NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

1. Organization and Business

As used in these consolidated financial statements, unless otherwise indicated, all references to “we,” “us,” “our,” the “Company,” and “Paramount” refer to Paramount Group, Inc., a Maryland corporation, and its consolidated subsidiaries, including Paramount Group Operating Partnership LP (the “Operating Partnership”), a Delaware limited partnership. We are a fully-integrated real estate investment trust (“REIT”) focused on owning, operating, managing, acquiring and redeveloping high-quality, Class A office properties in select central business district submarkets of New York City, Washington, D.C. and San Francisco. As of September 30, 2018, our portfolio consisted of 12 Class A office properties aggregating approximately 11.9 million square feet. We conduct our business through, and substantially all of our interests in properties and investments are held by, the Operating Partnership. We are the sole general partner of, and owned approximately 90.5% of, the Operating Partnership as of September 30, 2018.

2. Basis of Presentation and Significant Accounting Policies

Basis of Presentation

The accompanying consolidated financial statements are unaudited and have been prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and in conjunction with the instructions to Form 10-Q of the Securities and Exchange Commission (“SEC”). Accordingly, certain information and footnote disclosures required by GAAP for complete financial statements have been condensed or omitted. These consolidated financial statements include the accounts of Paramount and its consolidated subsidiaries, including the Operating Partnership. In the opinion of management, all significant adjustments (which include only normal recurring adjustments) and eliminations (which include intercompany balances and transactions) necessary to present fairly the financial position, results of operations and changes in cash flows have been made. The consolidated balance sheet as of December 31, 2017 was derived from audited financial statements as of that date, but does not include all information and disclosures required by GAAP. These consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2017, as filed with the SEC.

Significant Accounting Policies

There are no material changes to our significant accounting policies as disclosed in our Annual Report on Form 10-K for the year ended December 31, 2017.

Use of Estimates

We have made estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ materially from those estimates. The results of operations for the three and nine months ended September 30, 2018, are not necessarily indicative of the operating results for the full year.

Reclassification

Recently Issued Accounting Pronouncements Not Materially Impacting Our Financial Statements

In May 2014, the Financial Accounting Standard's Board ("FASB") issued ASU 2014-09, an update to ASC Topic 606, Revenue from Contracts with Customers. ASU 2014-09, as amended, supersedes nearly all existing revenue recognition guidance under U.S. GAAP. The core principle of this guidance is that an entity should recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration which the entity expects to receive in exchange for those goods or services. This guidance also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments made in applying the guidance. This guidance is effective for fiscal years beginning after December 15, 2017, and for interim periods within those fiscal years, and can be applied using a full retrospective or modified retrospective approach. We adopted the provisions of ASU 2014-09 on January 1, 2018, using the modified retrospective approach. The adoption of ASU 2014-09 did not impact our consolidated financial results but resulted in additional disclosures on our consolidated financial statements. See Note 16, Revenues.

In June 2016, the FASB issued ASU 2016-13, an update to ASC Topic 326, Financial Instruments – Credit Losses. ASU 2016-13 requires measurement and recognition of expected credit losses on financial instruments measured at amortized cost at the end of each reporting period rather than recognizing the credit losses when it is probable that the loss has been incurred in accordance with current guidance. ASU 2016-13 is effective for interim and annual reporting periods in fiscal years that begin after December 15, 2019, with early adoption permitted for fiscal years beginning after December 15, 2018. We are evaluating the impact of ASU 2016-13 but do not believe the adoption will have a material impact on our consolidated financial statements.

In May 2017, the FASB issued ASU 2017-09, an update to ASC Topic 718, Compensation – Stock Compensation. ASU 2017-09 clarifies the types of changes to the terms and conditions of a share-based payment award that requires modification accounting. ASU 2017-09 does not change the accounting for modification of share-based awards, but clarifies that modification accounting should only be applied if there is a change to the value, vesting condition or award classification and would not be required if the changes are considered non-substantive. ASU 2017-09 is effective for interim and annual reporting periods in fiscal years that begin after December 31, 2017, with early adoption permitted. We adopted the provisions of ASU 2017-09 on January 1, 2018 and the adoption of ASU 2017-09

did not have an impact on our consolidated financial statements.

In August 2017, the FASB issued ASU 2017-12, an update to ASC Topic 815, Derivatives and Hedging. ASU 2017-12 improves transparency and understandability of information by better aligning the financial reporting for hedging relationships with the risk management activities. ASU 2017-12 also simplifies the application of hedge accounting through changes in both the designation and measurement of qualifying hedging relationships. ASU 2017-12 is effective for interim and annual reporting periods in fiscal years that begin after December 15, 2018, with early adoption permitted. We are evaluating the impact of ASU 2017-12 but do not believe the adoption will have an impact on our consolidated financial statements.

In August 2018, the FASB issued ASU 2018-13, an update to ASC Topic 820, Fair Value Measurements. ASU 2018-13 modifies the disclosure requirements in ASC Topic 820, by (i) removing certain disclosure requirements related to transfers between Level 1 and Level 2 of the fair value hierarchy and the valuation processes for Level 3 fair value measurements, (ii) modifying existing disclosure requirements related to measurement uncertainty and (iii) adding new disclosure requirements related to changes in unrealized gains or losses for the period included in other comprehensive income for recurring Level 3 fair value measurements and disclosures related to the range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements. ASU 2018-13 is effective for interim and annual reporting periods in fiscal years that begin after December 15, 2019, with early adoption permitted. We are evaluating the impact of ASU 2018-13 but do not believe the adoption will have an impact on our consolidated financial statements.

Recently Issued Accounting Pronouncements Impacting or Potentially Impacting Our Financial Statements

In February 2016, the FASB issued ASU 2016-02, an update to ASC Topic 842, Leases. ASU 2016-02 amends the existing guidance for lease accounting by requiring lessees to, among other things, (i) recognize most leases on their balance sheets, (ii) classify leases as either financing or operating, and (iii) record a right-of-use asset and a lease liability for all leases with a term greater than 12 months. ASU 2016-02 is effective for interim and annual reporting periods in fiscal years that begin after December 15, 2018, with early adoption permitted. We plan to adopt the provisions of ASU 2016-02 on January 1, 2019, using the modified retrospective method and we will record a right-of-use asset and a lease liability upon such adoption for a select few leases in which we are a lessee. However, we do not believe that any asset and liability recorded in connection with such adoption will have a material impact to our financial statements.

