Coca-Cola FEMSA granted RobecoSAM's Industry Mover Sustainability Award 2015

Mexico City, Mexico – January 22, 2015 – Coca-Cola FEMSA, S.A.B. de C.V. (BMV: KOFL; NYSE: KOF) (“Coca-Cola FEMSA” or the “Company”), the largest public bottler of Coca-Cola products in the world, announced today that it has been granted the Industry Mover award as part of RobecoSAM's 2015 “The Sustainability Yearbook”.

In September of 2014, Coca-Cola FEMSA was included for the second consecutive year as a member of the Dow Jones Sustainability Index for Emerging Markets. As one of the top-scoring companies in the beverage industry, it has gained a membership in RobecoSAM's 2015 “The Sustainability Yearbook”, the world's most comprehensive publication on corporate sustainability. Every year since 2004, The Sustainability Yearbook has listed the world's most sustainable companies in each industry as determined by their score in RobecoSAM's annual Corporate Sustainability Assessment (CSA).

Coca-Cola FEMSA has been granted the 2015 Industry Mover award for its excellent performance in sustainability. This recognition stands out as it is the first time that a Mexican company participates as a member of The Sustainability Yearbook and also the first time that a Mexican corporate receives RobecoSAM's Industry Mover Sustainability Award.

“We are honored to have been granted such an important award, recognizing our continuous efforts to simultaneously generate economic, social and environmental value in the communities where we operate. As members of the Dow Jones Sustainability Index for Emerging Markets and along with our participation in the Mexican Sustainability Index, we reinforce our leadership and commitment to lead a sustainable business.

This recognition challenges us to continue improving our sustainability performance across our entire value chain.” said John Santa Maria Otazua, Chief Executive Officer of Coca-Cola FEMSA.

About RobecoSAM's The Sustainability Yearbook

Since 1999, RobecoSAM has been assessing the sustainability performance of the largest listed companies on a yearly basis. 830 companies from 42 different countries participated in the latest RobecoSAM Corporate Sustainability Assessment (CSA) and reported on their performance in financially material ESG (Environmental, Social, and Governance) criteria. Over the years the participation rate has on average steadily grown by 7% annually. With a total of 1,995 assessed companies, this year's CSA provides a record 87% coverage rate of the total global Yearbook universe market capitalization. In Europe the coverage rate was 92%, in North America 90%, in Asia Pacific 88%, and in the Emerging Markets 61%.

The Yearbook looks back at companies' sustainability performance in 2014, includes the best 15% per industry and ranks them Gold, Silver or Bronze. The top performing company from each of the 59 industries analyzed is awarded RobecoSAM Industry Leader status. Within the top 15% of each industry, the company that has achieved the largest proportional improvement in its sustainability performance compared to the previous year is named the RobecoSAM Industry Mover.
