## 2. Basis of Preparation and Presentation of the Financial Statements

The individual and consolidated financial statements are presented in thousands of reais, unless otherwise indicated and was prepared in accordance with the accounting practices adopted in Brazil and with the procedures issued by the Brazilian Securities Commission (CVM) and by the Brazilian Institute of Accountants (IBRACON).

The conclusion of the preparation of these financial statements was authorized at the board of executive officers Meeting, held at March 12, 2007.

In view of the implementation of guidelines established by IBRACON for presentation and disclosure of financial statements defined in Accounting Standards and Procedures ( NPC ) 27 issued at October 3, 2005, some items of the balance sheet for the year ended December 31, 2005 were reclassified in order to comply with these guidelines and allow the comparison.

With the purpose of providing additional information, the following is presented: (a) statement of cash flow, prepared in accordance with NPC 20/99 issued by IBRACON and (b) statement of added value, in accordance with Resolution of Accounting Federal Council CFC 1,010 as of January 21, 2005.

Certain assets, liabilities, revenues and expenses are determined on the basis of estimates when preparing the financial statements. Accordingly, the financial statements of the Company and the consolidated financial statements include various estimates, among which are those relating to calculation of allowance for doubtful accounts, depreciation and amortization, asset valuation allowance, realization of deferred taxes, contingencies and other estimates. Actual results may differ from those estimated.

Significant accounting practices and consolidation criteria adopted by the Company are shown below:

### a) Cash and cash equivalents

Cash and cash equivalents include the cash and checking account balances.

### b) Marketable securities

Securities are recorded at cost, accrued of earnings verified up to the balance sheet date and not exceeding the market value. The marketable securities are redeemable within 90 days as from the balance sheet date.

### c) Accounts receivable

Accounts receivable are stated at estimated realizable values. An allowance for doubtful accounts is provided in an amount considered by Management to be sufficient to meet probable future losses related to uncollectible accounts. The setting up of provision is mainly based on the historic average of losses, in addition to specific accounts receivable deemed as uncollectible.

Customer credit financing is generally for a term of up to 24 months. Interest is recorded and allocated as financial income during the financing period.

The Company carries out securitization operations of its accounts receivable with a special purpose entity, over which it has shared control, the PAFIDC (*Pão de Açúcar Fundo de Investimento em Direitos Creditórios*) .

## 2. Basis of Preparation and Presentation of the Financial Statements (Continued)

The cost of inventories purchased through the warehouse is recorded at average cost, including warehousing and handling costs.

### e) Other current and noncurrent assets

Other assets and receivables are stated at cost, including, when applicable, contractual indexation accruals, net of allowances to reflect realizable amounts, if necessary.

### f) Investments

Investments in subsidiaries are accounted for by the equity method, and provision for capital deficiency is recorded, when applicable. Other investments are recorded at acquisition cost.

### g) Property and equipment

These assets are shown at acquisition or construction cost, monetarily restated until December 31, 1995, deducted from the related accumulated depreciation, calculated on a straight-line basis at the rates mentioned in Note 10, which take into account the economic useful lives of the assets or the leasing term, in case of leasehold improvements, whichever is shorter.

Interest and financial charges on loans and financing obtained from third parties directly or indirectly attributable to the process of purchase, construction and operating expansion, are capitalized during the construction and refurbishment of the Company's and its subsidiaries' stores in conformity with CVM Deliberation 193. The capitalized interest and financial charges are appropriated to results over the depreciation periods of the corresponding assets.

Expenditures for repairs and maintenance that do not significantly extend the useful lives of related asset are charged to expense as incurred. Expenditures that significantly extend the useful lives of existing facilities and equipment are added to the property and equipment value.

### h) Intangible assets

Intangible assets include premium derived from the acquisition of companies and amounts related to acquisition of commercial rights and outlets. These amounts are supported by appraisal reports issued by independent experts, based on the expectation of future profitability, and are amortized in accordance with projected profitability over a maximum period of ten years.

## 2. Basis of Preparation and Presentation of the Financial Statements (Continued)

### k) Derivative financial instruments

The Company uses derivative financial instruments to reduce its exposure to market risk resulting from fluctuations in interest and foreign currency exchange rates. In the case of asset instruments, these are accounted for at the lower of cost or market value, whichever is the shorter.

### l) Taxation

Revenues from sales and services are subject to taxation by State Value-Added Tax - ICMS, Services Tax - ISS, Social Contribution Tax on Gross Revenue for Social Integration Program - PIS and Social Contribution Tax on Gross Revenue for Social Security Financing - COFINS at rates prevailing in each region and are presented as sales deductions in the statement of income.

The credits derived from non-cumulative PIS and COFINS are shown deducted from cost of goods sold in the statement of income. The debits derived from financial income and credits derived from financial expenses are shown deducted in these proper items of the statement of income.

The advances or amounts subject to offsetting are shown in the current and noncurrent assets, in accordance with the estimate for their realization.

The taxation on income comprises the income and social contribution taxes, which are calculated based on taxable income (adjusted income), at rates applicable according to the prevailing laws - 15%, accrued of 10% over the amount exceeding R\$240 yearly for income tax and 9% for social contribution tax.

Deferred and income and social contribution tax assets were recorded under the item Deferred income and social contribution taxes from tax losses, negative basis of social contribution and temporary differences, taking into account the prevailing rates of said taxes, pursuant to the provisions of CVM Deliberation 273, as of August 20, 1998 CVM Ruling 371, as of June 27, 2002, and taking into account the history of profitability and the expectation of generating future taxable income based on a technical feasibility study, approved by the Board of Directors.

### m) Provision for contingencies

As per CVM Deliberation 489/05, the Company adopted the concepts established in NPC 22 on Provisions, Liabilities, Gains and Losses on Contingencies when setting up provisions and disclosures on matters regarding litigation and contingencies (Note 16).

### n) Revenues and expenses

Revenues from sales are recognized when customer receives/withdraws the goods. Financial income arising from credit sales is accrued over the credit term. ## 2. Basis of Preparation and Presentation of the Financial Statements (Continued)

The remaining balance of results will be attributed to the subordinated quotas. The series B senior quotaholders will redeem at June 23, 2007 the principal amount of R\$71,100 in each redemption, updated by the reference yield, and will redeem the remaining balance of R\$167,893 (R\$311,241 December 31, 2005) at the end of the fund's term. The series A quotaholders will redeem their quotas only at the end of the fund's term, the amount of which at December 31, 2006 corresponds to R\$495,131 (R\$427,371 December 31, 2005) (Note 13).

Subordinated quotas are non-transferable and registered, and were issued in a single series. The Company will redeem the subordinated quotas only after the redemption of senior quotas or at the end of the fund's term. Once the senior quotas have been remunerated, the subordinated quotas will receive the balance of the fund's net assets after absorbing any loss on the credit rights transferred to the fund and any losses attributed to the fund. Their redemption value is subject to credit, prepayment, and interest rate risks on the transferred financial assets.

The holders of senior quotas have no recourse against the other assets of the Company in the event customers default on the amounts due. As defined in the agreement between the Company and PAFIDC, the transfer of credit rights is irrevocable, non-retroactive and the transfer is definitive and not enforceable against the Company.

The PAFIDC financial statements for the years ended at December 31, 2006 and 2005 were audited by other independent auditors and are consolidated into the Company's financial statements. In the year ended at December 31, 2006, total assets and net income of this investee represent 7.9% and 39.2%, respectively, in relation to the Company's consolidated financial statements (8.5% and 10.7% of total assets and net income, respectively, compared to the Company's consolidated financial statements in the year ended at December, 31, 2005).

### c) Investment agreement CBD and Sendas

In February 2004, based on the Investment and Association Agreement, the companies CBD and Sendas S.A. constituted, by means of transfer of assets, rights and obligations, a new company known as Sendas Distribuidora S.A., with the objective of operating in the retailing market in general, by means of the association of operating activities of both networks in the state of Rio de Janeiro. CBD's indirect interest in Sendas Distribuidora at December 31, 2006 corresponded to 42.57% of total capital. It is incumbent upon CBD's Board of Executive Officers to conduct the operating and administrative management of Sendas Distribuidora, in addition to its prevailing decision when electing or removing executive officers.

