, although the Fund may pay distributions in the discretion of the Managing Owner).

Various Actual and Potential Conflicts of Interest May Be Detrimental to Shareholders.

The Fund is subject to actual and potential conflicts of interest involving the Managing Owner or any of its affiliates, the Commodity Broker, including its principals and its affiliates, the Index Sponsor and Marketing Agent, and Invesco Distributors. The Managing Owner and its principals, all of whom are engaged in other investment activities, are not required to devote substantially all of their time to the business of the Fund, which also presents the potential for numerous conflicts of interest with the Fund. The Managing Owner and its principals and affiliates are engaged in a broad array of asset management and financial services activities and may engage in activities during the ordinary course of business that cause their interests or those of their other clients to conflict with those of the Fund and its Shareholders.

As a result of these and other relationships, parties involved with the Fund have a financial incentive to act in a manner other than in the best interests of the Fund and the Shareholders. For example, by investing in affiliated money market mutual funds and/or T-Bill ETFs for margin and/or cash management purposes, the Managing Owner may select affiliated money market mutual funds and/or T-Bill ETFs that may pay dividends that are lower than non-affiliated money market mutual funds and/or T-Bill ETFs. In addition, the Managing Owner would have a conflict of interest if it sought to redeem the Fund's interest in an affiliated money market mutual fund or T-Bill ETF in circumstances where such a redemption would be unfavorable for the affiliated fund. The Managing Owner has not established any formal procedure to resolve conflicts of interest. Consequently, investors are dependent on

Table of Contents

the good faith of the respective parties subject to such conflicts to resolve them equitably. Although the Managing Owner attempts to monitor these conflicts, it is extremely difficult, if not impossible, for the Managing Owner to ensure that these conflicts do not, in fact, result in adverse consequences to the Fund and the Shareholders.

The Fund may be subject to certain conflicts with respect to the Commodity Broker, including, but not limited to, conflicts that result from receiving greater amounts of compensation from other clients, or purchasing opposite or competing positions on behalf of third party accounts traded through the Commodity Broker.

Because the Managing Owner and Invesco Distributors are affiliates, the Managing Owner has a disincentive to replace Invesco Distributors. Furthermore, the Managing Owner did not conduct an arm's length negotiation when it retained Invesco Distributors.

Lack of Independent Advisers Representing Investors.

The Managing Owner has consulted with counsel, accountants and other advisers regarding the operation of the Fund. No counsel has been appointed to represent you in connection with the Fund's continuous offering of Shares. Accordingly, you should consult your own legal, tax and financial advisers about whether you should invest in the Fund.

Possibility of Termination of the Fund May Adversely Affect Your Portfolio.

It is ultimately within the discretion of the Managing Owner whether it will continue to operate and advise the Fund. The Managing Owner may withdraw from the Fund upon 120 days' prior written notice to all Shareholders and the Trustee, which would cause the Fund to terminate unless a substitute managing owner was obtained. Shareholders owning 50% or more of the Shares have the power to terminate the Fund. If it is so exercised, investors who may wish to continue to invest in a vehicle that tracks the Fund's Index will have to find another vehicle, and may not be able to find another vehicle that offers the same features as the Fund. See Description of the Shares; The Fund; Certain

Material Terms of the Trust Agreement Termination Events for a summary of termination events. Such detrimental developments could cause you to liquidate your investments and upset the overall maturity and timing of your investment portfolio. If the registrations with the CFTC or memberships in the NFA of the Managing Owner or the Commodity Broker were revoked or suspended, such entity would no longer be able to provide services to the Fund.

Competing Claims Over Ownership of Intellectual Property Rights Related to the Fund Could Adversely Affect the Fund and an Investment in the Shares.

While the Managing Owner believes that all intellectual property rights needed to operate the Fund in the manner described in this Prospectus are either owned by or licensed to the Managing Owner or have been obtained, third parties may allege or assert ownership of intellectual property rights which may be related to the design, structure and operations of the Fund. To the extent any claims of such ownership are brought or any proceedings are instituted to assert such claims, the issuance of any restraining orders or injunctions, the negotiation, litigation or settlement of such claims, or the ultimate disposition of such claims in a court of law may adversely affect the Fund and an investment in the Shares. For example, such actions could result in expenses or damages payable by the Fund, suspension of activities or the termination of the Fund.

The Value of the Shares Will be Adversely Affected if the Fund is Required to Indemnify the Trustee or the Managing Owner.

Under the Trust Agreement, the Trustee and the Managing Owner have the right to be indemnified for any liability or expense they incur, except for any expenses resulting from gross negligence or willful misconduct. That means the Managing Owner may require the assets of the Fund to be sold in order to cover losses or liability suffered by it or by the Trustee. Any sale of that kind would reduce the NAV of the Fund and, consequently, the value of the Shares.

