FORWARD-LOOKING STATEMENTS

Statements made by us in this report and in other reports and statements released by us that are not historical facts constitute “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”) and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). These forward-looking statements are necessarily estimates reflecting the judgment of our senior management based on our current estimates, expectations, forecasts and projections and include comments that express our current opinions about trends and factors that may impact future operating results. Disclosures that use words such as “believe,” “anticipate,” “estimate,” “intend,” “could,” “plan,” “expect,” “project” or the negative of these, as well as similar expressions, are intended to identify forward-looking statements. These statements are not guarantees of future performance, rely on a number of assumptions concerning future events, many of which are outside of our control, and involve known and unknown risks and uncertainties that could cause our actual results, performance or achievement, or industry results, to differ materially from any future results, performance or achievements, expressed or implied by such forward-looking statements. These risks and uncertainties may include these factors and the risks and uncertainties described elsewhere in this report and other filings with the Securities and Exchange Commission (the “SEC”), including the Item 1A. “Risk Factors” section of our annual report on Form 10-K for the year ended December 31, 2011. Any such forward-looking statements, whether made in this report or elsewhere, should be considered in the context of the various disclosures made by us about our businesses including, without limitation, the risk factors discussed in our filing with the SEC. Except as required under the federal securities laws and the rules and regulations of the SEC, we do not have any intention or obligation to update publicly any forward-looking statements, whether as a result of new information, future events, changes in assumptions, or otherwise.

(Unaudited)

NOTE 1—BASIS OF PRESENTATION

Kennedy-Wilson Holdings, Inc.'s (together with its wholly owned and controlled subsidiaries, "we," "us," "our," "the Company" or "Kennedy Wilson") unaudited interim consolidated financial statements have been prepared in conformity with U.S. generally accepted accounting principles used in the preparation of Kennedy Wilson's annual financial statements. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of Kennedy Wilson, all adjustments, consisting of only normal and recurring items, necessary for a fair presentation of the results of operations for the three and six months ended June 30, 2012 and 2011 have been included. The results of operations for these periods are not necessarily indicative of results that might be expected for the full year ending December 31, 2012. For further information, your attention is directed to the footnote disclosures found in Kennedy Wilson's Annual Report on Form 10-K for the year ended December 31, 2011.

The consolidated financial statements include the accounts of Kennedy Wilson and its wholly owned and controlled subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation. In addition, Kennedy Wilson evaluates its relationships with other entities to identify whether they are variable interest entities (VIEs) as defined in the FASB Accounting Standards Codification (ASC) Subtopic 810-10 and to assess whether it is the primary beneficiary of such entities. If the determination is made that Kennedy Wilson is the primary beneficiary, then that entity is included in the consolidated financial statements in accordance with the ASC Subtopic 810-10. The ownership of the other interest holders in consolidated subsidiaries is reflected as noncontrolling interests. The preparation of the accompanying consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions about future events. These estimates and the underlying assumptions affect the amounts of assets and liabilities reported, disclosure about contingent assets and liabilities, and reported amounts of revenues and expenses. As future events and their effects cannot be determined with precision, actual results could differ significantly from these estimates.

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ADOPTION OF NEW ACCOUNTING PRONOUNCEMENTS

REVENUE RECOGNITION—Performance fees or carried interests are allocated to the general partner, special limited partner or asset manager of Kennedy Wilson's real estate funds and loan pool participations based on the cumulative performance of the fund and loan pools and are subject to preferred return thresholds of the limited partners and participants. At the end of each reporting period, Kennedy Wilson calculates the performance fee that would be due to the general partner, special limited partner or asset manager's interests for a fund or loan pool, pursuant to the fund agreement or participation agreements, as if the fair value of the underlying investments were realized as of such date, irrespective of whether such amounts have been realized. As the fair value of underlying investments varies between reporting periods, it is necessary to make adjustments to amounts recorded as performance fees to reflect either (a) positive performance resulting in an increase in the performance fee allocated to the general partner or asset manager or (b) negative performance that would cause the amount due to Kennedy Wilson to be less than the amount previously recognized as revenue, resulting in a negative adjustment to performance fees allocated to the general partner or asset manager. Substantially all of the performance fees are recognized in management and leasing fees and substantially all of the carried interest is recognized in equity in joint venture income in our consolidated statements of operations. Total performance fees recognized through June 30, 2012 that may be reversed in future periods if there is negative fund or loan pool performance totaled \$7.3 million. Performance fees accrued as of June 30, 2012 and December 31, 2011 were \$7.3 million and \$4.2 million, respectively, and are included in accounts receivable—related parties in the accompanying consolidated balance sheet.

INVESTMENTS IN LOAN POOL PARTICIPATIONS AND NOTES RECEIVABLE—Interest income from investments in loan pool participations and notes receivable are recognized on a level yield basis under the provisions

of Loans and Debt Securities Acquired with Deteriorated Credit Quality ASC Subtopic 310-30, where a level yield model is utilized to determine a yield rate which, based upon projected future cash flows, accretes interest income over the estimated holding period. In the event that the present value of those future cash flows is less than net book value, a loss would be immediately recorded. When the future cash flows of a note cannot be reasonably estimated, cash payments are applied to the cost basis of the note until it is fully recovered before any interest income is recognized.

ACCOUNTS RECEIVABLE—Accounts receivable are recorded at the contractual amount as determined by the underlying agreements and do not bear interest. An allowance for doubtful accounts is provided when the Company determines there are

Table of Contents

Kennedy-Wilson Holdings, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

June 30, 2012

(Unaudited)

probable credit losses in the Company's existing accounts receivable and is determined based on historical experience. The Company reviews its accounts receivable for probable credit losses on a quarterly basis. As of June 30, 2012, the Company had an immaterial allowance for doubtful accounts and during the three and six months ended June 30, 2012 and 2011 recorded no provision for doubtful accounts.

INVESTMENTS IN MARKETABLE SECURITIES—Investments in marketable securities are categorized as available-for-sale in accordance with the provision of Investments - Debt and Equity Securities ASC Subtopic 320-10. Available for-sale securities are carried at fair value with period unrealized gains and losses included in other comprehensive income. Realized gains and losses and declines in value judged to be other-than-temporary as defined by ASC 320-10-35 are included in net income. The factors considered in determining the realized and unrealized gains and losses include current quoted prices in the active market and the severity and duration of the market fluctuation among other things. Dividends on securities classified as available-for-sale are included in interest and other income on the accompanying statement of operations.

FOREIGN CURRENCIES—The financial statements of subsidiaries located outside the U.S. are measured using the local currency as the functional currency. The assets and liabilities of these subsidiaries are translated at the rates of exchange at the balance sheet date, and income and expenses are translated at the average monthly rate. The foreign currencies include the Euro, the British pound sterling, and the Japanese yen. Cumulative translation adjustments, to the extent not included in cumulative net income, are included in the consolidated statement of equity as a component of accumulated other comprehensive income.

DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES—All derivative instruments are recognized as either assets or liabilities in the balance sheet at their respective fair values. For derivatives designated in hedging relationships, changes in fair value of cash flow hedges or net investment hedges are recognized in accumulated other comprehensive income, to the extent the derivative is effective at offsetting the changes in the item being hedged until the hedged item affects earnings. Changes in fair value for fair value hedges are recognized in earnings.

RECENT ACCOUNTING PRONOUNCEMENTS—In May 2011, the FASB issued Accounting Standards Codification (ASC) Update No. 2011-04, Fair Value Measurement - Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in US GAAP and IFRS. Update No. 2011-04 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. Update 2011-04 is intended to result in common fair value measurement and disclosure requirements in U.S. GAAP and IFRS. Consequently, the amendments change the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. The adoption of this update did not have a material impact on the Company's financial statements.

In June 2011, the FASB issued Accounting Standards Codification (ASC) Update No. 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income. Update No. 2011-05 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. Update 2011-05 requires an entity to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income, and a total amount for comprehensive income. Kennedy Wilson adopted this update effective January 1, 2012 and, as a result, have included a separate consolidated statement of comprehensive income.

NOTE 3—NOTES RECEIVABLE

During the six months ended June 30, 2012, Kennedy Wilson advanced an additional \$3.9 million on a note receivable to KW Property Fund II, LP, an equity method investment and related party. Other limited partners have also previously made advances to KW Property Fund II, LP. During the six months ended June 30, 2012, Kennedy Wilson

Property Services Equity II, Inc., a wholly-owned subsidiary of Kennedy Wilson, acquired from certain limited partners their outstanding notes receivable with a balance of \$11.8 million. As of June 30, 2012, the note receivable due from KW Property Fund II, LP to the Company had an aggregate outstanding balance of \$38.4 million and bears interest at a rate of 15%. The interest recognized on these notes are included in interest income - related party in the accompanying consolidated statements of operations.

In May 2012, Kennedy Wilson issued and advanced \$4.3 million, through a promissory note, to an unrelated third party, secured by a hotel in San Diego, California. The note bears interest at a rate of 10.75%, is interest only, and is due on April 30, 2013. The interest recognized on this note is included in interest income in the accompanying consolidated statements of operations.

During the six months ended June 30, 2012, Kennedy Wilson advanced an additional \$0.5 million to an unrelated party and collected \$1.2 million in principal repayments. The note bears interest at a rate of 12% and is secured by a 16-unit condominium property in Los Angeles, California and principal repayments are due upon the sale of each condominium unit. The note had an outstanding balance of \$5.4 million as of June 30, 2012. The interest recognized on this note is included in interest income in the

Table of Contents

Kennedy-Wilson Holdings, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

June 30, 2012

(Unaudited)

accompanying consolidated statements of operations.

During the six months ended June 30, 2012, KW Property Fund I, L.P., an equity method investment and related party, repaid in full its \$8.1 million outstanding balance to Kennedy Wilson. The interest recognized on this note is included in interest income - related party in the accompanying consolidated statements of operations.

During the six months ended June 30, 2012, Kennedy Wilson received \$1.0 million in principal repayment on its loan to 5th and Madison, LLC, an equity method investment and related party. The note had an outstanding balance of \$1.7 million as of June 30, 2012. The interest recognized on this note is included in interest income - related party in the accompanying consolidated statements of operations.

NOTE 4—REAL ESTATE

During the six months ended June 30, 2012, Kennedy Wilson purchased a medical office building in Rancho Mirage, California for \$15.1 million. The building was acquired as a result of a foreclosure in one of the loan pools in which Kennedy Wilson has a 15% interest. The purchase was structured in order to facilitate the sale of the building to a third party. Within two weeks of the purchase, Kennedy Wilson sold it to a third party for \$15.2 million. As a result of this transaction, a net gain of \$0.1 million has been recorded and included in the accompanying consolidated statements of operations for the six months ended June 30, 2012.

