

Item 1.01 Entry into a Material Definitive Agreement.

Effective September 4, 2018, Owens Realty Mortgage, Inc. (the "Company") entered into a Second Amended and Restated Credit Agreement with ZB, N.A. dba California Bank & Trust ("Agent") as administrative agent, swingline lender and a lender, and First Bank and Umpqua Bank as additional lenders (the "Restated Credit Agreement"), pursuant to which the lenders agreed to provide a \$75.0 million secured revolving credit facility (the "Credit Facility"). The Restated Credit Agreement also includes an option for the Company to increase the maximum available principal amount to up to \$95.0 million, subject to one or more new or existing lenders agreeing to provide such additional loan commitments and satisfaction of other customary conditions. The Restated Credit Agreement and a new Security Agreement among the parties collectively amends and restates the prior Credit Agreement, Advance Formula Agreement, Security Agreement and related promissory notes among the Company and the Agent and lenders (as previously amended, the "Prior Credit Facility"), and all indebtedness outstanding under the Prior Credit Facility is deemed outstanding under the Restated Credit Agreement.

The maximum amount available for borrowing at any time under the Restated Credit Agreement is limited by borrowing base calculations that depend on the underlying collateral of the Company included in such calculations. The primary borrowing base calculation is generally the sum of: (a) the lesser of (i) 75% of the outstanding principal balance of those mortgage loan promissory notes issued by the Company in the ordinary course of business that qualify as "Eligible Loan Notes" according to criteria outlined in the agreement and (ii) 50% of the then-current Appraised Value of the real property securing such Eligible Loan Notes; plus (b) 50% of the then-current Appraised Value of the real property owned by the Company that qualifies as "Eligible Owned Real Property" according to criteria outlined in the agreement. At any time that the principal amount of the borrowings under the Restated Credit Agreement exceeds the maximum permitted pursuant to the borrowing base calculations, the Company must promptly repay an amount equal to such excess.

At the option of the Agent, up to \$10.0 million of the Credit Facility may be made available as swing line loans. The Restated Credit Agreement includes a sublimit facility that permits the Company to borrow up to \$25.0 million, subject to certain additional limitations, while underlying collateral of the Company is being further evaluated by the lenders for transfer to the borrowing base. As of September 4, 2018, the Company has borrowed \$25,032,700 pursuant to the Restated Credit Agreement (including \$854,257 borrowed against the sublimit facility), and the Company's maximum borrowing availability pursuant to the borrowing base calculations is \$51,811,422 (\$26,778,722 of additional borrowing available).

The Restated Credit Agreement permits funds to be borrowed, repaid and redrawn until the maturity date of May 15, 2020, subject to early termination in the event of default or at the election of the Company. Such borrowings will bear interest payable monthly, in arrears, on the first business day of each month. Borrowings under the Restated Credit Agreement bear interest at an annual rate equal to, at the Company's election, either (1) the prime rate published in the Wall Street Journal plus, depending on the amount of the facility utilization, a margin of either (x) 0.25% or 0.0% for revolving and swing line loans or (y) 1.0% or 0.75% for sublimit loans, or (2) the LIBOR Rate (as defined in the Restated Credit Facility) plus, depending on the amount of the facility utilization, a margin of either (x) 3.00% or 2.75% for revolving and swing line loans or (y) 3.75% or 3.50% for sublimit loans. Upon a default under the Restated Credit Agreement the applicable interest rate increases by 2.00% and an additional fee of 5.0% of the payment amount applies to any late payments.

In addition, the Company is required to pay quarterly and at maturity (or upon earlier termination of the facility) an unused commitment fee at a rate of either 0.20% or 0.0% per annum, depending on the amount of facility utilization, applied to the un-utilized borrowing capacity under the Restated Credit Agreement. Amounts owing under the Restated Credit Agreement may be prepaid at any time without premium or penalty, subject to customary breakage costs in the case of borrowings with respect to which a LIBOR Rate election is in effect. The new Credit Facility is also subject to the payment of an origination fee of \$412,500 and certain ongoing administrative fees.

Borrowings under the Credit Facility will be secured by certain assets of the Company. These collateral assets will include the grant of first-priority deeds of trust on certain real property assets and trust deeds of the Company identified by the parties from time-to-time, including the mortgage loans and real property of the Company included in the borrowing base calculations, and all personal property of the Company. The collateral includes the assets described in the Security Agreement and in other customary "Collateral Agreements" that will be entered into by the parties from time-to-time.

The Restated Credit Agreement contains affirmative, negative, and financial covenants which are customary for loans of this type, including among others: approvals of new leases or lease renewals (or material modifications) with respect to Company properties; maintaining the Company's principal bank accounts with Agent and maintenance of \$3,500,000 of Unencumbered Liquid Assets; obligations to use best efforts to keep certain of the Company's properties fully leased; maintenance of minimum debt-to-tangible net worth and debt service coverage ratios; limitations on repurchasing or redeeming stock of the Company; limitations on incurrence of additional liens or indebtedness; restrictions against guarantying debt outside the ordinary course of business; restrictions on asset dispositions, dissolution or liquidation, mergers, capital or corporate restructuring or other transactions outside the ordinary course of business; and restrictions on making certain investments.

The Restated Credit Agreement contains certain events of default (subject to specified thresholds and, in certain cases, cure periods), including among others: nonpayment of principal and other amounts when due; breach of covenants or inaccuracy of representations and warranties; failure to maintain required insurance; changes in the management, ownership or control of the Company which Agent determines, in its sole discretion, could have a Material Adverse Effect; cross-default and/or cross-acceleration to other indebtedness; certain bankruptcy or insolvency events; the dissolution, merger or consolidation of the Company or if the Company ceases to do business as a going concern; the issuance of a writ of attachment, seizure or similar process against any part of the Company's property; certain ERISA-related events; entry of non-appealable judgments against the Company that are not covered by insurance, or the entry of a levy or lien of attachment against any assets of the Company or entry by the Company into certain types of settlements; or if Agent deems itself or any other lender insecure with respect to the payment obligations of the Company or is of the opinion that a Material Adverse Effect has occurred or could occur. If an event of default occurs and is continuing under the Restated Credit Agreement, Agent may, among other things, terminate all obligations to lend under the Credit Facility and require the Company to repay all amounts owed thereunder.
