PROXY STATEMENT FOR THE 2014 ANNUAL MEETING OF STOCKHOLDERS

April 10, 2014

Information About Solicitation and Voting

The accompanying proxy is solicited on behalf of the board of directors of Green Dot Corporation ("Green Dot") for use at Green Dot's 2014 Annual Meeting of Stockholders (the "meeting") to be held on May 21, 2014, at 10:00 a.m. (Pacific Daylight Time), and any adjournment or postponement thereof.

Internet Availability of Proxy Materials

Under rules adopted by the U.S. Securities and Exchange Commission (the "SEC"), we are furnishing proxy materials to our stockholders primarily via the Internet, instead of mailing printed copies of those materials to each stockholder. On or about April 11, 2014, we expect to send to our stockholders a Notice of Internet Availability of Proxy Materials ("Notice of Internet Availability") containing instructions on how to access our proxy materials, including our proxy statement and our annual report. The Notice of Internet Availability also provides instructions on how to vote by telephone or through the Internet and includes instructions on how to receive a paper copy of the proxy materials by mail.

This process is designed to reduce our environmental impact and lowers the costs of printing and distributing our proxy materials without impacting our stockholders' timely access to this important information. However, if you would prefer to receive printed proxy materials, please follow the instructions included in the Notice of Internet Availability.

Questions and Answers About the Meeting

What is the purpose of the meeting?

At the meeting, stockholders will act upon the proposals described in this proxy statement. In addition, following the meeting, management will report on the performance of Green Dot and respond to questions from stockholders.

What proposals are scheduled to be voted on at the meeting?

Stockholders will be asked to vote on four proposals. The proposals are:

The election to the board of directors of two Class I directors named in this proxy statement, to serve until the third annual meeting of stockholders following this meeting and until his or her successor has been elected and qualified or until his or her earlier resignation or removal;

2. To vote on a non-binding advisory resolution to approve executive compensation;

3. To approve amendments to our 2010 Equity Incentive Plan; and

4. The ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for 2014.

Could other matters be decided at the meeting?

Our bylaws require that we receive advance notice of any proposal to be brought before the meeting by stockholders of Green Dot, and we have not received notice of any such proposals. If any other matter were to come before the meeting, the proxy holders appointed by the board of directors will have the discretion to vote on those matters for you.

What is the recommendation of the board of directors on each of the proposals scheduled to be voted on at the meeting?

The board of directors recommends that you vote FOR the Class I directors named in this proxy statement (Proposal 1), FOR the non-binding advisory resolution to approve executive compensation (Proposal 2), FOR the amendments to our 2010 Equity Incentive Plan (Proposal 3) and FOR the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the 2014 fiscal year (Proposal 4).

Table of Contents

Who can vote at the meeting?

Stockholders as of the record date for the meeting, April 4, 2014, are entitled to vote at the meeting. At the close of business on the record date, there were outstanding and entitled to vote 39,540,914 shares of Green Dot Class A common stock.

Stockholder of Record: Shares Registered in Your Name

If on April 4, 2014 your shares were registered directly in your name with our transfer agent, Computershare Trust Company, N.A., then you are considered the stockholder of record with respect to those shares. As a stockholder of record, you may vote at the meeting or vote by proxy. Whether or not you plan to attend the meeting, we urge you to vote by telephone or through the Internet, or if you request or receive paper proxy materials by mail, by filling out and returning a proxy card.

Beneficial Owner: Shares Registered in the Name of a Broker or Nominee

If on April 4, 2014 your shares were held in an account with a brokerage firm, bank or other nominee, then you are the beneficial owner of the shares held in street name. As a beneficial owner, you have the right to direct your nominee on how to vote the shares held in your account, and it has enclosed or provided voting instructions for you to use in directing it on how to vote your shares. However, the organization that holds your shares is considered the stockholder of record for purposes of voting at the meeting. Because you are not the stockholder of record, you may not vote your shares at the meeting unless you request and obtain a valid proxy from the organization that holds your shares giving you the right to vote the shares at the meeting.

How do I vote?

If you are a stockholder of record, you may:

- vote in person - we will provide a ballot to stockholders who attend the meeting and wish to vote in person;
- vote by telephone or through the Internet - in order to do so, please follow the instructions shown on your Notice of Internet Availability or proxy card; or
- vote by mail - if you request or receive a paper proxy card and voting instructions by mail, simply complete, sign and date the enclosed proxy card and return it before the meeting in the envelope provided.

Votes submitted by telephone or through the Internet must be received by 11:59 p.m., Eastern Time, on May 20, 2014. Submitting your proxy, whether by telephone, through the Internet or by mail if you request or received a paper proxy card, will not affect your right to vote in person should you decide to attend the meeting. If you are not the stockholder of record, please refer to the voting instructions provided by your nominee to direct it how to vote your shares. You may either vote "For" all of the nominees to the board of directors, or you may withhold your vote from any nominee you specify. For any other matter to be voted on you may vote "For" or "Against" or "Abstain" from voting. Your vote is important. Whether or not you plan to attend the meeting, we urge you to vote by proxy to ensure that your vote is counted. You may still attend the meeting in person if you have already voted by proxy.

What shares can I vote?

Each share of Green Dot Class A common stock issued and outstanding as of the close of business on April 4, 2014 is entitled to vote on all items being voted on at the meeting. You may vote all shares owned by you as of April 4, 2014, including (1) shares held directly in your name as the stockholder of record, and (2) shares held for you as the beneficial owner in street name through a broker, bank, trustee, or other nominee.

How many votes am I entitled to per share?

Each holder of shares of Class A common stock is entitled to one vote for each share of Class A common stock held as of April 4, 2014.

What is the quorum requirement for the meeting?

The holders of a majority of the voting power of the shares of stock entitled to vote at the meeting as of the record date must be present in person or represented by proxy at the meeting in order to hold the meeting and conduct business. This presence is called a quorum. Your shares are counted as present at the meeting if you are present and vote in person at the meeting or if you have properly submitted a proxy.

Table of Contents

How are abstentions and broker non-votes treated?

Abstentions (shares present at the meeting and voted “abstain”) are counted for purposes of determining whether a quorum is present, and have no effect on the outcome of the matters voted upon.

Broker non-votes occur when shares held by a broker for a beneficial owner are not voted either because (i) the broker did not receive voting instructions from the beneficial owner, or (ii) the broker lacked discretionary authority to vote the shares. Broker non-votes are counted for purposes of determining whether a quorum is present, and have no effect on the outcome of the matters voted upon. Note that if you are a beneficial holder and do not provide specific voting instructions to your broker, the broker that holds your shares will not be authorized to vote on the election of directors, nor will the broker be authorized to vote on Proposal nos. 2 and 3. Accordingly, we encourage you to provide voting instructions to your broker, whether or not you plan to attend the meeting.

What is the vote required for each proposal?

The votes required to approve each proposal are as follows:

Proposal No. 1. The director will be elected by a plurality of the votes cast, which means that the two individuals nominated for election to the board of directors at the meeting receiving the highest number of “FOR” votes will be elected. You may either vote “FOR” the nominee or “WITHHOLD” your vote with respect to the nominee.

Proposal No. 2-4. Approval of each of the other proposals will be obtained if the number of votes cast “FOR” the proposal at the meeting exceeds the number of votes “AGAINST” the proposal.

What if I return a proxy card but do not make specific choices?

All proxies will be voted in accordance with the instructions specified on the proxy card. If you received a Notice of Internet Availability, please follow the instructions included on the notice on how to access your proxy card and vote by telephone or through the Internet. If you sign a physical proxy card and return it without instructions as to how your shares should be voted on a particular proposal at the meeting, your shares will be voted in accordance with the recommendations of our board of directors stated above.

If you do not vote and you hold your shares in street name, and your broker does not have discretionary power to vote your shares, your shares may constitute “broker non-votes” (as described above) and will not be counted in determining the number of shares necessary for approval of the proposals. However, shares that constitute broker non-votes will be counted for the purpose of establishing a quorum for the meeting. Voting results will be tabulated and certified by the inspector of elections appointed for the meeting.

Who is paying for this proxy solicitation?

The expenses of soliciting proxies will be paid by Green Dot. Following the original mailing of the soliciting materials, Green Dot and its agents may solicit proxies by mail, electronic mail, telephone, facsimile, by other similar means, or in person. Our directors, officers and other employees, without additional compensation, may solicit proxies personally or in writing, by telephone, e-mail, or otherwise. Following the original mailing of the soliciting materials, Green Dot will request brokers, custodians, nominees and other record holders to forward copies of the soliciting materials to persons for whom they hold shares and to request authority for the exercise of proxies. In such cases, Green Dot, upon the request of the record holders, will reimburse such holders for their reasonable expenses. If you choose to access the proxy materials and/or vote through the Internet, you are responsible for any Internet access charges you may incur.

What does it mean if I receive more than one proxy card or Notice of Internet Availability?

If you receive more than one proxy card or Notice of Internet Availability, your shares are registered in more than one name or are registered in different accounts. To make certain all of your shares are voted, please follow the instructions included on the Notice of Internet Availability on how to access each proxy card and vote each proxy card by telephone or through the Internet. If you requested or received paper proxy materials by mail, please complete, sign and return each proxy card to ensure that all of your shares are voted.

Table of Contents

How can I change my vote after submitting my proxy?

A stockholder who has given a proxy may revoke it at any time before it is exercised at the meeting by:
• delivering to the Corporate Secretary of Green Dot (by any means, including facsimile) a written notice stating that the proxy is revoked;

- signing and delivering a proxy bearing a later date;
- voting again by telephone or through the Internet; or
- attending and voting at the meeting (although attendance at the meeting will not, by itself, revoke a proxy).

Please note, however, that if your shares are held of record by a broker, bank or other nominee and you wish to revoke a proxy, you must contact that firm to revoke any prior voting instructions.

How can I get electronic access to the proxy materials?

The Notice of Internet Availability will provide you with instructions regarding how to:

- view our proxy materials for the meeting through the Internet; and
- instruct us to send our future proxy materials to you electronically by email.

Choosing to receive your future proxy materials by email will reduce the impact of our annual meetings of stockholders on the environment and lower the costs of printing and distributing our proxy materials. If you choose to receive future proxy materials by email, you will receive an email next year with instructions containing a link to those materials and a link to the proxy voting site. Your election to receive proxy materials by email will remain in effect until you terminate it.

Where can I find the voting results?

The preliminary voting results will be announced at the meeting and posted on our website at <http://ir.greendot.com>.

The final results will be tallied by the inspector of elections and filed with the SEC in a current report on Form 8-K within four business days of the meeting.

Table of Contents

CORPORATE GOVERNANCE STANDARDS AND DIRECTOR INDEPENDENCE

Green Dot is strongly committed to good corporate governance practices. These practices provide an important framework within which our board of directors and management can pursue our strategic objectives for the benefit of our stockholders.

Corporate Governance Guidelines

Our board of directors has adopted Corporate Governance Guidelines that set forth expectations for directors, director independence standards, board committee structure and functions and other policies for the governance of the company. Our Corporate Governance Guidelines are available on the Investor Relations section of our website, which is located at <http://ir.greendot.com>, by clicking on “Corporate Governance Guidelines,” under “Governance.” The Corporate Governance Guidelines are reviewed at least annually by our nominating and corporate governance committee, and changes are recommended to our board of directors with respect to changes as warranted.

Board Leadership Structure

Our board of directors retains the flexibility to determine on a case-by-case basis whether the Chief Executive Officer, or an independent director, should serve as Chairman. This flexibility permits our board of directors to organize its functions and conduct its business in a manner it deems most effective in then-prevailing circumstances.

Our board of directors believes that we and our stockholders currently are best served by having Steven W. Streit serve as Chairman as well as Chief Executive Officer. By combining these positions, Mr. Streit serves as a bridge between the board of directors and the operating organization and, with his historical knowledge and operational expertise, provides critical leadership for the strategic initiatives and challenges of the future.

During those periods in which the positions of Chairman and Chief Executive Officer are combined, the independent directors appoint an independent director as a Lead Independent Director. Kenneth C. Aldrich currently serves as the Lead Independent Director.

The position and role of the Lead Independent Director is intended to facilitate communication between the board of directors and the Chairman and Chief Executive Officer and other members of management. The Lead Independent Director has the following duties:

- To organize, convene and preside over executive sessions of the non-management and independent directors and promptly communicate approved messages and directives to the Chairman;
- To preside at all meetings of the board of directors at which the Chairman is not available;
- To collect and communicate to the Chairman the views and recommendations of the independent directors, relating to his or her performance; and
- To perform such other duties and responsibilities as may be assigned from time-to-time by the independent directors.

The board of directors believes that its independence and oversight of management is maintained effectively through this leadership structure, the composition of the board of directors and sound corporate governance policies and practices.

Our Board of Directors' Role in Risk Oversight

Our board of directors, as a whole, has responsibility for risk oversight, although the committees of our board of directors oversee and review risk areas which are particularly relevant to them. The risk oversight responsibility of our board of directors and its committees is supported by our management reporting processes, which are designed to provide visibility to the board of directors and to our personnel that are responsible for risk assessment and information about the identification, assessment and management of critical risks and management's risk mitigation strategies. These areas of focus include, but are not limited to, competitive, economic, operational, financial (accounting, credit, liquidity and tax), legal, regulatory, compliance and reputational risks.

Each committee of the board of directors meets in executive session with key management personnel and representatives of outside advisors to oversee risks associated with their respective principal areas of focus. The audit committee reviews strategic, financial and execution risks and exposures and regulatory exposures and other current matters that may present material risk to the company. The audit committee also oversees our internal audit function and discusses with management and our independent registered public accounting firm our policies with respect to significant financial risk exposures and the actions management has taken to limit, monitor or control such exposures. The audit committee receives periodic reports from our Chief Risk Officer on our enterprise risk management

program.

5

Table of Contents

The compensation committee reviews risks and exposures associated with leadership assessment, management succession planning and executive compensation programs and arrangements, including incentive plans. The nominating and corporate governance committee reviews risks and exposures relating to significant legal compliance risks and also monitors the steps management has to mitigate these exposures, including our legal risk assessment and legal risk management policies and guidelines.

Independence of Directors

Our board of directors determines the independence of our directors by applying the independence principles and standards established by the New York Stock Exchange, or the NYSE. These provide that a director is independent only if the board affirmatively determines that the director has no direct or indirect material relationship with our company. They also specify various relationships that preclude a determination of director independence. Material relationships may include commercial, industrial, consulting, legal, accounting, charitable, family and other business, professional and personal relationships.

Applying these standards, the board annually reviews the independence of the company's directors, taking into account all relevant facts and circumstances. In its most recent review, the board considered, among other things, the absence of any employment relationships between the company and its directors (other than Steven W. Streit who is an officer of the company and Samuel Altman who was an employee of the company within the last three years) and their families; the absence of any of the other specific relationships that would preclude a determination of independence under the rules of the NYSE; the absence of transactions with non-employee directors and members of their families that would require disclosure in this proxy statement under SEC rules regarding related person transactions; and the absence of any other material relationships between the non-employee directors and Green Dot. Based upon this review, our board of directors has determined that the following director nominees and members of our board of directors are currently independent as determined under the rules of the NYSE:

Kenneth C. Aldrich

Michael J. Moritz

Mary J. Dent

William H. Ott, Jr.