While accounting for lessors under ASU 2016-02 is substantially similar to existing lease accounting guidance, lessors are required to separate payments received pursuant to a lease between lease components (rental income) and non-lease components (revenue related to various services we provide). In July 2018, the FASB issued ASU 2018-11, which provided lessors with a practical expedient to not separate lease and non-lease components, if certain criteria are met. We believe we meet such criteria and upon the adoption of ASU 2016-02, we plan to elect this practical expedient.

Furthermore, ASU 2016-02 also updates the definition of initial direct costs for both lessees and lessors to include only incremental costs of a lease that would not have been incurred if the lease had not been obtained. As a result, upon adoption of ASU 2016-02 on January 1, 2019, we will no longer be able to capitalize internal leasing costs and will have to expense them instead. We had capitalized internal leasing costs of \$1,169,000 and \$1,491,000 for the three months ended September 30, 2018 and 2017, respectively, and \$4,276,000 and \$4,488,000, for the nine months ended September 30, 2018 and 2017, respectively.

In November 2016, the FASB issued ASU 2016-18, an update to ASC Topic 230, Statement of Cash Flows, to provide guidance on classification and presentation of changes in restricted cash on the statement of cash flows. ASU 2016-18 requires that an entity's reconciliation of the beginning-of-period and end-of-period total amounts shown on

the statement of cash flows to include restricted cash with cash and cash equivalents. ASU 2016-18 is effective for interim and annual reporting periods in fiscal years that begin after December 15, 2017, with early adoption permitted. We elected to early adopt ASU 2016-18 retrospectively, on December 31, 2017. This adoption resulted in (i) additional disclosures to reconcile cash and cash equivalents and restricted cash on our consolidated balance sheets to our consolidated statements of cash flows and (ii) a decrease to cash provided by operating activities of \$3,000,000 and an increase in cash provided by investing activities of \$5,946,000 for the nine months ended September 30, 2017.

In February 2017, the FASB issued ASU 2017-05, an update to ASC Topic 610, Other Income. ASU 2017-05 clarifies the scope and accounting for derecognition of a nonfinancial asset and eliminates the guidance in ASC 360-20 specific to real estate sales and partial sales. ASU 2017-05 requires an entity that transfers control of a nonfinancial asset to measure any noncontrolling interest it retains (or receives) at fair value. ASU 2017-05 is effective for interim and annual reporting periods in fiscal years that begin after December 15, 2017, with early adoption permitted for entities concurrently early adopting ASU 2014-09. We adopted the provisions of ASU 2017-05 on January 1, 2018, using the modified retrospective approach. Upon adoption, we recorded a \$7,086,000 adjustment to “investments in unconsolidated joint ventures” relating to the measurement of our consolidated Residential Development Fund’s (“RDF”) retained interest in One Stuart Lane (formerly 75 Howard Street) at fair value with an offset to equity. See Note 5, Investments in Unconsolidated Joint Ventures.

5. Investments in Unconsolidated Joint Ventures

Prior to March 14, 2018, RDF, in which we have a 7.4% interest, owned 20.0% of One Steuart Lane (the “Property”). On March 14, 2018, RDF transferred its 20.0% interest to a new joint venture in which it owns a 75.0% interest. Separately on March 14, 2018, RDF acquired an additional 10.0% interest in the Property from its existing partner. Subsequent to these transactions RDF owns a 25.0% economic interest in the Property, comprised of the newly acquired 10.0% interest and an indirect 15.0% interest it owns through the joint venture. As a result of these transactions, RDF was required to consolidate its 75.0% interest in the joint venture that owns 20.0% of the Property, and reflect the 25.0% interest in this venture (5.0% economic interest in the Property) it does not own as noncontrolling interests. We continue to consolidate our 7.4% interest in RDF and reflect the 92.6% interest we do not own as noncontrolling interests. As of September 30, 2018, our economic interest in the Property was 1.85%.

10. Derivative Instruments and Hedging Activities

Interest Rate Swaps – Designated as Cash Flow Hedges

We have interest rate swaps with an aggregate notional amount of \$1.0 billion that are designated as cash flow hedges. We also have entered into forward starting interest rate swaps with an aggregate notional amount of \$400,000,000 to extend the maturity of certain swaps for an additional year. Changes in the fair value of interest rate swaps that are designated as cash flow hedges are recognized in “other comprehensive income (loss)” (outside of earnings). We recognized other comprehensive income of \$3,392,000 and \$738,000 for the three months ended September 30, 2018 and 2017, respectively, and \$23,738,000 and \$729,000 for the nine months ended September 30, 2018 and 2017, respectively, from the changes in fair value of these interest rate swaps. See Note 12, Accumulated Other Comprehensive Income (Loss). During the next twelve months, we estimate that \$8,223,000 of the amounts recognized in accumulated other comprehensive income will be reclassified as a decrease to interest expense.

The table below summarizes the fair value of our interest rate swaps that are designated as cash flow hedges.

(Amounts in thousands)	Fair Value as of	
	September 30, 2018	December 31, 2017
Interest rate swap assets designated as cash flow hedges (included in “other assets”)	\$33,276	\$ 9,855
Interest rate swap liabilities designated as cash flow hedges (included in “other liabilities”)	\$-	\$ 317

We have agreements with various derivative counterparties that contain provisions wherein a default on our indebtedness could be deemed a default on our derivative obligations, which would require us to either post collateral up to the fair value of our derivative obligations or settle the obligations for cash. As of September 30, 2018, we did not have any obligations relating to our swaps that contained such provisions.

Interest Rate Swaps – Non-designated Hedges

As of September 30, 2018, we did not have any interest rate swaps that were not designated as hedges. Prior to January 19, 2017, our interest rate swap on One Market Plaza was not designated as a hedge. This interest rate swap was terminated in connection with the refinancing of the property on January 19, 2017. For the period from January 1, 2017 through January 19, 2017, we recognized an unrealized gain of \$1,802,000, in connection with this interest rate swap, which is included as “unrealized gain on interest rate swaps” in our consolidated statement of income for the nine months ended September 30, 2017.

