PART III

ITEM DIRECTORS, EXECUTIVE OFFICERS, AND CORPORATE GOVERNANCE

10.

As of July 25, 2008, our directors and executive officers, their ages, positions held, and duration as such, are as follows:

Name	Position Held with our Company	Age	Date First Elected or Appointed
John D. Carlson	President, Chief Executive Officer and Director	54	June 30, 2004
Pete J. Craven	Chief Financial Officer and Secretary	51	December 19, 2007

Currently we have only one seat filled on our board of directors. Our sole director holds office until the next annual meeting of the stockholders or until his successors has been elected and qualified.

Our former Chairman and director, William A. Lansing, resigned as our Chairman and as a director effective April 26, 2008. Our three other former directors, George Hampton, Curtis Hartzler and Michael Raleigh, resigned as directors of our Company effective March 14, 2008. Messrs. Lansing, Hampton, Hartzler and Raleigh's resignations were not as a result of any disagreement on any matter relating to our Company's operations, policies or practices.

During the fiscal year ended March 31, 2008, each non-executive director, when serving as a Director of the Board, was to receive \$7,500 per quarter for their services and is reimbursed for their expenses incurred to attend meetings. During the fiscal year ended March 31, 2008, as a result of the Company's limited working capital, all non-executive directors agreed to forego their director's fee for the third and fourth quarters.

The officers of our Company are appointed by our board of directors and serve until their successors are appointed by the board of directors or until their death, resignation or removal from office. During the past fiscal year, there have been no changes to the procedures by which security holders may recommend nominees for directors to our board.

Business Experience

The following is a brief account of the education and business experience during the past five years for of each of our directors, executive officers and key employees indicating each person's principal occupation during the period, and the name and principal business of the organization by which he or she was employed.

John D. Carlson, President, Chief Executive Officer and Director

John D. Carlson became president and chief executive officer of our Company on January 16, 2006 and has been a director since June 2004. Mr. Carlson has also been chief operating officer of our Company's wholly owned subsidiary, Methane Energy Corp. since May 2005 and a director since January 2006. Mr. Carlson was also appointed director of our wholly owned subsidiary, Cascadia Energy Corp. in January 2006.

Mr. Carlson brings to our Company over 25 years experience as a registered professional petroleum engineer with work experience ranging from Amoco Canada to Sproule Associates Ltd. to several private and public oil and gas companies in Alberta. From June 2005 to August 2007, Mr. Carlson served as a director of Triangle Petroleum Corporation. From February 2004 to July 2004, Mr. Carlson was president and a director of Pacific Roder Energy Inc., a Calgary-based oil and gas exploration and development company. From September 2003 to January 2004, Mr. Carlson was vice president, operations for Pacific Roder Energy Inc. From September 2001 to December 2003, Mr. Carlson was president of Samson Oil and Gas Inc., a Hobbema, Alberta-based oil and gas exploration and development company where he was also general manager from January 2001 to August 2001. From 1984 to 2000, Mr. Carlson was an associate and senior petroleum engineer for Sproule Associates, Ltd. Mr. Carlson received a bachelor of science degree in civil engineering from the University of Calgary in 1977.

Pete J. Craven, Chief Financial Officer and Secretary

Pete J. Craven became chief financial officer and secretary of the board of directors on December 19, 2007. Mr. Craven has thirty years of progressive experience in finance, strategic planning, accounting, mergers, acquisitions, capital structuring, equity and debt markets including securities regulations. In February 2007, Mr. Craven joined the Company as Vice President of Finance taking on direct responsibility of all accounting, budgeting, financial analysis and compliance with securities regulations.

Prior to joining our Company, Mr. Craven held the position of Chief Financial Officer for Home Phone Tunes, Inc. in 2006 and 2007, an electronics and internet start-up company. From 1982 through 2006, Mr. Craven held various financial and regulator positions for PacifiCorp, an integrated electricity company with operations in Western United States. These positions included Director of Regulatory Affairs, Director of Finance Strategy, Director of Accounting, and Controller for PacifiCorp Financial Services, and Vice President/Controller for NERCO, Inc. Mr. Craven began his professional career at the public accounting firm of Ernst & Ernst and as a CPA in the State of Oregon (currently inactive). Mr. Craven received a bachelor of arts degree in accounting and economics from Gonzaga University in 1978.

Family Relationships

There are no family relationships among our directors or officers.

Involvement in Certain Legal Proceedings

Except as noted below, our directors, executive officers and control persons have not been involved in any of the following events during the past five years:

1. any bankruptcy petition filed by or against any business of which such person was a general partner or executive officer either at the time of the bankruptcy or within two years prior to that time;
2. any conviction in a criminal proceeding or being subject to a pending criminal proceeding (excluding traffic violations and other minor offences);
3. being subject to any order, judgment, or decree, not subsequently reversed, suspended or vacated, of any court of competent jurisdiction, permanently or temporarily enjoining, barring, suspending or otherwise limiting his involvement in any type of business, securities or banking activities; or
4. being found by a court of competent jurisdiction (in a civil action), the Securities and Exchange Commission or the Commodity Futures Trading Commission to have violated a federal or state securities or commodities law, and the judgment has not been reversed, suspended, or vacated.

Proceedings Under Chapter 11 of the Bankruptcy Code

As discussed in our annual report on Form 10-K filed on July 15, 2008, the Company commenced Chapter 11 proceedings (Case No. 08-32638) on June 2, 2008 by filing a voluntary petition for reorganization under the Bankruptcy Code with the United States Bankruptcy Court for the District of Oregon. Each of the Company's subsidiaries, Methane Energy Corp. and Cascadia Energy Corp. also commenced a case under Chapter 11 of the Bankruptcy Code on the same day (together with the Company's filing, the "Chapter 11 Cases"). The Company's sole director is also a director of the Company's subsidiaries. As a result of the Chapter 11 Cases, each of the Company's director and executive officers has been associated with a corporation that filed a petition under the federal bankruptcy laws within the last five years.

Audit Committee Financial Expert

The Company currently does not have a separate Audit Committee and our sole director performs the functions of the Audit Committee. The Company had an Audit Committee of the Board of Directors during most of the last fiscal year up to the resignations of the independent directors in March and April of 2008. The Company's former Audit Committee of the Board of Directors was comprised of Mr. Lansing, Mr. Raleigh, and Mr. Hartzler. During the time our Audit Committee was in place, we determined that it did not have a member of the Audit Committee that qualified as an "audit committee financial expert" as defined in Item 401(e) of Regulation S-B, and is "independent" as the term is used in Item 7(d)(3)(iv) of Schedule 14A under the Securities Exchange Act of 1934, as amended.

We believe that Mr. Carlson and, prior to their resignations, the independent members of our board of directors were collectively capable of analyzing and evaluating our financial statements and understanding internal controls and procedures for financial reporting. In addition, during the past fiscal year we believed that retaining an independent director who would qualify as an "audit committee financial expert" would have been overly costly and burdensome and was not warranted in our circumstances given the early stages of our development and the fact that we have not generated any revenues to date. The Company intends to consider adding new board members that would qualify as a financial expert and reconstitute the Audit Committee once the Company emerges from Chapter 11 reorganization.

Code of Ethics

Our Company's board of directors adopted a Code of Business Conduct and Ethics that applies to, among other persons, our Company's president and chief executive officer (being our principal executive officer) and our Company's chief financial officer (being our principal financial and accounting officer and controller), as well as persons performing similar functions. As adopted, our Code of Business Conduct and Ethics sets forth written standards that are designed to deter wrongdoing and to promote:

- (1) honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships;
- (2) full, fair, accurate, timely, and understandable disclosure in reports and documents that we file with, or submit to, the Securities and Exchange Commission and in other public communications made by us;
- (3) compliance with applicable governmental laws, rules and regulations;
- (4) the prompt internal reporting of violations of the Code of Business Conduct and Ethics to an appropriate person or persons identified in the Code of Business Conduct and Ethics; and
- (5) accountability for adherence to the Code of Business Conduct and Ethics.

Our Code of Business Conduct and Ethics requires, among other things, that all of our Company's personnel are accorded full access to our president and secretary with respect to any matter which may arise relating to the Code of Business Conduct and Ethics. Further, all of our Company's personnel are to be accorded full access to our Company's board of directors if any such matter involves an alleged breach of the Code of Business Conduct and Ethics by our president or secretary.

In addition, our Code of Business Conduct and Ethics emphasizes that all employees, and particularly managers and/or supervisors, have a responsibility for maintaining financial integrity within our Company, consistent with generally accepted accounting principles, and federal and state securities laws. Any employee who becomes aware of any incidents involving financial or accounting manipulation or other irregularities, whether by witnessing the incident or being told of it, must report it to his or her immediate supervisor or to our president or secretary. If the incident involves an alleged breach of the Code of Business Conduct and Ethics by the president or secretary, the incident must be reported to any member of our board of directors. Any failure to report such inappropriate or irregular conduct of others is to be treated as a severe disciplinary matter. It is against our Company policy to retaliate against any individual who reports in good faith the violation or potential violation of our Company's Code of Business Conduct and Ethics by another.

Our Code of Business Conduct and Ethics was filed with the Securities and Exchange Commission as Exhibit 14.1 to our annual report on Form 10-KSB for the year ended March 31, 2005. We will provide a copy of the Code of Business Conduct and Ethics to any person without charge, upon request. Requests can be sent to: Torrent Energy Corporation, 11918 SE Division, Suite 197; Portland, Oregon 97266.

Section 16(a) Beneficial Ownership Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires our executive officers and directors and persons who own more than 10% of a registered class of our equity securities to file with the Securities and Exchange Commission initial statements of beneficial ownership, reports of changes in ownership and annual reports concerning their ownership of our shares of common stock and other equity securities, on Forms 3, 4 and 5, respectively. Executive officers, directors and greater than 10% shareholders are required by the Securities and Exchange Commission regulations to furnish us with copies of all Section 16(a) reports they file.

Based solely on our review of the copies of such forms received by our Company, or written representations from certain reporting persons that no Form 5's were required for those persons, we believe that, during the fiscal year ended March 31, 2008, all filing requirements applicable to our officers, directors and greater than 10% beneficial owners as well as our officers, directors and greater than 10% beneficial owners of our subsidiaries, Methane Energy Corp. and Cascadia Energy Corp. were complied with.

Compensation Discussion and Analysis

General Philosophy. We compensate our senior management using a combination of salary, bonus and equity compensation designed to be competitive with comparable oil and gas companies while aligning management's incentives with the long-term interests of our stockholders. To date, our compensation setting process has consisted of targeting an overall compensation package sufficient to entice our senior management to accept the risks inherent in a development-stage enterprise and join our Company. Consequently we have provided no salary increases to our existing senior management team since their respective hire dates. We anticipate developing a comprehensive incentive compensation program at such time as we have further advanced the development of our Company to encompass gas production activities.

Base Salaries. We want to provide our senior management with a level of assured cash compensation in the form of base salary that is compatible with the financial resources of a development-stage company but which facilitates an appropriate lifestyle for our executives given their professional status and accomplishments. For our president and chief executive officer, we concluded that an initial base salary of \$200,000 was appropriate in this regard. For our chief financial officer, we concluded that an initial base salary of \$180,000 was appropriate.

Bonuses. Our objective is to award cash bonuses based on performance objectives. During the Fiscal Year Ended March 31, 2008, no bonuses were earned or paid. For the fiscal year ended March 31, 2007, Mr. Fowler was paid cash bonuses totaling \$15,000 for meeting the specific objective of successfully completing all SEC filings that fiscal year and received a Christmas bonus of \$500, which was paid to all employees of our Company that fiscal year. During the year ended March 31, 2007, our president and chief executive officer only received the \$500 Christmas bonus.

Equity Compensation. Our only form of equity compensation has been to award non-qualified stock options. We selected this form of equity compensation because of the accounting and tax treatments existing early in our Company's history and an expectation by our employees that stock options would provide upside to their compensation to balance their risk/reward expectations.

Other. We have no severance benefits policy for our senior executives and employment is "at will." Similarly we have no company-funded retirement plans but do sponsor a 401(k) plan for which no company matching contributions have been made. Finally, we have no "change of control" protection for our executive management or for our employees.

Board Process. The Board of Directors established a Compensation Committee, comprised exclusively of independent outside directors. However, as mentioned previously all independent directors resigned in March and April of 2008. During the past fiscal year when this Compensation Committee was in place, two members had extensive executive level experience in other companies in the oil and gas industry and brought a perspective of reasonableness to compensation matters within our Company. Additionally, the chairman of the Compensation Committee was serving in a similar board position on two other publicly traded companies and, in that capacity, regularly reviewed compensation surveys for chief executive officers and other executive level personnel.

The following table provides a summary of plan-based equity awards to our named executive officer in the last completed fiscal year.

2004 Non-Qualified Stock Option Plan

On February 10, 2004, our board of directors adopted the 2004 Non-Qualified Stock Option Plan (the “2004 Plan”) for our executives, employees and outside consultants and advisors. Under the plan, executives, employees and outside consultants and advisors may receive awards of non-qualified stock options. The purpose of the plan is to provide executives, employees and non-employee consultants and advisors with an increased incentive to make contributions to our Company. The aggregate number of shares of common stock that may be granted by our Company under the 2004 Plan will not exceed a maximum of 1,800,000 shares of common stock during the period of the plan. The 2004 Plan shall terminate upon the earlier of February 10, 2014 or the issuance of all shares of common stock granted under the plan. The option prices per share are determined by our board of directors when the stock option is granted.

During the year ended March 31, 2004, we granted 1,060,000 stock options to various consultants of our Company. Each option entitles the holder to acquire one share of common stock at an exercise price of \$0.10 per share. These options have vesting periods ranging from immediately to over seven months, and expire two years from date of grant.

During the fiscal year ended March 31, 2005, we granted a total of 1,340,000 stock options of which 740,000 were under the 2004 Plan and the other 600,000 were outside the plan. Of the total 1,340,000 options, 740,000 stock options were granted to various directors and consultants of our Company under the 2004 Plan. Each option entitles the holder to acquire one share of common stock at exercise prices ranging from \$0.10 to \$0.50 per share. Vesting of these options ranged from 100% immediately to 25% immediately and 25% every six months afterward until fully vested 18 months from the date of grant. These options expire five years from the date of grant.

Of the 600,000 stock options granted outside the 2004 Plan, 200,000 stock options with an exercise price of \$1.00 per share and another 200,000 with an exercise price of \$2.00 per share were granted pursuant to a mail distribution agreement with a third party. These options vested immediately and were exercisable until November 1, 2005. These options have a cashless exercise provision whereby the optionee can elect to receive shares of common stock in lieu of paying cash for the options based on a formula that includes using the average closing prices of the five trading days preceding the exercise date.

The other 200,000 stock options granted outside the 2004 Plan were to a consultant providing public and investor relations services. These options have an exercise price of \$0.83 per share, vested 25% immediately, and 25% every quarter thereafter. Either party may terminate the investor relations agreement with thirty days written notice.

2005 Equity Incentive Plan

On March 17, 2005, our board of directors adopted the 2005 Equity Incentive Plan for our executives, employees and outside consultants and advisors. The purpose of the equity incentive plan is to provide long-term performance incentives to those key employees and consultants of our Company and our subsidiaries who are largely responsible for the management, growth and protection of the business of our Company and our subsidiaries. In addition, we had previously granted a consultant the option to purchase 200,000 shares of our common stock at an exercise price of \$0.83 per share pursuant to a consulting agreement for public and investor relations with a third party in which 25% of the options vest immediately and 25% vest every quarter thereafter and either party may terminate the investor relations agreement with thirty days' written notice. The audit committee requires advance approval of all audit engagements, audit-related activities, tax services, and any other services performed by the independent auditor. Unless the specific service has been previously pre-approved with respect to that year, the audit committee must approve the permitted service before the independent auditor is engaged to perform it. The audit committee has delegated to the chair of the audit committee authority to approve permitted services provided that the chair reports any decisions to the committee at its next scheduled meeting.

The audit committee has considered the nature and amount of fees to be billed by Peterson Sullivan PLLC and believes that the provision of services for activities unrelated to the audit is compatible with maintaining Peterson Sullivan PLLC's independence.