Additionally, during the six months ended June 30, 2012, Kennedy Wilson sold a hotel in Palm Springs, CA for \$2.9 million. The property was acquired as a result of a foreclosure on one of the loans in the Company's consolidated loan pools. The original basis upon acquisition from the loan pool was \$3.0 million. The total income accreted and collected on this property while it was in the loan pool was \$0.2 million and upon foreclosure the fair value basis was \$3.3 million. The sale resulted in a \$0.3 million net loss which is recorded in the accompanying consolidated statements of operations for the six months ended June 30, 2012.

NOTE 5—INVESTMENTS IN JOINT VENTURES

Kennedy Wilson has a number of joint venture interests, generally ranging from 5% to approximately 50%, that were formed to acquire, manage, and/or sell real estate and invest in loan pools and discounted loan portfolios. Kennedy Wilson has significant influence over these entities, but not control, and accordingly, these investments are accounted for under the equity method. The Company also accounts for two investments which are more than 50% owned under the equity method and they are further discussed below.

The Company determines the appropriate accounting method with respect to all investments which are not VIE's based on the control-based framework (controlled entities are consolidated) provided by the consolidations guidance in ASC Topic 810. The Company's determination considers specific factors cited under ASC 810-20 "Control of partnerships and similar entities" which presumes that control is held by the general partner (and managing member equivalents in LLC's). Limited partners substantive participation rights may overcome this presumption of control. The Company accounts for joint ventures it is deemed to not control using the equity method of accounting while controlled entities are consolidated.

During the six months ended June 30, 2012, the Company increased its ownership interest to 67% from 5% in KW Property Fund II, LP through the acquisition of certain limited partner interests previously discussed in Note 3. The limited partners as members of the oversight board have the ability to direct and control key decision making over the partnership and therefore have substantive participating rights that overcome the presumption of control by the Company as the general partner. Despite increasing its ownership interest to 67%, the Company remains precluded from having a seat on the oversight board that has the ability to direct and control key decision making over the partnership thus giving them substantive participating rights. The Company concluded that it does not control KW Property Fund II, LP and will continue to account for its interest in the entity as an equity method investment. At June 30, 2012, the Company's equity investment in KW Property Fund II, LP was \$2.9 million.

In addition, during the six months ended June 30, 2012, the Company, as a member, acquired a 90% interest in a joint venture, which owns a retail property in Boise, Idaho. Due to certain voting rights, control does not rest with the managing member nor with the other members and as such, neither party has control. Since the Company concluded that it does not control the entity despite its 90% ownership interest, it will account for its interest as an equity method investment. At June 30, 2012, the Company's investment in this joint venture was \$1.5 million.

During the six months ended June 30, 2012, Kennedy Wilson made \$49.5 million in contributions to new and existing joint venture investments. Of this amount, \$21.9 million was invested in four new joint ventures which acquired four multifamily

Table of Contents

Kennedy-Wilson Holdings, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

June 30, 2012

(Unaudited)

properties located in the Western U.S. Kennedy Wilson also invested \$15.8 million in a new joint venture which acquired the Company's first multifamily asset in Ireland. Kennedy Wilson also contributed \$3.0 million to a joint venture to pay off existing debt. Additionally, Kennedy Wilson received \$44.9 million in operating and investing distribution from its joint ventures of which \$29.5 million was due to the sale of four multifamily properties located in the Western U.S.

Kennedy Wilson has determined that it has investments in four variable interest entities as of June 30, 2012 and has concluded that Kennedy Wilson is not the primary beneficiary of any of the investments. As of June 30, 2012, the variable interest entities had assets totaling \$595.7 million with Kennedy Wilson's exposure to loss as a result of its interests in these variable interest entities totaling \$116.6 million related to its equity contributions. In addition, as of June 30, 2012, Kennedy Wilson had \$4.8 million in the form of loan guarantees that represented 1% of the mortgage loans of the underlying variable interest entities.

As of June 30, 2012, Kennedy Wilson has unfulfilled capital commitments totaling \$6.3 million to its joint ventures. We may be called upon to contribute additional capital to joint ventures in satisfaction of Kennedy Wilson capital commitment obligations.

Kennedy Wilson has certain guarantees associated with loans secured by assets held in various joint venture partnerships. The maximum potential amount of future payments (undiscounted) Kennedy Wilson could be required to make under the guarantees was approximately \$24.1 million as of June 30, 2012. The guarantees expire through 2015 and Kennedy Wilson's performance under the guarantees would be required to the extent there is a shortfall upon liquidation between the principal amount of the loan and the net sale proceeds of the property. Based upon Kennedy Wilson's evaluation of guarantees under Estimated Fair Value of Guarantees ASC Subtopic 460-10, the estimated fair value of guarantees made as of June 30, 2012 and December 31, 2011 is immaterial.

NOTE 6—INVESTMENT IN LOAN POOL PARTICIPATION

In June 2012, Kennedy Wilson, along with an equity method investee and related party, acquired a pool of two performing loans totaling \$41.6 million in unpaid principal balance. The loans are secured by two office buildings in Southern California. The amounts contractually due as of June 30, 2012 are \$41.6 million. Kennedy Wilson expects to accrete \$0.9 million in interest income from this loan pool participation over the estimated collection period. During the three months ended June 30, 2012, Kennedy Wilson recognized \$0.2 million of interest income from this loan pool participation in the accompanying consolidated statements of operations.

In April 2012, Kennedy Wilson acquired a participation in a loan portfolio totaling \$43.4 million in unpaid principal balance. The loan portfolio is comprised of nine loans secured by seven retail properties located in the Western United States. The unpaid principal balance of the loans is \$29.2 million as of June 30, 2012 due to loan resolutions. Kennedy Wilson expects to accrete \$2.5 million in interest income from this loan pool participation over the estimated collection period. During the three months ended June 30, 2012, Kennedy Wilson recognized \$0.8 million of interest income from this loan pool participation in the accompanying consolidated statements of operations.

In 2011, Kennedy Wilson, along with institutional partners, acquired a loan portfolio consisting of 58 performing loans with 24 borrowers with an unpaid principal balance of \$2.1 billion, at time of purchase, secured by real estate primarily located in the United Kingdom (the "UK Loan Pool"). The 58 loans were secured by more than 170 properties comprised of the following product types: office, multifamily, retail, industrial, hotel and land. As of June 30, 2012 the unpaid principal balance of the loans was \$1.4 billion due to loan resolutions of \$689.6 million through June 30, 2012, representing 33% of the pool. Kennedy Wilson expects to accrete \$27.3 million in interest income from loan pool participations over the total estimated collection period.

During the three and six months ended June 30, 2012, Kennedy Wilson recognized \$2.0 million and \$3.8 million, respectively, of interest income from the UK Loan Pool participation in the accompanying consolidated statements of operations.

During the three and six months ended June 30, 2012, Kennedy Wilson recognized \$1.4 million in loss and \$0.7 million in gains, respectively from foreign currency translation adjustments from its investment in the UK Loan Pool. The foreign currency gain and loss is included in other comprehensive income in the accompanying consolidated statement of equity and consolidated statements of comprehensive (loss) income.

In August 2011, Kennedy Wilson, in partnership with a bank, acquired a loan portfolio with deteriorated credit quality totaling \$44.9 million in unpaid principal balance. The loan portfolio was comprised of nine nonperforming loans secured by eight retail properties located in Southern California. As of June 30, 2012, all the loans in this loan pool have been resolved. During the three and six months ended June 30, 2012, Kennedy Wilson recognized an immaterial amount and \$0.1 million, respectively, of interest

Table of Contents

Kennedy-Wilson Holdings, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

June 30, 2012

(Unaudited)

income from this loan pool participation in the accompanying consolidated statements of operations. In 2010, Kennedy Wilson, in partnership with a bank, acquired two loan portfolios with deteriorated credit quality. The loan portfolios, which were acquired from a regional bank, are comprised of loans secured by residential, hotel, retail, office, land, multifamily and other assets predominantly located in Southern California. The amount contractually due under the terms of the notes as of June 30, 2012 is \$109.6 million. As of June 30, 2012, Kennedy Wilson expects to accrete \$10.7 million in interest income from loan pool participations over the total estimated collection period. During the three and six months ended June 30, 2012 Kennedy Wilson recognized a reduction of \$0.4 million and \$2.0 million, respectively in accretion in the loan pool due to an increase in the estimated resolution periods as well as foreclosure on certain underlying real estate collateral. The accretion adjustment is included in interest income in the accompanying consolidated statement of operations.

During the the three and six months ended June 30, 2012, Kennedy Wilson recognized \$2.6 million and \$2.9 million of interest income from loan pool participations in the accompanying consolidated statement of operations. During the three and six months ended June 30, 2011, Kennedy Wilson recognized \$1.8 million and \$3.9 million of interest income from loan pool participations in the accompanying consolidated statement of operations.

NOTE 7—MARKETABLE SECURITIES

During the six months ended June 30, 2012, Kennedy Wilson sold a portion of its marketable securities and recognized a gain on the sale of \$2.9 million, including foreign currency effects, which is included in the accompanying consolidated statements of operations.

At June 30, 2012, the remaining marketable securities had a cost basis of \$11.5 million and a fair value of \$10.3 million. The unrealized loss of \$1.2 million is included in accumulated other comprehensive income in the accompanying consolidated statement of equity and other comprehensive (loss) income in the consolidated statements of comprehensive (loss) income.

NOTE 8—FAIR VALUE MEASUREMENTS AND THE FAIR VALUE OPTION

FAIR VALUE MEASUREMENTS—The following table presents fair value measurements (including items that are required to be measured at fair value and items for which the fair value option has been elected) as of June 30, 2012:

	Level 1	Level 2	Level 3	Total
Marketable securities	\$10,326,000	\$—	\$—	\$10,326,000
Investment in joint ventures	—	—	51,776,000	51,776,000
Currency forward contract	—	(727,000)	—	(727,000)
	\$10,326,000	\$(727,000)	\$51,776,000	\$61,375,000

The following table presents fair value measurements (including items that are required to be measured at fair value and items for which the fair value option has been elected) as of December 31, 2011:

	Level 1	Level 2	Level 3	Total
Marketable securities	\$23,005,000	\$—	\$—	\$23,005,000
Investment in joint ventures	—	—	51,382,000	51,382,000
	\$23,005,000	\$—	\$51,382,000	\$74,387,000

Kennedy Wilson's investment in marketable securities are classified as available-for-sale and are stated at fair value based upon observed market prices (Level 1 in the fair value hierarchy). Unrealized changes in value on these securities are included in accumulated other comprehensive income.

The following table presents changes in Level 3 investments for the six months ended June 30, 2012 and 2011, respectively:

11

Table of Contents

Notes to Consolidated Financial Statements

June 30, 2012

(Unaudited)

	Three months ended June 30,		Six months ended June 30,	
	2012	2011	2012	2011
Beginning balance	\$51,139,000	\$34,686,000	\$51,382,000	\$34,654,000
Unrealized and realized gains	119,000	3,377,000	87,000	3,377,000
Unrealized and realized losses	—	(2,356,000)	—	(2,274,000)
Contributions	2,483,000	9,282,000	2,514,000	9,282,000
Distributions	(1,965,000)	(601,000)	(2,207,000)	(651,000)
Ending balance	\$51,776,000	\$44,388,000	\$51,776,000	\$44,388,000

The change in unrealized and realized gains and losses are included in equity in joint venture income in the accompanying statements of operations.

