DAILY JOURNAL CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1 - The Corporation and Operations

The Daily Journal Corporation (the “Company”) publishes newspapers and web sites covering California and Arizona, as well as the California Lawyer magazine, and produces several specialized information services. It also serves as a newspaper representative specializing in public notice advertising. This business is referred to herein as “The Traditional Business”.

Sustain Technologies, Inc. (“Sustain”) supplies case management software systems and related products to courts and other justice agencies, including administrative law organizations. These courts and agencies use the Sustain family of products to help manage cases and information electronically and to interface with other critical justice partners. Sustain’s products are designed to help users manage electronic case files from inception to disposition, including calendaring and accounting, report and notice generation, the implementation of time standards and business rules and other corollary functions, and to enable justice agencies to extend electronic services to the public and bar members. Its products are licensed in seven states and in Canada.

In December 2012, the Company purchased all of the outstanding stock of New Dawn Technologies, Inc. (“New Dawn”), based in Logan, Utah, which provides products and services similar to those of Sustain to more than 350 justice agencies in 40 states, three U.S. territories and two other countries.

In September 2013, the Company acquired substantially all of the operating assets and liabilities of ISD Corporation, now operating under the name of ISD Technologies, Inc. (“ISD”), which provides case management systems to California courts and other governmental agencies, similar to those of Sustain and New Dawn, and a service that provides the general public a secure website to pay traffic citations online.

Sustain, New Dawn and ISD are referred to collectively herein as “The Technology Companies”. The Company acquired New Dawn and ISD to expand its case management software business and to broaden its customer base in key markets. Essentially all of the Company’s operations are based in California, Arizona and Utah.

Note 2 - Basis of Presentation

In the opinion of the Company, the accompanying interim unaudited consolidated financial statements contain all adjustments (consisting of normal recurring accruals) considered necessary for a fair statement of its financial position as of June 30, 2014, its results of operations for the three- and nine-month periods ended June 30, 2014 and 2013 and its cash flows for the nine-month periods ended June 30, 2014 and 2013. The results of operations for the three and nine months ended June 30, 2014 are not necessarily indicative of the results to be expected for the full year.

The consolidated financial statements included herein have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading. These financial statements should be read in conjunction with the financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2013.

Certain reclassifications of previously reported amounts have been made to conform to the current year's presentation.

Note 3 - Basic and Diluted Income Per Share

The Company does not have any common stock equivalents, and therefore the basic and diluted income per share are the same.

Note 4 – Acquisitions

In December 2012 the Company purchased all of the outstanding stock of New Dawn for \$14,000,000 in cash, and in September 2013 the Company acquired substantially all of the operating assets and liabilities of ISD Corporation for approximately \$16,000,000 in cash. Both acquisitions were accounted for using the purchase method of accounting in accordance with Accounting Standards Codification (“ASC”) 805, *Business Combinations*.

The Company finalized its valuation of ISD which resulted in an allocation of \$1,700,000 to goodwill and a reduction of the same amount in its intangible assets. The Company allocated the ISD purchase price to tangible assets (\$4,410,000 including cash of \$2,546,000; accounts receivable of \$1,636,000; fixed assets of \$141,000; and prepaid assets of \$87,000), identifiable intangible assets (purchased software and customer relationships of \$14,975,000 pursuant to the results of a third party valuation) and liabilities (\$5,112,000 including accounts payable and accrued expenses of \$2,270,000 and deferred maintenance agreements of \$2,842,000) based on their fair values with the remaining balance in excess of the net assets allocated to goodwill (\$1,700,000).

Note 5 - Business Combinations

During the nine months ended June 30, 2014, New Dawn had revenues of \$6,762,000, expenses of \$9,857,000 (including intangible amortization expenses of \$1,425,000), and a pretax loss of \$3,051,000 as compared with revenues of \$6,430,000, expenses of \$7,168,000 (including amortization expenses of \$1,111,000) and a pretax loss of \$718,000 in the prior year period of less than seven months (December 5, 2012 through June 30, 2013).

During the nine months ended June 30, 2014, ISD had revenues of \$7,705,000, expenses of \$5,960,000 (including intangible amortization expenses of \$2,217,000), and pretax income of \$1,778,000.

Note 6 - Intangible Assets

At June 30, 2014, intangible assets comprised New Dawn's purchased software and customer relationship costs of \$6,488,000 (net of the accumulated amortization expenses of \$3,012,000) and ISD's purchased software and customer relationship costs of \$12,479,000 (net of accumulated amortization expenses of \$2,496,000). These identifiable intangible assets are being amortized over five years for financial statement purposes due to the short life cycle of technology that customer relationships depend on, and over a 15-year period on a straight line basis for tax purposes. The intangible amortization expenses were \$3,642,000 for the nine months ended June 30, 2014 as compared with \$1,111,000 in the prior year period.

Note 7 – Goodwill

The Company accounts for goodwill in accordance with ASC 350, *Intangibles — Goodwill and Other*. Goodwill, which is not amortized for financial statement purposes, is amortized over a 15-year period for tax purposes, but evaluated for impairment annually as of September 30, or whenever events or changes in circumstances indicate that the value may not be recoverable. Considered factors for potential goodwill impairment evaluation with respect to The Technology Companies include the current year's business profitability before intangible amortization, fluctuations of revenues, changes in the marketplace, the status of deferred installation contracts and new business, among other things.

In addition, Accounting Standards Codification 2011-08, *Testing Goodwill for Impairment*, allows for the option of performing a qualitative assessment before calculating the fair value of a reporting unit. If it is determined based on qualitative factors that there is no impairment to goodwill, then the fair value of a reporting unit is not needed. If a quantitative analysis is required and the unit's carrying amount exceeds its fair value, then the second step is performed to measure the amount of potential impairment. The Company's annual goodwill impairment analysis in 2013 did not result in an impairment charge based on the qualitative assessment.

During the first quarter of fiscal 2014, the Company reclassified an additional \$1,700,000 to goodwill from its intangible assets as it finalized the valuation of the ISD acquisition to reflect \$13,400,000 as of September 30, 2013 and June 30, 2014. There was no goodwill impairment during the six-month periods ended June 30, 2013 and 2014.

Note 8 – Revenue Recognition

For The Traditional Business, proceeds from the sale of subscriptions for newspapers, court rule books and other publications and other services are recorded as deferred revenue and are included in earned revenue only when the services are provided, generally over the subscription term. Advertising revenues are recognized when advertisements are published and are net of commissions. An allowance for doubtful accounts is recorded for the accounts receivable.

The Technology Companies recognize revenues in accordance with the provisions of ASC 605, *Revenue Recognition* and ASC 985-605, *Software—Revenue Recognition*. Revenues from leases of software products are recognized over the life of the lease while revenues from software product sales are generally recognized upon delivery, installation or acceptance pursuant to a signed agreement. Revenues from maintenance contracts generally call for the Company to provide software updates and upgrades to customers and are recognized ratably over the maintenance period. Consulting and other services are recognized upon acceptance by the customers under the completed contract method. The Company has elected to use the completed contract method because a customer's acceptance is unpredictable, and reliable estimates of the progress towards completion cannot be made. Only after a customer's acceptance of a completed project are customer advances generally no longer at risk of refund and are at that point considered earned.

Approximately 52% of the Company's revenues during the nine months ended June 30, 2014 were derived from The Technology Companies, including revenues from sales and leases of software licenses, fees for maintenance and support services and revenues from consulting services that typically include implementation and training.

Note 9 - Income Taxes

For the nine months ended June 30, 2014, the Company recorded an income tax benefit of \$2,300,000 on a pretax loss of \$46,000. The income tax benefit was the net result of applying the projected annual tax rate of 4.96% adjusted for any discrete items recorded year to date (mainly a permanent benefit related to differences in acquired liabilities for tax versus GAAP purposes existing at the time of the acquisition of New Dawn). The Company's projected effective tax rate continues to be lower than the statutory rate mainly due to the available dividends received deduction and the domestic production activities deduction. On a pretax profit of \$4,086,000 for the nine months ended June 30, 2013, the Company recorded a tax provision of \$1,275,000, which was lower than the amount computed using the statutory rate primarily because of the available dividends received deduction and the domestic production activity deduction. The Company's effective tax rate was 5,000% and 31% for the nine months ended June 30, 2014 and 2013, respectively. The Company files federal income tax returns in the United States and with various state jurisdictions and is no longer subject to examinations for years before 2010 with regard to federal income taxes.

Note 10 - Investments in Marketable Securities

Investments in marketable securities categorized as “available-for-sale” are stated at fair value. The Company uses quoted prices in active markets for identical assets (consistent with the Level 1 definition in the fair value hierarchy) to measure the fair value of its investments on a recurring basis pursuant to ASC 820, *Fair Value Measurement*. As of June 30, 2014 and September 30, 2013, an unrealized gain of \$118,845,000 and \$89,018,000, respectively, was recorded net of taxes of \$46,260,000 and \$34,610,000, respectively, in “Accumulated other comprehensive income” in the accompanying Consolidated Balance Sheets. Most of the unrealized gains were in the common stocks of three U.S. financial institutions.

Investments in equity securities and securities with fixed maturity as of June 30, 2014 and September 30, 2013 are summarized below.

	June 30, 2014 (Unaudited)			September 30, 2013		
	Aggregate fair value	Amortized/Adjusted cost basis	Pretax unrealized gains	Aggregate fair value	Amortized/Adjusted cost basis	Pretax unrealized gains
Marketable securities						
Common stocks	\$ 158,630,000	\$ 43,042,000	\$ 115,588,000	\$ 129,699,000	\$ 43,042,000	\$ 86,657,000
Bonds	8,193,000	4,936,000	3,257,000	7,295,000	4,934,000	2,361,000
Total	\$ 166,823,000	\$ 47,978,000	\$ 118,845,000	\$ 136,994,000	\$ 47,976,000	\$ 89,018,000

All investments are classified as “Current assets” because they are available for sale at any time. The bonds mature in 2039. In addition, there were no unrealized losses from any of the equity securities owned by the Company as of June 30, 2014.

Note 11 - Debt and Commitments and Contingencies

On December 4, 2012, the Company borrowed from its investment margin account the purchase price of \$14 million for the New Dawn acquisition, and on September 13, 2013, it borrowed another \$15.5 million for the ISD acquisition, in each case pledging its marketable securities as collateral. The interest rate for these investment margin account borrowings will fluctuate based on the Federal Funds Rate plus 50 basis points with interest only payable monthly. These investment margin account borrowings do not mature.

The Company owns its facilities in Los Angeles and leases space for its other offices under operating leases which expire at various dates through fiscal 2017. The Logan, Utah office operating lease entered into in December 2012 in connection with the New Dawn acquisition requires a monthly rent of about \$42,000 and will expire in fiscal 2016, subject to certain extension options. Part of this office space is sub-leased to third parties under short-term leases for approximately \$5,000 per month. ISD leases office space in Corona, California, for a monthly rent of about \$12,000 and will expire in March 2017. The Company is also responsible for a portion of maintenance, insurance and property tax expenses relating to these leased properties and certain other leased properties. Rental expenses for comparable nine-month periods ended June 30, 2014 and 2013 were \$938,000 and \$635,000, respectively.

From time to time, the Company is subject to litigation arising in the normal course of its business. While it is not possible to predict the results of such litigation, management does not believe the ultimate outcome of these matters will have a material effect on the Company's financial position or results of operations.

Note 12 - Operating Segments

The Company has two segments of business. The Company's reportable segments are (i) The Traditional Business and (ii) The Technologies Companies. Summarized financial information concerning the Company's reportable segments is shown in the following table:

	Reportable segments		
	The Traditional Business	The Technology Companies	Total
<u>Nine months ended June 30, 2014</u>			
Revenues	\$ 15,246,000	\$ 16,680,000	\$ 31,926,000

** Includes New Dawn's financial results from April 1, 2013 through June 30, 2013 with revenues of \$2,740,000 and expenses of \$3,110,000 (including intangible amortization expenses of \$476,000).

Note 13 - Subsequent Events

The Company has completed an evaluation of all subsequent events through the issuance date of these financial statements and concluded that no subsequent events occurred that required recognition to the financial statements or disclosures in the Notes to Consolidated Financial Statements or cash flows.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The Company continues to operate as two different businesses: (1) "The Traditional Business", being the business of newspaper and magazine publishing and related services that the Company had before 1999 when it purchased Sustain, and (2) the Sustain, New Dawn and ISD software businesses ("The Technology Companies") which supply case management software systems and related products to courts and other justice agencies.

Acquisitions

In December 2012, the Company purchased all of the outstanding stock of New Dawn for \$14,000,000 in cash. New Dawn provides case management products and services to more than 350 justice agencies in 40 states, three U.S. territories and two other countries. In September 2013, the Company acquired substantially all of the operating assets and liabilities of ISD Corporation for about \$16,000,000 in cash. Now operating under the name of ISD Technologies, Inc., ISD provides case management systems to California courts and other governmental agencies, and a service that provides the general public a secure website to pay traffic citations online. These acquisitions have expanded the Company's position in the case management software marketplace.

The Company finalized its valuation of ISD which resulted in an allocation of \$1,700,000 to goodwill and a reduction of the same amount in its intangible assets. The Company allocated the ISD purchase price to tangible assets (\$4,410,000 including cash of \$2,546,000; accounts receivable of \$1,636,000; fixed assets of \$141,000; and prepaid assets of \$87,000), identifiable intangible assets (purchased software and customer relationships of \$14,975,000 pursuant to the results of a third party valuation) and liabilities (\$5,112,000 including accounts payable and accrued expenses of \$2,270,000 and deferred maintenance agreements of \$2,842,000) based on their fair values with the remaining balance in excess of the net assets allocated to goodwill (\$1,700,000).

Overall Results

During the nine months ended June 30, 2014, the Company had a consolidated pretax loss of \$46,000 as compared to pretax income of \$4,086,000 in the prior year period. This was a decrease in profits of \$4,132,000 (101%) that included \$2,531,000 of additional amortizations of intangible acquisition costs.

Pretax income of The Traditional Business decreased by \$3,836,000 (49%) to \$4,033,000 from \$7,869,000, primarily resulting from a reduction in trustee sale notice and related service fee revenues. The Technology Companies had a

pretax loss of \$4,079,000 compared to \$3,783,000 in the prior year period. Sustain had revenues of \$2,213,000 and operating expenses of \$5,019,000. New Dawn had revenues of \$6,762,000 and operating expenses of \$9,857,000 (including intangible amortization expenses of \$1,425,000), and ISD had revenues of \$7,705,000 and operating expenses of \$5,960,000 (including intangible amortization expenses of \$2,217,000).

Consequently, there was a net income per share of \$1.63 for the nine months ended June 30, 2014, as compared with \$2.04 per share in the prior year period.

At June 30, 2014 the aggregate fair market value of the Company's marketable securities was \$166,823,000. These securities had approximately \$118,845,000 of unrealized gains before taxes of \$46,260,000 and generated approximately \$2,100,000 in dividends and interest income during the period, which lowers the Company's effective income tax rate because of the dividends received deduction. Most of the unrealized gains were in the common stocks of three U.S. financial institutions.

Comprehensive income includes net income and unrealized net gains on investments, net of taxes, as summarized below:

Comprehensive Income

	Nine months ended June 30	
	2014	2013
Net income	\$2,254,000	\$2,811,000
Net change in unrealized appreciation of investments (net of taxes)	18,177,000	15,802,000
Comprehensive income	\$20,431,000	\$18,613,000

Amortization of intangible assets	---	1,111,000	1,111,000
-----------------------------------	-----	-----------	-----------

* Includes New Dawn's financial results from December 5, 2012 through June 30, 2013 with revenues of \$6,430,000 and expenses of \$7,168,000 (including intangible amortization expenses of \$1,111,000).

Consolidated revenues were \$31,926,000 and \$26,650,000 for the nine months ended June 30, 2014 and 2013, respectively. This increase of \$5,276,000 (20%) was primarily from additional New Dawn (acquired in December 2012) and ISD (acquired in September 2013) revenues of \$8,037,000, partially offset by the reduction in trustee sale notice and related service fee revenues of \$2,429,000. The Company's revenues derived from The Technology Companies' operations constituted about 52% and 31% of the Company's total revenues for the nine months ended June 30, 2014 and 2013, respectively. (Consolidated revenues were \$11,147,000 and \$9,204,000 for the three months ended June 30, 2014 and 2013, respectively.)

Consolidated operating costs and expenses increased by \$9,610,000 (39%) to \$33,976,000 from \$24,366,000, primarily due to the additional operating expenses associated with New Dawn and ISD. Total personnel costs increased by \$4,501,000 (31%) to \$19,032,000 from \$14,531,000 primarily due to The Technology Companies' additional personnel costs of \$3,998,000. Depreciation and amortization costs increased by \$2,590,000 (168%) to \$4,134,000 mainly resulting from the amortization of The Technology Companies' intangible costs of \$3,642,000 during this period as compared with \$1,111,000 in the prior year period. Again, this was primarily attributable to the acquisitions of New Dawn and ISD. Other general and administrative expenses also increased by \$2,449,000 (61%) primarily resulting from additional rent, sales and marketing expenses for The Technology Companies and increased accounting and professional fees including those associated with the audit of the Company's fiscal 2103 financial statements and the audit of its internal control over financial reporting. (Consolidated operating costs were \$11,410,000 and \$8,758,000 for the three months ended June 30, 2014 and 2013, respectively.)

The Traditional Business

The advertising revenues of The Traditional Business, which declined by \$2,679,000 (24%) from \$11,299,000 to \$8,620,000, are very much dependent on the number of California and Arizona foreclosures for which public notice advertising is required by law. The number of foreclosure notices published by the Company decreased by 54% during the nine months ended June 30, 2014 as compared to the prior year period. Because this slowing is expected to continue, we anticipate there will be fewer foreclosure notice advertisements and declining revenues during the remainder of fiscal 2014, and the earnings of The Traditional Business will also continue to decline. (Operating expenses were \$13,140,000 and \$12,227,000 for the nine months ended June 30, 2014 and 2013, respectively.) The Company's smaller newspapers, those other than the Los Angeles and San Francisco Daily Journals ("The Daily Journals"), accounted for about 96% of the total public notice advertising revenues in the first nine months of fiscal 2014. Public notice advertising revenues and related advertising and other service fees constituted about 25% of the Company's total revenues during this period. Because of this concentration, the Company's revenues would be significantly affected if California (and to a lesser extent Arizona) eliminated the legal requirement to publish public notices in adjudicated newspapers of general circulation, as has been proposed from time to time. Also, if the adjudication of one or more of the Company's newspapers was challenged and revoked, those newspapers would no longer be eligible to publish public notice advertising, and it could have a material adverse effect on the Company's revenues.

Furthermore, we do not expect to experience an offsetting increase in commercial advertising as a result of the general economic improvements that have led to fewer foreclosures because of the continuing challenges in the commercial advertising business, for which revenues declined \$349,000 (11%) from \$3,232,000 to \$2,883,000. The Daily Journals accounted for about 85% of the Company's total circulation revenues, which declined by \$274,000 (6%) from \$4,792,000 to \$4,518,000. The court rule and judicial profile services generated about 11% of the total circulation revenues, with the other newspapers and services accounting for the balance. Advertising service fees and other are part of The Traditional Business, which include primarily (i) agency commissions received from outside newspapers in which the advertising is placed and (ii) fees generated when filing notices with government agencies.

The Technology Companies

The Technology Companies' revenues increased by \$8,345,000 from \$8,335,000 to \$16,680,000, and expenses, including intangible amortization of \$2,531,000, increased by \$8,697,000 from \$12,139,000 to \$20,836,000, primarily because of the New Dawn and ISD acquisitions. For the nine months ended June 30, 2014, The Technology Companies recognized revenues of \$9,318,000 from fees for licensing and maintenance of their software products, \$2,713,000 from consulting services and \$4,649,000 from public user fees, compared to \$6,368,000 from fees for licensing and maintenance and \$1,967,000 from consulting services in the prior comparative period. During the prior year period, The Technology Companies operating segment consisted of only Sustain and, for less than seven months, New Dawn.

The Technology Companies' consulting, licensing and maintenance revenues are subject to substantial uncertainty because they depend on (i) the timing of the acceptance of the completed installations, (ii) the unpredictable needs of their existing customers, and (iii) their ability to secure new customers. In most cases, revenues from their new installation projects will only be recognized upon completion and acceptance of their services by the various customers. Deferred revenues on installation contracts primarily represent advances from customers of The Technology Companies for software licenses and installation services in various stages of completion. After a customer's acceptance of the completed project, the advances are generally no longer at risk of refund and are therefore considered earned. Deferred revenues on maintenance contracts represent prepayments of maintenance fees. The intangibles are being amortized over five years. Goodwill is not amortized for financial statement purposes but evaluated for impairment annually, or whenever events or changes in circumstances indicate that the value may not be recoverable. Considered factors for potential goodwill impairment evaluation with respect to The Technology Companies include the current year's business profitability before the intangible amortizations, fluctuations of revenues, changes in the market place, the status of deferred installation contracts and new business, among other things. The Company is continuing to update and upgrade its software products. These costs are expensed as incurred and will materially impact earnings at least through the foreseeable future.

Taxes

For the nine months ended June 30, 2014, the Company recorded an income tax benefit of \$2,300,000 on a pretax loss of \$46,000. The income tax benefit was the net result of applying the projected annual tax rate of 4.96% adjusted for any discrete items recorded year to date (mainly a permanent benefit related to differences in acquired liabilities for tax versus GAAP purposes existing at the time of the acquisition of New Dawn). The Company's projected effective tax rate continues to be lower than the statutory rate mainly due to the available dividends received deduction and the domestic production activities deduction. On a pretax profit of \$4,086,000 for the nine months ended June 30, 2013, the Company recorded a tax provision of \$1,275,000, which was lower than the amount computed using the statutory rate primarily because of the available dividends received deduction and the domestic production activity deduction. The Company's effective tax rate was 5,000% and 31% for the nine months ended June 30, 2014 and 2013, respectively. The Company files federal income tax returns in the United States and with various state jurisdictions and is no longer subject to examinations for years before 2010 with regard to federal income taxes.

Liquidity and Capital Resources

During the nine months ended June 30, 2014, the Company's cash and cash equivalents and marketable security positions increased by \$33,241,000 to \$181,573,000. At June 30, 2014 the aggregate fair market value of the Company's marketable securities was \$166,823,000 with a pretax unrealized gain of \$118,845,000. Cash and cash equivalents were used primarily to complete the purchase of ISD (\$480,000) and to purchase capital assets, including computer software and office equipment (\$403,000). During the first quarter of fiscal 2013, the Company borrowed \$14,000,000 from its investment margin account to purchase all of the outstanding stock of New Dawn, and during the fourth quarter of fiscal 2013, it borrowed another \$15,500,000 million to acquire substantially all assets and liabilities of ISD, in each case pledging its marketable securities to obtain favorable financing.

The cash provided by operating activities of \$3,815,000 included net decreases in accrued liabilities and accounts payable of \$1,872,000, including the balance payment of \$480,000 to complete the ISD acquisition. Cash flows from operating activities increased by \$1,181,000 during the nine months ended June 30, 2014 as compared to the prior year period primarily resulting from the increases in deferred installation contracts and maintenance agreements and others of \$1,394,000.

As of June 30, 2014, the Company had working capital of \$121,296,000, including the liabilities for deferred subscriptions and deferred installation contracts and maintenance agreements of \$18,878,000, which are scheduled to be earned within one year, and the deferred tax liability of \$46,260,000 for the unrealized gains described above.

The Company believes that it will be able to fund its operations for the foreseeable future through its cash flows from operating activities and its current working capital and expects that any such cash flows will be invested in its businesses. The Company continues to have the ability to borrow against its marketable securities on favorable terms as it did for the New Dawn and ISD acquisitions. The Company also may entertain additional business acquisition opportunities. Any excess cash flows could be used to reduce the investment margin account liability or invested as the Board of Directors deems appropriate at the time.

Such investments may include additional securities of the companies in which the Company has already invested, securities of other companies, government securities (including U.S. Treasury Notes and Bills) or other instruments. The decision as to particular investments will be driven by the Company's belief about the risk/reward profile of the various investment choices at the time, and it may utilize government securities as a default if attractive opportunities for a better return are not available. The Company's Chairman of the Board, Charles Munger, is also the vice chairman of Berkshire Hathaway Inc., which maintains a substantial investment portfolio. The Company's Board of Directors has utilized his judgment and suggestions, as well as those of J.P. Guerin, the Company's vice chairman, when selecting investments, and both of them will continue to play an important role in monitoring existing investments and selecting any future investments.

As noted above, however, the investments are concentrated in just six companies. Accordingly, a significant decline in the market value of one or more of the Company's investments may not be offset by the hypothetically better performance of other investments, and that could result in a large decrease in the Company's shareholders' equity and, under certain circumstances, in the recognition of impairment losses in the Company's income statement (such as the other-than-temporary impairment losses of \$1,719,000 recognized during the fourth quarter of 2013 and the \$2,855,000 recognized in the third quarter of 2012).

Critical Accounting Policies

The Company's financial statements and accompanying notes are prepared in accordance with U.S. generally accepted accounting principles. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. These estimates and assumptions are affected by management's application of accounting policies. Management believes that fair value measurement and disclosures, revenue recognition, accounting for software costs, accounting for business combinations, testing for goodwill impairment and income taxes are critical accounting policies.

The Company's critical accounting policies are detailed in its Annual Report on Form 10-K for the year ended September 30, 2013. The above discussion and analysis should be read in conjunction with the unaudited consolidated financial statements and the notes thereto included in this report.

Disclosure Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q includes “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Certain statements contained in this document, including but not limited to those in “Management’s Discussion and Analysis of Financial Condition and Results of Operations”, are “forward-looking” statements that involve risks and uncertainties that may cause actual future events or results to differ materially from those described in the forward-looking statements. Words such as “expects,” “intends,” “anticipates,” “should,” “believes,” “will,” “plans,” “estimates,” “may,” variations of such similar expressions are intended to identify such forward-looking statements. We disclaim any intention or obligation to revise any forward-looking statements whether as a result of new information, future developments, or otherwise. There are many factors that could cause actual results to differ materially from those contained in the forward-looking statements. These factors include, among others: risks associated with software development and implementation efforts; Sustain’s, New Dawn’s and ISD’s reliance on professional services engagements with justice agencies, including California courts, for a substantial portion of their revenues; material changes in the costs of postage and paper; possible changes in the law, particularly changes limiting or eliminating the requirements for public notice advertising; possible loss of the adjudicated status of the Company’s newspapers and their legal authority to publish public notice advertising; a further decline in public notice advertising revenues because of fewer foreclosures; a further decline in subscriber and commercial advertising revenues; the Company’s reliance on its president and chief executive officer; changes in accounting guidance; the Company’s failure to timely file its Form 10-K for fiscal 2013 and its quarterly reports on Form 10-Q for the first two quarters of fiscal 2014; and declines in the market prices of the Company’s investments. In addition, such statements could be affected by general industry and market conditions, general economic conditions (particularly in California) and other factors. Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, it can give no assurance that such expectations will prove to have been correct. Important factors that could cause actual results to differ materially from those in the forward-looking statements are discussed in this Form 10-Q, including in conjunction with the forward-looking statements themselves. Additional information concerning factors that could cause actual results to differ materially from those in the forward-looking statements is contained from time to time in documents filed by the Company with the Securities and Exchange Commission, including in the Company’s Annual Report on Form 10-K for the fiscal year ended September 30, 2013.

Item 4. CONTROLS AND PROCEDURES

An evaluation was performed under the supervision and with the participation of the Company's management, including Gerald L. Salzman, its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of June 30, 2014. Based on that evaluation, Mr. Salzman concluded that the Company's disclosure controls and procedures were effective. In reaching this conclusion, Mr. Salzman recognized that the Company did not file its Form 10-K for fiscal 2013 and its Forms 10-Q for the first and second quarters of fiscal 2014 on a timely basis, but he concluded that the delays were the result of the additional time required to complete the audits of the Company's financial statements for fiscal 2013 and the Company's internal control over financial reporting, and not a lack of effectiveness of the Company's disclosure controls and procedures. Also, the Company dismissed its former independent registered public accounting firm on June 24, 2014 and engaged BDO USA, LLP on July 3, 2014. Otherwise, there were no material changes in the Company's internal control over financial reporting or in other factors reasonably likely to affect its internal control over financial reporting during the quarter ended June 30, 2014.

PART II

Item 1A. Risk Factors

There have been no material changes to the risk factors and uncertainties previously disclosed in the Company's Form 10-Q for the fiscal quarter ended December 31, 2013.
