REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Administrative Committee
PS 401(k) Profit Sharing Plan

We have audited the accompanying statements of net assets available for benefits of the PS 401(k) Profit Sharing Plan as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the PS 401(k) Profit Sharing Plan at December 31, 2012 and 2011, and the changes in its net assets available for benefits for the year ended December 31, 2012, in conformity with U.S. generally accepted accounting principles.

Our audits were conducted for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2012, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information has been subjected to the auditing procedures applied in our audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

PS 401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2012

1. Description of the Plan

General

The PS 401(k) Profit Sharing Plan (the “Plan”) encompasses Public Storage, PS Business Parks, Inc. and certain of their majority owned subsidiaries (collectively, the “Company”). The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

The Plan is a defined contribution plan available for the benefit of all permanent employees of the Company who have completed at least 30 days of service and are at least 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). Although it has not expressed the intention to do so, the Company has the right to terminate the Plan subject to ERISA provisions. The Plan allows interim allocations of Company contributions and earnings or losses of trust fund assets among participants.

The Company appoints a committee to administer the Plan. At December 31, 2012, the Plan Administrative Committee is comprised of six officers of the Company with Wells Fargo Bank acting as Trustee (the “Trustee”).

Other significant provisions of the Plan are as follows:

Contributions

Employee contributions to the Plan (voluntary contributions) are deferrals of the employee’s compensation made through a direct reduction of compensation in each payroll period. During 2012, each eligible participant could elect a pretax contribution rate from 1% to 100% of their compensation, as defined in the Plan document, subject to the maximum annual elective deferral amount set by the Internal Revenue Code (the “Code”). Participants may also contribute amounts representing distributions from other qualified benefit or defined contribution plans.

The Company contributes one dollar (\$1.00) for each dollar deferred by a participant up to three percent (3%) of compensation, as defined and subject to certain limitations as described in the Plan document. The Company also contributes an additional fifty cents (\$0.50) for each dollar that each participant defers in excess of three percent (3%) of compensation up to five percent (5%) of compensation. The Company’s aggregate contributions are limited to four percent (4%) of compensation, as defined and subject to certain limitations as described in the Plan document. Additional amounts may be contributed at the discretion of the Company. No such additional contributions were made in 2012.

Vesting

Since January 1, 2005, employee deferrals and the Company’s safe harbor matching contribution are 100% vested and non-forfeitable. With respect to Company contributions before January 1, 2005, each participant's account became 10% vested (non-forfeitable) after two years of service (as defined), 20% after three years of service and an additional 20% for each additional year of service thereafter.

Investment Options

Since January 1, 2008, upon enrollment in the Plan, a participant may direct their contributions and holdings in any of the following investment options:

25. Wells Fargo Stable Return Fund N15 (since June 21, 2012)
26. Wells Fargo S&P 500 Index Fund N5 for High Balance Plans (formerly Fund N)
27. Individually Directed Account

Prior to December 19, 2005, participants had the option to direct contributions to the Company's securities. Effective December 19, 2005, participants no longer had that option. Existing holdings of the Company's securities on December 19, 2005, were either held or transferred to other Plan investment alternatives at the option of each participant (see Note 6 for disclosure of the remaining holdings in the Company's securities).

The Wells Fargo Stable Return Fund N15 and the Wells Fargo S&P 500 Index Fund N5 for High Balance Plans are common/collective trust funds. The Wells Fargo Stable Return Fund N15 seeks to provide a moderate level of stable income without principal volatility, while seeking to maintain adequate liquidity and returns superior to shorter maturity investments. It invests in a variety of investment contracts and instruments issued by selected high-quality insurance companies and financial institutions. Participant-directed redemptions have no restrictions; however, the Plan is required to provide a one-year redemption notice to liquidate its entire share in the fund. The Wells Fargo S&P 500 Index Fund N5 for High Balance Plans is an index fund that invests in the equity securities of companies that comprise the S&P 500 Index (the "Index") and seeks to approximate as closely as practicable the total return, before deduction of fees and expenses, of the Index. The Wells Fargo S&P 500 Index Fund has no redemption restrictions. See "Investment Valuation and Income Recognition" in Note 2 below for further information regarding common collective trusts.

The Individually Directed Account is considered a self-directed brokerage account which allows participants access to a broader range of investment choices than that which is offered through the Plan's menu. At December 31, 2012, the Individually Directed Accounts were primarily invested in money market funds and common equity securities of publicly-traded companies, including those of the Company.

Distributions from the Plan

Distributions of each participant's vested account balance upon severance or death are made in a single lump sum payment; however, upon severance if the participant's vested account balance exceeds \$5,000, payment may be deferred at the election of the participant until April 1st of the calendar year in which the participant reaches 70 ½ years of age.

Additionally, the Plan provides for hardship distributions (as defined).

Generally, distributions are made no later than 60 days after the close of the Plan year in which the participant becomes eligible for such distributions.