11. Equity

Stock Repurchase Program

On August 1, 2017, we received authorization from our Board of Directors to repurchase up to \$200,000,000 of our common stock from time to time, in the open market or in privately negotiated transactions. As of October 31, 2018, we have repurchased an aggregate of 3,443,000 shares, or \$50,000,000 of our common stock, at a weighted average price of \$14.53 per share. Common units of the Operating Partnership may be tendered for redemption to the Operating Partnership for cash. Since the number of common shares outstanding is equal to the number of common units owned by us, the redemption value of each common unit is equal to the market value of each common share and distributions paid to each common unitholder is equivalent to dividends paid to common stockholders. As of September 30, 2018 and December 31, 2017, noncontrolling interests in the Operating Partnership on our consolidated balance sheets had a carrying amount of \$429,986,000 and \$425,797,000, respectively, and a redemption value of \$379,166,000 and \$390,231,000, respectively.

14. Variable Interest Entities (“VIEs”)

In the normal course of business, we are the general partner of various types of investment vehicles, which may be considered VIEs. We may, from time to time, own equity or debt securities through vehicles, each of which are considered variable interests. Our involvement in financing the operations of the VIEs is generally limited to our investments in the entity. We consolidate these entities when we are deemed to be the primary beneficiary.

Consolidated VIEs

We are the sole general partner of, and own approximately 90.5% of, the Operating Partnership as of September 30, 2018. The Operating Partnership is considered a VIE and is consolidated in our consolidated financial statements. Since we conduct our business through and substantially all of our interests are held by the Operating Partnership, the assets and liabilities on our consolidated financial statements represent the assets and liabilities of the Operating Partnership. As of September 30, 2018 and December 31, 2017, the Operating Partnership held interests in consolidated VIEs owning properties, a real estate fund and preferred equity investments that were determined to be VIEs. The assets of these consolidated VIEs may only be used to settle the obligations of the entities and such obligations are secured only by the assets of the entities and are non-recourse to the Operating Partnership or us. The table below summarizes the assets and liabilities of consolidated VIEs of the Operating Partnership.

Revenue from Contracts with Customers

Revenue from contracts with customers, which is primarily comprised of (i) property management fees, (ii) asset management fees, (iii) fees relating to acquisitions, dispositions and leasing services and (iv) other fee income, is recognized in accordance with ASC Topic 606, Revenue From Contracts With Customers. Fee income is generated from the various services we provide to our customers and is disaggregated based on the types of services we provide pursuant to ASC Topic 606.

Fee income is recognized as and when we satisfy our performance obligations pursuant to contractual agreements. Property management and asset management services are provided continuously over time and revenue is recognized over that time. Fee income relating to acquisitions, dispositions and leasing services is recognized upon completion of the acquisition, disposition or leasing services as required in the contractual agreements. The amount of fee income to be recognized is stated in the contract as a fixed price or as a stated percentage of revenues, contributed capital or transaction price. Fee income is reported in a non-operating segment, and therefore is shown as a reconciling item to net income in Note 24, Segments.

The table below sets forth the amounts receivable from our customers under our various fee agreements and are included as a component of “accounts and other receivables” on our consolidated balance sheets.

These amounts are included as a component of “accounts payable and accrued expenses” on our consolidated balance sheets and will be recognized as income upon completion of the required services.

There are no other contract assets or liabilities as of September 30, 2018 and December 31, 2017.

17. Real Estate Impairment Loss

On June 30, 2018, we wrote down the value of certain real estate assets in our Washington, D.C. portfolio. Our estimates of fair value were determined using discounted cash flow models, which considered, among other things, anticipated holding periods, current market conditions and utilized unobservable quantitative inputs, including appropriate capitalization and discount rates. Accordingly, we recorded a \$46,000,000 impairment loss based on the excess of the carrying value over the estimated fair value, which is included as “real estate impairment loss” on our consolidated statement of income for the nine months ended September 30, 2018.

20. Incentive Compensation

Stock-Based Compensation

We account for all stock-based compensation in accordance with ASC 718, Compensation – Stock Compensation. As of September 30, 2018, we have 9,254,010 shares available for future grants under the 2014 Equity Incentive Plan (“Plan”), if all awards granted are full value awards, as defined in the Plan. Stock-based compensation expense was \$4,330,000 and \$3,825,000 for the three months ended September 30, 2018 and 2017, respectively, and \$15,245,000 and \$11,692,000 for the nine months ended September 30, 2018 and 2017, respectively.

2017 Performance-Based Awards Program (“2017 Performance Program”)

On February 5, 2018, the Compensation Committee of our Board of Directors (the “Compensation Committee”) approved the 2017 Performance Program, a multi-year performance-based long-term equity compensation program. The purpose of the 2017 Performance Program is to further align the interests of our stockholders with that of management by encouraging our senior officers to create stockholder value in a “pay for performance” structure.

Under the 2017 Performance Program, participants may earn awards in the form of Long Term Incentive Plan (“LTIP”) units of our Operating Partnership based on our Total Shareholder Return (“TSR”) over a three-year performance measurement period beginning on January 1, 2018 and continuing through December 31, 2020, on both an absolute basis and relative basis as follows:

25.0% of the award is earned if our TSR over the three-year performance measurement period equals or exceeds 30.0%, with no awards being earned if our TSR over such period is less than 18.0% and awards being determined based on linear interpolation if our TSR over such period falls between such ranges.

75.0% of the award is earned if our TSR over the three-year performance measurement period equals or exceeds the 80th percentile of the performance of the SNL Office REIT Index constituents on a relative basis, with no awards being earned if our TSR over such period is less than the 30th percentile and awards being determined based on linear interpolation if our TSR over such period falls between such ranges.

Awards granted to our Chief Executive Officer, under the 2017 Performance Program include an additional performance feature requiring threshold TSR performance on both an absolute and a relative basis in order for any awards to be earned. Accordingly, our Chief Executive Officer will not earn any awards under the 2017 Performance Program unless our TSR for the performance measurement period is 18.0% or higher and in the 30th percentile or higher of the SNL Office REIT Index constituents.

In addition, if the designated performance objectives are achieved, awards earned under the 2017 Performance Program are also subject to vesting based on continued employment with us through December 31, 2021, with 50.0% of each award vesting upon the conclusion of the performance measurement period, and the remaining 50.0% vesting on December 31, 2021. Furthermore, our Named Executive Officers are required to hold earned awards for an additional year following vesting.

The fair value of the awards granted under the 2017 Performance Program on the date of the grant was \$7,009,000 and is being amortized into expense over the four-year vesting period using a graded vesting attribution method.

2015 Performance-Based Awards Program (“2015 Performance Program”)

On April 3, 2018, the Compensation Committee determined that the performance goals set forth in the 2015 Performance Program were not satisfied during the performance measurement period, which ended on March 31, 2018. Accordingly, all of the 779,055 LTIP units that were granted on April 1, 2015, were forfeited, with no awards being earned. As of April 3, 2018, we had \$947,000 of total unrecognized compensation cost related to these awards, which will be recognized over a weighted-average period of 1.6 years.

Hamburg Trust Consulting GMBH (“HTC”)

We have an agreement with HTC, a licensed broker in Germany, to supervise selling efforts for our private equity real estate funds (or investments in feeder vehicles for these funds) to investors in Germany, including distribution of securitized notes of a feeder vehicle for Fund VIII. Pursuant to this agreement, we have agreed to pay HTC for the costs incurred to sell investments in this feeder vehicle, which primarily consist of commissions paid to third party agents, and other incremental costs incurred by HTC as a result of the engagement, plus, in each case, a mark-up of 10%. HTC is 100% owned by Albert Behler, our Chairman, Chief Executive Officer and President. We incurred expense of \$69,000 and \$50,000 for the three months ended September 30, 2018 and 2017, respectively, and \$129,000 and \$220,000 for the nine months ended September 30, 2018 and 2017, respectively, in connection with these agreements, which is included as a component of “transaction related costs” on our consolidated statements of income. Mannheim Trust

Dr. Martin Bussmann (a member of our Board of Directors) is also a trustee and a director of Mannheim Trust, a subsidiary of which leases office space at 712 Fifth Avenue, our 50.0% owned unconsolidated joint venture. The

Mannheim Trust, which is for the benefit of Dr. Bussmann's children, leases 5,593 square feet, which expires in April 2023. Our share of rental income from this lease was \$92,000 and \$96,000, for the three months ended September 30, 2018 and 2017, respectively, and \$273,000 and \$274,000 for the nine months ended September 30, 2018 and 2017, respectively.

23. Commitments and Contingencies

Insurance

We carry commercial general liability coverage on our properties, with limits of liability customary within the industry. Similarly, we are insured against the risk of direct and indirect physical damage to our properties including coverage for the perils such as floods, earthquakes and windstorms. Our policies also cover the loss of rental income during an estimated reconstruction period. Our policies reflect limits and deductibles customary in the industry and specific to the buildings and portfolio. We also obtain title insurance policies when acquiring new properties. We currently have coverage for losses incurred in connection with both domestic and foreign terrorist-related activities. While we do carry commercial general liability insurance, property insurance and terrorism insurance with respect to our properties, these policies include limits and terms we consider commercially reasonable. In addition, there are certain losses (including, but not limited to, losses arising from known environmental conditions or acts of war) that are not insured, in full or in part, because they are either uninsurable or the cost of insurance makes it, in our belief, economically impractical to maintain such coverage. Should an uninsured loss arise against us, we would be required to use our own funds to resolve the issue, including litigation costs. We believe the policy specifications and insured limits are adequate given the relative risk of loss, the cost of the coverage and industry practice and, in consultation with our insurance advisors, we believe the properties in our portfolio are adequately insured.

Other Commitments and Contingencies

We are a party to various claims and routine litigation arising in the ordinary course of business. Some of these claims or others to which we may be subject from time to time, including claims arising specifically from the formation transactions, in connection with our initial public offering, may result in defense costs, settlements, fines or judgments against us, some of which are not, or cannot be, covered by insurance. Payment of any such costs, settlements, fines or judgments that are not insured could have an adverse impact on our financial position and results of operations. Should any litigation arise in connection with the formation transactions, we would contest it vigorously. In addition, certain litigation or the resolution of certain litigation may affect the availability or cost of some of our insurance coverage, which could adversely impact our results of operations and cash flow, expose us to increased risks that would be uninsured, and/or adversely impact our ability to attract officers and directors.

The terms of our mortgage debt and certain side letters in place include certain restrictions and covenants which may limit, among other things, certain investments, the incurrence of additional indebtedness and liens and the disposition or other transfer of assets and interests in the borrower and other credit parties, and require compliance with certain debt yield, debt service coverage and loan to value ratios. In addition, our revolving credit facility contains representations, warranties, covenants, other agreements and events of default customary for agreements of this type with comparable companies. As of September 30, 2018, we believe we are in compliance with all of our covenants.

718 Fifth Avenue - Put Right

Prior to the formation transactions, an affiliate of our predecessor owned a 25.0% interest in 718 Fifth Avenue, a five-story building containing 19,050 square feet of prime retail space that is located on the southwest corner of 56th Street and Fifth Avenue in New York, (based on its 50.0% interest in a joint venture that held a 50.0% tenancy-in-common interest in the property). Prior to the completion of the formation transactions, this interest was sold to its partner in the 718 Fifth Avenue joint venture, who is also our joint venture partner in 712 Fifth Avenue, New York, New York. In connection with this sale, we granted our joint venture partner a put right, pursuant to which the 712 Fifth Avenue joint venture would be required to purchase the entire direct or indirect interests then held by our joint venture partner or its affiliates in 718 Fifth Avenue at a purchase price equal to the fair market value of such interests. The put right may be exercised at any time with the actual purchase occurring no earlier than 12 months after written notice is provided. If the put right is exercised and the 712 Fifth Avenue joint venture acquires the 50.0%

tenancy-in-common interest in the property by our joint venture partner, we will own a 25.0% interest in 718 Fifth Avenue based on current ownership interests.