Table of Contents

Although the Shares are Limited Liability Investments, Certain Circumstances such as Bankruptcy of the Fund or Indemnification of the Fund by the Shareholders will Increase a Shareholder's Liability.

The Shares are limited liability investments; investors may not lose more than the amount that they invest including any appreciation in their investments. However, Shareholders could be required, as a matter of bankruptcy law, to return to the estate of the Fund any distribution they received at a time when the Fund was in fact insolvent or in violation of the Trust Agreement. In addition, Shareholders agree in the Trust Agreement that they will indemnify the Fund for any harm suffered by it as a result of:

Shareholders' actions unrelated to the business of the Fund, or

taxes imposed on the Shares by the states or municipalities in which such investors reside.

The Fund May Lose Money on its Holdings of Money Market Mutual Funds.

The Funds may invest in government money market funds that have chosen to not rely on the ability to impose fees on shareholder redemptions, or liquidity fees, or temporarily to suspend redemption privileges, or gates, if the government money market fund's weekly liquid assets fall below a certain threshold. Although such government money market funds seek to preserve the value of an investment at \$1.00 per share, there is no guarantee that they will be able to do so. As a result, the Funds may lose money by investing in a government money market fund. An investment in a government money market fund is not insured or guaranteed by the Federal Deposit Insurance Corporation (FDIC) or any other government agency. The share price of a government money market fund can fall below the \$1.00 share price. The Funds cannot rely on or expect a government money market fund's adviser or its affiliates to enter into support agreements or take other actions to maintain the government money market fund's \$1.00 share price. The credit quality of a government money market fund's holdings can change rapidly in certain markets, and the default of a single holding could have an adverse impact on the government money market fund's share price. Due to fluctuations in interest rates, the market value of

securities held by a government money market fund may vary. A government money market fund's share price can also be negatively affected during periods of high redemption pressures and/or illiquid markets.

Due to the Increased use of Technologies, Intentional and Unintentional Cyber Attacks Pose Operational and Information Security Risks.

With the increased use of technologies such as the Internet and the dependence on computer systems to perform necessary business functions, the Fund is susceptible to operational and information security risks. In general, cyber incidents can result from deliberate attacks or unintentional events. Cyber attacks include, but are not limited to gaining unauthorized access to digital systems for purposes of misappropriating assets or sensitive information, corrupting data, or causing operational disruption.

Cyber attacks may also be carried out in a manner that does not require gaining unauthorized access, such as causing denial-of-service attacks on websites. Cyber security failures or breaches of the Fund's third party service providers (including, but not limited to, Index Sponsor, the Administrator and transfer agent) or the issuers of the money market mutual funds and T-Bill ETFs in which the Fund invests, have the ability to cause disruptions and impact business operations, potentially resulting in financial losses, the inability of Fund shareholders to transact business, violations of applicable privacy and other laws, regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, and/or additional compliance costs. In addition, substantial costs may be incurred in order to prevent any cyber incidents in the future. The Fund and its shareholders could be negatively impacted as a result.

While the Managing Owner has established business continuity plans and systems to prevent such cyber attacks, there are inherent limitations in such plans and systems including the possibility that certain risks have not been identified. Furthermore, the Fund cannot control the cyber security plans and systems put in place by the Fund's third party service providers. Cyber attacks may also cause disruptions to the futures exchanges and clearinghouses through which the Fund invests in exchange-traded futures contracts, resulting in disruptions to the Fund's investment objectives and resulting in financial losses.

FORWARD-LOOKING STATEMENTS

This Prospectus includes forward-looking statements that reflect the Managing Owner's current expectations about the future results, performance, prospects and opportunities of the Fund. The Managing Owner has tried to identify these forward-looking statements by using words such as may, will, expect, anticipate, believe, intend, should, estimate or the negative of those terms or similar expressions. Forward-looking statements are based on information currently available to the Managing Owner and are subject to a number of risks, uncertainties and other factors, both known, such as those described in Risk Factors and elsewhere in this Prospectus, and unknown, that could cause the actual results, performance, prospects or opportunities of the Fund to differ materially from those expressed in, or implied by, these forward-looking statements.

You should not place undue reliance on any forward-looking statements. Except as expressly required by the federal securities laws, the Managing Owner undertakes no obligation to publicly update or revise any forward-looking statements or the risks, uncertainties or other factors described in this Prospectus, as a result of new information, future events or changed circumstances or for any other reason after the date of this Prospectus.

INVESTMENT OBJECTIVE

The Fund seeks to track changes, whether positive or negative, in the level of the Index over time, plus the excess, if any, of the sum of the Fund's Treasury Income, Money Market Income and T-Bill ETF Income over the expenses of the Fund. The Fund invests in futures contracts in an attempt to track its Index. The Fund holds Treasury Securities, money market mutual funds and T-Bill ETFs for margin and/or cash management purposes only and the Fund's performance reflects the appreciation or depreciation of such securities.