Forfeited Accounts

Forfeitures of profit sharing contributions may be used (i) as a non-elective allocation to all eligible Plan participants, (ii) to reduce the Company's safe harbor matching contribution or (iii) to reduce Plan expenses in the current Plan year or within one year following the end of the current Plan year. During 2012, a total of \$341,000 in non-vested amounts was forfeited from prior Plan years, of which \$86,000 was applied to Plan administrative expenses for eligible Plan participants in 2012 and \$213,000 was used to reduce the Company's safe harbor matching contribution in 2012. Also during 2012, forfeitures of profit sharing contributions totaling \$53,000 that were forfeited during 2011 were used to reduce Plan administrative expenses for eligible Plan participants. The remaining \$42,000 of non-vested amounts forfeited during 2012 will be applied to Plan administrative expenses for eligible Plan participants in 2013.

2. Summary of Significant Accounting Principles

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting and are in conformity with U.S. generally accepted accounting principles.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service ("IRS") dated April 3, 2012, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan is qualified and the related trust is tax exempt.

U.S. generally accepted accounting principles require Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Recently Issued Accounting Standards

In May 2011, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update 2011-04, Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs, (ASU 2011-04). ASU 2011-04 amended Accounting Standards Codification 820, Fair Value Measurement (“ASC 820”) to converge the fair value measurement guidance in US generally accepted accounting principles (GAAP) and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Adoption of ASU 2011-04 did not have an effect on the Plan’s financial statements.

Investment Valuation and Income Recognition

The Plan’s investments in Company equity securities, mutual funds, and the self-directed brokerage account investments are recorded at fair value as determined by the quoted market price on the last business day of the plan year. Common collective trusts are recorded at fair value based on the net asset value of the investment reported by the Trustee.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the payment date.

The common collective trusts that invest in fully benefit-responsive investment contracts are recorded at fair value; however, since these contracts are fully benefit-responsive, an adjustment is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

3. Investments

Wells Fargo Bank has custody of the Plan’s investments under a non-discretionary trust agreement with the Plan.

The following presents the fair value of investments at December 31, 2012 and 2011 that represent five percent (5%) or more of the Plan’s net assets available for benefits:

* Effective August 23, 2012, The Growth Fund of America was discontinued as an investment option of the Plan.

** Effective August 23, 2012, the Harbor Capital Appreciation Institutional Fund became an investment option of the Plan.

*** Investment was less than 5% of the Plan's net assets available for benefits at December 31, 2011.

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

| | 2012 |
|---------------------------------|--------------|
| Mutual funds | \$ 5,861,954 |
| Common and preferred securities | 2,525,731 |
| Total | \$ 8,387,685 |

4. Fair Value Measurements

ASC 820 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price). ASC 820 includes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Valuation is based on quoted prices in active markets for identical securities.

Level 2 – Valuation is based upon other significant observable inputs.

Level 3 – Valuation is based upon significant unobservable inputs (i.e., supported by little or no market activity). Level 3 inputs include the Company's own assumption about the assumptions that market participants would use in pricing the securities (including assumptions about risk).

Edgar Filing: Public Storage - Form 11-K

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2012 and 2011:

5. Administration Fees

For the Plan year ended December 31, 2012, the Plan paid to the Trustee a portion of the quarterly participant fee of \$2.50 per eligible participant and certain transaction related expenses incurred for the administration of the Plan, totaling \$166,726. The Company directly paid for all other Trustee fees and all other expenses related to the Plan.

6. Parties-In-Interest Transactions

Prior to December 19, 2005, participants had the option of directing contributions to the Company's securities. Participants with individually directed accounts remain able to acquire and dispose of the Company's securities at their discretion. The Company is the Plan sponsor as defined by the Plan document. While participants no longer have the option of directing contributions to the Company's securities, participants can continue to hold such investments and the Plan held the following shares in the Company's securities from contributions prior to December 19, 2005:

At December 31, 2012 and 2011, Plan participants held \$10,004,992 and \$11,976,194, respectively, in the Wells Fargo Stable Return Fund N15 (formerly N4), a common collective trust fund that invests in fully-benefit-responsive investment contracts and is offered by the Plan's Trustee. At December 31, 2012 and 2011, Plan participants held \$407,205 and \$601,088, respectively, in the Wells Fargo Short Term Investment Fund G, a money market fund offered by the Plan's Trustee. Wells Fargo S&P 500 Index Fund N5 for High Balance Plans (formerly Fund N) is an index fund offered by the Plan's Trustee that invests in equity securities of companies that comprise the S&P 500 Index. At December 31, 2012 and 2011, Plan participants held \$6,320,126 and \$6,563,974, respectively, in this investment selection.

7. Risks and Uncertainties

The Plan provides for investment in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near or long term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

8. Concentrations

Investments in the Company's securities comprised approximately of 17% and 25% of the Plan's total investments as of December 31, 2012 and 2011, respectively.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:
