FORWARD LOOKING STATEMENTS

THE FOLLOWING DISCUSSION SHOULD BE READ IN CONJUNCTION WITH THE FINANCIAL STATEMENTS AND RELATED NOTES CONTAINED ELSEWHERE IN THIS FORM 10-Q. CERTAIN STATEMENTS MADE IN THIS DISCUSSION ARE "FORWARD-LOOKING STATEMENTS" WITHIN THE MEANING OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995. FORWARD-LOOKING STATEMENTS CAN BE IDENTIFIED BY TERMINOLOGY SUCH AS "MAY," "WILL," "SHOULD," "EXPECTS," "INTENDS," "ANTICIPATES," "BELIEVES," "ESTIMATES," "PREDICTS," OR "CONTINUE" OR THE NEGATIVE OF THESE TERMS OR OTHER COMPARABLE TERMINOLOGY AND INCLUDE, WITHOUT LIMITATION, STATEMENTS BELOW REGARDING: THE COMPANY'S INTENDED BUSINESS PLANS; EXPECTATIONS AS TO PRODUCT PERFORMANCE; EXPECTATIONS AS TO MARKET ACCEPTANCE OF THE COMPANY'S TECHNOLOGY; AND BELIEF AS TO THE SUFFICIENCY OF CASH RESERVES. BECAUSE FORWARD-LOOKING STATEMENTS INVOLVE RISKS AND UNCERTAINTIES, THERE ARE IMPORTANT FACTORS THAT COULD CAUSE ACTUAL RESULTS TO DIFFER MATERIALLY FROM THOSE EXPRESSED OR IMPLIED BY THESE FORWARD-LOOKING STATEMENTS. THESE FACTORS INCLUDE, BUT ARE NOT LIMITED TO, SUFFICIENCY OF CASH RESERVES, THE COMPANY'S ABILITY TO OBTAIN ADDITIONAL NEEDED FINANCING; GOING CONCERN QUALIFICATIONS; THE COMPETITIVE ENVIRONMENT GENERALLY AND IN THE COMPANY'S SPECIFIC MARKET AREAS; CHANGES IN TECHNOLOGY; INFLATION; ECONOMIC CONDITIONS IN GENERAL AND IN THE COMPANY'S SPECIFIC MARKET AREAS; DEMOGRAPHIC CHANGES; CHANGES IN FEDERAL, STATE AND /OR LOCAL GOVERNMENT LAW AND REGULATIONS AFFECTING THE TECHNOLOGY; CHANGES IN OPERATING STRATEGY OR DEVELOPMENT PLANS; AND THE ABILITY TO ATTRACT AND RETAIN QUALIFIED PERSONNEL. ALTHOUGH THE COMPANY BELIEVES THAT EXPECTATIONS REFLECTED IN THE FORWARD-LOOKING STATEMENTS ARE REASONABLE, IT CANNOT GUARANTEE FUTURE RESULTS, PERFORMANCE OR ACHIEVEMENTS. MOREOVER, NEITHER THE COMPANY NOR ANY OTHER PERSON ASSUMES RESPONSIBILITY FOR THE ACCURACY AND COMPLETENESS OF THESE FORWARD-LOOKING STATEMENTS. THE COMPANY IS UNDER NO DUTY TO UPDATE ANY FORWARD-LOOKING STATEMENTS AFTER THE DATE OF THIS REPORT TO CONFORM SUCH STATEMENTS TO ACTUAL RESULTS.

SPO MEDICAL INC AND ITS SUBSIDIARY

NOTES TO FINANCIAL STATEMENTS

(U.S. dollars in thousands (except share data))

NOTE 1 - General

SPO Medical Inc. (hereinafter referred to as "SPO" or the "Company") is engaged in the design, development and marketing of non-invasive pulse oximetry technologies to measure blood oxygen saturation and heart rate. The applications are marketed, in the following sectors; professional medical care, homecare, sports, safety and search & rescue.