Transfer Tax Assessments

During 2017, the New York City Department of Finance issued Notices of Determination (“Notices”) assessing additional transfer taxes (including interest and penalties) in connection with the transfer of interests in certain properties during our 2014 initial public offering. Prior to February 16, 2018, we believed that the likelihood of a loss related to these assessments was remote. On February 16, 2018, the New York City Tax Appeals Tribunal issued a decision against a publicly traded REIT in a case interpreting the same provisions of the transfer tax statute, on similar but distinguishable facts. As a result, after consultation with legal counsel, we now believe the likelihood of loss is reasonably possible, and while it is not possible to predict the outcome of these Notices, we estimate the range of loss could be between \$0 and \$38,900,000. Since no amount in this range is a better estimate than any other amount within the range, we have not accrued any liability arising from potential losses relating to these Notices in our consolidated financial statements.

Our reportable segments are separated by region based on the three regions in which we conduct our business: New York, Washington, D.C. and San Francisco. Our determination of segments is aligned with our method of internal reporting and the way our Chief Executive Officer, who is also our Chief Operating Decision Maker, makes key operating decisions, evaluates financial results and manages our business.

The following tables provide Net Operating Income (“NOI”) for each reportable segment for the three and nine months ended September 30, 2018 and 2017.

⁽¹⁾NOI is used to measure the operating performance of our properties. NOI consists of property-related revenue (which includes rental income, tenant reimbursement income and certain other income) less operating expenses (which includes building expenses such as cleaning, security, repairs and maintenance, utilities, property administration and real estate taxes). We use NOI internally as a performance measure and believe it provides useful information to investors regarding our financial condition and results of operations because it reflects only those income and expense items that are incurred at the property level. Other real estate companies may use different methodologies for calculating NOI and, accordingly, our presentation of NOI may not be comparable to other real estate companies.

Forward-Looking Statements

We make statements in this Quarterly Report on Form 10-Q that are considered "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act, which are usually identified by the use of words such as "anticipates," "believes," "estimates," "expects," "intends," "may," "plans," "projects," "seeks," "should," "will," and such words or similar expressions. We intend these forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 and are including this statement for purposes of complying with those safe harbor provisions. These forward-looking statements reflect our current views about our plans, intentions, expectations, strategies and prospects, which are based on the information currently available to us and on assumptions we have made. Although we believe that our plans, intentions, expectations, strategies and prospects as reflected in or suggested by those forward-looking statements are reasonable, we can give no assurance that the plans, intentions, expectations or strategies will be attained or achieved. Furthermore, actual results may differ materially from those described in the forward-looking statements and will be affected by a variety of risks and factors that are beyond our control including, without limitation:

- unfavorable market and economic conditions in the United States and globally and in New York City, Washington, D.C. and San Francisco;
- risks associated with our high concentrations of properties in New York City, Washington, D.C. and San Francisco;
- risks associated with ownership of real estate;
- decreased rental rates or increased vacancy rates;
- the risk we may lose a major tenant;
- limited ability to dispose of assets because of the relative illiquidity of real estate investments;
- intense competition in the real estate market that may limit our ability to acquire attractive investment opportunities and increase the costs of those opportunities;

- insufficient amounts of insurance;
- uncertainties and risks related to adverse weather conditions, natural disasters and climate change;
- risks associated with actual or threatened terrorist attacks;
- exposure to liability relating to environmental and health and safety matters;
- high costs associated with compliance with the Americans with Disabilities Act;
- failure of acquisitions to yield anticipated results;
- risks associated with real estate activity through our joint ventures and private equity real estate funds;
- general volatility of the capital and credit markets and the market price of our common stock;

- exposure to litigation or other claims;
- loss of key personnel;
- risks associated with security breaches through cyber attacks or cyber intrusions and other significant disruptions of our information technology (“IT”) networks and related systems;

- risks associated with our substantial indebtedness;
- failure to refinance current or future indebtedness on favorable terms, or at all;
- failure to meet the restrictive covenants and requirements in our existing debt agreements;

32

- fluctuations in interest rates and increased costs to refinance or issue new debt;
- risks associated with variable rate debt, derivatives or hedging activity;
- risks associated with future sales of our common stock by our continuing investors or the perception that our continuing investors intend to sell substantially all of the shares of our common stock that they hold;
- risks associated with the market for our common stock;
- regulatory changes, including changes to tax laws and regulations;
- failure to qualify as a real estate investment trust (“REIT”);
- compliance with REIT requirements, which may cause us to forgo otherwise attractive opportunities or liquidate certain of our investments; or
- any of the other risks included in this Quarterly Report on Form 10-Q or in our Annual Report on Form 10-K for the year ended December 31, 2017, including those set forth in Item 1A entitled “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2017.

Accordingly, there is no assurance that our expectations will be realized. Except as otherwise required by the U.S. federal securities laws, we disclaim any obligations or undertaking to publicly release any updates or revisions to any forward-looking statement contained herein (or elsewhere) to reflect any change in our expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based. A reader should review carefully our consolidated financial statements and the notes thereto, as well as Item 1A entitled “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2017.

Critical Accounting Policies

There are no material changes to our critical accounting policies disclosed in our Annual Report on Form 10-K for the year ended December 31, 2017.

Recently Issued Accounting Literature

A summary of our recently issued accounting literature and their potential impact on our consolidated financial statements, if any, are included in Note 2, Basis of Presentation and Significant Accounting Policies, to our consolidated financial statements in this Quarterly Report on Form 10-Q.

Business Overview

We are a fully-integrated REIT focused on owning, operating, managing, acquiring and redeveloping high-quality, Class A office properties in select central business district submarkets of New York City, Washington, D.C. and San Francisco. We conduct our business through, and substantially all of our interests in properties and investments are held by, Paramount Group Operating Partnership LP, a Delaware limited partnership (the “Operating Partnership”). We are the sole general partner of, and owned approximately 90.5% of the Operating Partnership as of September 30, 2018.

Dispositions

On August 9, 2018, we completed the sale of 2099 Pennsylvania Avenue, a 208,776 square foot, Class A office building in Washington, D.C. for \$219,900,000 and recognized a gain of \$35,836,000.

On September 27, 2018, we completed the sale of 425 Eye Street, a 372,552 square foot, Class A office building in Washington, D.C. for \$157,000,000 and recognized a gain of \$1,009,000.