Pursuant to its Shareholders' Agreement, Sendas S.A. may at any time as from February 1, 2007 exercise the right to barter its paid-in shares or a portion thereof, for preferred shares of CBD. At December 31, 2006, Sendas S.A. held 42.57% shareholding in the total capital of Sendas Distribuidora, 23.65% of which already paid-in and 18.92% to be paid-in.

Should Sendas S.A. exercise such right to barter, CBD will comply with the obligation, by means of one of the following:

- i. To conduct the share barter trade for the value of transfer (\*);
- ii. To purchase the shares on which the barter rights have been exercised in cash, for the value of transfer (\*);
- iii. To adopt any corporate procedure (CBD capital increase, merger of shares as per article 252 of the Corporate Law, or any other);

(\*) Value of transfer will be the value of the paid-in shares (23.65% at December 31, 2006 and 2005), which must be the higher between the two options below, limited to CBD's market value:

- Price of shares calculated based on the company's valuation to be calculated by acknowledged investment bank;
- Price of shares calculated based on the company's valuation, equivalent to forty per cent (40%) on gross sales of Sendas Distribuidora in the 12 (twelve) months preceding the acquisition date.

CBD's Preferred shares, issued to meet the barter, only may be sold according to the following dates:

- Between February 1, 2007 and January 31, 2010: one third (1/3) of CBD preferred shares;
- Between February 1, 2010 and January 31, 2013: one third (1/3) of CBD preferred shares; and
- As from February 1, 2013: the remaining CBD preferred shares still held by Sendas S.A.

At September 16, 2005, Sendas S.A. and CBD and its subsidiaries entered into the 2<sup>nd</sup> Addendum and Ratification of Shareholders' Agreement of Sendas Distribuidora, which resolved on:

- The adoption of new proportionality when appointing Board of Directors members, being CBD then entitled to appoint 7 out of the 13 members to be elected;
- Restrict the veto right of Sendas S.A. only as to the amendment to the purpose of the Company;

### c) Investment agreement CBD and Sendas (Continued)

The postponement of the additional term ("second term") of payment of class A preferred shares not paid-in by Sendas S.A., for a period to end at February 28, 2014. During this second term, the payment only may be made in cash, especially by means of utilization of dividends paid by the Company to Sendas S.A. After such term, should payment do not occur, such shares will be cancelled.

At October 19, 2006, Sendas S.A. manifested in writing to CBD the wish to exercise the put option, pursuant to Clause 6.7 of Sendas Distribuidora Shareholders Agreement, related to the transfer of equity control. CBD, understanding that a sale of control was not held, sent a counter-notice to Sendas S.A.

At October 31, 2006, CBD was notified by the *Câmara de Conciliação e Arbitragem da Fundação Getulio Vargas FGV* (Chamber of Conciliation and Arbitration of the Getulio Vargas Foundation) that Sendas S.A. has filed an appeal and brought the matter to arbitration, authority expected to discuss such matter.

At January 5, 2007, Sendas S.A. notified CBD, expressing the exercise of right to swap the totality of paid-up shares owned thereby with preferred shares of CBD's capital stock, provided for in Clause 6.9.1 of Shareholders Agreement of Sendas Distribuidora, subjecting the effectiveness of swap to the award of arbitration mentioned above not to acknowledge the put exercise right on the part of Sendas.

At March 13, 2007, CBD and Sendas entered into an Arbitration Commitment, commencing the arbitration proceeding.

#### (i) *CADE (Administrative Council for Economic Defense)*

On March 5, 2004, Sendas Distribuidora shareholders entered into an Operation Reversibility Agreement related to the association between CBD and Sendas S.A. in the state of Rio de Janeiro. This agreement establishes conditions to be observed until the final decision on the association process, such as: a) the continuance, totally or partially, of the stores under Sendas Distribuidora responsibility; b) maintenance of the work posts in accordance with the average gross revenue by employee of the five largest supermarket chains; c) non-reduction of the term of current lease agreements.

Shareholders are waiting for the conclusion of the process, however, based on the opinion of their legal advisors and on the normal procedural steps of the process, they believe that the association will be approved by the CADE.

