1. Description of Real Estate Property Acquired

On August 4, 2015, Columbia Property Trust, Inc. (which may be referred to herein as the "Company," "we," "our" or "us") purchased the office portion (consisting of 481,110-square feet) of a 16-story, 731,596-square-foot building in Midtown Manhattan (the "229 West 43rd Street Building") for a gross sales price of \$516.0 million. The acquisition was funded with a newly originated \$300 million, six-month term loan (the "\$300 Million Bridge Loan Agreement") and borrowings under the Company's unsecured, revolving credit facility. The 229 West 43rd Street Building was originally built in 1912, with additions in 1924, 1932, and 1947, and a recent redevelopment program totaling \$167 million. The 229 West 43rd Street Building was purchased from BRE/NYT L.L.C., a Delaware liability company, which is not affiliated with the Company.

2. Basis of Accounting

The accompanying statements of revenues and certain operating expenses are presented in conformity with accounting principles generally accepted in the United States and in accordance with the applicable rules and regulations of the Securities and Exchange Commission for real estate properties acquired. Accordingly, the statements exclude certain historical expenses that are not comparable to the proposed future operations of the property such as certain ancillary income, amortization, depreciation, interest, and corporate expenses. Therefore, the statements will not be comparable to the statements of operations of the 229 West 43rd Street Building after its acquisition by the Company.

3. Significant Accounting Policies

Revenues

Rental revenue is recognized on a straight-line basis over the terms of the related leases. The excess of rental income recognized over the amounts due pursuant to the lease terms is recorded as straight-line rent receivable. The adjustment to straight-line rent receivable increased rental revenue by approximately \$8,064,411 for the six months ended June 30, 2015, and \$3,719,777 for the year ended December 31, 2014.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

4. Description of Leasing Arrangements

As of December 31, 2014, the 229 West 43rd Street Building was 79% leased to seven tenants, including Yahoo! Inc. (approximately 40%), Collective, Inc. (approximately 12%), and MongoDB, Inc. Yahoo! Inc.'s network of websites offers news, entertainment, and shopping, as well as search results powered by Microsoft's Bing. Yahoo! generates most of its revenue through providing search and display advertising to Web operations in three main categories: Communications & Communities (including Yahoo! Mail, Yahoo! Groups, and Flickr), Search and Marketplaces (Yahoo! Search), and Media (Yahoo! Homepage, Yahoo! Finance). Other revenues come from fee-based services such as premium e-mail; royalties, licenses, and mobile products; and broadband Internet access. Yahoo! publishes content in about 45 languages and in 60 countries worldwide. The Yahoo! Lease expires in June of 2025, with an option to extend.

Collective, Inc. is a marketing agency that provides multi-screen advertising solutions that help brands connect with their audience. The company utilizes a multichannel approach, including online advertisements, mobile, and television spots to help clients identify markets and the appropriate media to reach the right audience. The company's elite customer base includes some of the largest consumer retail focused companies in the world, including Allstate, Applebee's, L'Oreal, and Kentucky Fried Chicken. As a testament to its business model, Collective, Inc. has the support and financial backing of significant venture capital and technology companies. The Collective, Inc. lease expires in June of 2025, with an option to extend.

Snapchat, Inc. develops a text and photo-based messaging application for mobile phones. Using the application, users can take photos, record videos, add text and drawings, and send them to a controlled list of recipients. These sent photographs and videos are known as “Snaps.” Users set a time limit for how long recipients can view their Snaps (as of April 2014, the range is from 1 to 10 seconds), after which they will be hidden from the recipient’s device and deleted from Snapchat’s servers. As of May 2014, the app’s users were sending 700 million photos and videos per day, while Snapchat Stories content was being viewed 500 million

times per day. The company was founded in 2012 and is based in Venice, California. The Snapchat, Inc. Lease expires in December of 2025, with an option to extend.