Financings

On January 10, 2018, we amended and restated the credit agreement governing our revolving credit facility. The maturity date of the revolving credit facility was extended from November 2018 to January 2022, with two six-month extension options, and the capacity was increased to \$1,000,000,000 from \$800,000,000. The interest rate on the extended facility, at current leverage levels, was lowered by 10 basis points from LIBOR plus 125 basis points to LIBOR plus 115 basis points, and the facility fee was reduced by 5 basis points from 25 basis points to 20 basis points.

Stock-Repurchase Program

On August 1, 2017, we received authorization from our Board of Directors to repurchase up to \$200,000,000 of our common stock from time to time, in the open market or in privately negotiated transactions. As of October 31, 2018, we have repurchased an aggregate of 3,443,000 shares, or \$50,000,000 of our common stock, at a weighted average price of \$14.53 per share. Of this amount, 236,674 shares, or \$3,569,000 of our common stock, was repurchased in the three months ended September 30, 2018, at a weighted average price of \$15.08 per share.

Income from Unconsolidated Joint Ventures

Income from unconsolidated joint ventures was \$472,000 for the three months ended September 30, 2018, compared to \$671,000 for the three months ended September 30, 2017, a decrease of \$199,000. This decrease was primarily due to lower income at One Steuart Lane (formerly 75 Howard Street) in the three months ended September 30, 2018.

Loss from Unconsolidated Real Estate Funds

Loss from unconsolidated real estate funds was \$188,000 for the three months ended September 30, 2018, compared to \$3,930,000 for the three months ended September 30, 2017, a decrease in loss of \$3,742,000. This increase was primarily due to (i) \$1,248,000 of “sting” taxes in connection with the sale of real estate in the three months ended September 30, 2018 and (ii) a lower expense in the three months ended September 30, 2017 resulting from a true-up of the prior year income tax provision.

⁽¹⁾As of September 30, 2018, our basis in the partnership was negative \$20,256 resulting from distributions made to us in excess of our share of earnings recognized. Accordingly, we no longer recognize our proportionate share of earnings from the venture because we have no further obligation to fund additional capital to the venture. Instead, we only recognize earnings to the extent we receive cash distributions from the venture.

Loss from Unconsolidated Real Estate Funds

Loss from unconsolidated real estate funds was \$268,000 for the nine months ended September 30, 2018, compared to \$6,053,000 for the nine months ended September 30, 2017, a decrease of \$5,785,000. This decrease was primarily due to a reversal of carried interest in the nine months ended September 30, 2017 of \$5,590,000.

Interest and Other Income (Loss), net

Interest and other income was \$6,888,000 for the nine months ended September 30, 2018, compared to a loss of \$11,982,000 for the nine months ended September 30, 2017, an increase in income of \$18,870,000. This increase resulted from:

In May 2018, the senior lender foreclosed out our interests and accordingly, we wrote off our preferred equity investment.

Loss on Early Extinguishment of Debt

Loss on early extinguishment of debt was \$7,877,000 for the nine months ended September 30, 2017 and represents costs related to (i) the early repayment of One Market Plaza's debt in January 2017, in connection with its refinancing and (ii) the early repayment of debt at 1899 Pennsylvania Avenue and Liberty Place in May 2017.

Gain on Sale of Real Estate

In the nine months ended September 30, 2018, we recognized a \$36,845,000 gain on sale of real estate, comprised of (i) a \$35,836,000 gain on sale of 2099 Pennsylvania Avenue, which was sold for \$219,900,000 in August 2018 and (ii) a \$1,009,000 gain on sale of 425 Eye Street, which was sold for \$157,000,000 in September 2018. In the nine

months ended September 30, 2017, we recognized a \$133,989,000 gain on sale of real estate, comprised of (i) an \$110,583,000 gain on sale of Waterview, which was sold for \$460,000,000 in May 2017 and (ii) a \$23,406,000 gain on sale of an 80.0% equity interest in One Steuart Lane in May 2017.

Unrealized Gain on Interest Rate Swaps

Unrealized gain on interest rate swaps was \$1,802,000 for the nine months ended September 30, 2017 and represents gains relating to swaps aggregating \$840,000,000 on One Market Plaza that were settled upon the refinancing in January 2017.

Income Tax Expense

Income tax expense was \$2,171,000 for the nine months ended September 30, 2018, compared to \$4,242,000 for the nine months ended September 30, 2017, a decrease of \$2,071,000. This decrease was primarily due to higher taxable income in the nine months ended September 30, 2017, partially offset by \$1,248,000 of “sting” taxes in connection with the sale of real estate in the nine months ended September 30, 2018.

Net Income (Loss) Attributable to Noncontrolling Interests in Consolidated Joint Ventures

Net income attributable to noncontrolling interest in consolidated joint ventures was \$5,520,000 for the nine months ended September 30, 2018, compared to net loss of \$11,029,000 for the nine months ended September 30, 2017, an increase in income allocated to noncontrolling interests in consolidated joint ventures of \$16,549,000. This increase resulted from:

compared to income of \$2,508 in 2017)	(431)
Total increase	\$ 16,549

⁽¹⁾Primarily due to lower interest expense in 2018 and costs related to early repayment of One Market Plaza’s debt in connection with its refinancing in 2017.

Net Income Attributable to Noncontrolling Interests in Consolidated Real Estate Fund

Net income attributable to noncontrolling interests in consolidated real estate fund was \$668,000 for the nine months ended September 30, 2018, compared to \$20,195,000 for the nine months ended September 30, 2017, a decrease in income attributable to the noncontrolling interests of \$19,527,000. This decrease was primarily due to noncontrolling interests share of the gain on the sale of an 80.0% equity interest in One Steuart Lane in May 2017.

Net Income Attributable to Noncontrolling Interests in Operating Partnership

Net income attributable to noncontrolling interests in Operating Partnership was \$381,000 for the nine months ended September 30, 2018, compared to \$12,068,000 for the nine months ended September 30, 2017, a decrease in income attributable to noncontrolling interests of \$11,687,000. This decrease resulted from a lower net income subject to allocation to the unitholders of the Operating Partnership for the nine months ended September 30, 2018.

