BRUNSWICK CORPORATION

Notes to Condensed Consolidated Financial Statements
(unaudited)

Note 1 – Significant Accounting Policies

Interim Financial Statements. The unaudited interim condensed consolidated financial statements of Brunswick Corporation (Brunswick or the Company) have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Therefore, certain information and disclosures normally included in financial statements and related notes prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) have been condensed or omitted. Certain previously reported amounts have been reclassified to conform to the current period presentation. As indicated in Note 2 – Discontinued Operations, Brunswick's results as discussed in the financial statements reflect continuing operations only, unless otherwise noted.

These financial statements should be read in conjunction with, and have been prepared in conformity with, the accounting principles reflected in the consolidated financial statements and related notes included in Brunswick's 2013 Annual Report on Form 10-K for the year ended December 31, 2013 (the 2013 Form 10-K). These results include, in the opinion of management, all normal and recurring adjustments necessary to present fairly the financial position of Brunswick as of September 27, 2014, December 31, 2013, and September 28, 2013, the results of operations for the three months and nine months ended September 27, 2014 and September 28, 2013, and the cash flows for the nine months ended September 27, 2014 and September 28, 2013. Due to the seasonality of Brunswick's businesses, the interim results are not necessarily indicative of the results that may be expected for the remainder of the year.

The Company maintains its financial records on the basis of a fiscal year ending on December 31, with the fiscal quarters spanning thirteen weeks, with the first, second and third quarters ending on the Saturday closest to the end of the first, second and third thirteen-week periods, respectively. The first three quarters of fiscal year 2014 ended on March 29, 2014, June 28, 2014 and September 27, 2014, and the first three quarters of fiscal year 2013 ended on March 30, 2013, June 29, 2013 and September 28, 2013.

Recent Accounting Pronouncements. The Company evaluates the pronouncements of various authoritative accounting organizations, primarily the Financial Accounting Standards Board (FASB), the SEC, and the Emerging Issues Task Force, to determine the impact of new pronouncements on GAAP and the impact on the Company. The following are recent accounting pronouncements that have been adopted during the nine months ended September 27, 2014, or will be adopted in future periods.

Going Concern: In August 2014, the FASB amended the Accounting Standards Codification (ASC) to provide guidance on determining when and how an entity must disclose going concern uncertainties in its financial statements. The amendment requires management to perform interim and annual assessments of an entity's ability to continue as a going concern within one year of the date of issuance of an entity's financial statements. If there is substantial doubt about the entity's ability to continue as a going concern, an entity must provide certain footnote disclosures. The amendment is effective for fiscal years, and the interim periods thereafter, beginning after December 15, 2016, with early adoption permitted. The Company is currently evaluating the impact of adopting this ASC amendment, but does not expect it will have a material effect on the Company's consolidated financial statements.

Revenue Recognition: In May 2014, the FASB and International Accounting Standards Board jointly issued a final standard on revenue recognition which outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. This standard will supersede most current revenue recognition guidance. Under the new standard, entities are required to identify the contract with a customer; identify the separate performance obligations in the contract; determine the transaction price; allocate the transaction price to the separate performance obligations in the contract; and recognize the appropriate amount of revenue when (or as) the entity

satisfies each performance obligation. The standard is effective for fiscal years, and the interim periods within those years, beginning on or after January 1, 2017. Entities have the option of using either retrospective transition or a modified approach in applying the new standard. The Company is currently evaluating the approach it will use to apply the new standard and the impact that the adoption of the new standard will have on the Company's consolidated financial statements.

Discontinued Operations: In April 2014, the FASB amended the ASC to raise the threshold for a disposal to qualify as a discontinued operation. Under the new guidance, a discontinued operation represents a strategic shift that has or will have a major effect on an entity's operations and financial results. The guidance also expands the disclosures for discontinued operations, including new disclosures related to individually material disposals that do not meet the definition of a discontinued operation. The amendment is effective for fiscal years, and the interim periods within those years, beginning after December 15, 2014, with

7

BRUNSWICK CORPORATION

Notes to Condensed Consolidated Financial Statements

(unaudited)

early adoption permitted only for disposals that have not been reported in financial statements previously issued. The Company did not early adopt this ASC amendment and is currently evaluating what impact the adoption of the ASC amendment will have on the Company's consolidated financial statements.

Unrecognized Tax Benefit: In July 2013, the FASB amended the ASC to provide guidance on financial statement presentation of an unrecognized tax benefit when a net operating loss (NOL) carryforward, a similar tax loss, or a tax credit carryforward exists. The guidance states that entities should present an unrecognized tax benefit as a reduction of a deferred tax asset for an NOL or tax credit carryforward whenever the NOL or tax credit carryforward would be available to reduce the additional taxable income or tax due if the tax position is disallowed. The amendment is effective for fiscal years, and the interim periods within those years, beginning after December 15, 2013, with early adoption permitted. The Company adopted this amendment in 2014 and it did not have a material impact on the Company's consolidated results of operations and financial condition.

Note 2 – Discontinued Operations

On July 17, 2014, the Company entered into an agreement to sell its retail bowling business to AMF Bowling Centers, Inc. In connection with its decision to sell its bowling centers, the Company announced in July 2014 its intention to divest its bowling products business. On December 31, 2012, the Board of Directors authorized the Company to exit its Hatteras and Cabo boat businesses. As a result of these actions, these businesses, which were previously recorded in the Bowling & Billiards segment and Boat segment, respectively, are being reported as discontinued operations in the Condensed Consolidated Statements of Comprehensive Income for all periods presented. The Company does not have or anticipate any significant continuing involvement or continuing cash flows associated with these businesses. The assets and liabilities of these businesses met the accounting criteria to be classified as held for sale and have been aggregated and reported on separate lines of the Condensed Consolidated Balance Sheets for all periods presented.

On September 18, 2014, the Company completed the sale of its retail bowling business to AMF Bowling Centers, Inc. as well as, in separate transactions, completed the sale of two retail bowling centers in California. The sales resulted in net cash proceeds of \$264.3 million and an after-tax gain of \$52.6 million. In connection with the sale of its retail bowling business, the Company recorded deferred income of \$20.7 million related to a trademark license agreement with AMF Bowling Centers, Inc. which will be recognized in the results of operations from continuing operations over 5 years. In connection with the sale of its retail bowling business, the Company has retained certain liabilities and provided guarantees on certain leased bowling centers.

In August 2013, the Company completed the sale of its Hatteras and Cabo boat businesses resulting in an after-tax gain of \$1.6 million.

The following table discloses the results of operations of the businesses reported as discontinued operations for the three months and nine months ended September 27, 2014 and September 28, 2013, respectively:

(in millions)	Three Months Ended		Nine Months Ended		
	September 27, 2014	September 28, 2013	September 27, 2014	September 28, 2013	
Net sales	\$68.8	\$70.1	\$209.8	\$236.2	
Earnings (loss) from discontinued operations before income taxes	(14.4) (1.4) \$0.3	7.3

Edgar Filing: BRUNSWICK CORP - Form 10-Q

Earnings (loss) from discontinued operations, net of tax	(9.2)	(1.0)	0.2	8.3
Gain on disposal of discontinued operations, net of tax ^(A)	52.6		1.6		52.6	1.6
Net earnings from discontinued operations, net of tax	\$43.4		\$0.6		\$52.8	\$9.9

(A) The Gain on disposal of discontinued operations for the three months and nine months ended September 27, 2014, includes a pre-tax gain of \$65.6 million and a net tax provision of \$13.0 million. The Gain on disposal of discontinued operations for the three months and nine months ended September 28, 2013, includes a pre-tax loss of \$1.4 million and a net tax benefit of \$3.0 million.

BRUNSWICK CORPORATION

Notes to Condensed Consolidated Financial Statements

(unaudited)

The following table reflects the summary of assets and liabilities held for sale as of September 27, 2014 for the bowling products business and as of December 31, 2013 and September 28, 2013, for the retail bowling and bowling products businesses:

(in millions)	September 27 2014	December 31, 2013	September 28 2013
Accounts and notes receivable, net	\$ 20.8	\$ 18.9	\$ 24.3

Prepaid expenses and other	1.0	2.5	2.5
Current assets held for sale	39.3	36.8	43.9
Net property	8.7	197.9	198.1
Other long-term assets	4.3	6.4	6.2
Long-term assets held for sale	13.0	204.3	204.3
Assets held for sale	\$ 52.3	\$ 241.1	\$ 248.2
Accounts payable	\$ 6.8	\$ 18.0	\$ 17.4
Accrued expenses	11.3	31.7	30.5
Current liabilities held for sale	18.1	49.7	47.9
Other liabilities	7.2	9.2	8.8
Long-term liabilities held for sale	7.2	9.2	8.8
Liabilities held for sale	\$ 25.3	\$ 58.9	\$ 56.7

Note 3 – Restructuring Activities

Brunswick has announced and implemented a number of restructuring initiatives designed to improve the Company's cost structure, better utilize overall capacity and improve general operating efficiencies. These initiatives reflected the Company's response to the significant reduction in the marine market and resulted in the recognition of restructuring, exit and impairment charges in the Condensed Consolidated Statements of Comprehensive Income during 2014 and 2013.

The costs incurred under these initiatives include:

Restructuring Activities – These amounts mainly relate to:

- Employee termination and other benefits
- Costs to retain and relocate employees
- Consulting costs
- Consolidation of manufacturing footprint

Exit Activities – These amounts mainly relate to:

- Employee termination and other benefits
- Lease exit costs
- Inventory write-downs
- Facility shutdown costs

Asset Disposition Actions – These amounts mainly relate to sales of assets and impairments of:

• Fixed assets

• Tooling

• Patents and proprietary technology

• Dealer networks

• Trade names

Impairments of definite-lived assets are recognized when, as a result of the restructuring activities initiated, the carrying amount of the long-lived asset is not expected to be fully recoverable. The impairments recognized were equal to the difference between the carrying amount of the asset and the estimated fair value of the asset, which was determined using observable inputs, including appraisals from independent third parties when available, and, when observable inputs were not available, was determined using the Company's assumptions, including the data that market participants would use in pricing the asset, based on the best

BRUNSWICK CORPORATION

Notes to Condensed Consolidated Financial Statements

(unaudited)

information available in the circumstances. Specifically, the Company used discounted cash flows to determine the fair value of the asset when observable inputs were unavailable.

The Company has reported restructuring and exit activities based on the specific driver of the cost and reflected the expense in the accounting period when the cost has been committed to or incurred, as appropriate. The following table is a summary of the net expense associated with the restructuring, exit and impairment activities for the three months and nine months ended September 27, 2014 and September 28, 2013. The 2014 charges consist of expenses related to actions initiated in 2014, 2013, 2012, 2010 and 2009. The 2013 charges consist of expenses related to actions initiated in 2013 and 2012.

(in millions)	Three Months Ended		Nine Months Ended	
	September 27, 2014	September 28, 2013	September 27, 2014	September 28, 2013
Restructuring activities:				
Employee termination and other benefits	\$0.1	\$ —	\$2.9	\$ 1.9
Current asset write-downs	0.3	0.7	0.5	1.0
Transformation and other costs:				
Consolidation of manufacturing footprint	(0.1) 1.9	0.9	5.1
Retention and relocation costs	0.1	—	0.2	0.4
Asset disposition actions:				
Definite-lived asset impairments and (gains) on disposal	0.5	—	(0.5) 2.3
Total restructuring, exit and impairment charges	\$0.9	\$ 2.6	\$4.0	\$ 10.7

The Company anticipates it may incur up to \$1 million of additional restructuring charges in 2014 primarily related to known restructuring activities initiated during 2013 in the Boat segment. Reductions in demand for the Company's products, further refinement of its product portfolio or further opportunities to consolidate manufacturing facilities and reduce costs, may result in additional restructuring, exit or impairment charges in future periods.

Actions Initiated in 2014

In the second quarter of 2014, certain executive positions were restructured within the Company. The Company recorded restructuring charges in 2014 related to this action.

The restructuring, exit and impairment charges recorded in the three months and nine months ended September 27, 2014 related to actions initiated in 2014, by reportable segment, are summarized below:

(in millions)	Three Months	Nine Months
	Ended September 27, 2014	Ended September 27, 2014
Boat	\$0.3	\$0.3
Corporate	—	2.7
Total	\$0.3	\$3.0

The following is a summary of the charges by category associated with the Company's 2014 restructuring initiatives:

(in millions)	Three Months	Nine Months
	Ended	Ended

	September 27, 2014	September 27, 2014
Restructuring activities:		
Employee termination and other benefits	\$—	\$2.7
Asset disposition actions:		
Definite-lived asset impairments	0.3	0.3

Total restructuring, exit and impairment charges	\$3.0	\$(1.6)	\$(0.3)	\$1.1

Actions Initiated in 2013

In the fourth quarter of 2013, the Company made the decision to outsource woodworking operations for its fiberglass sterndrive boats, which resulted in long-lived asset impairment charges. The Company announced in the first quarter of 2013 the consolidation of its yacht and motoryacht production at its Palm Coast, Florida manufacturing plant. As a result, the Company suspended manufacturing at its Sykes Creek boat manufacturing facility in nearby Merritt Island, Florida at the end of June 2013. The Company recorded restructuring, exit and impairment charges in 2013 and 2014 related to these actions.

The restructuring, exit and impairment charges recorded in the three months and nine months ended September 27, 2014 and September 28, 2013, related to actions initiated in 2013, by reportable segment, are summarized below:

(in millions)	Three Months Ended		Nine Months Ended	
	September 27, 2014	September 28, 2013	September 27, 2014	September 28, 2013
Boat	\$1.1	\$2.5	\$2.5	\$7.4
Corporate	—	—	—	0.7

Actions Initiated in 2012

The Company recorded restructuring and impairment charges in 2012 relating to actions initiated in connection with the continued weakness in the fiberglass sterndrive boat market segments as well as the refinement of its North American boat product portfolio. In 2012, the Company decided to exit Bayliner cruisers in the U.S. and European markets and to further reduce the Company's manufacturing footprint by closing its Knoxville, Tennessee production facility and consolidate its fiberglass cruiser manufacturing into other boat production facilities.

The restructuring, exit and impairment charges recorded in the three months and nine months ended September 27, 2014 and September 28, 2013, related to actions initiated in 2012, by reportable segment, are summarized below:

(in millions)	Three Months Ended		Nine Months Ended

Total restructuring, exit and impairment charges	\$2.7	\$ (0.2)) \$(0.6)) \$(1.4)) \$0.5

Actions Initiated Before 2012

The Company recorded impairment charges in 2009 and 2010 relating to actions to divest non-strategic assets in its Boat segment. The Company recorded gains on disposal of \$0.3 million and \$1.3 million for the three months and nine months ended September 27, 2014, respectively, relating to the third quarter sale of the Company's Riverview plant in Knoxville, Tennessee, that was part of the Company's 2009 restructuring initiatives as well as the second quarter sale of a boat facility in Ashland City, Tennessee, that was part of the Company's 2010 restructuring initiatives.

Note 4 – Acquisitions

On July 31, 2014, the Company acquired 100 percent of privately held Bell Industries Recreational Products Group, Inc. (Bell), which is based in Eagan, Minnesota. Bell is a distributor of parts and accessories to the marine, recreational vehicle and powersports markets, serving primarily the Upper Midwest of the U.S. The Company believes this acquisition will allow the Company to solidify its footprint in the Upper Midwest with locations in Minnesota, Michigan and Wisconsin, enhance its growth of its parts and accessories businesses, expand the depth and breadth of its product portfolio and enable entry into attractive adjacent markets. Bell will be managed as part of the Company's marine service, parts and accessories businesses within the Marine Engine segment.

The net cash consideration paid by the Company to acquire Bell was \$11.8 million. The preliminary recording of the fair value of the assets acquired resulted in \$2.0 million of identifiable intangible assets for customer relationships and \$0.8 million of goodwill, which are both deductible for tax purposes. The amounts assigned to Bell's customer relationships will be amortized over the estimated useful life of 8 years. Due to the recent timing of the acquisition, these amounts are estimates and are subject to change within the measurement period as the Company's fair value assessments are finalized.

On June 16, 2014, the Company acquired 100 percent of privately held Whale, which is based in Bangor, Northern Ireland, and is a manufacturer of water movement and heating systems for the marine, recreational vehicle, industrial and other markets. The Company believes this acquisition will allow the Company to more fully compete across a number of parts and accessories product categories, enable entry into attractive adjacent markets and expand the global presence of the marine service, parts and accessories businesses. Whale will be managed as part of the

Company's marine service, parts and accessories businesses within the Marine Engine segment.

