Item 8.01 Other Events.

On January 28, 2019, Taronis Technologies, Inc., formerly known as MagneGas Applied Technology Solutions, Inc. (the “Company”) issued a press release and filed a corresponding Current Report on Form 8-K with the SEC, which stated that the City of San Diego had elected to use MagneGas2 as its metal cutting fuel of choice and that this was the first major city contract for the adoption of the Company’s metal cutting fuels. The Company has determined that it is necessary to correct its prior disclosure. The Company has an approval and a written authorization from the City of San Diego’s Fleet Operations to move forward with the procurement of gas and other hard goods from the Company at three different locations within the City. This procurement covers more than one division within the municipality, and was received from a city official with sufficient authority to approve the procurement process. In the welding supply and gas distribution business purchases and sales of hard goods and gases are typically made through a process whereby a purchaser receives a quote for goods from the seller and then places an order which is later memorialized in a purchase order. The Company treats purchase orders as contracts and made its prior disclosure with that treatment in view, however, the Company does not have any formal binding contracts, agreements or long-term purchase commitments with the City of San Diego beyond the existing approval, nor any commitment that any of the Company’s products will be purchased as the products of choice for their respective applications.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
