### GPA Food

Gross sales revenue increased 10.6% over 1Q12. In addition to the same-store sales performance, detailed below, the opening of new stores, which continues at a fast pace, was a highlight. In 1Q13, 19 new stores were opened.

On a same-store basis, gross sales revenue increased 6.4%. This growth pace was achieved despite the strong comparison base and one less sales day (2011 was a leap year). In real terms, deflated by the IPCA inflation index, same-store sales decreased 0.2%.

4 Retail: gross sales revenue up 7.7%. The highlights were:

§ Sales growth in the quarter, led by the categories of meat; fruits and vegetables; as well as categories that benefited from sales associated with Easter – grocery and seafood. However, sales of electronics and home appliances, sold under the Extra banner, usually in hypermarkets, decreased due to the strong comparison base in 1Q12, impacting the growth in Non-Food categories;

§ The Pão de Açúcar banner, which posted a solid performance in fruit, organic foods and fish, and Minimercado Extra, which continued to post double-digit same-store sales growth;

§ The calendar effect due to Easter, which had a positive impact as the entire holiday sales period fell within the quarter, while last year a portion of sales was concentrated in April. The impact on the quarter, however, was partially offset by the comparison with a leap year, which resulted in one less day of sales in 1Q13;

§ The announcement by the federal government of tax rate cuts on certain basic products in the meat, fruit, vegetables and personal care categories. The measure aims to reduce the retail price and consequently increase consumers' purchasing power.

§ Organic growth: opening of 12 Minimercado Extra, two Extra Supermercado, one gas station and one drugstore in 1Q13.

4 Cash-and-carry: gross sales revenue up 26.1%, driven mainly by:

§ Double-digit gross sales revenue growth on a same-store basis, supported by the growth in average ticket. The growth is consequence of the adjustments made to serve the target public of the banner – processors, resellers and users – and the opening of three Assaí stores in 1Q13.

4 Real estate projects: no revenue from real estate projects was recognized in the results of the Company in 1Q13.

## **GPA Consolidated**

Gross sales revenue totaled R\$14.984 billion, up 9.7% over 1Q12. Same-store sales increased 6.6%, driven by the performance of Food Retail, as mentioned above, coupled with the performance of the electronics and home appliance brick-and-mortar stores, led by Pontofrio, which posted above-average same-store sales growth.

Growth was also driven by the Company's accelerated organic growth pace. A total of 28,000 square meters of sales area were added in the period through the opening of 25 stores, bringing the number of new stores opened in the last 12 months to 125.

The Group's new e-commerce platform was launched in early March: Extra Marketplace, Brazil's first online "shopping mall", which will be operated through Extra.com.br (website with average daily traffic of more than 1 million visitors). This initiative increased the number of products in the e-commerce platform from 120,000 items in March to 200,000 items in April. It is expected to reach 600,000 items by December. The project's initial investment was R\$ 10 million and more than 30 partners signed up in its first month.

As of 4Q12, the result of Equity Income and Other Operating Income (Expenses) were included along with Total Operating Expenses in the calculation of EBITDA. This means that the calculation of EBITDA is now in accordance with Instruction 527 issued by the Securities and Exchange Commission of Brazil (CVM) on October 4, 2012. In 1Q13, the depreciation recognized in cost of goods sold, formed essentially by the depreciation of distribution centers, began to be specified in the calculation of EBITDA. The reconciliation is available on page 5 of this release.

## **GPA Food**

EBITDA increased 6.2% to R\$518 million, while EBITDA margin declined 30 basis points to 7.0%.

4 Retail: 10 basis-point EBITDA margin decline due to:

§ Gross margin increase of 10 basis points to 27.9%. The margin increase is due to improved sales mix and to the lower growth in lower-margin categories as electronics and beverages. For fruits, vegetables and other commodities, a trade-up to organic items and other items of higher added value was observed;

§ Restructuring of GPA Food: since late 2011, the Company has been conducting a process to reorganize its corporate structure by reassessing its activities and processes to make the Company leaner, simpler and give it a more agile decision-making process, while also enabling the capture of synergies and efficiency gains in the processes common to the various businesses. The processes resulted in headcount reductions in the executive team, a process that incurred expenses of R\$13 million.