The net cash consideration paid by the Company to acquire Whale was \$30.0 million, which included payments of \$10.0 million to retire acquiree debt. During the third quarter of 2014, the fair value measurements of assets acquired were updated, which resulted in \$11.9 million of identifiable intangible assets, including customer relationships, trade names and patents and proprietary technology for \$6.1 million, \$3.7 million and \$2.1 million, respectively, and \$8.4 million of goodwill, all of which are not deductible for tax purposes. These fair value assessments are estimates and are subject to further change within the measurement period. The Company considers its trade names to be indefinite-lived intangible assets, whereas the amounts assigned to Whale's customer relationships and patent and proprietary technology will be amortized over the estimated useful life of 14 years and 5 years, respectively.

BRUNSWICK CORPORATION

Notes to Condensed Consolidated Financial Statements
(unaudited)

These acquisitions were not and would not have been material to the Company's net sales, results of operations or total assets during the three months and nine months ended September 27, 2014 and September 28, 2013, respectively. Accordingly, the Company's consolidated results from operations do not differ materially from historical performance as a result of these acquisitions, and therefore, pro-forma results are not presented.

Note 5 – Financial Instruments

The Company operates globally with manufacturing and sales facilities in various locations around the world. Due to the Company's global operations, the Company engages in activities involving both financial and market risks. The Company utilizes normal operating and financing activities, along with derivative financial instruments, to minimize these risks.

Derivative Financial Instruments. The Company uses derivative financial instruments to manage its risks associated with movements in foreign currency exchange rates, interest rates and commodity prices. Derivative instruments are not used for trading or speculative purposes. For certain derivative contracts, on the date a derivative contract is entered into, the Company designates the derivative as a hedge of a forecasted transaction (cash flow hedge). The Company formally documents its hedge relationships, including identification of the hedging instruments and the hedged items, as well as its risk management objectives and strategies for undertaking the hedge transaction. This process includes linking derivatives that are designated as hedges to specific forecasted transactions. The Company also assesses, both at the hedge's inception and monthly thereafter, whether the derivatives used in hedging transactions are highly effective in offsetting the changes in the anticipated cash flows of the hedged item. If the hedging relationship ceases to be highly effective, or it becomes probable that a forecasted transaction is no longer expected to occur, gains and losses on the derivative are recorded in Cost of sales or Interest expense as appropriate. There were no material adjustments as a result of ineffectiveness to the results of operations for the three months and nine months ended September 27, 2014 and September 28, 2013. The fair value of derivative financial instruments is determined through market-based valuations and may not be representative of the actual gains or losses that will be recorded when these instruments mature due to future fluctuations in the markets in which they are traded. The effects of derivative and financial instruments are not expected to be material to the Company's financial position or results of operations when considered together with the underlying exposure being hedged. Use of derivative financial instruments exposes the Company to credit risk with its counterparties when the fair value of a derivative contract is an asset. The Company mitigates this risk by entering into derivative contracts with highly rated counterparties. The maximum amount of loss due to counterparty credit risk is limited to the asset value of derivative financial instruments.

Cash Flow Hedges. The Company enters into certain derivative instruments that are designated and qualify as cash flow hedges. The Company executes both forward and option contracts, based on forecasted transactions, to manage foreign exchange exposure mainly related to inventory purchase and sales transactions. The Company also enters into commodity swap agreements, based on anticipated purchases of aluminum, copper and natural gas, to manage risk related to price changes. From time-to-time, the Company enters into forward starting interest rate swaps to hedge the interest rate risk associated with the anticipated issuance of debt.

A cash flow hedge requires that as changes in the fair value of derivatives occur, the portion of the change deemed to be effective is recorded temporarily in Accumulated other comprehensive loss, an equity account, and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. As of September 27, 2014, the term of derivative instruments hedging forecasted transactions ranged from one to 23 months.

Fair Value Hedges. From time-to-time, the Company enters into fixed-to-floating interest rate swaps to convert a portion of the Company's long-term debt from fixed to floating rate debt. An interest rate swap is entered into with the expectation that the change in the fair value of the interest rate swap will offset the change in the fair value of the debt instrument attributable to changes in the benchmark interest rate.

Other Hedging Activity. The Company has entered into certain foreign currency forward contracts that have not been designated as a hedge for accounting purposes. These contracts are used to manage foreign currency exposure related to changes in the value of assets or liabilities caused by changes in foreign exchange rates. The change in the fair value of the foreign currency derivative contract and the corresponding change in the fair value of the asset or liability of the Company are both recorded through earnings, each period as incurred.

Foreign Currency. The Company enters into forward and option contracts to manage foreign exchange exposure related to forecasted transactions, and assets and liabilities that are subject to risk from foreign currency rate changes. These exposures include: product costs; revenues and expenses; associated receivables and payables; intercompany obligations and receivables; and other related cash flows.

BRUNSWICK CORPORATION

Notes to Condensed Consolidated Financial Statements

(unaudited)

Forward exchange contracts outstanding at September 27, 2014, December 31, 2013, and September 28, 2013 had notional contract values of \$180.7 million, \$158.0 million and \$158.9 million, respectively. Option contracts outstanding at September 27, 2014, December 31, 2013 and September 28, 2013 had notional contract values of \$65.9 million, \$60.9 million and \$60.1 million, respectively. The forward and options contracts outstanding at September 27, 2014, mature during 2014 and 2015 and mainly relate to the Euro, Japanese yen, Canadian dollar, Australian dollar, Brazilian real, Mexican peso, Swedish krona, British pound, Norwegian krone and New Zealand dollar. As of September 27, 2014, the Company estimates that during the next 12 months, it will reclassify approximately \$2.2 million of net gains (based on current rates) from Accumulated other comprehensive loss to Cost of sales.

Interest Rate. In the second quarter of 2014, the Company entered into fixed-to-floating interest rate swaps to convert a portion of the Company's long-term debt from fixed to floating rate debt. As of September 27, 2014, the outstanding swaps had notional contract values of \$200.0 million, of which \$150.0 million correspond to the Company's 4.625 percent Senior notes due 2021 and \$50.0 million correspond to the Company's 7.375 percent Debentures due 2023. There were no fixed-to-floating interest rate swaps outstanding as of December 31, 2013 and September 28, 2013. These instruments have been designated as fair value hedges, with the fair market value recorded in long-term debt as discussed in Note 17 – Debt.

The Company also enters into forward starting interest rate swaps to hedge the interest rate risk associated with anticipated debt issuances. There were no forward starting interest rate swaps outstanding at September 27, 2014, December 31, 2013 and September 28, 2013. In connection with the issuance of \$150.0 million of 4.625 percent Senior notes due 2021, in May 2013, the Company terminated \$100.0 million notional value forward starting swaps, which resulted in a net deferred loss of \$5.8 million, which was recorded as a component of Accumulated other comprehensive loss and is being amortized to interest expense over the life of the related debt.

As of September 27, 2014, December 31, 2013 and September 28, 2013, the Company had \$5.2 million, \$5.3 million and \$5.3 million, respectively, of net deferred losses associated with all forward starting interest rate swaps, which were included in Accumulated other comprehensive loss. These amounts include gains deferred on forward starting interest rate swaps terminated in July 2006, net of losses deferred on forward starting swaps terminated in August 2008 and forward starting swaps terminated in May 2013 discussed above. In the second quarter of 2013, the Company recognized \$1.1 million of income associated with the gains originally deferred in Accumulated other comprehensive loss resulting from the difference between the amount of new debt issued and the original notional value of swaps terminated in July 2006. As of September 27, 2014, the Company estimates that during the next 12 months, it will reclassify approximately \$0.1 million of net losses resulting from settled forward starting interest rate swaps from Accumulated other comprehensive loss to Interest expense.

Commodity Price. The Company uses commodity swaps to hedge anticipated purchases of aluminum, copper and natural gas. Commodity swap contracts outstanding at September 27, 2014, December 31, 2013 and September 28, 2013 had notional contract values of \$24.9 million, \$26.2 million and \$20.7 million, respectively. The contracts outstanding mature through 2016. The amount of gain or loss associated with the change in fair value of these instruments is deferred in Accumulated other comprehensive loss and recognized in Cost of sales in the same period or periods during which the hedged transaction affects earnings. As of September 27, 2014, the Company estimates that during the next 12 months it will reclassify approximately \$1.9 million in net gains (based on current prices) from Accumulated other comprehensive loss to Cost of sales.

Concentration of Credit Risk. The Company enters into financial instruments and invests a portion of its cash reserves in marketable debt securities with banks and investment firms with which the Company has business relationships, and regularly monitors the credit ratings of its counterparties. The Company sells a broad range of recreational products to a worldwide customer base and extends credit to its customers based upon an ongoing credit evaluation program. The Company's business units maintain credit organizations to manage financial exposure and perform

credit risk assessments on an individual account basis. Accounts are not aggregated into categories for credit risk determinations. There are no concentrations of credit risk resulting from accounts receivable that are considered material to the Company's financial position. Refer to Note 10 – Financing Receivables for more information.

Fair Value of Other Financial Instruments. The carrying values of the Company's short-term financial instruments, including cash and cash equivalents, accounts and notes receivable and short-term debt, including current maturities of long-term debt, approximate their fair values because of the short maturity of these instruments. At September 27, 2014, December 31, 2013 and September 28, 2013, the fair value of the Company's long-term debt was approximately \$467.6 million, \$461.6 million and \$460.7 million, respectively, and was determined using Level 1 and Level 2 inputs described in Note 6 – Fair Value Measurements, including quoted market prices or discounted cash flows based on quoted market rates for similar types of debt. The carrying

BRUNSWICK CORPORATION

Notes to Condensed Consolidated Financial Statements

(unaudited)

value of long-term debt, including current maturities, was \$456.6 million, \$459.8 million and \$464.5 million as of September 27, 2014, December 31, 2013 and September 28, 2013, respectively.

Note 6 – Fair Value Measurements

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a fair value hierarchy based on three levels of inputs, of which the first two are considered observable and the last unobservable.

Level 1 - Quoted prices in active markets for identical assets or liabilities. These are typically obtained from real-time quotes for transactions in active exchange markets involving identical assets or liabilities.

Level 2 - Inputs, other than quoted prices included within Level 1, which are observable for the asset or liability, either directly or indirectly. These are typically obtained from readily available pricing sources for comparable instruments. The Company performs additional procedures to ensure its third party pricing sources are reasonable including: reviewing documentation explaining third parties' pricing methodologies and evaluating whether those methodologies were in compliance with GAAP; performing independent testing of period-end valuations and recent transactions against other available pricing sources; and reviewing available Service Organization Controls Reports, as defined in Statement on Standards for Attestation Engagements Number 16, to understand the internal control environment at the Company's third party pricing providers.

Level 3 - Unobservable inputs, where there is little or no market activity for the asset or liability. These inputs reflect the reporting entity's own assumptions of the data that market participants would use in pricing the asset or liability, based on the best information available in the circumstances.

The following table summarizes Brunswick's financial assets and liabilities measured at fair value on a recurring basis as of September 27, 2014:

(in millions)	Level 1	Level 2	Level 3	Total
Assets:				
Cash equivalents	\$328.2	\$1.0	\$—	\$329.2

Total liabilities	\$ 3.8	\$ 51.0	\$—	\$ 54.8

Refer to Note 5 – Financial Instruments for additional information related to the fair value of derivative assets and liabilities by class. Other liabilities shown in the tables above include certain deferred compensation plans of the Company. In addition to the items shown in the tables above, refer to Note 16 in the 2013 Form 10-K for further discussion regarding the fair value measurements associated with the Company's postretirement benefit plans.

As discussed in Note 3 – Restructuring Activities, the Company has initiated various restructuring activities requiring the Company to perform fair value measurements, on a non-recurring basis, of certain asset groups to test for potential impairments. Certain of these fair value measurements indicated that the asset groups were impaired and, therefore, the assets were written down to fair value. Once an asset has been impaired, it is not remeasured at fair value on a recurring basis; however, it is still subject to fair value measurements to test for recoverability of the carrying amount.

BRUNSWICK CORPORATION

Notes to Condensed Consolidated Financial Statements
(unaudited)

Note 7 – Share-Based Compensation

On May 7, 2014, the Company's shareholders approved the Brunswick Corporation 2014 Stock Incentive Plan (Plan), which replaced the Company's 2003 Stock Incentive Plan. Under the Plan, the Company may grant stock options, stock appreciation rights (SARs), non-vested stock awards and performance awards to executives, other employees and non-employee directors, with 5.0 million shares from treasury shares and from authorized, but unissued, shares of common stock initially available for grant, in addition to any shares reacquired by the Company through the expiration, termination, cancellation or forfeiture of past awards, or settlement of such awards in cash. As of September 27, 2014, 5.2 million shares remained available for grant.

Stock Options and SARs

Between 2005 and 2012, the Company issued stock-settled SARs and has not issued any stock options since 2004. The Company has not issued SARs in 2014 or 2013. In the three months and nine months ended September 27, 2014, there was \$0.3 million and \$1.0 million, respectively, of total expense after adjusting for forfeitures, due to amortization of SARs granted. In the three months and nine months ended September 28, 2013, there was \$0.5 million and \$2.4 million, respectively, of total expense after adjusting for forfeitures, due to amortization of SARs granted.

Non-vested stock awards

The Company grants both stock-settled and cash-settled non-vested stock units and awards to key employees as determined by the Human Resources and Compensation Committee. During the three months and nine months ended September 27, 2014, the Company granted 0.0 million and 0.3 million stock awards, respectively. The Company granted 0.0 million and 0.3 million of stock awards during the three months and nine months ended September 28, 2013, respectively. The Company recognizes the cost of non-vested stock units and awards on a straight-line basis over the requisite service period. Additionally, cash-settled non-vested stock units and awards are recorded as a liability in the balance sheet and adjusted to fair value each reporting period through stock compensation expense. During the three months and nine months ended September 27, 2014, \$2.4 million and \$7.3 million, respectively, was charged to compensation expense for non-vested stock awards. During the three months and nine months ended September 28, 2013, \$2.7 million and \$7.3 million, respectively, was charged to compensation expense for non-vested stock awards.

As of September 27, 2014, the Company had \$8.5 million of total unrecognized compensation cost related to non-vested share-based compensation arrangements. The Company expects this cost to be recognized over a weighted average period of 1.1 years.

Performance Awards

The Company granted 0.2 million and 0.1 million performance shares to certain senior executives during the nine months ended September 27, 2014 and September 28, 2013, respectively. The share awards are based on two performance measures--a cash flow return on investment (CFROI) measure and a total shareholder return (TSR) modifier. Target performance shares are earned based on a one-year CFROI performance period, commencing at the beginning of the calendar year of each grant. The performance shares earned from CFROI performance are then subject to a TSR modifier based on stock price performance measured against a predefined comparator group over a three-year performance period which starts at the beginning of the calendar year of each grant. Additionally, in February 2014 and 2013, the Company granted 24,600 and 26,000 performance shares, respectively, to non-executive

officers and certain senior managers based solely on the CFROI measure utilizing the same one-year performance period mentioned above. Based on projections of probable attainment of the CFROI measure and the projected TSR modifier used to determine the performance awards, \$1.2 million and \$5.0 million was charged to compensation expense for the three months and nine months ended September 27, 2014, respectively, and \$1.6 million and \$3.9 million was charged to compensation expense for the three months and nine months ended September 28, 2013, respectively.

BRUNSWICK CORPORATION

Notes to Condensed Consolidated Financial Statements

(unaudited)

The fair values of the senior executives' performance share award grants with a TSR modifier at the grant date in 2014 and 2013 were \$41.38 and \$35.93, respectively, which were estimated using the Monte Carlo valuation model, and incorporated the following assumptions:

	2014		2013	
Risk-free interest rate	0.6	%	0.4	%
Dividend yield	1.0	%	0.1	%
Volatility factor	43.7	%	53.0	%
Expected life of award	2.9 years		2.9 years	

The fair value of the non-executive officers and certain senior managers' performance awards granted based solely on the CFROI performance factor was \$40.44 and \$34.65, which was equal to the stock price on the date of grant in 2014 and 2013, respectively.

As of September 27, 2014, the Company had \$2.4 million of total unrecognized compensation cost related to performance awards. The Company expects this cost to be recognized over a weighted average period of 0.8 years.

Director Awards

The Company issues stock awards to non-employee directors in accordance with the terms and conditions determined by the Nominating and Corporate Governance Committee of the Board of Directors. A portion of each director's annual fee is paid in Brunswick common stock, the receipt of which may be deferred until a director retires from the Board of Directors. Each director may elect to have the remaining portion paid in cash, in Brunswick common stock distributed at the time of the award, or in deferred Brunswick common stock units with a 20 percent premium.