Liquidity and Capital Resources

Liquidity

Our primary sources of liquidity include existing cash balances, cash flow from operations and borrowings available under our revolving credit facility. We expect that these sources will provide adequate liquidity over the next 12 months for all anticipated needs, including scheduled principal and interest payments on our outstanding indebtedness, existing and anticipated capital improvements, the cost of securing new and renewal leases, dividends to stockholders and distributions to unitholders, and all other capital needs related to the operations of our business. We anticipate that our long-term needs including debt maturities and the acquisition of additional properties will be funded by operating cash flow, mortgage financings and/or re-financings, the issuance of long-term debt or equity and cash on hand.

Although we may be able to anticipate and plan for certain of our liquidity needs, unexpected increases in uses of cash that are beyond our control and which affect our financial condition and results of operations may arise, or our sources of liquidity may be fewer than, and the funds available from such sources may be less than, anticipated or required.

As of September 30, 2018, we had \$1.570 billion of liquidity comprised of \$538,725,000 of cash and cash equivalents, \$30,902,000 of restricted cash and \$1.0 billion of borrowing capacity under our revolving credit facility. As of September 30, 2018, our outstanding consolidated debt aggregated \$3.6 billion. We had no amounts outstanding under our revolving credit facility as of September 30, 2018 and none of our debt matures until 2021. We may refinance our maturing debt when it comes due or refinance or repay it early depending on prevailing market conditions, liquidity requirements and other factors. The amounts involved in connection with these transactions could be material to our consolidated financial statements.

Revolving Credit Facility

On January 10, 2018, we amended and restated the credit agreement governing our revolving credit facility. The maturity date of the revolving credit facility was extended from November 2018 to January 2022, with two six-month extension options, and the capacity was increased to \$1.0 billion from \$800,000,000. The interest rate on the extended facility, at current leverage levels, was lowered by 10 basis points from LIBOR plus 125 basis points to LIBOR plus 115 basis points, and the facility fee was reduced by 5 basis points from 25 basis points to 20 basis points. We also

have an option, subject to customary conditions and incremental lender commitments, to increase the capacity under the facility to \$1.5 billion at any time prior to the maturity date of the facility.

The facility contains certain restrictions and covenants that require us to maintain, on an ongoing basis, (i) a leverage ratio not to exceed 60%, however, the leverage ratio may be increased to 65% for any fiscal quarter in which an acquisition of real estate is completed and for up to the next three subsequent consecutive fiscal quarters, (ii) a secured leverage ratio not to exceed 50%, (iii) a fixed charge coverage ratio of at least 1.50, (iv) an unsecured leverage ratio not to exceed 60%, however, the unsecured leverage ratio may be increased to 65% for any fiscal quarter in which an acquisition of real estate is completed and for up to the next three subsequent consecutive fiscal quarters and (v) an unencumbered interest coverage ratio of at least 1.75. The facility also contains customary representations and warranties, limitations on permitted investments and other covenants.

Dividend Policy

On September 14, 2018, we declared a regular quarterly cash dividend of \$0.10 per share of common stock for the third quarter ending September 30, 2018, which was paid on October 15, 2018 to stockholders of record as of the close of business on September 28, 2018. This dividend policy, if continued, would require us to pay out approximately \$26,300,000 each quarter to common stockholders and unitholders.

Off Balance Sheet Arrangements

As of September 30, 2018, our unconsolidated joint ventures had \$896,700,000 of outstanding indebtedness, of which our share was \$180,869,000. We do not guarantee the indebtedness of our unconsolidated joint ventures other than providing customary environmental indemnities and guarantees of specified non-recourse carve outs relating to specified covenants and representations; however, we may elect to fund additional capital to a joint venture through equity contributions (generally on a basis proportionate to our ownership interests), advances or partner loans in order to enable the joint venture to repay this indebtedness upon maturity.

Stock Repurchase Program

On August 1, 2017, we received authorization from our Board of Directors to repurchase up to \$200,000,000 of our common stock from time to time, in the open market or in privately negotiated transactions. As of October 31, 2018, we have repurchased an aggregate of 3,443,000 shares, or \$50,000,000 of our common stock, at a weighted average price of \$14.53 per share. Of this amount, 236,674 shares, or \$3,569,000 of our common stock, was repurchased in the three months ended September 30, 2018, at a weighted average price of \$15.08 per share. As of November 1, 2018, we have \$150,000,000 available for future repurchases. The amount and timing of repurchases, if any, will depend on a number of factors, including, the price and availability of our shares, trading volume and general market conditions. The stock repurchase program may be suspended or discontinued at any time.

Insurance

We carry commercial general liability coverage on our properties, with limits of liability customary within the industry. Similarly, we are insured against the risk of direct and indirect physical damage to our properties including coverage for the perils such as floods, earthquakes and windstorms. Our policies also cover the loss of rental income during an estimated reconstruction period. Our policies reflect limits and deductibles customary in the industry and specific to the buildings and portfolio. We also obtain title insurance policies when acquiring new properties. We currently have coverage for losses incurred in connection with both domestic and foreign terrorist-related activities. While we do carry commercial general liability insurance, property insurance and terrorism insurance with respect to our properties, these policies include limits and terms we consider commercially reasonable. In addition, there are certain losses (including, but not limited to, losses arising from known environmental conditions or acts of war) that are not insured, in full or in part, because they are either uninsurable or the cost of insurance makes it, in our belief, economically impractical to maintain such coverage. Should an uninsured loss arise against us, we would be required

to use our own funds to resolve the issue, including litigation costs. We believe the policy specifications and insured limits are adequate given the relative risk of loss, the cost of the coverage and industry practice and, in consultation with our insurance advisors, we believe the properties in our portfolio are adequately insured.

Other Commitments and Contingencies

We are a party to various claims and routine litigation arising in the ordinary course of business. Some of these claims or others to which we may be subject from time to time, including claims arising specifically from the formation transactions, in connection with our initial public offering, may result in defense costs, settlements, fines or judgments against us, some of which are not, or cannot be, covered by insurance. Payment of any such costs, settlements, fines or judgments that are not insured could have an adverse impact on our financial position and results of operations. Should any litigation arise in connection with the formation transactions, we would contest it vigorously. In addition, certain litigation or the resolution of certain litigation may affect the availability or cost of some of our insurance coverage, which could adversely impact our results of operations and cash flow, expose us to increased risks that would be uninsured, and/or adversely impact our ability to attract officers and directors.

The terms of our mortgage debt and certain side letters in place include certain restrictions and covenants which may limit, among other things, certain investments, the incurrence of additional indebtedness and liens and the disposition or other transfer of assets and interests in the borrower and other credit parties, and require compliance with certain debt yield, debt service coverage and loan to value ratios. In addition, our revolving credit facility contains representations, warranties, covenants, other agreements and events of default customary for agreements of this type with comparable companies. As of September 30, 2018, we believe we are in compliance with all of our covenants.

Transfer Tax Assessments

During 2017, the New York City Department of Finance issued Notices of Determination (“Notices”) assessing additional transfer taxes (including interest and penalties) in connection with the transfer of interests in certain properties during our 2014 initial public offering. Prior to February 16, 2018, we believed that the likelihood of a loss related to these assessments was remote. On February 16, 2018, the New York City Tax Appeals Tribunal issued a decision against a publicly traded REIT in a case interpreting the same provisions of the transfer tax statute, on similar but distinguishable facts. As a result, after consultation with legal counsel, we now believe the likelihood of loss is reasonably possible, and while it is not possible to predict the outcome of these Notices, we estimate the range of loss could be between \$0 and \$38,900,000. Since no amount in this range is a better estimate than any other amount within the range, we have not accrued any liability arising from potential losses relating to these Notices in our consolidated financial statements.

Inflation

Substantially all of our leases provide for separate real estate tax and operating expense escalations. In addition, many of the leases provide for fixed base rent increases. We believe inflationary increases in expenses may be at least partially offset by the contractual rent increases and expense escalations described above. We do not believe inflation has had a material impact on our historical financial position or results of operations.

Cash Flows

Cash and cash equivalents and restricted cash were \$569,627,000 and \$250,425,000 as of September 30, 2018 and December 31, 2017, respectively. The following table sets forth the changes in cash flow.

Non-GAAP Financial Measures

We use and present NOI, Same Store NOI, FFO and Core FFO, as supplemental measures of our performance. The summary below describes our use of these measures, provides information regarding why we believe these measures are meaningful supplemental measures of our performance and reconciles these measures from net income or loss, the most directly comparable GAAP measure. Other real estate companies may use different methodologies for calculating these measures, and accordingly, our presentation of these measures may not be comparable to other real estate companies. These non-GAAP measures should not be considered a substitute for, and should only be considered together with and as a supplement to, financial information presented in accordance with GAAP.

Net Operating Income (“NOI”)

We use NOI to measure the operating performance of our properties. NOI consists of property-related revenue (which includes rental income, tenant reimbursement income, lease termination income and certain other income) less operating expenses (which includes building expenses such as cleaning, security, repairs and maintenance, utilities, property administration and real estate taxes). We also present Cash NOI, which deducts from NOI, straight-line rent adjustments and the amortization of above and below-market leases, net, including our share of such adjustments of unconsolidated joint ventures. In addition, we present our share of NOI and Cash NOI, which represents our share of NOI and Cash NOI of consolidated and unconsolidated joint ventures, based on our percentage ownership in the underlying assets. We use NOI and Cash NOI internally as performance measures and believe they provide useful information to investors regarding our financial condition and results of operations because they reflect only those income and expense items that are incurred at the property level.

The following tables present reconciliations of net income (loss) to NOI and Cash NOI for the three and nine months ended September 30, 2018 and 2017.

Same Store NOI

The tables below set forth the reconciliations of our share of NOI to our share of Same Store NOI and Same Store Cash NOI for the three months and nine months September 30, 2018 and 2017. These metrics are used to measure the operating performance of our properties that were owned by us in a similar manner during both the current and prior reporting periods, and represents our share of Same Store NOI and Same Store Cash NOI from consolidated and unconsolidated joint ventures based on our percentage ownership in the underlying assets. Same Store NOI also excludes lease termination income, bad debt expense and certain other items that vary from period to period. Same Store Cash NOI excludes the effect of non-cash items such as the straight-lining of rental revenue and the amortization of above and below-market leases.

Funds from Operations (“FFO”) and Core Funds from Operations (“Core FFO”)

FFO is a supplemental measure of our performance. We present FFO in accordance with the definition adopted by the National Association of Real Estate Investment Trusts (“Nareit”). Nareit defines FFO as GAAP net income or loss adjusted to exclude net gains from sales of depreciated real estate assets, impairment losses on depreciable real estate and depreciation and amortization expense from real estate assets, including our share of such adjustments of unconsolidated joint ventures. FFO is commonly used in the real estate industry to assist investors and analysts in comparing results of real estate companies because it excludes the effect of real estate depreciation and amortization and net gains on sales, which are based on historical costs and implicitly assume that the value of real estate diminishes predictably over time, rather than fluctuating based on existing market conditions. In addition, we present Core FFO as an alternative measure of our operating performance, which adjusts FFO for certain other items that we believe enhance the comparability of our FFO across periods. Core FFO, when applicable, excludes the impact of certain items, including, transaction related costs, realized and unrealized gains or losses on real estate fund investments, unrealized gains or losses on interest rate swaps, severance costs and gains or losses on early extinguishment of debt, in order to reflect the Core FFO of our real estate portfolio and operations. In future periods, we may also exclude other items from Core FFO that we believe may help investors compare our results.

FFO and Core FFO are presented as supplemental financial measures and do not fully represent our operating performance. Neither FFO nor Core FFO is intended to be a measure of cash flow or liquidity. Please refer to our consolidated financial statements, prepared in accordance with GAAP, for purposes of evaluating our financial condition, results of operations and cash flows.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk is the risk of loss from adverse changes in market prices and interest rates. Our future earnings, cash flows and fair values relevant to financial instruments are dependent upon prevalent market interest rates. Our primary market risk results from our indebtedness, which bears interest at both fixed and variable rates. We manage our market risk on variable rate debt by entering into swap agreements to fix the rate on all or a portion of the debt for varying periods through maturity. This in turn, reduces the risks of variability of cash flows created by variable rate debt and mitigates the risk of increases in interest rates. Our objective when undertaking such arrangements is to reduce our floating rate exposure and we do not enter into hedging arrangements for speculative purposes. Subject to maintaining our status as a REIT for Federal income tax purposes, we may utilize swap arrangements in the future.

The following table summarizes our consolidated debt, the weighted average interest rates and the fair value as of September 30, 2018.
