

INFINITY PROPERTY & CASUALTY CORP

Form 10-Q

August 04, 2016

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

(Mark One)

Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the quarterly period ended June 30, 2016

OR

Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the transition period from _____ to _____

Commission File No. 0-50167

INFINITY PROPERTY AND CASUALTY CORPORATION

(Exact name of registrant as specified in its charter)

Incorporated under _____
the Laws of Ohio 03-0483872

(State or other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification No.)

2201 4th Avenue North, Birmingham, Alabama 35203

(Address of principal executive offices and zip code)

(205) 870-4000

(Registrant's telephone number, including area code)

Not Applicable

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined by rule 12b-2 of the Exchange Act). Yes No

As of July 29, 2016, there were 11,064,440 shares of the registrant's common stock outstanding.

Note 1 Significant Reporting and Accounting Policies

Nature of Operations

We are a holding company that provides insurance through our subsidiaries for personal automobiles with a concentration on nonstandard risks, commercial vehicles and classic collectors. Although licensed to write insurance in all 50 states and the District of Columbia, we focus on select states that we believe offer the greatest opportunity for premium growth and profitability.

Basis of Consolidation and Reporting

The accompanying consolidated financial statements are unaudited and should be read in conjunction with our Annual Report on Form 10-K (Form 10-K) for the year ended December 31, 2015. This Quarterly Report on Form 10-Q, including the Condensed Notes to Consolidated Financial Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations, focuses on our financial performance since the beginning of the year. These financial statements reflect certain adjustments necessary for a fair presentation of our results of operations and financial position. Such adjustments consist of normal, recurring accruals recorded to accurately match expenses with their related revenue streams and the elimination of all significant intercompany transactions and balances.

We have evaluated events that occurred after June 30, 2016, for recognition or disclosure in our financial statements and the notes to the financial statements.

Schedules may not foot due to rounding.

Estimates

We based certain accounts and balances within these financial statements upon our estimates and assumptions. The amount of reserves for claims not yet paid, for example, is an item that we can only record by estimation. Unrealized capital gains and losses on investments are subject to market fluctuations, and we use judgment in the determination of whether unrealized losses on certain securities are temporary or other-than-temporary. Should actual results differ significantly from these estimates, the effect on our results of operations could be material. The results of operations for the periods presented may not be indicative of our results for the entire year.

Recently Adopted Accounting Standards

In April 2015 the Financial Accounting Standards Board (FASB) issued an Accounting Standards Update (ASU) related to the presentation of debt issuance costs. The guidance requires debt issuance costs to be presented in the balance sheet as a direct deduction from the carrying amount of the debt liability. We adopted this standard retrospectively as of January 1, 2016.

Table of Contents

INFINITY PROPERTY AND CASUALTY CORPORATION FORM 10-Q

Condensed Notes to Consolidated Financial Statements

The following table illustrates the effect of adopting this standard on the Consolidated Balance Sheets (\$ in millions):

	December 31, 2015		
	As Reported	As Adjusted	Difference
Other assets	\$ 11.9	\$ 10.3	\$ (1.6)
Total assets	2,386.8	2,385.1	(1.6)
Long-term debt	275.0	273.4	(1.6)
Total liabilities	1,699.2	1,697.5	(1.6)
Total liabilities and shareholders' equity	2,386.8	2,385.1	(1.6)

Recently Issued Accounting Standards

In June 2016 the FASB issued an ASU related to the accounting for credit losses. The guidance generally requires credit losses on available-for-sale debt securities to be recognized as an allowance rather than as a reduction to the amortized cost of a security. The standard is effective for fiscal periods beginning after December 15, 2019, and interim periods within the year of adoption, with prospective application of the ASU required for debt securities for which an other-than-temporary impairment has been recognized before the implementation date. We do not expect the adoption of this standard to have a material impact on our financial condition or results of operations.

In March 2016 the FASB issued an ASU related to the accounting for employee share-based payments. The guidance addresses the recognition, presentation and classification of awards, forfeitures and shares withheld for tax purposes. The standard is effective for fiscal periods beginning after December 15, 2016, with each provision having a different application method. We do not expect the adoption of this standard to have a material impact on our financial condition or results of operations.

In February 2016 the FASB issued an ASU related to the accounting for leases. The guidance requires lessees to recognize lease assets and liabilities on the balance sheet. The standard is effective for fiscal years beginning after December 15, 2018, and is to be applied retrospectively, with an option to use a modified retrospective approach for leases which commenced prior to the effective date of this ASU. We are still evaluating the impact this ASU will have on the Company's consolidated financial statements.

In January 2016 the FASB issued an ASU amending the guidance on classifying and measuring financial instruments. The guidance requires equity securities to be measured at fair value and changes in that fair value to be recognized through net income. The standard is effective for fiscal years beginning after December 15, 2017, with a cumulative-effect adjustment to the balance sheet as of the beginning of the fiscal year of adoption. We currently record equity securities at fair value and as of June 30, 2016, we have \$7.7 million net unrealized gains, net of tax, recognized as a component of other comprehensive income.

In May 2015 the FASB issued an ASU related to the disclosure for short-duration contracts. The guidance requires additional disclosures related to the liability for unpaid claims and claim adjustment expenses in an effort to increase transparency and comparability. The standard is effective for annual periods beginning after December 15, 2015, and interim periods within annual periods after December 15, 2016. The new guidance, which is to be applied retrospectively, will have no material impact on our results of operations or financial position.

In May 2014 the FASB issued an ASU related to the accounting for revenue from contracts with customers. Insurance contracts have been excluded from the scope of the guidance. In August 2015 the FASB issued an ASU to defer the effective date from fiscal years beginning after December 15, 2016, to fiscal years beginning after December 15, 2017. We do not expect the adoption of this standard to have a material impact on our financial condition or results of operations.

Note 3 Fair Value

Fair values of instruments are based on:

- (i) quoted prices in active markets for identical assets (Level 1);
 quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in
 (ii) markets that are not active and model-derived valuations in which all significant inputs are observable in active
 markets (Level 2); or
 (iii) valuations derived from valuation techniques in which one or more significant inputs are unobservable in the
 marketplace (Level 3).

The following tables present, for each of the fair value hierarchy levels, our assets and liabilities for which we report fair value on a recurring basis (\$ in thousands):

June 30, 2016	Fair Value			Total
	Level 1	Level 2	Level 3	
Cash and cash equivalents	\$76,016	\$0	\$0	\$76,016

INFINITY PROPERTY AND CASUALTY CORPORATION FORM 10-Q

Condensed Notes to Consolidated Financial Statements

We do not report our long-term debt at fair value in the Consolidated Balance Sheets. The \$291.6 million and \$281.6 million fair value of our long-term debt at June 30, 2016, and December 31, 2015, respectively, would be included in Level 2 of the fair value hierarchy if it were reported at fair value.

Level 1 includes cash and cash equivalents, U.S. Treasury securities, an exchange-traded fund and equities held in a rabbi trust which funds our Supplemental Employee Retirement Plan (SERP). Level 2 includes securities whose fair value was determined using observable market inputs. Level 3 securities are comprised of (i) securities for which there is no active or inactive market for similar instruments; (ii) securities whose fair value is determined based on unobservable inputs; and (iii) securities, other than those backed by the U.S. Government, that are not rated by a nationally recognized statistical rating organization (NRSRO). We recognize transfers between levels at the beginning of the reporting period.

A third party nationally recognized pricing service provides the fair value of securities in Level 2. A summary of the significant valuation techniques and market inputs for each class of security follows:

U.S. Government: In determining the fair value for U.S. Government securities we use the market approach. The primary inputs to the valuation include reported trades, dealer quotes for identical or similar assets in markets that are not active, benchmark yields, credit spreads, reference data and industry and economic events.

State and municipal: In determining the fair value for state and municipal securities we use the market approach. The primary inputs to the valuation include reported trades, dealer quotes for identical or similar assets in markets that are not active, benchmark yields, credit spreads, reference data and industry and economic events.

Mortgage-backed securities: In determining the fair value for mortgage-backed securities we use the market approach and to a lesser extent the income approach. The primary inputs to the valuation include reported trades, dealer quotes for identical or similar assets in markets that are not active, benchmark yields, credit spreads, reference data, industry and economic events and monthly payment information.

Asset-backed securities: In determining the fair value for asset-backed securities we use the market approach and to a lesser extent the income approach. The primary inputs to the valuation include reported trades, dealer quotes for identical or similar assets in markets that are not active, benchmark yields, credit spreads, reference data, industry and economic events, monthly payment information and collateral performance.

Corporate: In determining the fair value for corporate securities we use the market approach. The primary inputs to the valuation include reported trades, dealer quotes for identical or similar assets in markets that are not active, benchmark yields, credit spreads (for investment grade securities), observations of equity and credit default swap curves (for high-yield corporates), reference data and industry and economic events.

We review the third party pricing methodologies quarterly and test for significant differences between the market price used to value the security and recent sales activity.

INFINITY PROPERTY AND CASUALTY CORPORATION FORM 10-Q

Condensed Notes to Consolidated Financial Statements

Of the \$3.7 million fair value of securities in Level 3 at June 30, 2016, which consisted of six securities, we priced four based on non-binding broker quotes, one price was provided by our unaffiliated money manager, and one security, which was included in Level 3 because it was not rated by a NRSRO, was priced by a nationally recognized pricing service.

During the six months ended June 30, 2016, one security was transferred from Level 2 into Level 3 because a price could not

be determined using observable market inputs, and one security was transferred from Level 2 into Level 3 following an exchange after which it was no longer rated by a NRSRO. There were no transfers of securities between Levels 1 and 2.

The gains or losses included in net earnings are included in the line item "Net realized (losses) gains on investments" in the Consolidated Statements of Earnings. We recognize the net gains or losses included in other comprehensive income in the line item "Unrealized gains (losses) on investments, net" in the Consolidated Statements of Comprehensive Income and the line item "Change in unrealized gain on investments" or the line item "Change in non-credit component of impairment losses on fixed maturities" in the Consolidated Statements of Changes in Shareholders' Equity.

The following table presents the carrying value and estimated fair value of our financial instruments (\$ in thousands):

	June 30, 2016		December 31, 2015	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Assets:				
Cash and cash equivalents	\$76,016	\$76,016	\$62,483	\$62,483
Available-for-sale securities:				
Fixed maturities	1,383,806	1,383,806	1,381,467	1,381,467
Equity securities	90,742	90,742	89,935	89,935
Short-term investments	4,066	4,066	4,651	4,651
Total cash and investments	\$1,554,631	\$1,554,631	\$1,538,536	\$1,538,536
Liabilities:				
Long-term debt	\$273,486	\$291,572	\$273,383	\$281,581

Refer to Note 4 – Investments to the Consolidated Financial Statements for additional information on investments and Note 5 – Long-Term Debt to the Consolidated Financial Statements for additional information on long-term debt.

Note 4 Investments

We consider all fixed maturity and equity securities to be available-for-sale and report them at fair value with the net unrealized gains or losses reported after-tax (net of any valuation allowance) as a component of other comprehensive income. The proceeds from sales of securities for the three and six months ended June 30, 2016, were \$100.2 million and \$208.8 million, respectively, while the proceeds from sales of securities for the three and six months ended June 30, 2015, were \$56.7 million and \$156.6 million, respectively. There was no receivable for unsettled sales as of June 30, 2016, or 2015.

Gross gains of \$0.9 million and gross losses of \$0.9 million were realized on sales of available-for-sale securities during the three months ended June 30, 2016, compared with gross gains of \$0.5 million and gross losses of \$0.1 million realized on sales during the three months ended June 30, 2015. Gross gains of \$2.2 million and gross losses of \$1.9 million were realized on sales of available-for-sale securities during the six months ended June 30, 2016, compared with gross gains of \$2.7 million and gross losses of \$0.7 million realized on sales during the six months ended June 30, 2015. Gains or losses on securities are determined on a specific identification basis.