BRUNSWICK CORPORATION

Notes to Condensed Consolidated Financial Statements

(unaudited)

Note 8 – Earnings per Common Share

Basic earnings per common share is calculated by dividing Net earnings by the weighted average number of common shares outstanding during the period. Diluted earnings per common share is calculated similarly, except that the calculation includes the dilutive effect of stock-settled SARs and stock options (collectively “options”), non-vested stock awards and performance awards.

Basic and diluted earnings per common share for the three months and nine months ended September 27, 2014 and September 28, 2013, were calculated as follows:

(in millions, except per share data)	Three Months Ended		Nine Months Ended	
	September 27, 2014	September 28, 2013	September 27, 2014	September 28, 2013
Net earnings from continuing operations	\$61.0	\$ 57.2	\$197.2	\$ 178.1
Net earnings from discontinued operations, net of tax	43.4	0.6	52.8	9.9
Net earnings	\$104.4	\$ 57.8	\$250.0	\$ 188.0
Weighted average outstanding shares – basic	93.7	91.3	93.5	91.0
Dilutive effect of common stock equivalents	1.5	2.7	1.6	2.7
Weighted average outstanding shares – diluted	95.2	94.0	95.1	93.7
Basic earnings per common share:				
Continuing operations	\$0.65	\$ 0.63	\$2.11	\$ 1.96
Discontinued operations	0.46	0.00	0.56	0.11
Net earnings	\$1.11	\$ 0.63	\$2.67	\$ 2.07
Diluted earnings per common share:				
Continuing operations	\$0.64	\$ 0.61	\$2.07	\$ 1.90
Discontinued operations	0.46	0.00	0.56	0.11
Net earnings	\$1.10	\$ 0.61	\$2.63	\$ 2.01

As of September 27, 2014, the Company had 3.1 million options outstanding, of which 2.7 million were exercisable. This compares with 6.2 million options outstanding, of which 4.9 million were exercisable, as of September 28, 2013. During both the three months and nine months ended September 27, 2014, there were 0.3 million average shares of options outstanding for which the exercise price was greater than the average market price of the Company’s shares for the period then ended. These options were not included in the computation of diluted earnings per common share because the effect would have been anti-dilutive. This compares to 0.9 million anti-dilutive shares of options outstanding that were excluded from both the three months and nine months ended September 28, 2013. Changes in average outstanding basic shares from September 28, 2013 to September 27, 2014, reflect the impact of options exercised and the vesting of stock and performance awards since the beginning of 2013.

BRUNSWICK CORPORATION
Notes to Condensed Consolidated Financial Statements
(unaudited)

Note 9 – Commitments and Contingencies

Financial Commitments

The Company has entered into guarantees of indebtedness of third parties, primarily in connection with customer financing programs. Under these arrangements, the Company has guaranteed customer obligations to the financial institutions in the event of customer default, generally subject to a maximum amount that is less than total obligations outstanding. The Company has also extended guarantees to third parties that have purchased customer receivables from Brunswick and, in certain instances, has guaranteed secured term financing of its customers. Potential payments in connection with these customer financing arrangements generally extend over several years. The potential cash obligations associated with these customer financing arrangements as of September 27, 2014, December 31, 2013 and September 28, 2013 were:

(in millions)	Single Year Obligation			Maximum Obligation		
	September 27, 2014	December 31, 2013	September 28, 2013	September 27, 2014	December 31, 2013	September 28, 2013
	Marine Engine	\$2.9	\$8.8	\$5.3	\$2.9	\$8.8
Boat	3.1	3.1	2.1	3.1	3.1	2.1
Fitness	28.0	24.4	27.2	31.0	28.9	32.4
Total	\$34.0	\$36.3	\$34.6	\$37.0	\$40.8	\$39.8

In most instances, upon repurchase of the receivable or note, the Company receives rights to the collateral securing the financing. The Company's risk under these arrangements is partially mitigated by the value of the collateral that secures the financing. The Company had \$1.3 million, \$1.5 million and \$1.6 million accrued for potential losses related to recourse exposure at September 27, 2014, December 31, 2013 and September 28, 2013, respectively. The Company's recourse accrual represents the expected losses that could result from requirements to repurchase receivables or notes, after giving affect to anticipated proceeds from collections.

The Company has also entered into arrangements with third-party lenders where it has agreed, in the event of a default by the customer, to repurchase from the third-party lender those Brunswick products repossessed from the customer. These arrangements are typically subject to a maximum repurchase amount. The potential cash payments the Company could be required to make to repurchase collateral as of September 27, 2014, December 31, 2013 and September 28, 2013 were:

(in millions)	Single Year Obligation			Maximum Obligation		
	September 27, 2014	December 31, 2013	September 28, 2013	September 27, 2014	December 31, 2013	September 28, 2013
	Marine Engine	\$1.5	\$2.2	\$2.1	\$1.5	\$2.2
Boat	53.7	62.5	61.7	53.7	62.5	61.7
Fitness	0.2	0.3	0.2	0.2	0.3	0.2
Total	\$55.4	\$65.0	\$64.0	\$55.4	\$65.0	\$64.0

The Company's risk under these repurchase arrangements is partially mitigated by the value of the products repurchased as part of the transaction. The Company had \$1.3 million, \$1.7 million and \$1.6 million accrued for potential losses related to repurchase exposure at September 27, 2014, December 31, 2013 and September 28, 2013, respectively. The Company's repurchase accrual represents the expected losses that could result from obligations to repurchase products, after giving effect to proceeds anticipated to be received from the resale of those products to alternative dealers.

The Company has recorded its estimated net liability associated with losses from these guarantee and repurchase obligations on its Condensed Consolidated Balance Sheets based on historical experience and current facts and circumstances. Historical cash requirements and losses associated with these obligations have not been significant, but could increase if dealer defaults exceed current expectations.

The Company has accounts receivable sale arrangements with third parties which are included in the guarantee arrangements discussed above. The Company treats the sale of receivables in which the Company retains an interest as a secured obligation as the transfers of the receivables under these arrangements do not meet the requirements of a “true sale.” Accordingly, the current portion of receivables underlying these arrangements of \$24.1 million, \$36.2 million and \$33.6 million was recorded in Accounts and notes receivable and Accrued expenses as of September 27, 2014, December 31, 2013 and September 28, 2013,

BRUNSWICK CORPORATION

Notes to Condensed Consolidated Financial Statements

(unaudited)

respectively. Further, the long-term portion of these arrangements of \$18.0 million, \$18.9 million and \$17.5 million as of September 27, 2014, December 31, 2013 and September 28, 2013 was recorded in Other long-term assets and Other long-term liabilities.

Financial institutions have issued standby letters of credit and surety bonds conditionally guaranteeing obligations on behalf of the Company totaling \$8.1 million and \$14.0 million, respectively, as of September 27, 2014. A large portion of these standby letters of credit and surety bonds are related to the Company's self-insured workers' compensation program as required by its insurance companies and various state agencies. The Company has recorded reserves to cover the anticipated liabilities associated with these programs. Under certain circumstances, such as an event of default under the Company's revolving credit facility, or, in the case of surety bonds, a ratings downgrade, the Company could be required to post collateral to support the outstanding letters of credit and surety bonds. The Company was not required to post letters of credit as collateral against surety bonds as of September 27, 2014.

The Company has a collateral trust arrangement with insurance carriers and a trustee bank. The trust is owned by the Company, but the assets are pledged as collateral against workers' compensation related obligations in lieu of other forms of collateral including letters of credit. In connection with this arrangement, the Company had \$18.6 million, \$6.5 million and \$13.0 million of cash in the trust as of September 27, 2014, December 31, 2013 and September 28, 2013, respectively, which was classified as Restricted cash in the Company's Condensed Consolidated Balance Sheets. In the second quarter of 2014, the Company transferred \$9.7 million of cash from Cash and cash equivalents to Restricted cash in the Company's Condensed Consolidated Balance Sheets and canceled an equal amount of letters of credit which had previously provided collateral against these obligations. Additionally, in the first quarter of 2014, there was a \$2.4 million transfer of cash from Cash and cash equivalents to Restricted cash in the Company's Condensed Consolidated Balance Sheets related to annual collateral requirements for the current policy year.

Product Warranties

The Company records a liability for product warranties at the time revenue is recognized. The liability is estimated using historical warranty experience, projected claim rates and expected costs per claim. The Company adjusts its liability for specific warranty matters when they become known and the exposure can be estimated. The Company's warranty liabilities are affected by product failure rates as well as material usage and labor costs incurred in correcting a product failure. If actual costs differ from estimated costs, the Company must make a revision to the warranty liability.

The following activity related to product warranty liabilities was recorded in Accrued expenses during the nine months ended September 27, 2014 and September 28, 2013:

(in millions)	September 27, 2014	September 28, 2013
Balance at beginning of period	\$ 119.6	\$ 126.2
Payments made	(41.9) (47.8)
Provisions/additions for contracts issued/sold	35.1	42.6
Aggregate changes for preexisting warranties	(4.9) (2.8)
Warranty liability retained from discontinued operations	—	3.0
Balance at end of period	\$ 107.9	\$ 121.2

In the third quarter of 2013, the Company retained the warranty liability for Hatteras and Cabo boats sold or completed prior to selling these businesses as discussed in Note 2 – Discontinued Operations.

Additionally, end users of the Company's Marine Engine, Boat and Fitness segments' products may purchase a contract from the Company that extends product warranty beyond the standard period. For certain extended warranty contracts in which the Company retains the warranty or administration obligation, a deferred liability is recorded based on the aggregate sales price for contracts sold. The deferred liability is reduced and revenue is recognized on a straight-line basis over the contract period during which costs are expected to be incurred. Deferred revenue associated with contracts sold by the Company that extend product protection beyond the standard product warranty period, not included in the table above, was \$63.2 million and \$55.8 million at September 27, 2014 and September 28, 2013, respectively, and is recorded in Accrued expenses and Other long-term liabilities.

BRUNSWICK CORPORATION

Notes to Condensed Consolidated Financial Statements

(unaudited)

Legal and Environmental

The Company accrues for litigation exposure when it is probable that future costs will be incurred and such costs can be reasonably estimated. Adjustments to estimates are recorded in the period the adjustments are identified. Management does not believe that there is a reasonable possibility that a material loss exceeding the amounts already recognized for the Company's litigation claims and matters, if any, has been incurred. However, the ultimate resolutions of these proceedings and matters are inherently unpredictable. As such, our financial condition, results of operations and cash flows could be adversely affected in any particular period by the unfavorable resolution of one or more of these proceedings or matters.

There were no significant changes during the three months and nine months ended September 27, 2014, to the legal and environmental commitments that were discussed in Note 12 to the consolidated financial statements in the 2013 Form 10-K.

Note 10 – Financing Receivables

The Company has recorded financing receivables, which are defined as a contractual right to receive money, as assets on its Condensed Consolidated Balance Sheets as of September 27, 2014, December 31, 2013 and September 28, 2013. Substantially all of the Company's financing receivables are for commercial customers. The Company classifies its financing receivables into three categories: receivables repurchased under recourse provisions (Recourse Receivables); receivables sold to third-party finance companies (Third-Party Receivables); and customer notes and other (Other Receivables). Recourse Receivables are the result of the contingent recourse arrangements discussed in Note 9 – Commitments and Contingencies. Third-Party Receivables are accounts that have been sold to third-party finance companies, but do not meet the definition of a true sale, and are therefore recorded as an asset with an offsetting balance recorded as a secured obligation in Accrued expenses and Other long-term liabilities as discussed in Note 9 – Commitments and Contingencies. Other Receivables are mostly comprised of notes from customers, which are originated by the Company in the normal course of business. Financing receivables are carried at their face amounts less an allowance for doubtful accounts.

The Company sells a broad range of recreational products to a worldwide customer base and extends credit to its customers based upon an ongoing credit evaluation program. The Company's business units maintain credit organizations to manage financial exposure and perform credit risk assessments on an individual account basis. Accounts are not aggregated into categories for credit risk determinations. Due to the composition of the account portfolio, the Company does not believe that the credit risk posed by the Company's financing receivables is significant to its operations, financial condition or cash flows. There were no significant troubled debt restructurings during the three months or nine months ended September 27, 2014 and September 28, 2013.

Note 11 – Segment Data

Brunswick is a manufacturer and marketer of leading consumer brands and operates in three reportable segments: Marine Engine, Boat and Fitness. The Company's segments are defined by management's reporting structure and operating activities.

As discussed in Note 2 – Discontinued Operations, during the third quarter of 2014, the Company began reporting its retail bowling and bowling products businesses as discontinued operations. These businesses were previously reported in the former Bowling & Billiards segment. Additionally, the results of the billiards business are being reported in the Company's Fitness segment for all periods presented.

The Company evaluates performance based on business segment operating earnings. Operating earnings of segments do not include the expenses of corporate administration, non-service related pension costs, earnings from unconsolidated equity affiliates, other expenses and income of a non-operating nature, interest expense and income, loss on early extinguishment of debt or provisions for income taxes.

As a result of freezing benefit accruals in its defined benefit pension plans, the Company allocates only service-related costs to the operating segment results and reports all other components of pension expense, such as Interest cost, Expected return on plan assets and Amortization of net actuarial losses, in Pension - non-service costs.

Corporate/Other results include items such as corporate staff and administrative costs. Corporate/Other total assets consist of mainly cash, cash equivalents and investments in marketable securities, restricted cash, income tax balances and investments in unconsolidated affiliates. Marine eliminations adjust for sales between the Marine Engine and Boat segments, primarily for the sale of engines to various boat brands, which are consummated at established arm's length transfer prices as the intersegment pricing for these engines are based upon and consistent with selling prices to the Company's third party customers.

Operating Segments

The following table sets forth net sales and operating earnings (loss) of each of the Company's operating segments, which are also the Company's reportable segments, for the three months ended September 27, 2014 and September 28, 2013:

(in millions)	Net Sales		Operating Earnings (Loss)	
	Three Months Ended		Three Months Ended	
	September 27, 2014	September 28, 2013	September 27, 2014	September 28, 2013
Marine Engine	\$566.9	\$511.1	\$93.3	\$75.2
Boat	234.6	191.7	(7.0)	(16.9)
Marine eliminations	(58.4)	(49.1)	—	—
Total Marine	743.1	653.7	86.3	58.3
Fitness	189.0	170.7	25.8	25.3
Pension - non-service costs	—	—	(3.7)	(4.6)
Corporate/Other	—	—	(14.7)	(16.3)
Total	\$932.1	\$824.4	\$93.7	\$62.7

The following table sets forth net sales and operating earnings (loss) of each of the Company's operating segments, which are also the Company's reportable segments, for the nine months ended September 27, 2014 and September 28, 2013:

(in millions)	Net Sales		Operating Earnings (Loss)	
	Nine Months Ended		Nine Months Ended	
	September 27, 2014	September 28, 2013	September 27, 2014	September 28, 2013
Marine Engine	\$1,724.4	\$1,664.6	\$277.5	\$266.1
Boat	841.5	792.3	21.3	0.1
Marine eliminations	(200.1)	(182.8)	—	—
Total Marine	2,365.8	2,274.1	298.8	266.2
Fitness	534.3	498.8	74.5	71.5
Pension - non-service costs	—	—	(11.1)	(14.1)
Corporate/Other	—	—	(48.3)	(49.9)
Total	\$2,900.1	\$2,772.9	\$313.9	\$273.7

The following table sets forth total assets of each of the Company's reportable segments:

(in millions)	Total Assets		
	September 27, 2014	December 31, 2013	September 28, 2013
	Marine Engine	\$925.6	\$803.6
Boat	376.1	330.3	338.9
Total Marine	1,301.7	1,133.9	1,148.8

Note 12 – Investments

Investments in Marketable Securities

The Company invests a portion of its cash reserves in marketable debt securities. These investments are reported in Short-term investments in marketable securities on the Condensed Consolidated Balance Sheets. Furthermore, the debt securities have readily determinable market values and are being accounted for as available-for-sale investments. These investments are recorded at fair value with unrealized gains and losses reflected in Accumulated other comprehensive loss, a component of Shareholders' equity on the Company's Condensed Consolidated Balance Sheets, on an after-tax basis.

