Item 8.01. Other Events

In its Form 10-Q for the quarter ended March 31, 2007, Ashland Inc. (“Ashland”) reported that it estimated its effective tax rate for the remainder of fiscal 2007 to be 28%. Ashland now estimates its effective tax rate for the remainder of fiscal 2007 to be 20% and its rate for the quarter ending June 30, 2007 to be 18%. The lower estimated tax rate for the June quarter should make the year-to-date tax rate equal the revised estimated tax rate for the entire fiscal year. The change in Ashland’s estimated tax rate is due to a combination of favorable developments.

In general, estimated tax rates can be affected by many factors, including settlements with or claims by tax authorities, changing expectations of tax exposures and changes in operating income. Ashland’s actual tax rate for fiscal 2007 will likely vary from the estimates reported above.