The change in unrealized gains and losses on Level 3 investments during the three and six months ended June 30, 2012 for investments still held as of June 30, 2012 was an immaterial loss and \$0.1 million of loss, respectively. The change in unrealized gains and losses on Level 3 investments during the three and six months ended June 30, 2011 for investments still held as of June 30, 2011 was a gain of \$1.3 million and an immaterial loss, respectively.

Kennedy Wilson records its investment in KW Property Fund III, L.P., Kennedy Wilson Real Estate Fund IV, L.P., and SG KW Venture I, LLC (the "Funds") based upon the net assets that would be allocated to its interests in the Funds assuming the Funds were to liquidate their investments at fair value as of the reporting date. The Funds report their investments at fair value based on valuations of the underlying real estate and real estate related assets and their related indebtedness secured by real estate. The valuations of real estate, real estate related assets, and indebtedness are based on management estimates of the assets and liabilities using a combination of the income and market approach. During the three and six months ended June 30, 2012, Kennedy Wilson recorded an increase in fair value of \$0.1 million and \$0.1 million, respectively, in equity in joint venture income in the consolidated statements of operations. During the three and six months ended June 30, 2011, Kennedy Wilson recorded a decrease in fair value of \$1.0 million and \$0.9 million, respectively, in equity in joint venture income in the consolidated statements of operations. Kennedy Wilson's investment balance in the Funds was \$24.1 million and \$23.4 million at June 30, 2012 and December 31, 2011, respectively, which are included in investments in joint ventures in the accompanying consolidated balance sheets. As of June 30, 2012, Kennedy Wilson had unfunded capital commitments to the Funds in the amounts of \$3.7 million.

FAIR VALUE OPTION—Additionally, Kennedy Wilson elected to use the fair value option for two investments in joint venture entities that were acquired during 2008. Kennedy Wilson elected to record these investments at fair value to more accurately reflect the timing of the value created in the underlying investments and report those results in current operations. There was no material change in the fair value of these investments during the three and six months ended June 30, 2012. During the three months ended June 30, 2011, Kennedy Wilson purchased an additional 24% (increasing its interest from 24% to 48%) interest in one of its fair value option investments for \$7.0 million from a related party fund. Since this amount was less than the fair value of this interest at the time of purchase, this transaction resulted in Kennedy Wilson recording an increase in fair value of \$2.0 million in equity in joint venture income in the accompany statements of operations for the three and six months ended June 30, 2011. Kennedy Wilson determines the fair value of these investments based upon the income approach, utilizing estimates of future cash flows, discount rates and liquidity risks. As of June 30, 2012 and December 31, 2011, these two investments had fair values of \$27.7 million and \$27.9 million, respectively.

In estimating fair value of real estate held by the Funds and the two fair value option investments, Kennedy Wilson considers significant inputs such as capitalization and discount rates. The table below describes the range of inputs for real estate assets:

Estimated rates used for

	Capitalization rates	Discount Rates
Multifamily	5.00% — 7.00%	7.50% — 8.75%
Office	6.25% — 8.00%	7.75% — 9.00%
Land and condominium units	n/a	8.00% — 12.00%
Loan	n/a	2.25% — 10.60%

12

Table of Contents

Kennedy-Wilson Holdings, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

June 30, 2012

(Unaudited)

In valuing real estate related assets and indebtedness, Kennedy Wilson considers significant inputs such as the term of the debt, value of collateral, market loan-to-value ratios, market interest rates and spreads, and credit quality of investment entities. The credit spreads used by Kennedy Wilson for these types of investments range from 2.25% to 10.6%.

The accuracy of estimating fair value for investments utilizing unobservable inputs cannot be determined with precision, cannot be substantiated by comparison to quoted prices in active markets, and may not be realized in a current sale or immediate settlement of the asset or liability. Additionally, there are inherent uncertainties in any fair value measurement technique, and changes in the underlying assumptions used, including cap rates, discount rates, liquidity risks, and estimates of future cash flows, could significantly affect the fair value measurement amounts.

DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES—During the six months ended June 30, 2012, Kennedy Wilson entered into a currency forward contract to manage its exposure to currency fluctuations between its functional currency (U.S. dollars) and certain of its wholly-owned subsidiaries with a different functional currency (Euros) and its exposure to currency fluctuations caused by its investment in marketable securities. To accomplish this objective, Kennedy Wilson hedged these exposures by entering into a currency forward contract to sell €16,000,000 at a forward rate. This hedging instrument is expected to partially hedge Kennedy Wilson's exposure to its net investment in certain foreign operations and the changes in fair value of the marketable securities caused by currency fluctuations. The currency forward contract matures on June 4, 2015. The currency forward contract is valued based on the difference between the contract rate and the forward rate at maturity of the foreign currency applied to the notional value in that foreign currency discounted at a market rate for similar risks. Although Kennedy Wilson has determined that the majority of the inputs used to value its derivative falls within Level 2 of the fair value hierarchy, the counterparty risk adjustments associated with the derivative utilizes Level 3 inputs. However, as of June 30, 2012, Kennedy Wilson has assessed the significance of the impact of the counterparty valuation adjustments on the overall valuation of its derivative positions and has determined that the counterparty valuation adjustment is not significant to the overall valuation of its derivative. As a result, Kennedy Wilson has determined that its derivative valuation in its entirety is classified in Level 2 of the fair value hierarchy. The fair value of the derivative instrument held as of June 30, 2012 was \$0.7 million and is included in accrued expenses and other liabilities on the balance sheet.

For the six months ended June 30, 2012, the Company recorded a loss of \$0.5 million in other comprehensive income in the accompanying consolidated statements of comprehensive income as this portion of the currency forward contract qualifies as a net investment hedge under ASC Topic 815. The remaining portion of the currency forward contract qualifies as a fair value hedge under ASC Topic 815 and accordingly, Kennedy Wilson recorded a loss of \$0.2 million in general and administrative expenses in the accompanying consolidated statements of operations. The impact of this hedge on the cash flows of Kennedy Wilson are included in accrued expenses and other liabilities within the consolidated statement of cash flows.

FAIR VALUE OF FINANCIAL INSTRUMENTS—The carrying amount of cash and cash equivalents, accounts receivable including related party, accounts payable, accrued expenses and other liabilities, accrued salaries and benefits, deferred and accrued income taxes, and income tax receivable approximate fair value due to their short-term maturities. The carrying value of notes receivable (excluding related party notes receivable as they are presumed not to be an arm's length transaction) approximate fair value as they are negotiated based upon the fair value of loans with similar characteristics. Senior notes payable, borrowings under line of credit, mortgage loans payable and junior subordinated debentures were estimated to be approximately \$362.0 million, based on a comparison of the yield that would be required in a current transaction, taking into consideration the risk of the underlying collateral and our credit risk to the current yield of a similar security, compared to their carrying value of \$354.3 million at June 30, 2012.

NOTE 9—SENIOR NOTES

In April 2011, Kennedy-Wilson, Inc., a wholly-owned subsidiary of Kennedy Wilson, in a private placement, issued \$200.0

13

Table of Contents

Kennedy-Wilson Holdings, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

June 30, 2012

(Unaudited)

million in aggregate principal amount of 8.750% senior notes due April 1, 2019 with an effective yield of 8.875% and an additional \$50.0 million in aggregate principal amount of 8.750% senior notes due April 1, 2019 with an effective yield of 8.486%. Interest on the notes is payable on April 1 and October 1 of each year. If the notes are redeemed prior to April 1, 2017 a premium must be paid on the redeemed amount. The terms of the notes are governed by an indenture by and among Kennedy-Wilson, Inc., as Issuer; Kennedy Wilson, as parent guarantor; certain subsidiaries of the Issuer, as subsidiary guarantors; and Wilmington Trust FSB, as trustee. In December 2011, Kennedy-Wilson, Inc. commenced a registered exchange offer for its outstanding 8.750% senior notes. The exchange offer was completed in February 2012 and all outstanding notes issued in the private placements were exchanged for registered notes. The indenture governing the notes contains various restrictive covenants, including, among others, limitations on our ability and the ability of certain of our subsidiaries to incur or guarantee additional indebtedness, to make restricted payments, pay dividends or make any other distributions from restricted subsidiaries, redeem or repurchase capital stock, sell assets or subsidiary stock, engage in transactions with affiliates, create or permit liens on assets, enter into sale/leaseback transactions, and enter into consolidations or mergers. The indenture governing the 8.750% senior notes limits Kennedy-Wilson, Inc.'s ability to incur additional indebtedness if, on the date of such incurrence and after giving effect to the new indebtedness, the maximum balance sheet leverage ratio (as defined in the indenture) is greater than 1.50 to 1.00. This ratio is measured at the time of incurrence of additional indebtedness. As of June 30, 2012, the balance sheet leverage ratio was 0.85 to 1.00. See Note 17 for the guarantor and non-guarantor financial statements.

NOTE 10—LINE OF CREDIT

In June 2012, Kennedy Wilson amended its existing unsecured revolving credit facility with U.S. Bank and East-West Bank which increased the total principal amount available to be borrowed by an additional \$25.0 million, for an aggregate of \$100.0 million. The loans bear interest at a rate equal to LIBOR plus 2.75% and the maturity date was extended to a maturity date of June 30, 2015 and adjusts the Minimum Rent Adjusted Fixed Charge Coverage Ratio to 1.50:1. The unsecured credit facility requires Kennedy Wilson to maintain (i) a minimum rent adjusted fixed charge coverage ratio (as defined in the unsecured credit facility) of not less than 1.50 to 1.00, measured on a four quarter rolling average basis and (ii) maximum balance sheet leverage (as defined in the unsecured credit facility) of not greater than 1.50 to 1.00, measured at the end of each calendar quarter. As of the most recent quarter end, Kennedy Wilson's adjusted fixed charge coverage ratio was 1.89 to 1.00 and its balance sheet leverage was 0.85 to 1.00. As of June 30, 2012, there was \$34.2 million drawn on the line of credit.

NOTE 11—JUNIOR SUBORDINATED DEBENTURES

In 2007, Kennedy Wilson issued junior subordinated debentures in the amount of \$40.0 million. The debentures were issued to a trust established by Kennedy Wilson, which contemporaneously issued \$40.0 million of trust preferred securities to Merrill Lynch International. The interest rate on the debentures is fixed for the first ten years at 9.06%, and variable thereafter at LIBOR plus 3.70%. Interest is payable quarterly with the principal due in 2037.

The junior subordinated debentures require Kennedy Wilson to maintain (i) a fixed charge coverage ratio (as defined in the indenture governing our junior subordinated debentures) of not less than 1.75 to 1.00, measured on a four quarter rolling basis, and (ii) a ratio of total debt to net worth (as defined in the indenture governing the junior subordinated debentures) of not greater than 3.00 to 1.00 at any time. As of the most recent quarter end, Kennedy Wilson's fixed charge coverage ratio was 2.84 to 1.00 and its ratio of total debt to net worth was 0.88 to 1.00. As of June 30, 2012, Kennedy Wilson was in compliance with these ratios.

NOTE 12—RELATED PARTY TRANSACTIONS

Kennedy Wilson engaged in the following related party transactions during the six months ended June 30, 2012:

During the six months ended June 30, 2012, Kennedy Wilson acquired the remaining noncontrolling interests of a consolidated entity from Kennedy Wilson executives. In exchange for the noncontrolling interests, Kennedy Wilson issued 150,000 shares of common stock to the executives and also paid them \$0.5 million.

During the six months ended June 30, 2012, noncontrolling interest holders of a consolidated entity, comprised of Kennedy Wilson executives, received \$0.4 million in distributions from a joint venture investment as a result of the sale of a multifamily asset.

Notes to Consolidated Financial Statements

June 30, 2012

(Unaudited)

During the three and six months ended June 30, 2012, the firm of Solomon, Winnett & Rosenfield was paid \$50,000 and \$97,000, respectively, for income tax services provided by the firm. Jerry Solomon, a partner in the firm and a member of Kennedy Wilson's board of directors, was paid \$8,000 and \$16,000, respectively, for director's fees for the same period. During the three and six months ended June 30, 2011, the firm of Solomon, Winnett & Rosenfield was paid \$18,000 and \$76,000, respectively, for income tax services provided by the firm. Jerry Solomon, a partner in the firm and a member of Kennedy Wilson's board of directors, was paid \$9,000 and \$16,000, respectively, for director's fees for the same period.

Kennedy Wilson earned fees and other income from affiliates and entities in which Kennedy Wilson holds ownership interests in the following amounts:

	Three months ended June 30,		Six months ended June 30,	
	2012	2011	2012	2011
Management and leasing fees	\$6,131,000	\$2,600,000	\$11,716,000	\$5,162,000
Commissions	1,031,000	647,000	1,984,000	1,657,000
Sale of real estate	—	—	—	417,000
Total related party revenue	\$7,162,000	\$3,247,000	\$13,700,000	\$7,236,000

NOTE 13—STOCKHOLDERS EQUITY

Warrants

In April 2010, the Board of Directors authorized a warrants repurchase program enabling Kennedy Wilson to repurchase up to 12.5 million of its outstanding warrants. During the six months ended June 30, 2012, Kennedy Wilson repurchased a total of 0.5 million of its outstanding warrants for total consideration of \$1.4 million.

Dividend Distributions

Kennedy Wilson declared and paid the following cash distributions on its common and preferred stock:

	Six Months Ended June 30, 2012		Six Months Ended June 30, 2011	
	Declared	Paid	Declared	Paid
Preferred Stock				
Series A	\$3,000,000	\$3,000,000	\$3,000,000	\$3,000,000
Series B	1,050,000	1,050,000	1,050,000	1,050,000
Total Preferred Stock	4,050,000	4,050,000	4,050,000	4,050,000
Common Stock	5,347,000	4,664,000	1,799,000	—
Total ⁽¹⁾	\$9,397,000	\$8,714,000	\$5,849,000	\$4,050,000

⁽¹⁾ Common stock dividends are declared at the end of each quarter and paid in the following quarter. The amount declared and not paid is accrued on the consolidated balance sheet.

Stock Compensation

In June 2012, Kennedy Wilson adopted and its shareholders approved the Amended and Restated 2009 Equity Participation Plan (the "Amended and Restated Plan") under which an additional 3,170,000 shares of common stock have been reserved for restricted stock grants to officers, employees, non-employee directors and consultants. The terms of the awards granted under the 2009 Amended and Restated Equity Participation Plan are set by the Company's compensation committee at its discretion. During the six months ended June 30, 2012, 3,145,000 shares of restricted common stock were granted. The shares vest over five years with 40% vesting ratably in the first four years of the award period and the remaining 60% in the fifth year of the award period. Vesting of the restricted share awards is contingent upon the expected achievement of a performance target with the initial vesting of the first 10% in January 2013.

Table of Contents

Kennedy-Wilson Holdings, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
June 30, 2012
(Unaudited)

During the three and six months ended June 30, 2012, Kennedy Wilson recognized \$1.2 million and \$2.1 million, respectively, of compensation expense related to the vesting of restricted common stock awarded in 2012 and prior awards. During the three and six months ended June 30, 2011, Kennedy Wilson recognized \$1.3 million and \$2.5 million, respectively, of compensation expense related to the vesting of restricted common stock.

NOTE 14—EARNINGS PER SHARE

For the three and six months ended June 30, 2012, a total of 18,229,993 and 18,215,529 potentially dilutive securities have not been included in the diluted weighted average shares as they are anti-dilutive.

For the three and six months ended June 30, 2011, a total of 21,725,054 and 21,950,708 potentially dilutive securities have not been included in the diluted weighted average shares as as they are anti-dilutive.

NOTE 15—SEGMENT INFORMATION

Kennedy Wilson's business is defined by two core segments: KW Investments and KW Services. KW Investments invests in multifamily, residential and office properties as well as loans secured by real estate. KW Services provides a full array of real estate-related services to investors and lenders, with a strong focus on financial institution-based clients. Kennedy Wilson's segment disclosure with respect to the determination of segment profit or loss and segment assets is based on these services and investments.

KW INVESTMENTS—Kennedy Wilson, on its own and through joint ventures, is an investor in real estate, including multifamily, residential and office properties as well as loans secured by real estate.

Substantially all of the revenue—related party was generated via inter-segment activity for the three and six months ended June 30, 2012 and 2011. Generally, this revenue consists of fees earned on investments in which Kennedy Wilson also has an ownership interest. The amounts representing investments with related parties and non-affiliates are included in the investment segment. No single third party client accounted for 10% or more of Kennedy Wilson's revenue during any period presented in these financial statements.

There have been no changes in the basis of segmentation or in the basis of measurement of segment profit or loss since the December 31, 2011 financial statements.

KW SERVICES—Kennedy Wilson offers a comprehensive line of real estate services for the full life cycle of real estate ownership and investment to clients that include financial institutions, developers, builders and government agencies. Kennedy Wilson provides auction and conventional sales, property management, investment management, asset management, leasing, construction management, acquisitions, dispositions and trust services.

The following tables summarize Kennedy Wilson's income activity by segment and corporate for the three and six months ended June 30, 2012 and 2011 and balance sheet data as of June 30, 2012 and December 31, 2011:

NOTE 16—INCOME TAXES

In determining quarterly provisions for income taxes, Kennedy Wilson uses an effective tax rate based on actual year-to-date income and statutory tax rates. The effective tax rate also reflects Kennedy Wilson's assessment of its potential exposure for uncertain tax positions.

The fluctuations between periods in the Company's effective tax rate are mainly due to varying levels of income and amounts attributable to foreign source income and non-controlling interests. Permanent differences that impact the Company's effective rate as compared to the U.S. federal statutory rate of 34% were not materially different in amount for all periods. The difference between the U.S. federal rate of 34% and the Company's effective rate is attributable to the taxation of foreign sourced income taxes being taxed at rates lower than the U.S. domestic rate and income attributable to non-controlling interests.

NOTE 17—GUARANTOR AND NON-GUARANTOR FINANCIAL STATEMENTS

The following consolidating financial information and condensed consolidating financial information includes:

- (1) Condensed consolidating balance sheets as of June 30, 2012 and December 31, 2011; consolidating statements of operations for the six months ended June 30, 2012 and 2011; consolidated statements of comprehensive income for the six months ended June 30, 2012 and 2011; and condensed consolidating statements of cash flows for the six months ended June 30, 2012 and 2011, of (a) Kennedy-Wilson Holdings, Inc., as the parent, (b) Kennedy-Wilson, Inc., as the subsidiary issuer, (c) the guarantor subsidiaries, (d) the non-guarantor subsidiaries and (e) Kennedy-Wilson Holdings, Inc. on a consolidated basis; and
- (2) Elimination entries necessary to consolidate Kennedy-Wilson Holdings, Inc., as the parent, with Kennedy-Wilson, Inc. and its guarantor and non-guarantor subsidiaries.

Included in the guarantor subsidiaries column below are data for certain guarantor subsidiaries that were less than 100% owned by Kennedy Wilson as of December 31, 2010. Such guarantor subsidiaries were restructured prior to the exchange offer for Kennedy-Wilson, Inc.'s outstanding 8.750% senior notes such that Kennedy Wilson now owns 100% of all of the guarantor subsidiaries. As a result, in accordance with Rule 3-10(d) of Regulation S-X promulgated by the SEC, no separate financial statements are required for these subsidiaries as of June 30, 2012.

(1) Included in the guarantor subsidiaries column above are data for certain subsidiaries that were less than 100% owned by Kennedy Wilson during the three months ended June 30, 2011. Such guarantor subsidiaries were restructured prior to registering the notes such that Kennedy Wilson now owns 100% of all the guarantor subsidiaries. As a result, in accordance with Rule 3-10(d) of Regulation S-X promulgated by the SEC, no separate financial statements are required for such guarantor subsidiaries.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations contains forward-looking statements within the meaning of the federal securities laws. See the discussion under the heading "Forward-Looking Statements" elsewhere in this report. Unless specifically noted otherwise, as used throughout this Management's Discussion and Analysis section, "we," "our," "us," "the Company" or "Kennedy Wilson" refers to the business, operations and financial results of Kennedy-Wilson Holdings, Inc. and its subsidiaries.

Overview

Founded in 1977, we are an international real estate investment and services firm. We are a vertically-integrated real estate operating company with approximately 300 professionals in 23 offices throughout the U.S., United Kingdom, Ireland and Japan. Based on management's estimate of fair value as of June 30, 2012, we have approximately \$11.7 billion of real estate and real estate related assets under our management ("AUM"), totaling approximately 58 million square feet of properties throughout the U.S., Europe and Japan. This includes ownership in 14,114 multifamily apartment units, of which 204 units are owned by our consolidated subsidiaries and 13,910 are held in joint ventures.

AUM generally refers to the properties and other assets with respect to which we provide (or participate in) oversight, investment management services and other advice, and which generally consist of real estate properties or loans, and investments in joint ventures. Our AUM is intended principally to reflect the extent of our presence in the real estate market, and is not the basis for determining our management fees. Our material assets under management consist of the total estimated fair value of the real estate properties and other assets either owned by third parties, wholly-owned by us or held by joint ventures and other entities in which our sponsored funds or investment vehicles and client accounts have invested. Committed (but unfunded) capital from investors in our sponsored funds is not included in this component of our AUM. The estimated value of development properties is included at estimated completion cost. Our operations are defined by two core business units: KW Investments and KW Services. KW Investments invests our capital and our partners' capital in real estate related assets including multifamily, loans secured by real estate, commercial, and residential properties. KW Services provides a full array of real estate-related services to investors and lenders, with a strong focus on financial institution based clients.