The Company was originally incorporated under the laws of the State of Delaware in September 1981 under the name "Applied DNA Systems, Inc." On November 16, 1994, the Company changed its name to "Nu-Tech Bio-Med, Inc." On December 23, 1998, the Company changed its name to "United Diagnostic, Inc." Effective April 21, 2005, the Company acquired (the "Acquisition Transaction") 100% of the outstanding capital stock of SPO Medical Equipment Ltd., a company incorporated under the laws of the State of Israel ("SPO Ltd."), pursuant to a Capital Stock Exchange Agreement dated as of February 28, 2005 between the Company, SPO Ltd. and the shareholders of SPO Ltd., as amended and restated on April 21, 2005 (the "Exchange Agreement"). In exchange for the outstanding capital stock of SPO Ltd., the Company issued to the former shareholders of SPO Ltd. a total of 5,769,106 shares of the Company's common stock, par value \$0.01 per share ("Common Stock"), representing approximately 90% of the Common Stock then issued and outstanding after giving effect to the Acquisition Transaction. As a result of the Acquisition Transaction, SPO Ltd. became a wholly owned subsidiary of the Company as of April 21, 2005 and, subsequent to the Acquisition Transaction, the Company changed its name to "SPO Medical Inc." Upon consummation of the Acquisition Transaction, the Company effectuated a forward subdivision of the Company's Common Stock issued and outstanding on a 2.65285:1 basis.

The merger between UNDI and the SPO Ltd was accounted for as a reverse merger. As the shareholders of SPO Ltd received the largest ownership interest in the Company, SPO Ltd was determined to be the "accounting acquirer" in the reverse acquisition. As a result, the historical financial statements of the Company were replaced with the historical financial statements of the SPO Ltd.

NOTE 2 - Basis of Presentation

The accompanying un-audited condensed consolidated interim financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with Rule 8-03 of Regulation S-X. These financial statements reflect all adjustments, consisting of normal recurring adjustments and accruals, which are, in the opinion of management, necessary for a fair presentation of the financial position of the Company as of June 30, 2013 and the results of operations and cash flows for the interim periods indicated in conformity with generally accepted accounting principles applicable to interim periods. Accordingly, certain information and footnote disclosures normally included in annual financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. Operating results for the three and six months ended June 30, 2013, are not necessarily indicative of the results that may be expected for the year ended December 31, 2013.

Certain prior years' amounts have been reclassified in conformity with current year's financial statements.

NOTE 3 - Going Concern

As reflected in the accompanying financial statements, the Company's operations for the six months ended June 30, 2013, resulted in a net loss of \$329 and the Company's balance sheet reflects a net stockholders' deficit of \$2,534. The Company's ability to continue operating as a "going concern" is dependent on its ability to generate additional revenues or raise additional working capital. As disclosed in previous filings with the Securities and Exchange Commission, management has been attempting to raise additional cash from current and potential stockholders and, in May 2013, the Company raised net proceeds of \$227 from accredited investors. While it has no commitments for additional amounts, the Company plans to continue its capital raising efforts. These conditions raise substantial doubt about the Company's ability to continue as a going concern.

NOTE 4 - Loans Payable

On January 4, 2013, the Company entered into a Convertible Note Agreement pursuant to which the Company received a loan in the principal amount of \$32.5. The scheduled maturity date of the note is January 4, 2014. The note bears interest at a per annum rate of 8%. Commencing June 18, 2013, the Investor is entitled to convert all or any part of the outstanding and unpaid principal amount on the note, as well as the interest accrued, into shares of the Company's Common Stock at a conversion rate equal to 55% of the average of the five lowest closing sale prices during the ten days preceding the conversion date.

On February 5, 2013, the Company entered into a Convertible Note Agreement pursuant to which the Company received an additional loan in the principal amount of \$32.5 from the above referenced investor. The scheduled maturity date of the note is February 5, 2014. The note bears interest at a per annum rate of 8%. Commencing July 28, 2013, the Investor is entitled to convert all or any part of the outstanding and unpaid principal amount on the note, as well as the interest accrued, into shares of the Company's Common Stock at a conversion rate equal to 55% of the average of the five lowest closing sale prices during the ten days preceding the conversion date.

On April 12, 2013, the Company entered into a Convertible Note Agreement pursuant to which the Company received an additional loan in the principal amount of \$32.5 from the above referenced investor. The scheduled maturity date of the note is April 12, 2014. The note bears interest at a per annum rate of 8%. Commencing October 9, 2013, the Investor is entitled to convert all or any part of the outstanding and unpaid principal amount on the note, as well as the interest accrued, into shares of the Company's Common Stock at a conversion rate equal to 55% of the average of the five lowest closing sale prices during the ten days preceding the conversion date.

NOTE 5 - Stockholders Equity

Issuance of Securities

On May 8, 2013, the Company entered into a Subscription Agreement with two accredited investors (the "Investors"), pursuant to which the Company sold and issued to the Investors (the "Private Placement") a total of 10,000,000 shares of the Company's Common Stock for proceeds of \$227, net of issuance expenses. In connection with the Private Placement, warrants (the "Warrants") for an additional 5,000,000 shares of the Company's Common Stock were issued to one of the Investors. The Warrants are exercisable through May 8, 2018 at a per share exercise price of \$0.10.

On May 29, 2013, the Company issued 2,366,639 shares to satisfy an obligation to issue shares.

During the six months ended June 30, 2013, the Company issued 10,976,071 shares of its common stock upon conversion of \$67 in principal and accrued interest of convertible promissory notes.

NOTE 6 - Financial Expenses

Financial expenses for the six months ended June 30, 2013 and 2012 are comprised of the following:

	2013	2012
Non-cash expenses related to conversion features	\$(61)	\$(40)
Non-cash expenses related to warrants to issue shares	18	(7)
Interest in respect of debt instruments	(65)	(52)
Exchange rate differences caused by fluctuations in the exchange rate with the New Israeli Shekel ("NIS") on liabilities denominated in NIS held by the subsidiary	(30)	14
	(138)	(85)

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

THE FOLLOWING DISCUSSION SHOULD BE READ IN CONJUNCTION WITH OUR FINANCIAL STATEMENTS AND THE NOTES RELATED TO THOSE STATEMENTS. SOME OF OUR DISCUSSION IS FORWARD-LOOKING AND INVOLVES RISKS AND UNCERTAINTIES. FOR INFORMATION REGARDING RISK FACTORS THAT COULD HAVE A MATERIAL ADVERSE EFFECT ON OUR BUSINESS, REFER TO THE RISK FACTORS SECTION OF THE ANNUAL REPORT ON FORM 10-K FOR THE YEAR ENDED DECEMBER 31, 2012.

OVERVIEW

SPO Medical Inc. (“we” or the “Company”) is engaged in the design, development and marketing of non-invasive pulse oximetry technologies to measure blood oxygen saturation and heart rate. We have developed and patented proprietary technology that enables the measurement of heart rate and oxygen saturation levels in the blood, which is known as Reflectance Pulse Oximetry (RPO). Using RPO, a sensor can be positioned on various body parts, hence minimizing problems from motion artifacts and poor perfusion. The unique design features contribute to substantially lower power requirements and enhance wireless, stand-alone configurations facilitating expanded commercial possibilities. As of August 2013, we held 12 patents issued by the United States Patent and Trademark Office (“USPTO”) covering various aspects of our technologies. Our technologies are currently applied to products that are designed for use by in the homecare, professional medical care, sports, safety and search and rescue markets.