Timothy R. Greenleaf

George T. Shaheen

Ross E. Kendall

All members of our audit committee, compensation committee, nominating and corporate governance committee must be independent directors as defined by our Corporate Governance Guidelines. Members of the audit committee must also satisfy a separate SEC independence requirement, which provides that they may not accept directly or indirectly any consulting, advisory or other compensatory fee from Green Dot or any of its subsidiaries other than their directors' compensation. No member of either committee may be a partner, member or principal of a law firm, accounting firm or investment banking firm that accepts consulting or advisory fees from Green Dot or any of its subsidiaries. Our board of directors has determined that all members of our audit committee, compensation committee and nominating and corporate governance committee are independent and all members of our audit committee satisfy the relevant SEC additional independence requirements for the members of such committee.

Committees of Our Board of Directors

Our board of directors has established an audit committee, a compensation committee and a nominating and corporate governance committee. Each of these committees has a written charter approved by our board of directors. The composition and responsibilities of each committee are described below. Copies of the charters for each committee are available, without charge, upon request in writing to Green Dot Corporation, 3465 East Foothill Blvd., Pasadena, California 91107, Attn: Corporate Secretary or by clicking on "Governance" in the investor relations section of our website, <http://ir.greendot.com>. Members serve on these committees until their resignations or until otherwise determined by our board of directors.

Audit Committee

Our audit committee is comprised of Mr. Greenleaf, who is the chair of the audit committee, and Ms. Dent and Mr. Ott. Mr. Ott is not standing for re-election at the meeting. Mr. Shaheen will replace Mr. Ott on the audit committee at the annual meeting when Mr. Ott completes his term as a director. The composition of our audit committee meets the requirements for independence under the current NYSE and SEC rules and regulations. Each member of our audit committee is financially literate as required by current NYSE listing standards. In addition, our

board of directors has determined that Mr. Greenleaf is an audit committee financial expert within the meaning of Item 407(d) of Regulation S-K based on his experience in the areas of venture capital and private equity investment (including strategic financial analysis), finance and business generally. Pursuant to its charter, our audit committee, among other things:

6

Table of Contents

- appoints our independent auditors;
- approves the audit and non-audit services to be performed by our independent auditors;
- assesses the qualifications, performance and independence of our independent auditors;
- monitors the integrity of our financial statements and our compliance with legal and regulatory requirements as they relate to financial statements or accounting matters;
- reviews the integrity, adequacy and effectiveness of our accounting and financial reporting processes and the adequacy and effectiveness of our systems of internal control;
- discusses the results of the audit with the independent auditors and reviews with management and the independent auditors our interim and year-end operating results; and
- prepares the audit committee report that the SEC requires in our annual proxy statement.

Compensation Committee

Our compensation committee is comprised of Mr. Aldrich, who is the chair of the compensation committee, and Messrs. Greenleaf, Moritz and Shaheen. The composition of our compensation committee meets the requirements for independence under the current NYSE and SEC rules and regulations. Pursuant to its charter our compensation committee, among other things:

- reviews, approves and makes recommendations to our board of directors (as our compensation committee deems appropriate) regarding the compensation of our executive officers;
 - administers and interprets our stock and equity incentive plans;
 - reviews, approves and makes recommendations to our board of directors (as our compensation committee deems appropriate) with respect to equity and non-equity incentive compensation plans; and
- establishes and reviews general strategies relating to compensation and benefits of our employees.

From time to time, in accordance with the provisions of its charter, our compensation committee reviews and makes recommendations to the board of directors regarding compensation for non-employee directors using a process similar to the one used for determining compensation for our executive officers, which is discussed in detail in the “Executive Compensation–Compensation Discussion and Analysis” below. Our compensation committee periodically reviews the market practice for non-employee directors for companies in our peer group in consultation with its independent compensation consultant.

Under its charter, our compensation committee has the authority to retain outside counsel or other advisors. Pursuant to that authority, our compensation committee retained an independent compensation consultant, Barney & Barney LLC (“Barney & Barney”), to provide advice and ongoing recommendations on executive compensation matters for 2013. Our compensation committee oversees the engagement of its independent compensation consultant and any other consultants it engages in addition to or in replacement of its independent compensation consultant.

Representatives of our compensation committee’s independent compensation consultant meet informally with the chair of our compensation committee and, from time to time, with our compensation committee during its regular meetings. The independent compensation consultant selected by our compensation committee works directly with our compensation committee (and not on behalf of management) to assist our compensation committee in satisfying its responsibilities and will undertake no projects for management without our compensation committee’s approval. Based in part on policies and procedures implemented by Barney & Barney to ensure its ability to provide objective third-party advice on executive compensation matters, our compensation committee believes that Barney & Barney was free of conflicts of interest during the period term of its engagement. For 2014, our compensation committee has selected Board Advisory, LLC (“Board Advisory”) to serve as its independent compensation consultant. In connection with engaging this firm, our compensation committee determined that it is also free of conflicts of interest. For additional description of our compensation committee’s processes and procedures for consideration and determination of executive officer compensation, see the “Executive Compensation - Compensation Discussion and Analysis.”

Nominating and Corporate Governance Committee

Our nominating and corporate governance committee is comprised of Mr. Aldrich, who is the chair of the nominating and corporate governance committee, and Messrs. Kendell, Moritz and Ott. Messrs. Kendell and Ott are not standing for re-election at the meeting. Ms. Dent will replace Mr. Moritz on the nominating and corporate governance

committee at the annual meeting when each of Messrs. Kendell and Ott completes his term as a director. The composition of our nominating and corporate governance committee meets the requirements for independence under the current NYSE

and SEC rules and regulations. Pursuant to its charter, our nominating and corporate governance committee, among other things:

- identifies, evaluates and recommends nominees to our board of directors and its committees;
- oversees the evaluation of the performance of our board of directors and its committees and of individual directors;
- considers and makes recommendations to our board of directors regarding the composition of our board of directors and its committees;
- reviews our legal compliance policies; and
- makes recommendations to our board of directors concerning our corporate governance guidelines and other corporate governance matters.

Presiding Director of Non-Employee Director Meetings

The non-employee directors meet in regularly scheduled executive sessions without management to promote open and honest discussion. The Lead Independent Director, currently Mr. Aldrich, is the presiding director at these meetings.

Board and Committee Meetings and Attendance

The board of directors and its committees meet throughout the year on a set schedule, and also hold special meetings and act by written consent from time to time. During 2013, the board of directors met five times, including telephonic meetings, the audit committee held eight meetings, the compensation committee held seven meetings and the nominating and corporate governance committee held three meetings. During 2013, only one director, Mr. Moritz, attended fewer than 75% of the aggregate of the total number of meetings held by the board of directors and the total number of meetings held by all committees of the board of directors on which such director served (during the period which such director served).

Board Attendance at Annual Stockholders' Meeting

Our policy is to invite and encourage each member of our board of directors to be present at our annual meetings of stockholders. All of our directors attended our 2013 Annual Meeting of Stockholders.

Communication with Directors

Stockholders and interested parties who wish to communicate with our board of directors, non-employee members of our board of directors as a group, a committee of the board of directors or a specific member of our board of directors (including our Lead Independent Director, if any) may do so by letters addressed to the attention of our Corporate Secretary.

All communications are reviewed by the Corporate Secretary and provided to the members of the board of directors consistent with a screening policy providing that unsolicited items, sales materials and other routine items and items unrelated to the duties and responsibilities of the board of directors not be relayed on to directors. Any communication that is not relayed is recorded in a log and made available to our board of directors.

The address for these communications is:

NOMINATIONS PROCESS AND DIRECTOR QUALIFICATIONS

Nomination to the Board of Directors

Candidates for nomination to our board of directors are selected by our board of directors based on the recommendation of the nominating and corporate governance committee in accordance with the committee's charter, our certificate of incorporation and bylaws and our corporate governance guidelines. In recommending candidates for nomination, the nominating and corporate governance committee considers candidates recommended by directors, officers, employees, stockholders and others, using the same criteria to evaluate all candidates. Evaluations of candidates generally involve a review of background materials, internal discussions and interviews with selected candidates as appropriate and, in addition, the committee may engage consultants or third-party search firms to assist in identifying and evaluating potential nominees.

Additional information regarding the process for properly submitting stockholder nominations for candidates for membership on our board of directors is set forth below under "Additional Information - Stockholder Proposals to be Presented at Next Annual Meeting."

Director Qualifications

With the goal of developing an experienced and highly-qualified board of directors, the nominating and corporate governance committee is responsible for developing and recommending to the board of directors the desired qualifications, expertise and characteristics of members of our board of directors, including the specific minimum qualifications that the committee believes must be met by a committee-recommended nominee for membership on the board of directors and any specific qualities or skills that the committee believes are necessary for one or more of the members of the board of directors to possess.

Since the identification, evaluation and selection of qualified directors is a complex and subjective process that requires consideration of many intangible factors, and will be significantly influenced by the particular needs of the board of directors from time to time, our board of directors has not adopted a specific set of minimum qualifications, qualities or skills that are necessary for a nominee to possess, other than those that are necessary to meet U.S. legal, regulatory and NYSE listing requirements and the provisions of our certificate of incorporation, bylaws, corporate governance guidelines and charters of the board of directors' committees. In addition, neither the board of directors nor the nominating and corporate governance committee has a formal policy with regard to the consideration of diversity in identifying nominees. When considering nominees, the nominating and corporate governance committee may take into consideration many factors including, among other things, a candidate's independence, integrity, skills, financial and other expertise, breadth of experience and knowledge about our business or industry and willingness and ability to devote adequate time and effort to responsibilities of the board of directors in the context of its existing composition. Through the nomination process, the nominating and corporate governance committee seeks to promote board of directors membership that reflects a diversity of business experience, expertise, viewpoints, personal backgrounds and other characteristics that are expected to contribute to the board of directors' overall effectiveness. The brief biographical description of each director set forth in Proposal No. 1 below includes the primary individual experience, qualifications, qualities and skills of each of our directors that led to the conclusion that each director should serve as a member of our board of directors at this time.

PROPOSAL NO. 1

ELECTION OF DIRECTORS

Our board of directors currently consists of nine directors, and in connection with the election of directors at the annual meeting the authorized number of directors is being reduced to seven. Our board of directors is divided into three classes. Each class serves for three years, with the terms of office of the respective classes expiring in successive years. The term of the directors in Class I expire at this meeting. The terms of office of directors in Class II and Class III do not expire until the annual meetings of stockholders held in 2015 and 2016, respectively.

At the recommendation of our nominating and corporate governance committee, our board of directors proposes that the Class I nominees named below, one of whom is currently serving as one of the directors in Class I and another who is currently serving in Class II, be elected as a Class I director for a three-year term expiring at the 2017 Annual Meeting of Stockholders and until such director's successor is duly elected and qualified or until such director's earlier resignation or removal. The nominee who is a Class II director, Mary J. Dent, will resign as a Class II director, effective and contingent upon her election as a Class I director. Our board of directors appointed Ms. Dent as a Class II director in August 2013 upon the recommendation of our nomination and governance committee. Ms. Dent was recommended by the nominating and corporate governance committee after an extensive and careful search was conducted by a search firm, and numerous candidates were considered. In 2013, our board of directors retained this search firm to assist it with identifying and evaluating director candidates. The primary functions served by the search firm included identifying potential candidates who meet the key attributes, experience and skills described under "Nominations Process And Director Qualifications-Director Qualifications" above, as well as compiling information regarding each candidate's attributes, experience, skills and independence and conveying the information to our board of directors and nominating and corporate governance committee.

Shares represented by proxies will be voted "FOR" the election of each of the two nominees named below, unless the proxy is marked to withhold authority so to vote. If any nominee for any reason is unable to serve or for good cause will not serve, the proxies may be voted for such substitute nominee as the proxy holder might determine. Each nominee has consented to being named in this proxy statement and to serve if elected.

PROPOSAL NO. 2

ADVISORY VOTE TO APPROVE EXECUTIVE COMPENSATION

In accordance with Section 14A of the Exchange Act, stockholders are entitled to cast an advisory vote to approve the compensation of our named executive officers, as disclosed in this proxy statement. Accordingly, you are being asked to vote on the following resolution at the annual meeting:

“RESOLVED, that the compensation paid to Green Dot Corporation’s named executive officers, as disclosed pursuant to the Securities and Exchange Commission’s compensation disclosure rules, including the Compensation Discussion and Analysis, compensation tables and narrative discussion set forth on pages 26 to 33 of this proxy statement, is hereby approved.”

As described more fully in the Compensation Discussion & Analysis section of this proxy statement, our named executive officers are compensated in a manner consistent with our performance-based pay philosophy and corporate governance best practices. A few highlights, which are discussed further in the Compensation Discussion & Analysis, are:

Our compensation committee targeted total on-target compensation and each of its components with reference to the 50th percentile of our peer group.

- Each named executive officer’s target variable cash incentive award continued to be determined based on the achievement of corporate performance objectives of adjusted EBITDA and annual revenue over a one-year performance period. Company performance resulted in pay-outs of 113% of the on-target bonus amounts of our named executive officers in 2013.

Our incentive bonus plan does not have guaranteed pay-out levels. As a point of reference, in 2012, company performance resulted in no pay-outs under variable cash incentive awards, demonstrating that we do not payout performance-based cash incentive awards for unmet goals.

Variable cash incentive awards are capped at 150% of the on-target bonus amount to discourage inappropriate risk taking by our executive officers and are subject to our “clawback” right under certain circumstances.

Mr. Streit was awarded a discretionary bonus of \$200,000 in recognition of his accomplishments as our CEO and received restricted stock units for 200,000 shares of our Class A common stock.

In 2013, we began granting restricted stock units as part of our regular annual executive compensation program. Our named executive officers, other than the Chief Revenue Officer, received all or the substantial majority of the value of their equity compensation for 2013 in the form of restricted stock units and the remainder in the form of stock options. We encourage you to carefully review the “Compensation Discussion and Analysis” section beginning on page 26 of this proxy statement for additional details on our executive compensation program, including our compensation philosophy and objectives, as well as the processes our compensation committee used to determine the structure and amounts of the compensation of our named executive officers in 2013.

While the results of this advisory vote are not binding, our compensation committee will consider the outcome of the vote in deciding whether to take any action as a result of the vote and when making future compensation decisions for named executive officers.

OUR BOARD OF DIRECTORS RECOMMENDS A VOTE “FOR” APPROVAL OF PROPOSAL NO. 2.

PROPOSAL NO. 3

APPROVAL OF AMENDMENTS TO OUR 2010 EQUITY INCENTIVE PLAN

We are asking stockholders to approve an amendment to our 2010 Equity Incentive Plan (the “2010 Plan”) to increase the number of shares reserved for issuance under the 2010 Plan by 3,400,000 shares. The Board approved this amendment on April 7, 2014, subject to stockholder approval at the annual meeting.

In addition to increasing the number of shares reserved for issuance, the 2010 Plan is being amended to:

• Remove the provision that allows shares to be available for reissuance where such shares are used to pay the exercise price of an award or used to satisfy tax withholding obligations.

Require prior stockholder approval before an exchange program is carried out. Under the 2010 Plan, an exchange program means a program pursuant to which outstanding awards are surrendered, cancelled or exchanged for cash, the same type of award or a different award (or combination thereof).