Adjusted for nonrecurring effects, EBITDA was R\$537 million, with EBITDA margin stable at 7.3%. Over the course of the year, the Company expects to reverse gains from expenses reduction through the pricing of goods, and thus attract more consumers to their stores and increase market share.

4 Cash-and-carry: EBITDA margin declined 100 basis points over 1Q12, to 2.8%, due to:

§ Gross margin decline of 120 basis points, mainly due to the opening of three Assaí stores. Moreover, to support the strategy of expanding the banner into new regions and increasing customer traffic in stores, Assaí adopted most competitive prices, which led to temporary margin contraction at the newly opened stores in these regions. In the past six months, Assaí started operations in three new states and should start operations in other three in 2Q13;

§ More competitive pricing. The sustainable repositioning of prices will be enabled by the strict control of operating expenses. With stronger sales, Management expects to increase the return on invested capital for both the format and the Company;

§ Decrease of 20 basis points in operating expenses as a percentage of net sales revenue, driven by the rationalization of selling expenses, which grew at a slower pace than revenue. The new model aims to keep operating expenses at low levels.

## GPA Consolidated

EBITDA was benefited from lower operating expenses, particularly in General and Administrative Expenses at Viavarejo. EBITDA margin was stable at 6.4%. This decrease at Viavarejo is related to the reorganization carried out by the Company in 1Q13, which also impacted the food retail operation, as mentioned above, which focused primarily on boosting competition through a leaner structure and by implementing a more agile decision-making process.

Gross margin declined 30 basis points, mainly due to the Company's strategy to boost the competition of its cash-and-carry stores, which since 2012 has posted gross margin compression along with declines in expenses, as mentioned above.

### EBITDA Reconciliation

As from 1Q13, the EBITDA reported by the Company is no longer considering the depreciation allocated to cost of goods sold, essentially related to distribution centers. To allow the comparability of the Company's future results, we present the 2012 EBITDA with the same EBITDA reconciliation adopted as of this quarter.

### GPA Food

In 1Q13, the net financial income was an expense was R\$108 million, down 24.0% over 1Q12 despite the 10.6% growth in gross sales revenue in the quarter, and accounted for 1.5% of net sales revenue. The improvement in the net financial income was mainly due to the effects from the lower Selic base interest rate, especially as of late 2011, and to control over the customer receivables, which impacted the Company's results as detailed below:

§ R\$ 61 million in charges on net bank debt, down 19.0% over 1Q12;

§ R\$ 23 million in cost of discount of receivables, which corresponded to 0.3% of net sales revenue (compared to 0.5% in 1Q12). In view of the restructuring of receivables funds previously used for credit rights transfer of accounts receivable with credit cards, in 1Q13 the Company sold and transferred its total credit card receivables directly to operators or banks, without any right to return or obligation related. The average rate for these sale operations was 108.5% of CDI. The volume of discounted receivables amounted to R\$2.8 billion;

§ R\$ 24 million in restatement of other liabilities and assets, down 41.1% over 1Q12, due to higher financial income from supplier payment anticipation.

## GPA Consolidated

In 1Q13, the net financial income was an expense of R\$ 254 million, down 24.2% over 1Q12, and account for 1.9% of net sales revenue, down 90 basis points over 1Q12. The main impact came from the reduction in expenses with the discount of receivables and with charges on net debt, which resulted from the lower base interest rate and better management of the payment conditions offered to clients.

### GPA Food

On March 31, 2013, GPA Food's gross debt totaled R\$6.429 billion, down R\$272 million from December 2012. The decline was due to the payment of the 6<sup>th</sup> series of debentures of approximately R\$ 270 million. As mentioned in the 4Q12 earnings release, the Company expects to reduce its debt level over the course of the year.