The following table describes our investment account (Kennedy Wilson's equity in real estate, marketable securities, and loan investments), which includes the following financial statement captions and is derived from our consolidated balance sheet, as of June 30, 2012 and December 31, 2011 (dollars in millions):

Kennedy Wilson's Recent Highlights

Operating metrics

During the three months ended June 30, 2012, the Company achieved an adjusted EBITDA of \$18.8 million, an 8% increase from \$17.5 million for the same period in 2011. Excluding the remeasurement gain of \$6.3 million recognized during the three months ended June 30, 2011, the Company achieved a 69% increase in adjusted EBITDA for the three months ended June 30, 2012 as compared to the same period in 2011.

During the six months ended June 30, 2012, the Company achieved an adjusted EBITDA of \$38.0 million, a 17% increase from \$32.6 million for the same period in 2011. Excluding the remeasurement gain of \$6.3 million recognized during the six months ended June 30, 2011, the Company achieved a 45% increase in adjusted EBITDA for the six months ended June 30, 2012 as compared to the same period in 2011.

Investments business

Investment Account

Our investment account (Kennedy Wilson's equity in real estate, joint ventures, loan investments, and marketable securities) increased by 7% to \$626.0 million from \$582.8 million at December 31, 2011. This change was comprised of approximately \$160.0 million of cash contributed to and income earned on investments and approximately \$116.6 million of cash distributed from investments.

Operating metrics

During the three months ended June 30, 2012, our investments business achieved an EBITDA of \$17.0 million, a 2% increase from \$16.6 million for the same period in 2011. Excluding the remeasurement gain of \$6.3 million recognized during the three months ended June 30, 2011, the Company achieved a 65% increase in adjusted EBITDA for the three months ended June 30, 2012 as compared to the same period in 2011.

During the six months ended June 30, 2012, our investments business achieved an EBITDA of \$34.7 million, a 14% increase from \$30.5 million for the same period in 2011. Excluding the remeasurement gain of \$6.3 million recognized during the six months ended June 30, 2011, the Company achieved a 44% increase in adjusted EBITDA for the six months ended June 30,

Table of Contents

2012 as compared to the same period in 2011.

Acquisition/disposition program

During the six months ended June 30, 2012, the Company and its equity partners acquired approximately \$889.5 million of real estate related investments. We invested \$107.0 million of our equity in the investment vehicles that acquired these real estate related investments. We expect to earn approximately \$5.0 million of EBITDA per quarter going forward over the life these income-producing real estate related investments, of which \$1.4 million was recognized for the three and six months ended June 30, 2012. Additionally, as of June 30, 2012, we and our equity partners are under contract to acquire approximately \$514.0 million of real estate related investments. Since January 1, 2010 through June 30, 2012, we, together with our equity partners, have acquired or are under contract to acquire approximately \$6.5 billion of real estate related investments. As of June 30, 2012, the Company and its equity partners own or are under contract to own 14,114 apartment units and approximately 3.6 million square feet of commercial real estate.

The composition of the \$889.5 million of real estate related investments acquired by the Company and its equity partners during the six months ended June 30, 2012 is as follows:

During the six months ended June 30, 2012, we, along with our equity partners, acquired approximately \$788.8 million of income producing real estate assets. The underlying assets are located primarily in the Western U.S. (70% in terms of our equity invested) and Ireland (30% in terms of our equity invested) and include six multifamily properties with 1,801 units and eight commercial properties totaling 1.6 million square feet. We invested \$52.8 million of our equity in the joint ventures that acquired these real estate assets.

During the six months ended June 30, 2012, we, along with our equity partners, acquired or originated approximately \$100.7 million of loans at an average discount of 14% to their principal balance. These loans are secured by 12 underlying properties all located in the Western U.S. and have an average coupon rate of 10.6% per annum. We invested approximately \$54.2 million of our equity in participations in these loans. In addition, we generally earn origination and exit fees on our share of these loans.

During the six months ended June 30, 2012, the Company and its equity partners sold four multifamily properties located in the Western U.S. for a total of \$243.0 million, which resulted in a total gain of \$32.6 million, of which our share was \$7.9 million.

Debt financing

During the six months ended June 30, 2012, the Company and its equity partners completed approximately \$283.3 million of property financings at an average interest rate of 3.1% and a weighted average maturity of 7.9 years.

During the six months ended June 30, 2011, the Company and its equity partners completed approximately \$731.2 million of property financings at an average interest rate of 3.5% and a weighted average maturity of 4.4 years.

United Kingdom and Ireland

In December 2011, we and our equity partners acquired a loan pool secured by real estate located in the United Kingdom with an unpaid principal balance of \$2.1 billion. As of June 30, 2012, the unpaid principal balance was \$1.4 billion due to loan resolutions of approximately \$689.6 million, representing 33% of the pool.

On March 13, 2012, we announced a €250 million (approximately \$325 million) capital commitment from Fairfax Financial Holdings to acquire real estate and loans secured by real estate in the United Kingdom and Ireland.

Investments under this program require Fairfax's agreement to participate on an investment by investment basis. In June 2012, we purchased our first investment within this platform, the historic 210-unit Alliance Building in Dublin, Ireland, located adjacent to Google's European headquarters, for \$50.0 million. We invested \$15.8 million of our equity in the joint venture that acquired this asset.

On May 2, 2012, we entered into a term sheet with a major European financial institution to create a framework to target the acquisition of €2 billion (approximately \$2.5 billion) of performing, sub-performing and non-performing loans secured by commercial and residential real estate in Europe, with a focus on the United Kingdom and Ireland.

Japan

Maintained 93% occupancy in 50 apartment buildings with over 2,400 units. Excluding one 86-unit building with an expired corporate master lease that is now being leased to individual tenants, our Japanese apartment portfolio maintained 96% occupancy.

Since Fairfax became our partner in the Japanese apartment portfolio in September 2010, we have distributed a total of \$51.5 million, of which our share was \$24.0 million.

Services business

Table of Contents

Management and leasing fees and commissions increased by 67% to \$12.6 million for the three months ended June 30, 2012 from \$7.6 million for the same period in 2011.

During the three months ended June 30, 2012, our services business achieved an EBITDA of \$3.6 million, a 140% increase from \$1.5 million for the same period in 2011.

Management and leasing fees and commissions increased by 52% to \$23.0 million for the six months ended June 30, 2012 from \$15.1 million for the same period in 2011.

During the six months ended June 30, 2012, our services business achieved an EBITDA of \$6.3 million, a 91% increase from \$3.3 million for the same period in 2011.

Corporate financing

In June 2012, we amended our existing revolving credit facility to, among other things, increase the total amount that may be borrowed thereunder by \$25.0 million to \$100 million and extend the maturity to June 30, 2015. Existing and future loans under the amended facility will bear interest at a rate equal to LIBOR plus 2.75%.

Subsequent events

In July 2012, the Company issued 8.6 million shares of common stock primarily to institutional investors, resulting in gross proceeds of \$112.1 million of which \$40 million was used to pay off the outstanding balance on our line of credit.

In July 2012, the Company was awarded its first auction assignment from a European financial institution and simultaneously opened an auction office in Madrid, Spain.

Results of Operations

The following table sets forth items derived from our consolidated statement of operations for the three and six months periods ended June 30, 2012 and 2011:

Table of Contents

	Three Months Ended June 30, 2012	2011	Six months ended June 30, 2012	2011

Net (loss) income attributable to Kennedy-Wilson Holdings, Inc.	(1,125,000)	214,000	(2,441,000)	1,255,000
Preferred dividends and accretion of preferred stock issuance costs	(2,036,000)	(2,636,000)	(4,072,000)	(4,672,000)
Net loss attributable to Kennedy-Wilson Holdings, Inc. common shareholders	\$(3,161,000)	\$(2,422,000)	\$(6,513,000)	\$(3,417,000)
EBITDA ⁽¹⁾	\$ 17,611,000	\$ 16,203,000	\$ 35,902,000	\$ 30,099,000
Adjusted EBITDA ⁽²⁾	\$ 18,818,000	\$ 17,501,000	\$ 37,980,000	\$ 32,564,000

⁽¹⁾ EBITDA represents net income before interest expense, our share of interest expense included in income from investments in joint ventures and loan pool participations, depreciation and amortization, our share of depreciation and amortization included in income from investments in joint ventures, and income taxes. We do not adjust EBITDA for gains or losses on the extinguishment of mortgage debt as we are in the business of purchasing discounted notes

secured by real estate and, in connection with these note purchases, we may resolve these loans through discounted payoffs with the borrowers. EBITDA is not a recognized term under GAAP and does not purport to be an alternative to net earnings as a measure of operating performance or to cash flows from operating activities as a measure of liquidity. Additionally, EBITDA is not intended to be a measure of free cash flow available for management's discretionary use, as it does not consider certain cash requirements such as interest payments, tax payments and debt service requirements. Our presentation of EBITDA has limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis of our results as reported under GAAP. EBITDA is not calculated under GAAP and should not be considered in isolation or as a substitute for net income, cash flows or other financial data prepared in accordance with GAAP or as a measure of our overall profitability or liquidity. Our management believes EBITDA is useful in evaluating our operating performance compared to that of other companies in our industry because the calculation of EBITDA generally eliminates the effects of financing and income taxes and the accounting effects of capital spending and acquisitions. Such items may vary for different companies for reasons unrelated to overall operating performance. Additionally, we believe EBITDA is useful to investors to assist them in getting a more accurate picture of our results from operations.

(2) Adjusted EBITDA represents EBITDA, as defined above, adjusted to exclude stock based compensation expense. Our management uses Adjusted EBITDA to analyze our business because it adjusts EBITDA for items we believe do not have an accurate reflection of the nature of our business going forward. Such items may vary for different companies for reasons unrelated to overall operating performance. Additionally, we believe Adjusted EBITDA is useful to investors to assist

Table of Contents

them in getting a more accurate picture of our results from operations. However, EBITDA and Adjusted EBITDA are not recognized measurements under GAAP and when analyzing our operating performance, readers should use EBITDA and Adjusted EBITDA in addition to, and not as an alternative for, net income as determined in accordance with GAAP. Because not all companies use identical calculations, our presentation of EBITDA and Adjusted EBITDA may not be comparable to similarly titled measures of other companies. Furthermore, EBITDA and Adjusted EBITDA are not intended to be a measure of free cash flow for our management's discretionary use, as it does not consider certain cash requirements such as tax and debt service payments. The amounts shown for EBITDA and Adjusted EBITDA also differ from the amounts calculated under similarly titled definitions in our debt instruments, which are further adjusted to reflect certain other cash and non-cash charges and are used to determine compliance with financial covenants and our ability to engage in certain activities, such as incurring additional debt and making certain restricted payments.