We believe that increasing the number of shares available for issuance is in the best interests of Green Dot because of the continuing need to provide stock options, restricted stock units and other equity-based incentives to attract and retain the most qualified personnel and to respond to relevant market changes in equity compensation practices. We currently estimate that our annual gross burn rate will be approximately 3.7%, or 1.7 million shares annually. We arrived at this number by forecasting the number of shares likely needed for newly hired employees as well as ongoing grants to our current employees, executives and members of our board of directors. Accordingly, we expect that, if this proposal is approved, the number of shares available under the 2010 Plan will provide us with enough shares for equity awards through December 31, 2016. Stockholder approval is also intended to reapprove the 2010 Plan (and the performance factors listed therein) for purposes of Section 162(m) of the Internal Revenue Code of 1986, as amended.

The use of equity compensation has historically been a significant part of our overall compensation philosophy and is a practice that we plan to continue. The 2010 Plan serves as an important part of this practice and is a critical component of the overall compensation package that we offer to retain and motivate our employees. In addition, awards under the 2010 Plan will continue to provide our employees an opportunity to acquire or increase their ownership stake in us, and we believe this aligns their interests with those of our stockholders, creating strong incentives for our employees to work hard for our future growth and success. If this proposal is not approved by our stockholders, we believe our ability to attract and retain the talent we need to compete in our industry would be seriously and negatively impacted, and this could potentially affect our long-term success.

Plan History

The 2010 Plan was originally adopted by our Board in June 2010, and it was approved by our stockholders in July 2010. As originally adopted, the 2010 Plan had 2,000,000 shares reserved for issuance. In addition, the number of shares available for issuance was increased on January 1 of each of 2010 through 2014 by the lesser of (i) 3% of the total number of shares of our Class A common stock and our Class B common stock issued and outstanding on each December 31 or (ii) such number of shares determined by our Board (this provision is commonly referred to an “evergreen provision”). The evergreen provision expired by its terms in 2014, accordingly, additional shares will no longer be automatically reserved for issuance through the evergreen. The 2010 Plan is the only plan under which we grant equity compensation awards.

Set forth below is the number of shares available for issuance pursuant to outstanding and future equity awards under all stock incentive plans as of March 31, 2014.

Shares reserved for issuance pursuant to outstanding stock option awards	5,037,922
Shares reserved for issuance pursuant to outstanding restricted stock units	1,522,024
Shares available for issuance pursuant to future equity awards	2,855,491
Total shares available for future issuance	9,415,437

Summary of our 2010 Equity Incentive Plan

The following is a summary of the principal provisions of the 2010 Plan, as proposed for approval. This summary does not purport to be a complete description of all of the provisions of the 2010 Plan. It is qualified in its entirety by reference to the full text of the 2010 Plan. A copy of the 2010 Plan has been filed with the SEC with this proxy statement, and any stockholder who wishes to obtain a copy of the 2010 Plan may do so by written request to our

corporate secretary at our headquarters in Pasadena, California.

Since our executive officers and non-employee directors may participate in the 2010 Plan, each of them has an interest in this proposal.

Types of Awards. Awards that may be granted are stock options (both nonstatutory stock options and incentive stock options (which may only be granted to employees)), restricted stock, restricted stock units, stock appreciation rights, performance-based awards and stock bonuses (each individually, an “award”).

Shares Reserved for Issuance. If this proposal is approved, the total number of shares reserved for issuance will increase from 6,530,471 to 9,930,471 shares (this number reflects the requested increase, remaining shares reserved for issuance, and shares added to the 2010 Plan as a result of the now expired evergreen provision). As of March 31, 2014, 39,387,168 shares of our common stock were issued and outstanding.

Shares Returned to the Plan. Shares subject to awards, and shares issued under our 2010 Plan under any award will again be available for grant and issuance in connection with subsequent awards to the extent such shares: (a) are subject to issuance upon exercise of an option or stock appreciation right granted under the 2010 Plan but which cease to be subject to the option or stock appreciation right for any reason other than exercise of the award; (b) are subject to awards granted under the 2010 Plan that are forfeited or repurchased by us at the original issue price; (c) are subject to awards granted under the 2010 Plan that otherwise terminate without such shares being issued; or (d) are surrendered pursuant to an Exchange Program. To the extent an award is paid out in cash rather than shares, such cash payment will not result in reducing the number of shares available for issuance under the 2010 Plan.

Shares Not Returned to the Plan. Shares that are withheld to pay the exercise or purchase price of an award or to satisfy any tax withholding obligations in connection with an award and shares that are not issued or delivered as a result of the net settlement of an outstanding option will not be available again for grant and issuance under the 2010 Plan.

Per-Share Exercise Price. The per-share exercise price of stock options and stock appreciation rights granted under the 2010 Plan must equal at least the fair market value of a share of our common stock on the grant date of the option. As of March 31, 2014, the fair market value of a share of our common stock was \$19.53.

No Repricing or Exchange Program Without Prior Stockholder Approval. Neither the exercise price of an option or SAR may be reduced (repriced) without prior stockholder approval nor can an exchange program be implemented without prior stockholder approval (other than in connection with certain corporate transactions, including stock splits, stock dividends, mergers, spin-offs and certain other similar transactions).

Number of Shares Per Calendar Year and Incentive Stock Option Limit. No person is eligible to receive more than 2,000,000 shares in any calendar year pursuant to the grant of awards under the 2010 Plan, except that new employees are eligible to receive up to a maximum of 4,000,000 shares in the calendar year in which they commence employment. No more than 25,000,000 shares may be issued pursuant to the exercise of incentive stock options.

Vesting and Exercisability. Awards become vested and exercisable, as applicable, within such periods, or upon such events, as determined by the administrator and as set forth in the related award agreement. Vesting may be based on the passage of time in connection with services performed for us or upon achievement of performance goals or other criteria. The maximum term of each option and SAR is ten years from the date of grant. As a matter of practice, options have generally been subject to a four-year vesting period with a one-year period before any vesting. Options cease vesting on the date of termination of service or the death or disability of the service provider and generally expire three months after the termination of the service provider’s service to us or up to 12 months following the date of death or disability. SARs become exercisable as they vest and are settled in cash or shares, as determined by the administrator, having a value at the time of exercise equal to (1) the number of shares deemed exercised, times (2) the amount by which our stock price on the date of exercise exceeds the exercise price of SARs. RSUs are settled in cash or shares, depending on the terms upon which they are granted, and only to the extent that they are vested. Shares subject to a restricted stock award that are unvested remain subject to our right of repurchase.

Method of Exercise. The exercise price of options and the purchase price, if any, of other stock awards may be paid by cash, check, broker assisted same-day sales or other methods permitted by the 2010 Plan, the administrator and

applicable law.

Adjustment of Shares. If the number of outstanding shares is changed by a stock dividend, recapitalization, stock split, reverse stock split, subdivision, combination, reclassification or similar change in our capital structure, without consideration, then (a) the number of shares reserved for issuance and future grant under the 2010 Plan, (b) the exercise prices of and number of shares subject to outstanding stock options and SARs, (c) the number of shares

17

subject to other outstanding awards, (d) the maximum number of shares that may be issued as incentive stock options, (e) the maximum number of shares that may be issued to an individual or to a new employee in any one calendar year and (f) the number of shares that are granted as awards to non-employee directors, shall be proportionately adjusted, subject to any required action by our board of directors or the stockholders of Green Dot and in compliance with applicable securities laws.

Performance Awards. Our compensation committee may also make awards of performance shares or performance units subject to the satisfaction of specified performance criteria. Performance awards granted to persons whom the Compensation Committee expects will, for the year in which a deduction arises, be covered employees may, if and to the extent intended by our compensation committee, be subject to provisions that should qualify such awards as “performance-based” compensation not subject to the limitation on the tax deductibility by us under Section 162(m). If and to the extent required under Section 162(m), any power or authority relating to a performance award intended to qualify under Section 162(m) is to be exercised by a committee which will qualify under Section 162(m). The compensation committee may, in its discretion, make awards that would not be deductible under Section 162(m). Our compensation committee determines the terms surrounding performance awards, including the required levels of performance with respect to specified business criteria, the corresponding amounts payable upon achievement of such levels of performance, and the termination and forfeiture provisions. The performance criteria governing performance awards may be based upon one or any combination of the following criteria for which we are seeking approval: net revenue and/or net revenue growth; earnings per share and/or earnings per share growth; earnings before income taxes and amortization and/or earnings before income taxes and amortization growth; operating income and/or operating income growth; net income and/or net income growth; total stockholder return and/or total stockholder return growth; return on equity; operating cash flow return on income; adjusted operating cash flow return on income; economic value added; control of expenses; cost of goods sold; profit margin; stock price; debt or debt-to-equity; liquidity; intellectual property (e.g., patents)/product development; mergers and acquisitions or divestitures; individual business objectives; company specific operational metrics; and any other factor (such as individual business objectives or unit-specific operational metrics) the compensation committee so designates.

Stockholder Approval. Stockholder approval is required for certain types of amendments to the 2010 Plan.

Stockholder approval is required to increase the number of shares available for issuance under the 2010 Plan.

Administration. Our compensation committee administers the 2010 Plan except when our board of directors decides to directly administer the 2010 Plan.

Section 162(m) Considerations. Section 162(m) of the Internal Revenue Code of 1986, as amended (the “Code”) generally disallows a tax deduction to public companies for compensation in excess of \$1 million paid to the company’s Chief Executive Officer or any of the three other most highly compensated officers (excluding our chief executive officer and our chief financial officer). Certain performance-based compensation is specifically exempt from this deduction limit if it otherwise meets the requirements of Section 162(m). The 2010 Plan is intended to comply with the requirements of Section 162(m) of the Code such that performance-based awards in excess of \$1 million payable to our Chief Executive Officer and our three other most highly compensated executive officers (excluding our Chief Financial Officer and Chief Executive Officer) may be deductible by us. While the 2010 Plan is intended to comply with the requirement of Section 162(m), we are not required to structure compensation to be in compliance with Section 162(m).

Non-Employee Director Equity Awards. Under the 2010 Plan, non-employee directors may be granted stock options and other awards either on a discretionary basis or pursuant to policy adopted by our board of directors. The 2010 Plan limits the number of awards granted pursuant to the non-employee director section to 80,000 shares per calendar year. However, discretionary awards can be granted to our non-employee directors pursuant to other sections of the 2010 Plan.

Corporate Transaction. In the event of a corporate transaction (as defined in the 2010 Plan), the buyer may either assume outstanding awards or substitute equivalent awards. If the buyer fails to assume or substitute awards issued under the 2010 Plan, all awards will expire upon the closing of the transaction, and our board of directors will determine whether the corporate transaction will have any additional effect, including acceleration of the vesting of awards. Unless otherwise determined by our board of directors, all unvested stock options and RSU awards made to

our non-employee directors will accelerate and vest in full.

Amendment or Termination of 2010 Plan. Our board of directors may at any time terminate or amend the 2010 Plan in any respect, including, without limitation, amendment of any form of award agreement or instrument to be executed pursuant to the 2010 Plan; provided, however, that our board of directors will not, without the approval of Green Dot stockholders, amend the 2010 Plan in any manner that requires stockholder approval.

Termination Date. The 2010 Plan will terminate on July 21, 2020.

Summary of Federal Income Tax Consequences of Awards Granted under the 2010 Plan

The following is a general summary as of the date of this proxy statement of the U.S. federal income tax consequences to us and participants in the 2010 Plan. U.S. federal tax laws may change and U.S. federal, state and local tax consequences for any participant will depend upon his or her individual circumstances.

Tax Treatment of the Participant

Incentive Stock Options. An optionee will recognize no income upon grant of an incentive stock option ("ISO") and will incur no tax upon exercise of an ISO unless for the year of exercise the optionee is subject to the alternative minimum tax ("AMT"). If the optionee holds the shares purchased upon exercise of the ISO (the "ISO Shares") for more than one year after the date the ISO was exercised and for more than two years after the ISO's grant date (the "required holding period"), then the optionee generally will realize long-term capital gain or loss (rather than ordinary income or loss) upon disposition of the ISO Shares. This gain or loss will equal the difference between the amount realized upon such disposition and the amount paid for the ISO Shares upon the exercise of the ISO.

If the optionee disposes of ISO Shares prior to the expiration of the required holding period (a "disqualifying disposition"), then gain realized upon such disposition, up to the difference between the option exercise price and the fair market value of the ISO Shares on the date of exercise (or, if less, the amount realized on a sale of such ISO Shares), will be treated as ordinary income. Any additional gain will be capital gain, and treated as long-term capital gain or short-term capital gain depending upon the amount of time the ISO Shares were held by the optionee.

Alternative Minimum Tax. The difference between the exercise price and fair market value of the ISO Shares on the date of exercise is an adjustment to income for purposes of the AMT. Alternative minimum taxable income is determined by adjusting regular taxable income for certain items, increasing that income by certain tax preference items and reducing this amount by the applicable exemption amount. If a disqualifying disposition of the ISO Shares occurs in the same calendar year as exercise of the ISO, there is no AMT adjustment with respect to those ISO Shares. Also, upon a sale of ISO Shares that is not a disqualifying disposition, alternative minimum taxable income is reduced in the year of sale by the excess of the fair market value of the ISO Shares at exercise over the amount paid for the ISO Shares.

Nonstatutory Stock Options. An optionee will not recognize any taxable income at the time a nonstatutory stock option ("NSO") is granted. However, upon exercise of a NSO, the optionee must include in income as compensation an amount equal to the difference between the fair market value of the shares on the date of exercise and the optionee's exercise price. The included amount must be treated as ordinary income by the optionee and will be subject to income tax withholding by us if the optionee is an employee. Upon resale of the shares by the optionee, any subsequent appreciation or depreciation in the value of the shares will be treated as long-term or short-term capital gain or loss depending upon the amount of time the NSO shares were held by the optionee.

Restricted Stock Units. In general, no taxable income is realized upon the grant of a restricted stock unit ("RSU") award. The participant will generally include in ordinary income, which will be subject to income tax withholding by us if the participant is an employee, the fair market value of the shares of stock that are delivered to the participant upon settlement, which generally occurs at the time the RSUs vest. The 2010 Plan allows us to withhold shares from the RSU award to satisfy the participant's withholding tax obligation.

Restricted Stock. A participant receiving restricted shares for services recognizes taxable income when the shares become vested. Upon vesting, the participant will include in ordinary income an amount, which will be subject to income tax withholding by us if the participant is an employee, equal to the difference between the fair market value of the shares at the time they become substantially vested and any amount paid for the shares. Upon resale of the shares by the participant, subsequent appreciation or depreciation in the value of the shares is treated as long-term or short-term capital gain or loss depending on the amount of time the shares were held by the participant.

Stock Appreciation Rights. A grant of a stock appreciation right ("SAR") has no federal income tax consequences at the time of grant. Upon the exercise of SARs, the value of the shares or other consideration received is generally taxable to the recipient as ordinary income, which will be subject to income tax withholding by us if the recipient is an employee.

Tax Treatment for Green Dot

Subject to any withholding requirement, the standard of reasonableness, and (if applicable) Section 162(m) of the Code, we generally will be entitled to a deduction to the extent any participant in the 2010 Plan recognizes ordinary income from an award granted under the 2010 Plan.