Most of the debt is still concentrated in the long term. More than 65% is maturing in over 12 months. Net debt rose from R\$2.196 billion at the end of 4Q12 to R\$2.875 billion at the end of 1Q13, due to the seasonality of the quarter, which typically leads to lower cash positions in relation to the end of 4Q12. The net debt/EBITDA ratio stood at 1.24x at the end of March.

## GPA Consolidated

Net debt, including Viavarejo's payment book operation, amounted to R\$4.168 billion at the end of March. The net debt/EBITDA ratio stood at 1.10x, with a longer maturity profile and net reserves in excess of R\$6 billion. In 1Q12, The net debt/EBITDA ratio stood at 1.51x. Excluding payment-book debt, the net debt/EBITDA ratio stood at 0.42x.

## GPA Malls & Properties

GPA Malls & Properties (GPA M&P) is the operation responsible for managing the real estate assets of Grupo Pão de Açúcar, which supplements the results of the retail operation by managing the leasable space of the Company's properties. Its activities also include managing the Group's expansion projects by prospecting, negotiating and installing new stores.

The projects scheduled for 2013 focus on the development and revitalization of commercial centers that draw on a new concept for shopping and convenience. The objective is to boost recurring lease revenue and increase traffic in stores that have area for commercial centers.

In 2012, the unit generated R\$153 million in gross sales revenue from three real estate projects in partnership with construction companies, which involved land swap agreements for installing commercial and residential buildings connected with the retail space.

Operating profit before income tax amounted to R\$239 million in 1Q13, up 20.7% over the prior-year period. The result reflects (i) the Company's sales growth (supported by the organic expansion in recent quarters); (ii) more efficient control of expenses in all businesses; and (iii) significant improvement in financial expenses. Net income increased 19.5% to R\$ 176 million.

In the quarter, the Company incurred nonrecurring expenses related to (i) indemnity liabilities related to contingencies at the Pontofrio operation prior to the association with Casas Bahia in 4Q10, in the amount of R\$7 million; and (ii) impacts on the result amounting to R\$13 million arising from the restructuring carried out by the Company in the first quarter. ### **GPA Food**

The cash position at the end of March was R\$3.553 billion, which represents a decrease of R\$952 million in 1Q13, composed as follows:

- Payments which totaled R\$ 616 million, of which about R\$340 million was related to the maturity of the 6<sup>th</sup> series of debentures (principal and interest) and R\$ 229 million was used for investments made in the period. No new debt was issued in the quarter.
- Cash flow from the operating activities, which demanded additional R\$336 million, mainly due to the higher working capital typically observed in the first quarter in the segment (caused by seasonal factors at the end of the year due to Christmas).

### **GPA Consolidated**

At the end of 1Q13, the cash position amounted to R\$6.002 billion, down R\$1.084 billion from the cash position at the start of the quarter. The positive cash generation from operating activities in Viavarejo was a highlight, which partially offsets the seasonal working capital in GPA Food (mentioned above).

## SUBSEQUENT EVENTS

### **Brazil's antitrust agency approves the association between Pontofrio and Casas Bahia**

On April 17, the Company executed a Settlement (*Termo de Compromisso de Desempenho - TCD*) with Brazil's antitrust agency CADE (*Conselho Administrativo de Defesa Econômica*) for approval of the Association Agreement entered into between Grupo Pão de Açúcar and Casa Bahia Comercial Ltda. The TCD mandates the divestment of 74 Viavarejo stores in 54 cities distributed across six states and the Federal District, which jointly represented approximately 3% of the consolidated gross sales of Viavarejo in 2012.

The approval concludes the obligations assumed under the provisional agreement (*Acordo de Preservação de Reversibilidade da Operação - APRO*) executed on 2010, allowing Viavarejo to fully capture all synergies arising from the association.