We are primarily engaged in developing, manufacturing and licensing our technology to third parties for integration with products in the general wellness, recreational, baby monitoring and sports monitoring fields. We pursue joint ventures, OEM type arrangements, research and or subcontracting agreements relating to our oximetry technology with respect to the general wellness, recreational, baby monitoring and sports monitoring fields. Since August 2012, we have partnered with HoMedics LLC, a distributor and manufacturer of leading brands in an array of consumer health, wellness and electronic lifestyle categories throughout the Americas, Europe, the Asia-Pacific region, Africa and the Middle-East, for the distribution of a private labeled, over the counter pulse oximeter for non-medical consumer wellness applications.

We are currently focused on exploiting the sports and wellness markets by developing cutting edge products based on our proprietary technology. These are multibillion dollar markets which we intend to penetrate with our disruptive technologies. Our current products under development include an innovative wellness watch, a baby monitoring unit and a sports watch.

The SPO sports watch has been designed to measure continuous heart-rate wirelessly, without the need to wear a conventional chest strap. This is a major and unique practical advantage over current products that we believe exist in the general leisure and wellness market. As importantly, the sports watch will be able to read the heart rate without the sports enthusiast ceasing his physical activity. This will be made possible through the use of SPO’s patented

reflectance technology. Subject to raising significant additional funds, of which no assurance can be provided, we anticipate that the product should become commercially available during 2014.

In addition to the sports watch, we have commenced commercialization of an innovative wellness watch that measures the number of activities and calories burned by an individual performs on a given day. The watch, designed for both children and adults, features a display function to continuously measure the number of daily activities against preset recommended goals. SPO has designed and patented the functionality of the watch to be an affordable, simple-to-use, fashion accessory to encourage users to increase their mobility and overall wellness and to wear it with pride. In December 2011, we signed an exclusive agreement with a large private time-piece manufacture to manufacture and sell our wellness watch to department stores, mid-tier mass-market and food & drug stores throughout North America. The agreement specifies that the manufacturer will finance all costs associated with bringing the wellness watch to the marketplace. We and the manufacturer have agreed to divide the profit margin from the sale of the wellness watch net of all costs associated with manufacturing and marketing of the product.

In addition, we are developing an innovative home-baby monitoring device for continuous measurement of wellness information to the parent or caregiver, while the baby is sleeping. This parental reassurance tool gives the company a technological competitive edge in providing an innovative, high performance solution for a market application that is applicable to most family homes. Subject to raising significant additional funds, of which no assurance can be provided, we believe that the product could become commercially available during 2014.

Current Operational Highlights

We recorded revenues of \$316,000 for the year ended December 2012 and \$249,000 for the six months ended June 30, 2013. All revenues to date are primarily attributable to the arrangement with HoMedics. As of June 30, 2013, we had a backlog of approximately \$249,000, consisting of orders for additional units of our wellness product that we expect to deliver during the third quarter of 2013.

We have generated significant operating losses since inception and we have a limited operating history upon which an evaluation of our prospects can be made. Our prospects must therefore be evaluated in light of the problems, expenses, delays and complications associated with a development stage company.

In May 2013, we raised \$250,000 from the sale of our securities to two accredited investors. However, we need to raise additional funds in order to realize in full our business plan as well as pay outstanding loans in the approximate amount of \$1,492,000 which mature by June 30, 2014. In January 2010, we restructured our operations in an attempt to focus primarily on our core technology for non-medical market operations. As of August 2013, we had two employees working on a full-time basis. In addition, all research and development activities are performed on a sub-contracted basis. If we are unable to raise additional capital, it may be necessary for us to take further cost cutting measures to reduce our cash burn including laying-off additional personnel and/or cease operations entirely. No assurance can be given that we will be able to raise additional capital. These conditions raise substantial doubt about our ability to continue as a going concern.

CRITICAL ACCOUNTING POLICIES

The discussion and analysis of our financial condition and results of operations are based upon our unaudited consolidated financial statements, which have been prepared in accordance with generally accepted accounting principles in the United States. The preparation of these financial statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates, including those related to revenue recognition, bad debts, investments, intangible assets and income taxes. Our estimates are based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results

may differ from these estimates.

We have identified the accounting policies below as critical to our business operations and the understanding of our results of operations.

REVENUE RECOGNITION

We generate revenues principally from product manufacturing. Revenues generated from product manufacturing are recognized when such products are shipped; subcontracted research and development services are recognized when such services are performed.

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

RESULTS OF OPERATIONS

COMPARISON OF THE THREE AND SIX MONTHS ENDED JUNE 30, 2013 AND THE THREE AND SIX MONTHS ENDED JUNE 30, 2012

REVENUES. Revenues for the three and six months ended June 30, 2013 were \$100,000 and \$249,000, respectively. No revenues were recorded for the corresponding periods in 2012. The increase in revenues during the each of the three and six months ended June 30, 2013 as compared to the corresponding periods in 2012 is attributable to shipments of our new consumer wellness product to mass-market retailers.

COSTS OF REVENUES. Costs of revenues include all costs related to subcontracted manufacturing and product delivery. Cost of Revenues for the three and six months ended June 30, 2013 were \$85,000 and \$210,000, respectively. No costs of revenues were recorded for the corresponding periods in 2012.

SELLING AND MARKETING EXPENSES. Selling and marketing expenses consist primarily of costs relating to compensation attributable to consultants for the provision of public relations, promotion and marketing services geared to the recreational sports and wellness markets. Selling and marketing expenses for three and six months ended June 30, 2013 were \$17,000 and \$17,000, respectively, as compared to \$125,000 and \$257,000, respectively, for the corresponding periods in 2012. Selling and marketing expenses for the three and six months ended June 30, 2012 included stock based non-cash expenses of \$125,000 and \$250,000, respectively. The decrease in selling and marketing expenses during the three and six months ended June 30, 2013 as compared to the corresponding periods in 2012 is primarily attributable to the reduction in stock based non-cash expenses.

GENERAL AND ADMINISTRATIVE EXPENSES. General and administrative expenses primarily consist of salaries and other related costs for personnel in executive and other administrative functions. Other significant costs include professional fees for legal and accounting services. General and administrative expenses for the three and six months ended June 30, 2013 were \$97,000 and \$213,000, respectively, as compared to \$79,000 and \$137,000 for the corresponding periods in 2012. The increase in general and administrative expenses during the three and six months ended June 30, 2013 as compared to the corresponding periods in 2012 is primarily attributable to increased professional fees and product liability insurance.

FINANCIAL EXPENSE, NET. Finance expense, net for the three months and six months ended June 30, 2013 were \$83,000 and \$138,000, respectively, as compared to \$25,000 and \$85,000 for the corresponding periods in 2012. The increase was primarily attributable to fluctuations in the exchange rate of the New Israeli Shekel (“NIS”) on liabilities denominated in NIS held by the subsidiary.

NET LOSS. For the six months ended June 30, 2013 and 2012, we had net losses of \$329,000 and \$479,000, respectively. The decrease in net loss for the six months ended June 30, 2013 compared to corresponding six month period in 2012 is primarily attributable to a reduction in stock based non-cash marketing expenses.

LIQUIDITY AND CAPITAL RESOURCES

We need to raise additional funds in order to meet our on-going operating requirements, pay outstanding loans in the aggregate approximate amount of \$1,492,000 and to realize our restructured business plan. Following the capital raise of \$250,000 in May 2013 referred to below, our currently existing cash resources are sufficient to satisfy our operating requirements through December 31, 2013. If we are unable to raise additional capital through a financial raise or revenues, it may be necessary for us to take further measures to reduce our cash burn including laying-off additional personnel, or ceasing operations entirely. No assurance can be given that we will be able to raise the needed capital. These conditions raise substantial doubt about our ability to continue as a going concern. Any additional equity financings is likely to be dilutive to holders of our Common Stock and debt financing, if available, may require us to be bound by significant repayment obligations and covenants that restrict our operations.

As of June 30, 2013, we had \$244,000 in cash and cash equivalents available to us.

We generated negative cash flow from operating activities of approximately \$98,000 during the six months ended June 30, 2013 compared to \$180,000 for the 2012 corresponding period.

To date, we have financed our operations primarily from debt financing and the sale of our securities. See Notes 4 and 5 in our consolidated financial statements accompanying this Quarterly Report on Form 10-Q.

On May 8, 2013, we raised \$250,000 from the private placement of a total of 10,000,000 shares of our common stock to two accredited investors. In connection with such private placement, we also issued to one of the investors warrants exercisable through May 2018 to purchase up to an additional 5,000,000 shares of our common stock at a per share exercise price of \$0.10.

ITEM 4. CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES. We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including our Chief Executive Officer, as appropriate, to allow timely decisions regarding required disclosure based closely on the definition of "disclosure controls and procedures" in Rule 13a-14(c).

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with participation of management, including our Chief Executive Officer, who serves as our principal executive officer and principal financial and accounting officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on the foregoing, our Chief Executive Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report to provide reasonable assurance that material information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms

Management is aware that there is a lack of segregation of duties due to the small number of employees dealing with general administrative and financial matters. However, at this time, management has decided that considering the employees involved, the control procedures in place, and the outsourcing of certain financial functions, the risks associated with such lack of segregation are low and the potential benefits of adding additional employees to clearly segregate duties do not justify the expenses associated with such increases. Management will periodically reevaluate this situation. If the volume of the business increases and sufficient capital is secured, it is our intention to increase staffing to mitigate the current lack of segregation of duties within the general administrative and financial functions.

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations in all control systems no evaluation of controls can provide absolute assurance that all control issues, if any, within a company have been detected. Such limitations include the fact that human judgment in decision-making can be faulty and that breakdowns in internal control can occur because of human failures, such as simple errors or mistakes or intentional circumvention

of the established process.

CHANGES IN INTERNAL CONTROLS OVER FINANCIAL REPORTING. During the quarter ended June 30, 2013, there were no changes in our internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect, these controls.

PART II - OTHER INFORMATION

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following paragraph sets forth certain information with respect to all securities sold by us during the three months ended June 30, 2013 without registration under the Securities Act:

On May 8, 2013, we entered into a Subscription Agreement with two accredited investors (the "Investors"), pursuant to which we sold and issued to the Investors a total of 10,000,000 shares of the Company's Common Stock for proceeds of \$250,000. In connection with the Private Placement, warrants for an additional 5,000,000 shares of the Company's Common Stock was issued to one of the Investors. The Warrants are exercisable through May 8, 2018 at a per share exercise price of \$0.10

The sale and issuance of the shares of Common Stock and the warrants (and the issuance of shares of Common Stock upon exercise thereof) have been determined to be exempt from registration under the Securities Act of 1933, in reliance on Section 4(2) thereof and Rule 506 of Regulation D promulgated thereunder as a transaction by an issuer not involving a public offering, in which the investors are accredited and have acquired the securities for investment purposes only and not with a view to or for sale in connection with any distribution thereof. None of the transactions described above involved general solicitation or advertising.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

We first disclosed in the quarterly report on Form 10-Q for the three months ended March 31, 2008, that we had not repaid principal and accrued interest that became due during the quarterly period covered by such report. We disclosed in subsequent quarterly reports on Form 10-Q additional amounts that became due in ensuing quarterly periods and the results of our efforts to resolve these matters. As of June 30, 2013, there continues to remain outstanding, in the aggregate approximately \$1,003,000 of such principal and accrued interest. We continue to hold discussions with certain of the holders of the outstanding debt in an attempt to resolve this matter; no assurance can be provided that we will be successful in concluding any mutually acceptable resolution of this matter.

ITEM 6. EXHIBITS.

- 4.1 Form of Investor Warrant used in the Financing Referred to in Exhibit 101
- 10.1 Form of Subscription Agreement.