#### (ii) *Capital subscription by the AIG Group*

At November 30, 2004, shareholders of Sendas Distribuidora and investment funds of the AIG Group ("AIG") entered into an agreement through which AIG invested the amount of R\$135,675 in Sendas Distribuidora, by means of subscription and payment of 157,082,802 class B preferred shares, issued by Sendas Distribuidora, representing 14.86% of its capital. Sendas Distribuidora total capital.

According to the above mentioned agreement, CBD and AIG mutually granted reciprocal call and put options of the shares purchased by AIG in Sendas Distribuidora, which may be exercised within approximately 4 years.

Upon exercising the referred options, the shares issued by Sendas Distribuidora to AIG will represent a put against CBD which may be used to subscribe up to three billion preferred shares to be issued by CBD in a future capital increase.

The price of the future issuance of CBD preferred shares will be set based on market value at the time of issuance, and the intention is allowing the payment by AIG in the maximum quantity referred to above. If the AIG value of Sendas Distribuidora's shares results in more than the value of three billion shares of CBD, CBD will pay the difference in cash.

The exit of AIG from Sendas Distribuidora is defined based on the Exit Price, the calculation is based on the Earnings Before Interest, Tax, Depreciation and Amortization - EBITDA, EBITDA multiple and the net financial indebtedness of Sendas Distribuidora. This exit price will give AIG the right to purchase CBD preferred shares according the criteria below:

- Should the exit price be lower than the equivalent to two billion CBD preferred shares (at market value on the occasion), the number of shares to be issued will be defined by the exit price divided by the CBD preferred share market value;
- Should the exit price exceed the equivalent to two billion CBD preferred shares (at market value on the occasion), the number of shares to be issued will be, at CBD discretion, a minimum of two billion shares and a maximum of three billion shares, and the difference between the exit price and the amount equivalent to the number of CBD preferred shares issued (defined by CBD) will be paid in cash.

At December 31, 2006, total AIG shareholding represented a credit of R\$151,157 (R\$97,212 December 31, 2005), which, converted to the average quotation of the last week of December 2006 of CBD shares in the São Paulo Stock Exchange (BOVESPA), would be equivalent to a total of 2,181,516,928 shares (1,328,390,000 shares - December 31, 2005) of the Company (1% of its capital).

### d) Investment agreement CBD and Itaú

d) Investment agreement CBD and Itaú (Continued)

At December 22, 2005, an amendment to the partnership agreement between CBD, Itaú and FIC was signed, and the clauses referring to meeting of performance goals, initially established, were changed. By such amendment, the meeting of goals and the guarantee account are not longer tied, and fines for noncompliance of said goals were set out. In 2006, the Company recognized the remaining amount of R\$58,151 (R\$38,140 in 2005) under non-operating results, due to the fulfillment of certain performance goals during the year.

This partnership is effective for 20 years, and may be extended for an indeterminate term. The operational management of FIC is under the responsibility of Itaú.

**13. Loans and Financing (Continued)**

The Company uses swaps operations to switch obligations from fixed interest rate in U.S. dollar to Brazilian real related to CDI (floating) interest rate. The Company entered, contemporaneously with the same counterparty, into cross-currency interest rate swaps and has treated the instruments on a combined basis as though the loans were originally denominated in *reais* and accrued interest at floating rates.

The annualized CDI benchmark rate at December 31, 2006 was 15.0% (18.0% at 12/31/2005).

**(i) Working capital financing**

Obtained from local banks and part of it is used to fund customer credit (the remaining balance not granted to PAFIDC), or originated from needs of financing of CBD growth. This is made without guarantees, but endorsed by CBD in case of Sendas Distribuidora.

**(ii) BNDES credit line**

The line of credit agreements, denominated in *reais*, with the Brazilian National Bank for Economic and Social Development (BNDES), are either subject to the indexation based on TJLP rate (long-term rate), plus annual interest rates, or are denominated based on a basket of foreign currencies to reflect the BNDES funding portfolio, plus annual interest rates. Financing is paid in monthly installments after a grace period, as mentioned below.

