NOTICE TO THE MARKET

São Paulo, January 20, 2015 - Braskem (BM&FBovespa: BRKM5, BRKM3, BRKM6; NYSE: BAK; LATIBEX: XBRK) announces to its shareholders and the market that its production was not affected by the variation in load of the Brazilian electricity grid that occurred on this Monday afternoon, January 19, 2015.

In addition, the Company informs that, despite the presidential veto to the article in the Provisional Measure (MP) 656/14 regarding the extension of the Chesf's electricity supply contract with Northeast industries, the federal government announced that it will discuss alternatives with the electro-intensive industry until the expiration of the current contract in June 2015.

In this context, Braskem will seek a solution that ensures the competitiveness of energy costs and the viability of its electro-intensive operations in the Northeast region of Brazil.

For more information, contact Braskem's Investor Relations Department by calling +55 (11) 3576-9531 or sending an e-mail to braskem-ri@braskem.com.br.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