We use certain non-GAAP measures to analyze our business including EBITDA⁽¹⁾ and Adjusted EBITDA⁽²⁾, which are calculated as follows:

	Three Months Ended June 30,		Six months ended June 30,	
	2012	2011	2012	2011
Net (loss) income	\$(997,000)	\$513,000	\$485,000	\$2,592,000
Non- GAAP adjustments:

Table of Contents

Our Consolidated Financial Results: Three Months Ended June 30, 2012 compared to the Three Months Ended June 30, 2011

Our revenues for the three months ended June 30, 2012 and 2011 were \$14.1 million and \$8.5 million, respectively. Total operating expenses for the same periods were \$18.4 million and \$13.1 million, respectively, and net loss attributable to our common shareholders was \$3.2 million and \$2.4 million, respectively. Adjusted EBITDA was \$18.8 million and \$17.5 million, respectively, for the three months ended June 30, 2012 and 2011. Excluding the remeasurement gain of \$6.3 million recognized during the three months ended June 30, 2011, the Company achieved a 69% increase in adjusted EBITDA for the three months ended June 30, 2012 as compared to the same period in 2011.

Revenues

Investments Segment Revenues

Rental and other income increased to \$1.5 million for the three months ended June 30, 2012 from \$1.0 million for the same period in 2011. The \$0.5 million increase is due to the acquisition of an approximately 200,000 square foot office portfolio in Oakland, California, in the latter half of 2011.

Services Segment Revenues

Third Party Services - These are management and leasing fees as well as commissions earned from third parties and relate to assets in which we do not have an ownership interest.

Our third party management and leasing services increased to \$4.1 million for the three months ended June 30, 2012 as compared to approximately \$2.3 million for the same period in 2011. The \$1.8 million or 78% increase partially relates to our acquisition of the real estate investment management division of the Bank of Ireland in the latter half of 2011 which provided additional asset management fees of \$0.7 million. In addition, in March 2012, we acquired a real estate consultancy firm specializing in capital sourcing and real estate research for the single family homebuilding and multifamily apartment industries which generated \$0.4 million in management fees. Furthermore, our existing third party management and leasing revenue increased by \$0.7 million for the three months ended June 30, 2012 as compared to the same period in 2011.

Our third party commission revenues were \$1.4 million for the three months ended June 30, 2012 as compared to approximately \$2.0 million for the same period in 2011. During the three months ended June 30, 2012 we had a decrease in auction sales as compared to the same period in 2011 due to timing of the auctions. We expect auction sales to increase in the later half of 2012.

Related Party Services - These are management and leasing fees as well as commissions earned from our equity partners and relate to assets in which we have an ownership interest.

Our related party management and leasing services generated revenues of \$6.1 million for the three months ended June 30, 2012 as compared to approximately \$2.6 million for the same period in 2011. The \$3.5 million increase primarily relates to our acquisition of the UK-based loan pool in the latter half of 2011, which provided additional asset management fees of \$2.7 million. In addition, due to our acquisition activity in the latter half of 2011 and thus far in 2012, we generated an additional \$0.8 million in management and leasing fees.

Our related party commission revenues generated revenues of \$1.0 million for the three months ended June 30, 2012 as compared to approximately \$0.6 million for the same period in 2011. The 59% increase primarily relates to our increased acquisition activity for the three months ended June 30, 2012 as compared to the same period in 2011.

Operating Expenses

Operating expenses for the three months ended June 30, 2012 were approximately \$18.4 million, as compared to \$13.1 million for the same period in 2011. This increase in operating expenses is a result of the growth in the size of our company as well as the increase in our revenues. Revenues increased approximately 66% for the three months ended June 30, 2012 as compared to the same period in 2011 while operating expenses increased only 40% in the three months ended June 30, 2012 as compared to the same period in 2011.

Investments Segment Operating Expenses

Operating expenses for the three months ended June 30, 2012 increased to \$6.3 million compared to \$4.7 million for the same period in 2011. Compensation and related expenses increased by \$0.4 million and general and administrative expenses increased by \$0.5 million due to the overall growth of our company. Rental operating expenses increased by

\$0.3 million and depreciation and amortization increased by \$0.5 million due to the foreclosure of four assets in our consolidated loan portfolio and the acquisition of an approximately 200,000 square foot office portfolio in Oakland, California during the latter half of 2011.

Table of Contents

Services Segment Operating Expenses

Services segment operating expenses increased to \$9.1 million for the three months ended June 30, 2012 compared to \$6.1 million for the same period in 2011. Commission and marketing expenses increased by \$0.6 million as a result of an increase in third party services used to generate new business. Compensation and related expenses increased by \$1.4 million and general and administrative expenses increased by \$1.0 million primarily due to the growth of our company in the United Kingdom and Ireland. We began our operations in the United Kingdom and Ireland in June 2011 and as a result have added 21 employees to our head count there since then. An additional 7 employees were added to our head count in the U.S. since March 2012, as a result of the acquisition of the real estate consultancy firm discussed above.

Corporate Operating Expenses

Operating expenses for the three months ended June 30, 2012 were approximately \$3.0 million as compared to \$2.4 million for the same period in 2011. Compensation and related expenses increased by \$0.3 million and general and administrative expenses increased by \$0.3 million primarily due to the growth of our company.

Investments Segment Equity in Joint Venture Income

Equity in joint ventures generated income of \$5.1 million for the three months ended June 30, 2012, as compared to income of \$2.6 million for the same period in 2011.

The income during the three months ended June 30, 2012 was primarily related to the sale of a 213-unit residential tower in San Jose, California and a 440-unit apartment building in Beaverton, Oregon, which generated a total gain of \$15.1 million of which \$5.3 million was a gain to us.

During the three months ended June 30, 2011, the income was primarily attributable to fair value gains recognized in connection with a joint venture's foreclosure of a first trust deed position into ownership of a class A multifamily project in San Jose, California, the acquisition of additional membership interest in a joint venture that Kennedy-Wilson accounts for on a fair value basis, and the sale of a 286-unit apartment complex in Anaheim, California.

We look at equity in joint venture income plus our share of the joint ventures depreciation to get a better sense of cash generated by our joint venture investments. These amounts were \$9.1 million and \$6.5 million for the three months ended June 30, 2012 and 2011, respectively, representing a 39% increase.

Investments Segment Income from Loan Pool Participations and Notes Receivable

Income from loan pool participations and notes receivable generated income of \$2.9 million for the three months ended June 30, 2012 as compared to \$2.2 million for the same period in 2011. During the three months ended June 30, 2012, we accreted \$2.0 million of interest income on our UK-based loan pool. Additionally, during the the three months ended June 30, 2012 we acquired a participation interest in two new loan pools which generated \$1.0 million of accretion. The increases were offset by a decrease in accretion income recognized during the three months ended June 30, 2012 on our loan pools purchased during 2010 due to an increase in the estimated resolution periods as well as foreclosure on certain underlying real estate collateral.

Non-Operating Items

Interest expense was \$7.1 million for the three months ended June 30, 2012 compared to \$6.2 million for same period in 2011. The increase is primarily attributable to interest incurred on the borrowings under the line of credit and the cessation of interest capitalization on the 2700 acre ranch in Hawaii which we stopped development on and began marketing for sale during the three months ended June 30, 2012 as compared to the same period in 2011.

Benefit from income taxes was \$1.1 million during the three months ended June 30, 2012 as compared to a provision for income taxes of \$0.2 million for the same period in 2011. During the three months ended June 30, 2012, we had domestic taxable losses of \$4.1 million for which we received a tax benefit at the federal tax rate of approximately 34% offset by foreign taxable income of \$2.1 million by our United Kingdom and Irish subsidiaries which are taxed at the lower foreign tax rate resulting in a net benefit from income taxes. During the same period in 2011, a majority of our income was earned directly in the United States which is taxed at the federal rate of approximately 34%.

We had net income of \$0.1 million attributable to non-controlling interest holders during the three months ended June 30, 2012 as compared to \$0.3 million during the same period in 2011.

Table of Contents

Our Consolidated Financial Results: Six Months Ended June 30, 2012 compared to the Six Months Ended June 30, 2011

Our revenues for the six months ended June 30, 2012 and 2011 were \$25.9 million and \$17.2 million, respectively. Total operating expenses for the same periods were \$33.9 million and \$25.7 million, respectively, and net loss attributable to our common shareholders was \$6.5 million and \$3.4 million, respectively. Adjusted EBITDA was \$38.0 million and \$32.6 million, respectively, for the six months ended June 30, 2012 and 2011. Excluding the remeasurement gain of \$6.3 million recognized during the six months ended June 30, 2011, the Company achieved a 45% increase in adjusted EBITDA for the six months ended June 30, 2012 as compared to the same period in 2011.

Revenues

Investments Segment Revenues

Rental and other income increased to \$2.9 million for the six months ended June 30, 2012 from \$1.7 million for the same period in 2011. The \$1.2 million increase is due to the acquisition of an approximately 200,000 square foot office portfolio in Oakland, California, in the latter half of 2011.

During the six months ended June 30, 2011, we sold a land in Kent, Washington, generating \$0.4 million of proceeds in sale of real estate.

Services Segment Revenues

Third Party Services - These are management and leasing fees as well as commissions earned from third parties and relate to assets in which we do not have an ownership interest.

Our third party management and leasing services increased to \$7.3 million for the six months ended June 30, 2012 as compared to approximately \$4.8 million for the same period in 2011. The \$2.5 million or 51% increase primarily relates to our acquisition of the real estate investment management division of the Bank of Ireland in the latter half of 2011 which provided additional asset management fees of \$1.3 million. In addition, in March 2012, we acquired a real estate consultancy firm specializing in capital sourcing and real estate research for the single family homebuilding and multifamily apartment industries which generated \$0.4 million in management fees. Furthermore, our existing third party management and leasing revenue increased by \$0.8 million for the six months ended June 30, 2012 as compared to the same period in 2011.

Our third party commission revenues were \$2.0 million for the six months ended June 30, 2012 as compared to approximately \$3.5 million for the same period in 2011. During the six months ended June 30, 2012 we had a decrease in auction sales as compared to the same period in 2011 due to timing. We expect auction sales to increase in the later half of 2012.

Related Party Services - These are management and leasing fees as well as commissions earned from our equity partners and relate to assets in which we have an ownership interest.

Our related party management and leasing services generated revenues of \$11.7 million for the six months ended June 30, 2012 as compared to approximately \$5.2 million for the same period in 2011. The \$6.5 million or 126% increase primarily relates to our acquisition of the UK-based loan pool in the latter half of 2011, which provided additional asset management fees of \$5.0 million. In addition, due to our acquisition activity in the latter half of 2011 and thus far in 2012, we generated an additional \$1.5 million in management and leasing fees.

Our related party commission revenues increased to \$2.0 million for the six months ended June 30, 2012 as compared to \$1.7 million for the same period in 2011.