The Company cannot offer any assets as collateral for loans to other parties without the prior authorization of BNDES and is required to comply with certain debt covenants, calculated on the consolidated balance sheet, in accordance with Brazilian GAAP, including: (i) maintenance of a capitalization ratio (shareholders' equity/total assets) equal to or in excess of 0.40 and (ii) maintenance of a current ratio (current assets/current liabilities) equal to or in excess of 1.05. Management effectively controls and monitors covenants, which were fully performed. The parent company offered pledges as a joint and several liable party for settlement of the agreements.

## 16. Provision for Contingencies (Continued)

### a) Taxes

Tax-related contingencies are indexed to the SELIC (Central Bank Overnight Rate), (14.9% in 2006 and 19.1% in 2005) and are subject, when applicable, to fines. In all cases, both interest charges and fines, when applicable, have been computed with respect to unpaid amounts and are fully accrued.

### COFINS and PIS

In 1999, the rate for COFINS increased from 2% to 3%, and the tax base of both COFINS and PIS was extended in 1999 to encompass other types of income, including financial income. The Company is challenging the increase in contributions of COFINS and the extension of base of such contributions. Provision for COFINS and PIS includes unpaid amounts, monetarily restated, resulting from the lawsuit filed by the Company and its subsidiaries, claiming the right to not apply Law 9,718/98, permitting it to determine the payment of COFINS under the terms of Complementary Law 70/91 (2% of revenue) and of PIS under Law 9,715/98 (0.65% of revenue) as from February 1, 1999. The lawsuits are in progress at the Regional Federal Court, and up to this moment, the company has not been required to make judicial deposits.

As the calculation system of such contributions started to use the non-cumulative tax principle, starting by PIS as from December 1, 2002, with the Law 10,637/02 and COFINS, as from February 2004 by means of Law 10,833/03, the Company and its subsidiaries then started to apply said rules, as well as, to question with the Judiciary Branch, the extension of tax base of such contributions, aiming at continuing its application by the concept of sales results, as well as the appropriation of credits not accepted by laws and that the Management understands to be subject to appropriation, such as financial expenses and third parties expenses. The provision recorded in the balance sheet includes the unpaid installment, monetarily restated. In addition, the company challenges the limit of percentage and the term for appropriation of COFINS credit over the initial inventory carried with the Law 10,833/03, recording in its balance sheet the difference of appropriated credit under such rule by virtue of judicial authorization. There are no judicial deposits for such discussions.

The Company has another discussion stemming from the merged company Cia. Pernambucana de Alimentos - CIPAL, as to the tax base applied to PIS and COFINS contributions. We discuss the application of gross income as tax base, booking in its balance sheet the restated difference between the amounts paid and the basis provided for by Law 9,718/98, in the amount of R\$7,606. Said discussion has no judicial deposit.

The subsidiary Sé obtained on September 22, 2006, final favorable ruling regarding the questioning linked to the broadening of COFINS and PIS tax base, as provided for by Law 9,718/98. Thus, provisions were reversed in the amount of R\$8,874 and R\$921, respectively, on that date.

### Other

The Company and its subsidiaries have other tax contingencies, which after analysis of its legal counsels, were deemed as probable losses: a) lawsuit questioning the non-levy of IPI over codfish imports, which awaits decision by appellate court judge; b) federal administrative assessment about the restatement of equity accounts by an index higher than that accepted by tax authorities, which awaits decision by administrative appellate court judge ( Summer Plan ); c) administrative assessment referring to the collection of debts of withholding IRPJ (corporate income tax), PIS and COFINS, which also awaits decision by administrative appellate court judge; d) administrative assessment due to offsetting of INSS credit verified by the company under the viewpoint of undue payment over

allowance not provided for by law, in progress in administrative lower court. The amount recorded in accounting books for such issues is R\$17,094. The Company has no judicial deposits related to such issues.

### b) Labor claims

The Company is party to numerous lawsuits involving disputes with its employees, primarily arising from layoffs in the ordinary course of business. At December 31, 2006, the Company recorded a provision of R\$42,708 (R\$44,567 at December 31, 2005) for contingencies related to labor claims, which are in progress mostly at lower courts (nearly 80%). Management, assisted by its legal counsels, evaluates these contingencies and provides for losses where probable and reasonably estimable, bearing in mind previous experiences in relation to the amounts sought. Labor claims are indexed to the TR (Referential Interest Rate) (2.0% in 2006 and 2.8% in 2005) plus 1% monthly interest. The earmarked judicial deposits amount is R\$36,715.

