Item 2.04      Triggering Events That Accelerate or Increase a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement.

On January 6, 2015, Body Central Corp. ( the “Company”) received a notice of default from the holders of the Company’s outstanding \$18.0 million in aggregate principal amount subordinated secured convertible notes (the “Notes”) issued June 27, 2014. The notice of default alleges that the Company is in default for failing to make certain payments when due with respect to certain of the Company’s material agreements, failing to observe material agreements related to the Notes, and the failure by the Company to deliver an event of default notice to the holders of the Notes with respect to each of the foregoing events.

An event of default under the Notes may also result in an event of default under the Company’s senior credit facility. The occurrence of any such events of default under the Notes and the senior credit facility would permit the lenders thereunder to declare all amounts outstanding thereunder to become immediately due and payable and to exercise other remedies set forth in the applicable debt documents, including increasing the interest rates to the default rates of interest.

The foregoing description of the notice of default is not complete and is qualified in its entirety by reference to the full text of the notice of default, a copy of which is filed on Exhibit 99.1 hereto and incorporated herein by this reference.

In accordance with General Instruction B.2 of Form 8-K, the information in Exhibit 99.2 and in this Item 7.01 shall not be deemed to be “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or otherwise subject to the liability of that section, and shall not be incorporated by reference into any registration statement or other document filed under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.