Operating Expenses

Operating expenses for the six months ended June 30, 2012 were approximately \$33.9 million, as compared to \$25.7 million for the same period in 2011. This increase in operating expenses is a result of the growth in the size of our company as well as the increase in our revenues. Revenues before sales of real estate increased approximately 54% for the six months ended June 30, 2012 as compared to the same period in 2011 while operating expenses before cost of real estate sold increased only 34% in the six months ended June 30, 2012 as compared to the same period in 2011.

Investments Segment Operating Expenses

Operating expenses for the six months ended June 30, 2012 increased to \$11.8 million compared to \$9.3 million for the same period in 2011. The increase is attributable to the following:

Compensation and related expenses increased by \$0.6 million and general and administrative expenses increased by \$0.6 million due to the overall growth of our company.

41

Table of Contents

Rental operating expenses increased by \$0.7 million and depreciation and amortization increased by \$0.9 million due to the foreclosure of four assets in our consolidated loan portfolio and the acquisition of an approximately 200,000 square foot office portfolio in Oakland, California during the latter half of 2011.

During the six months ended June 30, 2011, a land in Kent, Washington was sold which incurred \$0.4 million of cost in real estate sold with no comparable activity during the six months ended June 30, 2012.

Services Segment Operating Expenses

Services segment operating expenses increased to \$16.7 million for the six months June 30, 2012 from \$11.8 million for the same period in 2011. Commission and marketing expenses increased by \$0.9 million as a result of an increase in third party services used to generate new business. Compensation and related expenses increased by \$2.3 million and general and administrative expenses increased by \$1.7 million primarily due to the growth of our company specifically in the United Kingdom and Ireland. We began our operations in the United Kingdom and Ireland in June 2011 and as a result have added 21 employees to our head count there since then. An additional 7 employees were added to our headcount in the U.S. since March 2012, as a result of the acquisition of the real estate consultancy firm discussed above.

Corporate Operating Expenses

Operating expenses for the six months ended June 30, 2012 were approximately \$5.3 million as compared to \$4.5 million for the same period in 2011. Compensation and related expenses increased by \$0.3 million and general and administrative expenses increased by \$0.4 million primarily due to the growth of our company

Investments Segment Equity in Joint Venture Income

Equity in joint ventures generated income of \$10.6 million for the six months ended June 30, 2012, as compared to income of \$7.8 million for the same period in 2011.

The income during the six months ended June 30, 2012 was primarily related to the the sale of a 180-unit apartment building in North Hollywood, California, which generated a total gain of \$16.0 million of which \$2.2 million was a gain to us and \$3.0 million to our noncontrolling interest holders. Additionally, we sold a 213-unit residential tower in San Jose, California and a 440-unit apartment building in Beaverton, Oregon, which generated a total gain of \$15.1 million of which \$5.3 million was a gain to us.

During the six months ended June 30, 2011, the income was primarily attributable to fair value gains recognized in connection with one of our joint venture's foreclosing on a first trust deed position it held and then taking ownership of a class A multifamily project in San Jose, California, the acquisition of additional membership interests in a joint venture that Kennedy Wilson accounts for on the fair value option, and the sale of an 286-unit apartment complex in Anaheim, California.

We look at equity in joint venture income plus our share of the joint ventures depreciation to get a better sense of cash generated by our joint venture investments. These amounts were \$18.5 million and \$15.5 million for the six months ended June 30, 2012 and 2011, respectively, representing a 19% increase.

Investments Segment Income from Loan Pool Participations and Notes Receivable

Interest income from loan pool participations and notes receivable generated income of \$3.4 million for the six months ended June 30, 2012 as compared to \$4.8 million for the same period in 2011. During the six months ended June 30, 2012, we accreted \$3.8 million of interest income on our UK-based loan pool. Additionally, during the the six months ended June 30, 2012, we acquired a participation interest in two new loan pools which generated \$1.0 million of accretion. The increases were offset by a decrease in accretion income recognized during the six months ended June 30, 2012 on a loan pool purchased during 2010 due to an increase in the estimated resolution periods as well as foreclosure on certain underlying real estate collateral.

Non-Operating Items

Interest expense was \$13.2 million for the six months ended June 30, 2012 compared to \$7.8 million for same period in 2011. The increase is primarily attributable to the issuance of \$250 million senior notes in April 2011 bearing interest at 8.75%. Additionally, during the six months ended June 30, 2012, interest was incurred on the borrowings under the line of credit with no comparable activity during 2011 and the cessation of interest capitalization on the 2700 acre ranch in Hawaii which we stopped development on and began marketing for sale during the second quarter of 2012.

Benefit from income taxes was \$2.6 million during the six months ended June 30, 2012 as compared to a provision for income taxes of \$0.8 million for the same period in 2011. During the six months ended June 30, 2012, we had domestic taxable

Table of Contents

losses of \$7.9 million for which we received a tax benefit at the federal tax rate of approximately 34% offset by foreign taxable income of \$3.5 million by our United Kingdom and Irish subsidiaries which are taxed at the lower foreign tax rates resulting in a net benefit from income taxes. During the same period in 2011, a majority of our income was earned directly in the United States which is taxed at the federal rate of approximately 34%. We had net income of \$2.9 million attributable to non-controlling interest holders during the six months ended June 30, 2012 as compared to \$1.3 million during the same period in 2011. During the six months ended June 30, 2012, the net income attributable to non-controlling interest holders is primarily due to a gain on a multifamily property sale. During the six months ended June 30, 2011, a majority of the net income attributable to non-controlling interest holders related to entities which were consolidated at that time. As a result of the restructuring which was done under the 8.75% Senior Notes in December 2011, these entities were no longer consolidated as of December 31, 2011.

Liquidity and Capital Resources

Our liquidity and capital resources requirements include expenditures for joint venture investments, real estate, distressed debt and working capital needs. Historically, we have not required significant capital resources to support our brokerage and property management operations. We finance these operations with internally generated funds, borrowings under our revolving line of credit, sales of real estate, resolutions in loan pools and sales of equity and debt securities. Our investments in real estate are typically financed by mortgage loans secured primarily by that real estate. These mortgage loans are generally nonrecourse in that, in the event of default, recourse will be limited to the mortgaged property serving as collateral. In some cases, we guarantee a portion of the loan related to a joint venture investment, usually until some condition, such as completion of construction or leasing or certain net operating income criteria, has been met. We do not expect these guarantees to materially affect liquidity or capital resources. During the six months ended June 30, 2012, the Company earned \$3.6 million related to operations in the United Kingdom and Ireland. Foreign taxes of \$0.5 million are included in the consolidated tax provision for income taxes related to the portion of income earned directly by our United Kingdom and Ireland subsidiaries for the six months ended June 30, 2012. U.S. domestic taxes have not been provided for in the consolidated tax provision with respect to amounts earned directly by these subsidiaries since it is the Company's plan to indefinitely invest amounts earned by these subsidiaries in the United Kingdom and Ireland operations. If these subsidiaries' earnings were repatriated to the United States, additional U.S. domestic taxes of \$5.0 million would be incurred. Additionally, approximately \$14.5 million of our consolidated cash and cash equivalents are held by our United Kingdom and Irish subsidiaries.

Cash Flows

Operating

Our cash flows from operating activities are primarily dependent upon the operating distributions from our joint venture investments and loan pool participations, revenues from our services business, and the level of our operating expenses and other general and administrative costs. Net cash provided by operating activities totaled \$9.9 million for the six months ended June 30, 2012. This was primarily related to operating distributions from our joint venture investments and loan pool participations of \$37.4 million offset by payments of accrued expenses and other liabilities and accrued salaries and benefits. Net cash used in operating activities totaled \$12.9 million for the six months ended June 30, 2011. This was primarily related to timing of cash operating expenses.

Investing

Our cash flows from investing activities are generally comprised of cash used to fund investments in our joint ventures and loan pool participations, property acquisitions and capital expenditures, loans secured by real estate, and investments in marketable securities as well as cash received from dispositions, resolutions and other distributions of these investments. Net cash used in investing activities totaled \$56.3 million for the six months ended June 30, 2012. This was primarily due to \$49.5 million of equity invested in joint ventures of which \$37.8 million was invested in the acquisition of five income producing multifamily properties located primarily in the Western U.S. and Ireland.

In addition, we invested \$67.5 million to fund our equity in participations in new loan pools. The cash used in the aforementioned investing activities was offset by receipt of \$29.6 million in investing distribution from our joint ventures primarily due to the sale of four multifamily properties located in the Western U.S. In addition we sold a portion of our marketable securities which provided \$21.4 million.

Net cash used in investing activities totaled \$67.3 million for the six months ended June 30, 2011. This was primarily due to \$73.7 million of equity invested in joint ventures of which \$11.2 million was invested in the acquisition of three income producing multifamily properties, \$12.5 million was invested in an income producing office property and \$19.0 million in a development

Table of Contents

project in Hawaii. In addition, we contributed \$12.1 million to our joint venture in Japan for the purpose of refinancing a large portion of the Japanese multifamily portfolio and \$7.0 million to increase our investment in a project in Northern California. The cash used in the aforementioned investing activities was offset by receipt of \$11.2 million in investing distributions from our joint ventures.

Financing

Our net cash related to financing activities is generally impacted by our borrowings and capital activities net of dividends and distributions paid to common and preferred shareholders and noncontrolling interests. Net cash provided by financing activities totaled \$17.6 million for the six months ended June 30, 2012. This is primarily due to net borrowing under our line of \$34.2 million offset by payments of cash dividends of \$8.7 million to our common and preferred shareholders and \$4.9 million distribution to noncontrolling interest holders as a result of the sale of a 180-unit apartment building.

Net cash provided by financing activities totaled \$223.5 million for the six months ended June 30, 2011. This is primarily due to the issuance of \$250 million of senior notes with a maturity date of April 2019 which was offset by \$7.2 million of debt issuance costs and fees paid as a result of this issuance. In addition, we issued 4.8 million shares of our common stock in a private placement for net proceeds of \$51.4 million, offset by net repayments of \$65.6 million under our line of credit, mortgage loans and notes payables and payments of cash dividends of \$4.1 million. We believe that existing cash and cash equivalents plus capital generated from property management and leasing, brokerage, sales of real estate owned, collections from notes receivable, as well as our current line of credit, will provide us with sufficient capital requirements for at least the next 12 months.

To the extent that we engage in additional strategic investments, including real estate, note portfolios, or acquisitions of other real estate related companies, we may need to obtain third party financing which could include bank financing or the public sale or private placement of debt or equity securities.

Under our current joint venture strategy, we generally contribute property expertise and a fully funded initial cash contribution, with commitments to providing additional funding. Capital required for additional improvements and supporting operations during leasing and stabilization periods is generally obtained at the time of acquisition via debt financing or third party investors. Accordingly, we generally do not have significant capital commitments with unconsolidated entities. However, there may be certain circumstances when we, usually with the other members of the joint venture entity, may be required to contribute additional capital for a limited period of time.

Our need, if any, to raise additional funds to meet our capital requirements will depend on many factors, including the success and pace of the implementation of our strategy for growth. We regularly monitor capital raising alternatives to be able to take advantage of other available avenues to support our working capital and investment needs, including strategic partnerships and other alliances, bank borrowings, and the sale of equity or debt securities. We expect to meet the repayment obligations of our senior notes and borrowings under lines of credit from cash generated by our business activities, including the sale of assets and the refinancing of debt.

Contractual Obligations and Commercial Commitments

In 2011, the Company acquired an approximately 200,000 square foot office portfolio in Oakland, California from a related party fund in which we had a 5% ownership interest. Kennedy Wilson has committed to pay the seller 15% of all profits realized by Kennedy Wilson in excess of a 10% internal rate of return upon disposition of the investment. Accordingly, Kennedy Wilson has recorded a liability of \$0.7 million, at fair value, for the 15% contingent interest. This interest is re-evaluated on an on-going basis.

At June 30, 2012, our contractual cash obligations, including debt and operating leases included the following:

Table of Contents

	Payments due by period				
	Total	Six months ending 12/31/2012	1-3 years	4-5 years	After 5 years
Contractual Obligations					
Borrowings: ⁽¹⁾					
Mortgage loan payable	\$ 30,748,300	\$—	\$4,912,680	\$ 12,545,133	\$ 13,290,487
Borrowings under line of credit ⁽²⁾	34,189,000	—	34,189,000	—	—
Subordinated debt	40,000,000	—	—	—	40,000,000
Senior Notes	250,000,000	—	—	—	250,000,000
Total borrowings	354,937,300	—	39,101,680	12,545,133	303,290,487
Operating leases	9,548,000	1,174,000	6,396,000	1,978,000	—
Total contractual cash obligations	\$ 364,485,300	\$ 1,174,000	\$ 45,497,680	\$ 14,523,133	\$ 303,290,487

See notes 9 - 12 of our Notes to Consolidated Financial Statements. Figures do not include scheduled interest payments. Assuming each debt obligation is held until maturity, we estimate that we will make the following ⁽¹⁾ interest payments: Six months ending 12/31/2012 - \$13,705,000; 1-3 years - \$80,772,000 ; 4-5 years - \$50,493,000 ; After 5 years - \$57,798,000. The interest payments on variable rate debt have been calculated using the interest rate in effect at June 30, 2012.

⁽²⁾ Subsequent to June 30, 2012, the borrowings under the line of credit were paid down. The estimated interest payments related to this borrowing are through the date of payoff.

Significant indebtedness

Our level of indebtedness increases the possibility that we may be unable to generate cash sufficient to pay when due the principal of, interest on or other amounts due in respect of our indebtedness and other obligations. In addition, we may incur additional debt from time to time to finance strategic acquisitions, investments, joint ventures or for other purposes, subject to the restrictions contained in the documents governing our indebtedness. If we incur additional debt, the risks associated with our leverage, including our ability to service our debt, would increase.

In 2007, Kennedy Wilson issued junior subordinated debentures in the amount of \$40.0 million. The debentures were issued to a trust established by Kennedy Wilson, which contemporaneously issued \$40.0 million of trust preferred securities to Merrill Lynch International. The interest rate on the debentures is fixed for the first ten years at 9.06%, and variable thereafter at LIBOR plus 3.70%. Interest is payable quarterly with the principal due in 2037. Kennedy Wilson may redeem the debentures, in whole or in part, on any interest payment date at par.

In June 2012, Kennedy Wilson amended its existing unsecured revolving credit facility with U.S. Bank and East-West Bank which effectively increased the total principal amount available to be borrowed by an additional \$25.0 million, for an aggregate of \$100.0 million. The loans will bear interest at a rate equal to LIBOR plus 2.75% and the maturity date was extended to June 30, 2015. As of June 30, 2012, there was \$34.2 million drawn on the line of credit.

In April 2011, Kennedy-Wilson, Inc., a wholly-owned subsidiary of Kennedy Wilson, issued \$250 million in aggregate principal amount of its 8.750% senior notes due 2019, referred to as "the Notes". The terms of the Notes are governed by an indenture, dated as of April 5, 2011, by and among the issuer, Kennedy Wilson, as parent guarantor, certain subsidiaries of the issuer, as subsidiary guarantors and Wilmington Trust FSB, as trustee. The Notes bear interest at 8.750% per annum. Interest is payable on April 1 and October 1 of each year until the maturity date of April 1, 2019. The issuer's obligations under the Notes are fully and unconditionally guaranteed by Kennedy Wilson and the subsidiary guarantors. At any time prior to April 1, 2015, the issuer may redeem the Notes, in whole or in part, at a price equal to 100% of the principal amount, plus an applicable "make-whole" premium and accrued and unpaid interest, if any, to the redemption date. At any time and from time to time on or after April 1, 2015, the issuer may redeem the Notes, in whole or in part, at the redemption prices specified in the indenture. Until April 1, 2014, the issuer may choose to redeem the Notes in an amount not to exceed in aggregate 35% of the original principal amount

of the Notes together with any additional Notes issued under the indenture with money the issuer or Kennedy Wilson raise in certain equity offerings. The amount of the 8.75% Notes included in the consolidated balance sheets, net of unamortized discount and premium, was \$249.4 million at June 30, 2012.

The junior subordinated debentures, the unsecured credit facility with U.S. Bank and East-West Bank, and the indenture governing the 8.750% senior notes contain numerous restrictive covenants that, among other things, limit Kennedy Wilson's ability

Table of Contents

to incur additional indebtedness, pay dividends or make distributions to stockholders, repurchase capital stock or debt, make investments, sell assets or subsidiary stock, create or permit liens on assets, engage in transactions with affiliates, enter into sale/leaseback transactions, issue subsidiary equity and enter into consolidations or mergers. The unsecured credit facility and junior subordinated debentures also require Kennedy Wilson to maintain a minimum tangible net worth and a specified amount of cash and cash equivalents.

The junior subordinated debentures require Kennedy Wilson to maintain (i) a fixed charge coverage ratio (as defined in the indenture governing the junior subordinated debentures) of not less than 1.75 to 1.00, measured on a four-quarter rolling basis, and (ii) a ratio of total debt to net worth (as defined in the indenture governing the junior subordinated debentures) of not greater than 3.00 to 1.00 at anytime. As of the most recent quarter end, Kennedy Wilson's fixed charge coverage ratio was 2.84 to 1.00 and its ratio of total debt to net worth was 0.88 to 1.00. As of June 30, 2012, Kennedy Wilson was in compliance with this ratio.

The unsecured credit facility requires Kennedy Wilson to maintain (i) a minimum rent adjusted fixed charge coverage ratio (as defined in the unsecured credit facility) of not less than 1.50 to 1.00, measured on a four quarter rolling average basis and (ii) maximum balance sheet leverage (as defined in the unsecured credit facility) of not greater than 1.50 to 1.00, measured at the end of each calendar quarter. As of the most recent quarter end, Kennedy Wilson's adjusted fixed charge coverage ratio was 1.89 to 1.00 and its balance sheet leverage ratio was 0.85 to 1.00. As of June 30, 2012, Kennedy-Wilson, Inc.'s was in compliance with this ratio.

The indenture governing the 8.750% senior notes limits Kennedy-Wilson, Inc.'s ability to incur additional indebtedness if, on the date of such incurrence and after giving effect to the new indebtedness, Kennedy-Wilson, Inc.'s maximum balance sheet leverage ratio (as defined in the indenture) is greater than 1.50 to 1.00. This ratio is measured at the time of incurrence of additional indebtedness. As of June 30, 2012, the balance sheet leverage ratio was 0.85 to 1.00.

Off-Balance Sheet Arrangements

We have provided guarantees associated with loans secured by assets held in various joint venture partnerships. The maximum potential amount of future payments (undiscounted) we could be required to make under the guarantees was approximately \$24.1 million at June 30, 2012. The guarantees expire through 2015 and our performance under the guarantees would be required to the extent there is a shortfall upon liquidation between the principal amount of the loan and the net sales proceeds of the property. If we were to become obligated to perform on these guarantees, it could have an adverse affect on our financial condition.

As of June 30, 2012, we have unfulfilled capital commitments totaling \$6.3 million to our joint ventures. As we identify investment opportunities in the future, we may be called upon to contribute additional capital to joint ventures in satisfaction of our capital commitment obligations.

Please refer to our Annual Report on Form 10-K for the year ended December 31, 2011 for discussion of our non-recourse carve out guarantees arrangements as there have been no material changes to that disclosure.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The primary market risk exposure of our Company relates to changes in interest rates in connection with our short-term borrowings, some of which bear interest at variable rates based on the lender's base rate, prime rate, or LIBOR plus an applicable borrowing margin. These borrowings do not give rise to a significant interest rate risk because they have short maturities. However, the amount of income or loss we recognize for unconsolidated joint ventures may be impacted by changes in interest rates. Historically, the impact from the changes in rates has not been significant. Our exposure to market risk also consists of foreign currency exchange rate fluctuations related to our international operations.

Interest Rate Risk

We have established an interest rate management policy, which attempts to minimize our overall cost of debt, while taking into consideration the earnings implications associated with the volatility of short-term interest rates. As part of this policy, we have elected to maintain a combination of variable and fixed rate debt.

The table below represents contractual balances of our financial instruments at the expected maturity dates as well as the fair value as of June 30, 2012. The expected maturity categories take into consideration actual amortization of principal and do not take into consideration reinvestment of cash. The weighted average interest rate for the various assets and liabilities presented are actual as of June 30, 2012. We closely monitor the fluctuation in interest rates, and if rates were to increase significantly, we believe that we would be able to either hedge the change in the interest rate or to refinance the loans with fixed interest rate debt.

Table of Contents

Item 4. Controls and Procedures

Disclosure Controls and Procedures

As of the end of the period covered by this report, we conducted an evaluation, under the supervision and with the participation of the principal executive officer and principal financial officer, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Based on this evaluation, our principal executive officer and principal financial officer concluded that, as of the end of the record period covered by this report, our disclosure controls and procedures are effective to provide reasonable assurance that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms.

Changes In Internal Controls Over Financial Reporting

There was no change in our internal control over financial reporting during our most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II

OTHER INFORMATION

Item 1. Legal Proceedings

We may be involved in various legal proceedings arising in the ordinary course of business, none of which are material to our business and our financial statements taken as a whole. From time to time, our real estate management division is named in “slip and fall” type litigation relating to buildings we manage. Our standard management agreement contains an indemnity provision whereby the building owner indemnifies and agrees to defend its real estate management division against such claims. In such cases, we are defended by the building owner’s liability insurer.

Item 1A. Risk Factors

47

Table of Contents

The discussion of our business and operations in this Quarterly Report on form 10-Q should be read together with the risk factors contained in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011, filed with the SEC, which describe various risks and uncertainties to which we are or may become subject. There were no material changes from the risk factors disclosed in Item 1A of our report on Form 10-K for the fiscal year ended December 31, 2011.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Period	Total Number of Shares (or Units) Purchased or Sold	Average Price Paid per Share (or Unit) (\$)	Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs
