SPECIAL NOTICE REGARDING FORWARD-LOOKING STATEMENTS

We are including the following cautionary statement in this Form 10-Q to make applicable and take advantage of the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995 for any forward-looking statement made by, or on behalf of, us. This 10-Q, press releases issued by us, and certain information provided periodically in writing and orally by our designated officers and agents contain statements which constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. The words “expect”, “believe”, “goal”, “plan”, “intend”, “estimate”, and similar expressions and variations thereof used are intended to specifically identify forward-looking statements. Where any such forward-looking statement includes a statement of the assumptions or basis underlying such forward-looking statement, we caution that assumed facts or basis almost always vary from actual results, and the differences between assumed facts or basis and actual results can be material, depending on the circumstances. Where, in any forward-looking statement, we, or our management, expresses an expectation or belief as to future results, such expectation or belief is expressed in good faith and believed to have a reasonable basis, but there can be no assurance that the statement of expectation or belief will result or be achieved or accomplished

NOTE A – BASIS OF PRESENTATION, NATURE OF BUSINESS AND GOING CONCERN

Basis of Presentation

The accompanying consolidated condensed financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary in order to make the financial statements not misleading have been included. Results for the nine months ended December 31, 2009 are not necessarily indicative of the results that may be expected for the year ending March 31, 2010. For further information, refer to the financial statements and footnotes thereto included in the Novo Energies Corporation annual report on Form 10-KSB for the year ended March 31, 2009.

Nature of Business

Novo Energies Corporation (“Novo”) is engaged in the development of green energy solutions. Novo is entering the business of transforming plastic and tire wastes into liquid fuel including but not limited to diesel, gasoline and fuel additives. It intends to utilize a process involving thermolysis and gasification among other technologies to produce low carbon fuels and fuel additives. Novo’s low capacity equipment can be installed near waste streams where there is a minimum of 15 tons/day of plastic and/or tire waste.

Novo formerly known as Atlantic Wine Agencies, Inc. (“Atlantic”) is organized under the laws of the State of Florida. Atlantic had vineyards and a winery in South Africa. The operations of Atlantic were spun-out to the stockholders in September 2008, and a change of control occurred on October 7, 2008 at which time the Company considered itself a Development Stage Company. The Company changed its name to Novo Energies Corporation on June 8, 2009. The 2008 Financial Statements have been reclassified to give effect to the discontinued operations.

On July 30, 2009, the Company formed its first wholly owned subsidiary - WTL Renewable Energy, Inc. (“WTL”). WTL was established as a Canadian Federal Corporation whose business plan is to plan, build, own, and operate renewable energy plants throughout North America.

Going Concern

As indicated in the accompanying financial statements, the Company has incurred cumulative net operating losses of \$2,391,559 during the Development stage and has negative working capital of \$1,010,395. Management’s plans include the raising of capital through equity markets to fund future operations and the generating of revenue through its business. Failure to raise adequate capital and generate adequate sales revenues could result in the Company having to curtail or cease operations. Additionally, even if the Company does raise sufficient capital to support its operating expenses and generate adequate revenues, there can be no assurances that the revenues will be sufficient to enable it to develop business to a level where it will generate profits and cash flows from operations. These matters raise substantial doubt about the Company’s ability to continue as a going concern. However, the accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. These financial statements do not include any adjustments

relating to the recovery of the recorded assets or the classification of the liabilities that might be necessary should the Company be unable to continue as a going concern.

NOTE B – CHANGE OF CONTROL

Lusierna Asset Management Ltd. (“Lusierna”), as agent for a group of shareholders, has obtained a controlling interest in the Company’s common shares. Lusierna is an affiliate of Antonio Treminio who became the Company’s new sole Director, President, Chief Executive Officer and Chief Financial Officer on October 7, 2008. Lusierna, as agent, obtained an interest in approximately 50% of the Company’s common stock pursuant to a stock purchase agreement between Lusierna and Sapphire Development Ltd., Crazson Properties, Ltd. and Fairhurst Properties S.A. (“the Sellers”). Under the Share Purchase Agreement, the Sellers sold 6,930,258 shares of the Company’s common stock in exchange for \$200,000.

NOTE C– RECENT ACCOUNTING PRONOUNCEMENTS

Effective January 1, 2009, the Accounting Standards Codification (“ASC”) became FASB’s official recognized source of authoritative U.S. generally accepted accounting principles applicable to all public and non-public non-governmental entities, superseding existing FASB AICPA, EITF and related literature. Rules and interpretive releases of the SEC under the authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. All other accounting literature is considered non-authoritative. The switch to the ASC affects the way companies refer to U.S. GAAP in financial statements and accounting policies. Citing particular content in the ASC involves specifying the unique numeric path to the content through the Topic, Subtopic, Section and Paragraph structure. The codification is effective for interim and annual periods ending after September 15, 2009. Its adoption had minimal impact on our results.

In May 2009, the FASB issued SFAS No. 165, Subsequent Events, codified under ASC Topic 855. SFAS No. 165 is intended to establish general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. The Company evaluated events between the end of the most recent quarter, December 31, 2009 and February 18, 2010, the date the consolidated financial statements were available to be issued and no additional disclosures were deemed necessary.

NOTE D - SIGNIFICANT ACCOUNTING POLICIES

Net Loss Per Common Share

The Company computes per share amounts in accordance with ASC Topic 260, “Earnings per Share.” Earnings per share (EPS) requires presentation of basic and diluted EPS. Basic EPS is computed by dividing the income (loss) available to Common Stockholders by the weighted-average number of common shares outstanding during the periods, however, no potential common shares are included in the computation of any diluted per share amounts when a loss from continuing operations exists. During the period ended December 31, 2009, unvested common shares in the amount of 2,833,336 issued for future consulting and employment contracts were excluded from the EPS calculation as they are not considered issued for accounting purposes.

NOTE E - USE OF ESTIMATES

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

NOTE F - RELATED PARTY PAYABLE

At December 31, 2009, the related party payables of \$596,145 represents the unpaid salary and taxes to the Chief Executive Officer of \$162,119, expenses paid by the Chief Executive Officer on behalf of the company aggregating

\$214,441, compensation due other consultants \$114,000 and expenses advanced by other shareholders in the amount of \$47,085, primarily to travel related expenses. Additionally, included in related party payables is \$58,500 for unpaid rent payable to Lusierna Asset Management, Ltd., a company controlled by the Chief Executive Officer.

NOTE G – NOTE PAYABLE

On November 1, 2009, the Company issued a \$242,000 promissory note maturing on October 31, 2010. The note bears interest at the rate of 10% per annum and is payable at maturity. The face amount of the note plus accrued interest is convertible into unregistered common stock of the company at the lesser of 100% of the volume weighted average price (“VWAP”) of common stock as reported by Bloomberg L.P. on the day prior to the conversion date and a 15% discount to the lowest daily closing “VWAP” of common stock during the five days prior to the conversion date. The Company in accordance with EITF 98-5 and 00-27 utilized the Market approach to value the debt instrument and concluded that a beneficial conversion feature exists since the effective conversion price of shares was less than the stock price at commitment date. The 15% discount created a beneficial conversion feature at the commitment date aggregating \$36,300 which is being accreted monthly from the issuance date of the promissory note through maturity and is being recorded as additional interest expense. Accordingly, at December 31, 2009, the loan balance is \$211,311, net of the discount \$30,689 and amortized discount of \$5,611 which has been charged to interest expense.

NOTE J - SUBSEQUENT EVENTS

On January 21, 2010, the Company owed its Chief Executive Officer \$376,560 for salary and expenditures paid by him on behalf of the company. The company and its President and Chief Executive Officer mutually agreed to formalize a portion of the debt and issued a \$279,656 promissory note maturing on January 21, 2012. The note bears interest at the rate of 10% per annum and is payable at maturity. The face amount of the loan plus accrued interest is convertible into unregistered common stock of the company at the lesser of 100% of the volume weighted average price ("VWAP") of common stock as reported by Bloomberg L.P. on the day prior to the conversion date and a 15% discount to the lowest daily closing "VWAP" of common stock during the five days prior to the conversion date. The Company in accordance with EITF 98-5 and 00-27 utilized the Market approach to value the debt instrument and concluded that a beneficial conversion feature exists since the effective conversion price of shares was less than the stock price at commitment date. The 15% discount created a beneficial conversion feature at the commitment date aggregating \$41,945 which will be accreted monthly from the issuance date of the promissory note through maturity and will be recorded as additional interest expense. Accordingly, at January 21, 2010, the loan has been recorded at \$237,691, net of the discount \$41,945, which will be credited to additional paid in capital.

On January 26, 2010, the Company issued at par, a \$500,000 Secured Convertible Debenture maturing on January 26, 2011. The debenture bears interest at the rate of 10% per annum and is payable monthly. The Company has granted a security interest in substantially all of the assets of the Company as collateral for the debenture. The face amount of the loan plus accrued interest is convertible into unregistered common stock of the company at the lesser of 100% of the volume weighted average price ("VWAP") of common stock as reported by Bloomberg L.P. on the day prior to the conversion date and a 15% discount to the lowest daily closing "VWAP" of common stock during the five days prior to the conversion date. Additionally, the Company issued commitment shares totaling 6,085,193 equivalent to \$1,500,000 at the closing date to obtain the loan. The Company in accordance with APB 14 utilized the Market Approach to value the debt instrument and allocated the net proceeds from the issuance of the debenture based upon the pro rata portion of the face value of the debentures and the undiscounted value of the commitment shares. Additionally, 15% of Debenture was allocated to a beneficial conversion feature in accordance with EITF 98-5 and EITF 00-27. The Company concluded that the 15% discount created a beneficial conversion feature at the commitment date since the effective conversion price of the shares was less than the stock price at the commitment date. The beneficial conversion feature and the pro rata value of the commitment shares aggregated \$395,521 which will be accreted monthly from the issuance date of the Debenture through maturity and will be recorded as additional interest expense. Accordingly, at January 26, 2010, the loan has been recorded at \$104,479, net of the discount \$395,521 which was credited to additional paid in capital.

On January 21, 2010, the board of directors approved the issuance of 1,404,575 shares of its common stock in settlement of \$294,961 of current liabilities including \$200,000 to related parties.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Novo Energies Corporation (“Novo”) is engaged in the development of green energy solutions. Novo is entering the business of transforming plastic and tire wastes into liquid fuel including but not limited to diesel, gasoline and fuel additives. It intends to utilize a process involving thermolysis and gasification among other technologies to produce low carbon fuels and fuel additives. Novo’s low capacity equipment can be installed near waste streams where there is a minimum of 15 tons/day of plastic and/or tire waste.

Novo formerly known as Atlantic Wine Agencies, Inc. (“Atlantic”) is organized under the laws of the State of Florida. Atlantic had vineyards and a winery in South Africa. The operations of Atlantic were spun-out to the stockholders in September 2008, and a change of control occurred on October 7, 2008 at which time the Company considered itself a Development Stage Company. The Company changed its name to Novo Energies Corporation on June 8, 2009. The 2008 Financial Statements have been reclassified to give effect to the discontinued operations.

On July 30, 2009, the Company formed its first wholly owned subsidiary - WTL Renewable Energy, Inc. (“WTL”). WTL was established as a Canadian Federal Corporation whose business plan is to plan, build, own, and operate renewable energy plants throughout North America.

On November 1, 2009, the Company issued a \$242,000 promissory note maturing on October 31, 2010. The note bears interest at the rate of 10% per annum and is payable at maturity. The face amount of the note plus accrued interest is convertible into unregistered common stock of the company at the lesser of 100% of the volume weighted average price (“VWAP”) of common stock as reported by Bloomberg L.P. on the day prior to the conversion date and a 15% discount to the lowest daily closing “VWAP” of common stock during the five days prior to the conversion date. The Company in accordance with EITF 98-5 and 00-27 utilized the Market approach to value the debt instrument and concluded that a beneficial conversion feature exists since the effective conversion price of shares was less than the stock price at commitment date. The 15% discount created a beneficial conversion feature at the commitment date aggregating \$36,300 which is being accreted monthly from the issuance date of the promissory note through maturity and is being recorded as additional interest expense. Accordingly, at December 31, 2009, the loan balance is \$211,311, net of the discount \$30,689 and amortized discount of \$5,611 which has been charged to interest expense.

On November 1, 2009, the company entered into a consulting agreement with Philippe Germaine to provide consulting services in Investor Relations. In connection with the agreement, the Company will provide a monthly retainer of \$3,000 per month, and issue 15,000 shares of its common stock per month. In addition, Mr. Germaine received a cash signing bonus of \$9,000. In connection with the agreement, stock based compensation in the amount of \$9,000 was recorded based upon average share prices ranging from \$.17 to \$.41 during the period.

Effective October 23, 2009, the Company entered into an employment agreement with Hakim Zahar as the President of the Company. The agreement calls for a base salary of \$10,000 per month with payments starting November 15, 2009. The executive shall receive a minimum of 50,000 of the Company’s common stock shares per month starting on the effective date of this agreement. This agreement can be terminated by either party at will. In accordance with the terms of the contract, stock based compensation in the amount of \$30,000 has been recognized based on the average share prices ranging from \$.17 to \$.41 during the period.

Between October 22, 2009 and November 4, 2009, the Company sold, under private placement agreements to four different individuals, 159,929 units consisting of one share of common stock and one warrant for every two shares sold. The units were sold at \$0.35 per unit resulting in \$55,975 proceeds to the Company. The warrants were valued at approximately \$.012 per unit using a modified binomial analysis and classified as additional paid in capital.

At December 31, 2009, 897,454 common shares are included in outstanding shares although not yet issued.

RESULTS OF OPERATIONS

As indicated in the accompanying financial statements, the Company has incurred cumulative net operating losses of \$2,391,559 during the Development stage and has negative working capital of \$1,010,395. Management's plans include the raising of capital through equity markets to fund future operations and the generating of revenue through its business. Failure to raise adequate capital and generate adequate sales revenues could result in the Company having to curtail or cease operations. Additionally, even if the Company does raise sufficient capital to support its operating expenses and generate adequate revenues, there can be no assurances that the revenues will be sufficient to enable it to develop business to a level where it will generate profits and cash flows from operations. These matters raise substantial doubt about the Company's ability to continue as a going concern. However, the accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. These financial statements do not include any adjustments relating to the recovery of the recorded assets or the classification of the liabilities that might be necessary should the Company be unable to continue as a going concern.

Results of Operation- Three Months Ended December 31, 2009

The Company is currently developing its business, and as a result has no products or services to offer and no revenues. In developing its business, the Company has undertaken expenses that have resulted in a loss from continuing operations of \$1,086,946 in the three months ended December 31, 2009, as compared to a loss from continuing operations of \$19,000 in the corresponding period in 2008. Loss from continuing operations consists of general and administrative expenses, which increased from \$19,000 to \$823,745 in the three month periods ended December 31, 2008 and 2009, research and development, which increased from \$0 to \$253,601 in the three month periods ended December 31, 2008 and 2009, and interest expense, which increased from \$0 to \$9,600 in the three month periods ended December 31, 2008 and 2009. Each of these increases is attributable to the development of the Company's technological processes.

Results of Operation- Nine Months Ended December 31, 2009

The Company is currently developing its business, and as a result has no products or services to offer and no revenues. In developing its business, the Company has undertaken expenses that have resulted in a loss from continuing operations of \$2,067,306 in the nine months ended December 31, 2009, as compared to a loss from continuing operations of \$258,063 in the corresponding period in 2008. Loss from continuing operations consists of general and administrative expenses, which increased from \$258,063 to \$1,708,082 in the nine month periods ended December 31, 2008 and 2009, research and development, which increased from \$0 to \$349,624 in the nine month periods ended December 31, 2008 and 2009, and interest expense, which increased from \$0 to \$9,600 in the nine month periods ended December 31, 2008 and 2009. Each of these increases is attributable to the development of the Company's technological processes.

LIQUIDITY AND CAPITAL RESOURCES

In connection with our current liabilities of \$1,038,266 as at December 31, 2009, we had accrued professional fees of \$117,175, a note payable of \$211,311 and total related party payables of \$596,145.

At December 31, 2009, the related party payables of \$596,145 represents the unpaid salary and taxes to the Chief Executive Officer of \$162,119, expenses paid by the Chief Executive Officer on behalf of the company aggregating \$214,441, compensation due other consultants \$114,000 and expenses advanced by other shareholders in the amount of \$47,085, primarily to travel related expenses. Additionally, included in related party payables is \$58,500 for unpaid rent payable to Lusierna Asset Management, Ltd., a company controlled by the Chief Executive Officer.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates, including those related to bad debts, income taxes and contingencies and litigation. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

RECENTLY ACCOUNTING PRONOUNCEMENTS

Effective January 1, 2009, the Accounting Standards Codification (“ASC”) became FASB’s official recognized source of authoritative U.S. generally accepted accounting principles applicable to all public and non-public non-governmental entities, superseding existing FASB AICPA, EITF and related literature. Rules and interpretive releases of the SEC under the authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. All other accounting literature is considered non-authoritative. The switch to the ASC affects the way companies refer to U.S. GAAP in financial statements and accounting policies. Citing particular content in the ASC involves specifying the unique numeric path to the content through the Topic, Subtopic, Section and Paragraph structure. The codification is effective for interim and annual periods ending after September 15, 2009. Its adoption had minimal impact on our results.

In May 2009, the FASB issued SFAS No. 165, Subsequent Events, codified under ASC Topic 855. SFAS No. 165 is intended to establish general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. The Company evaluated events between the end of the most recent quarter, December 31, 2009 and February 18, 2010, the date the consolidated financial statements were available to be issued and no additional disclosures were deemed necessary.

Item 3. Quantitative and Qualitative Disclosure About Market Risk.

Not applicable.

Item 4. Controls and Procedures

(a) Disclosure Controls and Procedures.

Edgar Filing: Novo Energies Corp - Form 10-Q

As of the end of the period covering this Form 10-Q, we evaluated the effectiveness of the design and operation of our “disclosure controls and procedures”. We conducted this evaluation under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer.

(i) Definition of Disclosure Controls and Procedures.

Disclosure controls and procedures are controls and other procedures that are designed with the objective of ensuring that information required to be disclosed in our periodic reports filed under the Exchange Act, such as this report, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. As defined by the SEC, such disclosure controls and procedures are also designed with the objective of ensuring that such information is accumulated and communicated to our management, including the Chief Executive Officer and Chief Financial Officer, in such a manner as to allow timely disclosure decisions.

(ii) Conclusions with Respect to Our Evaluation of Disclosure Controls and Procedures.

Our Chief Executive Officer and Chief Financial Officer determined that, as of the end of the period covered by this report, these controls and procedures are adequate and effective in alerting them in a timely manner to material information relating to us required to be included in our periodic SEC filings.

(b) Changes in Internal Controls.

There have been no changes in our internal controls over financial reporting that could significantly affect these controls subsequent to the date of their evaluation.
