Item 3.01, Notice of Delisting or Failure to Satisfy a Continued Listing Rule or Standard; Transfer of Listing.

On January 16, 2018, InspireMD, Inc. (the “Company”) received notification (the “Deficiency Letter”) from the NYSE AMERICAN LLC (“NYSE American”) that the Company is not in compliance with certain NYSE American continued listing standards (the “Listing Standards”). This was in addition to our prior disclosed non-compliance with Sections 1003(a)(ii)-(iii) of the NYSE American Company Guide.

The Deficiency Letter states that the Company’s shares of common stock have been selling for a low price per share for a substantial period of time. Pursuant to Section 1003(f)(v) of the NYSE American Company Guide, the NYSE American staff determined that the Company’s continued listing is predicated on it effecting a reverse stock split of its common stock or otherwise demonstrating sustained price improvement within a reasonable period of time, which the staff determined to be until July 16, 2018. The Company intends to regain compliance with the Listing Standards by undertaking a measure or measures that are for the best interests of the Company and its stockholders, including potentially effecting a reverse stock split.

The Company filed a definitive proxy statement with the Securities and Exchange Commission on December 26, 2017, with respect to a special meeting of the Company’s stockholders scheduled to be held on February 7, 2018, to consider, among other items, the authorization of the board of directors, in its discretion but prior to the annual meeting of the Company’s stockholders in 2018, to amend the Amended and Restated Certificate of Incorporation of the Company to effect a reverse stock split of the Company’s common stock at a ratio in the range of 1-for-25 to 1-for-50, such ratio to be determined by the board of directors (the “Reverse Stock Split Proposal”). There can be no assurance that the Company’s stockholders will approve the Reverse Stock Split Proposal. Further, there can be no assurance that the market price of the Company’s new common stock after the reverse stock split will remain unchanged or increase in proportion to the reduction in the number of old shares of the Company’s common stock outstanding before the reverse stock split, and there is no assurance that the Company’s common stock will not trade at levels viewed as abnormally low for a substantial period of time and lead the NYSE American to immediately suspend trading in our common stock. In the interim, as discussed below, the Company will continue to actively pursue its business in the hopes that such actions will increase stockholder value and raise the price of its common stock. The Company cannot assure that its actions will demonstrate compliance.

The Company’s common stock will continue to be listed on the NYSE American while it attempts to regain compliance with the Listing Standards, subject to the Company’s compliance with other continued listing requirements, as described in prior filings. The Deficiency Letter does not affect the Company’s business operations or its Securities and Exchange Commission reporting requirements.

Item 8.01 Other Events.

On January 19, 2018, the Company issued a press release announcing publication of an independent imaging study demonstrating the advantages of CGuard™ EPS in reducing stent plaque prolapse in carotid artery stenting patients and disclosing receipt of the notice from the NYSE American. A copy of the press release is attached as Exhibit 99.1 to this Current Report on Form 8-K and is hereby incorporated by reference herein.

Item 9.01 Financial Statements and Exhibits.
