CAUTIONARY STATEMENT REGARDING FORWARD LOOKING STATEMENTS

As a matter of policy, the Company does not provide forecasts of future financial performance. The statements made in this quarterly report on Form 10-Q which are not historical facts are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Such forward-looking statements often contain or are prefaced by words such as "believe", "will" and "expect." These statements are based on current expectations, estimates and projections about our business based, in part, on assumptions made by management. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. As a result of a number of factors, our actual results could differ materially from those set forth in the forward-looking statements. Certain factors that might cause the Company's actual results to differ materially from those in the forward-looking statements include, without limitation, general business conditions, the demand for the Company's services, competitive market pressures, the ability of the Company to attract and retain qualified personnel for regular full-time placement and contract assignments, the possibility of incurring liability for the Company's business activities, including the activities of its contract employees and events affecting its contract employees on client premises, and the ability to attract and retain qualified corporate and branch management, as well as those risks discussed in the Company's annual report on Form 10-K for the year ended September 30, 2015, and in other documents which we file with the Securities and Exchange Commission. Any forward-looking statements speak only as of the date on which they are made, and the Company is under no obligation to (and expressly disclaims any such obligation to) and does not intend to update or alter its forward-looking statements whether as a result of new information, future events or otherwise.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. Description of Business

General Employment Enterprises, Inc. (the "Company", "us", "our" or "we") was incorporated in the State of Illinois in 1962 and is the successor to employment offices doing business since 1893. We are a provider of permanent and temporary professional, industrial and physician assistant staffing and placement services in and near several major U.S cities. We specialize in the placement of information technology, engineering, medical and accounting professionals for direct hire and contract staffing for our clients, and provide temporary staffing services for our commercial clients. As a result of our acquisition of Scribe Solutions in April 2015, we now also offer data entry assistants (medical scribes) who specialize in electronic medical records (EMR) services for emergency departments, specialty physician practices and clinics.

2. Significant Accounting Policies and Estimates

The accompanying unaudited condensed consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Article 8 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete consolidated financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. Operating results for the three month period ended December 31, 2015 are not necessarily indicative of the results that may be expected for the year ending September 30, 2016. The unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended September 30, 2015 as filed on December 29, 2015.

Liquidity

The Company has experienced significant losses and negative cash flows from operations in the past. Management has implemented a strategy which included cost reduction efforts, consolidation of certain back office activities to gain efficiencies as well as identifying strategic acquisitions, financed primarily through the issuance of preferred and common stock and convertible debt, to improve the overall profitability and cash flows of the Company.

In 2013, the Company entered into a three year revolving credit agreement with ACF Finco I LP (formerly Keltic) to provide working capital financing. The agreement allows ACF Finco I LP to advance the Company funds based on a percentage of eligible invoices. Management believes with current cash flow from operations, the equity offerings below and the availability under the ACF Finco I LP loan agreement, the Company will have sufficient liquidity for the next 12 months.

On January 8, 2015, the Company completed a Securities offering with 18 individuals who collectively have purchased a total of 200,000 shares of Preferred Stock from the Company for a total purchase price of \$2,000,000. The Company netted approximately \$1,960,000, with approximately \$1,000,000 to be used as working capital and the remaining \$1,000,000 for marketing, acquisitions, expansion and to further the

Edgar Filing: GENERAL EMPLOYMENT ENTERPRISES INC - Form 10-Q

operations of the Company. The Preferred Stock was designated by the Company on December 15, 2014 through the filing of a Certificate of Designation of Series A Convertible Preferred Stock with the Illinois Secretary of State. Each share of Preferred Stock is initially convertible, at the election of the holder, into 50 shares of the Company's Common Stock. The foregoing conversion ratio is subject to standard adjustment mechanisms, as set forth in the Designation. All of the series A Convertible Preferred Stock have been converted into common shares.

On July 22, 2015, the Company entered into an underwriting agreement (the "Underwriting Agreement") with Roth Capital Partners, LLC (the "Representative"), as the representative of the several underwriters identified therein (collectively, the "Underwriters"), pursuant to which the Company agreed to offer and sell up to 1,120,000 shares of the Company's common stock, no par value (the "Common Stock"), at a price of \$7.00 per share. Under the terms of the Underwriting Agreement, the Company has granted the Representative an option, exercisable for 30 days, to purchase up to an additional 168,000 shares of Common Stock to cover over-allotments, if any.

Edgar Filing: GENERAL EMPLOYMENT ENTERPRISES INC - Form 10-Q

The Company received net proceeds from this offering, after deducting underwriting discounts and commissions and offering expenses payable by the Company of approximately \$7.8 million and issued 1,246,000 common shares, this includes the Underwriters exercise of the over-allotment option.

The offering was made pursuant to the Company's effective registration statements on Form S-3 (File No. 333- 204080), as amended and supplemented filed with the Securities and Exchange Commission (the "SEC").

The Company also issued warrants (the "Underwriter's Warrant") to the Underwriters to purchase up to a total of 124,600 shares of Common Stock, at a price of \$8.40 per common share and are exercisable for five years. The Underwriter's Warrant has a seven-year piggyback registration right with respect to shares of common stock underlying the Underwriter's Warrant from the date of the Underwriting Agreement.

On October 2, 2015, the Company issued and sold a subordinated note in the aggregate principal amount of \$4,185,000 (the "Subordinated Note") to JAX Legacy – Investment 1, LLC (the "Investor") pursuant to a Subscription Agreement dated October 2, 2015 between the Company and the Investor (the "Subscription Agreement"). The Subordinated Note is due on October 2, 2018 (the "Maturity Date"). Interest on the Subordinated Note is payable as follows: (i) 10% interest per annum on the outstanding principal balance of the Subordinated Note shall be payable quarterly in arrears, in cash, on each December 30th, March 30th, June 30th, and September 30th, until the Maturity Date and (ii) 4% interest per annum until the Maturity Date on the original principal balance of the Subordinated Note (\$502,200), was paid in advance on the issuance date of the Subordinated Note through the issuance to the Investor of 91,309 shares of the Company's common stock (the "Interest Shares"). The Company may prepay the principal and interest under the Subordinated Note at any time, without penalty, provided, however, the Interest Shares shall be deemed paid in full and earned upon the issuance of the Subordinated Note. The Subordinated Note is subordinated in payment to the obligations of the Company to ACF FINCO I LLP pursuant to the terms and provisions of a Subordination and Intercreditor Agreement dated October 2, 2015 between, ACF FINCO I LLP and the Investor. In connection with the issuance of the Subordinated Note the Company and the Investor entered into a Registration Rights Agreement dated October 2, 2015 (the "Registration Rights Agreement") whereby the Company granted to the Investor certain piggyback registration rights with respect to the shares of Company common stock issued or issuable as interest payments under the Subordinated Note, and any shares of Company common stock issued as a dividend or other distribution with respect to, or in exchange for or in replacement of, shares of common stock of the Company issued or issuable as interest payments under the Subordinated Note.

On October 4, 2015 the Company issued to the Sellers of Access Data Consulting Corporation a Sellers' Promissory Note for \$3,000,000 (see note 11). Interest on the outstanding principal balance of the Sellers' Promissory Note is payable at the rate of 5.5% per annum. The principal and interest amount of the Sellers' Promissory Note is payable as follows: (i) for the first twelve months commencing on November 4, 2015 and ending on October 4, 2016, a monthly payment of \$57,303 in principal and interest, (ii) on October 4, 2016 a balloon payment of principal of \$1,000,000, (iii) for the next twelve months commencing on November 4, 2016 and ending on October 4, 2017, a monthly payment of \$27,963 in principal and interest, (iv) on October 4, 2017 a balloon payment of principal of \$1,202,405 and (v) on October 4, 2017 any and all amounts of previously unpaid principal and accrued interest. The Sellers' Promissory Note is subordinated in payment to the obligations of the Company to ACF FINCO I LLP pursuant to the terms and provisions of a Subordination and Intercreditor Agreement dated October 5, 2015 between ACF FINCO I LLP and the Sellers.

Principles of Consolidation

The condensed unaudited consolidated financial statements include the accounts and transactions of the Company and its wholly-owned subsidiaries. All inter-company accounts and transactions are eliminated in consolidation.

Reverse Stock Split

On October 9, 2015, the Company filed a certificate of change to our amended and restated articles of incorporation with the Secretary of the State of Illinois in order to effectuate a reverse stock split of our issued and outstanding common stock on a 1-for-10 basis (the "Reverse Stock Split"); and increased the total number of authorized shares of Common Stock of the Company from 20,000,000, post Reverse Stock Split, to 200,000,000.

The Reverse Stock Split became effective with the FINRA as of the open of business on October 9, 2015. As a result of the Reverse Stock Split, every 10 shares of the Company's pre-Reverse Split common stock was combined and reclassified into one share of the Company's common stock. No fractional shares of common stock were issued as a result of the Reverse Split.

Throughout the condensed consolidated financial statements, each instance that refers to a number of shares of the Company's common stock, refers to the number of shares of common stock after giving effect to the Reverse Stock Split, unless otherwise indicated.

Estimates and Assumptions

Management makes estimates and assumptions that can affect the amounts of assets and liabilities reported as of the date of the consolidated financial statements, as well as the amounts of reported revenues and expenses during the periods presented. Those estimates and assumptions typically involve expectations about events to occur subsequent to the balance sheet date, and it is possible that actual results could ultimately differ from the estimates. If differences were to occur in a subsequent period, the Company would recognize those differences when they became known. Significant matters requiring the use of estimates and assumptions include, but may not be limited to, deferred income tax valuation allowances, accounts receivable allowances, accounting for acquisitions, accounting for derivative liabilities and evaluation of impairment. Management believes that its estimates and assumptions are reasonable, based on information that is available at the time they are made.

Revenue Recognition

Direct hire placement service revenues are recognized when applicants accept offers of employment, less a provision for estimated losses due to applicants not remaining employed for the Company's guarantee period. Contract staffing service revenues are recognized when services are rendered.

Falloffs and refunds during the period are reflected in the unaudited condensed consolidated statements of operations as a reduction of placement service revenues and were approximately \$139,000 and \$133,000 as of December 31, 2015 and 2014 respectively. Expected future falloffs and refunds are reflected in the consolidated balance sheet as a reduction of accounts receivable and were approximately \$108,000 and \$86,000 as of December 31, 2015 and September 30, 2015 respectively.

Cost of Contract Staffing Services

The cost of contract services includes the wages and the related payroll taxes and employee benefits of the Company's employees while they work on contract assignments.

Cash and Cash Equivalents

Highly liquid investments with a maturity of three months or less when purchased are considered to be cash equivalents. At December 31, 2015 and September 30, 2015, there were no cash equivalents. The Company maintains deposits in financial institutions in excess of amounts guaranteed by the Federal Deposit Insurance Corporation. Cash and cash equivalents are maintained at financial institutions and, at times, balances may exceed federally insured limits. We have never experienced any losses related to these balances. Beginning in 2013, insurance coverage reverted to \$250,000 per depositor at each financial institution, and our non-interest bearing cash balances may from time to time exceed federally insured limits.

Accounts Receivable

The Company extends credit to its various customers based on evaluation of the customer's financial condition and ability to pay the Company in accordance with the payment terms. An allowance for placement fall-offs is recorded, as a reduction of revenues, for estimated losses due to applicants not remaining employed for the Company's guarantee period. An allowance for doubtful accounts is recorded, as a charge to bad debt expense, where collection is considered to be doubtful due to credit issues. These allowances together reflect management's estimate of the potential losses inherent in the accounts receivable balances, based on historical loss statistics and known factors impacting its customers. The nature of the contract service business, where companies are dependent on employees for the production cycle allows for a small accounts receivable allowance. Based on management's review of accounts receivable, an allowance for doubtful accounts of approximately \$570,000 and \$524,000 is considered necessary as of December 31, 2015 and September 30, 2015, respectively. The Company charges uncollectible accounts against the allowance once the invoices are deemed unlikely to be collectible.

Property and Equipment

Property and equipment are recorded at cost. Depreciation expense is calculated on a straight-line basis over estimated useful lives of five years for computer equipment and two to ten years for office equipment, furniture and fixtures. The Company capitalizes computer software purchased or developed for internal use and amortizes it over an estimated useful life of five years. The carrying value of property and equipment is reviewed for impairment whenever events or changes in circumstances indicate that it may not be recoverable. If the carrying amount of an asset group is greater than its estimated future undiscounted cash flows, the carrying value is written down to the estimated fair value. There was no impairment of property and equipment for the three month periods ended December 31, 2015 and 2014.

Goodwill

Goodwill represents the excess of cost over the fair value of the net assets acquired in the various acquisitions. The Company assesses goodwill for impairment at least annually. Testing goodwill for impairment allows the Company to first assess qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If the entity determines that this threshold is not met, then performing the two-step impairment test is unnecessary. An impairment loss would be recognized to the extent the carrying value of goodwill exceeds its implied fair value.

Fair Value Measurement

The Company follows the provisions of the accounting standard which defines fair value, establishes a framework for measuring fair value and enhances fair value measurement disclosure. Under these provisions, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

The standard establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use on unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company's assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The hierarchy is described below:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable prices that are based on inputs not quoted on active markets, but corroborated by market data.

Edgar Filing: GENERAL EMPLOYMENT ENTERPRISES INC - Form 10-Q

Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

The fair value of the Company's current assets and current liabilities, excluding the derivative liability, approximate their carrying values due to their short term nature. The carrying value of the Company's long-term liabilities represents their fair value based on level 3 inputs, as further discussed in note 8 and note 9. The Company's goodwill and other intangible assets are measured at fair value on a non-recurring basis using level 3 inputs.

Derivative Financial Instruments

The Company does not use derivative instruments to hedge exposure to cash flow, market or foreign currency risk. Terms of convertible promissory note instruments are reviewed to determine whether or not they contain embedded derivative instruments that are required under ASC 815 "Derivative and Hedging" (ASC 815) to be accounted for separately from the host contract, and recorded on the balance sheet at fair value. The fair value of derivative liabilities, if any, is required to be revalued at each reporting date, with corresponding changes in fair value recorded in current period operating results.

Freestanding warrants issued by the Company in connection with the issuance or sale of debt and equity instruments are considered to be derivative instruments and are evaluated and accounted for in accordance with the provisions of ASC 815. Pursuant to ASC 815, an evaluation of specifically identified conditions is made to determine whether fair value of warrants issued is required to be classified as equity or as a derivative liability.

Intangible Assets

Customer lists, non-compete agreements, customer relationships, management agreements and trade names were recorded at their estimated fair value at the date of acquisition and are amortized over their estimated useful lives ranging from two to ten years using both accelerated and straight-line methods.

Loss per Share

Basic loss per share is computed by dividing net loss attributable to common stockholders by the weighted average common shares outstanding for the period. Diluted loss per share is computed giving effect to all potentially dilutive common shares. Potentially dilutive common shares may consist of incremental shares issuable upon the exercise of stock options and warrants and the conversion of notes payable to common stock. In periods in which a net loss has been incurred, all potentially dilutive common shares are considered anti-dilutive and thus are excluded from the calculation. Common share equivalents of approximately 716,000 and 342,000 were excluded from the computation of diluted earnings per share for the quarters ended December 31, 2015 and 2014, respectively, because their effect is anti-dilutive.

Advertising Expenses

The majority of the Company's advertising expense budget is used to support the Company's business. Most of the advertisements are in print or internet media, with expenses recorded as they are incurred. For the three months ended December 31, 2015 and 2014, included in selling, general and administrative expenses was advertising expense totaling approximately \$298,000 and \$207,000, respectively.

Impairment of Long-lived Assets

The Company records an impairment of long-lived assets used in operations, other than goodwill, when events or circumstances indicate that the asset might be impaired and the estimated undiscounted cash flows to be generated by those assets over their remaining lives are less than the carrying amount of those items. The net carrying value of assets not recoverable is reduced to fair value, which is typically calculated using the discounted cash flow method. The Company did not record any impairment during the three months ended December 31, 2015 and 2014.

Stock-Based Compensation

The Company accounts for stock-based awards to employees in accordance with applicable accounting principles, which requires compensation expense related to share-based transactions, including employee stock options, to be measured and recognized in the financial statements based on a determination of the fair value of the stock options. The grant date fair value is determined using the Black-Scholes-Merton ("Black-Scholes") pricing model. For all employee stock options, we recognize expense over the requisite service period on an accelerated basis over the employee's requisite service period (generally the vesting period of the equity grant). The Company's option pricing model requires the input of highly subjective assumptions, including the expected stock price volatility, expected term, and forfeiture rate. Any changes in these highly subjective assumptions significantly impact stock-based compensation expense.

Options awarded to purchase shares of common stock issued to non-employees in exchange for services are accounted for as variable awards in accordance with applicable accounting principles. Such options are valued using the Black-Scholes option pricing model.

Income Taxes

We record a provision for income taxes for the anticipated tax consequences of the reported results of operations using the asset and liability method. Under this method, we recognize deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the financial reporting and tax basis of assets and liabilities, as well as for operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using the tax rates that are expected to apply to taxable income for the years in which those tax assets and liabilities are expected to be realized or settled. We record a valuation allowance to reduce our deferred tax assets to the net amount that we believe is more likely than not to be realized.

Due to the private sale of shares of common stock to LEED HR during fiscal 2012 and the resulting change in control, the Company may be limited by Section 382 of the Internal Revenue Code as to the amount of net operating losses that may be used in future years.

We recognize tax benefits from uncertain tax positions only if we believe that it is more likely than not that the tax position will be sustained on examination by the taxing authorities based on the technical merits of the position. Although we believe that we have adequately reserved for our uncertain tax positions, we can provide no assurance that the final tax outcome of these matters will not be materially different. We make adjustments to these reserves when facts and circumstances change, such as the closing of a tax audit or the refinement of an estimate. To the extent that the final tax outcome of these matters is different than the amounts recorded, such differences will affect the provision for income taxes in the period in which such determination is made and could have a material impact on our financial condition and operating results.

Reclassification

Certain reclassifications have been made to the financial statements as of and for the three months ended December 31, 2014 to conform to the current year presentation.

Segment Data

The Company has two operating business segments a) Contract staffing services, and b) Direct hire placement. These operating segments were determined based primarily on how the chief operating decision maker views and evaluates our operations. Operating results are regularly reviewed by the chief operating decision maker to make decisions about resources to be allocated to the segment and to assess its performance. Other factors, including type of business, type of employee, length of employment and revenue recognition are considered in determining these operating segments.

3. Recent Accounting Pronouncements

Edgar Filing: GENERAL EMPLOYMENT ENTERPRISES INC - Form 10-Q

In September 2015, the FASB issued ASU 2015-16 - *Business Combinations*, which requires adjustments to provisional amounts recorded in business combinations to be recognized in the reporting period in which they are identified either separately on the face of the income statement or in the notes to the financial statements. ASU 2015-16 is effective for annual reporting periods beginning after December 15, 2015 and any interim periods within that period, and early adoption is permitted. We are currently evaluating ASU 2015-16 to determine if this guidance will have a material impact on our financial position, results of operations or cash flows.

In November 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-17, *Balance Sheet Classification of Deferred Taxes*. ASU 2015-17 simplifies the presentation of deferred taxes by requiring deferred tax assets and liabilities be classified as noncurrent on the balance sheet. ASU 2015-17 is effective for public companies for annual reporting periods beginning after December 15, 2016, and interim periods within those fiscal years. The guidance may be adopted prospectively or retrospectively and early adoption is permitted. We are currently evaluating ASU 2015-17 to determine if this guidance will have a material impact on our financial position, results of operations or cash flows.

No other recent accounting pronouncements were issued by FASB and the SEC that are believed by management to have a material impact on the Company's present or future financial statements.

4. Property and Equipment

Property and equipment, net consisted of the following:

| (In thousands) | Useful Lives | December 31, 2015 | September 30, 2015 |
|---------------------------------------------------------------------|-----------------|-------------------------|--------------------------|
| Computer software | 5 years | \$ 1,447 | \$ 1,447 |
| Office equipment, furniture and fixtures and leasehold improvements | 2 to 10 years | 2,313 | 2,278 |
| Total property and equipment, at cost | | 3,760 | 3,725 |
| Accumulated depreciation and amortization | | (3,085) | (3,019) |
| Property and equipment, net | | \$ 675 | \$ 706 |

Leasehold improvements are amortized over the term of the lease.

Depreciation expense for the three month periods ended December 31, 2015 and 2014 was approximately \$66,000 and \$37,000, respectively.

5. Goodwill and Intangible Assets

Goodwill

Goodwill represents the excess of cost over the fair value of the net assets acquired from various acquisitions. Goodwill is not amortized. The Company performs a goodwill impairment test annually, by reporting unit, in the fourth quarter of the fiscal year, or whenever potential impairment triggers occur. Should the two-step process be necessary, the first step of the impairment test identifies potential impairment by comparing the fair value of a reporting unit to its carrying value including goodwill. In applying a fair-value-based test, estimates are made of the expected future cash flows to be derived from the reporting unit. Similar to the review for impairment of other long-lived assets, the resulting fair value determination is significantly impacted by estimates of future margins, capital needs, economic trends and other factors. If the carrying value of the reporting unit exceeds its fair value, the second step of the impairment test is performed to measure the amount of impairment loss, if any. The second step of the impairment test compares the implied fair value of the reporting unit goodwill with the carrying amount of that goodwill. An impairment loss would be recognized to the extent the carrying value of goodwill exceeds its implied fair value. There was no impairment recorded during the three month periods ended December 31, 2015 and 2014.

Intangible Assets

Edgar Filing: GENERAL EMPLOYMENT ENTERPRISES INC - Form 10-Q

As of December 31, 2015

| (In Thousands) | Accumulated | | Net Book Value |
|------------------------|-------------|--------------|-------------------|
| | Cost | Amortization | |
| Customer Relationships | \$ 9,798 | \$ 1,805 | \$ 7,993 |
| Trade Name | 1,813 | 102 | 1,711 |
| Non-compete Agreement | 818 | 48 | 770 |

As of September 30, 2015

| (In Thousands) | Accumulated | | Net Book Value |
|------------------------|-------------|--------------|----------------|
| | Cost | Amortization | |
| Customer Relationships | \$ 5,232 | \$ 1,557 | \$ 3,675 |
| Trade Name | 1,057 | 56 | 1,001 |
| Non-compete Agreement | 225 | 5 | 220 |
| | \$ 6,514 | \$ 1,618 | \$ 4,896 |

Amortization expense was approximately \$337,000 and \$85,000 for the three months ended December 31, 2015 and 2014, respectively.

The trade names are amortized on a straight – line basis over the estimated useful life of ten years. Customer relationships are amortized based on the future undiscounted cash flows or straight – line basis over estimated remaining useful lives of five to ten years. Non-compete agreements are amortized based on a straight-line basis over the term of the non-compete agreement. Over the next five years and thereafter, annual amortization expense for these finite life intangible assets will total approximately \$10,474,000, as follows: fiscal 2016 - \$1,378,000 fiscal 2017 - \$1,272,000, fiscal 2018 - \$1,275,000, fiscal 2019 - \$1,279,000, fiscal 2020 - \$1,267,000 and thereafter - \$4,003,000.

Long-lived assets, such as purchased intangibles subject to amortization, are reviewed for impairment when events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The Company regularly evaluates whether events and circumstances have occurred that indicate possible impairment and relies on a number of factors, including operating results, business plans, economic projections, and anticipated future cash flows. The Company uses an estimate of the future undiscounted net cash flows of the related asset or asset group over the remaining life in measuring whether the assets are recoverable.

6. Short-term Debt

On September 27, 2013, the Company ("Borrower") entered into agreements with ACF FINCO I LP (successor-in-interest to Keltic Financial Partners II, LP) ("ACF") ("Lender"), that provides the Company with long term financing through a six million dollar (\$6,000,000) secured revolving note (the "Note"). The Note has a term of three years and has no amortization prior to maturity. The interest rate for the Note is a fluctuating rate that, when annualized, is equal to the greatest of (A) the Prime Rate plus three and one quarter percent (3.25%), (B) the LIBOR Rate plus six and one quarter percent (6.25%), and (C) six and one half percent (6.50%), with the interest paid on a monthly basis. At December 31, 2015 and 2014 the interest rate was 6.5%. Loan advances pursuant to the Note are based on the accounts receivable balance and other assets. The Company incurred certain cash expense and commitment fees related to obtaining the agreement of approximately \$170,000, which has been paid. The Note is secured by all of the Company's property and assets, whether real or personal, tangible or intangible, and whether now owned or hereafter acquired, or in which it now has or at any time in the future may acquire any right, title or interests. On January 1, 2016 the Company entered into an eighth Amendment and Waiver to the Loan and Security Agreement with ACF to increase the maximum amount of revolving credit under the Amended Credit Agreement from \$6,000,000 to \$10,000,000 and adjust the future covenants as outlined below and update the overall document to reflect changes to the business. The Company has entered into other Amendments with ACF that did not materially change the terms of the Note. As of the date of this report, the Company was in compliance with all such covenants or had received waivers related thereto. The Company has several administrative covenants and the following financial covenant:

The Company must maintain the following EBITDA:

- (a) The three (3) consecutive calendar month period ending on December 31, 2015, to be a number greater than negative Two Hundred Twenty Five Thousand and 00/100 Dollars (-\$225,000.00);
- (b) The six (6) consecutive calendar month period ending on March 31, 2016, to be no less than Nine Hundred Thirty Two Thousand Eight Hundred and 00/100 Dollars (\$932,800.00);
- (c) The nine (9) consecutive calendar month period ending on June 30, 2016, to be no less than Two Million Sixty Five Thousand and 00/100 Dollars (\$2,065,000.00);
- (d) The twelve (12) consecutive calendar month period ending on September 30, 2016, to be no less than Three Million Two Hundred Forty One Thousand and 00/100 Dollars (\$3,241,000.00); and
- (e) For any period commencing on or after October 1, 2016, no less than such amounts as are established by Lender for such period in Lender's permitted discretion based on the annual financial projections including such period delivered by Borrower.

As of December 31, 2015, the Company was in compliance with the EBITDA covenant and all other administrative covenants. At December 31, 2015, there was approximately \$1,200,000 available on the line of credit. The interest expense related to the lines of credit for the three months ended December 31, 2015 and 2014 approximated \$109,000 and \$79,000, respectively.

7. Accrued Compensation

Accrued Compensation includes accrued wages, the related payroll taxes, employee benefits of the Company's employees while they work on contract assignments, commissions earned and not yet paid and estimated commission payable.

8. Convertible Note

On August 7, 2014, the Company issued a Convertible Note (the "Note") with an original principal balance of \$632,500 to Brio Capital Master Fund LTD ("Brio"), for a purchase price of \$550,000. The Note matures on February 6, 2016, and is payable in thirteen monthly installments of \$48,654, commencing in the sixth month post-closing. Brio has the right, however not the obligation, six months after closing, to convert all or any part of the outstanding Note into the Company's common stock at an initial conversion price of \$0.20 per share. After six months from closing, the conversion price will have a one-time reset to the lower of \$0.20 or 90% of the average of the 3 lowest closing prices for the previous 10 trading days, subject to a floor of \$0.14 per share. The Company can force conversion if the Company's common stock trades at 250% greater than the conversion price for 20 consecutive trading days (see Note 10).

Edgar Filing: GENERAL EMPLOYMENT ENTERPRISES INC - Form 10-Q

In addition to the Note, the Company issued a warrant to purchase up to 2,371,875 shares of the Company's common stock. The warrant is exercisable at \$0.25 per share, vests 6 months after the closing, and expires 5 years thereafter.

The Note contained an embedded conversion feature requiring bifurcation and liability treatment. The Company accounted for this conversion feature and the detachable warrants by allocating the proceeds from issuance of the convertible notes to the conversion feature and the warrants. These were valued by a third party using a binomial pricing model with the following assumptions: Volatility - 130.00%; Risk-Free Rate - 0.29%; Conversion Price Floor - \$0.14; Conversion Price Cap - \$0.20.

To recognize the fair value of the warrants, the Company discounted the note and increased additional paid in capital. The fair value of the conversion feature was approximately \$178,000 at inception, the Company discounted the note and created a derivative liability, which is evaluated each quarter and adjusted for any change in value.

During the second quarter of fiscal year 2015, Brio converted \$500,000 of its outstanding loan in two tranches into 250,000 shares of the Company's common stock. Based on the closing stock price of \$8.50 and \$10.30 per common share, the 250,000 shares were valued at approximately \$2,350,000 and the Company has recognized a loss on the extinguishment of debt of approximately \$210,000. Included in the loss in extinguishment was the fair value of the derivative liability at the date of conversion.

During the third quarter of fiscal year 2015, Brio converted the remaining \$132,500 of its outstanding loan into 66,250 shares of the Company's common stock. Based on the closing stock price of \$7.80 per common share, the 66,250 shares were valued at approximately \$517,000.

Since the issuance in 2014, the Company received approximately \$517,000 in net cash that was converted by Brio into 316,250 shares of the Company's common stock. Related to this transaction the Company recorded approximately \$2,867,000 in equity (including 219,000 in warrants valued in 2014), \$2,204,000 in a derivative loss, \$234,000 extinguishment of debt, and interest expense of approximately \$115,500 during the year ended September 30, 2015.

A copy of the Subordinated Note is attached hereto as Exhibit 4.2. The Subordinated Note is subordinated in payment to the obligations of the Company to ACF FINCO I LLP pursuant to the terms and provisions of a Subordination and Intercreditor Agreement dated October 2, 2015 between, ACF FINCO I LLP and the Investor. In connection with the issuance of the Subordinated Note the Company and the Investor entered into a Registration Rights Agreement dated October 2, 2015 (the "Registration Rights Agreement") whereby the Company granted to the Investor certain piggyback registration rights with respect to the shares of Company common stock issued or issuable as interest payments under the Subordinated Note, and any shares of Company common stock issued as a dividend or other distribution with respect to, or in exchange for or in replacement of, shares of common stock of the Company issued or issuable as interest payments under the Subordinated Note. Edgar Filing: GENERAL EMPLOYMENT ENTERPRISES INC - Form 10-Q

"Board") and the holders of a majority of the Company's outstanding stock. The Scribe transaction closed on April 1, 2015. Pursuant to the terms of the SCRIBE Agreement the Company acquired 100% of the outstanding stock of Scribe Solutions Inc., ("Scribe") from the Scribe Shareholders for 640,000 shares of Series A Preferred Stock (the "Preferred Stock") of the Company. In addition, the Company exchanged warrants to purchase up to 635,000 shares of the Company's common stock, for \$2.00 per share, with a term of 10 years (the "Warrants"), for Scribe warrants held by three individuals. The issuances of Preferred Stock and Warrants by the Company was effected in reliance on the exemptions from registration afforded by Section 4(a)(2) of the Securities Act of 1933, (the "Securities Act"), and Rule 506 of Regulation D promulgated thereunder.

Under the purchase method of accounting, the transaction was valued for accounting purposes at an estimated \$7.7 million, which was the estimated fair value of the Company at the date of acquisition. The estimate was based on the consideration paid of 640,000 preferred shares and the 635,000 warrants granted. The 640,000 preferred shares are valued at approximately \$6,400,000, and the 635,000 warrants are valued at approximately \$1,330,000. The Black-Scholes option pricing model was used to value the warrants based upon an expected stock price volatility of 253.7%, a 10 year expected life of the warrant and a risk free interest rate of approximately 1.6%.

The assets and liabilities of Scribe were recorded at their respective fair values as of the closing date of the Scribe Agreement, and the following table summarizes these values based on the balance sheet at April 1, 2015, the closing date.

The intangibles were recorded, based on the Company's estimate of fair value, which consist primarily of customer lists and trade name with an estimated life of ten years and goodwill. Upon completion of an independent purchase price allocation and valuation, the allocation intangible assets were adjusted accordingly.

Access

On October 4, 2015, General Employment Enterprises, Inc. (the "Company") entered into a Stock Purchase Agreement (the "Access Data Agreement") with William Daniel Dampier and Carol Lee Dampier (collectively, the "Sellers"). Pursuant to the terms of the Access Data Agreement the Company acquired on October 4, 2015, 100% of the outstanding stock of Access Data Consulting Corporation., a Colorado corporation ("Access Data"), for a purchase price (the "Purchase Price") equal to \$13,000,000 plus or minus the NWC Adjustment Amount (as defined below) plus up to \$2 million of an "earnout".

The consideration shall be paid as follows:

Edgar Filing: GENERAL EMPLOYMENT ENTERPRISES INC - Form 10-Q

- Cash Payment to Sellers. At the closing, the Company paid to Sellers \$7,000,000 in cash (the "Closing Cash Payment").
- Working Capital Reserve Fund. In addition to the Closing Cash Payment to Sellers, the Company shall pay to Sellers an additional \$1,000,000 (the "Working Capital Holdback"), plus or minus the NWC Adjustment Amount, in cash within twenty (20) days after the completion of an audit of Access Data's financial information from its most recent fiscal year end to the closing date, but in any event not later than ninety (90) days after the closing date. The estimated working capital was approximately \$1,813,000 and the Company has accrued \$813,000 in accrued liabilities. As of February 15, 2016 the Company had paid \$700,000 related to this liability.
- Purchase Price Adjustment – Working Capital. The Purchase Price will be adjusted (positively or negatively) based upon the difference in the book value of the "Closing Working Capital" as compared to the "Benchmark Working Capital" of \$2 million (such difference to be called the "NWC Adjustment Amount"). If the NWC Adjustment Amount is positive the Purchase Price will be increased by the NWC Adjustment Amount. If the NWC Adjustment Amount is negative, the Purchase Price will be decreased by the NWC Adjustment Amount. If the Purchase Price increases then the Company will pay to the Sellers the sum of the increase plus the Working Capital Holdback within twenty (20) days of a final determination. If the Purchase Price decreases then Sellers will pay the amount of the decrease to the Company within twenty (20) days of a final determination, which first shall be funded from the Working Capital Holdback held by the Company (which shall be credited to the Sellers). If the amount of the Purchase Price decrease exceeds the Working Capital Holdback then the Sellers will pay the difference to the Company within twenty (20) days of a final determination. If the Working Capital Holdback exceeds the payment due from the Sellers then the remaining balance of those funds after the payment to the Company shall be paid to the Sellers.

- **Sellers' Promissory Notes** At the closing, the Company delivered to the Sellers a Subordinated Nonnegotiable Promissory Note (the "Sellers' Promissory Note") executed by the Company in the aggregate principal amount of \$3 million. The Sellers' Promissory Note is secured by the certain collateral of the Company pursuant to a Security Agreement dated as of October 4, 2015 by and among the Company and the Sellers (the "Security Agreement").
- **Earnout Payment.** Up to an additional \$2,000,000 (the "Earnout") may be paid by the Company to the Sellers with respect to the fiscal year ended September 30, 2016, subject to the satisfaction of certain earnout provisions contained in the Access Data Agreement. Any earnout payment to be paid by the Company shall be paid 50% in the form of cash and 50% in the form of shares of Company common stock.
- **Payment of Shares of Company Common Stock.** Two Million Dollars (\$2,000,000) of the Purchase Price will be paid in issued shares of common stock of the Company. The number of shares of common stock payable to the Sellers will be 327,869 shares at \$6.10 per share (the "Issue Price"); provided however, that if, during such twenty (20) day trading period, the Company pays a dividend in, splits, combines into a smaller number of shares, or issues by reclassification any additional shares of its common stock (a "Stock Event"), then the closing prices used in the above calculation shall be appropriately adjusted to provide the Sellers the same economic effect as contemplated by this Agreement prior to such action. This stock was valued at approximately \$2,197,000 based on the closing price of \$6.70 on October 5, 2015. If the closing price of the shares of the Company's common stock on the trading day immediately preceding the day on which the Issued Shares are first freely salable under Rule 144 (the "Rule 144 Date") is less than 90% of the Issue Price, then the Company shall make a one-time adjustment and shall promptly pay to the Sellers, in stock in the form of additional shares of common stock of the Company at the market value on the Rule 144 Date, the difference between the aggregate value of the Issued Shares at the Issue Price and the aggregate value of the Issued Shares at the closing price on the Rule 144 Date. A contingent liability of \$500,000 was recorded in contingent consideration related to this potential adjustment in shares issued.

On October 4, 2015 the Company issued to the Sellers the Sellers' Promissory Note. Interest on the outstanding principal balance of the Sellers' Promissory Note is payable at the rate of 5.5% per annum. The principal and interest amount of the Sellers' Promissory Note is payable as follows: (i) for the first twelve months commencing on November 4, 2015 and ending on October 4, 2016, a monthly payment of \$57,303 in principal and interest, (ii) on October 4, 2016 a balloon payment of principal of \$1,000,000, (iii) for the next twelve months commencing on November 4, 2016 and ending on October 4, 2017, a monthly payment of \$27,963 in principal and interest, (iv) on October 4, 2017 a balloon payment of principal of \$1,202,405 and (v) on October 4, 2017 any and all amounts of previously unpaid principal and accrued interest. The Sellers' Promissory Note is subordinated in payment to the obligations of the Company to ACF FINCO I LLP pursuant to the terms and provisions of a Subordination and Intercreditor Agreement dated October 5, 2015 between ACF FINCO I LLP and the Sellers.

The intangibles were recorded, based on the Company's estimate of fair value, which consist primarily of customer lists with an estimated life of five to ten years and goodwill. Upon completion of an independent purchase price allocation and valuation, the allocation intangible assets were adjusted accordingly.

14. Subsequent Events

As of January 1, 2016 the Company entered into a Stock Purchase Agreement (the "Palladin Agreement") with Enoch S. Timothy and Dorothy Timothy (collectively, the "Sellers"). Pursuant to the terms of the Palladin Agreement the Company acquired on January 1, 2016, 100% of the outstanding stock of Palladin Consulting Inc., a Texas corporation ("Palladin"), for a purchase price (the "Purchase Price") equal to \$1,750,000, minus the Circle Lending Loan Amount (as defined below) plus up to \$1,000,000 in contingent promissory notes, minus the NWC Reduction Amount (as defined below) (if any) plus up to \$1,250,000 of "earnouts".

The consideration shall be paid as follows:

- *Cash Payment to Sellers.* At the closing, the Company paid to the Sellers \$1,750,000 in cash minus the Circle Lending Loan Amount (defined in the Palladin Agreement as the outstanding amount owed by Palladin to Circle Lending, L.P. (or Funding Circle USA, Inc., or Victory Park Capital Advisors, or FC Marketplace, LLC, or an affiliate)), which the Sellers represented to the Company was \$77,823).
- *Contingent Promissory Notes.* Up to an additional \$1,000,000 of the Purchase Price shall subsequently be paid by the Company to the Sellers in the form of contingent Promissory Notes (the "Promissory Notes") if (i) the final determination of the Revenue (as defined in the Palladin Agreement) for the period beginning on January 1, 2016 and ending on December 31, 2016 (the "Earnout Period") exceeds \$15,000,000 and (ii) Adjusted EBITDA (as defined in the Palladin Agreement) for the Earnout Period, exceeds \$500,000. The principal amount of the Promissory Notes is subject to reduction by the NWC Reduction Amount (as defined below).
- *NWC Reduction Amount.* The Sellers have agreed to pay to the Company the amount by which the Net Working Capital of Palladin (defined as Palladin's Current Assets, determined in accordance with GAAP minus Palladin's Current Liabilities, determined in accordance with GAAP) is a negative number. The Purchase Price shall be reduced dollar for dollar for each dollar by which the Net Working Capital is a negative amount (i.e., less than \$0). The amount by which the Net Working Capital is less than \$0 is the "NWC Reduction Amount." The reduction shall first be applied to reduce the \$1,000,000 portion of the Purchase Price that is the Contingent Promissory Notes. If the reduction exceeds \$1,000,000, then that excess shall be immediately paid by the Sellers via a wire transfer of the applicable dollar amount to the Company.
- *Earnout Payment.* Up to an additional \$750,000 of the Purchase Price (the "Earnout") will subsequently be paid by the Company to Sellers with respect to the Earnout Period, in accordance with and subject to the terms and conditions in the Palladin Agreement. Any Earnout payment made by the Company, shall, at the option of the Company, be paid (i) in shares of common stock of the Company or (ii) in immediately available funds. Certain "Retention Bonuses" (as defined in the Palladin Agreement) paid to employees of Palladin on or before February 1, 2017, but not exceeding \$275,000 in the aggregate will reduce the Earnout payment.
- *Additional Stock Earnout Payment.* Up to an additional \$500,000 of the Purchase Price (the "Additional Earnout") will subsequently be paid by the Company to Sellers in accordance with and subject to the terms and conditions in the Palladin Agreement. Any such Additional Earnout payment shall be paid in shares of common stock of the Company.
- *Subordinated Deferred Payment Rights.* Notwithstanding the above, the Sellers have agreed that the Earnout Payment and Additional Stock Earnout Payment shall be subordinate and junior in right of payment to any "Senior Indebtedness" (as defined in the Palladin Agreement) now or hereafter existing to "Senior Lenders" (current or future) (as defined in the Palladin Agreement).

The transaction has been unanimously approved by the board of directors of the Company and by the Sellers.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.**Overview**

We specialize in the placement of information technology, engineering, and accounting professionals for direct hire and contract staffing for our clients, and provide temporary staffing services for our light industrial clients. As a result of our acquisition of Scribe Solutions, Inc. ("Scribe") in April 2015, we now also offer data entry assistants (medical scribes) who specialize in electronic medical records (EMR) services for emergency departments, specialty physician practices and clinics. There is currently a growing need for medical scribes due to the rise in EMR being utilized for billing and documentation of health care services and the meaningful use requirements that are part of the Affordable Care Act. The acquisition of Agile Resources, Inc. a Georgia Corporation ("Agile") and Access Data Consulting Corporation, a Colorado corporation ("Access") expanded our geographical footprint within the placement and contract staffing of information technology.

Our staffing services are provided through a network of twenty branch offices located in downtown or suburban areas of major U.S. cities in nine states. We have one office located in each of Arizona, Colorado, Georgia, Indiana, Massachusetts, North Carolina and Texas, two offices in each of California, Florida and Illinois and seven offices in Ohio.

Management has implemented a strategy which included cost reduction efforts as well as identifying strategic acquisitions, financed primarily through the issuance of equity and debt, to improve the overall profitability and cash flows of the Company. We believe our current segments complement one another and position us for future growth.

Results of Operations – Three Months Ended December 31, 2015 Compared to the Three Months Ended December 31, 2014**Results of Operations***Net Revenues*

Consolidated net revenues are comprised of the following:

| Consolidated Net Revenues | \$ | 17,625 | \$ | 9,682 | \$ | 7,943 | | 82% |

Consolidated net revenues increased approximately \$7,943,000 or 82% compared with the same period last year. The Company acquired Scribe as of April 1, 2015, Agile as of July 31, 2015, and Access as of October 4, 2015 which increased the professional contract services by approximately \$1,174,000, \$2,542,000, and \$4,736,000, respectively. The acquisition of Agile increased direct hire revenue by approximately \$64,000. With the recent capital raise and addition of executive management, the Company has stabilized its sales force and is investing in revenue growth. Overall the professional services division continues to have less experienced recruiters working during the quarter ended December 31, 2015 compared to the quarter ended December 31, 2014. In addition, industrial contract services was down due to the loss of a client, subsequent to the quarter ended December 31, 2014, with annual revenues of approximately two million dollars. Management continues to take action to increase the number of experienced recruiters and improve the profitability of both divisions.

Cost of Contract Services

Cost of services includes wages and the related payroll taxes and employee benefits of the Company's employees while they work on contract assignments. Cost of contract services for the three month period ended December 31, 2015 increased by approximately 85% to approximately \$12,337,000 compared with the prior period of approximately \$6,668,000. Cost of contract services, as a percentage of contract revenue, for the three month period ended December 31, 2015 increased approximately 1% to 70% compared with the prior period of approximately 69%. The change in the contract revenue gross margin is related to several factors, including Ohio workers compensation rebate received in 2014, offset by higher professional service contract revenue and the overall decrease in our workers compensation rates for the state of Ohio, as the rate was decreased by approximately 25% as of July 1, 2014.

Gross Profit percentage by segment:

Selling, General and Administrative Expenses

Selling, general and administrative expenses include the following categories:

-

Edgar Filing: GENERAL EMPLOYMENT ENTERPRISES INC - Form 10-Q

Compensation and benefits in the operating divisions, which includes salaries, wages and commissions earned by the Company's employment consultants and branch managers on permanent and temporary placements.

- Administrative compensation, which includes salaries, wages, payroll taxes and employee benefits associated with general management and the operation of the finance, legal, human resources and information technology functions.

- Occupancy costs, which includes office rent, depreciation and amortization, and other office operating expenses.
- Recruitment advertising, which includes the cost of identifying job applicants.
- Other selling, general and administrative expenses, which includes travel, bad debt expense, fees for outside professional services and other corporate-level expenses such as business insurance and taxes.
- Acquisition, integration and restructuring charges, are legal expenses, travel expenses, finders fees, severance agreements and other expenses that the Company has expensed as incurred and related to various transactions the Company has or expects to execute. The Company expects to have these expenses each quarter while we continue our growth strategy, however these expenses would not necessarily be incurred by the Company on recurring basis in normal operations, without acquisitions.

The Company's largest selling, general and administrative expense is for compensation in the operating divisions. Most of the Company's employment consultants are paid on a commission basis and receive advances against future commissions. When commissions are earned, prior advances are applied against them and the consultant is paid the net amount. At that time, the Company recognizes the full amount as commission expense, and advance expense is reduced by the amount recovered. Thus, the Company's advance expense represents the net amount of advances paid, less amounts applied against commissions.

Selling, general and administrative expenses for the three months ended December 31, 2015 increased by approximately \$1,501,000 or 50% compared to the same period last year. The increase was primarily related to the general selling, general and administrative expenses of Scribe, Agile, Access and the additional acquisition, integration and restructuring expenses of approximately \$446,000 incurred during the quarter.

Interest Expense

Interest expense for the three months ended December 31, 2015, increased \$178,000, or 121% compared with the same period last year primarily as a result of the newly obtained long-term debt, the interest expense for acquisition payments and higher average borrowings.

Taxes

There were no credits for income taxes as a result of the pretax losses incurred during the periods because there was not sufficient assurance that future tax benefits would be realized.

Liquidity and Capital Resources

The following table sets forth certain consolidated statements of cash flows data (in thousands):

| | For the three months ended December 31, 2015 | For the three months ended December 31, 2014 |
|-------------------------------------------------------|-----------------------------------------------------------------|-----------------------------------------------------------------|
| Cash flows provided by (used in) operating activities | \$ 125 | \$ (850) |
| Cash flows used in investing activities | \$ (6,849) | \$ (90) |
| Cash flows provided by financing activities | \$ 5,402 | \$ 1,203 |

As of December 31, 2015, the Company had cash and cash equivalents of approximately \$4,610,000, which was a decrease of approximately \$1,322,000 from approximately \$5,932,000 at September 30, 2015. Working capital at December 31, 2015 was approximately \$(26,000), as compared to working capital of approximately \$5,636,000 for September 30, 2015. The cash has been used primarily in the acquisitions of several entities. Shareholders' equity at December 31, 2015 was approximately \$21,791,000.

Edgar Filing: GENERAL EMPLOYMENT ENTERPRISES INC - Form 10-Q

Net cash provided by and used in operating activities for the three months ended December 31, 2015 and 2014 was approximately \$125,000 and (\$850,000), respectively. The fluctuation is due to the significant increase in accounts payable for the three months ended December 31, 2015. In addition to changes in account receivable, accrued expenses, accounts payable and payments of certain compensation related accruals.

Net cash used in investing activities for the three months ended December 31, 2015 and 2014 was approximately (\$6,849,000) and (\$90,000), respectively. The primary use of cash was for the acquisition of Access.

Net cash flow provided by financing activities for the three months ended December 31, 2015 was approximately \$5,402,000 compared to \$1,203,000 in the three months ended December 31, 2014. Fluctuations in financing activities are attributable to the level of borrowings and the proceeds of a promissory note.

All of the Company's office facilities are leased. As of December 31, 2015, future minimum lease payments under non-cancelable lease commitments having initial terms in excess of one year, including closed offices, totaled approximately \$1,819,000.

On January 8, 2015, the Company completed a securities offering with 18 individuals who collectively purchased a total of 200,000 shares of Preferred Stock ("Series A Preferred Stock") from the Company for a total purchase price of \$2,000,000. Each share of Series A Preferred stock was initially convertible, at the election of the holder, into 5 shares of the Company's common stock. The Company netted approximately \$1,960,000, with approximately \$1,000,000 used as working capital and the remaining \$960,000 used for marketing, acquisitions, expansion and to further the operations of the Company. All shares of Series A Preferred Stock issued to the aforementioned individuals were converted into common stock prior to September 30, 2015.

On July 22, 2015, the Company entered into an underwriting agreement (the "Underwriting Agreement") with Roth Capital Partners, LLC (the "Representative"), as the representative of the several underwriters identified therein (collectively, the "Underwriters"), pursuant to which the Company agreed to offer and sell up to 1,120,000 shares of the Company's common stock, no par value (the "Common Stock"), at a price of \$7.00 per share. Under the terms of the Underwriting Agreement, the Company granted the Representative an option, exercisable for 30 days, to purchase up to an additional 168,000 shares of Common Stock to cover over-allotments, if any.

The Company received net proceeds from this offering and the overallotment, after deducting underwriting discounts and commissions and offering expenses payable by the Company of approximately \$7.8 million and issued 1,246,000 common shares, this includes the Underwriters exercise of the over-allotment option.

The Company also issued warrants (the "Underwriter's Warrant") to the Underwriters to purchase up to a total of 124,600 shares of Common Stock, at a price of \$8.30 per common share and are exercisable for five years. The Underwriter's Warrant has a seven-year piggyback registration right with respect to shares of common stock underlying the Underwriter's Warrant from the date of the Underwriting Agreement.

On July 31, 2015 the Company entered into a Stock Purchase Agreement (the "Agile Agreement") with Tricia Dempsey. Pursuant to the terms of the Agile Agreement on July 31, 2015 the Company acquired 100% of the outstanding stock of Agile Resources, Inc., a Georgia corporation

("Agile"). The Company paid approximately \$2,142,000 for net assets of approximately \$92,000 and expects to pay an additional \$500,000 during the year ended September 30, 2016.

On October 2, 2015, the Company issued and sold a subordinated note in the aggregate principal amount of \$4,185,000 (the "Subordinated Note") to JAX Legacy – Investment 1, LLC (the "Investor") pursuant to a Subscription Agreement dated October 2, 2015 between the Company and the Investor (the "Subscription Agreement"). The Subordinated Note is due on October 2, 2018 (the "Maturity Date"). Interest on the Subordinated Note is payable as follows: (i) 10% interest per annum on the outstanding principal balance of the Subordinated Note shall be payable quarterly in arrears, in cash, on each December 30th, March 30th, June 30th, and September 30th, until the Maturity Date and (ii) 4% interest per annum until the Maturity Date on the original principal balance of the Subordinated Note (\$502,200), was paid in advance on the issuance date of the Subordinated Note through the issuance to the Investor of 91,309 shares of the Company's common stock (the "Interest Shares"). The Company may prepay the principal and interest under the Subordinated Note at any time, without penalty, provided, however, the Interest Shares shall be deemed paid in full and earned upon the issuance of the Subordinated Note. The Subordinated Note is subordinated in payment to the obligations of the Company to ACF FINCO I LLP pursuant to the terms and provisions of a Subordination and Intercreditor Agreement dated October 2, 2015 between, ACF FINCO I LLP and the Investor. In connection with the issuance of the Subordinated Note the Company and the Investor entered into a Registration Rights Agreement dated October 2, 2015 (the "Registration Rights Agreement") whereby the Company granted to the Investor certain piggyback registration rights with respect to the shares of Company common stock issued or issuable as interest payments under the Subordinated Note, and any shares of Company common stock issued as a dividend or other distribution with respect to, or in exchange for or in replacement of, shares of common stock of the Company issued or issuable as interest payments under the Subordinated Note. On January 1, 2016 the Company entered into an eighth Amendment and Waiver to the Loan and Security Agreement with ACF to increase the maximum amount of revolving credit under the Amended Credit Agreement from \$6,000,000 to \$10,000,000.

On October 4, 2015 the Company issued to the former owners of Access Data Consulting Corporation a Promissory Note in the principal amount of \$3,000,000. Interest on the outstanding principal balance of the Promissory Note is payable at the rate of 5.5% per annum. The principal and interest amount of the Promissory Note is payable as follows: (i) for the first twelve months commencing on November 4, 2015 and ending on October 4, 2016, a monthly payment of \$57,303.49 in principal and interest, (ii) on October 4, 2016 a balloon payment of principal of \$1,000,000, (iii) for the next twelve months commencing on November 4, 2016 and ending on October 4, 2017, a monthly payment of \$27,963.72 in principal and interest, (iv) on October 4, 2017 a balloon payment of principal of \$1,202,405.54 and (v) on October 4, 2017 any and all amounts of previously unpaid principal and accrued interest. In recent years, the Company has incurred significant losses and negative cash flows from operations. Management has implemented a strategy which included cost reduction efforts as well as identifying strategic acquisitions, financed primarily through the issuance of common stock, to improve the overall profitability and cash flows of the Company. Management believes with current cash flow from operations, the equity offerings, issued debt and the availability under the ACF facility, the Company will have sufficient liquidity for the next 12 months.
