Basis of Presentation and General Information:

The accompanying consolidated financial statements include the accounts of Costamare Inc. (Costamare) and its wholly-owned subsidiaries (collectively, the Company). Costamare was formed on April 21, 2008, under the laws of the Republic of Marshall Islands.

Costamare was incorporated as part of a reorganization to acquire the ownership interest in 53 ship-owning companies (the predecessor companies) owned by the Konstantakopoulos family (Vasileios Konstantakopoulos and his three sons Messrs. Konstantinos Konstantakopoulos, Achillefs Konstantakopoulos and Christos Konstantakopoulos, together the Family). The reorganization was completed in November 2008. On November 4, 2010, Costamare completed its initial public offering in the United States under the United States Securities Act of 1933, as amended. Furthermore, on March 22, 2012, the Company completed a follow-on public offering in the United States under the United States Securities Act of 1933, as amended. In this respect 7,500,000 shares at par value \$0.0001 were issued at a public offering price of \$14.10 per share, increasing the issued share capital to 67,800,000 shares. At June 30, 2012, members of the Family owned, directly or indirectly, approximately 70.4% of the outstanding common shares, in the aggregate.

As of December 31, 2011 and June 30, 2012, the Company owned and operated a fleet of 46 container vessels with a total carrying capacity of approximately 233,980 TEU and 237,030 TEU, respectively, through wholly-owned subsidiaries incorporated in the Republic of Liberia, providing worldwide marine transportation services by chartering its container vessels to some of the world's leading liner operators under long, medium and short-term time charters.

At June 30, 2012, Costamare had 82 wholly owned subsidiaries, all incorporated in the Republic of Liberia out of which, 46 operate vessels, 24 sold or disposed their vessels and became dormant, ten were established in 2010 and 2011, to be used for the acquisition of ten newbuild vessels (Note 6) and two were established to be used for future vessel acquisitions.

Revenues for the six month periods ended June 30, 2011 and 2012, derived from significant charterers individually accounting for 10% or more of revenues (in percentages of total revenues) were as follows:

	2011	2012
A	35%	33%
B	16%	23%
C	16%	17%
D	10%	10%
Total	77%	83%

(the Manager or Costamare Shipping): Costamare Shipping is a ship management company wholly-owned by Mr. Konstantinos Konstantakopoulos, the Company's Chief Executive Officer, and as such is not part of the consolidated group of the Company, but is a related party. With effect from the consummation of the Company's Initial Public Offering on November 4, 2010 (Note 1), Costamare Shipping receives a daily fee of \$0.850 for each containership that is subject to any charter other than a bareboat charter (\$0.700 prior to November 4, 2010) and \$0.425 in the case of a containership subject to a bareboat charter, prorated for the calendar days the Company owns each containership and for the three-month period following the date of the sale of a vessel, for providing the Company with general administrative services, certain commercial services, director and officer related insurance services and the provision of officers (but not for payment of such officer's compensation for their services). With effect from the consummation of the Company's Initial Public Offering on November 4, 2010 (Note 1), Costamare Shipping receives \$1,000 annually on a prorated basis for the services of the Company's officers in aggregate. Furthermore, Costamare Shipping is providing the Company's vessels flying the Greek, the Hong Kong and Liberian (Prosper) flags, with technical, commercial, insurance, accounting, provisions, sale and purchase, crewing and bunkering services, subcontracting certain of these services in respect of the Hong Kong and Liberian (Prosper) flag vessels to Shanghai Costamare Ship Management Co., Ltd. (Shanghai Costamare), also a related party, under separate management agreements executed between Costamare Shipping and Shanghai Costamare for each vessel in exchange for a daily fixed fee. The Company also pays to Costamare Shipping (i) a flat fee of \$700 for the supervision of the construction of any newbuild vessel contracted by the Company and (ii) a fee of 0.75% on all gross freight, demurrage, charter hire, ballast bonus or other income earned with respect to each containership in the Company's fleet. Costamare Shipping has also undertaken the commercial management of the Company's vessels flying flags other than Greek, Hong Kong and Liberian (Prosper) under separate commercial management agreements with each respective ship-owning company. The technical management of such vessels is performed by CIEL Shipmanagement S.A. (CIEL), a related party, pursuant to separate agreements signed between each ship-owning company and CIEL in exchange for a daily fixed fee.