ERISA Information

The 2010 Plan is not subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended. Accounting Treatment

We will recognize compensation expense in connection with awards granted under the 2010 Plan as required under applicable accounting standards. We currently recognize compensation expense associated with equity awards over an award's requisite service period and establishes fair value of equity awards in accordance with applicable accounting standards.

New Plan Benefits

Future awards to directors, executive officers, employees and consultants of Green Dot under the 2010 Plan are discretionary and cannot be determined at this time. As a result, the benefits and amounts that will be received or allocated under the 2010 Plan are not determinable at this time. We have therefore not included a table that reflects such awards.

PROPOSAL NO. 4

RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Our audit committee has appointed Ernst & Young LLP as Green Dot's principal independent registered public accounting firm to perform the audit of Green Dot's consolidated financial statements for fiscal year ending December 31, 2014. As a matter of good corporate governance, our audit committee has decided to submit its selection of principal independent registered public accounting firm to stockholders for ratification. In the event that this appointment of Ernst & Young LLP is not ratified by our stockholders, the audit committee will review its future selection of Ernst & Young LLP as Green Dot's independent registered public accounting firm.

Our audit committee first approved Ernst & Young LLP as our independent auditors in 2005, and Ernst & Young LLP audited Green Dot's financial statements for the year ended December 31, 2013. Representatives of Ernst & Young LLP are expected to be present at the meeting, in which case they will be given an opportunity to make a statement at the meeting if they desire to do so, and will be available to respond to appropriate questions.

Principal Accountant Fees and Services

We regularly review the services and fees from the independent registered public accounting firm. These services and fees are also reviewed with our audit committee annually. In accordance with standard policy, Ernst & Young LLP periodically rotates the individuals who are responsible for Green Dot's audit.

In addition to performing the audit of Green Dot's consolidated financial statements, Ernst & Young LLP provided various other services during the years ended December 31, 2013 and 2012. Our audit committee has determined that Ernst & Young LLP's provisioning of these services, which are described below, does not impair Ernst & Young LLP's independence from Green Dot. The aggregate fees billed for the years ended December 31, 2013 and 2012 for each of the following categories of services are as follows:

Fees Billed to Green Dot	2013	2012
Audit fees ⁽¹⁾	\$1,004,665	\$1,049,995
Audit related fees ⁽²⁾	30,000	500,470
Tax fees ⁽³⁾	614,557	354,866
All other fees	—	—
Total fees	\$1,649,222	\$1,905,331

“Audit fees” include fees for audit services primarily related to the audit of our annual consolidated financial statements; the review of our quarterly consolidated financial statements; consents, and other accounting and financial reporting consultation and research work billed as audit fees or necessary to comply with the standards of the Public Company Accounting Board (United States).

“Audit related fees” include fees for benefit plan audits and due diligence services related to completed or potential acquisitions.

“Tax fees” include fees for tax compliance and advice. Tax advice fees encompass a variety of permissible services, including technical tax advice related to federal and state income tax matters; assistance with sales tax; and assistance with tax audits.

Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services of Independent Registered Public Accounting Firm

Our audit committee's policy is to pre-approve all services provided by the independent registered public accounting firm. These services may include audit services, audit-related services, tax services and other services. Pre-approval is detailed as to the particular service or category of services and is generally subject to a specific budget. The independent registered public accounting firm and management are required to periodically report to the audit committee regarding the extent of services provided by the independent registered public accounting firm in accordance with this pre-approval, and the fees for the services performed to date.

All of the services relating to the fees described in the table above were approved by our audit committee.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The following discussion describes and analyzes our compensation program for the six current or former executive officers who are identified in the “Summary Compensation Table” below (our “named executive officers”). For 2013, our named executive officers were:

• Steven W. Streit, Chairman, President and Chief Executive Officer, or CEO;

• John L. Keatley, Chief Financial Officer (through August 2013);

• Grace T. Wang, Chief Financial Officer (starting November 2013);

• Konstantinos Sgoutas, Chief Revenue Officer;

• John C. Ricci, General Counsel and Secretary;

• Lewis B. Goodwin, Chief Executive Officer, Green Dot Bank;

Compensation Philosophy and Objectives

Our executive compensation program is designed to:

• attract and retain talented and experienced executives;

• motivate and reward executives whose knowledge, skills and performance are critical to our success;

• link compensation to company performance;

• link specific cash-based elements of compensation to our near-term financial performance; and

• align the interests of our executive officers and those of our stockholders by providing our executive officers with long-term incentives to increase stockholder value.

We have endeavored to create an executive compensation program that provides a mix of short-term and long-term payments and awards, cash payments and equity awards, and fixed and variable payments and awards that we believe appropriately motivates our executive officers. We view these components of compensation as related but distinct. In general, our compensation committee and our board of directors believe a significant portion of the value of total on-target compensation for each of our named executive officers should be in the form of performance-based compensation. In addition, our compensation committee and our board of directors strive to keep cash compensation at a competitive level while providing executive officers with the opportunity to be well rewarded through equity awards if our company performs well over time.

During 2013, we completed the gradual shift, commenced in 2011, to an executive compensation program design that emphasizes “at risk” or performance-based pay, as reflected in the sum of on-target short-term cash incentives plus grant date value of long-term equity awards as a percentage of the value of total on-target compensation (i.e., the sum of annual base salary, target annual variable cash incentive award value and grant date value of long-term, equity-based incentive awards). Our compensation committee targeted total on-target compensation and each of its components with reference to the 50th percentile of the peer group. The following table presents total on-target compensation and the on-target value of each these components for 2013. For more detail regarding our compensation committee’s decisions, see the narrative under “-Elements of Compensation” below.

Table of Contents

(1) This column excludes a discretionary bonus of \$200,000 that was paid to Mr. Streit in 2013, as discussed further below.

(2) Ms. Wang's employment commenced in November 2013 and, while her compensation was targeted with reference to the 50th percentile of the 2013 peer group, elements of her compensation were designed as inducements, as discussed further below. For example, Ms. Wang received a one-time sign-on bonus of \$310,000, which is not reflected in the table above

Our compensation committee believed that the allocation between salary and incentive cash compensation reflected above encouraged our executive officers to take appropriate risks aimed at improving our company's financial success and creating long-term stockholder value, helped align our executive officers' short-term cash incentives with the competitive practices of our 2013 peer group, and did not promote inappropriate risk taking. The amount and type of equity awards that were approved for 2013 reflected our compensation committee's desire to motivate performance of the executive officers and manage our burn rate and stockholder dilution.

From time to time, special business conditions may warrant additional compensation, such as discretionary sign-on bonuses, housing and travel allowances, to attract, retain or motivate executive officers. Examples of these conditions include the need to recruit or retain individuals with specific or unique talents, such as the hiring of our new Chief Financial Officer in 2013, and to recognize exceptional contributions. In these situations, we consider our business needs and the potential costs and benefits of special rewards. During 2013, we awarded Mr. Streit a discretionary cash bonus of \$200,000 in recognition of his accomplishments as our CEO, as discussed below.

Risk Considerations

We design our total compensation mix to encourage our executive officers to take appropriate risks aimed at improving our company's financial success and creating long-term stockholder value. We believe that the design and objectives of our executive compensation program provides an appropriate balance of incentives for executive officers and thereby discourages them from taking inappropriate risks. In this regard, our executive compensation program includes, among other things, the following design features:

- A balanced mix of fixed versus variable payments and awards, and cash payments versus equity awards;
- Alignment with the competitive practices reflected in the most relevant labor-market in which Green Dot competes;
- Variable payments solely based on achieving the company performance objectives of adjusted EBITDA and annual revenue and subject to our "clawback" right under certain circumstances;
- A balanced mix of short-term and long-term incentives, with short-term incentives currently representing a significantly lower proportion of the total mix; and
- Maximum award limits for annual incentive awards.

Our compensation committee has assessed our compensation philosophy and objectives and forms of compensation and benefits for all employees, including executives, and has concluded that our compensation policies and practices do not create risks that are reasonably likely to have a material adverse effect on our company.

Compensation Decision Process

Our compensation committee oversees the compensation of our named executive officers and our executive compensation programs and initiatives. Our compensation committee typically reviews executive officer compensation, both base salary levels and the target levels for variable cash incentive awards, in the second half of each fiscal year, so that it can conduct a formal benchmarking process using compensation data for the most recently completed year. In connection with this review, our compensation committee considers any input it may receive from our CEO (with respect to executive officers other than himself) in evaluating the performance of each executive officer and sets each executive officer's total target cash compensation for the current year based on this review and the other factors described below. We pay cash incentive awards under our incentive bonus plan, which is designed to compensate our named executive officers for their contribution to achieving financial goals contained in our company financial plan, as explained in further detail below. Authority to make equity award grants to our named executive officers currently rests with our compensation committee.

We have based most, if not all, of our prior compensation determinations, including those made for 2013, on a variety of factors, including our performance, our financial condition and available resources, individual performance, our need for a particular position to be filled and the recommendations of our CEO (other than with respect to his own

compensation). As discussed under “-Compensation Surveys and Consultants” below, for 2013, the compensation committee engaged a compensation consultant and once again conducted a formal benchmarking process. In establishing compensation for executive officers other than our CEO, our compensation committee gives weight to

27

Table of Contents

the recommendations of our CEO, but final decisions about the compensation of our named executive officers are typically made solely by our compensation committee

At our 2011 annual meeting of stockholders, we requested stockholders to cast a non-binding advisory vote on the compensation of our executive officers as described in the proxy statement for our 2011 annual meeting of stockholders, the so-called “say-on-pay” vote. Of the votes cast on the say-on-pay proposal, over 99% were voted in favor of our executive compensation. Our compensation committee reviewed and considered the result of the vote and concluded that it signified stockholder approval of the above-stated goals of our executive compensation and of our efforts to achieve those goals. In light of the result of the say-on-pay vote, our compensation committee took no action to change the executive compensation decisions made with respect to 2011 and in 2012 and 2013 it maintained the same general structure for executive compensation.

Compensation Surveys and Consultants

Our compensation committee retained Barney & Barney LLC (“Barney & Barney”), to help it establish industry compensation benchmarks and to assist our compensation committee in designing its executive compensation program for 2013. In this regard, our compensation committee engaged Barney & Barney to assist in the selection of an appropriate peer group for executive compensation benchmarking purposes and to provide its recommendations on competitive 2013 peer group pay practices.

For 2013, Barney & Barney compiled the following peer group of companies under the direction of our compensation committee. This group (the “proxy peer group”) is identical to our “proxy peer group” for 2012 and primarily consists of larger companies (or divisions of companies) in the U.S. payment processor industry that are viewed to be direct competitors for executive talent.

Alliance Data Systems, Inc.	Global Payments Inc.	Total System Services, Inc.
Capital One Financial Corporation	Heartland Payment Systems, Inc.	Visa Inc.
Discover Financial Services	MasterCard Incorporated	The Western Union Company
Euronet Worldwide, Inc.	MoneyGram International, Inc.	Wright Express Corporation
Global Cash Access, Inc.	Netspend Holdings, Inc.	

The 2013 peer group also included a survey data peer group consisting of 62 similarly-sized technology companies with 2012 revenues ranging from \$400 million to \$1.0 billion.

For 2013, the proxy peer group was used to inform our compensation committee of pay levels and practices most relevant for the labor market in which Green Dot competes. Our compensation committee supplemented its review of the proxy peer group data, which is limited to publicly-disclosed compensation information for typically the top five highest paid officers (“NEOs”) of the companies within the proxy peer group, with information from the survey data peer group because, among other reasons, compensation information for some executive officer or senior management comparisons was not available from every company within the peer group. The survey data peer group was primarily used to provide our compensation committee with information on pay levels and practices for NEOs plus many other positions at growth-oriented companies that would not be publicly-disclosed in SEC filings, as a means of accounting for Green Dot's stage of development relative to the companies in the proxy peer group.

In reviewing the competitive compensation information obtained from the 2013 peer group, our compensation committee, with the assistance of Barney & Barney, used various analytical methods to account for the size of Green Dot relative to the larger companies in the 2013 peer group. Benchmarks were established for certain of our executive officers with respect to the proxy peer group through regression analyses of total compensation paid to comparable executives at companies within the 50th percentile of proxy peer group, which were designed to account for larger size of the companies within that group relative to Green Dot. Due to the data limitations described above, our compensation committee did not establish benchmarks for our Chief Revenue Officer or the Chief Executive Officer of Green Dot Bank with respect to the proxy peer group. Because the companies in the survey data peer group are comparable in size to Green Dot, our compensation committee targeted total on-target compensation for named executive officers with reference to the 50th percentile of total compensation paid to comparable executives at companies within the survey data peer group. Our compensation committee believed that setting compensation with reference to the regressed proxy peer group benchmarks and the 50th percentile of the survey data peer group (the “reference level”) would appropriately balance its objectives of promoting retention, providing appropriate performance

incentives and aligning executives' interests with those of our stockholders. Since the regressed proxy peer group benchmarks were materially consistent with the reference level, for purposes of simplifying the following discussion, references to the reference level include proxy peer group benchmarks.

Barney & Barney conducted a study to develop its recommendations on competitive 2013 peer group pay practices. Based on this study, Barney & Barney determined that long-term equity award values for our named executive officers on average were significantly below the reference level for the 2013 peer group. Our compensation committee's cash-based executive compensation decisions for 2013 were generally consistent with Barney & Barney's recommendations, although our compensation committee's decisions were not solely based on Barney & Barney's recommendations and, as discussed below, our compensation committee decided to target a higher level of long-term equity award value for our CEO than was recommended by Barney & Barney.

Elements of Compensation

Our current executive compensation program consists of the following primary components:

- base salary;
- variable cash incentive and other cash awards linked to corporate objectives; and
- periodic grants of long-term equity-based awards.

Base Salary. We seek to provide each member of our senior management with a base salary that is appropriate for his or her roles and responsibilities, and that provides him or her with a level of income stability. Our compensation committee reviews the base salaries of our executive officers annually, with significant input from our CEO, to determine whether any adjustment is warranted. In considering a base salary adjustment, our compensation committee considers our company's overall performance and the executive officer's performance, individual contribution, changes in responsibilities and prior experience. Our compensation committee may also take into account the executive officer's current salary and equity ownership and the amounts paid to other executive officers of our company.

During 2013, our compensation committee reviewed and determined not to raise the annual base salaries for each of our named executive officers. In evaluating the annual base salaries of our named executive officers, our compensation committee took into account 2013 peer group data and each individual's scope of responsibility, performance and other contributions and prior experience. Based on its evaluation, our compensation committee determined that the base salaries of each executive officer continued to align with the competitive practices of our 2013 peer group and serving their retention purposes.

Our compensation committee used a different approach to determine Ms. Wang's annual base salary. In this case, our compensation committee targeted the level of Ms. Wang's annual base salary with reference to the 50th percentile of the 2013 peer group as well as her annual base salary with her then-current employer. Our compensation committee used this approach to attract Ms. Wang because it believed that it would need to offer her compensation that would lessen the financial impact of her departure from her then-current employer. In this regard, our compensation committee also awarded Ms. Wang a one-time sign-on bonus of \$310,000 as an inducement to accept our offer of employment. We also agreed to reimburse her for relocation expenses of up to \$150,000, subject to her agreement to repay all or a proportion of the reimbursements should she leave our company prior to completing 12 months of service (the proportion being dependent on how many months of employment she served at the time of her departure). The actual base salaries paid to our named executive officers in 2013 are set forth in the "Summary Compensation Table" below.