The Shares are designed for investors who want a cost-effective and convenient way to invest in a diversified index of commodity futures.

Advantages of investing in the Fund include:

Ease and Flexibility of Investment. The Shares trade on the NYSE Arca and provide institutional and retail investors with indirect access to commodity futures markets. The Shares may be bought and sold on the NYSE Arca like other exchange-listed securities. Retail investors may purchase and sell Shares through traditional brokerage accounts.

Margin. Shares are eligible for margin accounts.

Diversification. The Shares may help to diversify a portfolio of investments in stocks, bonds, and related assets to the extent there is low to negative correlation between those asset classes and the performance of the Index.

Optimum Yield. A portion of the Index utilizes an Optimum Yield methodology, which seeks to minimize the effects of negative roll yield that may be experienced by other commodities indexes. Negative roll yield is a term that describes the adverse impact of an upward-sloping price curve for futures contracts, which makes it more expensive to replace expiring contracts with new contracts.

Transparency. The Shares provide a more direct investment in commodities than mutual funds or ETFs that invest in commodity-linked notes or otherwise gain indirect exposure to commodities, which may have implicit imbedded costs, credit risk and other potentially opaque features.

Investing in the Fund does not insulate Shareholders from certain risks, including price volatility.

The Shares are intended to provide investment results that generally correspond to changes, positive or negative, in the levels of the Index over time. The value of the Shares is expected to fluctuate in relation to changes in the value of its portfolio. The market price of the Shares may not be identical to the NAV per Share, but these two valuations are expected to be very close. See Risk Factors NAV May Not Always Correspond to Market Price and, as a Result, Baskets May be Created or Redeemed at a Value that Differs from the Market Price of the Shares.

Edgar Filing: Invesco DB Multi-Sector Commodity Trust - Form POS AM

The Fund pursues its investment objective by investing in a portfolio of exchange-traded futures on

Table of Contents

the Index Commodities. The Index is intended to reflect the agricultural sector. The Index Commodities consist of Corn, Soybeans, Wheat, Kansas City Wheat, Sugar, Cocoa, Coffee, Cotton, Live Cattle, Feeder Cattle and Lean Hogs.

The Fund trades Index Contracts that are subject to position limits under regulations of the CFTC or futures exchange rules, as applicable. As the Fund approaches or reaches position limits with respect to an Index Commodity, the Fund may commence investing in Index Contracts that reference other Index Commodities. In those circumstances, the Fund may also trade in futures contracts based on commodities other than Index Commodities that the Managing Owner reasonably believes tend to exhibit trading prices that correlate with an Index Contract. The Managing Owner may determine to invest in other futures contracts if at any time it is impractical or inefficient to gain full or partial exposure to an Index Commodity through the use of Index Contracts. These other futures contracts may or may not be based on an Index Commodity. When they are not, the Managing Owner seeks to select futures contracts that it reasonably believes tend to exhibit trading prices that correlate with an Index Contract.

Under the Fifth Amended and Restated Declaration of Trust and Trust Agreement of the Trust, as amended (the Trust Agreement), the Managing Owner has exclusive management and control of all aspects of the business of the Fund. The Trustee's duties and liabilities with respect to the offering of the Shares and the management of the Fund are limited to its express obligations under the Trust Agreement. The Trustee will have no duty or liability to supervise or monitor the performance of the Managing Owner, nor will the Trustee have any liability for the acts or omissions of the Managing Owner.

There can be no assurance that the Fund will achieve its investment objective or avoid substantial losses.

Role of Managing Owner

The Managing Owner serves as the commodity pool operator and commodity trading advisor of the Fund.

Specifically, with respect to the Fund, the Managing Owner:

selects the Trustee, Commodity Broker, Administrator, Index Sponsor, Custodian, Transfer Agent, Marketing Agent, distributor and auditor;

negotiates various agreements and fees;

performs such other services as the Managing Owner believes that the Fund may from time-to-time require; and

monitors the performance results of the Fund's portfolio and reallocates assets within the portfolio with a view to causing the performance of the Fund's portfolio to track that of the Index over time.

The Managing Owner is registered as a commodity pool operator and commodity trading advisor with the CFTC and is a member of the NFA. The Managing Owner is an NFA-approved swap firm.

The principal office of the Managing Owner is located at c/o Invesco Capital Management LLC, 3500 Lacey Road, Suite 700, Downers Grove, IL 60515. The telephone number of the Managing Owner is (800) 983-0903.