The following is a summary of the Company's available-for-sale securities, all due in one year or less, as of September 27, 2014:

(in millions)	Amortized cost	Gross unrealized gains	Gross unrealized losses	Fair value (net carrying amount)
U.S. Treasury Bills	\$0.8	\$—	\$—	\$0.8
Total available-for-sale securities	\$0.8	\$—	\$—	\$0.8

The following is a summary of the Company's available-for-sale securities, all due in one year or less, as of December 31, 2013:

(in millions)	Amortized cost	Gross unrealized gains	Gross unrealized losses	Fair value (net carrying amount)
Corporate Bonds	\$11.9	\$—	\$—	\$11.9
U.S. Treasury Bills	0.8	—	—	0.8
Total available-for-sale securities	\$12.7	\$—	\$—	\$12.7

The following is a summary of the Company's available-for-sale securities, all due in one year or less, as of September 28, 2013:

(in millions)	Amortized cost	Gross unrealized gains	Gross unrealized losses	Fair value (net carrying amount)
Corporate Bonds	\$21.5	\$—	\$—	\$21.5
U.S. Treasury Bills	0.8	—	—	0.8
Total available-for-sale securities	\$22.3	\$—	\$—	\$22.3

The Company had \$11.9 million in redemptions of available-for-sale securities during the nine months ended September 27, 2014. The Company had \$107.4 million in redemptions and \$35.7 million in sales during the nine months ended September 28, 2013. During the second quarter of 2013, proceeds from the redemptions and sales of available-for-sale securities were used to repurchase outstanding Senior notes due in 2016. Refer to Note 17 – Debt for more information. The net adjustment to Unrealized investment losses on available-for-sale securities included in Accumulated other comprehensive loss on the Condensed Consolidated Balance Sheets was \$0.0 million for both the three months and nine months ended September 27, 2014 and September 28, 2013, respectively.

At each reporting date, management reviews the debt securities to determine if any loss in the value of a security below its amortized cost should be considered “other-than-temporary.” For the evaluation, management determines whether it intends to sell or if it is more likely than not that it will be required to sell the securities. This determination considers current and forecasted liquidity requirements, regulatory and capital requirements and the strategy for managing the Company’s securities portfolio. For all impaired debt securities for which there was no intent or expected requirement to sell, the evaluation considers all available evidence to assess whether it is likely the amortized cost value will be recovered. The Company also considers the nature of the securities, the credit rating or financial condition of the issuer, the extent and duration of the unrealized loss and market conditions. As of September 27, 2014, there were no unrealized losses related to debt securities that required management evaluation.

Equity Investments

The Company has certain unconsolidated international and domestic affiliates that are accounted for using the equity method. Refer to Note 14 – Financial Services for more details on the Company’s Brunswick Acceptance Company, LLC joint venture. Refer to Note 8 to the consolidated financial statements in the 2013 Form 10-K for further detail relating to the Company's investments.

Note 13 – Comprehensive Income

Accumulated other comprehensive loss in the Condensed Consolidated Balance Sheets includes prior service costs and credits and net actuarial gains and losses for defined benefit plans; foreign currency cumulative translation adjustments; and unrealized derivative gains and losses, all net of tax. Changes in the components of Accumulated other comprehensive loss for the three months and nine months ended September 27, 2014 and September 28, 2013 were as follows:

(in millions)	Three Months Ended		Nine Months Ended	
	September 27, 2014	September 28, 2013	September 27, 2014	September 28, 2013
Net earnings	\$104.4	\$57.8	\$250.0	\$188.0
Other comprehensive income (loss):				
Foreign currency cumulative translation adjustment	(11.7)	7.3	(12.0)	(6.1)
Net change in unamortized prior service credits	(0.4)	(1.7)	(1.0)	(5.2)
Net change in unamortized actuarial losses	2.3	5.5	7.0	17.0
Net change in unrealized derivative losses	3.1	(1.0)	4.2	(2.1)
Total other comprehensive income (loss)	(6.7)	10.1	(1.8)	3.6
Comprehensive income	\$97.7	\$67.9	\$248.2	\$191.6

The following table presents the changes in Accumulated other comprehensive loss by component, all net of tax, for the three months ended September 27, 2014:

(in millions)	Foreign currency translation	Prior service credits	Actuarial losses	Derivative losses	Total
Beginning balance	\$10.7	\$(3.2)	\$(393.9)	\$(10.2)	\$(396.6)
Other comprehensive income (loss) before reclassifications	(12.4)	—	—	2.6	(9.8)
Amounts reclassified from Accumulated other comprehensive loss	0.7	(0.4)	2.3	0.5	3.1

(B) Pre-tax and after-tax amounts are substantially the same as the Company maintained a tax valuation allowance for these items until its reversal at December 31, 2013. See Note 15 – Income Taxes for additional details.

Note 14 – Financial Services

The Company, through its Brunswick Financial Services Corporation (BFS) subsidiary, owns a 49 percent interest in a joint venture, Brunswick Acceptance Company, LLC (BAC). CDF Ventures, LLC (CDFV), a subsidiary of GE Capital Corporation (GECC), owns the remaining 51 percent. BAC commenced operations in 2003 and provides secured wholesale inventory floor-plan financing to Brunswick's boat and engine dealers.

In March 2013, the term of the BAC joint venture was extended through December 31, 2016. The joint venture agreement contains provisions allowing for the renewal of the agreement or the purchase of the other party's interest in the joint venture at the end of its term. Alternatively, either partner may terminate the agreement at the end of its

term. In June 2014, the joint venture agreement was amended for a financial covenant that was conformed to the maximum leverage ratio test contained in the Facility as described in Note 17 – Debt. As of September 27, 2014, the Company was in compliance with the leverage ratio covenant under both the joint venture agreement and the Facility as described in Note 17 – Debt.

BAC is funded in part through a \$1.0 billion secured borrowing facility from GE Commercial Distribution Finance Corporation (GECDF), which is in place through the term of the joint venture, and with equity contributions from both partners. BAC also sells a portion of its receivables to a securitization facility, the GE Dealer Floorplan Master Note Trust, which is arranged by GECC. The sales of these receivables meet the requirements of a “true sale” and are therefore not retained on the financial

BRUNSWICK CORPORATION

Notes to Condensed Consolidated Financial Statements

(unaudited)

statements of BAC. The indebtedness of BAC is not guaranteed by the Company or any of its subsidiaries. In addition, BAC is not responsible for any continuing servicing costs or obligations with respect to the securitized receivables. Through June 28, 2014, BFS and GECDF had an income sharing arrangement related to income generated from the receivables sold by BAC to the securitization facility. The Company recorded this income in Other income, net, in the Condensed Consolidated Statements of Comprehensive Income. Beginning July 1, 2014, BAC began recognizing all income related to securitized receivables at the time of sale to conform with a change in the structure of the securitization facility. The income sharing arrangement will remain in place through December 31, 2014 for assets securitized prior to July 1, 2014.

The Company considers BFS's investment in BAC as an investment in a variable interest entity of which the Company is not the primary beneficiary. To be considered the primary beneficiary, the Company must have the power to direct the activities of BAC that most significantly impact BAC's economic performance and the Company must have the obligation to absorb losses or the right to receive benefits from BAC that could be potentially significant to BAC. Based on a qualitative analysis performed by the Company, BFS did not meet the definition of a primary beneficiary. As a result, BFS's investment in BAC is accounted for by the Company under the equity method and is recorded as a component of Equity investments in its Condensed Consolidated Balance Sheets. The Company records BFS's share of income or loss in BAC based on its ownership percentage in the joint venture in Equity earnings (loss) in its Condensed Consolidated Statements of Comprehensive Income. BFS's equity investment is adjusted monthly to maintain a 49 percent interest in accordance with the capital provisions of the joint venture agreement. The Company funds its investment in BAC through cash contributions and reinvested earnings. BFS's total investment in BAC at September 27, 2014, December 31, 2013 and September 28, 2013 was \$10.9 million, \$11.2 million and \$10.6 million, respectively.

The Company's maximum loss exposure relating to BAC is detailed as follows:

(in millions)	September 27, 2014	December 31, 2013	September 28, 2013
Investment	\$ 10.9	\$ 11.2	\$ 10.6
Repurchase and recourse obligations ^(A)	37.1	37.0	36.9
Liabilities ^(B)	(1.5)	(1.4)	(1.2)
Total maximum loss exposure	\$ 46.5	\$ 46.8	\$ 46.3

Repurchase and recourse obligations are off-balance sheet obligations provided by the Company for the Boat and Marine Engine segments, respectively, and are included within the Maximum Potential Obligations disclosed in Note 9 – Commitments and Contingencies. Repurchase and recourse obligations are mainly related to a North American repurchase agreement with GECDF and could be reduced by repurchase activity occurring under other similar agreements with GECDF and affiliates. The Company's risk under these repurchase arrangements is partially mitigated by the value of the products repurchased as part of the transaction. Amounts above exclude any potential recoveries from the value of the repurchased product. Amounts previously reported of \$51.8 million and \$51.7 million as of December 31, 2013 and September 28, 2013, respectively, reflect repurchase and recourse obligations under the Company's global repurchase agreement that was replaced in 2013 with the North American repurchase agreement described above.

Represents accrued amounts for potential losses related to recourse exposure and the Company's expected losses on obligations to repurchase products, after giving effect to proceeds anticipated to be received from the resale of these products to alternative dealers.

BFS recorded income related to the operations of BAC of \$1.3 million and \$3.5 million for the three months and nine months ended September 27, 2014. During the three months and nine months ended September 28, 2013, BFS recorded income related to the operations of BAC of \$0.8 million and \$3.0 million, respectively. This income includes amounts earned by BFS under the aforementioned income sharing agreement.

BRUNSWICK CORPORATION

Notes to Condensed Consolidated Financial Statements
(unaudited)

Note 15 – Income Taxes

The Company recognized an income tax provision from continuing operations for the three months ended September 27, 2014 of \$27.9 million, which included a net benefit of \$2.1 million primarily associated with the reassessment of tax reserves. The Company recognized an income tax provision from continuing operations for the nine months ended September 27, 2014 of \$98.7 million, which included a net benefit of \$1.6 million primarily associated with the reassessment of tax reserves. The Company recognized an income tax benefit from continuing operations for the three months ended September 28, 2013 of \$2.6 million, which included a net benefit of \$4.3 million mainly associated with the reassessment of tax reserves as well as unfavorable valuation allowance adjustments primarily related to stock-based compensation. The Company recognized an income tax provision from continuing operations for the nine months ended September 28, 2013 of \$29.8 million, which included a net charge of \$8.2 million mainly associated with unfavorable valuation allowance adjustments primarily related to stock-based compensation and the reassessment of tax reserves. The effective tax rate from continuing operations, which is calculated as the income tax benefit or provision as a percentage of pre-tax income, for the three months and nine months ended September 27, 2014, was 31.4 percent and 33.4 percent, respectively. The effective tax rate from continuing operations for the three months and nine months ended September 28, 2013, was (4.8) percent and 14.3 percent, respectively.

Beginning in the third quarter of 2008, the Company maintained a full valuation allowance against certain deferred tax assets for federal and the majority of its state and foreign jurisdictions, having determined it was more likely than not that the deferred tax assets would not be realized. The determination of recording and releasing valuation allowances against deferred tax assets is made, in part, pursuant to the Company's assessment as to whether it is more likely than not that the Company will generate sufficient future taxable income against which benefits of the deferred tax assets may or may not be realized. Significant judgment is required in making estimates regarding the Company's ability to generate income in future periods. The Company continued to maintain valuation allowances through the third quarter of 2013 as there was insufficient positive evidence to overcome the substantial negative evidence of cumulative losses in periods preceding 2013.

In the fourth quarter of 2013, the Company reached the conclusion that it was appropriate to release valuation allowance reserves against a significant portion of its federal deferred tax assets and against certain state deferred tax assets due to the sustained positive operating performance of its U.S. operations and the expectation of future taxable income. Additionally, the Company achieved a cumulative three year income position domestically, reached four consecutive quarters of positive pre-tax operating earnings, and completed its near- and mid-term business plans, all of which were significant positive factors that overcame substantive prior negative evidence. The Company also considered forecasts of future operating results and utilization of net operating losses and tax credits prior to their expiration. Reversal of deferred tax asset valuation allowances also were recorded in the fourth quarter of 2013 for business units located in Norway and Sweden. As a result, the Company recorded a \$599.5 million reversal of its deferred tax asset valuation allowance reserves in the fourth quarter of 2013 after determining it was more likely than not that certain deferred tax assets would be realized. The Company's remaining valuation allowance reserves in the U.S. primarily relate to capital loss carryforwards, non-amortizable intangibles, and various state operating loss carryforwards and state tax credits that are subject to rules which may limit future utilization, as well as for certain foreign jurisdictions, including Brazil, Portugal and Spain.

During the third quarter of 2014, the Company completed the sale of its retail bowling business. This transaction is expected to generate capital gains for tax purposes allowing the Company to utilize all of its capital loss carryforwards. Therefore, during the third quarter of 2014, the Company recorded a \$9.5 million reversal of its

deferred tax asset valuation allowance reserves related to capital loss carryforwards, which has been reflected as a tax benefit reported in Note 2 – Discontinued Operations.

The Company has historically provided deferred taxes for the presumed ultimate repatriation to the U.S. of earnings from most of its non-U.S. subsidiaries and unconsolidated affiliates. As of December 31, 2013, the indefinite reversal criterion had been applied to certain entities and allowed the Company to overcome that presumption to the extent the earnings were to be indefinitely reinvested outside the United States. As of January 1, 2014, the Company determined that the indefinite reinvestment assertion should be applied to certain additional non-U.S. subsidiaries' earnings recorded only for 2014 and future years which will be considered indefinitely reinvested. Accordingly, no deferred income taxes have been provided as of September 27, 2014 on the applicable undistributed earnings of the non-U.S. subsidiaries where the indefinite reinvestment assertion has been applied. If at some future date these earnings cease to be indefinitely reinvested, the Company may be subject to additional U.S. income taxes and foreign withholding and other taxes on such amounts.

As of September 27, 2014, December 31, 2013 and September 28, 2013, the Company had \$5.7 million, \$6.3 million and \$10.6 million of gross unrecognized tax benefits, including interest, respectively. The Company believes it is reasonably possible that the total amount of gross unrecognized tax benefits as of September 27, 2014, could decrease by approximately \$1.1 million in the next 12 months due to settlements with taxing authorities or lapses in the statute of limitations. Due to the various jurisdictions

BRUNSWICK CORPORATION

Notes to Condensed Consolidated Financial Statements

(unaudited)

in which the Company files tax returns and the uncertainty regarding the timing of the settlement of tax audits, it is possible that there could be other significant changes in the amount of unrecognized tax benefits in 2014, but the amount cannot be estimated.

The Company recognizes interest and penalties related to unrecognized tax benefits in income tax expense. As of September 27, 2014, December 31, 2013 and September 28, 2013, the Company had approximately \$0.3 million, \$0.3 million and \$0.7 million accrued for the payments of interest, respectively. There were no amounts accrued for penalties at September 27, 2014, December 31, 2013 and September 28, 2013.

The Company is regularly audited by federal, state and foreign tax authorities. The Internal Revenue Service (IRS) has completed its field examination and has issued its Revenue Agents Report for 2010 and all open issues have been resolved. The IRS is currently examining the Company's taxable years 2011 and 2012. Primarily as a result of filing amended returns, which were generated by the closing of federal income tax audits, the Company is still open to state and local tax audits in major tax jurisdictions dating back to the 2004 taxable year. Following the completion in 2013 of the 2002 through 2007 Germany tax audit, the Company is no longer subject to income tax examinations by any major foreign tax jurisdiction for years prior to 2008.

Note 16 – Pension and Other Postretirement Benefits

The Company has defined contribution plans, qualified and nonqualified defined benefit pension plans, and other postretirement benefit plans covering substantially all of its employees. The Company's contributions to its defined contribution plans are largely discretionary and are based on various percentages of compensation, and in some instances are based on the amount of the employees' contributions to the plans. See Note 16 to the consolidated financial statements in the 2013 Form 10-K for further details regarding these plans.