The initial term of the management agreement expires on December 31, 2015 and will be automatically extended in additional one-year increments until December 31, 2020, at which point it will expire. The management fee per day for each containership is fixed until December 31, 2012 and will thereafter be annually adjusted upwards by 4%, with further annual increases permitted to reflect the strengthening of the Euro against the U.S. dollar and/or material unforeseen cost increases. After the initial term expires on December 31, 2015, the Company will be able to terminate the management agreement, subject to a termination fee, by providing written notice to Costamare Shipping at least 12 months before the end of the subsequent one-year term. The termination fee is equal to (a) the lesser of (i) five and (ii) the number of full years remaining prior to December 31, 2020, times (b) the aggregate fees due and payable to Costamare Shipping during the 12-month period ending on the date of termination; provided that the termination fee will always be at least two times the aggregate fees over the 12-month period described above.

15. Derivatives:

(a) Interest rate swaps that meet the criteria for hedge accounting: The Company, according to its long-term strategic plan to maintain stability in its interest rate exposure, has decided to minimize exposure to floating interest rates by entering into interest rate swap agreements. To this effect, the Company has entered into interest rate swap transactions with varying start and maturity dates, in order to proactively and efficiently manage its floating rate exposure.

These interest rate swaps are designed to hedge the variability of interest cash flows arising from floating rate debt, attributable to movements in three-month or six-month USD LIBOR. According to the Company's Risk Management Accounting Policy, after putting in place the formal documentation required by ASC 815 in order to designate these swaps as hedging instruments, as from their inception, these interest rate swaps qualified for hedge accounting. Accordingly, since that time, only hedge ineffectiveness amounts arising from the differences in the change in fair value of the hedging instrument and the hedged item are recognized in the Company's earnings. Assessment and measurement of prospective and retrospective effectiveness for these interest rate swaps are being performed on a quarterly basis. For qualifying cash flow hedges, the fair value gain or loss associated with the effective portion of the cash flow hedge is recognized initially in stockholders' equity and recognized to the statement of income in the periods when the hedged item affects profit or loss. Any ineffective portion of the gain or loss on the hedging instrument is recognized in the statement of income immediately.

At December 31, 2011 and June 30, 2012, the fair value of this swap was a liability of \$20,254 and \$21,771, respectively and is included in Fair value of derivative in the accompanying consolidated balance sheets.

In the six-month periods ended June 30, 2011 and 2012, the realized ineffectiveness of the interest rate swaps discussed under (a) and (b) above was \$nil.

16. Financial Instruments:

(a) *Interest rate risk:* The Company's interest rates and loan repayment terms are described in Note 9.

(b) *Concentration of credit risk:* Financial instruments consist principally of cash, trade accounts receivable, investments and derivatives. The Company places its temporary cash investments, consisting mostly of deposits, primarily with high credit rated financial institutions. The Company performs periodic evaluations of the relative credit standing of those financial institutions that are considered in the Company's investment strategy. The Company limits its credit risk with accounts receivable by performing ongoing credit evaluations of its customers' financial condition and generally does not require collateral for its accounts receivable and does not have any agreements to mitigate credit risk. The Company limits the exposure of non-performance by counterparties to derivative instruments by diversifying among counterparties with high credit ratings and performing periodic evaluations of the relative credit standing of the counterparties.

(c) *Fair value:* The carrying amounts reflected in the accompanying consolidated balance sheet of financial assets and accounts payable approximate their respective fair values due to the short maturity of these instruments. The fair value of long-term bank loans with variable interest rates approximate the recorded values, generally due to their variable interest rates. The fair value of the interest rate swap agreements discussed in Note 15 above are determined through Level 2 of the fair value hierarchy as defined in FASB guidance for Fair Value Measurements and are derived principally from or corroborated by observable market data, interest rates, yield curves and other items that allow value to be determined.

The fair value of the interest rate swap agreements discussed in Note 15(a) and (b) equates to the amount that would be paid by the Company to cancel the agreements. As at December 31, 2011 and June 30, 2012, the fair value of these interest rate swaps in aggregate amounted to a liability of \$170,691 and \$183,362, respectively.

The fair market value of the forward contracts discussed in Note 15(c) determined through Level 2 of the fair value hierarchy as at December 31, 2011 and June 30, 2012 amounted to a liability of \$984 and \$146, respectively.

The following tables summarize the hierarchy for determining and disclosing the fair value of assets and liabilities by valuation technique on a recurring basis as of the valuation date.