INFINITY PROPERTY AND CASUALTY CORPORATION FORM 10-Q

Condensed Notes to Consolidated Financial Statements

The determination of whether unrealized losses are “other-than-temporary” requires judgment based on subjective as well as objective factors. Factors we considered and resources we used in our determination include:

- whether the unrealized loss is credit-driven or a result of changes in market interest rates;
- the length of time the security’s market value has been below its cost;
- the extent to which fair value is less than cost basis;
- the intent to sell the security;
- whether it is more likely than not that there will be a requirement to sell the security before its anticipated recovery;
- historical operating, balance sheet and cash flow data contained in issuer SEC filings;
- issuer news releases;
- near-term prospects for improvement in the issuer and/or its industry;
- industry research and communications with industry specialists; and
- third-party research and credit rating reports.

We regularly evaluate for potential impairment each security position that has either of the following: a fair value of less than 95% of its book value or an unrealized loss that equals or exceeds \$100,000.

The following table summarizes those securities, excluding the rabbi trust, with unrealized gains or losses:

	June 30, December 31,		
	2016	2015	
Number of positions held with unrealized:			
Gains	1,023	602	
Losses	175	561	
Number of positions held that individually exceed unrealized:			
Gains of \$500,000	2	2	
Losses of \$500,000	0	0	
Percentage of positions held with unrealized:			
Gains that were investment grade	95	% 94	%
Losses that were investment grade	73	% 89	%
Percentage of fair value held with unrealized:			
Gains that were investment grade	95	% 95	%
Losses that were investment grade	69	% 88	%

The following table sets forth the amount of unrealized losses, excluding the rabbi trust, by age and severity at June 30, 2016, (\$ in thousands):

Age of Unrealized Losses	Fair Value of Securities with Unrealized Losses	Total Gross Unrealized Losses	Less Than 5%*	5% - 10%*	Total Gross Greater Than 10%*
Three months or less	\$ 56,881	\$ (287)	\$ (287)	\$ 0	\$ 0
Four months through six months	17,338	(52)	(52)	0	0
Seven months through nine months	8,170	(70)	(70)	0	0
Ten months through twelve months	13,103	(145)	(45)	(100)	0
Greater than twelve months	88,276	(1,003)	(819)	(179)	(5)
Total	\$ 183,768	\$ (1,557)	\$ (1,272)	\$ (279)	\$ (5)

* As a percentage of amortized cost or cost.

INFINITY PROPERTY AND CASUALTY CORPORATION FORM 10-Q

Condensed Notes to Consolidated Financial Statements

The change in unrealized gains (losses) on marketable securities included the following (\$ in thousands):

	Pre-tax Fixed Maturities	Equity Securities	Short-Term Investments	Tax Effects	Net
Six months ended June 30, 2016					
Unrealized holding gains on securities arising during the period	\$25,531	\$ 753	\$ 3	\$(9,200)	\$17,086
Realized (gains) losses on securities sold	(293)	(0)	2	102	(189)
Impairment loss recognized in earnings	316	0	0	(111)	205
Change in unrealized, net	\$25,553	\$ 753	\$ 5	\$(9,209)	\$17,102
Six months ended June 30, 2015					
Unrealized holding (losses) gains on securities arising during the period	\$(7,313)	\$ 2,259	\$ (2)	\$1,770	\$(3,287)
Realized gains on securities sold	(875)	(1,098)	0	691	(1,283)
Impairment loss recognized in earnings	590	0	0	(206)	383
Change in unrealized, net	\$(7,599)	\$ 1,160	\$ (2)	\$2,254	\$(4,186)

For fixed maturity securities that are other-than-temporarily impaired, we assess our intent to sell and the likelihood that we will be required to sell the security before recovery of our amortized cost. If a fixed maturity security is considered other-than-temporarily impaired but we do not intend to and are not more than likely to be required to sell the security before our recovery of amortized cost, we separate the amount of the impairment into a credit loss component and the amount due to all other factors ("non-credit component"). The excess of the amortized cost over the present value of the expected cash flows determines the credit loss component of an impairment charge on a fixed maturity security. The present value is determined using the best estimate of cash flows discounted at (i) the effective interest rate implicit at the date of acquisition for non-structured securities; or (ii) the book yield for structured securities. The techniques and assumptions for determining the best estimate of cash flows vary depending on the type of security. We recognize the credit loss component of an impairment charge in net earnings and the non-credit component in accumulated other comprehensive income. If we intend to sell or will, more likely than not, be required to sell a security, we treat the entire amount of the impairment as a credit loss.

For our securities held with unrealized losses, we believe, based on our analysis, we will recover our cost basis in these securities and we do not intend to sell the securities nor is it more likely than not there will be a requirement to sell the securities before they recover in value.

The following table is a progression of credit losses on fixed maturity securities that were bifurcated between a credit and non-credit component (\$ in thousands):

	Six months ended June 30,	
	2016	2015
Beginning balance	\$683	\$852
Securities sold and paid down	(65)	(85)
Ending balance	\$618	\$766

Condensed Notes to Consolidated Financial Statements

The table below sets forth the scheduled maturities of fixed maturity securities at June 30, 2016, based on their fair values (\$ in thousands). We report securities that do not have a single maturity date at average maturity. Actual maturities may differ from contractual maturities because certain securities may be called or prepaid by the issuers.

Maturity	Fair Value			Amortized Cost	
	Securities with Unrealized Gains	Securities with Unrealized Losses	Securities with No Unrealized Gains or Losses	All Fixed Maturity Securities	All Fixed Maturity Securities
One year or less	\$62,071	\$ 4,759	\$ 0	\$66,830	\$66,112
After one year through five years	543,587	50,250	0	593,837	583,974
After five years through ten years	218,261	48,715	1,195	268,171	261,272
After ten years	4,547	0	0	4,547	4,375
Mortgage- and asset-backed securities	373,676	76,746	0	450,422	442,564
Total	\$1,202,142	\$ 180,469	\$ 1,195	\$1,383,806	\$1,358,297

Note 5 Long-Term Debt

(\$ in thousands)	June 30, 2016	December 31, 2015
Principal	\$275,000	\$ 275,000
Unamortized debt issuance costs	1,514	1,617
Long-term debt less unamortized debt issuance costs	\$273,486	\$ 273,383

In September 2012 we issued \$275 million principal of senior notes due September 2022 (the "5.0% Senior Notes"). The 5.0% Senior Notes accrue interest at 5.0%, payable semiannually. At the time we issued the 5.0% Senior Notes, we capitalized \$2.2 million of debt issuance costs, which we are amortizing over the term of the 5.0% Senior Notes. We calculated the June 30, 2016, fair value of \$291.6 million using a 243 basis point spread to the 10-year U.S. Treasury Note of 1.471%.