BREAKEVEN ANALYSIS

A Shareholder should expect that the Fund's fees and expenses during the first twelve months of the Shareholder's investment will equal 0.89% of the Fund's NAV. This amount equates to \$0.15 per annum per Share at \$16.94 the Fund's NAV per Share as of January 31, 2019. The Fund's Treasury Income, Money Market Income, and T-Bill ETF Income are expected to exceed the Fund's fees and expenses during those first twelve months, assuming that Treasury Income is earned at a rate of 2.43%, Money Market Income is earned at a rate of 2.10%, and T-Bill ETF Income is earned at a rate of 2.46%. (These assumed rates are based on market rates observed as of January 31, 2019.) This means that, during those first twelve months, the Fund would have to experience trading losses that would exceed the positive difference between the Fund's income and its

expenses. As a result, the breakeven amount is reflected as \$0.00 and 0% of NAV.

Table of Contents

Breakeven Table

The Breakeven Table on the following page indicates the approximate percentage and dollar returns required for the value of an initial \$16.94 investment in a Share to equal the amount originally invested twelve months after issuance, based on the NAV per Share as of January 31, 2019.

The amounts reflected in this discussion and the accompanying table reflect the effect of rounding.

[Remainder of page left blank intentionally.]

Table of Contents**BREAKEVEN TABLE**

The Breakeven Table, as presented, is an approximation only. Because a constant NAV per Share has been assumed, the actual capitalization of the Fund does not directly affect the level of its charges as a percentage of its NAV.

Expense	Dollar Amount and Percentage of Expenses and	
	Interest Income	
	DBA ¹	
	\$	%
Management Fee ²	\$ 0.14	0.85 %
Offering Expense Reimbursement	\$ 0.00	0.00 %
Brokerage Commissions and Fees ³	\$ 0.01	0.04 %
Routine Operational, Administrative and Other Ordinary Expenses ^{4,5}	\$ 0.00	0.00 %
Treasury Income, Money Market Income and T-Bill ETF Income ⁶	\$ 0.41	2.42 %
12-Month Breakeven ^{7,8}	\$ 0.00	0.00 %

1. See the Charges section for an explanation of the expenses included in the Breakeven Table. The Managing Owner pays a marketing services fee to the Marketing Agent and an index services fee to the Index Sponsor. Because the marketing services fee and the index services fee are not paid by the Fund, these fees are not included in the breakeven analysis.

2. The Managing Owner is responsible for paying the fees and expenses of the Administrator, Invesco Distributors, the Index Sponsor and the Marketing Agent from its own assets.

The Fund may, for margin and/or cash management purposes, invest in money market mutual funds and/or T-Bill ETFs that are managed by affiliates of the Managing Owner. The indirect portion of the management fees that the Fund may incur through such investments are in addition to the Management Fee paid to the Managing Owner. The Managing Owner has contractually agreed indefinitely to waive the fees that it receives in an amount equal to the indirect management fees that the Fund incurs through its investments in affiliated money market mutual funds and/or affiliated T-Bill ETFs. The Managing Owner may terminate this waiver on 60 days notice.

As of the date of this prospectus, this waiver is approximately less than \$0.01 per Share per annum.

3. The actual amount of brokerage commissions and trading fees to be incurred will vary based upon the trading frequency of the Fund and the specific futures contracts traded.

4. The Managing Owner is responsible for paying all routine operational, administrative and other ordinary expenses of the Fund.

Edgar Filing: Invesco DB Multi-Sector Commodity Trust - Form POS AM

5. Authorized Participants pay a transaction fee in the amount of \$500 per order to create and redeem Baskets and are subject to an additional processing charge for failure to timely deliver such orders. Because these transaction fees are de minimis in amount, are charged on a transaction-by-transaction basis (and not on a Basket-by-Basket basis), and are borne by the Authorized Participants, they have not been included in the Breakeven Table.
6. Treasury Income is assumed to be earned at a rate of 2.43%, Money Market Income is estimated to be earned at a rate of 2.10%, and T-Bill ETF Income is estimated to be earned at a rate of 2.46%. These assumed rates are based on market rates as of January 31, 2019. T-Bill ETF Income reflects dividend income from the Fund's holdings in T-Bill ETFs, if any. Actual Treasury Income, Money Market Income and T-Bill ETF Income could be higher or lower than the levels shown.
7. The table indicates that the breakeven amount during the first 12 months of an investment in the Fund is \$0.00 and 0% of NAV. These figures reflect that, during those first 12 months, the Fund's Treasury Income, Money Market Income, and T-Bill ETF Income are expected to exceed the Fund's fees and expenses.
8. You may pay brokerage commissions in connection with purchases of the Shares. Brokerage commissions have not been included in the Breakeven Table because they are borne by investors rather than the Fund and will generally vary from investor to investor. Investors are encouraged to review the terms of their brokerage accounts for applicable charges.