Cash Incentive Awards. We utilize cash bonuses to incentivize our executive officers to achieve company performance goals on an annual basis, and to reward extraordinary accomplishments. We establish bonus targets for variable cash incentive awards annually, following the end of the year, and we pay bonuses following the end of the performance period (i.e., 2013). Each executive officer's on-target bonus amount is a pre-determined amount that is intended to provide a competitive level of compensation if the executive officer achieves his performance targets. Performance targets consist of one or more company performance objectives. In general, we use performance targets to ensure that our executive compensation program aligns the interests of each of our named executive officers with those of our stockholders and that we provide our named executive officers with incentives to maximize their efforts throughout the year. Our annual variable cash incentive awards are intended to compensate our named executive officers for their contribution to achieving financial goals for the performance period contained in our company financial plan. We determine the actual bonus award for each of our named executive officers according to the level of achievement of company performance objectives. For more information about our variable cash incentive awards, see

“2013 Executive Officer Incentive Bonus Plan”.

Our compensation committee may grant non-plan cash incentive awards at any time during the year to reward an executive officer who accomplishes pre-established extraordinary or nonrecurring business objectives on behalf of our company. To date, the compensation committee has granted these awards infrequently. In September 2013, our compensation committee approved for Steven W. Streit a discretionary cash bonus of \$200,000 in recognition of his

29

Table of Contents

accomplishments as our CEO. In connection with this decision, our compensation committee noted Mr. Streit's leadership and performance through an uncertain and challenging period in our company's history, our company's success toward achieving its strategic objectives and the extent of stockholder value creation in the 12 months prior to the award.

The actual cash incentive awards paid to our named executive officers in 2013 are set forth in the "Summary Compensation Table" below under the column captioned "Non-Equity Incentive Plan Compensation."

2013 Executive Officer Incentive Bonus Plan. We calculated all variable cash incentive awards under our 2013 Executive Officer Incentive Bonus Plan by multiplying the participant's on-target bonus amount by the percentage of achievement of corporate objectives. Our compensation committee evaluated on-target bonus amounts with reference to the reference level of the 2013 peer group, using its subjective judgment to determine the amount of bonus sufficient to continue to align the interests of each named executive officer with those of those of our stockholders and provide incentives to maximize their efforts throughout the year. For 2013, our compensation committee set individual 2013 annual on-target bonus amounts for the named executive officers ranging from 50% to 100% of their respective annual base salaries, based on its evaluation of competitive 2013 peer group pay practices and its subjective judgment taking into account the available information, including our CEO's recommendations. Our named executive officers who are responsible for revenue generation-related functions were gathered at the top of the range and the others were gathered toward the mid- to low-end of the range, reflecting our compensation philosophy to link specific cash based elements of compensation to our near term financial performance, and to increase the link the compensation to company performance where doing so would have the greatest impact on revenue generation. The on-target bonus amounts for our named executive officers for 2013 were as follows: Mr. Streit -- \$555,000; Mr. Keatley -- \$297,500; Mr. Sgoutas -- \$375,000; Mr. Ricci -- \$180,000 and Mr. Goodwin -- \$210,000.

For 2013, our compensation committee, in consultation with Barney & Barney, determined to maintain the same incentive bonus plan structure it used in 2012, but elected to change one of the two company performance objectives thereunder, as explained below. The 2013 Executive Officer Incentive Bonus Plan provides for annual payments based on two company performance measures, with an opportunity to earn up to 150% of the on-target bonus amount. Our compensation committee believed this plan is consistent with prevailing market practices among companies within our peer group and aligns with our compensation philosophy and objectives. As explained below, the actual amount of any payouts under variable cash incentive awards to a named executive officer is determined by multiplying the on-target bonus payment by a "multiplier" (which could be more or less than 100% but could not exceed 150%) that could vary depending on the percentage of achievement of the two company performance objectives. Our board of directors approves a financial plan for our company for each fiscal year and, in practice, that action resets our cash incentive compensation plan for that year, establishing the corporate objective(s) under the plan. For 2013, our named executive officers were eligible to earn bonuses based upon attainment of the annual goals contained in our company financial plan for:

Adjusted EBITDA, which is calculated as earnings before interest, taxes, depreciation and amortization, employee stock-based compensation expense, stock-based retailer incentive compensation expense and other non-recurring items, reflected in our consolidated statements of operations; and

annual revenue, which is calculated by adding the amount of stock-based retailer incentive compensation to the amount of total operating revenues reflected in our consolidated statements of operations.

Adjusted EBITDA and annual revenue were chosen as corporate objectives under the plan because we believed them to be the best indicators of financial success and stockholder value creation for our company. Our compensation committee also selected these measures because improvement in these measures aligns with our overall growth strategy, we and our investors see these measures as among the most critical of our financial information, and these measures balance growth and profitability. We also believe that the focus on adjusted EBITDA as the corporate objective discourages inappropriate risk taking by our executives as it encourages them to take a balanced approach that focuses on corporate profitability. In connection with establishing the 2013 Executive Officer Incentive Bonus Plan, the compensation committee decided to replace the company performance objectives it had used under prior plans, profit before tax, with adjusted EBITDA. Our compensation committee made this change because it believed that adjusted EBITDA more closely aligns with increases in stockholder value than PBT, and is a clearer objective

since we report this non-GAAP financial measure in our earnings releases on a quarterly basis.

The company performance objectives were set at levels that were intended to reward our named executive officers for achieving results that met our expectations. We believe that, to provide for an appropriate incentive effect, the goals should be such that to achieve 100% of the objective, the performance for the performance period must be aligned with our company financial plan, and that our named executive officers should not be rewarded for company performance that did not approximate our company financial plan. Accordingly, our cash incentive compensation plan was designed

Table of Contents

to pay our named executive officers nothing if our company failed to achieve at least 90% of both company performance objectives. The fact that this threshold level was not achieved last year - resulting in no amounts were paid to our named executive officers under the plan in 2013 -- reflects the general degree of difficulty our compensation committee seeks to establish when setting company performance objectives under its annual cash variable incentive programs.

For 2013, the adjusted EBITDA and annual revenue targets under the plan were \$99.6 million (10.5% year-over-year decline) and \$530.0 million (13.2% year-over-year decline), respectively, and actual results, in each case as adjusted for the items below, were \$99.7 million (10.4% year-over-year decline) and \$582.3 million (6.6% year-over-year growth), respectively. We determined that the "multiplier" was 113% (100% achievement of adjusted EBITDA target and 110% achievement of annual revenue target) for 2013. Accordingly, as a result of application of the above formula, 113% of the on-target bonus amounts were paid to our named executive officers under our 2013 Executive Officer Incentive Bonus Plan. Our compensation committee evaluated this outcome and, taking into account its philosophy of linking payment to company performance, determined not to award discretionary or other bonuses, except for the discretionary bonus paid to our CEO described above.

Long-Term Equity-Based Awards. We utilize long-term equity awards to ensure that our named executive officers have a continuing stake in our long-term success. We currently use two forms of equity for long-term equity incentive compensation: stock options and restricted stock units ("RSUs"). Because we award our executive officers stock options with an exercise price equal to or greater than the closing price per share of our Class A common stock on the date of grant, these options will have value to our named executive officers only if the market price of our common stock increases after the date of grant. Typically, our stock options vest and become exercisable as to 25% of the shares underlying the option on the first anniversary of the vesting commencement date, with the remainder of the shares vesting monthly in equal installments over the next three years. Our compensation committee believes that these features of the awards align the interests of our named executive officers with those of the stockholders because they create the incentive to build stockholder value over the long-term.

RSUs represent the right to receive one share of Class A common stock for each RSU vested upon the settlement date, which is the date on which certain conditions, such as continued employment with us for a pre-determined length of time, are satisfied. As discussed further below, starting in 2013, we elected to award a portion of the named executive officers' equity incentive award value in the form of RSUs, rather than solely granting stock options consistent with our past practices. This change was made to enhance the retention of named executive officers and balance the more volatile rewards associated with stock options. Our compensation committee believes that RSUs align the interests of the named executive officers with the interests of the stockholders because the value of these awards appreciate if the trading price of our common stock appreciates, and also have retention value even during periods in which our trading price does not appreciate, which supports continuity in the senior management team.

Equity awards also improve our ability to attract and retain our executives by providing compensation that is competitive with market levels. Our compensation committee seeks to provide equity incentive awards that are generally competitive with market practice, which it determined in 2013 by reference to the practice among companies in our 2013 peer group. We typically grant equity awards to executive officers upon hiring or promotion, in connection with a significant change in responsibilities, to recognize extraordinary performance, or to achieve internal equity. At least annually, our compensation committee reviews the equity ownership of our executive officers and considers whether to make additional awards. Our compensation committee takes into account, on a subjective basis, various factors in connection with making its determination. These factors include the responsibilities, past performance and anticipated future contributions of the executive officer and the competitiveness of the executive officer's overall compensation package, as well as the executive officer's existing equity holdings, the extent to which these holdings are vested, the potential reward to the executive officer if the market value of our common stock appreciates, and the recommendations of our CEO. Beginning in 2012, our compensation committee began taking into account "burn rate" as an additional factor in making its determinations with respect to long-term equity awards. Burn rate is calculated by dividing the total number of shares granted under all of our equity incentive plans during a period by the weighted average number of shares of Class A common stock outstanding during that period, and is expressed as a percentage. In 2013, our compensation committee determined to target long-term equity award grant guideline

levels for our named executive officers with reference to the reference level of the 2013 peer group, noting that Barney & Barney had determined that, in each case, the then-existing long-term incentive values for our named executive officers were significantly below the reference level for the comparable position at the companies within the 2013 peer group.

The circumstances arising from the decline in the trading price of our Class A common stock during the second half of 2012 contributed to changes in the design of our executive compensation program in 2013. By early 2013, our stock price had not improved significantly and a large number of our outstanding stock options were deeply “out of the money,” providing very limited incentive and retentive value. Our compensation committee evaluated various alternatives to provide our employees with the opportunity to hold long-term equity awards that over time had a greater

Table of Contents

potential to increase in value than their existing stock options. Following these evaluations, in order to support the goal of retention, our compensation committee authorized the grant of a limited number of equity awards to executive officers and other employees ahead of schedule (“off-cycle awards”), and to reduce the value of awards approved for each recipient at the end of the annual review cycle by an amount corresponding to the value of his or her off-cycle award. After taking into account the then-recent volatility in the trading price of our common stock, our burn rate, management’s recommendations and other factors discussed above, our compensation committee granted to our executive officers off-cycle awards, including both stock options and RSUs to some executive officers. Our compensation committee also approved a stock option exchange program, but executive officers were not eligible to participate in this program.

Following completion of the annual review cycle in the second half of 2013, the “netting” of off-cycle awards and consideration of the factors mentioned above for each named executive officer, our compensation committee determined to grant additional equity awards to each of our named executive officers in October 2013. After giving effect to the grant of these additional equity awards, the named executive officers, other than the Chief Revenue Officer, received all or the substantial majority of the value of their equity compensation in the form of RSUs and the remainder in the form of stock options, while our Chief Revenue Officer received approximately 75% of his equity compensation in 2013 in the form of stock options. These percentages are based on the grant date fair value of the shares of common stock underlying the RSUs and the grant date fair value of the stock options, computed in accordance with FASB ASC Topic 718. A summary of the equity awards to named executive officers is set forth below, as well as in the “Grant of Plan-Based Awards - 2013” table, which provides additional information, including grant date fair values for each award.

For all of 2013, our compensation committee approved grants of options to purchase 75,000, 50,000, 25,000 and 25,000 shares of our Class A common stock to Messrs. Sgoutas, Keatley, Goodwin and Ricci, respectively, each with an exercise price of \$16.34 per share, the closing price per share of our Class A common stock on the grant date. Mr. Sgoutas was also granted an option to purchase an additional 25,000 shares with an exercise price of \$16.13 per share. In addition, Messrs. Streit, Sgoutas, Goodwin and Ricci were awarded RSUs representing a total of 200,000, 10,000, 15,000 and 17,500 shares of our Class A common stock. In general, the determination of the number of shares of our Class A common stock underlying each stock option grant and RSU was made, in part, with reference to the value attributable to the reference level for the comparable position at the companies within the 2013 peer group, which suggested that a higher level of awards were appropriate. The levels were also designed to make executive compensation program competitive and promote retention while keeping the burn rate and dilution associated with our equity compensation programs within a range our compensation committee deemed appropriate. In the case of Mr. Streit’s award, our compensation committee decided to target a higher level of long-term equity award value for our CEO than was recommended by Barney & Barney solely to align our CEO’s regular annual long-term equity-based compensation with 2013 peer group practices. The grant date value of RSUs award to Mr. Streit aligned his long-term equity-based compensation exceeded the 75th percentile of our 2013 peer group. Our compensation committee believed such a significantly larger award was appropriate in light of the fact that Mr. Streit had not been granted and equity awards since April 2011 and his only unvested stock option had an exercise price of \$45.31 per share and for the same reasons he was awarded a discretionary cash bonus.

In connection with the hiring of Ms. Wang as our new Chief Financial Officer, we awarded Ms. Wang options to purchase 100,000 shares of our Class A common stock, with an exercise price of \$24.11 per share, and RSUs representing 100,000 shares of our Class A common stock. Our compensation committee targeted the value of these awards with reference to the 50th percentile of the 2013 peer group because our compensation committee believed that it would need to offer her a competitive level of long-term equity compensation in order to attract her and properly incentivize her ongoing performance.

Except for the grant to Ms. Wang, each of the stock option grants and awards of RSUs described above were made under our 2010 Equity Incentive Plan. Ms. Wang’s stock option and RSUs were granted outside of the 2010 Equity Incentive Plan pursuant to New York Stock Exchange’s “inducement award” exemption. Each stock option vested and became exercisable as to 25% of the shares underlying the option on the first anniversary of the date of grant, and the remainder of the shares vesting monthly in equal installments over the next three years. Each of these stock options

has a ten-year term. Shares of our Class A common stock are issued to holders of RSUs as those awards vest. The vesting schedule for RSUs granted to our named executive officers in 2013 provided that each award vests in four equal annual installments

Severance and Change of Control Agreements

In connection with our initial public offering, we entered into severance arrangements with our then-current named executive officers. These arrangements included severance pay and accelerated vesting of equity awards. These arrangements were designed to promote retention of our senior executive team. As our organization has matured and there have been transitions in management, we have not offered these arrangements to newly-hired executive officers. As a result, only certain executive officers continue to have these arrangements. Details of each of our named executive

Table of Contents

officer's severance arrangements, including estimates of amounts payable in specified circumstances, are disclosed under “-Severance and Change of Control Agreements” below. The value of our severance arrangements for our named executive officers was not a material factor in our compensation committee's or our board of directors' determination of the level of any other element of their compensation.

We have routinely granted and will continue to grant our named executive officers stock options, RSUs and other equity awards under our equity incentive plans. As further described in “-Severance and Change of Control Agreements” below, some of these equity award agreements for our executive officers provide for acceleration of vesting of the awards for up to 100% of the unvested shares in the event of a change of control.

Other Executive Benefits and Perquisites

During 2013, we provided the following benefits to our executive officers on the same basis as our other eligible employees:

- health insurance;
- vacation, personal holidays and sick days;
- life insurance and supplemental life insurance;
- short-term and long-term disability insurance; and
- a 401(k) retirement plan.

We believe these benefits are generally consistent with those offered by other companies and specifically with those companies with which we compete for employees.

In addition to the foregoing, we reimburse Mr. Streit's cost of insurance premiums under our healthcare plans, continuing the benefit we provided him under his employment agreement, which expired in January 2004. In connection with the hiring of Ms. Wang as our new Chief Financial Officer, we also agreed to reimburse Ms. Wang for relocation expenses of up to \$150,000, subject to her agreement to repay all or a proportion of the reimbursements should she leave our company prior to completing 12 months of service (the proportion being dependent on how many months of employment she served at the time of her departure). Our compensation committee determined that it should offer this benefit to attract Ms. Wang because it believed that we would need to offer her compensation that would neutralize the cash impact to her of relocating from Europe.

Other Compensation Practices and Policies

Tax Considerations. Section 162(m) of the Internal Revenue Code of 1986, as amended disallows a tax deduction by any publicly-held corporation for individual compensation exceeding \$1.0 million in any taxable year for its chief executive officer and each of our other named executive officers (other than its chief financial officer), unless compensation is performance-based. Prior to the time we became a publicly-held company, our board of directors had not taken the deductibility limit imposed by Section 162(m) into consideration in setting compensation. Our 2010 Equity Incentive Plan is structured so that performance-based equity compensation deemed paid to covered officers in connection with the exercise of stock option grants made under the plan will qualify as performance-based compensation that will not be subject to the \$1.0 million limitation. Although our compensation committee generally seeks to structure compensation payable to covered officers to meet the deductibility requirements under Section 162(m), in order to maintain flexibility in compensating executive officers in a manner designed to promote varying corporate goals, our compensation committee has not adopted a policy that all compensation payable to covered officers must be deductible on our federal income tax returns. In addition, our compensation committee cannot ensure that compensation intended to qualify for deductibility under Section 162(m) will in fact be deductible because a number of requirements must be satisfied in order for the compensation to qualify, and uncertainties as to the application and interpretation surrounding this section currently exist.

Policy Regarding the Timing of Equity Awards. We have no program, plan or practice pertaining to the timing of stock option grants to executive officers relative to the timing of the release of material nonpublic information. We do not, as of yet, have any plans to implement such a program, plan or practice.

Policy Regarding Restatements. We do not have a formal policy regarding adjustment or recovery of awards or payments if the relevant performance measures upon which they are based are restated or otherwise adjusted in a manner that would reduce the size of the award or payment. Under those circumstances, our board of directors or our compensation committee would evaluate whether adjustments or recoveries of awards were appropriate based upon

the facts and circumstances surrounding the restatement or adjustment.

Represents possible cash incentive awards under our 2013 Executive Officer Incentive Bonus Plan upon our achievement of adjusted EBITDA and annual revenue goals. Actual awards are equal to the executive officers' on-target bonus payment multiplied by a percentage (which may be more or less than 100% but shall not exceed 150%) that varies depending upon achievement of the corporate objectives (i.e., adjusted EBITDA and annual revenue targets). Each of the corporate objectives is given equal weight, except that no bonus was payable if both (1) corporate objectives were not achieved at a level of at least 90%. Under the terms of the plan, the actual award could have ranged from 50% of the executive officers' on-target bonuses amounts if both corporate objectives would have been achieved at the 90% level to 150% of those amounts if both corporate objectives would have been achieved at the 120% level, with the potential for an incrementally larger or smaller actual award within the range based on higher or lower levels of achievement, respectively, above or below the low- and high-end of the range, respectively. Bonuses were payable on an annual basis.

TRANSACTIONS WITH RELATED PARTIES, FOUNDERS AND CONTROL PERSONS

From January 1, 2013 to the present, there have been no transactions, and there are currently no proposed transactions, in which the amount involved exceeds \$120,000 to which we or any of our subsidiaries was (or is to be) a party and in which any director, executive officer, holder of more than 5% of our capital stock, or any immediate family member of or person sharing the household with any of these individuals, had (or will have) a direct or indirect material interest, except for payments set forth under "Executive Compensation" or Proposal No. 1, "Election of Directors - Director Compensation," above.

Review, Approval or Ratification of Transactions with Related Parties

We have adopted a written related-party transactions policy which sets forth our policies and procedures regarding the identification, review, consideration and approval or ratification of "related person transactions." Our audit committee reviews transactions that may be "related person transactions," which are transactions between us and any related persons in which the aggregate amount involved exceeds or may be expected to exceed \$120,000, and in which the related person has or will have a direct or indirect material interest. For purposes of the policy, a related person is any executive officer, director, nominee for director, or stockholder of ours holding more than 5% of any class of our voting securities, in each case since the beginning of the previous fiscal year, and their immediate family members. Under the policy, absent any facts or circumstances indicating special or unusual benefits to the related person, the following transactions, arrangements or relationships need not be approved by our audit committee pursuant to the policy:

- employment by us of an executive officer if:
 - the related compensation is required to be reported in our proxy statement, or
 - the executive officer is not an immediate family member of another of our executive officers or directors, the related compensation would be reported in our proxy statement if the executive officer were a "named executive officer," and our compensation committee approved or recommended that our board of directors approve the compensation;
 - any compensation paid to a director if the compensation is required to be reported in our proxy statement;
 - any transaction where the related person's interest arises solely from the ownership of our common stock and all holders of our common stock received the same benefit on a pro-rata basis;
 - any transaction where the rates or charges involved are determined by competitive bids;
 - any transaction involving the rendering of services as a common or contract carrier, or public utility, at rates or charges fixed in conformity with law or government authority;
 - any transaction involving services as a bank depository of funds, transfer agent, registrar, trustee under a trust indenture or similar services;
 - any charitable contribution, grant or endowment by us to a charitable organization, foundation or university at which a related person's only relationship is as an employee (other than as an executive officer);
 - any charitable contribution, grant or endowment by us to a charitable organization, foundation or university at which a related person is a trustee, director or executive officer, if the aggregate amount involved in any fiscal year does not exceed \$120,000;
 - any non-discretionary matching contribution, grant or endowment made pursuant to a matching gift program;
 - ordinary course business travel expenses, advances and reimbursements; and
 - any indemnification payments made pursuant to our insurance policies, certificate of incorporation or bylaws or as otherwise approved by our board of directors.

Under the policy, members of our legal department review transactions involving related persons that do not fall into one of the above categories. If they determine that a related person could have a significant interest in a transaction, the transaction is referred to our audit committee. In addition, transactions may be identified through our code of business conduct and ethics or our other policies and procedures, and reported to the audit committee. The audit committee determines whether the related person has a material interest in a transaction and may approve, ratify, reject, rescind or take other action with respect to the transaction.

"Householding" - Stockholders Sharing the Same Last Name and Address

The SEC has adopted rules that permit companies and intermediaries (such as brokers) to implement a delivery procedure called "householding." Under this procedure, multiple stockholders who reside at the same address may receive a single copy of our annual report and proxy materials, including the Notice of Internet Availability, unless the

affected stockholder has provided contrary instructions. This procedure reduces printing costs and postage fees, and helps protect the environment as well.

Table of Contents

This year, a number of brokers with account holders who are Green Dot stockholders will be “householding” our annual report and proxy materials, including the Notice of Internet Availability. A single Notice of Internet Availability and, if applicable, a single set of annual report and other proxy materials will be delivered to multiple stockholders sharing an address unless contrary instructions have been received from one or more of the affected stockholders. Once you have received notice from your broker that it will be “householding” communications to your address, “householding” will continue until you are notified otherwise or until you revoke your consent. Stockholders may revoke their consent at any time by contacting Broadridge, either by calling toll-free (800) 542-1061, or by writing to Broadridge, Householding Department, 51 Mercedes Way, Edgewood, New York, 11717.

Upon written or oral request, Green Dot will undertake to promptly deliver a separate copy of the Notice of Internet Availability and, if applicable, annual report and other proxy materials to any stockholder at a shared address to which a single copy of any of those documents was delivered. To receive a separate copy of the Notice of Internet Availability and, if applicable, annual report and other proxy materials, you may write or call Green Dot's Investor Relations department at 3465 East Foothill Blvd., Pasadena, CA 91107, Attn: Investor Relations, telephone number (626) 765-2427.

Any stockholders who share the same address and currently receive multiple copies of Green Dot's Notice of Internet Availability or annual report and other proxy materials who wish to receive only one copy in the future can contact their bank, broker or other holder of record to request information about householding or Green Dot's Investor Relations department at the address or telephone number listed above.

The board of directors does not presently intend to bring any other business before the meeting and, so far as is known to the board of directors, no matters are to be brought before the meeting except as specified in the notice of the meeting. As to any business that may arise and properly come before the meeting, however, it is intended that proxies, in the form enclosed, will be voted in respect thereof in accordance with the judgment of the persons voting such proxies.

GREEN DOT CORPORATION
2010 EQUITY INCENTIVE PLAN

As Adopted June 4, 2010

As Amended May , 2014

1.PURPOSE. The purpose of this Plan is to provide incentives to attract, retain and motivate eligible persons whose present and potential contributions are important to the success of the Company, and any Parents and Subsidiaries that exist now or in the future, by offering them an opportunity to participate in the Company's future performance through the grant of Awards. Capitalized terms not defined elsewhere in the text are defined in Section 27.

2.SHARES SUBJECT TO THE PLAN.

2.1 Number of Shares Available. Subject to Sections 2.6 and 21 and any other applicable provisions hereof, 9,930,471¹ shares are available for grant and issuance under the Plan.

2.2 Lapsed, Returned Awards. Shares subject to Awards, and Shares issued under the Plan under any Award, will again be available for grant and issuance in connection with subsequent Awards under this Plan to the extent such Shares: (a) are subject to issuance upon exercise of an Option or SAR granted under this Plan but which cease to be subject to the Option or SAR for any reason other than exercise of the Option or SAR; (b) are subject to Awards granted under this Plan that are forfeited or are repurchased by the Company at the original issue price; (c) are subject to Awards granted under this Plan that otherwise terminate without such Shares being issued; or (d) are surrendered pursuant to an Exchange Program. To the extent an Award under the Plan is paid out in cash rather than Shares, such cash payment will not result in reducing the number of Shares available for issuance under the Plan. Shares used to pay the exercise price of an Award or to satisfy the tax withholding obligations related to an Award will not become available for future grant or sale under the Plan. For the avoidance of doubt, Shares that otherwise become available for grant and issuance because of the provisions of this Section 2.2 shall not include Shares subject to Awards that initially became available because of the substitution clause in Section 21.2 hereof.

2.3 Minimum Share Reserve. At all times the Company shall reserve and keep available a sufficient number of Shares as shall be required to satisfy the requirements of all outstanding Awards granted under this Plan.

2.4 Limitations. No more than 25,000,000 Shares shall be issued pursuant to the exercise of ISOs.

2.5 Adjustment of Shares. If the number of outstanding Shares is changed by a stock dividend, recapitalization, stock split, reverse stock split, subdivision, combination, reclassification or similar change in the capital structure of the Company, without consideration, then (a) the number of Shares reserved for issuance and future grant under the Plan set forth in Section 2.1, (b) the Exercise Prices of and number of Shares subject to outstanding Options and SARs, (c) the number of Shares subject to other outstanding Awards, (d) the maximum number of shares that may be issued as ISOs set forth in Section 2.4, (e) the maximum number of Shares that may be issued to an individual or to a new Employee in any one calendar year set forth in Section 3 and (f) the number of Shares that are granted as Awards to Non-Employee Directors as set forth in Section 12, shall be proportionately adjusted, subject to any required action by the Board or the stockholders of the Company and in compliance with applicable securities laws; provided that fractions of a Share will not be issued.

Adjusted to reflect (i) the authorization of 1,255,571, 1,063,248, 1,079,831 and 1,131,821 additional Shares as of January 1, 2011, January 1, 2012, January 1, 2013 and January 1, 2014, respectively, pursuant to Section 2.4 of the Plan prior to its amendment on May , 2014; and (ii) the authorization of 3,400,000 additional Shares for issuance under the Plan approved by the Company's stockholders on May , 2014.

Table of Contents

3.ELIGIBILITY. ISOs may be granted only to Employees. All other Awards may be granted to Employees, Consultants, Directors and Non-Employee Directors of the Company or any Parent or Subsidiary of the Company; provided such Consultants, Directors and Non-Employee Directors render bona fide services not in connection with the offer and sale of securities in a capital-raising transaction. No Participant will be eligible to receive more than two million (2,000,000) Shares in any calendar year under this Plan pursuant to the grant of Awards except that new Employees of the Company or of a Parent or Subsidiary of the Company (including new Employees who are also officers and directors of the Company or any Parent or Subsidiary of the Company) are eligible to receive up to a maximum of four million (4,000,000) Shares in the calendar year in which they commence their employment.

4.ADMINISTRATION.

4.1 Committee Composition; Authority. This Plan will be administered by the Committee or by the Board acting as the Committee. Subject to the general purposes, terms and conditions of this Plan, and to the direction of the Board, the Committee will have full power to implement and carry out this Plan, except, however, the Board shall establish the terms for the grant of an Award to Non-Employee Directors. The Committee will have the authority to:

- (a) construe and interpret this Plan, any Award Agreement and any other agreement or document executed pursuant to this Plan;
- (b) prescribe, amend and rescind rules and regulations relating to this Plan or any Award;

- (d) Awards may be exercised (which may be based on performance criteria), any vesting acceleration or waiver of forfeiture restrictions, and any restriction or limitation regarding any Award or the Shares relating thereto, based in each case on such factors as the Committee will determine;

- (f) determine the Fair Market Value in good faith, if necessary;
 - determine whether Awards will be granted singly, in combination with, in tandem with, in replacement of, or as

4.2 Committee Interpretation and Discretion. Any determination made by the Committee with respect to any Award shall be made in its sole discretion at the time of grant of the Award or, unless in contravention of any express term of the Plan or Award, at any later time, and such determination shall be final and binding on the Company and all persons having an interest in any Award under the Plan. Any dispute regarding the interpretation of the Plan or any Award Agreement shall be submitted by the Participant or Company to the Committee for review. The resolution of such a dispute by the Committee shall be final and binding on the Company and the Participant. The Committee may delegate to one or more executive officers the authority to review and resolve disputes with respect to Awards held by Participants who are not Insiders, and such resolution shall be final and binding on the Company and the Participant.

4.3 Section 162(m) of the Code and Section 16 of the Exchange Act. When necessary or desirable for an Award to qualify as “performance-based compensation” under Section 162(m) of the Code the Committee shall include at least two persons who are “outside directors” (as defined under Section 162(m) of the Code) and at least two (or a majority if more than two then serve on the Committee) such “outside directors” shall approve the grant of such Award and timely determine (as applicable) the Performance Period and any Performance Factors upon which vesting or settlement of any portion of such Award is to be subject. When required by Section 162(m) of the Code, prior to settlement of any such Award at least two (or a majority if more than two then serve on the Committee) such “outside directors” then serving on the Committee shall determine and certify in writing the extent to which such Performance Factors have been timely achieved and the extent to which the Shares subject to such Award have thereby been earned. Awards granted to Participants who are subject to Section 16 of the Exchange Act must be approved by two or more “non-employee directors” (as defined in the regulations promulgated under Section 16 of the Exchange Act). With respect to Participants whose compensation is subject to Section 162(m) of the Code, and provided that such adjustments are consistent with the regulations promulgated under Section 162(m) of the Code, the Committee may adjust the performance goals to account for changes in law and accounting and to make such adjustments as the Committee deems necessary or appropriate to reflect the impact of extraordinary or unusual items, events

or circumstances to avoid windfalls or hardships, including without limitation (i) restructurings, discontinued operations, extraordinary items, and other unusual or non-recurring charges, (ii) an event either not directly related to the operations of the Company or not within the reasonable control of the Company's management, or (iii) a change in accounting standards required by generally accepted accounting principles.

4.4 Documentation. The Award Agreement for a given Award, the Plan and any other documents may be delivered to, and accepted by, a Participant or any other person in any manner (including electronic distribution or posting) that meets applicable legal requirements.

5.OPTIONS. The Committee may grant Options to Participants and will determine whether such Options will be Incentive Stock Options within the meaning of the Code ("ISOs") or Nonqualified Stock Options ("NQSOs"), the number of Shares subject to the Option, the Exercise Price of the Option, the period during which the Option may be exercised, and all other terms and conditions of the Option, subject to the following:

5.1 Option Grant. Each Option granted under this Plan will identify the Option as an ISO or an NQSO. An Option may be, but need not be, awarded upon satisfaction of such Performance Factors during any Performance Period as are set out in advance in the Participant's individual Award Agreement. If the Option is being earned upon the satisfaction of Performance Factors, then the Committee will: (x) determine the nature, length and starting date of any Performance Period for each Option; and (y) select from among the Performance Factors to be used to measure the performance, if any. Performance Periods may overlap and Participants may participate simultaneously with respect to Options that are subject to different performance goals and other criteria.

5.2 Date of Grant. The date of grant of an Option will be the date on which the Committee makes the determination to grant such Option, or a specified future date. The Award Agreement and a copy of this Plan will be delivered to the Participant within a reasonable time after the granting of the Option.

5.3 Exercise Period. Options may be exercisable within the times or upon the conditions as set forth in the Award Agreement governing such Option; provided, however, that no Option will be exercisable after the expiration of ten (10) years from the date the Option is granted; and provided further that no ISO granted to a person who, at the time the ISO is granted, directly or by attribution owns more than ten percent (10%) of the total combined voting power of all classes of stock of the Company or of any Parent or Subsidiary of the Company ("Ten Percent Stockholder") will be exercisable after the expiration of five (5) years from the date the ISO is granted. The Committee also may provide for Options to become exercisable at one time or from time to time, periodically or otherwise, in such number of Shares or percentage of Shares as the Committee determines.

5.4 Exercise Price. The Exercise Price of an Option will be determined by the Committee when the Option is granted; provided that: (i) the Exercise Price of an ISO will be not less than one hundred percent (100%) of the Fair Market Value of the Shares on the date of grant and (ii) the Exercise Price of any ISO granted to a Ten Percent Stockholder will not be less than one hundred ten percent (110%) of the Fair Market Value of the Shares on the date of grant. Payment for the Shares purchased may be made in accordance with Section 11. Payment for the Shares purchased must be made in accordance with Section 11 and the Award Agreement and in accordance with any procedures established by the Company. The Exercise Price of a NQSO may not be less than one hundred percent (100%) of the Fair Market Value per Share on the date of grant.

Table of Contents

5.5 Method of Exercise. Any Option granted hereunder will be exercisable according to the terms of the Plan and at such times and under such conditions as determined by the Committee and set forth in the Award Agreement. An Option may not be exercised for a fraction of a Share. An Option will be deemed exercised when the Company receives: (i) notice of exercise (in such form as the Committee may specify from time to time) from the person entitled to exercise the Option, and (ii) full payment for the Shares with respect to which the Option is exercised (together with applicable withholding taxes). Full payment may consist of any consideration and method of payment authorized by the Committee and permitted by the Award Agreement and the Plan. Shares issued upon exercise of an Option will be issued in the name of the Participant. Until the Shares are issued (as evidenced by the appropriate entry on the books of the Company or of a duly authorized transfer agent of the Company), no right to vote or receive dividends or any other rights as a stockholder will exist with respect to the Shares, notwithstanding the exercise of the Option. The Company will issue (or cause to be issued) such Shares promptly after the Option is exercised. No adjustment will be made for a dividend or other right for which the record date is prior to the date the Shares are issued, except as provided in Section 2.6 of the Plan. Exercising an Option in any manner will decrease the number of Shares thereafter available, both for purposes of the Plan and for sale under the Option, by the number of Shares as to which the Option is exercised.

5.6 Termination. The exercise of an Option will be subject to the following (except as may be otherwise provided in an Award Agreement):

If the Participant is Terminated for any reason except for the Participant's death or Disability, then the Participant may exercise such Participant's Options only to the extent that such Options would have been exercisable by the Participant on the Termination Date no later than three (3) months after the Termination Date (or such shorter time

(a) period or longer time period not exceeding five (5) years as may be determined by the Committee, with any exercise beyond three (3) months after the Termination Date deemed to be the exercise of an NQSO), but in any event no later than the expiration date of the Options.

If the Participant is Terminated because of the Participant's death (or the Participant dies within three (3) months after the Participant's Disability), then the Participant's Options may be exercised only to the extent that such Options would have been exercisable by the Participant on the Termination Date and must be exercised by the

(b) Participant's legal representative, or authorized assignee, no later than twelve (12) months after the Termination Date (or such shorter time period not less than six (6) months or longer time period not exceeding five (5) years as may be determined by the Committee), but in any event no later than the expiration date of the Options.

If the Participant is Terminated because of the Participant's Disability, then the Participant's Options may be exercised only to the extent that such Options would have been exercisable by the Participant on the Termination Date and must be exercised by the Participant (or the Participant's legal representative or authorized assignee) no later than twelve (12) months after the Termination Date (with any exercise beyond (a) three (3) months after the

(c) Termination Date when the Termination is for a Disability that is not a "permanent and total disability" as defined in Section 22(e)(3) of the Code, or (b) twelve (12) months after the Termination Date when the Termination is for a Disability that is a "permanent and total disability" as defined in Section 22(e)(3) of the Code, deemed to be exercise of an NQSO), but in any event no later than the expiration date of the Options.

5.7 Limitations on Exercise. The Committee may specify a minimum number of Shares that may be purchased on any exercise of an Option, provided that such minimum number will not prevent any Participant from exercising the Option for the full number of Shares for which it is then exercisable.

Table of Contents

5.8 Limitations on ISOs. With respect to Awards granted as ISOs, to the extent that the aggregate Fair Market Value of the Shares with respect to which such ISOs are exercisable for the first time by the Participant during any calendar year (under all plans of the Company and any Parent or Subsidiary) exceeds one hundred thousand dollars (\$100,000), such Options will be treated as NQSOs. For purposes of this Section 5.8, ISOs will be taken into account in the order in which they were granted. The Fair Market Value of the Shares will be determined as of the time the Option with respect to such Shares is granted. In the event that the Code or the regulations promulgated thereunder are amended after the Effective Date to provide for a different limit on the Fair Market Value of Shares permitted to be subject to ISOs, such different limit will be automatically incorporated herein and will apply to any Options granted after the effective date of such amendment.

5.9 Modification, Extension or Renewal. The Committee may modify, extend or renew outstanding Options and authorize the grant of new Options in substitution therefor, provided that any such action may not, without the written consent of a Participant, impair any of such Participant's rights under any Option previously granted. Any outstanding ISO that is modified, extended, renewed or otherwise altered will be treated in accordance with Section 424(h) of the Code. Subject to Section 18 of this Plan, by written notice to affected Participants, the Committee may reduce the Exercise Price of outstanding Options without the consent of such Participants; provided, however, that the Exercise Price may not be reduced below the Fair Market Value on the date the action is taken to reduce the Exercise Price.

5.10 No Disqualification. Notwithstanding any other provision in this Plan, no term of this Plan relating to ISOs will be interpreted, amended or altered, nor will any discretion or authority granted under this Plan be exercised, so as to disqualify this Plan under Section 422 of the Code or, without the consent of the Participant affected, to disqualify any ISO under Section 422 of the Code.

6.RESTRICTED STOCK AWARDS.

6.1 Awards of Restricted Stock. A Restricted Stock Award is an offer by the Company to sell to a Participant Shares that are subject to restrictions ("Restricted Stock"). The Committee will determine to whom an offer will be made, the number of Shares the Participant may purchase, the Purchase Price, the restrictions under which the Shares will be subject and all other terms and conditions of the Restricted Stock Award, subject to the Plan.

6.2 Restricted Stock Purchase Agreement. All purchases under a Restricted Stock Award will be evidenced by an Award Agreement. Except as may otherwise be provided in an Award Agreement, a Participant accepts a Restricted Stock Award by signing and delivering to the Company an Award Agreement with full payment of the Purchase Price, within thirty (30) days from the date the Award Agreement was delivered to the Participant. If the Participant does not accept such Award within thirty (30) days, then the offer of such Restricted Stock Award will terminate, unless the Committee determines otherwise.

6.3 Purchase Price. The Purchase Price for a Restricted Stock Award will be determined by the Committee and may be less than Fair Market Value on the date the Restricted Stock Award is granted. Payment of the Purchase Price must be made in accordance with Section 11 of the Plan, the Award Agreement and in accordance with any procedures established by the Company.

6.4 Terms of Restricted Stock Awards. Restricted Stock Awards will be subject to such restrictions as the Committee may impose or are required by law. These restrictions may be based on completion of a specified number of years of service with the Company or upon completion of Performance Factors, if any, during any Performance Period as set out in advance in the Participant's

Table of Contents

Award Agreement. Prior to the grant of a Restricted Stock Award, the Committee shall: (a) determine the nature, length and starting date of any Performance Period for the Restricted Stock Award; (b) select from among the Performance Factors to be used to measure performance goals, if any; and (c) determine the number of Shares that may be awarded to the Participant. Performance Periods may overlap and a Participant may participate simultaneously with respect to Restricted Stock Awards that are subject to different Performance Periods and having different performance goals and other criteria.

6.5 Termination of Participant. Except as may be set forth in the Participant's Award Agreement, vesting ceases on such Participant's Termination Date (unless determined otherwise by the Committee).

7. STOCK BONUS AWARDS.

7.1 Awards of Stock Bonuses. A Stock Bonus Award is an award to an eligible person of Shares for services to be rendered or for past services already rendered to the Company or any Parent or Subsidiary. All Stock Bonus Awards shall be made pursuant to an Award Agreement. No payment from the Participant will be required for Shares awarded pursuant to a Stock Bonus Award.

7.2 Terms of Stock Bonus Awards. The Committee will determine the number of Shares to be awarded to the Participant under a Stock Bonus Award and any restrictions thereon. These restrictions may be based upon completion of a specified number of years of service with the Company or upon satisfaction of performance goals based on Performance Factors during any Performance Period as set out in advance in the Participant's Stock Bonus Agreement. Prior to the grant of any Stock Bonus Award the Committee shall: (a) determine the nature, length and starting date of any Performance Period for the Stock Bonus Award; (b) select from among the Performance Factors to be used to measure performance goals; and (c) determine the number of Shares that may be awarded to the Participant. Performance Periods may overlap and a Participant may participate simultaneously with respect to Stock Bonus Awards that are subject to different Performance Periods and different performance goals and other criteria.

7.3 Form of Payment to Participant. Payment may be made in the form of cash, whole Shares, or a combination thereof, based on the Fair Market Value of the Shares earned under a Stock Bonus Award on the date of payment, as determined in the sole discretion of the Committee.

7.4 Termination of Participation. Except as may be set forth in the Participant's Award Agreement, vesting ceases on such Participant's Termination Date (unless determined otherwise by the Committee).

8. STOCK APPRECIATION RIGHTS.

8.1 Awards of SARs. A Stock Appreciation Right ("SAR") is an award to a Participant that may be settled in cash, or Shares (which may consist of Restricted Stock), having a value equal to (a) the difference between the Fair Market Value on the date of exercise over the Exercise Price multiplied by (b) the number of Shares with respect to which the SAR is being settled (subject to any maximum number of Shares that may be issuable as specified in an Award Agreement). All SARs shall be made pursuant to an Award Agreement.

8.2 Terms of SARs. The Committee will determine the terms of each SAR including, without limitation: (a) the number of Shares subject to the SAR; (b) the Exercise Price and the time or times during which the SAR may be settled; (c) the consideration to be distributed on settlement of the SAR; and (d) the effect of the Participant's Termination on each SAR. The Exercise Price of the

Table of Contents

SAR will be determined by the Committee when the SAR is granted, and may not be less than Fair Market Value. A SAR may be awarded upon satisfaction of Performance Factors, if any, during any Performance Period as are set out in advance in the Participant's individual Award Agreement. If the SAR is being earned upon the satisfaction of Performance Factors, then the Committee will: (x) determine the nature, length and starting date of any Performance Period for each SAR; and (y) select from among the Performance Factors to be used to measure the performance, if any. Performance Periods may overlap and Participants may participate simultaneously with respect to SARs that are subject to different Performance Factors and other criteria.

8.3 Exercise Period and Expiration Date. A SAR will be exercisable within the times or upon the occurrence of events determined by the Committee and set forth in the Award Agreement governing such SAR. The SAR Agreement shall set forth the expiration date; provided that no SAR will be exercisable after the expiration of ten (10) years from the date the SAR is granted. The Committee may also provide for SARs to become exercisable at one time or from time to time, periodically or otherwise (including, without limitation, upon the attainment during a Performance Period of performance goals based on Performance Factors), in such number of Shares or percentage of the Shares subject to the SAR as the Committee determines. Except as may be set forth in the Participant's Award Agreement, vesting ceases on such Participant's Termination Date (unless determined otherwise by the Committee). Notwithstanding the foregoing, the rules of Section 5.6 also will apply to SARs.

8.4 Form of Settlement. Upon exercise of a SAR, a Participant will be entitled to receive payment from the Company in an amount determined by multiplying (i) the difference between the Fair Market Value of a Share on the date of exercise over the Exercise Price; times (ii) the number of Shares with respect to which the SAR is exercised. At the discretion of the Committee, the payment from the Company for the SAR exercise may be in cash, in Shares of equivalent value, or in some combination thereof. The portion of a SAR being settled may be paid currently or on a deferred basis with such interest or dividend equivalent, if any, as the Committee determines, provided that the terms of the SAR and any deferral satisfy the requirements of Section 409A of the Code.

8.5 Termination of Participation. Except as may be set forth in the Participant's Award Agreement, vesting ceases on such Participant's Termination Date (unless determined otherwise by the Committee).

9. RESTRICTED STOCK UNITS.

9.1 Awards of Restricted Stock Units. A Restricted Stock Unit ("RSU") is an award to a Participant covering a number of Shares that may be settled in cash, or by issuance of those Shares (which may consist of Restricted Stock). All RSUs shall be made pursuant to an Award Agreement.