In August 2014 we renewed our agreement for a \$50 million three-year revolving credit facility (the "Credit Agreement") that requires us to meet certain financial and other covenants. We are currently in compliance with all covenants under the Credit Agreement, and as of June 30, 2016, there were no borrowings outstanding against it.

Note 6 Income Taxes

The following is a reconciliation of income taxes at the statutory rate of 35.0% to the effective provision for income taxes as shown in the Consolidated Statements of Earnings (\$ in thousands):

	Three months ended		Six months ended	
	June 30, 2016	2015	June 30, 2016	2015
Earnings before income taxes	\$16,040	\$19,667	\$26,816	\$35,903
Income taxes at statutory rate	5,614	6,883	9,386	12,566
Effect of:				
Dividends-received deduction	(150)	(144)	(222)	(248)
Tax-exempt interest	(619)	(584)	(1,258)	(1,308)
Other	180	19	188	247
Provision for income taxes as shown on the Consolidated Statements of Earnings	\$5,026	\$6,174	\$8,094	\$11,257

Unpaid losses on known claims	236,947	245,863	236,947	245,863
IBNR losses	290,767	281,147	290,767	281,147
LAE	138,496	154,017	138,496	154,017
Total unpaid losses and LAE	\$666,210	\$681,028	\$666,210	\$681,028

The \$12.2 million and \$18.1 million of favorable reserve development during the three and six months ended June 30, 2016, respectively, was primarily due to decreases in severity estimates related to Florida personal injury protection and bodily injury coverages and a decrease in California bodily injury loss adjustment expenses, and primarily related to accident years 2014 and prior. The favorable development for the six months ended June 30, 2016, was partially offset by unfavorable development from accident year 2015 in California material damage coverages, driven by an increase in severity.

The \$10.5 million and \$12.6 million of favorable reserve development during the three and six months ended June 30, 2015, respectively, was primarily due to decreases in loss adjustment expenses related to Florida bodily injury coverages in accident years 2013 and 2014.

Note 9 Commitments and Contingencies

Commitments

We extended our building lease in Alpharetta, Georgia through November 30, 2021, at a total base rent amount over the lease period of \$2.7 million. In addition, a significant portion of our fleet vehicles, which have minimum lease terms of 367 days, were traded in during the first six months of 2016. The minimum remaining lease payment on our fleet as of June 30, 2016, has increased to \$1.2 million. Other than these items, there have been no material changes

from the commitments discussed on Form 10-K for

22

Table of Contents

INFINITY PROPERTY AND CASUALTY CORPORATION FORM 10-Q

Condensed Notes to Consolidated Financial Statements

the year ended December 31, 2015. For a description of our previously reported commitments, refer to Note 14 Commitments and Contingencies of our Form 10-K for the year ended December 31, 2015.

Contingencies

From time to time we and our subsidiaries are named as defendants in various lawsuits incidental to our insurance operations. We consider legal actions relating to claims made in the ordinary course of seeking indemnification for a loss covered by the insurance policy in establishing loss and LAE reserves.

We also face, in the ordinary course of business, lawsuits that seek damages beyond policy limits, commonly known as extra-contractual claims, as well as class action and individual lawsuits that involve issues not unlike those facing other insurance companies and employers. We continually evaluate potential liabilities and reserves for litigation of these types using the criteria established by the Contingencies topic of the FASC. Under this guidance we may only record reserves for a loss if the likelihood of occurrence is probable and we can reasonably estimate the amount. If a material loss is judged to be reasonably possible, we will disclose an estimated range of loss or state that an estimate cannot be made. We consider each legal action using this guidance and record reserves for losses as warranted by establishing a reserve captured within our Consolidated Balance Sheets line-items "Unpaid losses and loss adjustment expenses" for extra-contractual claims and "Other liabilities" for class action and other non-claims related lawsuits. We record amounts incurred on the Consolidated Statements of Earnings within "Losses and loss adjustment expenses" for extra-contractual claims and "Other expenses" for class action and other non-claims related lawsuits.

Certain claims and legal actions have been brought against us for which we have accrued no loss, and for which an estimate of a possible range of loss cannot be made under the above rules. While it is not possible to predict the ultimate outcome of these claims or lawsuits, we do not believe they are likely to have a material effect on our financial condition or liquidity. However, losses incurred because of these cases could have a material adverse impact on net earnings in a given period.

For a description of previously reported contingencies, refer to Note 14 Commitments and Contingencies of our Form 10-K for the year ended December 31, 2015.

Management's Discussion and Analysis of Financial Condition and Results of Operations

ITEM 2

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains certain "forward-looking statements" which anticipate results based on our estimates, assumptions and plans that are subject to uncertainty. We make these statements subject to the safe-harbor provisions of the Private Securities Litigation Reform Act of 1995. All statements in this report not dealing with historical results or current facts are forward-looking and we base them on estimates, assumptions and projections. Statements which include the words "assumes," "believes," "seeks," "expects," "may," "should," "intends," "likely," "targets," "plans," "anticipates," "estimates" or the negative version of those words and similar statements of a future or forward-looking nature identify forward-looking statements. Examples of such forward-looking statements include statements relating to expectations concerning market conditions, premium growth, earnings, investment performance, expected losses, rate changes and loss experience.

The primary events or circumstances that could cause actual results to differ materially from what we expect include determinations with respect to reserve adequacy, realized gains or losses on the investment portfolio (including other-than-temporary impairments for credit losses), loss cost trends, and competitive conditions in our key Focus States (defined in Results of Operations – Underwriting – Premium). We undertake no obligation to publicly update or revise any of the forward-looking statements. For a more detailed discussion of some of the foregoing risks and uncertainties which could cause actual results to differ from those contained in the forward-looking statements refer to Part I, Item 1A, Risk Factors of our Annual Report on Form 10-K for the year ended December 31, 2015.

OVERVIEW

During the second quarter and first six months of 2016 total gross written premium decreased 4.4% and 4.1%, respectively, compared with the same periods of 2015. Premium growth in Texas and our Commercial Vehicle product was more than offset by declines in the other states. Refer to Results of Operations – Underwriting – Premium for a more detailed discussion of our gross written premium.

Net earnings and diluted earnings per share for the three months ended June 30, 2016, were \$11.0 million and \$0.99, respectively, compared with \$13.5 million and \$1.18, respectively, for the same periods of 2015. Net earnings and diluted earnings per share for the six months ended June 30, 2016, were \$18.7 million and \$1.68, respectively, compared with \$24.6 million and \$2.14, respectively, for the same periods of 2015. The decrease in diluted earnings per share for the six months ended June 30, 2016, was primarily due to an increase in the accident year combined ratio from 97.7% at June 30, 2015, to 99.5% at June 30, 2016, partially offset by an increase in favorable development on prior accident year loss and LAE reserves.

Included in net earnings for the three and six months ended June 30, 2016, was \$7.9 million (\$12.2 million pre-tax) and \$11.7 million (\$18.1 million pre-tax), respectively, of favorable development on prior accident year loss and LAE reserves. The development during the six months ended June 30, 2016, was primarily due to decreases in severity estimates related to Florida personal injury protection and bodily injury coverages and a decrease in California bodily injury loss adjustment expenses, and primarily related to accident years 2014 and prior. The favorable development for the six months ended June 30, 2016, was partially offset by unfavorable development from accident year 2015 in California material damage coverages, driven by an increase in severity. Included in net earnings for the three and six months ended June 30, 2015, was \$6.8 million (\$10.5 million pre-tax) and \$8.2 million (\$12.6 million pre-tax), respectively, of favorable development on prior accident year loss and LAE reserves. The development was primarily due to decreases in loss adjustment expenses related to Florida bodily injury coverages in accident years 2013 and 2014.

Table of Contents

INFINITY PROPERTY AND CASUALTY CORPORATION FORM 10-Q

Management's Discussion and Analysis of Financial Condition and Results of Operations

The following table displays combined ratio results by accident year developed through June 30, 2016:

Accident Year	Accident Year Combined Ratio Developed Through					Prior Accident Year (Favorable) / Unfavorable Development (\$ in millions)	
	Dec 2014	June 2015	Dec 2015	Mar 2016	June 2016	Q2 2016	YTD 2016
Prior						\$0.1	\$0.5
2008	91.2 %	91.1 %	91.1 %	91.1 %	91.1 %	(0.0)% (0.0)	(0.0)% (0.2)
2009	92.4 %	92.4 %	92.4 %	92.4 %	92.4 %	0.0 % 0.3	0.0 % 0.0
2010	99.2 %	99.3 %	99.4 %	99.3 %	99.3 %	(0.0)% (0.2)	(0.1)% (1.3)
2011	100.1 %	100.0 %	100.2 %	100.0 %	100.0 %	(0.0)% (0.1)	(0.1)% (1.4)
2012	100.1 %	99.9 %	100.1 %	99.9 %	99.8 %	(0.1)% (1.2)	(0.3)% (3.4)
2013	96.8 %	96.3 %	95.5 %	95.3 %	95.1 %	(0.2)% (2.4)	(0.4)% (5.4)
2014	96.4 %	96.2 %	95.4 %	95.0 %	94.6 %	(0.3)% (4.4)	(0.7)% (9.6)
2015		97.7 %	97.8 %	98.3 %	98.0 %	(0.3)% (4.3)	0.2 % 2.8
2016 YTD				99.4 %	99.5 %		
						\$(12.2)	\$(18.1)

Refer to Results of Operations – Underwriting – Profitability for a more detailed discussion of our underwriting results. Pre-tax net investment income for the three and six months ended June 30, 2016, was \$8.9 million and \$17.0 million, respectively, compared with \$9.2 million and \$17.9 million, respectively, for the same periods of 2015.

Our book value per share increased 3.0% from \$61.66 at December 31, 2015, to \$63.54 at June 30, 2016. This increase was primarily due to earnings and an increase in unrealized gains, partially offset by shareholder dividends and share repurchases during the year.

RESULTS OF OPERATIONS**Underwriting****Premium**

Our insurance subsidiaries provide personal automobile insurance products with a concentration on nonstandard auto insurance. While there is no industry-recognized definition of nonstandard auto insurance, we believe that it is generally understood to mean coverage for drivers who, due to factors such as their driving record, driving experience, lapse in, or the absence of, prior insurance, or credit history, represent a higher than normal risk. Customers in the market for nonstandard auto insurance generally seek minimum required liability limits and are willing to accept restrictive coverages in exchange for more affordable insurance, given their risk profile. We also write commercial vehicle insurance and insurance for classic collectible automobiles (Classic Collector).

We are licensed to write insurance in all 50 states and the District of Columbia, but we focus our operations in targeted urban areas identified in selected Focus States (defined below) that we believe offer the greatest opportunity for premium growth and profitability.

We classify the states in which we operate into two categories:

•“Focus States” – Arizona, California, Florida and Texas.

•“Other States” – States where we are running off our business.

We continually evaluate our market opportunities; thus, the Focus States and Other States may change over time as new market opportunities arise, as the allocation of resources changes or as regulatory environments change.

Table of Contents

INFINITY PROPERTY AND CASUALTY CORPORATION FORM 10-Q

Management's Discussion and Analysis of Financial Condition and Results of Operations

During the first six months of 2016, we implemented rate revisions in various states with an overall rate increase of 6.0%. Policies in force at June 30, 2016, decreased 7.8% compared with the same period in 2015.