### c) Civil and other

The Company is a defendant, at several judicial levels, in lawsuits of civil natures, among others. The Company's Management sets up provisions in amounts considered sufficient to cover unfavorable court decisions when its internal and external legal counsel consider losses to be probable.

Among these lawsuits, we point out the following:

The company brought a writ of mandamus in order to be entitled to not pay the contributions provided for by Complementary Law 110/2001 related to the FGTS (Government Severance Indemnity Fund for Employees) financing. The company obtained a preliminary injunction recognizing the right of not paying such contributions. Subsequently, this preliminary injunction was reversed, determining the judicial deposit of unpaid amounts during the effectiveness period of the preliminary injunction. The enforceability of tax credit is suspended in view of appeal filed, which awaits decision by the Regional Federal Court. The amount accrued is R\$43,156 (R\$32,102 at December 31, 2005) and the Company effected a R\$4,061 judicial deposit, protecting the period in which it was not covered by the preliminary injunction.

The Company is challenging the constitutionality of the contribution to SEBRAE and requested, by means of a writ of prevention, the payment of the restated credit of amounts paid, through the offsetting of the balances payable to SESC (Social Service for Trade) and SENAC (National Service for Commercial Training). The company was granted the right of not paying the falling due contributions, inasmuch as it provides for the judicial deposits, as usual. The writ of prevention was filed and the Company's legal advisors have obtained a Declaratory Action at lower court of appeals maintaining the proceeding. The accrued amount is R\$31,122 (R\$24,386 at December 31, 2005), and judicial deposit in the amount of R\$30,825.

The Company by means of a writ of mandamus is challenging the constitutionality of the FUNRURAL (Rural Workers Assistance Fund) for companies located in urban areas. The lawsuit is in progress at the Regional Federal Court and the amount of the provision is R\$30,516 (R\$ 27,219 at December 31, 2005). There is no judicial deposit for such proceeding.

## 16. Provision for Contingencies (Continued)

### c) Civil and other (Continued)

The Company files and answers various lawsuits in which it requests the review of lease amounts paid by the stores. In these lawsuits, the judge determines a provisional lease amount, which then is paid by the stores, until report and decision define the final lease amount. The set up provision of difference between the amount originally paid by the stores and that defined provisionally in these lawsuits. At December 31, 2006 the accrual amount for these lawsuits is R\$11,507 (R\$8.144 at December 31, 2005).

### d) Possible losses

The Company has other contingencies which have been analyzed by the legal counsel and deemed as possible but not probable; therefore, have not been accrued, at December 31, 2006, as follows:

*INSS (Social Security Tax)* the Company was served notice regarding the non-levy of payroll charges on benefits granted to its employees, and the loss, considered possible, amounts to R\$106,117 (R\$121,572 at December 31, 2005). This lawsuit is under discussion in the administrative lower court and there is no judicial deposit.

*Income tax* the Company was served tax assessment notice in relation to exclusion from the IRPJ (Corporate Income Tax) tax base of accounts payable regarding certain taxes with suspended enforceability, which, from the tax authorities point of view, should not have been excluded, which awaits decision by administrative appellate court judge and possible loss concerning said notice amounts to R\$ 40,088 (R\$ 36,985 at December 31, 2005), with no judicial deposit up to this moment.

*Other contingencies* They are related to lawsuits under the civil court scope, special civil court, Consumer Protection Agency PROCON (in many states), Weight and Measure Institute IPEM, National Institute of Metrology, Standardization and Industrial Quality INMETRO and National Health Surveillance Agency ANVISA, in great majority related to suits for damages, amounting to R\$ 52,404 (R\$25,483 at December 31, 2005). There are also (a) other lawsuits related to the FINSOCIAL (Tax for Social Security Financing) at the amount of R\$18,495; (b) administrative assessments related to divergences verified in Statement of federal tax debits and credits DCTF and Statement of economic and fiscal information of legal entities DIPJ, lack of payment and offsetting questioned for the purposes of IRPJ, PIS, COFINS and FINSOCIAL in the amount of R\$42,917, which await decision in administrative lower and appellate courts; (c) and tax assessments notices in the State level, regarding the use of ICMS credits related to electricity, suppliers believed to be disreputable by the tax authorities, among others, that are in progress in administrative lower court and amount to R\$104,235 (R\$70,393 at December 31, 2005). For these and other lawsuits with non-significant individual amounts, there are no judicial deposits.

The Company was served notice in a State level as to the ICMS, related to purchase, manufacturing and sale transactions for export purposes of soybean and its byproducts, in which, in the tax authorities understanding, the circulation of goods did not take place. The amount of such notices was R\$450,611 (updated as of September 30, 2006) including fine and interest rates, and the loss was deemed by our legal counsel as possible and remote.

On October 17, 2006, the Company obtained partial won on this matter by the Tax Court (*Tribunal de Impostos e Taxas - TIT*), which reduced the total amount to R\$266,909, updated until October 31, 2006. On October 31, 2006, Company's management opted to adhere to the state tax amnesty program, ruled

by Law 12,399/06, sanctioned by the São Paulo State Governor, which granted, partial and substantially, amnesty on the payment of fine and interest for fiscal debts deriving from taxable events related to the ICMS, which took place until December 31, 2005. In this way, the Company settled the payment of the full amount of debts, on October 31, 2006, which after the 90% granted reduction in the amount of fines and of 50% in the amount of interests, reached the final sum of R\$96.771.

In accordance with the systematical interpretation of the sole paragraph of article one, of Law 12,399/06, above mentioned, the taxpayer's adhesion to such amnesty program does not implicate in waiver of rights, thus, not allowing its use as reasoning or grounds to the questioning of any other fiscal demand.

Regarding the Federal level, the Company was served notice regarding these operations, in relation to PIS, COFINS and income tax. The installment was classified by our legal counsel as probable, which has been accrued, amounting to R\$7,485 and as possible, amounting to R\$161,191. Such lawsuits are being discussed in the administrative level and there are no judicial deposits related to them.

*ICMS* In December 2006, after the conclusion of the inspection process for the year 2001, the Company was served notice by the São Paulo State Treasury.

The tax assessment refers to the recovery of tax replacement pursuant to the Ordinance CAT 17/99. The tax authorities understood that the Company was not complying with ordinances 63/99 and 99/05 dealing with ancillary liabilities to recovery. According to our attorneys, the possible losses amount to R\$226,659.

Occasional adverse changes in the expectation of risk of the referred to lawsuits may require that additional provision for contingencies be set up.

e) Appeal and judicial deposits

The Company is challenging the payment of certain taxes, contributions and labor-related obligations and has made court escrow deposits (restricted deposits) of equivalent amounts pending final legal decisions, in addition to collateral deposits related to provisions for judicial suits.

b) Breakdown of deferred income and social contribution taxes (Continued)

(ii) At December 20, 2006, at Extraordinary General Meeting, the Company's shareholders approved the merger operation of its parent company Vieri.

Said merger aimed at streamlining the corporate structure comprised by Casino Group and Diniz Group, CBD and its subsidiaries will result in financial and tax benefits to CBD, as shown below:

- The goodwill originally recorded by Vieri Brasil and attributed to the expectation of CBD's future results, deriving from the acquisition of shares issued by CBD, in the amount of R\$2,061,951, which after the merger is then amortized on a tax basis within ten years by CBD, pursuant to the prevailing tax laws and without impact on CBD's flow of dividends.
- Vieri, in compliance with CVM Ruling 349, set up a provision, prior to its merger by CBD, in the amount of R\$1,546,463, corresponding to the difference between the goodwill value and the tax benefit resulting from its amortization, so that CBD merged only the asset corresponding to the tax benefit derived from the goodwill amortization to be deductible for tax purposes. Said provision will be reversed in same proportion in which the goodwill is amortized by CBD, therefore, not affecting the results of its operations.
- The goodwill special reserve set up at CBD, as a result of such merger, as provided for by provision in paragraph 1 of article 6 of the CVM Ruling 319, will be at the end of each fiscal year and to the extent in which the tax benefit to be determined by CBD, as a result of goodwill amortization, represents an effective decrease of taxes paid by CBD, purpose of capitalization at CBD, to the benefit of controlling shareholders, without prejudice to the preemptive right ensured to other CBD's shareholders in the subscription of capital increase resulting from said capitalization, all pursuant to article 7, *caput* and paragraphs 1 and 2 of CVM Ruling 319.
- The merger by CBD of Vieri's assets and liabilities at December 20, 2006, resulted in an addition to the Company's shareholders' equity, corresponding to the goodwill special reserve, as outlined in the Note 18 (c) as follows:

Incorporated Balances

Cash	37
Goodwill of merged parent company	2,061,951
Provision for shareholders' equity entirety	(1,546,463)
Deferred income tax	1,806
 Total net assets	 517,331

The provision for maintenance of shareholders' equity entirety accounts for 75% of goodwill value merged. Such provision aims at preserving the flow of net income distribution to shareholders, neutralizing the effects of goodwill amortization in the flow of dividends to be paid in the future.

**17. Income and Social Contribution Taxes (Continued)**b) Breakdown of deferred income and social contribution taxes (Continued)

In order to enable a better presentation of the financial statements, the goodwill net value less provision of R\$515,488, which substantially represents the tax credit balance, plus the amount of R\$1,806, was classified as deferred income tax.

The Company prepares annual studies of scenarios and generation of future taxable income, which are approved by Management and by the Board of Directors, indicating the capacity of benefiting from the tax credit set up.

Based on such studies, the Company estimates that the recovery of tax credits will occur in up to ten years, as follows:

The capital increase will be subject to the preemptive right of non-controlling shareholders, in the proportion of their respective interest, by type and class, at the time of the issue, and the amounts paid in the year related to such right will be directly delivered to the controlling shareholder, pursuant to provision in CVM Ruling 319/99.

g) Preferred stock option plan

The Company offers a stock option plan for the purchase of preferred shares to management and employees. The exercise of options guarantees the beneficiaries the same rights granted to the Company's other shareholders. The management of this plan was attributed to a committee designated by the Board of Directors.

The option price for each lot of shares is, at least, 60% of the weighted average price of the preferred shares traded in the week the option is granted. The percentage may vary for each beneficiary or series.

The right to exercise the options is acquired in the following manner and terms: (i) 50% in the last month of the third year following the option date (1<sup>st</sup> tranche) and (ii) 50% in the last month of the fifth year following the option date (2<sup>nd</sup> tranche), with the condition that a certain number of shares will be restricted as to sale until the date the beneficiary retires.

The price of option from the date of concession to the date of exercise thereof by the employee is updated by reference to the General Market Price Index - IGP-M variation, less dividends attributed for the period.

The price per each Gold-type thousand shares will correspond to R\$0.01. In both bases, the prices will not be restated.

The acquisition of rights to the options exercise will occur as follows in the following term: as from the 36<sup>th</sup> month to 48<sup>th</sup> month as from the start date defined as the date of the adhesion agreement of respective series or fulfillment of any suspensive condition of its effectiveness to be defined by the Committee, the beneficiary will acquire the right to exercise: a) 100% of granting of Silver-type shares; b) the quantity of lots of Gold-type shares to be determined by the Committee, after the compliance with granting conditions.

**20. Financial Instruments**a) General considerations

Management considers that risk of concentration in financial institutions is low, as operations are limited to traditional, highly-rated banks and within limits approved by the Management.

b) Concentration of credit risk

The Company's sales are direct to individual customers through post-dated checks, in a small portion of sales (2% of yearly sales). In such portion, the risk is minimized by the large customer base. These receivables are also mostly sold to PAFIDC without right of recourse.

The advances to suppliers are made only to selected suppliers. We do not have credit risk with suppliers, since we discount only own payments of goods already delivered.

In order to minimize credit risk from investments, the Company adopts policies restricting the marketable securities that may be allocated to a single financial institution, and which take into consideration monetary limits and financial institution credit ratings.

c) Market value of financial instruments

Estimated market value of financial instruments at December 31, 2006 approximates market value, reflecting maturities or frequent price adjustments of these instruments, as shown below:
