PART I

ITEM 1. DESCRIPTION OF BUSINESS

GENERAL

Modena 2, Inc. was incorporated on November 18, 2003, under the laws of the State of Delaware to engage in any lawful corporate undertaking, including, but not limited to, selected mergers and acquisitions. We have been in the developmental stage since inception and has no operations to date other than issuing shares to our original shareholders.

We will attempt to locate and negotiate with a business entity for the combination of that target company with us. The combination will normally take the form of a merger, stock-for-stock exchange or stock-for-assets exchange. In most instances the target company will wish to structure the business combination to be within the definition of a tax-free reorganization under Section 351 or Section 368 of the Internal Revenue Code of 1986, as amended. No assurances can be given that we will be successful in locating or negotiating with any target company.

We have been formed to provide a method for a foreign or domestic private company to become a reporting ("public") company whose securities are qualified for trading in the United States secondary market.

PERCEIVED BENEFITS

There are certain perceived benefits to being a reporting company with a class of publicly-traded securities. These are commonly thought to include the following:

- * the ability to use registered securities to make acquisitions of assets or businesses;
- * increased visibility in the financial community;
- * the facilitation of borrowing from financial institutions;
- * improved trading efficiency;
- * shareholder liquidity;
- * greater ease in subsequently raising capital;

Edgar Filing: MODENA 2 INC - Form 10KSB

- * compensation of key employees through stock options for which there may be a market valuation;
- * enhanced corporate image;
- * a presence in the United States capital market.

POTENTIAL TARGET COMPANIES

A business entity, if any, which may be interested in a business combination with us may include the following:

- * a company for which a primary purpose of becoming public is the use of its securities for the acquisition of assets or businesses;
- * a company which is unable to find an underwriter of its securities or is unable to find an underwriter of securities on terms acceptable to it;
- * a company which wishes to become public with less dilution of its common stock than would occur upon an underwriting;
- * a company which believes that it will be able to obtain investment capital on more favorable terms after it has become public;
- * a foreign company which may wish an initial entry into the United States securities market;
- * a special situation company, such as a company seeking a public market to satisfy redemption requirements under a qualified Employee Stock Option Plan;
- * a company seeking one or more of the other perceived benefits of becoming a public company.

A business combination with a target company will normally involve the transfer to the target company of the majority of our issued and outstanding common stock, and the substitution by the target company of its own management and board of directors.

No assurances can be given that we will be able to enter into a business combination, as to the terms of a business combination, or as to the nature of the target company.

EMPLOYEES

We have no full time employees. Our president and vice president have agreed to allocate a portion of their time to the activities of the Company, without compensation. Management anticipates that our business plan can be implemented by devoting no more than 10 hours per month to the business affairs of the Company and, consequently, conflicts of interest may arise with respect to the limited time commitment by each officer.

ITEM 2. DESCRIPTION OF PROPERTY

We have no properties and at this time has no agreements to acquire any properties. We currently use the offices of management at no cost to us. Management has agreed to continue this arrangement until we complete an acquisition or merger.

ITEM 3. LEGAL PROCEEDINGS

Edgar Filing: MODENA 2 INC - Form 10KSB

There is no litigation pending or threatened by or against us.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None.

PART II

ITEM 5. MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

On February 10, 2005, there are two shareholders of record of our common stock. Our shares of common stock have never been traded on any recognized stock exchange.

DIVIDENDS

We do not intend to retain future earnings to support our growth. Any payment of cash dividends in the future will be dependent upon: the amount of funds legally available therefore; our earnings; financial condition; capital requirements; and other factors which our Board of Directors deems relevant.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATIONS

Plan of Operation

We intend to enter into a business combination with a target company in exchange for cash and/or our securities. As of the initial filing date of this Registration Statement, neither our officer and director nor any affiliate has engaged in any negotiations with any representative of any specific entity regarding the possibility of a business combination with us.

Management anticipates seeking out a target company through solicitation. Such solicitation may include newspaper or magazine advertisements, mailings and other distributions to law firms, accounting firms, investment bankers, financial advisors and similar persons, the use of one or more World Wide Web sites and similar methods. No estimate can be made as to the number of persons who will be contacted or solicited. Management may engage in such solicitation directly or may employ one or more other entities to conduct or assist in such solicitation. Management and its affiliates will pay referral fees to consultants and others who refer target businesses for mergers into public companies in which management and its affiliates have an interest. Payments are made if a business combination occurs, and may consist of cash or a portion of the stock in the Company retained by management and its affiliates, or both.

We have no full time employees. Our president and vice president have agreed to allocate a portion of their time to the activities of the Company, without compensation. Management anticipates that our business plan can be implemented by devoting no more than 10 hours per month to the business affairs of the Company and, consequently, conflicts of interest may arise with respect to the limited time commitment by each officer.

Our Certificate of Incorporation provides that we may indemnify our officers and/or directors for liabilities, which can include liabilities arising under the securities laws. Therefore, our assets could be used or attached to satisfy any liabilities subject to such indemnification.

Edgar Filing: MODENA 2 INC - Form 10KSB

Results of Operation

We did not have any operating income from inception through October 31, 2004. For the year ended October 31, 2004, expenses for the quarter were comprised of costs mainly associated with legal and accounting services and general office expenses.

Liquidity and Capital Resources

At October 31, 2004, we had no capital resources and will rely upon the issuance of common stock and additional capital contributions from shareholders to fund administrative expenses pending acquisition of an operating company.

Critical Accounting Policies

Our financial statements and related public financial information are based on the application of accounting principles generally accepted in the United States ("GAAP"). GAAP requires the use of estimates; assumptions, judgments and subjective interpretations of accounting principles that have an impact on the assets, liabilities, revenue and expense amounts reported. These estimates can also affect supplemental information contained in our external disclosures including information regarding contingencies, risk and financial condition. We believe our use of estimates and underlying accounting assumptions adhere to GAAP and are consistently and conservatively applied. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ materially from these estimates under different assumptions or conditions. We continue to monitor significant estimates made during the preparation of our financial statements.

Our significant accounting policies are summarized in Note 1 of our financial statements. While all these significant accounting policies impact our financial condition and results of operations, our views certain of these policies as critical. Policies determined to be critical are those policies that have the most significant impact on our financial statements and require management to use a greater degree of judgment and estimates. Actual results may differ from those estimates. Our management believes that given current facts and circumstances, it is unlikely that applying any other reasonable judgments or estimate methodologies would cause effect on our consolidated results of operations, financial position or liquidity for the periods presented in this report.

NOTES TO FINANCIAL STATEMENTS

1. Summary of significant accounting policies:

Industry:

Edgar Filing: MODENA 2 INC - Form 10KSB

Modena 2, Inc. (the Company), a Company incorporated in the state of Delaware as of November 18, 2003, plans to locate and negotiate with a business entity for the combination of that target company with The Company. The combination will normally take the form of a merger, stock-for-stock exchange or stock-for-assets exchange. In most instances the target company will wish to structure the business combination to be within the definition of a tax-free reorganization under Section 351 or Section 368 of the Internal Revenue Code of 1986, as amended. No assurances can be given that The Company will be successful in locating or negotiating with any target company.

The Company has been formed to provide a method for a foreign or domestic private company to become a reporting ("public") company whose securities are qualified for trading in the United States secondary market.

The Company has adopted its fiscal year end to be October 31.

Results of Operations and Ongoing Entity:

The Company is considered to be an ongoing entity for accounting purposes; however, there is substantial doubt as to the Company's ability to continue as a going concern. The Company's shareholders fund any shortfalls in The Company's cash flow on a day to day basis during the time period that The Company is in the development stage.

Liquidity and Capital Resources:

In addition to the stockholder funding capital shortfalls; The Company anticipates interested investors that intend to fund the Company's growth once a business is located.

Cash and Cash Equivalents:

The Company considers cash on hand and amounts on deposit with financial institutions which have original maturities of three months or less to be cash and cash equivalents.

Basis of Accounting:

The Company's financial statements are prepared in accordance with U.S. generally accepted accounting principles.

Income Taxes:

The Company utilizes the asset and liability method to measure and record deferred income tax assets and liabilities. Deferred tax assets and liabilities reflect the future income tax effects of temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and are measured using enacted tax rates that apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Deferred tax assets are reduced by a valuation allowance when in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. At this time, The Company has set up an allowance for deferred taxes as there is no company history to indicate the usage of deferred tax assets and liabilities.

Fair Value of Financial Instruments:

The Company's financial instruments may include cash and cash equivalents, short-term investments, accounts receivable, accounts payable and liabilities to banks and shareholders. The carrying amount of long-term debt to banks approximates fair value based on interest rates that are currently available to The Company for issuance of debt with similar terms and remaining maturities. The carrying amounts of other financial instruments approximate their fair value because of short-term maturities.

Concentrations of Credit Risk:

Financial instruments which potentially expose The Company to concentrations of credit risk consist principally of operating demand deposit accounts. The Company's policy is to place its operating demand deposit accounts with high credit quality financial institutions. At this time The Company has no deposits that are at risk.

2. Related Party Transactions and Going Concern:

The Company's financial statements have been presented on the basis that it is a going concern in the development stage, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. At this time The Company has not identified the business that it wishes to engage in.

The Company's shareholders fund The Company's activities while The Company takes steps to locate and negotiate with a business entity for combination; however, there can be no assurance these activities will be successful.

3. Accounts Receivable and Customer Deposits:

Accounts receivable and Customer deposits do not exist at this time and therefore have no allowances accounted for or disclosures made.

4. Use of Estimates:

Management uses estimates and assumptions in preparing these financial statements in accordance with generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenue and expenses. Management has no reason to make estimates at this time.

5. Revenue and Cost Recognition:

The Company uses the accrual basis of accounting in accordance with generally accepted accounting principles for financial statement reporting.

6. Accrued Expenses:

Accrued expenses consist of accrued legal, accounting and office costs during

Edgar Filing: MODENA 2 INC - Form 10KSB

this stage of the business.

F-7

7. Operating Lease Agreements:

The Company has no agreements at this time.

8. Stockholder's Equity:

Common Stock includes 100,000,000 shares authorized at a par value of \$0.001, of which 100,000 have been issued for the amount of \$100 on November 18, 2003 in acceptance of the incorporation expenses for the Company.

9. Required Cash Flow Disclosure for Interest and Taxes Paid:

The company has paid no amounts for federal income taxes and interest. The Company issued 100,000 common shares of stock to its sole shareholder in acceptance of the incorporation expenses for the Company.

10. Earnings Per Share:

Basic earnings per share ("EPS") is computed by dividing earnings available to common shareholders by the weighted-average number of common shares outstanding for the period as required by the Financial Accounting Standards Board (FASB) under Statement of Financial Accounting Standards (SFAS) No. 128, "Earnings per Shares". Diluted EPS reflects the potential dilution of securities that could share in the earnings.