The decrease in gross written premium in our Focus States was primarily due to premium declines in Florida and California, partially offset by new business growth in Texas. New business in California declined during the first half of 2016 in response to rate increases totaling 5.3% implemented during the year, and renewal business in Florida declined primarily as a result of rate increases implemented during the preceding 12 months totaling 14.7%.

The gross written premium growth in our Commercial Vehicle product was primarily due to renewal policy growth and higher average premium in California and Florida.

Profitability

A key operating performance measure of insurance companies is underwriting profitability, as opposed to overall profitability or net earnings. We measure underwriting profitability by the combined ratio. When the combined ratio is under 100%, we consider underwriting results profitable; when the ratio is over 100%, we consider underwriting results unprofitable. The combined ratio does not reflect investment income, other income, interest expense, corporate general and administrative expenses, other expenses or federal income taxes.

In addition to reporting financial results in accordance with GAAP, we report results on a statutory basis for insurance regulatory purposes. We evaluate underwriting profitability based on a combined ratio calculated using statutory accounting principles. The statutory combined ratio represents the sum of the following ratios: (i) losses and LAE incurred as a percentage of net earned premium; and (ii) underwriting expenses incurred, net of installment and other fees, as a percentage of net written premium. Certain expenses are treated differently under statutory and GAAP accounting principles. Under GAAP, commissions, premium taxes and other variable costs incurred in connection with writing new and renewal business are capitalized as deferred policy acquisition costs and amortized on a pro rata basis over the period in which the related premium is earned. On a statutory basis, these items are expensed as incurred. Additionally, bad debt charge-offs on agent balances and premium receivables are included only in the GAAP combined ratios.

The discussion of underwriting results that follows focuses on statutory ratios and the components thereof, unless otherwise indicated.

The statutory combined ratio for the three and six months ended June 30, 2016, increased by 0.5 point and 1.0 point, respectively, from the same periods of 2015. The second quarter of 2016 included \$7.0 million of unfavorable development from the first accident quarter of 2016 compared with \$3.7 million of unfavorable development during the second quarter of 2015 from the first accident quarter of 2015. The second quarter and first six months of 2016 included \$12.2 million and \$18.1 million, respectively, of favorable reserve development on prior accident year loss and LAE reserves primarily due to decreases in severity estimates related to Florida personal injury protection and bodily injury coverages and a decrease in California bodily injury loss adjustment expenses, and primarily related to accident years 2014 and prior. The favorable development for the six months ended June 30, 2016, was partially offset by unfavorable development from accident year 2015 in California material damage coverages, driven by an increase in severity. The second quarter and first six months of 2015 included \$10.5 million and \$12.6 million, respectively, of

favorable development on prior accident year loss and LAE reserves. Excluding the effect of development, the statutory combined ratio was flat during the second quarter and increased 1.8 points during the first six months of 2016, compared with the same periods of 2015.

The GAAP combined ratio for the three and six months ended June 30, 2016, increased by 0.8 point and 1.1 points, respectively, from the same periods of 2015. Excluding the effect of development, the GAAP combined ratio increased by 0.3 point and 1.8

Table of Contents

INFINITY PROPERTY AND CASUALTY CORPORATION FORM 10-Q

Management's Discussion and Analysis of Financial Condition and Results of Operations

points during the second quarter and first six months of 2016, respectively, primarily due to a higher accident year loss ratio as a result of increasing loss costs in material damage and personal injury protection coverages.

Losses from catastrophes were \$5.2 million and \$6.3 million for the three and six months ended June 30, 2016, respectively, compared with \$1.0 million and \$1.1 million for the same periods of 2015.

The 4.1 points and 3.7 points increase in the Focus States combined ratio for the three and six months ended June 30, 2016, compared with the same periods of 2015, was primarily due to an increase in the 2016 accident year loss ratio in California as a result of higher loss costs from collision and bodily injury coverages. The favorable development recognized during the first six months of 2016 in Florida more than offset the increase in the personal injury protection loss cost trends, resulting in an improvement in the calendar year combined ratio in this state.

The 7.4 points and 4.5 points decrease in the Commercial Vehicle combined ratio for the three and six months ended June 30, 2016, was primarily due to favorable development in 2016, compared with unfavorable development in 2015, partially offset by a higher expense ratio as a result of returned ceding commission on a terminated excess of loss reinsurance contract. Refer to Liquidity and Capital Resources – Reinsurance for more information on the modification to our excess of loss reinsurance program.

Installment and Other Fee Income

(\$ in thousands)	Three months ended June 30,		Six months ended June 30,	
	2016	2015	2016	2015
Installment and other fee income	\$25,385	\$24,556	\$50,903	\$49,117

The increase in installment and other fee income charged to policyholders during the first six months of 2016 was primarily related to an increase in processing fees.

Net Investment Income

Net investment income is comprised of gross investment income less investment management fees and expenses, as shown in the following table (\$ in thousands):

	Three months ended June 30,		Six months ended June 30,	
	2016	2015	2016	2015
Investment income:				
Interest income on fixed maturities, cash and cash equivalents	\$8,766	\$9,081	\$17,047	\$17,896
Dividends on equity securities	718	688	1,063	1,188
Gross investment income	9,484	9,769	18,110	19,083
Investment expenses	(557)	(567)	(1,120)	(1,145)
Net investment income	8,927	9,202	16,990	17,938
Average investment balance, at cost	\$1,498,837	\$1,571,086	\$1,502,468	\$1,572,481
Annualized returns excluding realized gains and losses	2.4	% 2.3	% 2.3	% 2.3
Annualized returns including realized gains and losses	2.3	% 2.4	% 2.3	% 2.5

The book yield on our portfolio continues to exceed our new money rates. Therefore, we expect that investment returns will gradually decline as proceeds from maturing or prepaid investments are expected to be reinvested at yields lower than the average book yield for the total portfolio.