Pension and other postretirement benefit costs included the following components for the three months ended September 27, 2014 and September 28, 2013:

(in millions)	Pension Benefits		Other Postretirement Benefits	
	Three Months Ended		Three Months Ended	
	September 27, 2014	September 28, 2013	September 27, 2014	September 28, 2013
Service cost	\$—	\$—	\$—	\$—
Interest cost	14.7	13.5	0.4	0.5
Expected return on plan assets	(14.7) (14.2) —) —
Amortization of prior service credits	—	—	(0.2) (1.4
Amortization of net actuarial losses	3.7	5.3	—	0.3
Net pension and other benefit costs	\$3.7	\$ 4.6	\$0.2	\$ (0.6

Pension and other postretirement benefit costs included the following components for the nine months ended September 27, 2014 and September 28, 2013:

(in millions)	Pension Benefits		Other Postretirement Benefits	
	Nine Months Ended		Nine Months Ended	
	September 27, 2014	September 28, 2013	September 27, 2014	September 28, 2013

Edgar Filing: BRUNSWICK CORP - Form 10-Q

Service cost	\$—	\$ 0.1	\$—	\$ —
Interest cost	44.0	40.5	1.4	1.5
Expected return on plan assets	(44.1) (42.7) —	—
Amortization of prior service credits	—	—	(0.6) (4.3
Amortization of net actuarial losses	11.2	16.0	—	0.9
Net pension and other benefit costs	\$11.1	\$ 13.9	\$0.8	\$ (1.9

Portions of Net pension and other benefit costs are recorded in Selling, general and administrative expenses as well as capitalized into inventory. Costs capitalized into inventory are eventually realized through Cost of sales in the Condensed Consolidated Statements of Comprehensive Income.

BRUNSWICK CORPORATION

Notes to Condensed Consolidated Financial Statements

(unaudited)

Effective September 1, 2014 through October 31, 2014, a voluntary lump-sum pension payment opportunity was offered to certain terminated vested U.S. pension plan participants. Settlement payments for those participants electing to receive lump sums will be funded with pension plan assets and will be completed by the end of 2014. The Company expects to incur a settlement loss in conjunction with the payments, however, since the final result of the offering is presently unknown, the Company is unable to provide an estimate of its impact on the financial statements.

Employer Contributions and Benefit Payments. During the nine months ended September 27, 2014 and September 28, 2013, the Company contributed \$2.4 million and \$2.5 million, respectively, to fund benefit payments to its nonqualified pension plan. During the nine months ended September 27, 2014 and September 28, 2013, the Company contributed \$70.2 million and \$23.3 million to its qualified pension plans, respectively. Company contributions are subject to change based on market conditions, pension funding regulations and Company discretion.

Note 17 – Debt

Long-term debt at September 27, 2014, December 31, 2013 and September 28, 2013, consisted of the following:

(in millions)	September 27, 2014	December 31, 2013	September 28, 2013
Notes, 7.125% due 2027, net of discount of \$0.5, \$0.5 and \$0.5	\$162.7	\$162.7	\$163.1
Senior notes, 4.625% due 2021 ^(A)	148.3	150.0	150.0
Debentures, 7.375% due 2023, net of discount of \$0.2, \$0.2 and \$0.3 ^(A)	103.4	103.7	103.9
Loan with Fond du Lac County Economic Development Corporation, 2.0% due 2021, net of discount of \$5.4, \$5.9 and \$6.1	35.7	36.8	40.0
Notes, various up to 5.892% payable through 2022	6.5	6.6	7.5
Total long-term debt	456.6	459.8	464.5
Current maturities of long-term debt	(4.3) (6.4) (4.6
Long-term debt, net of current maturities	\$452.3	\$453.4	\$459.9

(A) Included in Senior notes, 4.625% due 2021 and Debentures, 7.375% due 2023 at September 27, 2014, is the estimated aggregate fair value related to the fixed-to-floating interest rate swaps as discussed in Note 5 – Financial Instruments.

In May 2013, the Company completed an offering of \$150.0 million aggregate principal amount of 4.625 percent Senior notes due 2021 under a private offering to qualified institutional buyers in accordance with Rule 144A, and to persons outside the U.S. pursuant to Regulation S, under the Securities Act of 1933, as amended. Interest on the notes is payable semi-annually on May 15 and November 15 of each year and started on November 15, 2013. The Company has the option to redeem some or all of the notes prior to maturity. The proceeds from this offering and cash on hand after liquidation of the Company's marketable securities were used to repurchase \$249.8 million of the Company's outstanding 11.250 percent Senior Secured Notes due 2016. In connection with this repurchase, the Company recorded a Loss on early extinguishment of debt in the Condensed Consolidated Statements of Comprehensive Income of \$32.3 million during the second quarter 2013.

The Company did not repurchase debt during the three months or nine months ended September 27, 2014. The Company's debt-repurchase activity for the three months and nine months ended September 28, 2013, respectively, was as follows:

Three Months Ended	Nine Months Ended
-----------------------	----------------------

(in millions)	September 28, 2013	September 28, 2013
Senior notes, 11.25%, due 2016	\$—	\$249.8
Debentures, 7.375%, due 2023	4.5	4.5
Notes, 7.125%, due 2027	2.0	3.0
Total debt repurchases	\$6.5	\$257.3
Loss on early extinguishment of debt	\$0.3	\$32.7

In June 2014, the Company amended and restated the five-year \$300.0 million secured, asset-based borrowing facility it entered into during March 2011 and converted it into a five-year \$300 million secured facility (Facility) which is in effect through 2019. As of September 27, 2014, available borrowing capacity totaled \$293.8 million, net of \$6.2 million of letters of credit

BRUNSWICK CORPORATION

Notes to Condensed Consolidated Financial Statements

(unaudited)

outstanding under the Facility. The Company has the ability to issue up to \$100.0 million in letters of credit under the Facility. The Company had no borrowings under the Facility during the nine months ended September 27, 2014. The Company initially paid a facility fee of 25.0 basis points per annum, however in August 2014, the fee was adjusted to 20.0 basis points per annum based on the Company's leverage ratio. Once the Company achieves the Investment Grade Release Conditions, the facility fee per annum will be within a range of 12.5 to 35.0 basis points based on the Company's credit rating. The Investment Grade Release Conditions are defined as the date upon which the Company receives an investment grade credit rating by either Standard & Poor's or Moody's and meets the leverage ratio requirements of less than or equal to 2.25:1.00 for the prior two fiscal quarters. Under the terms of the Facility, the Company has two borrowing options, including borrowing at a rate tied to adjusted LIBOR plus a spread of 150.0 basis points or a base rate plus a margin of 50.0 basis points. After the first six months, the rates will be determined by a leverage ratio, with a range of 130.0 to 190.0 basis points for LIBOR rate borrowings and a range of 30.0 to 90.0 basis points for base rate borrowings, until the occurrence of the Investment Grade Release Conditions, on and after which the rate will be determined by the Company's credit ratings, with a range of 100.0 to 190.0 basis points for LIBOR rate borrowings and a range of 0.0 to 90.0 basis points for base rate borrowings.

The Company is required to maintain compliance with two financial covenants included in the Facility - a minimum interest coverage ratio and a maximum leverage ratio. The minimum interest coverage ratio, as defined in the agreement, is not permitted to be less than 3.50 to 1.00. The maximum leverage ratio, as defined in the agreement, is not permitted to be more than 3.00 to 1.00, unless the Company completes an acquisition of more than \$100.0 million, which increases the maximum leverage ratio to 3.25 to 1.00 for the twelve months following the acquisition. As of September 27, 2014, the Company was in compliance with these two financial covenants in the Facility.

Note 18 – Subsequent Events

On October 22, 2014, the Company's Board of Directors declared a quarterly dividend on its common stock of \$0.125 per share. The dividend will be payable December 15, 2014 to shareholders of record on November 25, 2014.

On October 22, 2014, the Company's Board of Directors authorized a program to repurchase up to \$200 million of the Company's outstanding common stock. Share repurchases will be completed in the open market or through privately negotiated transactions over approximately a two-year period. The Company's share repurchase program does not obligate it to acquire any specific number of shares, and the Company may discontinue purchases at any time that management determines additional purchases are not warranted.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Certain statements in Management's Discussion and Analysis are based on non-GAAP financial measures. Specifically, the discussion of the Company's cash flows includes an analysis of free cash flows, net debt and total liquidity, and the discussion of the Company's earnings includes a discussion of diluted earnings per common share, as adjusted. GAAP refers to generally accepted accounting principles in the United States. A "non-GAAP financial measure" is a numerical measure of a registrant's historical or future financial performance, financial position or cash flows that excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the most directly comparable measure calculated and presented in accordance with GAAP in the statements of comprehensive income, balance sheets or statements of cash flows of the issuer; or includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable measure so calculated and presented. Non-GAAP financial measures do not include operating and statistical measures.

The Company includes financial measures (including those that are non-GAAP financial measures) in Management's Discussion and Analysis, as Brunswick's management believes that these measures and the information they provide are useful to investors because they permit investors to view Brunswick's performance using the same tools that management uses and to better evaluate the Company's ongoing business performance.

Certain statements in Management's Discussion and Analysis are forward-looking as defined in the Private Securities Litigation Reform Act of 1995. These statements are based on current expectations that are subject to risks and uncertainties. Actual results may differ materially from expectations as of the date of this filing because of factors discussed in Part I, Item 1A – Risk Factors in the 2013 Form 10-K.

Overview and Outlook

Discontinued Operations

On July 17, 2014, the Company entered into an agreement to sell its retail bowling business to AMF Bowling Centers, Inc. In connection with its decision to sell its bowling centers, the Company announced in July 2014 its intention to divest its bowling products business. On September 18, 2014, the Company completed the sale of its retail bowling business to AMF Bowling Centers, Inc. as well as, in separate transactions, completed the sale of two retail bowling centers in California. On December 31, 2012, the Board of Directors authorized the Company to exit its Hatteras and Cabo boat businesses, with the sale of these businesses completed in August 2013. In this Quarterly Report on Form 10-Q, the businesses referred to above are being reported as discontinued operations. The Billiards business, which was previously reported in the former Bowling & Billiards segment, remains part of the Company and is being reported in the Fitness segment for all periods presented. The Company's results for all periods presented, as discussed in Management's Discussion and Analysis, reflect continuing operations only, unless otherwise noted.

General

Net sales during the third quarter of 2014 increased 13 percent to \$932.1 million from \$824.4 million when compared to the third quarter of 2013, driven by strong increases across all of the Company's segments. Marine Engine segment sales increased due to an increase in outboard engine sales and higher sales in the marine service, parts and accessories businesses, partially offset by declines in sterndrive engine sales. Boat segment sales increases reflected balanced growth between outboard and fiberglass sterndrive and inboard boats. Boat segment sales also benefited from several new product introductions which contributed to a favorable shift in mix across most of its boat lines, resulting in higher average selling prices along with growth in wholesale unit shipments. Fitness segment net sales reflected growth in the U.S. to health clubs, hospitality and local and federal government customers as well as net sales growth in international markets. International sales for the Company increased 10 percent in the third quarter of 2014 when

compared with the third quarter of 2013, driven primarily by new product introductions and sales increases in European markets, partially offset by sales declines in Latin American markets.

Net sales during the first nine months of 2014 increased 5 percent to \$2,900.1 million from \$2,772.9 million during the first nine months of 2013, due to the same factors described above for the quarterly periods in each of the Company's segments, except that Boat segment global wholesale unit shipments were flat. Additionally, Marine Engine and Boat segment net sales were adversely affected by comparatively harsher weather conditions in many North American markets during the first quarter of 2014 and diesel sterndrive engine sales increased slightly during the first nine months of 2014. International sales for the Company increased 3 percent in the first nine months of 2014 when compared with the same prior year period. This increase was driven primarily by sales increases in European markets, partially offset by sales declines in Latin American and Canadian markets.

Operating earnings in the third quarter of 2014 were \$93.7 million, with an operating margin of 10.1 percent. These results included \$0.9 million of net restructuring, exit and impairment charges recorded during the third quarter of 2014. In the third quarter of 2013, the Company reported operating earnings of \$62.7 million, with an operating margin of 7.6 percent, which included restructuring, exit and impairment charges of \$2.6 million. Operating earnings in the first nine months of 2014 were \$313.9 million, with an operating margin of 10.8 percent. These results included \$4.0 million of net restructuring, exit and impairment charges recorded during the first nine months of 2014. In the first nine months of 2013, the Company reported operating earnings of \$273.7 million, with an operating margin of 9.9 percent, which included restructuring, exit and impairment charges of \$10.7 million. The improvement in operating earnings during the quarter and year-to-date periods of 2014, when compared with the same periods in 2013, reflected increased net sales, lower restructuring charges, higher gross margins, which included favorable warranty expense comparisons, and the net benefits from increased production rates. These factors were partially offset by the absence of a \$5.5 million gain on the sale of real estate in the Marine Engine segment in the first quarter of 2013, higher spending on company-wide investments in strategic initiatives, and the absence of favorable insurance settlements received in the Fitness and Marine Engine segments in the first half of 2013.

During the three months and nine months ended September 27, 2014, the Company lowered interest expense by \$1.3 million and \$11.4 million, respectively, when compared with the three months and nine months ended September 28, 2013, due to a lower average interest rate resulting from debt refinancing completed during 2013 and interest rate swap benefits. Lower average outstanding debt levels was the primary driver for the decrease in interest expense during the first nine months of 2014 when compared with the same period in 2013.

The Company's effective tax rate from continuing operations, which is calculated as the income tax benefit or provision as a percentage of pre-tax income, for the three months and nine months ended September 27, 2014, was 31.4 percent and 33.4 percent, respectively. The effective tax rate from continuing operations for the three months and nine months ended September 28, 2013, was (4.8) percent and 14.3 percent, respectively. The increase in the Company's 2014 effective tax rate is primarily due to no longer being in a full valuation allowance reserve position against a significant portion of its federal deferred tax assets and against certain state deferred tax assets due to the sustained positive operating performance of its U.S. operations and the expectation of future taxable income. See Note 15 – Income Taxes in the Notes to Condensed Consolidated Financial Statements for further discussion.

In the first nine months of 2014, the U.S. marine market unfolded generally consistent with the Company's annual unit growth expectations and continued to benefit from solid growth in outboard boat and engine products, as well as in the marine service, parts and accessories businesses. In the fiberglass sterndrive and inboard boat categories, which also affect sterndrive and inboard engine production, modest year-to-date unit growth in boats greater than 30 feet was more than offset by declines in boats under 30 feet. Certain international marine markets, however, experienced declines in retail sales, specifically in Canada and South America while the majority of the European marine marketplace remains very challenging. Consequently, year-to-date global marine retail demand growth has been below the Company's annual expectations. The Company's Fitness segment continued to benefit from favorable health and fitness trends in the U.S. market. Outside the U.S., Fitness segment demand trends have been mixed, with slight overall growth during 2014.

During the fourth quarter, the Company expects to continue to benefit from new products, including increases in production rates. Growth will also be achieved through continuing solid outboard, parts and accessories and fitness market conditions and capacity expansion, partially offset by weaker demand in certain international markets, as well as continued declines in global fiberglass sterndrive products. The Company will also continue executing its large fiberglass boat strategy, which will result in an increasing number of new products being shipped into the market. As a result, the Boat segment should continue to see the benefit from a more favorable sales mix, leading to higher average selling prices. As a result, the Company anticipates a full-year growth rate of 6 percent when compared with 2013, with growth expected in all of the Company's segments.

The Company expects to have higher earnings before income taxes in 2014 resulting from increased revenue and solid improvements in gross margins levels when compared with 2013. Operating expenses, including research and development expenditures, are projected to be higher in 2014 when compared with 2013, but lower on a percentage of sales basis, as the Company increases investment spending to support long-term growth initiatives. The Company expects net earnings in 2014 to benefit from restructuring activities completed in 2012 and 2013 as well as from lower restructuring, exit and impairment charges, net interest and pension expenses.

The Company is also planning for its effective tax rate in 2014 to approximate 34 percent. As a result of the significant year-over-year increase in the effective tax rate, the Company expects earnings per common share to be lower in 2014 when compared with 2013.

Restructuring Activities

The restructuring, exit and impairment charges recorded in the Condensed Consolidated Statements of Comprehensive Income during 2014 and 2013 by reportable segment, are summarized below:

(in millions)	Three Months Ended		Nine Months Ended	
	September 27, 2014	September 28, 2013	September 27, 2014	September 28, 2013
Boat	\$0.9	\$2.6	\$1.3	\$10.0
Corporate	—	—	2.7	0.7
Total	\$0.9	\$2.6	\$4.0	\$10.7

In the second quarter of 2014, certain executive positions were restructured within the Company. The Company does not anticipate incurring any additional restructuring charges in 2014 related to this action and will achieve annual savings between \$1 million and \$2 million, with the full benefit being realized in 2015. Future cost savings will primarily be reflected in Selling, general and administrative expenses as reported in the Company's Condensed Consolidated Statements of Comprehensive Income.

In the fourth quarter of 2013, the Company made the decision to outsource woodworking operations for its fiberglass sterndrive boats, which resulted in long-lived asset impairment charges. The Company anticipates its Boat segment may incur up to \$1 million of additional restructuring charges in 2014 related to this action and will achieve annual savings between \$1 million and \$2 million, with the full benefit being realized in 2015. Future cost savings will primarily be reflected in Cost of sales as reported in the Company's Condensed Consolidated Statements of Comprehensive Income.

The Company announced in the first quarter of 2013 the consolidation of its yacht and motoryacht production at its Palm Coast, Florida manufacturing plant. As a result, the Company suspended manufacturing at its Sykes Creek boat manufacturing facility in Merritt Island, Florida as of the end of June 2013. The Company anticipates its Boat segment will achieve annual savings between \$3 million and \$5 million, with the full benefit being realized in 2014. Future cost savings will primarily be reflected in Cost of sales as reported in the Company's Condensed Consolidated Statements of Comprehensive Income.

In the third quarter of 2012, the Company reached a decision to exit Bayliner cruisers in the U.S. and European markets and to further reduce the Company's manufacturing footprint by closing its Knoxville, Tennessee production facility and consolidate its fiberglass cruiser manufacturing into other boat production facilities. Those actions were initiated in connection with the continued weakness in the fiberglass sterndrive boat market. The Company anticipates its Boat segment will achieve annual savings between \$10 million and \$12 million, with full benefits from this action being realized in 2014. Future cost savings will primarily be reflected in Cost of sales as reported in the Company's Condensed Consolidated Statements of Comprehensive Income. The Company has experienced a reduction in Net sales due to associated reductions in models and lower production volumes during the transition.

See Note 3 – Restructuring Activities in the Notes to Condensed Consolidated Financial Statements for further details. As discussed above, the Company anticipates it may incur up to \$1 million of additional restructuring charges in 2014 primarily related to known restructuring activities initiated during 2013 in the Boat segment.

Matters Affecting Comparability

The following events have occurred during the three months and nine months ended September 27, 2014 and September 28, 2013, which the Company believes affect the comparability of the results of operations:

Restructuring, exit and impairment charges. The Company is executing restructuring initiatives designed to improve its cost structure, better utilize overall capacity and improve general operating efficiencies. During the third quarter of 2014, the Company recorded net charges of \$0.9 million related to restructuring activities as compared with \$2.6 million in the third quarter of 2013. Restructuring charges during the first nine months of 2014 were \$4.0 million, as compared with \$10.7 million in the first nine months of 2013. See Note 3 – Restructuring Activities in the Notes to Condensed Consolidated Financial Statements for further details.

Gain on sale of real estate. In the first quarter of 2013, the Company's Marine Engine segment recognized a \$5.5 million gain on the sale of real estate in Selling, general and administrative expense on the Condensed Consolidated Statements of Comprehensive Income. There was no comparable gain in the Marine Engine segment in the first nine months of 2014.

Interest expense and loss on early extinguishment of debt. The Company recorded interest expense of \$6.9 million and \$8.2 million during the three months ended September 27, 2014 and September 28, 2013, respectively. The Company recorded interest expense of \$22.7 million and \$34.1 million during the nine months ended September 27, 2014 and September 28, 2013, respectively. Interest expense decreases in 2014 compared with the same periods in 2013 included the impact of a lower average interest rate during the comparable periods. Additionally, interest expense decreased during the first nine months of 2014 when compared with the same period in 2013 mostly as a result of lower average outstanding debt levels. These improvements were the result of debt reduction actions completed during 2013.

Additionally, the Company repurchased \$6.5 million and \$257.3 million of debt during the three months and nine months ended September 28, 2013, respectively. The Company recorded losses on early extinguishment of debt in the three months and nine months ended September 28, 2013 of \$0.3 million and \$32.7 million, respectively. There were no debt repurchases or losses on early extinguishment of debt during the first nine months of 2014. See Note 17 – Debt in the Notes to Condensed Consolidated Financial Statements for further details.

Tax items. The Company recognized an income tax provision from continuing operations for the three months ended September 27, 2014 of \$27.9 million, which included a net benefit of \$2.1 million primarily associated with the reassessment of tax reserves. The Company recognized an income tax provision from continuing operations for the nine months ended September 27, 2014 of \$98.7 million, which included a net benefit of \$1.6 million primarily associated with the reassessment of tax reserves. The Company recognized an income tax benefit from continuing operations for the three months ended September 28, 2013 of \$2.6 million, which included a net benefit of \$4.3 million mainly associated with the reassessment of tax reserves as well as unfavorable valuation allowance adjustments primarily related to stock-based compensation. The Company recognized an income tax provision from continuing operations for the nine months ended September 28, 2013 of \$29.8 million, which included a net charge of \$8.2 million mainly associated with unfavorable valuation allowance adjustments primarily related to stock-based compensation and the reassessment of tax reserves. The effective tax rate from continuing operations, which is calculated as the income tax benefit or provision as a percentage of pre-tax income, for the three months and nine months ended September 27, 2014, was 31.4 percent and 33.4 percent, respectively. The effective tax rate from continuing operations for the three months and nine months ended September 28, 2013, was (4.8) percent and 14.3 percent, respectively. The increase in the Company's 2014 effective tax rate is primarily due to no longer being in a full valuation allowance reserve position against a significant portion of its federal deferred tax assets and against certain state deferred tax assets due to the sustained positive operating performance of its U.S. operations and the expectation of future taxable income. See Note 15 – Income Taxes in the Notes to Condensed Consolidated Financial Statements for further details.

Results of Operations

Consolidated

The following table sets forth certain amounts, ratios and relationships calculated from the Condensed Consolidated Statements of Comprehensive Income for the three months ended:

(in millions, except per share data)	Three Months Ended		2014 vs. 2013 Increase/(Decrease)		
	September 27, 2014	September 28, 2013	\$	%	
Net sales	\$932.1	\$824.4	\$107.7	13.1	%
Gross margin ^(A)	259.2	227.6	31.6	13.9	%
Restructuring, exit and impairment charges	0.9	2.6	(1.7)	(65.4))%
Operating earnings	93.7	62.7	31.0	49.4	%
Net earnings from continuing operations	61.0	57.2	3.8	6.6	%
Diluted earnings per common share from continuing operations	\$0.64	\$0.61	\$0.03	4.9	%
Expressed as a percentage of Net sales:					
Gross margin	27.8	% 27.6	%		20 bpts
Selling, general and administrative expense	14.5	% 16.4	%		(190) bpts
Research and development expense	3.2	% 3.3	%		(10) bpts
Restructuring, exit and impairment charges	0.1	% 0.3	%		(20) bpts
Operating margin	10.1	% 7.6	%		250 bpts

bpts = basis points

(A) Gross margin is defined as Net sales less Cost of sales as presented in the Condensed Consolidated Statements of Comprehensive Income.

The Company's net sales increased in the third quarter of 2014 when compared to the same prior year period due to sales increases across all segments. Marine Engine segment sales increased due to an increase in outboard engine sales and higher sales in the marine service, parts and accessories businesses, partially offset by declines in sterndrive engine sales. Boat segment sales increases were balanced between outboard and fiberglass sterndrive and inboard boats. Boat segment sales also benefited from several new product introductions which contributed to a favorable shift in mix across most of its boat lines, resulting in higher average selling prices along with growth in wholesale unit shipments. Fitness segment net sales reflected growth in the U.S. to health clubs, hospitality and local and federal government customers as well as net sales growth in international markets. International sales for the Company increased 10 percent in the third quarter of 2014 when compared with the third quarter of 2013, driven primarily by new product introductions and sales increases in European markets, partially offset by sales declines in Latin American markets.

The gross margin percentage increased in the third quarter of 2014 when compared with the same prior year period, with the increase coming from the Marine Engine and Boat segments, partially offset with a decrease in the Fitness segment. The increase reflects net benefits from increased production rates and favorable warranty experience, partially offset by costs associated with new boat model integrations.

Selling, general and administrative expense decreased as a percentage of net sales during the third quarter of 2014, when compared with the third quarter of 2013 due to higher net sales, continued emphasis on expense control and lower corporate expenses due to lower variable compensation expense as well as favorable mark-to-market adjustments on certain equity-based awards, partially offset by the Company continuing to invest in strategic initiatives.

Research and development expense as a percent of net sales remained relatively flat in the third quarter of 2014 when compared with the third quarter of 2013 as the Company continued to incur investment spending to support growth initiatives during both periods.

During the third quarter of 2014, the Company recorded net restructuring charges of \$0.9 million compared with \$2.6 million in the third quarter of 2013. See Note 3 – Restructuring Activities in the Notes to Condensed Consolidated Financial Statements for further details.

Interest expense decreased \$1.3 million in the third quarter of 2014 compared with the same period in 2013 as a result of a lower average interest rate during the comparable period.

The Company recognized an income tax provision from continuing operations for the three months ended September 27, 2014 of \$27.9 million, which included a net benefit of \$2.1 million primarily associated with the reassessment of tax reserves. The Company recognized an income tax benefit from continuing operations for the three months ended September 28, 2013 of \$2.6 million, which included a net benefit of \$4.3 million mainly associated with the reassessment of tax reserves as well as unfavorable valuation allowance adjustments primarily related to stock-based compensation. The effective tax rate from continuing operations for the third quarters of 2014 and 2013, was 31.4 percent and (4.8) percent, respectively. The increase in the Company's 2014 effective tax rate is primarily due to no longer being in a full valuation allowance reserve position against a significant portion of its federal deferred tax assets and against certain state deferred tax assets due to the sustained positive operating performance of its U.S. operations and the availability of expected future taxable income. See Note 15 – Income Taxes in the Notes to Condensed Consolidated Financial Statements for further discussion.

Operating earnings, Net earnings from continuing operations and Diluted earnings per common share from continuing operations increased during the third quarter of 2014 when compared with the third quarter of 2013 due to the factors discussed in the preceding paragraphs. In addition, Diluted earnings per common share from continuing operations was affected by an increase in weighted average shares outstanding resulting from the impact of options exercised since the beginning of 2013.

Diluted earnings per common share from continuing operations, as adjusted – defined as Diluted earnings per common share from continuing operations, excluding the earnings or loss per share impact for Restructuring, exit and impairment charges from continuing operations, Loss on early extinguishment of debt and special tax items – increased by \$0.05 per share, or 9 percent, to \$0.63 per share for the third quarter of 2014 when compared with \$0.58 per share for the same period in 2013. The increase in diluted earnings per common share from continuing operations, as adjusted, is due to the factors discussed in the preceding paragraphs. In 2014, Restructuring, exit and impairment charges from continuing operations were \$0.01 per share and special tax items were a net benefit of \$0.02 per share. In 2013, Restructuring, exit and impairment charges from continuing operations was \$0.02 per share and special tax items were a net benefit of \$0.05 per share.

The Company completed the sale of its retail bowling business in the third quarter of 2014 and recorded an after-tax gain of \$52.6 million. The Company completed the sale of its Hatteras and Cabo boat brands during the third quarter of 2013 and recorded an after-tax gain of \$1.6 million. In the third quarter of 2014, sales from discontinued operations were \$68.8 million, pre-tax operating losses from discontinued operations were \$14.4 million and the income tax benefit from discontinued operations was \$5.2 million. In the third quarter of 2013, sales from discontinued operations were \$70.1 million, pre-tax operating losses from discontinued operations were \$1.4 million and the income tax benefit from discontinued operations was \$0.4 million.

The following table sets forth certain amounts, ratios and relationships calculated from the Condensed Consolidated Statements of Comprehensive Income for the nine months ended:

(in millions, except per share data)	Nine Months Ended		2014 vs. 2013 Increase/(Decrease)		
	September 27, 2014	September 28, 2013	\$	%	
Net sales	\$2,900.1	\$2,772.9	\$127.2	4.6	%
Gross margin ^(A)	806.8	754.5	52.3	6.9	%
Restructuring, exit and impairment charges	4.0	10.7	(6.7) (62.6)%
Operating earnings	313.9	273.7	40.2	14.7	%
Net earnings from continuing operations	197.2	178.1	19.1	10.7	%
Diluted earnings per common share from continuing operations	\$2.11	\$1.96	\$0.15	7.7	%
Expressed as a percentage of Net sales:					
Gross margin	27.8	% 27.2	%		60 bpts
Selling, general and administrative expense	13.9	% 14.0	%		(10) bpts
Research and development expense	3.0	% 2.9	%		10 bpts
Restructuring, exit and impairment charges	0.1	% 0.4	%		(30) bpts
Operating margin	10.8	% 9.9	%		90 bpts

bpts = basis points

(A) Gross margin is defined as Net sales less Cost of sales as presented in the Condensed Consolidated Statements of Comprehensive Income.

The Company's net sales increased in the first nine months of 2014 when compared to the same prior year period due to increases across all segments due to the same factors as described above for the quarterly period, except that Boat segment global wholesale unit shipments were flat. Additionally, Marine Engine and Boat segment net sales were adversely affected by comparatively harsher weather conditions in many North American markets during the first quarter of 2014 and diesel sterndrive engine sales increased slightly during the first nine months of 2014. International sales for the Company increased 3 percent in the first nine months of 2014 when compared with the same prior year period. This was driven primarily by sales increases in European markets, partially offset by sales declines in Latin American and Canadian markets.

The gross margin percentage increased in the first nine months of 2014 when compared with the same prior year period, with increases across all segments as a result of the same factors described in the quarterly period above.

Selling, general and administrative expense as a percentage of net sales remained relatively flat during the first nine months of 2014, when compared with the same prior year period, mainly due to increased spending on growth initiatives, along with the absence of a \$5.5 million gain on the sale of real estate in the Marine Engine segment in the first quarter of 2013 and the absence of favorable insurance settlements received in the Marine Engine segment in the second quarter of 2013.

Research and development expense as a percentage of net sales remained relatively flat in the first nine months of 2014 when compared with the same prior year period as the Company continued to incur investment spending to support growth initiatives during both periods.

During the first nine months of 2014, the Company recorded net restructuring charges of \$4.0 million compared with \$10.7 million during the same prior year period. See Note 3 – Restructuring Activities in the Notes to Condensed Consolidated Financial Statements for further details.

The Company recognized equity earnings of \$0.5 million during the first nine months of 2014 and equity losses of \$1.4 million during the first nine months of 2013 which were related to the Company's marine joint ventures. The Company recognized Other income, net of \$3.5 million and \$1.4 million during the first nine months of 2014 and 2013, respectively, primarily related to an income sharing agreement with Brunswick Acceptance Company, LLC (BAC) related to income generated from the sale of

receivables by BAC to the securitization facility as discussed in Note 14 – Financial Services in the Notes to Condensed Consolidated Financial Statements.

Interest expense decreased \$11.4 million in the first nine months of 2014 compared with the same period in 2013 as a result of lower average outstanding debt levels at a lower average interest rate versus the comparable period.

The Company recognized an income tax provision from continuing operations for the nine months ended September 27, 2014 of \$98.7 million, which included a net benefit of \$1.6 million primarily associated with the reassessment of tax reserves. The Company recognized an income tax provision from continuing operations for the nine months ended September 28, 2013 of \$29.8 million, which included a net charge of \$8.2 million mainly associated with unfavorable valuation allowance adjustments primarily related to stock-based compensation and the reassessment of tax reserves. The effective tax rate from continuing operations for the first nine months of 2014 and 2013, was 33.4 percent and 14.3 percent, respectively. The increase in the Company's 2014 effective tax rate is due to the same factors as described in the quarterly period above. See Note 15 – Income Taxes in the Notes to Condensed Consolidated Financial Statements for further discussion.

Operating earnings, Net earnings from continuing operations and Diluted earnings per common share from continuing operations increased during the first nine months of 2014 when compared with the same prior year period due to the factors discussed in the preceding paragraphs. In addition, Diluted earnings per common share from continuing operations was negatively affected by an increase in weighted average shares outstanding resulting from options exercised since the beginning of 2013.

Diluted earnings per common share from continuing operations, as adjusted decreased by \$0.32 per share, or 13 percent, to \$2.09 per share for the first nine months of 2014 when compared with \$2.41 per share for the same period in 2013, reflecting a higher year-over-year effective tax rate in 2014 when compared to 2013 as discussed in the quarterly period above. In 2014, Restructuring, exit and impairment charges from continuing operations were \$0.03 per share and special tax items were a net benefit of \$0.01 per share. In 2013, Restructuring, exit and impairment charges from continuing operations were \$0.11 per share, Loss on early extinguishment of debt was \$0.31 per share and special tax items were a net provision of \$0.09 per share.

As described in the quarterly period above, the Company sold its retail bowling business in the third quarter of 2014 for an after-tax gain of \$52.6 million. In the third quarter of 2013 the Company completed the sale of its Hatteras and Cabo boat brands for an after-tax gain of \$1.6 million. In the first nine months of 2014, sales from discontinued operations were \$209.8 million, pre-tax operating earnings from discontinued operations were \$0.3 million and the income tax provision from discontinued operations was \$0.1 million. In the first nine months of 2013, sales from discontinued operations were \$236.2 million, pre-tax operating earnings from discontinued operations was \$7.3 million and the income tax benefit from discontinued operations was \$1.0 million.

Marine Engine Segment

The following table sets forth Marine Engine segment results for the three months ended:

(in millions)	Three Months Ended		2014 vs. 2013 Increase/(Decrease)		
	September 27, 2014	September 28, 2013	\$	%	
Net sales	\$566.9	\$511.1	\$55.8	10.9	%
Operating earnings	93.3	75.2	18.1	24.1	%
Operating margin	16.5	% 14.7	%	180	bpts
Capital expenditures	\$10.1	\$19.3	\$(9.2)	(47.7))%

bpts = basis points

Net sales for the Marine Engine segment increased in the third quarter of 2014 when compared with the third quarter of 2013. The increase was mainly due to an increase in outboard engine sales, driven by favorable retail demand trends and new product introductions, and higher sales in the marine service, parts and accessories businesses, which benefited from recent acquisitions, new product launches and market share gains. The acquisitions of Whale and Bell, as discussed in Note 4 – Acquisitions in the Notes to Condensed Consolidated Financial Statements, accounted for approximately 3 percentage points of the Marine Engine segment's overall revenue growth rate in the third quarter of 2014. Partially offsetting these factors was a decline in sterndrive engine sales, reflecting continuing unfavorable global retail demand trends. International sales increased in the third quarter of

52

2014 when compared to the prior year period and remained at 34 percent of the segment's sales. Sales increases in European and Canadian markets were partially offset by sales decreases in Latin American markets.

Marine Engine segment operating earnings increased in the third quarter of 2014 as a result of an increase in net sales, recently launched outboard products and favorable warranty experience, partially offset by increased investments in growth initiatives.

Capital expenditures in the third quarters of 2014 and 2013 were related to tooling costs for the production of new models, plant capacity expansion activities in Fond du Lac, Wisconsin, and profit-maintaining investments.

The following table sets forth Marine Engine segment results for the nine months ended:

(in millions)	Nine Months Ended		2014 vs. 2013 Increase/(Decrease)		
	September 27, 2014	September 28, 2013	\$	%	
Net sales	\$1,724.4	\$1,664.6	\$59.8	3.6	%
Operating earnings	277.5	266.1	11.4	4.3	%
Operating margin	16.1	% 16.0	%	10 bpts	
Capital expenditures	\$35.1	\$44.9	\$(9.8)	(21.8))%

bpts = basis points

Net sales for the Marine Engine segment increased in the first nine months of 2014 when compared with the same prior year period due to the same factors described in the quarterly period above, except diesel sterndrive engine sales increased slightly during the first nine months of 2014 and overall sales in the first quarter of 2014 were adversely affected by comparatively harsher weather conditions in many North American markets. International sales in the first nine months of 2014 increased when compared with the same prior year period, primarily due to increased sales in European and Canadian markets, partially offset by declines in Latin American markets. International sales were 34 percent of the segment's sales.

Marine Engine segment operating earnings increased in the first nine months of 2014 due to the same factors described in the quarterly period above, partially offset by the absence of a \$5.5 million gain on the sale of real estate from the first quarter of 2013 and the absence of favorable insurance settlements received in the second quarter of 2013.

The descriptions of the Marine Engine segment's capital expenditures for the year-to-date period were consistent with the descriptions in the quarterly period above.

Boat Segment

The following table sets forth Boat segment results for the three months ended:

(in millions)	Three Months Ended		2014 vs. 2013 Increase/(Decrease)		
	September 27, 2014	September 28, 2013	\$	%	
Net sales	\$234.6	\$191.7	\$42.9	22.4	%
Restructuring, exit and impairment charges	0.9	2.6	(1.7)	(65.4))%
Operating loss	(7.0)	(16.9)	(9.9)	(58.6))%
Operating margin	(3.0)	(8.8)		580 bpts	

Capital expenditures	\$14.2	\$7.9	\$6.3	79.7	%
----------------------	--------	-------	-------	------	---

bpts = basis points

Boat segment net sales increased in the third quarter of 2014 versus the third quarter of 2013, reflecting balanced growth between outboard and fiberglass sterndrive and inboard boats. Segment sales also benefited from several new product introductions and a favorable shift in mix across most of its boat lines, including the introduction of new larger, higher priced products, which resulted in higher average selling prices along with growth in wholesale unit shipments. International sales were 29 percent of the

segment's sales during the third quarter of 2014 and increased when compared to the same prior year period due to increased sales to European and Asia Pacific markets, partially offset by sales declines in Canadian and Latin American markets.

The net restructuring, exit and impairment charges recognized during the third quarter of 2014 were mainly related to actions associated with the Company's decision to outsource woodworking operations for its fiberglass sterndrive boats and the consolidation of the Company's yacht and motoryacht manufacturing footprint, partially offset by a gain on disposal of the Company's Riverview plant in Knoxville, Tennessee. The restructuring, exit and impairment charges recognized during the third quarter of 2013 were mainly related to actions associated with consolidation of the Company's yacht and motoryacht manufacturing footprint, as well as activities resulting from the consolidation of the Company's fiberglass cruiser manufacturing. See Note 3 – Restructuring Activities in the Notes to Condensed Consolidated Financial Statements for further details.

The Boat segment reported a lower operating loss in the third quarter of 2014 compared with the third quarter of 2013 mainly due to the factors impacting sales as discussed above as well as increased production rates and capacity and lower restructuring charges, partially offset by costs associated with new product integrations and production ramp-up and increased investment spending related to the introduction of new boat models.

Capital expenditures in the third quarters of 2014 and 2013 were related to tooling costs for the production of new models, plant capacity expansion activities, growth initiatives and profit-maintaining investments.

The following table sets forth Boat segment results for the nine months ended:

(in millions)	Nine Months Ended		2014 vs. 2013 Increase/(Decrease)		
	September 27, 2014	September 28, 2013	\$	%	
Net sales	\$841.5	\$792.3	\$49.2	6.2	%
Restructuring, exit and impairment charges	1.3	10.0	(8.7) (87.0)%
Operating earnings	21.3	0.1	21.2	NM	
Operating margin	2.5	% 0.0	%	250 bpts	
Capital expenditures	\$32.4	\$27.9	\$4.5	16.1	%

bpts = basis points

NM = not meaningful

Net sales for the Boat segment increased in the first nine months of 2014 when compared with the same prior year period due to the same factors described in the quarterly period above, except that global wholesale unit shipments were flat. In addition, comparatively harsher weather conditions in many North American markets also adversely affected wholesale unit shipments in the first quarter of 2014 when compared to the same period in 2013.

The Boat segment operating earnings increased in the first nine months of 2014 due to an increase in net sales as mentioned above, as well as the factors described in the quarterly period above.

The factors affecting Boat segment restructuring, exit and impairment charges and capital expenditures were consistent with the factors described in the quarterly period above.

Fitness Segment

The following table sets forth Fitness segment results for the three months ended:

(in millions)	Three Months Ended		2014 vs. 2013 Increase/(Decrease)		
	September 27, 2014	September 28, 2013	\$	%	
Net sales	\$189.0	\$170.7	\$18.3	10.7	%
Operating earnings	25.8	25.3	0.5	2.0	%
Operating margin	13.7	% 14.8			(110) bpts
Capital expenditures	\$4.9	\$2.1	\$2.8		NM

bpts = basis points

NM = not meaningful

Fitness segment net sales increased in the third quarter of 2014 when compared with the third quarter of 2013, reflecting growth in the U.S. to health clubs, hospitality and local and federal government customers, as well as net sales growth in international markets, especially in the Middle East, Africa and Latin America regions. International sales were 52 percent of the segment's sales during the third quarter of 2014. Net sales in all regions benefited from new product introductions.

Fitness segment operating earnings increased slightly in the third quarter of 2014 as higher sales and benefits from new product introductions were partially offset by a decline in gross margin as a percentage of sales and continued increases in investment in growth initiatives.

Capital expenditures in the third quarters of 2014 and 2013 related to capital for the production of new products, growth initiatives and profit-maintaining investments.

The following table sets forth Fitness segment results for the nine months ended:

(in millions)	Nine Months Ended		2014 vs. 2013 Increase/(Decrease)		
	September 27, 2014	September 28, 2013	\$	%	
Net sales	\$534.3	\$498.8	\$35.5	7.1	%
Operating earnings	74.5	71.5	3.0	4.2	%
Operating margin	13.9	% 14.3			(40) bpts
Capital expenditures	\$11.4	\$5.0	\$6.4		NM

bpts = basis points

NM = not meaningful

Fitness segment net sales increased in the first nine months of 2014 when compared with the same prior year period, due to the same factors as mentioned in the quarterly period above. International sales were 50 percent of the segment's sales during the first nine months of 2014.

Fitness segment operating earnings increased in the first nine months of 2014 as a result of higher sales and higher gross margins, including favorable warranty expense comparisons, partially offset by continued increases in investment in growth initiatives and the absence of a favorable insurance settlement received in the first quarter of

2013.

The descriptions of the Fitness segment's capital expenditures for the year-to-date period were consistent with the descriptions in the quarterly period above.

55

Corporate/Other

The following table sets forth Corporate/Other results for the three months ended:

(in millions)	Three Months Ended		2014 vs. 2013	
	September 27, 2014	September 28, 2013	Increase/(Decrease)	
Operating loss	(14.7)	(16.3)	\$ (1.6)	(9.8)%

Corporate operating expenses decreased in the third quarter of 2014 when compared with the same prior year period mainly due to lower variable compensation expense as well as favorable mark-to-market adjustments on certain equity-based awards.

The following table sets forth Corporate/Other results for the nine months ended:

(in millions)	Nine Months Ended		2014 vs. 2013	
	September 27, 2014	September 28, 2013	Increase/(Decrease)	
Restructuring, exit and impairment charges	\$2.7	\$0.7	\$2.0	NM
Operating loss	(48.3)	(49.9)	(1.6)	(3.2)%

NM = Not meaningful

The restructuring, exit and impairment charges recorded in the first nine months of 2014 and 2013 related to severance actions. See Note 3 – Restructuring Activities in the Notes to Condensed Consolidated Financial Statements for further details.

Corporate operating expenses decreased in the first nine months of 2014 when compared with the same prior year period, due to a reduction in project spending and the absence of increases in reserves for various legal matters that occurred in the first quarter of 2013, partially offset by higher restructuring charges.

Cash Flow, Liquidity and Capital Resources

The following table sets forth an analysis of free cash flow for the nine months ended:

(in millions)	Nine Months Ended	
	September 27, 2014	September 28, 2013
Net cash provided by operating activities of continuing operations	\$122.7	\$140.5
Net cash provided by (used for):		
Capital expenditures	(79.6)	(79.3)
Proceeds from the sale of property, plant and equipment	5.6	7.4
Free cash flow ^(A)	\$48.7	\$68.6

(A) The Company defines “Free cash flow” as cash flow from operating and investing activities (excluding cash provided by (used for) acquisitions, investments, transfers to restricted cash and purchases or sales of marketable securities). Free cash flow is not intended as an alternative measure of cash flow from operations, as determined in accordance with generally accepted accounting principles (GAAP) in the United States. The Company uses this

financial measure, both in presenting its results to shareholders and the investment community and in its internal evaluation and management of its businesses. Management believes that this financial measure and the information it provides are useful to investors because it permits investors to view Brunswick's performance using the same tool that management uses to gauge progress in achieving its goals. Management believes that the non-GAAP financial measure "Free cash flow" is also useful to investors because it is an indication of cash flow that may be available to fund investments in future growth initiatives and future debt retirements.

Brunswick's major sources of funds for investments, acquisitions, debt retirements, dividend payments and share repurchase programs are cash generated from operating activities, available cash and marketable securities balances, proceeds from the sale of businesses and selected borrowings. The Company evaluates potential acquisitions, divestitures and joint ventures in the ordinary course of business.

2014 Cash Flow

In the first nine months of 2014, net cash provided by operating activities of continuing operations totaled \$122.7 million. The primary driver of the cash provided by operating activities was net earnings adjusted for non-cash expenses, including depreciation and amortization. An increase in working capital, excluding the impact of acquisitions, had a negative effect on net cash provided by operating activities. Working capital is defined as Accounts and notes receivable, Inventories and Prepaid expenses and other, net of Accounts payable and Accrued expenses as presented in the Condensed Consolidated Balance Sheets. Net inventories increased by \$73.6 million during the first nine months of 2014 due to increases in production and finished goods to support new product introductions. The decrease in Accrued expenses of \$55.3 million during the first nine months of 2014 was driven primarily by the payment of the prior year's variable compensation, which had been accrued as of December 31, 2013. Accounts and notes receivable increased \$41.6 million during the first nine months of 2014, due primarily to seasonal changes in sales in the Company's Marine Engine segment. Partially offsetting these items was an increase in Accounts payable of \$21.5 million, which was a result of increased production and the benefit from implementing a structured payables program with certain suppliers in the Marine Engine segment. Pension contributions during the nine months ended September 27, 2014 had a negative effect on net cash provided by operating activities as the Company increased its contributions in anticipation of funding lump sum payouts to certain participants as discussed in Note 16 – Pension and Other Postretirement Benefits in the Notes to Condensed Consolidated Financial Statements. The Company also paid taxes of \$19.2 million during the nine months ended September 27, 2014.

Net cash used for investing activities of continuing operations during the first nine months of 2014 totaled \$117.0 million, which included capital expenditures of \$79.6 million. The Company's capital spending is focused on new product introductions and growth initiatives, capacity expansion projects in the Marine Engine and Boat segments, and high priority, profit-maintaining capital and investments targeting operating cost reductions. Cash paid for the acquisitions of Whale and Bell, net of cash acquired, totaled \$41.8 million in the first nine months of 2014. See Note 4 – Acquisitions in the Notes to Condensed Consolidated Financial Statements for further details on the Company's acquisitions. The Company also transferred \$12.1 million to restricted cash in the first nine months of 2014 as discussed in Note 9 – Commitments and Contingencies in the Notes to Condensed Consolidated Financial Statements. Partially offsetting these items were net proceeds from marketable securities of \$11.9 million that were used to satisfy working capital requirements during the first nine months of 2014. See Note 12 – Investments in the Notes to Condensed Consolidated Financial Statements for further discussion of the Company's marketable securities.

Cash flows used for financing activities of continuing operations were \$27.7 million during the nine months ended September 27, 2014. The cash outflow was primarily the result of dividends paid to common shareholders, partially offset by the impact of excess tax benefits from share-based compensation, which resulted primarily from the exercise of stock appreciation rights and stock options. See Note 17 to the consolidated financial statements in the 2013 Form 10-K for further description of excess tax benefits. Excess tax benefits are netted out of cash used for operating activities and are reflected as a cash inflow from financing activities in the Condensed Consolidated Statements of Cash Flows. In the first nine months of 2014, excess tax benefits did not significantly benefit the amount of taxes paid by the Company because of its tax position. Consequently, cash flows from operating activities and free cash flow were negatively affected by excess tax benefits.

2013 Cash Flow

In the first nine months of 2013, net cash provided by operating activities of continuing operations totaled \$140.5 million. The primary driver of the cash provided by operating activities was earnings adjusted for non-cash expenses, including depreciation and amortization and debt extinguishment losses. A seasonal increase in working capital had a negative effect on net cash provided by operating activities. Accounts and notes receivable increased \$59.2 million during the first nine months of 2013, due primarily to seasonal changes in sales in the Company's Marine Engine

segment. The decrease in Accrued expenses of \$56.7 million during the first nine months of 2013 was driven primarily by the payment of the prior year's variable compensation, which had been accrued as of December 31, 2012 and seasonal reductions in dealer allowances.

Net cash provided by investing activities of continuing operations during the first nine months of 2013 totaled \$49.3 million, which included net proceeds from marketable securities of \$121.5 million that were partially used to retire the Company's Senior notes due in 2016 during the second quarter as discussed below and to satisfy working capital requirements. See Note 12 – Investments in the Notes to Condensed Consolidated Financial Statements for further discussion of the Company's marketable securities. The Company also received \$7.4 million in proceeds from the sale of property, plant and equipment in the normal course of business primarily in our Marine Engine segment. Partially offsetting these items was \$79.3 million of capital expenditures in the first nine months of 2013. The Company's capital spending was focused on new product introductions and strategic initiatives, the Marine Engine segment's capacity expansion in Fond du Lac, Wisconsin, a new pontoon boat manufacturing facility and high priority, profit-maintaining capital and investments targeting operating cost reductions.

Cash flows used for financing activities of continuing operations were \$128.5 million during the nine months ended September 28, 2013. The cash outflow was primarily the result of repurchasing the remaining \$249.8 million of the Company's Senior notes due in 2016 and paying a \$24.2 million premium above par, partially offset by net proceeds received from issuing \$150.0 million of new debt due in 2021 and paying \$3.4 million in related debt issuance costs. See Note 17 – Debt in the Notes to Condensed Consolidated Financial Statements for further discussion. Also, partially offsetting the cash outflow was the cash inflow resulting from excess tax benefits from share-based compensation as discussed above for 2014, partially offset by share repurchases to satisfy tax withholding requirements.

Liquidity and Capital Resources

The Company views its highly liquid assets as of September 27, 2014, December 31, 2013, and September 28, 2013 as:

(in millions)	September 27, 2014	December 31, 2013	September 28, 2013
Cash and cash equivalents	\$596.0	\$356.5	\$326.1
Short-term investments in marketable securities	0.8	12.7	22.3
Total cash, cash equivalents and marketable securities	\$596.8	\$369.2	\$348.4

The following table sets forth an analysis of net debt as of September 27, 2014, December 31, 2013, and September 28, 2013:

(in millions)	September 27, 2014	December 31, 2013	September 28, 2013
Short-term debt, including current maturities of long-term debt	\$4.3	\$6.4	\$4.6
Long-term debt	452.3	453.4	459.9
Total debt	456.6	459.8	464.5
Less: Cash, cash equivalents and marketable securities	596.8	369.2	348.4
Net debt ^(A)	\$(140.2)	\$90.6	\$116.1

(A) The Company defines Net debt as Short-term and Long-term debt, less Cash and cash equivalents and Short-term investments in marketable securities, as presented in the Condensed Consolidated Balance Sheets. Net debt is not intended as an alternative measure to debt, as determined in accordance with GAAP in the United States. The Company uses this financial measure, both in presenting its results to shareholders and the investment community and in its internal evaluation and management of its businesses. Management believes that this financial measure and the information it provides are useful to investors because it permits investors to view the Company's performance using the same metric that management uses to gauge progress in achieving its goals. Management believes that the non-GAAP financial measure "Net debt" is also useful to investors because it is an indication of the Company's ability to repay its outstanding debt using its current cash, cash equivalents and marketable securities.

The following table sets forth an analysis of total liquidity as of September 27, 2014, December 31, 2013, and September 28, 2013:

(in millions)	September 27, 2014	December 31, 2013	September 28, 2013
Cash, cash equivalents and marketable securities	\$596.8	\$369.2	\$348.4
Amounts available under lending facilities ^(A)	293.8	277.9	279.0
Total liquidity ^(B)	\$890.6	\$647.1	\$627.4

(A) In June 2014, the Company amended and restated its secured, asset-based borrowing facility it entered into during March 2011 and converted it into a secured facility. Amounts available for borrowing as of December 31, 2013 and September 28, 2013 are amounts that were available under its asset-based borrowing facility. See discussion in Note 17 – Debt in the Notes to Condensed Consolidated Financial Statements.

(B) The Company defines Total liquidity as Cash and cash equivalents and Short-term investments in marketable securities as presented in the Condensed Consolidated Balance Sheets, plus amounts available for borrowing under its lending facilities. Total liquidity is not intended as an alternative measure to Cash and cash equivalents and Short-term investments in marketable securities as determined in accordance with GAAP in the United States. The Company uses this financial measure, both in presenting its results to shareholders and the investment community and in its internal evaluation and management of its businesses. Management believes that this financial measure and the information it provides are useful to investors because it permits investors to view the Company's performance using the same metric that management uses to gauge progress in achieving its goals. Management believes that the non-GAAP financial measure "Total liquidity" is also useful to investors because it is an indication of the Company's available highly liquid assets and immediate sources of financing.

Cash, cash equivalents and marketable securities totaled \$596.8 million as of September 27, 2014, an increase of \$227.6 million from \$369.2 million as of December 31, 2013, and an increase of \$248.4 million from \$348.4 million as of September 28,

2013. The increase in cash and cash equivalents reflects the net proceeds received from the sale of the retail bowling business completed in the third quarter of 2014 reported in Net cash provided by (used for) investing activities of discontinued operations in the Condensed Consolidated Statements of Cash Flows. Total debt as of September 27, 2014, December 31, 2013, and September 28, 2013 was \$456.6 million, \$459.8 million and \$464.5 million, respectively. As a result, the Company's Net debt decreased to (\$140.2) million as of September 27, 2014, from \$90.6 million at December 31, 2013, and decreased from \$116.1 million as of September 28, 2013. The Company's debt-to-capitalization ratio decreased to 26.3 percent as of September 27, 2014, from 30.7 percent as of December 31, 2013, primarily due to the effect of earnings on Shareholders' equity. The Company's debt-to-capitalization ratio as of September 27, 2014 decreased from 61.6 percent as of September 28, 2013, due mainly to the effect of earnings on Shareholders' equity, which included an income tax benefit in 2013 resulting from the reversal of \$599.5 million of deferred tax valuation allowance reserves; lower Accumulated other comprehensive losses resulting from the favorable remeasurement of the Company's defined benefit plan obligations at December 31, 2013; and reduced debt levels.

In June 2014, the Company amended and restated the five-year \$300.0 million secured, asset-based borrowing facility it entered into during March 2011 and converted it into a five-year \$300 million secured facility (Facility) which is in effect through 2019. As of September 27, 2014, available borrowing capacity totaled \$293.8 million, net of \$6.2 million of letters of credit outstanding under the Facility. The Company has the ability to issue up to \$100.0 million in letters of credit under the Facility. The Company had no borrowings under the Facility during the nine months ended September 27, 2014. The Company initially paid a facility fee of 25.0 basis points per annum, however in August 2014, the fee was adjusted to 20.0 basis points per annum based on the Company's leverage ratio. Once the Company achieves the Investment Grade Release Conditions, the facility fee per annum will be within a range of 12.5 to 35.0 basis points based on the Company's credit rating. The Investment Grade Release Conditions are defined as the date upon which the Company receives an investment grade credit rating by either Standard & Poor's or Moody's and meets the leverage ratio requirements of less than or equal to 2.25:1.00 for the prior two fiscal quarters. Under the terms of the Facility, the Company has two borrowing options, including borrowing at a rate tied to adjusted LIBOR plus a spread of 150.0 basis points or a base rate plus a margin of 50.0 basis points. After the first six months, the rates will be determined by a leverage ratio, with a range of 130.0 to 190.0 basis points for LIBOR rate borrowings and a range of 30.0 to 90.0 basis points for base rate borrowings, until the occurrence of the Investment Grade Release Conditions, on and after which the rate will be determined by the Company's credit ratings, with a range of 100.0 to 190.0 basis points for LIBOR rate borrowings and a range of 0.0 to 90.0 basis points for base rate borrowings.

The Company is required to maintain compliance with two financial covenants included in the Facility - a minimum interest coverage ratio and a maximum leverage ratio. The minimum interest coverage ratio, as defined in the agreement, is not permitted to be less than 3.50 to 1.00. The maximum leverage ratio, as defined in the agreement, is not permitted to be more than 3.00 to 1.00, unless the Company completes an acquisition of more than \$100.0 million, which increases the maximum leverage ratio to 3.25 to 1.00 for the twelve months following the acquisition. As of September 27, 2014, the Company was in compliance with these two financial covenants in the Facility.

Management believes that the Company has adequate sources of liquidity to meet the Company's short-term and long-term needs. As a result of debt retirements completed in 2013, the next significant long-term debt maturity is not until 2021. The Company's debt reduction activities are largely completed, however, the Company may continue to opportunistically retire debt. On October 22, 2014, the Company's Board of Directors authorized a program to repurchase up to \$200 million of the Company's outstanding common stock. Share repurchases will be completed in the open market or through privately negotiated transactions over approximately a two-year period. The Company's share repurchase program does not obligate it to acquire any specific number of shares, and the Company may discontinue purchases at any time that management determines additional purchases are not warranted.

The Company expects to increase earnings before income taxes in 2014 when compared with 2013 from higher sales, improved gross margins and higher operating earnings, despite higher operating expenses, which are expected to be

slightly lower on a percentage of sales basis in 2014 than in 2013. The Company's working capital performance in 2014 will primarily be influenced by revenue growth. Net activity in working capital is expected to reflect a use of cash in 2014 in the range of \$40 million to \$60 million with receivables collections and inventory related cash flows to result in the liquidation of working capital over the remainder of the year. The Company anticipates its cash taxes paid for 2014 to be in the low double-digit percent levels of pre-tax earnings due to the Company's overall domestic tax credit carryforward position. The Company's plans also include capital expenditures of approximately \$140 million in 2014, with a substantial portion directed at growth and profit enhancing projects, including meeting capacity expansion requirements in each segment. Despite higher investment spending levels and a modest usage of cash for working capital, the Company plans to generate strong free cash flow in 2014 in the range of \$110 million to \$135 million.

The Company contributed \$2.4 million to fund benefit payments in its nonqualified pension plan during the nine months ended September 27, 2014 and \$2.5 million and \$3.8 million to fund benefit payments in its nonqualified pension plan during the nine months ended September 28, 2013 and full year of 2013, respectively. The Company contributed \$70.2 million to its qualified

pension plans during the nine months ended September 27, 2014 and \$23.3 million and \$50.0 million to its qualified pension plans during the nine months ended September 28, 2013 and full year of 2013, respectively. The Company expects to contribute approximately \$75 million to these plans in 2014. The 2014 contributions include an estimated amount which will be used to fund planned lump sum payouts to certain participants as discussed in Note 16 – Pension and Other Postretirement Benefits in the Notes to Condensed Consolidated Financial Statements. Company contributions are subject to change based on market conditions, pension funding regulations and Company discretion.

Financial Services

See Note 14 – Financial Services in the Notes to Condensed Consolidated Financial Statements for a discussion of BAC, the Company's joint venture with CDF Ventures, LLC, a subsidiary of GE Capital Corporation.

Off-Balance Sheet Arrangements and Contractual Obligations

The Company's off-balance sheet arrangements and contractual obligations, as of December 31, 2013, are detailed in the 2013 Form 10-K. There have been no material changes in these arrangements and obligations outside the ordinary course of business since December 31, 2013.

Environmental Regulation

In its Marine Engine segment, Brunswick continues to develop engine technologies to reduce engine emissions to comply with current and future emissions requirements. The costs associated with these activities may have an adverse effect on Marine Engine segment operating margins and may affect short-term operating results. Environmental regulatory bodies in the United States and other countries may impose higher emissions standards than are currently in effect for those regions. The Company complies with current regulations regarding emissions and expects to comply fully with any new regulations, but compliance will increase the cost of these products for the Company and the industry. The Boat segment continues to pursue fiberglass boat manufacturing technologies and techniques to reduce air emissions at its boat manufacturing facilities. The Company does not believe that compliance with federal, state and local environmental laws will have a material adverse effect on Brunswick's competitive position.

Critical Accounting Policies

As discussed in the 2013 Form 10-K, the preparation of the consolidated financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the amount of reported assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and revenues and expenses during the periods reported. Actual results may differ from those estimates.

There were no material changes in the Company's critical accounting policies since the filing of its 2013 Form 10-K.

Recent Accounting Pronouncements

See Note 1 – Significant Accounting Policies in the Notes to Condensed Consolidated Financial Statements for the recent accounting pronouncements that have been adopted during the nine months ended September 27, 2014, or will be adopted in future periods.

Forward-Looking Statements

Certain statements in this Quarterly Report on Form 10-Q are forward-looking as defined in the Private Securities Litigation Reform Act of 1995. Such statements are based on current expectations, estimates and projections about

Brunswick's business. Forward-looking statements by their nature address matters that are, to different degrees, uncertain and often contain words such as "may", "could", "expect", "intend", "target", "plan", "seek", "estimate", "believe", "potential" or "continue". These statements are not guarantees of future performance and involve certain risks and uncertainties that may cause actual results to differ materially from expectations as of the date of this filing. These risks include, but are not limited to: the effect of adverse general economic conditions, including the amount of disposable income available to consumers for discretionary purchases, tight consumer credit markets, and the level of consumer confidence on the demand for the Company's products and services; the ability of dealers and customers to secure adequate access to financing and the Company's ability to access capital and credit markets; the ability to maintain strong relationships with dealers, distributors and independent boat builders; the ability to maintain effective distribution and develop alternative distribution channels without disrupting incumbent distribution partners; the ability to successfully manage pipeline inventories and respond to any excess supply of repossessed and aged boats in the market; credit and collections risks, including the potential obligation to repurchase dealer inventory; the risk of losing a key account or a critical

supplier; the strength and protection of the Company's brands and other intellectual property; the ability to absorb fixed costs and manage production facilities while expanding capacity and enhancing product offerings; the ability to successfully complete restructuring efforts in accordance with projected timeframes and costs; the ability to obtain components, parts and raw materials from suppliers in a timely manner and for a reasonable price; the need to meet pension funding obligations; the effect of higher energy and logistics costs, interest rates and fuel prices on the Company's results; competitive pricing pressures, including the impact of inflation and increased competition from international competitors; the ability to develop new and innovative products in response to changing retail demands and expectations that are differentiated for the global marketplace at a competitive price and in compliance with applicable laws; the effect of competition from other leisure pursuits on the level of participation in boating and fitness activities; the risk of product liability, warranty and other claims in connection with the manufacture and sale of products; the ability to respond to and minimize the negative financial impact of legislative and regulatory developments, including those related to environmental restrictions, climate change, healthcare costs, taxes and employee benefits; the ability to maintain market share, particularly in high-margin products; fluctuations in the Company's stock price due to external factors; the ability to maintain product quality and service standards expected by customers; the ability to increase manufacturing operations and meet production targets within time and budgets allowed; negative currency trends, including shifts in exchange rates; competition from new technologies; the ability to complete environmental remediation efforts and resolve claims and litigation at the cost estimated; the uncertainty and risks of doing business in international locations, including international political instability, civil unrest and other risks associated with operations in emerging markets; the risk of having to record an impairment to the value of goodwill and other assets; the effect that catastrophic events may have on consumer demand and the ability to manufacture products, including hurricanes, floods, earthquakes, and environmental spills; the effect of weather conditions on demand for marine products; the inability to attract and retain individuals who could be key contributors to the organization; and risks associated with the Company's information technology systems, including the continued use of legacy systems and the risk of a failure of or attacks on the Company's information systems, which could result in data security breaches, lost or stolen assets or information, and associated remediation costs.

Additional risk factors are included in the 2013 Form 10-K and elsewhere in this report. All forward-looking statements herein speak only as of the date the statement is made and we undertake no obligation to update or revise any forward-looking statement, except as required by the Federal Securities laws.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company is exposed to market risk from changes in foreign currency exchange rates, interest rates and commodity prices. The Company enters into various hedging transactions to mitigate these risks in accordance with guidelines established by the Company's management. The Company does not use financial instruments for trading or speculative purposes. The Company's risk management objectives are described in Note 5 – Financial Instruments in the Notes to Condensed Consolidated Financial Statements and Notes 1 and 13 to the consolidated financial statements in the 2013 Form 10-K.

There have been no significant changes to the Company's market risk since December 31, 2013. For a discussion of exposure to market risk, refer to Part II, Item 7A – Quantitative and Qualitative Disclosures about Market Risk, set forth in the 2013 Form 10-K.

Item 4. Controls and Procedures

Under the supervision and with the participation of the Company's management, including the Chief Executive Officer and the Chief Financial Officer of the Company (its principal executive officer and principal financial officer, respectively), the Company has evaluated its disclosure controls and procedures (as defined in Securities Exchange Act Rules 13a-15(e) and 15d-15(e)) as of the end of the period covered by this Quarterly Report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure

controls and procedures are effective. There were no changes in the Company's internal control over financial reporting during the fiscal quarter covered by this report that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1A. Risk Factors

Brunswick's operations and financial results are subject to various risks and uncertainties that could adversely affect the Company's business, financial condition, results of operations, cash flows, and the trading price of Brunswick's common stock. There have been no material changes to the risk factors previously disclosed in the 2013 Form 10-K, which was filed with the SEC on February 14, 2014.

Item 6. Exhibits
