Top of the Form Item 7.01 Regulation FD Disclosure.

On March 8, 2012, Huntington Bancshares Incorporated (Huntington) released a shareholder letter included in Huntington's 2011 Annual Report. A copy of the shareholder letter is attached as Exhibit 99.1 to this report and is incorporated herein by reference. Also on March 8, 2012, Huntington made the 2011 Annual Report, including the shareholder letter, available on its website, www.huntington-ir.com.

FORWARD-LOOKING STATEMENT DISCLOSURE

This report, including the letter to shareholders, contains certain forward-looking statements, including certain plans, expectations, goals, projections, and statements, which are subject to numerous assumptions, risks, and uncertainties. Statements that do not describe historical or current facts, including statements about beliefs and expectations, are forward-looking statements. The forward-looking statements are intended to be subject to the safe harbor provided by Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934, and the Private Securities Litigation Reform Act of 1995. Actual results could differ materially from those contained or implied by such statements for a variety of factors. Please refer to Item 1A "Risk Factors" and the "Additional Disclosure" sections in Huntington's Form 10-K for the year ending December 31, 2011, for additional information. All forward-looking statements speak only as of the date they are made and are based on information available at that time. We assume no obligation to update forward-looking statements. As forwardlooking statements involve significant risks and uncertainties, caution should be exercised against placing undue reliance on such statements.

NON-REGULATORY CAPITAL RATIOS

In addition to capital ratios defined by banking regulators, the Company considers various other measures when evaluating capital utilization and adequacy, including:

- Tangible common equity to tangible assets,
- Tier 1 common equity to risk-weighted assets using Basel I definition, and
- Tangible common equity to risk-weighted assets using Basel I definition.

These non-regulatory capital ratios are viewed by management as useful additional methods of reflecting the level of capital available to withstand unexpected market conditions. Additionally, presentation of these ratios allows readers to compare the Company's capitalization to other financial services companies. These ratios differ from capital ratios defined by banking regulators principally in that the numerator excludes preferred securities, the nature and extent of which varies among different financial services companies. These ratios are not defined in Generally Accepted Accounting Principles ("GAAP") or federal banking regulations. As a result, these non-regulatory capital ratios disclosed by the Company may be considered non-GAAP financial measures. Because there are no standardized definitions for these non-regulatory capital ratios, the Company's calculation methods may differ from those used by other financial services companies. Also, there may be limits in the usefulness of these measures to investors. As a result, the Company encourages readers to consider the consolidated financial statements and other financial information contained in this Form 10-K in their entirety, and not to rely on any single financial measure.