Table of Contents

INFINITY PROPERTY AND CASUALTY CORPORATION FORM 10-Q

Management's Discussion and Analysis of Financial Condition and Results of Operations

The following table provides information about our fixed maturity investments at June 30, 2016, which are sensitive to interest rate risk. The table shows expected principal cash flows by expected maturity date for each of the five subsequent years and collectively for all years thereafter. Callable bonds and notes are included based on call date or maturity date depending upon which date produces the most conservative yield. Mortgage Backed Securities (MBS) and sinking fund issues are included based on maturity year adjusted for expected payment patterns.

(\$ in thousands)	Expected Principal Cash Flows			Maturing Book Yield
	MBS and Excluding		Total	
	ABS only	MBS and ABS		
For the period ending December 31,				
2016	\$43,864	\$35,130	\$78,995	2.4%
2017	99,940	128,890	228,830	2.2%
2018	61,816	132,548	194,364	2.1%
2019	47,772	168,271	216,043	2.2%
2020	34,200	150,216	184,416	2.6%
Thereafter	138,826	250,243	389,069	2.9%
Total	\$426,419	\$865,297	\$1,291,716	2.5%

The cash flows presented take into consideration historical relationships of market yields and prepayment rates. However, the actual prepayment rate may differ from historical trends, resulting in actual principal cash flows that differ from those presented above.

Net Realized (Losses) Gains on Investments

We recorded net realized gains (losses) on sales and impairments for unrealized losses deemed other-than-temporary as follows (before tax, \$ in thousands):

	Three months ended June 30, 2016			Three months ended June 30, 2015		
	Net Realized Gains (Losses) on Sales	Net Impairment Losses Recognized in Earnings	Total Net Realized Losses on Investments	Net Realized Gains on Sales	Net Impairment Losses Recognized in Earnings	Total Net Realized Gains on Investments
Fixed maturities	\$34	\$ (198)	\$ (164)	\$423	\$ (208)	\$ 214
Equity securities	0	0	0	0	0	0
Short-term investments	(0)	0	(0)	0	0	0
Total	\$34	\$ (198)	\$ (164)	\$423	\$ (208)	\$ 214

	Six months ended June 30, 2016			Six months ended June 30, 2015		
	Net Realized Gains (Losses) on Sales	Net Impairment Losses Recognized in Earnings	Total Net Realized Losses on Investments	Net Realized Gains on Sales	Net Impairment Losses Recognized in Earnings	Total Net Realized Gains on Investments
Fixed maturities	\$293	\$ (316)	\$ (23)	\$875	\$ (590)	\$ 285
Equity securities	0	0	0	1,098	0	1,098
Short-term investments	(2)	0	(2)	0	0	0

Total \$291 \$ (316) \$ (25) \$1,973 \$ (590) \$ 1,384

For our securities held with unrealized losses, we believe, based on our analysis, that (i) we will recover our cost basis in these securities; and (ii) we do not intend to sell the securities nor is it more likely than not that there will be a requirement to sell the securities before they recover in value. Should either of these beliefs change with regard to a particular security, a charge for impairment would likely be required. While it is not possible to predict accurately if or when a specific security will become impaired, charges for other-than-temporary impairments could be material to results of operations in a future period.

INFINITY PROPERTY AND CASUALTY CORPORATION FORM 10-Q

Management's Discussion and Analysis of Financial Condition and Results of Operations

Interest Expense

(\$ in thousands)	Three months ended June 30,		Six months ended June 30,	
	2016	2015	2016	2015
5.0% Senior Notes	\$3,438	\$3,438	\$6,875	\$6,875
Amortization of debt issuance costs	52	49	102	97
Capital leases	19	21	40	43
Total	\$3,508	\$3,508	\$7,017	\$7,015

At June 30, 2016, we had \$275 million principal outstanding of senior notes. These notes carry a coupon rate of 5.0% and require no principal payment until maturity in September 2022. Refer to Note 5 – Long-Term Debt to the Consolidated Financial Statements for additional information on the 5.0% Senior Notes.

Income Taxes

Our GAAP effective tax rate was 31.3% and 30.2% for the three and six months ended June 30, 2016, respectively, compared with 31.4% for both periods of 2015. The GAAP effective tax rate has decreased in 2016 primarily as a result of a decrease in pre-tax income. Refer to Note 6 – Income Taxes to the Consolidated Financial Statements for additional information on income taxes.

LIQUIDITY AND CAPITAL RESOURCES

Sources of Funds

We are a holding company and our insurance subsidiaries conduct our operations. Accordingly, we will have continuing cash needs for administrative expenses, the payment of interest on borrowings, shareholder dividends, share repurchases and taxes.

Funds to meet expenditures at the holding company level come primarily from dividends and tax payments from the insurance subsidiaries, as well as cash and investments held by the holding company. As of June 30, 2016, the holding company had \$146.1 million of cash and investments. In 2016 our insurance subsidiaries may pay us up to \$65.4 million in ordinary dividends without prior regulatory approval. For the six months ended June 30, 2016, our insurance subsidiaries have paid us ordinary dividends of \$28.0 million.

Our insurance subsidiaries generate liquidity to satisfy their obligations primarily by collecting and investing premiums in advance of paying claims and generating investment income on their \$1.4 billion investment portfolio. Our insurance subsidiaries generated positive cash flows from operations of \$14.3 million and \$37.4 million during the three and six months ended June 30, 2016, respectively, compared with positive operating cash flows of \$22.1 million and \$56.1 million during the same periods of 2015.

At June 30, 2016, we had \$275 million principal outstanding of 5.0% Senior Notes. The 5.0% Senior Notes accrue interest at 5.0%, payable semiannually each March and September. Refer to Note 5 – Long-Term Debt to the Consolidated Financial Statements for more information on our long-term debt.

In August 2014 we renewed our agreement for a \$50 million three-year revolving credit facility (the "Credit Agreement") that requires us to meet certain financial and other covenants. We are currently in compliance with all covenants under the Credit Agreement, and as of June 30, 2016, there were no borrowings outstanding against it. On February 29, 2016, we filed a "shelf" registration statement with the Securities and Exchange Commission registering securities, which will allow us to sell any combination of senior or subordinated debt securities, common stock, preferred stock, warrants, depositary shares, purchase contracts and units in one or more offerings should we choose to do so in the future. This shelf registration statement expires March 1, 2019.

Uses of Funds

In February 2016 we increased our quarterly dividend to \$0.52 per share from \$0.43 per share. At this current amount, our 2016 annualized dividend payments would be approximately \$23.0 million.

Table of Contents

INFINITY PROPERTY AND CASUALTY CORPORATION FORM 10-Q

Management's Discussion and Analysis of Financial Condition and Results of Operations

On November 4, 2014, our Board of Directors increased the authority of our share and debt repurchase program to a total of \$75 million and extended the date to execute the program from December 31, 2014, to December 31, 2016. As of June 30, 2016, we had \$36.7 million of authority remaining under this program. Share repurchases during the first six months of 2016 were as follows:

	Total Number of Shares Purchased	Average Price Paid per Share (Excluding Commissions)
First quarter	106,766	\$ 78.59
Second quarter	2,800	78.32
Total	109,566	\$ 78.58

We believe that cash balances, cash flows generated from operations or borrowings, and maturities and sales of investments are adequate to meet our future liquidity needs and those of our insurance subsidiaries.

Reinsurance

Premium ceded under all reinsurance agreements for the three and six months ended June 30, 2016, was \$(0.1) million and \$4.2 million, respectively, compared with \$3.9 million and \$7.5 million, respectively, for the same periods of 2015. Effective June 1, 2016, we modified our excess of loss reinsurance protection for commercial auto to cover losses up to \$500,000 for claims in excess of \$500,000 per occurrence. In addition, we added a 75% quota share for our general liability business. Premium ceded for the three and six months ended June 30, 2016, includes the return of \$5.9 million of unearned premium due to the termination of the previous excess of loss contract. The \$1.8 million of ceding commissions associated with this unearned premium was returned to the reinsurers. Refer to Note 11 - Reinsurance to the Consolidated Financial Statements of our Form 10-K for the year ended December 31, 2015, for more information on our reinsurance contracts.

Investments

Our consolidated investment portfolio at June 30, 2016, contained approximately \$1.4 billion in fixed maturity securities, \$90.7 million in equity securities and \$4.1 million of short-term investments. All of these are carried at fair value with unrealized gains and losses reported in accumulated other comprehensive income, a separate component of shareholders' equity, on an after-tax basis. At June 30, 2016, we had pre-tax net unrealized gains of \$25.5 million on fixed maturities and pre-tax net unrealized gains of \$11.9 million on equity securities. Combined, the pre-tax net unrealized gain increased by \$26.3 million for the six months ended June 30, 2016. This increase occurred as a result of lower market interest rates affecting our fixed portfolio. The average option adjusted duration of our fixed maturity portfolio was 2.8 years at June 30, 2016, compared with 3.2 years at December 31, 2015.

Since we carry all of these securities at fair value in our balance sheet, there is virtually no effect on liquidity or financial condition upon the sale and ultimate realization of unrealized gains and losses.

Approximately 91.6% of our fixed maturity investments at June 30, 2016, were rated "investment grade," and, as of the same date, the average credit rating of our fixed maturity portfolio was AA-. Investment grade securities generally bear lower yields and have lower degrees of risk than those that are unrated or non-investment grade. We believe that a high quality investment portfolio is more likely to generate a stable and predictable investment return.

Fair values of instruments are based on (i) quoted prices in active markets for identical assets (Level 1); (ii) quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-derived valuations in which all significant inputs are observable in active markets (Level 2); or (iii) valuations derived from valuation techniques in which one or more significant inputs are unobservable in the marketplace (Level 3).

Our Level 1 securities are U.S. Treasury securities, an exchange-traded fund and equity securities held in a rabbi trust. Our Level 2 securities are comprised of securities whose fair value was determined using observable market inputs. Our Level 3 securities are comprised of (i) securities for which there is no active or inactive market for similar

instruments; (ii) securities whose fair value is determined based on unobservable inputs; and (iii) securities that nationally recognized statistical rating organizations do not rate.

Non-investment grade	114,176	115,114	7.8	%
Total corporates	399,095	405,043	27.4	%
Total fixed maturities	1,358,297	1,383,806	93.6	%
Equity securities	78,869	90,742	6.1	%
Short-term investments	4,066	4,066	0.3	%
Total investments	\$1,441,231	\$1,478,615	100.0	%

We categorize securities by rating based upon available ratings issued by Moody's, Standard & Poor's or Fitch. If all three ratings are available but not equivalent, we exclude the lowest rating and the lower of the remaining ratings is used. If ratings are only available from two agencies, the lowest is used. This methodology is consistent with that used by the major bond indices. State and municipal bond ratings presented are underlying ratings without regard to any insurance.

The following table presents the credit rating and fair value of our fixed maturity portfolio by major security type at June 30, 2016, (\$ in thousands):

	Rating				Non-investment Grade	Total Fair Value	% of Total Exposure
	AAA	AA	A	BBB			
U.S. government	\$64,236	\$0	\$0	\$0	\$0	\$64,236	4.6 %

Condensed Notes to Consolidated Financial Statements

ITEM 3

Quantitative and Qualitative Disclosures about Market Risk

As of June 30, 2016, there were no material changes to the information provided on Form 10-K for the year ended December 31, 2015, under the caption “Exposure to Market Risk” in Management’s Discussion and Analysis of Financial Condition and Results of Operations. Refer to Item 2 Management’s Discussion and Analysis under the caption “Investments” for updates to disclosures made under the subcaption “Credit Risk” of our Form 10-K for the year ended December 31, 2015.

ITEM 4

Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of the Company’s management, including its Principal Executive Officer and Principal Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Securities Exchange Act Rules 13a-15(e) and 15d-15(e)) as of June 30, 2016. Based on that evaluation, we concluded that the controls and procedures are effective in providing reasonable assurance that material information required to be disclosed in our reports filed with or submitted to the Securities and Exchange Commission (SEC) under the Securities Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms and that such information is accumulated and communicated to our management, including our Principal Executive Officer and Principal Financial Officer, as appropriate.

Changes in Internal Control over Financial Reporting

During the fiscal quarter ended June 30, 2016, there have been no changes to our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