9.2 Terms of RSUs. The Committee will determine the terms of an RSU including, without limitation: (a) the number of Shares subject to the RSU; (b) the time or times during which the RSU may be settled; and (c) the consideration to be distributed on settlement, and the effect of the Participant's Termination on each RSU. An RSU may be awarded upon satisfaction of such performance goals based on Performance Factors during any Performance Period as are set out in advance in the Participant's Award Agreement. If the RSU is being earned upon satisfaction of Performance Factors, then the Committee will: (x) determine the nature, length and starting date of any Performance Period for the RSU; (y) select from among the Performance Factors to be used to measure the performance, if any; and (z) determine the number of Shares deemed subject to the RSU. Performance Periods may overlap and participants may participate simultaneously with respect to RSUs that are subject to different Performance Periods and different performance goals and other criteria.

Table of Contents

9.3 Form and Timing of Settlement. Payment of earned RSUs shall be made as soon as practicable after the date(s) determined by the Committee and set forth in the Award Agreement. The Committee, in its sole discretion, may settle earned RSUs in cash, Shares, or a combination of both. The Committee may also permit a Participant to defer payment under a RSU to a date or dates after the RSU is earned provided that the terms of the RSU and any deferral satisfy the requirements of Section 409A of the Code.

9.4 Termination of Participant. Except as may be set forth in the Participant's Award Agreement, vesting ceases on such Participant's Termination Date (unless determined otherwise by the Committee).

10.PERFORMANCE SHARES.

10.1 Awards of Performance Shares. A Performance Share Award is an award to a Participant denominated in Shares that may be settled in cash, or by issuance of those Shares (which may consist of Restricted Stock). Grants of Performance Shares shall be made pursuant to an Award Agreement.

10.2 Terms of Performance Shares. The Committee will determine, and each Award Agreement shall set forth, the terms of each award of Performance Shares including, without limitation: (a) the number of Shares deemed subject to such Award; (b) the Performance Factors and Performance Period that shall determine the time and extent to which each award of Performance Shares shall be settled; (c) the consideration to be distributed on settlement, and the effect of the Participant's Termination on each award of Performance Shares. In establishing Performance Factors and the Performance Period the Committee will: (x) determine the nature, length and starting date of any Performance Period; (y) select from among the Performance Factors to be used; and (z) determine the number of Shares deemed subject to the award of Performance Shares. Prior to settlement the Committee shall determine the extent to which Performance Shares have been earned. Performance Periods may overlap and Participants may participate simultaneously with respect to Performance Shares that are subject to different Performance Periods and different performance goals and other criteria.

10.3 Value, Earning and Timing of Performance Shares. Each Performance Share will have an initial value equal to the Fair Market Value of a Share on the date of grant. After the applicable Performance Period has ended, the holder of Performance Shares will be entitled to receive a payout of the number of Performance Shares earned by the Participant over the Performance Period, to be determined as a function of the extent to which the corresponding Performance Factors or other vesting provisions have been achieved. The Committee, in its sole discretion, may pay earned Performance Shares in the form of cash, in Shares (which have an aggregate Fair Market Value equal to the value of the earned Performance Shares at the close of the applicable Performance Period) or in a combination thereof.

10.4 Termination of Participant. Except as may be set forth in the Participant's Award Agreement, vesting ceases on such Participant's Termination Date (unless determined otherwise by the Committee).

11.PAYMENT FOR SHARE PURCHASES.

Payment from a Participant for Shares purchased pursuant to this Plan may be made in cash or by check or, where expressly approved for the Participant by the Committee and where permitted by law (and to the extent not otherwise set forth in the applicable Award Agreement):

Table of Contents

- (a) by cancellation of indebtedness of the Company to the Participant;
- (b) by surrender of shares of the Company held by the Participant that have a Fair Market Value on the date of surrender equal to the aggregate exercise price of the Shares as to which said Award will be exercised or settled;
- (c) by waiver of compensation due or accrued to the Participant for services rendered or to be rendered to the Company or a Parent or Subsidiary of the Company;
- (d) by consideration received by the Company pursuant to a broker-assisted or other form of cashless exercise program implemented by the Company in connection with the Plan;
- (e) by any combination of the foregoing; or
- (f) by any other method of payment as is permitted by applicable law.

12. GRANTS to Non-Employee directors.

12.1 Types of Awards. Non-Employee Directors are eligible to receive any type of Award offered under this Plan except ISOs. Awards pursuant to this Section 12 may be automatically made pursuant to policy adopted by the Board, or made from time to time as determined in the discretion of the Board. The aggregate number of Shares subject to Awards granted to a Non-Employee Director pursuant to this Section 12 in any calendar year shall not exceed eighty thousand (80,000); provided however, that this maximum number can later be increased by the Board effective for the calendar year next commencing thereafter without further stockholder approval.

12.2 Eligibility. Awards pursuant to this Section 12 shall be granted only to Non-Employee Directors. A Non-Employee Director who is elected or re-elected as a member of the Board will be eligible to receive an Award under this Section 12.

12.3 Vesting, Exercisability and Settlement. Except as set forth in Section 21, Awards shall vest, become exercisable and be settled as determined by the Board. With respect to Options and SARs, the exercise price granted to Non-Employee Directors shall not be less than the Fair Market Value of the Shares at the time that such Option or SAR is granted.

13. WITHHOLDING TAXES.

13.1 Withholding Generally. Whenever Shares are to be issued in satisfaction of Awards granted under this Plan, the Company may require the Participant to remit to the Company an amount sufficient to satisfy applicable federal, state, local and international withholding tax requirements prior to the delivery of Shares pursuant to exercise or settlement of any Award. Whenever payments in satisfaction of Awards granted under this Plan are to be made in cash, such payment will be net of an amount sufficient to satisfy applicable federal, state, local and international withholding tax requirements.

13.2 Stock Withholding. The Committee, in its sole discretion and pursuant to such procedures as it may specify from time to time, may require or permit a Participant to satisfy such tax withholding obligation, in whole or in part by (without limitation) (i) paying cash, (ii) electing to have the Company withhold otherwise deliverable cash or Shares having a Fair Market Value equal to the minimum statutory amount required to be withheld, or (iii) delivering to the Company already-owned Shares having a Fair Market Value equal to the minimum amount required to be withheld.

The Fair

Table of Contents

Market Value of the Shares to be withheld or delivered will be determined as of the date that the taxes are required to be withheld.

14. TRANSFERABILITY. Unless determined otherwise by the Committee, an Award may not be sold, pledged, assigned, hypothecated, transferred, or disposed of in any manner other than by will or by the laws of descent or distribution. If the Committee makes an Award transferable, including, without limitation, by instrument to an inter vivos or testamentary trust in which the Awards are to be passed to beneficiaries upon the death of the trustor (settlor) or by gift to a Permitted Transferee, such Award will contain such additional terms and conditions as the Administrator deems appropriate.

15. PRIVILEGES OF STOCK OWNERSHIP; RESTRICTIONS ON SHARES.

15.1 Voting and Dividends. No Participant will have any of the rights of a stockholder with respect to any Shares until the Shares are issued to the Participant. After Shares are issued to the Participant, the Participant will be a stockholder and have all the rights of a stockholder with respect to such Shares, including the right to vote and receive all dividends or other distributions made or paid with respect to such Shares; provided, that if such Shares are Restricted Stock, then any new, additional or different securities the Participant may become entitled to receive with respect to such Shares by virtue of a stock dividend, stock split or any other change in the corporate or capital structure of the Company will be subject to the same restrictions as the Restricted Stock; provided, further, that the Participant will have no right to retain such stock dividends or stock distributions with respect to Shares that are repurchased at the Participant's Purchase Price or Exercise Price, as the case may be, pursuant to Section 15.2.

15.2 Restrictions on Shares. At the discretion of the Committee, the Company may reserve to itself and/or its assignee(s) a right to repurchase (a "Right of Repurchase") a portion of any or all Unvested Shares held by a Participant following such Participant's Termination at any time within ninety (90) days after the later of the Participant's Termination Date and the date the Participant purchases Shares under this Plan, for cash and/or cancellation of purchase money indebtedness, at the Participant's Purchase Price or Exercise Price, as the case may be.

16. CERTIFICATES and book entries. All certificates or book entries for Shares or other securities delivered under this Plan will be subject to such stop transfer orders, legends and other restrictions as the Committee may deem necessary or advisable, including restrictions under any applicable federal, state or foreign securities law, or any rules, regulations and other requirements of the SEC or any stock exchange or automated quotation system upon which the Shares may be listed or quoted.

17. ESCROW; PLEDGE OF SHARES. To enforce any restrictions on a Participant's Shares, the Committee may require the Participant to deposit with the Company or an agent designated by the Company (or place under the control of the Company or its designated agent) all certificates or book entries representing Shares, together with stock powers or other instruments of transfer approved by the Committee, appropriately endorsed in blank, for the purpose of holding in escrow (or controlling) such certificates or book entries until such restrictions have lapsed or terminated, and the Committee may cause a legend or legends referencing such restrictions to be placed on the certificates or note in the Company's direct registration system for stock issuance and transfer such restrictions and accompanying legends with respect to the book entries. Any Participant who is permitted to execute a promissory note as partial or full consideration for the purchase of Shares under this Plan will be required to pledge and deposit with the Company all or part of the Shares so purchased as collateral to secure the payment of the Participant's obligation to the Company under the promissory note; provided, however, that the Committee may require or accept other or additional forms of collateral to secure the payment of such

Table of Contents

obligation and, in any event, the Company will have full recourse against the Participant under the promissory note notwithstanding any pledge of the Participant's Shares or other collateral. In connection with any pledge of the Shares, the Participant will be required to execute and deliver a written pledge agreement in such form as the Committee will from time to time approve. The Shares purchased with the promissory note may be released from the pledge on a pro rata basis as the promissory note is paid.

18.STOCKHOLDER APPROVAL OF EXCHANGE PROGRAM. Only with prior stockholder approval may the Committee implement an Exchange Program. For the avoidance of doubt, the Committee may not authorize the Company without prior stockholder approval to reprice Options or SARs or pay cash or issue new Awards in exchange for the surrender and cancellation of outstanding Awards.

19.SECURITIES LAW AND OTHER REGULATORY COMPLIANCE. An Award will not be effective unless such Award is in compliance with all applicable federal and state securities laws, rules and regulations of any governmental body, and the requirements of any stock exchange or automated quotation system upon which the Shares may then be listed or quoted, as they are in effect on the date of grant of the Award and also on the date of exercise or other issuance. Notwithstanding any other provision in this Plan, the Company will have no obligation to issue or deliver certificates or establish book entries for Shares under this Plan prior to: (a) obtaining any approvals from governmental agencies that the Company determines are necessary or advisable; and/or (b) completion of any registration or other qualification of such Shares under any state or federal law or ruling of any governmental body that the Company determines to be necessary or advisable. The Company will be under no obligation to register the Shares with the SEC or to effect compliance with the registration, qualification or listing requirements of any state securities laws, stock exchange or automated quotation system, and the Company will have no liability for any inability or failure to do so.

20.NO OBLIGATION TO EMPLOY. Nothing in this Plan or any Award granted under this Plan will confer or be deemed to confer on any Participant any right to continue in the employ of, or to continue any other relationship with, the Company or any Parent or Subsidiary of the Company or limit in any way the right of the Company or any Parent or Subsidiary of the Company to terminate Participant's employment or other relationship at any time.

21.CORPORATE TRANSACTIONS.

21.1 Assumption or Replacement of Awards by Successor. In the event of a Corporate Transaction any or all outstanding Awards may be assumed or replaced by the successor corporation, which assumption or replacement shall be binding on all Participants. In the alternative, the successor corporation may substitute equivalent Awards or provide substantially similar consideration to Participants as was provided to stockholders (after taking into account the existing provisions of the Awards). The successor corporation may also issue, in place of outstanding Shares of the Company held by the Participant, substantially similar shares or other property subject to repurchase restrictions no less favorable to the Participant. In the event such successor or acquiring corporation (if any) refuses to assume, convert, replace or substitute Awards, as provided above, pursuant to a Corporate Transaction, then notwithstanding any other provision in this Plan to the contrary, such Awards will expire on such transaction at such time and on such conditions as the Board will determine; the Board (or, the Committee, if so designated by the Board) may, in its sole discretion, accelerate the vesting of such Awards in connection with a Corporate Transaction. In addition, in the event such successor or acquiring corporation (if any) refuses to assume, convert, replace or substitute Awards, as provided above, pursuant to a Corporate Transaction, the Committee will notify the Participant in writing or electronically that such Award will be exercisable for a period of time determined by the Committee in its sole discretion, and

Table of Contents

such Award will terminate upon the expiration of such period. Awards need not be treated similarly in a Corporate Transaction.

21.2 Assumption of Awards by the Company. The Company, from time to time, also may substitute or assume outstanding awards granted by another company, whether in connection with an acquisition of such other company or otherwise, by either; (a) granting an Award under this Plan in substitution of such other company's award; or (b) assuming such award as if it had been granted under this Plan if the terms of such assumed award could be applied to an Award granted under this Plan. Such substitution or assumption will be permissible if the holder of the substituted or assumed award would have been eligible to be granted an Award under this Plan if the other company had applied the rules of this Plan to such grant. In the event the Company assumes an award granted by another company, the terms and conditions of such award will remain unchanged (except that the Purchase Price or the Exercise Price, as the case may be, and the number and nature of Shares issuable upon exercise or settlement of any such Award will be adjusted appropriately pursuant to Section 424(a) of the Code). In the event the Company elects to grant a new Option in substitution rather than assuming an existing option, such new Option may be granted with a similarly adjusted Exercise Price. Substitute Awards shall not reduce the number of Shares authorized for grant under the Plan or authorized for grant to a Participant in any calendar year.

21.3 Non-Employee Directors' Awards. Notwithstanding any provision to the contrary herein, in the event of a Corporate Transaction, the vesting of all Awards granted to Non-Employee Directors shall accelerate and such Awards shall become exercisable (as applicable) in full prior to the consummation of such event at such times and on such conditions as the Committee determines.

22.ADOPTION AND STOCKHOLDER APPROVAL. The Plan was adopted by the Board in June, 2010 and was thereafter approved by the Company's stockholders in July, 2010.

23.TERM OF PLAN/GOVERNING LAW. Unless earlier terminated as provided herein, this Plan will become effective on the Effective Date and will terminate ten (10) years from the date this Plan is adopted by the Board. This Plan and all Awards granted hereunder shall be governed by and construed in accordance with the laws of the State of Delaware.

24.AMENDMENT OR TERMINATION OF PLAN. The Board may at any time terminate or amend this Plan in any respect, including, without limitation, amendment of any form of Award Agreement or instrument to be executed pursuant to this Plan; provided, however, that the Board will not, without the approval of the stockholders of the Company, amend this Plan in any manner that requires such stockholder approval; provided further, that a Participant's Award shall be governed by the version of this Plan then in effect at the time such Award was granted.

25.NONEXCLUSIVITY OF THE PLAN. Neither the adoption of this Plan by the Board, the submission of this Plan to the stockholders of the Company for approval, nor any provision of this Plan will be construed as creating any limitations on the power of the Board to adopt such additional compensation arrangements as it may deem desirable, including, without limitation, the granting of stock awards and bonuses otherwise than under this Plan, and such arrangements may be either generally applicable or applicable only in specific cases.

26.INSIDER TRADING POLICY. Each Participant who receives an Award shall comply with any policy adopted by the Company from time to time covering transactions in the Company's securities by Employees, officers and/or directors of the Company.
